

ARCS PROCEDURE	CLEANING AERI RAIN SENSOR	PRO(AERI)-013.000
Author: TWPO		14 January 2004 Page 1 of 1

## Cleaning AERI Rain Sensor

### I. Purpose:

This document explains how to clean the AERI rain sensor. The AERI rain sensor must be cleaned once a week following this procedure.

### II. Cautions and Hazards:

None.

### III. Requirements:

- Rain water
- Kimwipes

### IV. Procedure:

#### A. Cleaning AERI Rain Sensor

1. Spray the outside of the AERI rain sensor with rain water.
2. Using Kimwipes, gently wipe off excess water on the AERI rain sensor.
3. Repeat steps 1 and 2 two more times (three times total).

### V. References:

None.

### VI. Attachments:
