

**Slide Presentation on Climate Science Now Available  
Through EPA's Global Research Website**

One of the goals of EPA's Global Change Research Program is to make information and presentation materials on climate change readily accessible to the education community. I am pleased to let you know that a PowerPoint slide presentation on "Climate Science and Potential Consequences of Climate Change" is now available on our new EPA Global Research website ([www.epa.gov/globalresearch](http://www.epa.gov/globalresearch)).

The slide presentation can be accessed through the website by following these steps:

- (1) In the left-hand menu bar, click on the icon for "Publications and Presentations."
- (2) At the next web page, scroll down to the bottom of the page and click on the button labeled "Bottom."
- (3) Scroll down to, and click on the heading, "Slide Presentation on Climate Science and Potential Consequences of Climate Change."
- (4) In the left-hand menu bar, click on "Downloads." Then scroll down and click on "View."

The presentation consists of 37 slides which can be downloaded directly to your computer.

Additional information about climate change can be found at the EPA Global Warming website: [www.epa.gov/globalwarming](http://www.epa.gov/globalwarming).

We hope you find this information helpful.
