

**ADJUSTED
GROSS
REVENUE-LITE
STANDARDS
HANDBOOK**

Effective for 2007 and Succeeding Insurance Years

Rev. November 2006

Adjusted Gross Revenue-Lite (AGR-Lite) Standards **Effective for 2007 and Succeeding Crop Years**

The Adjusted Gross Revenue Standards Handbook applies to AGR-Lite except as noted below.

1. All references to “pilot county(ies)” in the Adjusted Gross Revenue Standards Handbook shall be regarded as “county(ies)”.
2. The AGR-Lite insurance plan code is *61*.
3. The AGR-Lite insurance crop code is *0061*.
4. The AGR-Lite program is available in the states of *AK, AZ, CO, CT, DE, ID, KS, MA, ME, MD, MN, MT, NC, NH, NV, NM, NJ, NY, OR, PA, RI, UT, VA, VT, WA, WV, WI and WY*. See Exhibit 1 for a list of approved states and counties and Exhibit 2 for the commodity codes applicable to each county.
5. Enter “-Lite” after AGR in the headings of all forms.
6. Producers may not purchase AGR if they purchase AGR-Lite.
7. Producers have the option, but are not required, to purchase other crop insurance plans provided by the Act (except AGR).
8. There is no limitation on the percentage of animal receipts. Therefore, animal receipts may constitute up to 100 percent of the farm sales. However, since RMA has a legislatively limited annual allocation for animal and animal product expenses, insurance may be denied if the allocation for animals and animal products becomes exhausted.
9. The producer must make IRS income tax records for the previous 5 years available for inspection at the time of enrollment to substantiate the five-year income and expense history for AGR-Lite. These records must also be available for inspection upon request by authorized individuals. In the event that a claim is filed, hard copies of these tax forms and any amendments must be provided to us.
10. If the producer purchases either the 75 percent or 80 percent levels of coverage, the historical information required to complete the Agricultural Commodity Profile Reports must be provided for the most recent 2 years used to calculate the AGR-Lite history.
11. An AGR-Lite Histories Calculation Worksheet is provided to transfer the appropriate information from the IRS Schedule F 1040 (for the 5 year histories). This form should be completed according to the instructions provided herein and should be kept in the company’s files.
12. An Actual Commodity Report is provided to record actual farm commodity experience for the year. This form must be completed if an indemnity is to be paid. The adjuster should complete the worksheet according to the instructions provided herein.
13. If an indemnity is to be paid, copies of the tax forms (specifically IRS Schedule F 1040 or other IRS Schedules that contain allowable income and expense information) used to calculate the 5-year histories and the year of the claim must be secured and accompany claim forms.
14. Although IRS Schedule F 1040 is heavily referenced, the policy and the AGR Standards Handbook provide broad authority to use a variety of tax forms when necessary to capture allowable farm income and expenses.
15. See Exhibit 3 for a list of items required at time of application and for annual policy renewal.

COLLECTION OF INFORMATION AND DATA (PRIVACY ACT)

To the extent that the information requested herein relates to your individual capacity as opposed to your business capacity, the following statements are made in accordance with the Privacy Act of 1974, as amended (5 U.S.C. 552a). The authority for requesting information to be furnished on this form is the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) (Act) and the Federal crop insurance regulations contained in 7 C.F.R. chapter IV.

Collection of the social security account number (SSN) or the employer identification number (EIN) is authorized by section 506 of the Act and is required as a condition of eligibility for participation in the Federal crop insurance program. The primary use of the SSN or EIN is to correctly identify you, and any other person with an interest in you or your entity of 10 percent or more, as a policyholder within the systems maintained by the Federal Crop Insurance Corporation (FCIC). Furnishing the SSN or EIN is voluntary; however, failure to furnish that number will result in denial of program participation and benefits.

