

1999 ATP National Meeting, November 15-17, 1999

<http://www.atp.nist.gov/nationalmeeting/>

Organic Electronics Technologies

We invite your participation and input!

✓ Explore high priority technical barriers for components or devices in future electrical and optical systems, including functions such as imaging or patterning, logic, memory, interconnecting, displaying or illumination, power or sources, sensing, and actuating.

*Make plans to attend the ...
Organic Electronics
Technology Workshop
November 17, 1999
DoubleTree Hotel, San Jose, CA*

We want to hear from you ...

Help explore the technical barriers and business opportunities confronting U.S. commercialization of organic electronic technologies.

- ✓ Assist American companies in competing in future ATP solicitations
- ✓ Guide ATP EPTO in determining its role in organic electronics R&D
- ✓ Review existing ATP projects
- ✓ Better understand how ATP EPTO can be a vehicle to enhance U.S. manufacturing

We invite you to attend ATP's Proposers' Conference and Technology Showcase
