DIVISION C – ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Energy and Water Development Appropriations Act, 2008 (H.R. 2641 and S. 1751) passed by the House of Representatives and reported by the Senate Appropriations Committee.

The language and allocations set forth in House Report 110-185 and Senate Report 110-127 should be complied with unless specifically addressed to the contrary in the amended bill and explanatory statement. Report language included by the House which is not contradicted by the report of the Senate or the explanatory statement, and Senate report language which is not contradicted by the report of the House or the explanatory statement, is approved. The explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House report and Senate report address a particular issue not specifically addressed in the amended bill or explanatory statement, the House report and Senate report are not inconsistent and are to be interpreted accordingly. In cases in which the House or Senate have directed the submission of a report, such report is to be submitted to both House and Senate Committees on Appropriations.

TITLE I

CORPS OF ENGINEERS—CIVIL DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The summary tables included in this title set forth the dispositions with respect to the individual appropriations, projects and activities of the Corps of Engineers. Additional items of the amended bill are discussed below.

PROGRAM MANAGEMENT AND EXECUTION

The Appropriations Committees agree that continued improvements in the Corps' program management and execution are necessary and appropriate; previous direction regarding these areas is refined. The civilian and military leadership of the Corps of Engineers should continue to manage the Corps of Engineers and the Civil Works program in a manner consistent with Congressional intent.

Fiscal year 2008 budget initiatives.—The Administration's proposals to appropriate the Operations and Maintenance account on a regional basis and to migrate four categories of projects from the Construction account to the Operations and Maintenance account are rejected. The Appropriations Committees support a systemized budget for operating projects; however, the Corps has not yet demonstrated the value of this approach. The Corps is directed to prepare four systemized, integrated budgets for

four different areas of the Nation – the Ohio River, the Great Lakes, the Texas coast, and the California coast – to demonstrate the value of system or watershed planning and budgeting. Further, the Corps is directed to develop a comprehensive capital expense policy to distinguish clearly between activities that should be considered routine maintenance and those that should be considered a capital expense consistent with industry practices. Capital improvements are appropriately budgeted in the Construction account; routine activities associated with the upkeep of existing projects budgeted in Operations and Maintenance account.

Five-year comprehensive budget planning.—The Corps is directed to submit to the House and Senate Committees on Appropriations concurrent with each annual budget hereafter an updated five-year comprehensive development plan.

Emphasis on expenditures.—Recent changes to the Corps budgeting and contracting policies have resulted in the carryover of higher levels of funding from year to year. While the Appropriations Committees agree that there are circumstances which will necessitate obligated carryover, the Corps is directed to minimize unobligated carryover to the extent practicable. This direction should not be viewed as a method or excuse to reprogram funds liberally between projects or activities, but rather an admonition to the Corps to estimate capabilities accurately and execute projects within baseline scope and schedules.

Reprogramming.—The amended bill includes new reprogramming guidance for the Corps of Engineers which provides additional flexibility to meet existing obligations and unforeseen operations and maintenance needs. This additional flexibility is given as a result of the Corps efforts to tighten fiscal management of its program and in recognition of the dynamic nature of civil works project execution. This additional flexibility will be reconsidered should the Corps return to its cavalier approach to baseline schedules and budgets and Congressional intent. The guidance contained herein supersedes all previous Congressional direction with respect to all available balances in the Corps' accounts. For the purposes of carrying out this section, a reprogramming of funds is defined as any reallocation of funds into or from a line item set forth in the tables accompanying this Act. In no case shall a reprogramming for less than \$50,000 be submitted to the Committees for approval.

Not later than 60 days following the enactment of this Act, the Corps shall submit a report to the House and Senate Committees on Appropriations to establish the baseline for application of reprogramming and transfer authorities for the current fiscal year. That report shall contain a table for each appropriation, showing among other items, each program, project and activity in each appropriation. For each day after the required date that the report has not been submitted to Congress, the amount appropriated for salaries and expenses of the Corps of Engineers shall be reduced by \$100,000 per day. In addition, the Corps is directed to provide quarterly reports to the House and Senate Committees on Appropriations detailing all projects from which and to which funds were reprogrammed pursuant to the authorities provided in this Act. The report shall also include reasons for the transfers of funds. The thresholds contained in section 101 shall apply to cumulative totals on a project-by-project basis.

Continuing contracts.—The amended bill includes the same legislative provision carried in fiscal year 2006 making continuing contracts optional rather than mandatory. The Appropriations Committees continue to believe that the continuing contract has a role; however, Congress should not mandate the use of any specific contracting mechanism given the vastly varied scope of projects executed by the Corps of Engineers.

The amended bill also includes a provision that prohibits the use of funds to execute any new continuing contract, or modifications to an existing contract, that commits an amount for a project in excess of the amounts appropriated for such project or otherwise available through legitimate reprogramming or carryover.

