VA can, however, forward a message from you to the veteran, providing VA has a current address on record.

Write your message to your friend and place it in an unsealed, stamped envelope. Include a note to VA explaining who it is that you are trying to reach and add as much identifying information as you have. Put all of this in another envelope and address it to the nearest VA Regional Office.

If the veteran is in VA records, your message to the veteran will be sealed and the envelope will be sent to the address on file for the veteran. It is then up to the veteran to contact you. This process is designed to protect the privacy of veterans as required by law. If you have questions, you may call VA at 1-800-827-1000.

22. I have been out of the military for more than 10 years. How do I get an extension to my GI bill educational benefits?

Response: Montgomery GI Bill (Chapter 30) Benefits end 10 years from the date of your last discharge or release from active duty. If your benefits expire mid-term, your benefits are extended to the end of the term or semester. (Example: Your benefits expire in November but the course ends in December. You will be paid for December.)

The delimiting date can be extended past your 10-year period if you were prevented from attending classes due to:

A severe disability, or

You were held against your will by a foreign government or power.

The delimiting date is only extended by the amount of time you prevented from attending classes.

VA can also extend your 10-year period if you reenter active duty for 90 days or more after becoming eligible. The extension ends 10 years from the date of separation from the later period. Periods of active duty of less than 90 days can qualify you for extensions only if you were separated for:

A service-connected disability

A medical condition existing before active duty

Hardship, or

A reduction in force.

If your benefit eligibility is based on two years of active duty and four years in the Selected Reserve, you have 10 years from your release from active duty, or 10 years from the completion of the four-year Selected Reserve obligation to use your benefits, whichever is later.
