Carolina Lupus Study Questionnaire Follow-Up 2001-CASES

Thank you for agreeing to take part in this follow-up study. Our questions will cover your recent health, jobs and personal habits. (FOR WOMAN) We will also update the questions about women's health.

The questions will ask you about events from around the time you were diagnosed with lupus up until now.

We understand that some things will be difficult to remember. We would like to have your best possible answer, so please take the time you need to think things over. Also, if you are currently taking any prescription or other medications, would you get them now? [HOLD]

Everything you tell me in the interview will be kept private and confidential, as required by law. Your name does not go on this questionnaire, only an ID number does. But, if for any reason you would rather not answer a question, we can skip it and go on to the next.

Also for your information, my supervisor may be monitoring or listening in on some parts of the interview to assure that I am conducting the interview according to instructions.

First I'd like to check the information we already have. You were born (READ BIRTH DATE FROM CONTACT RECORD) and your age now (AS OF DATE LETTER SENT) is (READ AGE FROM CONTACT RECORD). Is that correct? CIRCLE YES or NO.

[IF CORRECTIONS ARE NEEDED, SLASH AND CORRECT ON THE CALL RECORD.] Do you have any questions before we begin?
