(2) The facility's plan for environment enhancement states that each enclosure will have toys suitable for the species. In room C2 there are 6 nonhuman primates housed in enclosures with no toys. The facility must follow its primate plan for environment enhancement to promote the psychological well-being of the nonhuman primates.. Correct by February 28, 2006.

(3) The facility's written plan for environment enhancement does not include capuchin monkeys housed in room A2. This species must be added to the environment enhancement plan to promote the psychological well-being of the nonhuman primates. Discussed updating the plan last revised in 2003.
