Purpose of Form

Use Form 8834 to claim the qualified electric vehicle credit as shown on Schedule K-1 from a partnership or S corporation. Form 8834 is also used to claim any qualified electric vehicle passive activity credits.

Qualified Electric Vehicle

A qualified electric vehicle is any motor vehicle if all of the following apply.

- Manufactured primarily for use on public streets, roads, and highways, and has at least four wheels.
- Powered primarily by an electric motor drawing current from rechargeable batteries, fuel cells, or other portable sources of electrical current.
- Originally used by you.
- Acquired for your own use and not for resale.

Exceptions. The qualified electric vehicle credit does not apply to vehicles that are:

- Operated exclusively on a rail or rails,
- Used primarily outside the United States,
- Used by a governmental unit or agency or any foreign person or entity, or
- Used by a tax-exempt organization (other than a section 521 farmers' cooperative) unless the property is used mainly in an unrelated trade or business taxed under section 511.

See section 50(b) for details and other exceptions that may apply.

Alternative motor vehicles that are not powered primarily by an electric motor are not qualified electric vehicles. However, they may qualify for the alternative motor vehicle credit. See Form 8910, Alternative Motor Vehicle Credit, for more details.

Recapture of Credit

If the vehicle no longer qualifies for the credit within 3 years of the date you placed it in service, you must recapture part or all of the credit. The property will cease to qualify if it is changed in either of the following ways.

1. The vehicle is modified so that it is no longer primarily powered by electricity.
2. It becomes nonqualifying property.

Generally, no recapture occurs on the sale or other disposition of the vehicle (including a disposition resulting from an accident or other casualty). However, if the vehicle will be modified after you dispose of it so that it no longer qualifies for the credit, the credit may be subject to recapture.

For more information on the recapture of the credit, see Regulations section 1.30-1(b).

Specific Instructions

Line 2

Enter the amount of any credits included on line 1 that are from a passive activity. Generally, a passive activity is a business activity in which you did not materially participate. Rental activities are generally passive activities, whether or not you materially participate. See Form 8582-CR, Passive Activity Credit Limitations, or Form 8810, Corporate Passive Activity Loss and Credit Limitations, for details.

Line 4

Enter the qualified electric vehicle passive activity credits allowed for 2007 from Form 8582-CR or Form 8810. See the instructions for the applicable form for more information.

Line 9

Although you may not owe alternative minimum tax (AMT), you generally must still figure the tentative minimum tax (TMT) to figure your credit. For a small corporation exempt from the AMT under section 55(e), enter -0-. Otherwise, complete and attach the applicable AMT form or schedule and enter the TMT on line 9.

Line 11

If you cannot use part of the credit because of the tax liability limit, the unused credit is lost. The unused or excess credit cannot be carried back or forward to other tax years.
