RE: Technical Assistance for Involvement in Risk Data Sheets Consistency Team (HAB Advice #35) Dear Mr. Wagoner:

The Hanford Advisory Board requests DOE-RL to fund one full-time technical person, selected by the Chair of the Board's Environmental Restoration Committee, to work with the Board and the Consistency Team for the duration of the project. This person would be responsible for coordinating Team efforts with Board members, and keeping the Board up to date on Team actions. The technical person would act in a support role to the Board. Board review will occur through the ER Committee and other appropriate channels.

This independent technical support is necessary for the Board to make an informed evaluation.

We look forward to your written response as required in our charter.

Very truly yours,

Merilyn B. Reeves, Chair
Hanford Advisory Board

cc: Chuck Clarke, Environmental Protection Agency
Mary Riveland, Washington Department of Ecology

This advice represents HAB consensus for this specific topic. It should not be taken out of context to extrapolate Board agreement on other subject matters.