The Appropriations Committees are aware of eight instances where this limitation resulted in contract bid protests during fiscal year 2007. While this number of protests is not significant in the context of the thousands of contracts the Corps issues every year, the issues surrounding continuing contracts remain of concern. Consequently, the GAO is directed to study continuing contracts issued with the new clause to determine whether its use has resulted in a quantifiable adverse impact to the Corps program, either in terms of price, competition or execution. Should the study, or other relevant information, show an adverse impact, this policy will be reconsidered in future years.

Further, the Corps is directed to provide a report, no later than May 1, 2008, to the House and Senate Committees on Appropriations describing the overall effects, both positive and negative, of this new policy in relation to the Corps' ability to execute the Civil Works mission. Additionally, the report should include any recommendations for changes or improvements to this policy if necessary and appropriate.

The commitment to reevaluate this policy in the future does not in any way change the existing direction that the Corps use continuing contracts only where they are justified. Once issued, these contracts should be managed to existing and realistically expected future year appropriations. Under no circumstance should the contractor be allowed to dictate the pace of expenditures; the Corps as the contracting agent holds this responsibility.

The Appropriations Committees restate the House direction that the Corps develop criteria and standards for the use of continuing contracts as well as examine alternatives to this contracting mechanism.

Study and project policy reviews.—The Chief of Engineers is directed to work with the ASA(CW) and OMB to develop a plan to complete study and project policy compliance reviews as expeditiously as possible and forward the recommendations of these reports to Congress. This plan should be presented to the appropriate House and Senate Appropriations and authorizing Committees no later than March 31, 2008. The Corps shall complete reviews of all documents no later than December 31, 2008.

INVESTIGATIONS

(INCLUDING RESCISSION OF FUNDS)

The amended bill provides \$167,261,000 for Investigations, instead of \$120,000,000 as proposed by the House and \$172,147,000 as proposed by the Senate and includes a \$100,000 rescission as proposed by the House.

The allocation for projects and activities within the Investigations account is shown in the following table:

Louisiana Coastal Area Ecosystem Restoration, Louisiana. — The Appropriations Committees remain supportive of this effort; however, due to large unobligated balances, \$2,952,000 is provided, rather than the budget request of \$13,000,000. The Science and Technology line item under this study is not funded and the Corps is directed not to include this line item in the fiscal year 2009 budget. This line item appears to be an attempt to fund other Federal agencies to undertake science activities that are not being funded within those agencies. If the Administration believes this is worthwhile science, then they should budget for this work under the appropriate agency. Any funds from the fiscal year 2007 allocation that remain unexpended in the Science and Technology line should be utilized on advancing the study, not on science activities.

Blackstone River Watershed Restoration, Massachusetts and Rhode Island. — Funding in the amount of \$98,000 is included for the ongoing feasibility study and \$99,000 is included to study recent flooding in Rhode Island.

Great Lakes Navigational System, Michigan, Illinois, Indiana, Minnesota, New York, Ohio, Pennsylvania, and Wisconsin.—The funds provided are to be used to complete the supplement to the reconnaissance report of the Great Lakes St. Lawrence Seaway Navigation Study, which, based on a previous agreement between the Secretary, the Ministry of Transportation Canada, and the Secretary of the U.S. Department of Transportation, is to be limited in scope to evaluating the economic, engineering and environmental impacts of maintaining the Great Lakes St. Lawrence Seaway at current size, draft and length of locks. The Secretary is directed to complete the supplemental report by September 2008, after which Congress, interested State and Federal agencies, and the public shall review the report for one year to determine whether additional study is warranted.

Chief's Twelve Actions. —Funding is not included for this item. The Appropriations Committees believe that the activities proposed in the budget request for this line item should be incorporated into the various funded planning activities that the Corps has underway.

National Shoreline Study. —Additional funds have been provided above the budget request for the National Planning Center of Expertise for Coastal Storm Damage Reduction to develop a process for managing shore protection projects as part of a systems approach to coastal protection for the purpose of achieving improved project performance, increased cost effectiveness, and enhanced benefits.

Reprogramming Payback. —Funding under this heading includes \$4,526,000 to meet prior reprogramming obligations identified by the Corps of Engineers. This funding provides the full amount for all paybacks in this account; any additional requirements are the sole responsibility of the Corps.

CONSTRUCTION (INCLUDING RESCISSIONS OF FUNDS)

The amended bill provides \$2,294,029,000 for Construction, instead of \$2,004,186,000 as proposed by the House and \$2,059,474,000 as proposed by the Senate and includes the \$4,688,000 of rescissions as proposed by the House.

The allocation for the projects and activities within the Construction account is shown in the following table:

Santa Ana River mainstem, California. —Funding in addition to the budget request for this project is included to continue studies to ascertain the nature and extent of water quality degradation in the Santa Ana River resulting from the construction and operation of Seven Oaks Dam and to amend the Seven Oaks Dam water control plan in light of current conditions and requirements.

American River Watershed (Folsom Dam Miniraise), California. —Within the funds provided for this project, \$14,000,000 is for completion of the bridge.

Dade County (Miami-Dade), Florida. —The Appropriations Committees are aware of the ongoing study by the Corps to determine the availability of a domestic source of sand for the Miami-Dade Project, which was directed and funded by the Appropriations Committees in fiscal year 1999. The Committees continue to have concerns over the lack of finalization of this study and thereby direct the Corps to identify a compatible sand source for the project using previously appropriated funds no later than March 1, 2008.

Modified Waters Delivery Plan, Florida. —The Appropriations Committees recognize the national importance of this project, but are concerned about the open-ended scope and the increasing costs for the Corps participation in this project.

When the project was authorized in 1989, the plan was to utilize the culverts under the Tamiami Trail to provide the needed flows to Everglades National Park. The next plan was a 3,000 foot opening in the Tamiami Trail. Now various bridge options are being considered.

Another option under consideration is raising the water level in the L-29 canal, utilizing the culverts to provide the flows and raising the low spots on the Tamiami Trail. The Appropriations Committees are concerned that this constantly changing endpoint for completion of Mod Waters is delaying the Corps from undertaking critical Everglades restoration projects authorized under the Comprehensive Everglades Restoration Plan.

Funds provided for Everglades restoration include \$9,840,000 for this project in fiscal year 2008. This is the Corps' full stated capability and is based on the apparent disarray in determining exactly what will be accomplished in fiscal year 2008. The Corps is directed to use this funding to improve flows through the culverts under the Tamiami Trail. Any use of these funds for other activities requires a reprogramming request and House and Senate Appropriations Committee approval. Within 90 days of enactment, the Corps is directed to submit to the House and Senate Committees on Appropriations its plan for completion of its role in the Modified Waters Delivery Plan,

providing a final project scope and identifying, not only Corps funding requirements, but also corresponding contributions from the Department of Interior and State of Florida.

To most effectively utilize the funding provided to the Corps of Engineers for the Modified Waters Delivery project in fiscal year 2008, the Committees on Appropriations expect that the Department of Interior will provide funding to match or exceed that provided to the Corps this fiscal year. The Committees further expect that the Department of Interior share of the project costs will not be provided in the form of inkind services or credit for work previously performed.

Olmsted Locks and Dam, Ohio River, Illinois and Kentucky. —Neither funds provided for the Olmsted Locks and Dam Project nor funds available within this account are available to reimburse the Claims and Judgment Fund.

Muddy River, Boston, and Brookline, Massachusetts. —Funding is included to continue project design and construction, including ecosystem restoration features, of the Muddy River Project in Brookline and Boston, Massachusetts.

Upper Mississippi Restoration, Illinois, Iowa, Minnesota, Missouri and Wisconsin. —Funding included for this activity shall be available only to continue ongoing design and construction projects and shall not be available to initiate new construction projects.

Missouri Fish and Wildlife Recovery, Iowa, Kansas, Missouri, Montana, Nebraska, North Dakota and South Dakota. —Within the funds provided, the Corps is directed to make modifications to the Intake Dam to provide additional habitat for the pallid sturgeon.

Southeast Louisiana project, Louisiana. —No funding is provided for this project. It is the understanding of the Appropriations Committees that legislation and funding will be proposed in the forthcoming Administration supplemental request.

Bois Brule drainage and levee district, Missouri. —Funding is provided for continuing work related to this project. Legislative text is included in the bill that reallocates the unexpended balance of \$597,000 from the terminated continuing authorities project at Bois Brule, Missouri.

Townsends Inlet to Cape May Inlet Hurricane and Storm Protection Project, New Jersey. — Within the funds provided, \$65,000 is available to evaluate the use of periodic backpassing of sand as part of the Townsends Inlet to Cape May Inlet shore protection project.

Atlantic Coast of NYC, Rockaway inlet to Norton Point, New York. —Funding is provided for continuing work related to this project. Further, legislative text is included in the bill that reallocates the unexpended balance of \$881,000 from engineering and design activities that are complete.

Lake Sakakawea, North Dakota. —The original health care facility for the Three Affiliated Tribes was permanently inundated due to the impoundment of Lake Sakakawea. A replacement health care facility was promised but never constructed. Legislative text has been included in the bill that directs the Corps to construct this replacement facility. Funding is provided in the amount of \$2,952,000 for design of the

replacement health care facility. The Corps should work closely with the Indian Health Service and the Three Affiliated Tribes on the design and construction of this facility. The Corps is directed to utilize the expertise in their military programs office for this project.

North Dakota (Environmental Infrastructure), North Dakota. —Funding provided under this heading includes \$5,904,000 for work related to the replacement of the Devils Lake Water supply pipeline. Legislative text is included in the bill that reallocates the unexpended balance of \$4,972,000 from the Devils Lake outlet to this project.

Cheyenne River Sioux Tribe, Lower Brule Sioux, South Dakota. —The Appropriations Committees note that title IV of the Water Resources Development Act of 1999, Public Law 106-53 as amended, authorizes funding to pay administrative expenses, implementation of terrestrial wildlife plans, activities associated with land transferred or to be transferred, and annual expenses for operating recreational areas. Funding under this heading includes \$3,936,000 for this effort. Within the funds provided, not more than \$1,000,000 shall be provided for administrative expenses. The Corps is directed to distribute the remaining funds as directed by title IV to the State of South Dakota, the Cheyenne River Sioux Tribe and the Lower Brule Sioux Tribe.

Central City, Fort Worth, Texas. —The Appropriations Committees continue to be interested in the efficiencies and additional benefits potentially available from reformulation of the project now underway by the Corps of Engineers. The funds provided for this project are to be used to pursue design and construction of the authorized project, maintaining schedule commitments, while capturing the efficiencies and benefits from the reformulation effort. Further, the Corps is expected to incorporate all changes resulting from the reformulation as soon as they are identified. Additionally, the Corps is directed to consider the planned, complementary efforts of other Federal agencies, state and local governments in the project area that are, or will be, in place as it defines the reformulated Central City project.

Lake Champlain Watershed Initiative. —Funding in the amount of \$2,460,000 is provided for the continuation of this project. Legislative text is included in the bill that reallocates the unexpended balance of \$1,500,000 from the completed Waterbury Dam Seepage Correction repairs to this project.

Levisa and Tug Forks & Upper Cumberland River, West Virginia, Virginia, and Kentucky. —Funding under this heading includes \$28,290,000 for this project. Within the amounts provided, \$4,920,000 shall be for elements of the project in the Commonwealth of Kentucky; \$5,166,000 shall be available for the Commonwealth of Virginia elements of the project; and \$18,204,000 shall be for Kermit, Lower Mingo County, McDowell County, Upper Mingo and Wayne County, West Virginia.

Shoreline Erosion Control Development and Demonstration Program. —The Appropriations Committees understand that this program was considerably expanded and modified in the recent Water Resources Development Act. Therefore, the amended bill includes legislative text to extend the duration of this program so that the Corps can continue monitoring of completed projects and finish work on projects, where possible with previously appropriated funds. No new funds are provided.

Reprogramming Payback. —Funds are provided to meet reprogramming obligations identified by the Corps of Engineers under this account. The Corps shall analyze existing obligations giving priority to project completion and useful increments of work. The Corps shall coordinate the allocation of these funds with the House and Senate Committees on Appropriations. Provision of this funding is intended to assist the Corps in meeting obligations made to Members of Congress and local sponsors. It does not in any way lessen the Corps' responsibility of meeting commitments made to repay "borrowed" funds.

CONTINUING AUTHORITIES PROGRAM

The Appropriations Committees remain concerned with the management of the Continuing Authorities Program. While progress has been made in gaining an understanding of existing obligations and the inventory of unfinished projects, the Corps must continue to refine its policies and approach to this program. The Appropriations Committees are frustrated by the level of Congressional oversight required of a program that remains a small part of the Corps' Civil Works Program. The Appropriations Committees are particularly disturbed that, despite clear guidance restricting the Corps from initiating new projects without the consent or direction of Congress, more than 40 projects were initiated during the Fiscal Year 2007 Continuing Resolution. Until such time as the Corps can demonstrate that the inventory of unfinished projects associated with this program has been sufficiently reduced to allow new investment decisions, the Appropriations Committees fail to see the wisdom in making further commitments to non-federal sponsors which cannot be met. Consequently, the Corps is directed not to initiate or restart any Section 205, 206 or 1135 project which has not been named in a conference report from fiscal year 2002-2008. The term "restart" shall mean funding any project that had received funding before fiscal year 2002 but not since. The Corps may only initiate new projects in the remaining authorities subject to meeting existing project requirements and determining that the program appropriation levels can support additional investment.

The prohibition on executing new cost sharing agreements is not extended to fiscal year 2008; however, approval authority for all cost share agreements shall be maintained by the Chief of Engineers. This authority cannot be delegated.

The Corps is directed to terminate all continuing authorities projects that have not received funding or have not been named specifically in a conference report during the period of fiscal year 2002 – 2008. Not later than 30 days after enactment, the Corps shall forward a report summarizing the inventory of active but unfinished projects, by authority, to the House and Senate Committees on Appropriations.

The report also shall summarize the review process that the Corps intends to follow to reclassify unfinished projects to better control and manage the inventory of unfinished projects over time. The position of the non-federal sponsor shall be considered in this process. Should the sponsor remain interested in pursuing a project that has been terminated or proposed for termination, the sponsor should officially reaffirm its support for the project and establish that it is a willing and capable sponsor with the financial capability to execute the project, including the ability to obtain required real estate necessary for the implementation of the project. Lacking such re-affirmation by

the non-federal sponsor, the project should be or remain terminated. This action should be taken only as a method to assess accurately the inventory of unfinished projects in the program. Any projects in Sections 205, 206, or 1135 that had been terminated but that are re-affirmed by the non-federal sponsor may not be initiated or restarted without the explicit consent of the House and Senate Committees on Appropriations. Not later than 180 days after enactment, the Corps shall forward a report to the House and Senate Committees on Appropriations summarizing the results of the first iteration of the reclassification review.

The Corps is directed to maintain an approximately 80-20 percent split between the Design and Implementation (D&I) phase and the Feasibility phase within each authority. This split should be considered a guideline only, as there may be specific circumstances that require a slightly different weighting.

In the following tables, two categories of projects are included: projects with a specific funding amount designated by Congress for fiscal year 2008; and projects the Corps may consider for funding after the first category of projects is addressed. The Corps shall prioritize the second category of projects (i.e., those listed without dollar amounts) based on the following criteria:

Priorities for Design and Implementation (D&I) Phase:

- 1. D&I work for continuing projects that have executed PCAs.
- 2. D&I funding for projects approved by Corps Headquarters to execute a PCA.
- 3. D&I work which does not require executed agreements (e.g. continuing or pre-PCA design) for ongoing projects.
- 4. D&I funding for projects with approved Feasibility Reports moving into D&I.

Priorities for Feasibility Phase:

- 1. Feasibility phase funding for projects with executed FCSAs.
- Feasibility phase funding for projects approved by Corps Headquarters to execute a FCSA.
- 3. Feasibility phase work which does not require a FCSA for ongoing projects.
- 4. Feasibility phase funding for initiations or restarts.

Within the last-funded priority level within the D&I and Feasibility phases, if the projects qualifying for funding exceed the available funding, funds shall be allocated based on project outputs and the non-federal sponsor's ability to meet local obligations.

Remaining funds, if any, may be allocated to additional projects in accordance with the aforementioned priorities, except that remaining funds for Section 14 projects shall be allocated to the most urgently needed projects.

For all projects that receive a specific dollar amount, the Corps shall make this funding available for a period of two years, after which time the funding may be used to meet other project requirements. The funds may also be used to meet other requirements upon termination of these projects. The Corps shall also make available for two years from enactment of this Act any project funds remaining from Congressional direction in fiscal year 2006.

The Chief of Engineers should provide a report to the House and Senate Committees on Appropriations within 30 days of enactment of this Act detailing how funds will be

distributed to the individual items in the various CAP sections for the fiscal year. The Chief should also provide an annual report at the end of each fiscal year detailing the progress made on the backlog of projects. The report should include the completions and terminations as well as progress of on-going work. The Appropriations Committees are willing to work with the Corps on any reforms that they might suggest to improve this program.

MISSISSIPPI RIVER AND TRIBUTARIES

The amended bill provides \$387,402,000 for Mississippi River and Tributaries (MR&T), instead of \$278,000,000 as proposed by the House and \$375,000,000 as proposed by the Senate.

The allocation for projects and activities within the Mississippi River and Tributaries account is shown in the following table:

MR&T CONSTRUCTION

Insert Ila

Mississippi River Levees, Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri and Tennessee. —Additional funds above the budget request shall be used for the following activities: \$6,691,000 for the New Madrid levee closure and box culvert and mitigation land acquisition; continue Item 2, award contracts for Reid-Bedford-King, Item 424-L; Magna Vista-Brunswick, Item 468-L; Bayou Vidal-Elkridge, Item 421-R; Carrollton Levee Enlargement; continue Floodway assessments; Trotters, Mississippi, relief wells; Wilson, Arkansas, relief wells; Cairo, Illinois, Grade Raise and complete LMRMRIS.

Yazoo Basin, Yazoo Backwater, Mississippi. —Funding under this heading includes \$246,000 for the Corps of Engineers to design and construct a multi-agency wildlife and environmental interpretative and education center in the South Delta area of the State of Mississippi.

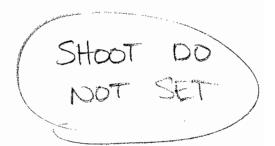

It is the intent of Congress that the conservation easement as stated in the Real Estate Plan section of the draft 2000 Yazoo Backwater reformulation report be acquired for the non-structural flood damage reduction component of the project. The conservation easement is to be used as a flood damage reduction measure and is adequate for the Yazoo Backwater Project. The Chief of Engineers, acting by and through the Vicksburg District, is directed to proceed with real estate activities as may be accomplished in advance of final project approval.

MR&T OPERATION AND MAINTENANCE

Wappapello Lake, Missouri. —Funding under this heading includes \$6,396,000, in addition to the budget request, to address actions related to the relocation of U.S. Highway 67 necessary as a result of changes to the operation of the project. The Appropriations Committees direct the Corps to budget fully for the remaining cost of relocations that have resulted from changes to the operation of the project.

Mississippi River Levees, Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri and Tennessee. —Funds provided above the budget request are for gravel surfacing of selected locations along roads on top of levees in Arkansas, Mississippi, and Louisiana to ensure all-weather access for flood response and backlog maintenance.

Additional funding is also included to address the maintenance backlog at Arkabutla, Sardis, Enid and Grenada Lakes in Mississippi.

Collection and Study of Basic Data. —Funds provided under this heading include \$1,378,000 for these efforts. Funds provided above the budget request are for LIDAR mapping to be undertaken in the Delta portion of Mississippi.

OPERATION AND MAINTENANCE

The amended bill provides \$2,243,637,000 for Operation and Maintenance, instead of \$2,655,241,000 as proposed by the House and \$2,291,971,000 as proposed by the Senate.

The allocation for projects and activities within the Operation and Maintenance account is shown in the following table:

Tennessee-Tombigbee Waterway, Alabama and Mississippi. —Funding under this heading includes \$27,599,000 for this project. Funds above the budget request are provided for the construction of mooring cells near Columbus, Mississippi, for safety of tows tying up during high water levels and lock closure at Whitten and Stennis Locks due to dam safety issues.

McClellan-Kerr, Arkansas River Navigation System, Arkansas and Oklahoma. — An additional \$2,534,000 is provided, above the budget request, to begin Planning, Engineering and Design (PED) for the Arkansas/White Cutoff project and to complete repairs on the south end of the Jim Smith Lake Structure.

Dry Creek (Warm Springs) lake and channel, California. —Within the funds provided for this project, \$102,000 shall be available to update the inundation maps for the project and \$544,000 for hatchery requirements.

San Francisco Bay Harbor, California. —Within the funds provided, \$394,000 is to advance the Ocean Beach Nourishment project.

Cherry Creek, Chatfield, and Trinidad Lakes, Colorado. — In addition to the budget request, funds are included for continued repairs at these three lakes. This action in no way is intended to alter the Corps of Engineers' lease and property accountability policies. The Appropriations Committees understand that the State of Colorado has agreed to cost share this project on a 50-50 basis and that the Secretary is not to assume any share in the future of the operation and maintenance of these recreation facilities.

Intracoastal Waterway, Delaware River to Chesapeake Bay, Delaware and Maryland. —In addition to the budget request, funds are included for repairs to the Summit Bridge.

Mississippi River Project (MVR), Illinois.—Within the funds provided, \$148,000 is provided for Mill Creek South Slough, Illinois.

Burns Waterway Harbor, Indiana. —Dredging activities for this project should place priority on the Bailly intake pipe area.

Great Lakes Navigation, Indiana, Illinois, Michigan, Minnesota, New York, Ohio, Pennsylvania and Wisconsin. —Within the funds provided under this heading, \$6,544,000 is included to execute backlog dredging at commercial navigation projects within the Great Lakes. This funding shall be allocated based on maximizing transportation cost savings, taking into account relationships among harbors. The Corps shall coordinate with the House and Senate Committees on Appropriations as well as other interested parties in allocating this funding.

Clinton Lake, Kansas. —Funding provided under this heading includes \$692,000, in addition to the budget request, for the dam toe road access and dam road repairs.

Wolf Creek Dam, Lake Cumberland, Kentucky. —The Appropriations Committees note that Lake Cumberland has been drastically lowered for on-going seepage/stability correction repairs to Wolf Creek Dam. Additional funds provided above the budget request are for pool-lowering mitigation features.

Gulf Intracoastal Waterway, Louisiana. —Funds above the budget request are provided for additional maintenance activities associated with the Inner Harbor Navigation Canal Lock.

J. Bennett Johnston Waterway, Louisiana. —Funding provided under this heading includes additional funds for bank stabilization repairs, dredging entrances to oxbow lakes, routine operation and maintenance activities, annual dredging requirements, and backlog maintenance.

Michigan Harbors, Michigan. —The Appropriations Committees note that there are some 30 federally maintained harbors in Michigan; however, fewer than 10 are budgeted. The Appropriations Committees have attempted to provide for some of the dredging needs of the State. However, recognizing that conditions at these harbors are constantly changing and that the Great Lakes are continuing to suffer from historic low water levels, the Corps is directed to propose a dredging program for fiscal year 2008 that would most effectively utilize the scarce funds available for these harbor projects. This plan should be presented within 30 days of enactment of this Act as a reprogramming action for approval by the House and Senate Appropriations Committees.

Upper Rio Grande Water Operations Model, New Mexico. —Funding provided under this heading includes \$492,000 to develop an outline for an integrated management plan of the Rio Grande in New Mexico in cooperation with the Bureau of Reclamation.

Garrison Dam and Lake Sakakawea, North Dakota. —Funding provided under this heading includes \$197,000 for mosquito control and \$935,000 for the Corps to work in cooperation with the Friends of Lake Sakakawea to ensure the recreation sites around the lake can be utilized.

