Investigation Nos. AA1921-197 (Second Review); 701-TA-319, 320, 325-327, 348 and 350 (Second Review); and 731-TA-573, 574, 576, 578, 582-587, 612, and 614-618 (Second Review)

Certain Carbon Steel Products from Australia, Belgium, Brazil, Canada, Finland, France, Germany, Japan, Korea, Mexico, Poland, Romania, Spain, Sweden, Taiwan, and the United Kingdom

**DETERMINATION**

On the basis of the record<sup>1</sup> developed in the subject five-year reviews, the United States International Trade Commission (Commission) determines, pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)) (the Act), that revocation of the antidumping duty orders on cut-to-length carbon steel plate from Belgium, Brazil, Finland, Germany, Mexico, Poland, Romania, Spain, Sweden, and the United Kingdom, and the antidumping finding on cut-to-length carbon steel plate from Taiwan, as well as revocation of countervailing duty orders on cut-to-length carbon steel plate from Belgium, Brazil, Mexico, Spain, and Sweden, would not be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

The Commission further determines that revocation of the antidumping duty orders on corrosion-resistant steel from Germany and Korea and the countervailing duty order on corrosion-resistant steel from Korea would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time. Finally, the Commission determines that revocation of the antidumping duty orders on corrosion-resistant steel from Australia, Canada, France, and Japan, as well as the countervailing duty order on corrosion-resistant steel from France, would not be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.<sup>2</sup>