Your policy also specifies other information that must be provided. The principle purposes of this information are to provide insurance; reinsurance; determine eligibility; determine the correct parties to the agreement; determine and collect premiums or other monetary amounts (including administrative fees and over payments); and pay benefits. The routine uses of this information include: (1) Referral to the appropriate agency, whether Federal, State, local or foreign including the Department of Justice, charged with the responsibility of investigating or prosecuting a violation of law, or of enforcing or implementing a statute, rule regulation or order issued pursuant thereto, of any record within this system when information available indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute or by rule, regulation or order issued pursuant thereto; (2) Disclosure to a court, magistrate or administrative tribunal, or to opposing counsel in a proceeding before a court, magistrate or administrative tribunal, of any record within the system that constitutes evidence on that proceeding, or which is sought in the course of discovery, to the extent that FCIC determines that the records sought are relevant to the proceeding; (3) Disclosure to a congressional office in response to any inquiry from the congressional office made at the request of that individual; (4) Disclosure to Approved Insurance Providers (AIP) for any purpose relating to the sale, service, and administration of the Federal crop insurance program and the policies insured under the authority of the Act; (5) Disclosure to other Federal agencies and contractors, cooperators, and partners of FCIC for the purpose of conducting research, development, analyses, and evaluation into all aspects relating to new and existing crop insurance programs and other risk management tools; (6) Disclosure to contractors or other Federal agencies to conduct research and analysis to identify patterns, trends, anomalies, instances and relationships of AIP's, agents, loss adjusters and policyholders that may be indicative of fraud, waste, and abuse; (7) Disclosure to AIPs, contractors, and other applicable Federal agencies to determine whether information has been accurately provided to FCIC and the AIPs and to determine compliance with program requirements; and (8) Disclosure to AIPs, contractors, cooperators, partners of FCIC, and other Federal agencies for any purpose relating to the sale, service, administration, analysis and evaluation of the Federal crop insurance program. Furnishing other information is also voluntary. However, failure to report the information specified in your policy may result in rejection of any claim for indemnity, replanting payment, or other benefit; ineligibility for insurance; a unilateral determination of any monetary amounts due; or any remedy provided in the policy.

NONDISCRIMINATION STATEMENT

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotope, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination write to:

USDA
 Director, Office of Civil Rights
 1400 Independence Avenue, S.W.
 Washington, D.C. 20250-9410

or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

AGR-Lite Histories Calculation Worksheet Completion Instructions

Verify or make the following entries.

HEADING

Item Information Required

- A. **IRS Accounting Method:** The accounting method (*cash* or *accrual*) used to file income taxes with the IRS for the insurance year.
- B. **Insurance Year:** The current insurance year (e.g., 2007). For a fiscal tax year, also enter the month and year the fiscal year begins and the month and year the fiscal year ends, e.g., 7/01/07 – 6/30/08.
- C. **Producer Information:** The *name* of the insured that identifies exactly the person (a legal entity which must be the same as for income tax purposes) for whom the Farm Report is completed. Enter the insured's complete *address* and *telephone number*. Enter the *social security number* or the *tax identification number* for the entity. Enter the *type of tax entity* (sole proprietor, partnership, a corporation, estate, trust, etc.). Enter the insured's assigned *policy number* (applicable if a carryover policy).
- D. **Agency Information:** The *name, address, telephone number, and code number* of the agent that provides insurance service to the insured.
- E. **State(s) and County(ies):** Enter the applicable state and county or independent city and codes in which agricultural commodities will be produced that are expected to generate allowable income. [See Part 3, Section 20, Par. (B) for complete instructions.]
- F. **Other Insurance:** Enter the *commodities* on which other insurance policies are in force and the corresponding *policy numbers* (if applicable).

PART I INCOME

- G. **Tax Year(s):** Enter the IRS tax years, in the top box of each column under Item G corresponding to the allowable income and allowable expenses for each tax year reported for AGR history purposes (e.g., for 2007 insurance year, enter 2005, 2004, 2003, 2002, 2001). Five tax years are required to document the historic revenue. Entities, in the business of farming, that do not file the Schedule F for tax purposes must complete substitute Forms Schedule F to be eligible for AGR-Lite coverage. This is necessary to account for allowable income and expenses in the same manner as producers who file the Schedule F form.

1040F Line #: Enter the allowable income (rounded to the nearest whole dollar) taken from the applicable IRS tax records for each tax year. More detailed instructions are provided in the AGR Standards Handbook, Sections 6 and 19. If allowable income is reported on other lines or on other schedule forms, it may be utilized (see AGR-Lite Policy, Section 1 – Allowable Income).

- H. **Allowable Income:** Total the columns for each tax year.

I. **Indexing calculations (if applicable):** (*Calculations of AGR*)

Preliminary Adjusted AGR: Agents must calculate and enter preliminary AGRs on the Farm report for new insureds. Preliminary AGRs are necessary to provide applicants with estimated premium and estimated coverage that will be provided. The preliminary AGR is calculated using the same procedures as used to calculate the approved AGR. The approved AGR must be issued by the insurance provider verifier. If the approved AGR is less than 95 percent of the preliminary AGR, the insured may submit a written request for reconsideration or request mutual cancellation of the AGR policy. Such requests must be made within 30 calendar days of the date the approved AGR was mailed or was otherwise made available to the insured.

Indexed average AGRs (if applicable): Indexed average AGRs may be calculated for operations with increasing revenue and may increase the effective coverage. To qualify for indexing: 1) at least one of the two most recent tax year's allowable income (in the AGR base period) must be greater than the average AGR, and 2) the insurance year's total expected income (Item 18, Intended Agricultural Commodity Report) indicated on the Annual Farm Report, as approved by the insurance provider, must be greater than the average AGR. Note: If the income trend factor is greater than 1.000, average expenses must be indexed in the same manner.

Calculate indexed average AGR as follows. (Note: The premium calculator on the RMA Web Page automatically calculates the indexes.)

Step 1: Divide each tax year's allowable income, (line H) for each year by the preceding tax year's allowable income and round to three decimal places. The factor may not exceed 1.200 (20% cap) or be less than .800 (20% cup).

Example: (2002's allowable income \$110,000) ÷ (2001's allowable income 100,000) = 1.100

(2003's allowable income \$134,000) ÷ (2002's allowable income \$110,000) = 1.218 (capped at 1.200)

Capping Example: If 2002's allowable income was \$70,000 ÷ 2001's allowable income was \$100,000 = .700 would be cupped at .800.

Step 2: Total the results obtained in Step 1, divide by four, rounding to three decimal places. Multiply the result by itself three times (fourth power). The index is cupped at 1.000 so will never be lower than one.

Example: (1.100 + 1.200 + 0.900 + 1.200) ÷ 4 = 1.100⁴ = 1.464

Step 3: Multiply the income trend factor obtained in Step 2 times the average AGR and round to the nearest dollar.

Example: Average AGR \$121,920 X 1.464 = \$178,490

J. **5-Year Total Adjusted AGR:** Total the annual income for the 5 years (add line H across).

K. **5-Year Average Preliminary Adjusted AGR:** Calculate the average AGR by dividing Item J by 5.

L. **AGR Index Factor:** Calculate this factor according to the instructions in I, Steps 1 and 2, above. (The factor in example above is 1.464.)

M. **Indexed Adjusted Preliminary AGR (if applicable):** Calculate by multiplying the entries on lines K times L.

PART II EXPENSES

N. **Tax Year(s):** Repeat the entries shown under Part I, item G, above at the top of each column. (For 2007 insurance year, enter 2005, 2004, 2003, 2002, 2001).

1040F Line #: Enter the expense information for each line for each year (rounded to the nearest whole dollar) from applicable IRS tax records. More detailed instructions are provided in the AGR Standards Handbook. The allowable expenses for five consecutive tax years are used to calculate the average allowable expenses. Allowable expenses that are incurred but not shown on tax forms because they are already subtracted from income (producer reported net sales income) will be used to calculate approved expenses and allowable expenses for the insurance year.

O. **Subtotal (line 35 plus Part I line 2):** Calculate the subtotal for each year by adding the two lines above line O.

P. **Subtotal (lines 16 through 31):** Total lines 16 through 31 of each column.

Q. **Allowable expenses (line O minus line P):** Subtract line P from line O in each column.

R. **Indexing calculation (if applicable):**

Step 1: Divide each tax year's allowable expenses (line Q) by the preceding tax year's allowable expenses and round to three decimal places. The factor may not exceed 1.200 (20% cap) or be less than .800 (20% cup).

Example: (2002's allowable expenses are \$95,000) ÷ (2001's allowable expenses are \$93,500) = 1.016
(2003's allowable expenses \$107,200) ÷ (2002's allowable expenses \$95,000) = 1.129, and etc.

Cupping Example: If 2002's expenses were \$70,000 ÷ 2001's allowable expenses were \$93,500 = .749 would be cupped at .800.

Step 2: Total the results obtained in Step 1, divide by four, and round to three decimal places. Multiply the result by itself three times (fourth power).

Example: (1.016 + 1.129 + 0.950 + 1.200 = 4.295) ÷ 4 = 1.074⁴ = 1.331

Step 3: Multiply the expense trend factor obtained in Step 2 times the average allowable expenses and round to the nearest dollar.

Example: Average allowable expenses \$103,632 X 1.331 = \$137,934

Indexed expenses (if the approved AGR is based on indexing):

Calculate indexed average expenses as follows: (Note: The premium calculator on the RMA Web Page automatically calculates the indexes.)

Factored down if the approved AGR is less than the average allowable income. The average of the allowable expenses is multiplied by the factor (to three decimal places) resulting from dividing the approved AGR by the average of the allowable income.

Example: If the approved AGR is \$80,000, the average allowable income is \$100,000, and the average allowable expenses are \$90,000, the approved expenses are: \$90,000 X (\$80,000 ÷ \$100,000) = \$72,000.

Factored up if eligible for indexed AGR and the approved AGR is greater than the average allowable income and less than the indexed AGR. The average allowable expenses are multiplied by the factor (to three decimal places) resulting from dividing the approved AGR by the average of the allowable income.

Example: If the approved AGR is \$120,000, the average allowable income is \$100,000, and the indexed AGR is \$146,400, and the average allowable expenses is \$90,000; the approved expenses are $\$90,000 \times (\$120,000 \div \$100,000) = \$108,000$.

Issuance of Approved AGR: The approved AGR is issued by the insurance provider (verifier) and is used to calculate the insured's AGR coverage and premium. The agent's calculation is preliminary for estimation purposes.

- S. **5-Year Total Adjusted Expenses:** Total the annual expenses for the 5 years (line Q across).
- T. **5-Year Average Preliminary Adjusted Expenses:** Calculate the average allowable expenses by dividing item S by 5.
- U. **Page ___ of ___ Pages:** If more than one sheet, so indicate (e.g., 1 of 2).

Note: If the individual qualifies for an Indexed AGR, the allowable expenses must be indexed as well.

- V. **Expenses Index Factor:** Calculate this factor according to the instructions for R, Steps 1 and 2, above. (Factor in example is 1.331.)
- W. **Indexed Adjusted Preliminary Expenses (if applicable):** Calculate by multiplying the entries on lines T times V.
- X. **Notes:** Include specific notations that explain unique information above. (Example: Original tax forms were schedule C rather than schedule F.)
- Y. **Producer's Signature and Date:** Producer must sign and date, certifying to the accuracy of the data.
- Z. **Agent's Signature and Date:** Agent must sign and date.

TRANSFER OF INFORMATION

The applicable information from lines H through M and Q through W (excluding V) must be transferred to the Annual Farm Report, columns 7 through 9. Also complete Items 19A and 20 of the Annual Farm Report.

RETENTION OF HISTORIES CALCULATION WORKSHEET

This worksheet must remain a part of the applicant's official file.

COLLECTION OF INFORMATION AND DATA (PRIVACY ACT)

To the extent that the information requested herein relates to your individual capacity as opposed to your business capacity, the following statements are made in accordance with the Privacy Act of 1974, as amended (5 U.S.C. 552a). The authority for requesting information to be furnished on this form is the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) (Act) and the Federal crop insurance regulations contained in 7 C.F.R. chapter IV.

Collection of the social security account number (SSN) or the employer identification number (EIN) is authorized by section 506 of the Act and is required as a condition of eligibility for participation in the Federal crop insurance program. The primary use of the SSN or EIN is to correctly identify you, and any other person with an interest in you or your entity of 10 percent or more, as a policyholder within the systems maintained by the Federal Crop Insurance Corporation (FCIC). Furnishing the SSN or EIN is voluntary; however, failure to furnish that number will result in denial of program participation and benefits.

