

# Philadelphia Metropolitan Division

## Selected Indicators

This fact sheet presents recent **employment and unemployment, price, and pay data** for Pennsylvania, the Philadelphia-Camden-Wilmington Metropolitan Statistical Area (MSA), the Philadelphia Metropolitan Division (MD), and the United States. The **Consumer Price Index (CPI)** measures price changes, or inflation, for particular commodities and services at the retail level. The **Producer Price Index (PPI)** measures price changes, or inflation, for particular commodities and services at the wholesale level and is widely used by business firms as an escalator in long-term contracts. The **Employment Cost Index (ECI)** measures price changes, or inflation, of labor costs, which includes wages and salaries and employer costs for employee benefits. An **occupational pay relative** is a calculation of pay (wages, salaries, commission, and production bonuses) for a given metropolitan area relative to the nation as a whole; the calculation controls for differences among areas in occupational composition, establishment and occupational characteristics, and the fact that data are collected for areas at different times during the year.
