1 Incidence rates represent the number of injuries and illnesses per 10,000 full-time workers and were calculated as: (N/EH) $\times 20,000,000$ where
$\begin{array}{ll}\mathrm{N} & =\text { number of injuries and illnesses } \\ \mathrm{EH} & =\text { total hours worked by all employees } \\ \text { during the calendar year } \\ 20,000,000 & =\text { base for } 10,000 \text { equivalent full-time workers }\end{array}$
$\begin{aligned} 20,000,000= & \text { base for } 10,000 \text { equivalent full-time workers } \\ & \text { (working } 40 \text { hours per week, } 50 \text { weeks per year) }\end{aligned}$
2 Days-away-from-work cases include those that result in days away from work with or without job transfer or restriction.

3 Totals include data for industries not shown separately

8 Data for Mining (Sector 21 in the North American Industry Classification

System-- United States, 2002) include establishments not governed by the Mine Safety and Health Administration rules and reporting, such as those in Oil and Gas Extraction and related support activities. Data for mining operators in coa metal, and nonmetal mining are provided to BLS by the Mine Safety and Health Administration, US. Department of Labor. Independent mining contractors are excluded from the coal, metal, and nonmetal mining industries. These data do not reflect the changes the Occupational Safety and Health Administration made not reflect the changes the Occupational Safety and Health Administration made
to its recordkeeping requirements effective January 1, 2002; therefore, estimates for these industries are not comparable to estimates in other industries.

9 Data for mining operators in this industry are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor. Independent mining contractors are excluded. These data do not reflect the changes the Occupational Safety and Health Administration made to its recordkeeping requirements effective January 1, 2002; therefore, estimates for these industries are not comparable to estimates in other industries.
10 Data for employers in rail transportation are provided to BLS by the Federal Railroad Administration, U.S. Department of Transportation

1 Less than 0.05 cases per 10,000 full-time workers.