Your policy also specifies other information that must be provided. The principle purposes of this information are to provide insurance; reinsurance; determine eligibility; determine the correct parties to the agreement; determine and collect premiums or other monetary amounts (including administrative fees and over payments); and pay benefits. The routine uses of this information include: (1) Referral to the appropriate agency, whether Federal, State, local or foreign including the Department of Justice, charged with the responsibility of investigating or prosecuting a violation of law, or of enforcing or implementing a statute, rule regulation or order issued pursuant thereto, of any record within this system when information available indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute or by rule, regulation or order issued pursuant thereto; (2) Disclosure to a court, magistrate or administrative tribunal, or to opposing counsel in a proceeding before a court, magistrate or administrative tribunal, of any record within the system that constitutes evidence on that proceeding, or which is sought in the course of discovery, to the extent that FCIC determines that the records sought are relevant to the proceeding; (3) Disclosure to a congressional office in response to any inquiry from the congressional office made at the request of that individual; (4) Disclosure to Approved Insurance Providers (AIP) for any purpose relating to the sale, service, and administration of the Federal crop insurance program and the policies insured under the authority of the Act; (5) Disclosure to other Federal agencies and contractors, cooperators, and partners of FCIC for the purpose of conducting research, development, analyses, and evaluation into all aspects relating to new and existing crop insurance programs and other risk management tools; (6) Disclosure to contractors or other Federal agencies to conduct research and analysis to identify patterns, trends, anomalies, instances and relationships of AIP's, agents, loss adjusters and policyholders that may be indicative of fraud, waste, and abuse; (7) Disclosure to AIPs, contractors, and other applicable Federal agencies to determine whether information has been accurately provided to FCIC and the AIPs and to determine compliance with program requirements; and (8) Disclosure to AIPs, contractors, cooperators, partners of FCIC, and other Federal agencies for any purpose relating to the sale, service, administration, analysis and evaluation of the Federal crop insurance program. Furnishing other information is also voluntary. However, failure to report the information specified in your policy may result in rejection of any claim for indemnity, replanting payment, or other benefit; ineligibility for insurance; a unilateral determination of any monetary amounts due; or any remedy provided in the policy.

NONDISCRIMINATION STATEMENT

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination write to: **USDA** or call (800) 795-3272 (voice) or (202) 720-6382 (TDD).
 Director, Office of Civil Rights
 1400 Independence Avenue, S.W.

Actual Commodity Report Completion Instructions

Complete at time of claim.

Verify or make the following entries.

HEADING

Item Information Required

- A. **IRS Reporting Method:** The accounting method (*cash* or *accrual*) used to file income taxes with the IRS for the insurance year.
- B. **Insurance Year:** The insurance year that coverage will be in effect (e.g., 2007). For a fiscal tax year different than calendar year, enter the month and year the fiscal year begins and the month and year the fiscal year ends (e.g., 7/01/07 – 6/30/08).
- C. **Producer Information:** The *name* of the insured that identifies exactly the person (a legal entity which must be the same as for income tax purposes) for whom the Actual Commodity Report is completed. Enter the insured's complete *address* and *telephone number*. Enter the *social security number* or the *tax identification number* for the entity. Enter the *type tax entity* (sole proprietor, partnership, corporation, estate, trust, etc.).
- D. **Agency Information:** The *name*, *address*, *telephone number*, and *code number* of the agent that provides insurance service to the insured. Also enter the insured's assigned policy number (applicable if a carryover policy).
- E. **State(s) and County(ies):** Enter the applicable state and county or independent city and codes in which agricultural commodities will be produced that are expected to generate allowable income. [See Part 3, Section 20, Par. (B) for complete instructions.]
- F. **Other Insurance:** Enter the *commodities* on which other insurance policies are in force and the corresponding *policy numbers* (if applicable).

ACTUAL COMMODITY REPORT

- G. **Commodity Name and Code:** Enter the name of any agricultural commodity that was produced or purchased for resale during the insurance year. Commodities fed or to be fed to animals on the farm are counted as animal production and therefore are not listed. (See Exhibit 2 for the acceptable breakdown of commodities and their codes). The insurance provider must enter the applicable agricultural commodity code. Each different agricultural commodity must be listed on a separate line. Commodities purchased for resale must also be listed. If purchased for resale, place "PR" immediately behind the agricultural commodity's name.

