

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

Electronics and Photonics Technology Office

1999 ATP National Meeting, November 15-17, 1999

<http://www.atp.nist.gov/nationalmeeting/>

Microelectronics Manufacturing Infrastructure

We invite your participation and input!

- ☑ Discuss opportunities for future ATP EPTO partnerships
- ☑ Assist American companies in competing in future ATP electronics competitions
- ☑ Review activities of ATP projects and NIST supported metrology R&D

*Make plans to attend the ...
Microelectronics*

Manufacturing Workshop

November 15-16, 1999

DoubleTree Hotel, San Jose, CA

We encourage your involvement ...

Help explore the technical barriers confronting electronics manufacturing for the 21st Century and update ATP EPTO technology priorities.

In cooperation with ...

- ☑ Explore highest priority technical barriers confronting electronics manufacturing, e.g. cooling; interconnect technology; extending the limits of CMOS technology; RF; factory integration; modeling, simulation & design tools; environmentally sustainable electronics

We invite you to attend ATP's Proposers' Conference and Technology Showcase
