Payment Yields and Revenues for Cotton

BACKGROUND

On July 3, 2007, PM-07-032 was issued releasing approved Group Risk Plan (GRP) Payment Yields for Cotton and Group Risk Income Protection (GRP) Plan Final County Yields and County Revenues for Cotton. Subsequent to that release and after further review and analysis of available data, the National Agricultural Statistics Service has provided the Risk Management Agency changes to correct several county estimates. The changes affect the following Georgia cotton counties with GRP and GRIP programs: Brooks (027), Colquitt (071), Crisp (081), Dooly (093), Mitchell (205), and Worth (321).

ACTION

GRP Payment Yields and GRP Final County Yields and County Revenues are corrected for the six Georgia counties identified above resulting in changes to the calculated payment factors used for determining indemnities. These payment yields, final county yields, and county revenues have been incorporated into the Actuarial Data Master and are also available on the Risk Management Agency website at:
