3.31 (b)

SANITATION.

Housekeeping. "Premises (buildings and grounds) shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in this subpart. Premises shall remain free of accumulations of trash."

The shipping room housing rabbits, guinea pigs, and hamsters has guinea pig droppings along the back wall. Plastic tubs, metal cans, and other items are stored in corners. The floor needs to be cleaned on a regular basis. Items should not be stored in corners or against the walls to prevent hiding and living areas for animals.
