

ARCS PROCEDURE:	RESETTING THE CIMEL	PRO(CIMEL)-004.000
Author: D. Morrison		October 18, 2001 Page 1 of 1

Resetting the CIMEL

I. Purpose:

This procedure is used when the CIMEL mentor notifies TWPPPO that the CIMEL is not properly reporting.

II. Cautions and Hazards:

None

III. Requirements:

None.

IV. Procedure:

A. Steps:

1. Go to the CIMEL Control Box in the field and open it.
2. Disconnect battery connection on the Cimel box (white box).
3. Disconnect battery on Vitel transmitter (black box).
4. Reconnect both the battery connections on the Cimel and Vitel transmitter.
5. Follow the Cimel procedure (in the Observer's Manual) to reset both the time for the Cimel and the Vitel transmitter.
6. Notify TWPPPO when this procedure is completed so they can check data delivery status.
