Cleaning and Waxing TSI Mirror

I. Purpose:

This procedure describes how to clean and apply wax to the TSI mirror. Cleaning and waxing the TSI mirror is required once a month.

II. Cautions and Hazards:

- The surface of the TSI mirror can be easily scratched. Take extra caution when wiping it.

III. Requirements:

The following items are required for cleaning and waxing the TSI mirror:

- Distilled water
- Window cleaner mixed with distilled water
- Kimwipes or soft cloth
- Car wax
- Soft sponge (for applying wax)
- Masking tape

IV. Procedure:

A. Cleaning TSI Mirror

1. Gently spray or pour distilled water on the TSI mirror.
2. Spray cleaner mixed with distilled water on the mirror.
3. Wipe the mirror clean with Kimwipes or a soft cloth.

B. Waxing TSI Mirror

1. Cover the black strip (on the edge of the mirror) with masking tape.
2. Apply wax to the TSI mirror with a soft sponge. **Note: Do not apply wax to shadow band.**
3. Wipe off wax in radial pattern (i.e., from center to perimeter), NOT circular.