If more than one production cycle/harvest of the agricultural commodity is harvested during the insurance year, the acreage, production, and income may be summed on a single line. For crops produced in a greenhouse, enter "greenhouse". If more than one greenhouse is accounted for on one line, enter the number of greenhouses immediately behind "greenhouse".

- H. **Amount (acres, # head, area, etc.):** For field crops, enter the number of acres to tenths that produced (e.g., 40.0 acres of processing cucumbers) and if a perennial crop, list ONLY bearing acres. For animals, enter the number produced during the insurance year. For commodities grown in greenhouses, enter the total square feet for the number or greenhouses listed on the line. For commodities purchased for resale, enter the total number/amount purchased for resale. For animal products (milk, wool, honey, etc.) enter the total tons, hundredweight, or pounds respectively that were produced.
- I. **Yield or Quantity Produced:** Enter the total amount of the commodity produced per unit. Enter the abbreviation for the unit of measure after the total amount of production. For data acceptance purposes, a numeric code corresponding to the unit of measure must be submitted. See Exhibit 5 of the AGR Standards Handbook for unit of measures, abbreviations, and unit numeric codes.
- J. **Value (price per unit):** Enter the average value (contracted value if produced under a contract with a specified price) of the agricultural commodity in the unit of measure marketed (tons, cwt., bu., lbs., etc.). For example, the average market price of cucumbers (processing) is \$155 per ton; therefore, \$155 is entered. For crops produced in a greenhouse, enter the gross income per square foot relative to the crops produced. For commodities purchased for resale (exception: animals marketed in pounds) enter the market price less the cost or other basis. For animals that are marketed in pounds, enter the average market price. If the commodity is sold, use the actual average value. If the commodity is not sold, use the value assigned on the ending inventory report.
- K. **Total Value:** Enter the total dollars or value from each agricultural commodity (by line) produced during the insurance year. Multiply column H times column I times column J and enter the result in column K.
Example: 10 acres X 2.2 tons per acre X \$155 per ton = \$3,410.
- L. **Total Income:** Enter the sum of the dollars reported in column K for all commodities reported. Round to the nearest whole dollar.
- M. **Blank Section**
- N. **Notes:** Document any changes to the farming operation for the insurance year that changed the expected income as compared to the historic AGR. [See AGR Standards Handbook for additional instructions.] Changes such as tax entity, tax accounting method, the size of the farming operation (decrease in acreage or share), marketing method to be used (fresh market, processing, wholesale, retail), condition of a perennial crop, removal of perennial crop's root stock, failure to replace expendable commodities, etc., must be reported. The estimated effect of the change to the AGR must be described in detail.
- O. **Page ___ of ___ Pages:** If more than one sheet, so indicate (e.g., 1 of 2).
- P. **Producer's Signature and Date:** The insured must sign and date, certifying to the accuracy of the data. Insurance providers may not accept unsigned Actual Commodity Reports.
- Q. **Agent's Signature and Date:** The insurance agent's signature and date.
- R. **Page ___ of ___ Pages:** If more than one sheet, so indicate (e.g., 2 of 2).

Exhibit 1

List of States and Counties where AGR-Lite Program is approved for 2007 and succeeding years

State	Approved Counties
Alaska	All boroughs except North Slope and Northwest Artic (Kobuk)
Arizona	All counties
Colorado	All counties except Chaffee, Custer, Eagle, Fremont, Grand, Jackson, Lake, Park, Pitkin, Routt, and Summit
Connecticut	All counties
Delaware	All counties
Idaho	All counties
Kansas	All counties
Maine	All counties
Maryland	All counties except Baltimore City
Massachusetts	All counties
Minnesota	All counties
Montana	All counties
Nevada	All counties
New Hampshire	All counties
New Jersey	All counties except Hudson
New Mexico	All counties
New York	All counties except Bronx, Hamilton, Kings, Nassau, New York, Putnam, Queens, Richmond, Rockland, and Westchester
North Carolina	All counties
Oregon	All counties
Pennsylvania	All counties except Philadelphia
Rhode Island	All counties
Utah	All counties
Vermont	All counties
Virginia	All Counties and Independent Cities
Washington	All counties
West Virginia	All counties
Wisconsin	All counties
Wyoming	All counties

Exhibit 1, Continued

Use the following information to determine which category your state and county are in.
Refer to the AGR Standards Handbook for categories and states not listed here.
