Inspection

Type: ROUTINE INSPECTION

Date: JUN-22-2006

**3.31 ( b )**

**SANITATION.**

Section 3.31(b) Housekeeping: Premises shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in this subpart.

The following items need to be addressed.

(1) The animal rooms are lighted by florescent light tubes without covers for the light fixtures. If the light tubes shatter the pieces can fall into the animal enclosures and injure the animals. The light tubes need covers to protect the animals from injury.

(2) The tank of CO2 standing on the floor needs to be secured to prevent the tank from falling over and becoming a projectile missile through the facility.

Correct both by July 7, 2006.
