\*\* No customer satisfaction survey was performed in 2003 or 2005.

\*\*\* VR&E identified a potential weakness in the program because it had only one outcome measure. Therefore, the SEH Rehab. Rate measure was reinstituted. This measure had been used until 2004.

\*\*\*\* These Common Measures are in support of the President's Management Agenda to integrate budget and performance. Targets for these measures are being developed.

* The ratio of collections to billings was dropped as a measure b	ecause it did	not accurate	ly portray th	e performance	of the VHA

revenue cycle. The ratio of collections to billings was dropped as a measure because in dur not accurately portay the performance of the VTA revenue cycle. The ratio of collections to billings measure is not a key standard in the private sector due to the different strategic positions that health care systems adopt related to pricing and contracting. Collections are considered the best key measure to evaluate overall improvement in collection performance in the private sector.

\*\* This measure was dropped because OMB wanted the measure replaced with a measure that better represented the level of sharing between VA and DoD.

\*\*\* These measures were dropped because they are no longer PART performance measures (as of the 2005 PART for R & D).
