## CEMENT IN JUNE 2008

This report provides monthly data on the shipments of cement to final customers, and the production of clinker, in the United States from January 2007 through the current month.<sup>1</sup> The current report contains extensive revisions to the data for, primarily, northern California and Puerto Rico. Data on the imports of cement and clinker for the current month are also provided.

Total shipments of portland and blended cement in the United States and Puerto Rico for June 2008 were about 9.3 million metric tons (Mt). This was about 14% lower than shipments in June 2007 (tables 2A and 2B). Year-to-date shipments were 47.3 Mt, down by about 13% from those of the same period in 2007. The leading producing States (Texas, California, Michigan, Pennsylvania, and Missouri, in descending order) shipped about 36% of the June total (table 1A). The leading consuming States (Texas, California, Florida, Illinois, and Georgia, in descending order) received about 35% of June's total shipments (tables 2A and 2B).

Clinker production totaled about 7.1 Mt, about 5% lower than the production in June 2007 (table 4). Year-to-date production

was 39.4 Mt, down by about 7% compared with that of the same period in 2007. The leading clinker-producing States (Texas, California, Pennsylvania, Florida, and Alabama, in descending order) produced about 42% of the June total.

Masonry cement shipments in June of about 299,000 metric tons were about 26% lower than shipments for June 2007 (table 2C). Year-to-date shipments were 1.62 Mt, down by about 28% from those of the same period in 2007. The leading consuming States in June, in descending order, were Florida, Texas, California, Georgia, and North Carolina, and these States received about 46% of June's total shipments.

Tables 5, 6, and 7 contain import data from the U.S. Census Bureau. Data for clinker imports into the Seattle and possibly the Detroit customs districts are likely incomplete owing to some shipments arriving overland from Canada on an informal entry basis. June 2008 imports of cement and clinker were about 2.2 Mt, down by about 12% from imports in June 2007. Year-to-date imports were 7.3 Mt, down by about 37%.

An e-mail notification will be sent to MI-CEMENT list service subscribers when new publications or data releases become available. For more information, refer to USGS Minerals Information Publication List Services at: <http://minerals.usgs.gov/minerals/pubs/listservices.html>.

<sup>1</sup>Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report. Data for the current month may contain revisions (not indicated by footnotes) received since the publication of the preliminary edition of the current month's report.
