TREASURY OFFERS 10-YEAR TREASURY INFLATION-PROTECTED SECURITIES (TIPS)

The Treasury will auction \$8,000 million of 10-year Treasury inflation-protected securities to refund the outstanding adjusted amount of \$19,389 million of publicly held securities maturing on January 15, 2008, and to pay down approximately \$11,389 million.

In addition to the public holdings, Federal Reserve Banks hold the outstanding adjusted amount of \$2,412 million of the maturing securities for their own accounts, which may be refunded by issuing additional amounts of the new security.

Up to \$1,000 million in noncompetitive bids from Foreign and International Monetary Authority (FIMA) accounts bidding through the Federal Reserve Bank of New York will be included within the offering amount of the auction. These noncompetitive bids will have a limit of \$100 million per account and will be accepted in the order of smallest to largest, up to the aggregate award limit of \$1,000 million.

Treasury Direct customers have scheduled purchases of approximately \$9 million into the 10-year Treasury inflation-protected security.

The auction will be conducted in the single-price auction format. All competitive and noncompetitive awards will be at the highest yield of accepted competitive tenders. The allocation percentage applied to bids awarded at the highest yield will be rounded up to the next hundredth of a whole percentage point, e.g., 17.13%.

The securities being offered today are eligible for the STRIPS program.

This offering of Treasury securities is governed by the terms and conditions set forth in the Uniform Offering Circular for the Sale and Issue of Marketable Book-Entry Treasury Bills, Notes, and Bonds (31 CFR Part 356, as amended).

Details about the security are given in the attached offering highlights.
