

STATE OFFSHORE ADMINISTRATIVE BOUNDARIES ATLANTIC REGION

The Administrative boundaries shown on this map have been computed with the latest National Baseline, except for Georgia which is still in the process of being re-computed. All coordinate values are pending final review. The Administrative boundaries have been clipped at each end by the Submerged Lands Act (SLA) boundary and the U.S. 200 NM Limit, and will ambulate with them.

Note:
The Maritime boundaries and limits shown above are for initial planning purposes only and do not prejudice or affect United States jurisdiction in any way.