Ohio River Navigation, Ohio, Indiana, Illinois, Kentucky, Pennsylvania, Tennessee, West Virginia. —Funding provided under this heading includes \$2,804,000 to meet the needs identified in the Ohio River and Tributaries Navigation System Five-Year Development Perspective. The Corps shall allocate this funding on a systems basis taking into account the level of funding and urgent requirements of the navigation system. The Corps shall report to the House and Senate Committees on Appropriations on the allocation of the funds.

Willamette Falls Lock, Oregon. —Additional funding is provided above the budget request for continued operations of the lock.

However, the Appropriations Committees have recently become aware of safety and stability concerns with this more than 100 year old multi-chambered lock that primarily serves recreational interests. However, these concerns, and their concomitant funding requirements were raised with the Appropriations Committees after a final agreement had been reached on the Corps of Engineers funding. Further, the information

provided by the Corps was grossly inadequate for the Appropriations Committees to make informed decisions which balance competing needs across the Nation. The Corps is therefore directed to initiate the Hydraulic Steel Structure Investigation (HSSI) utilizing the funds provided herein for this project. The Corps should also evaluate the Operation and Maintenance account and determine what non-essential activities may be deferred in the Corps' Northwestern Division to fund completion of this study in fiscal year 2008. The Corps is also instructed to work with local interests to determine what additional funding may be available from state and local sources. The Corps will report to the House and Senate Committees on Appropriations once it has identified additional funding sources, but not later than 45 days after enactment of this Act. Upon completion of the HSSI, the Corps shall report to the House and Senate Committees on Appropriations on measures to be taken to address any safety and stability issues to maintain the operation and the associated costs of these measures. The Appropriations Committees are aware that the safety and stability issues for the lock may prohibit operation of the lock during calendar year 2008.

Schuylkill River, Pennsylvania. —Within the funds provided, \$98,000 is to complete necessary document preparation to allow clearance to the authorized 40-foot depth.

Cheyenne River Sioux Tribe, Lower Brule Sioux, South Dakota. —The Appropriations Committees note that title VI of the Water Resources Development Act of 1999 requires that funding to inventory and stabilize cultural and historic sites along the Missouri River in South Dakota, and to carry out the terrestrial wildlife habitat programs, shall be provided from the Operation and Maintenance account. Funding under this heading includes \$2,804,000 to protect cultural resource sites and provide funding to the State and tribes for approved restoration and stewardship plans and, in compliance with the requirements of title VI. The Corps is directed to contract with or reimburse the State of South Dakota and affected tribes to carry out these duties.

Waco Lake, Texas. —The funding under this heading includes \$1,433,000 for this project, in addition to the budget request, for the replacement of failing water delivery systems and for necessary repairs resulting from recent flooding.

Whitney Lake, Texas. —In addition to the budget request, \$1,908,000 is provided for Ham Creek and \$940,000 is provided for necessary repairs resulting from recent flooding.

Town Bluff Dam, Texas. —Additional funding is provided for improvements at Campers Cove, Sandy Creek, and East End.

Chinook, Head of Sand Island and Baker Bay, Washington. —The Appropriations Committees note the proximity of Corps navigation facilities on the Columbia River between Chinook and the Head of Sand Island, Washington, and at Baker Bay, Washington, and encourage the Corps of Engineers to seek ways to achieve cost savings and efficiency, such as by utilizing appropriate contracting methods while having these two projects be considered together when seeking bids and awarding contracts.

Mud Mountain Dam, Washington. —Within the funds provided, the Corps is directed to use up to \$903,000 to satisfy Federal fish passage obligations for the term of the cooperative agreement with Puget Sound Energy.

Ohio River Locks & Dams, West Virginia, Kentucky & Ohio. —Additional funding is provided for recreation improvements at Parkersburg.

Fox River, Wisconsin. —Additional funds above the budget request are to reimburse the State of Wisconsin, in accordance with the agreement, for the costs of repairs and rehabilitation of the transferred locks and for the Corps of Engineers to undertake major repairs for the dams and associated infrastructure.

Lake Superior Small Harbor Dredging, Wisconsin. —Additional funding is included to respond to maintenance needs of small harbors on Lake Superior.

Chief's Twelve Actions. —Funding under this heading includes \$2,481,000 for this item. The Appropriations Committees believe that these funds can serve to make significant improvements to the way the Corps administers completed projects to account for changed conditions since construction.

National Coastal Mapping. —Additional funds provided above the budget request are for LIDAR bathymetry for use in regional sediment management and for Coastal Zone Mapping and Imaging LIDAR/LASER to be conducted in cooperation with the University of Southern Mississippi.

FLOOD CONTROL AND COASTAL EMERGENCIES

The amended bill provides no funding for Flood Control and Coastal Emergencies, instead of \$40,000,000 as proposed by the House and \$50,000,000 as proposed by the Senate.

REGULATORY PROGRAM

The amended bill provides \$180,000,000 for Regulatory programs and activities as proposed by both the House and Senate.

The Appropriations Committees are concerned that the Corps is not completing regulatory approvals and Environmental Impact Reports (EIR) and Environmental Impact Statements (EIS) in an expeditious manner. The Appropriations Committees urge the Corps of Engineers to ensure a 12-month time frame for completion of all EIR/EIS and to undertake other improvements that would expedite regulatory processes, such as requiring an EIR/EIS on major dredge and fill projects only, and expediting or waiving superfluous review at the division level.

The Corps is directed to work with the Office of Surface Mining (OSM) to develop a more efficient process for expediting permit decisions associated with surface coal mining operations. To avoid unnecessary time delays and duplication of agency resources, the Corps shall maintain the availability of a meaningful general permit for surface coal mining that may be issued in coordination with and for the term of the permit already required pursuant to the Surface Mining Control and Reclamation Act (SMCRA). The Corps should also dedicate sufficient personnel and financial resources to support a consistent program for permit review and issuance.

FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The amended bill provides \$140,000,000 for Formerly Utilized Sites Remedial Action Program as proposed by the Senate, instead of \$130,000,000 as proposed by the House. The Corps is directed to prioritize sites that are nearing completion and initiate cleanup expeditiously for the former Sylvania nuclear fuel site in Hicksville, New York. Legislative language is included in the bill providing an additional disposal option for FUSRAP waste.

EXPENSES

The amended bill provides \$175,046,000 for Expenses as proposed by the Senate, instead of \$171,000,000 as proposed by the House.

The Appropriations Committees are concerned that oversight of the Corps of Engineers Civil Works Program is being negatively impacted by tight personnel funding in this account. Accordingly, additional funds have been provided in this account to allow the Corps' Headquarters Office to hire additional personnel to help perform oversight functions.

OFFICE OF ASSISTANT SECRETARY OF THE ARMY (CIVIL WORKS)

The amended bill provides \$4,500,000 for the Office of the Assistant Secretary of the Army (Civil Works) as proposed by the Senate, instead of \$6,000,000 as proposed by the House. The amended bill provides only salaries and expenses as in previous years.

ADMINISTRATIVE PROVISION

The amended bill includes a provision proposed by both the House and Senate relating to reception and representation expenses and the replacement and hire of passenger motor vehicles.

TITLE I—GENERAL PROVISIONS

The amended bill modifies a provision contained in both the House and Senate bills relating to reprogramming.

The amended bill includes a provision proposed by the House that limits the availability of funds for certain continuing contracts.

The amended bill includes a provision prohibiting implementation of competitive sourcing or High Performing Organization, as proposed by the Senate. The House bill contained a similar provision.

The amended bill includes a provision prohibiting the Corps from divesting or transferring Civil Works functions as proposed by the Senate.

The amended bill modifies a provision concerning report notifications as proposed by the Senate. The House bill contained no similar provision.

The amended bill includes a provision concerning reallocations of Lake Cumberland, Kentucky, as proposed by the Senate.

The amended bill includes a provision allowing the use of the revolving fund for construction of two buildings at the U.S. Army Engineer Research and Design Center as proposed by the Senate.

The amended bill includes a provision concerning in-kind services for the Rio Grande Basin Watershed study as proposed by the Senate. The provision allows for local sponsors of this project to be reimbursed for overpayment of the non-Federal share of the costs of the study.

The amended bill includes a provision regarding the Middle Rio Grande Collaborative Program, New Mexico, as proposed by the Senate.

The amended bill includes a provision concerning the conveyance of surplus property in Tate County, Mississippi, as proposed by the Senate.

The amended bill modifies a provision relating to section 594 of the Water Resources Development Act of 1999 as proposed by the Senate. The provision provides authority for North Dakota to be eligible for environmental infrastructure assistance.

The amended bill includes a provision regarding the Kahuku Storm Damage Reduction Project, Hawaii, as proposed by the Senate.

The amended bill includes a provision related to the Shoreline Erosion Control Development and Demonstration Program as proposed by the Senate.

The amended bill includes a provision related to congressional budget justifications as proposed by the Senate.

The amended bill includes a provision regarding a replacement health care facility at Lake Sakakawea, North Dakota.

The amended bill includes a provision concerning reimbursement for expenses incurred by locals carrying out portions of authorized Federal flood and storm damage reduction projects as proposed by the Senate.

The amended bill includes a provision regarding Johnson Creek, Texas, as proposed by the Senate.

The amended bill includes a provision regarding reimbursements as proposed by the Senate. This provision increases the limits allowed on certain reimbursements for work undertaken by local interests.

The amended bill includes a provision on the Coronado, California, project as proposed by the Senate.

The amended bill includes a provision for the Navajo Reservation, Arizona, Utah and New Mexico, project as proposed by the Senate.

The amended bill includes a provision concerning the visitor reservation services for Corps of Engineers recreation sites as proposed by the Senate.

The amended bill includes a provision concerning the Marshall, Minnesota, project as proposed by the Senate.

The amended bill includes a modified provision concerning the St. John's Bayou-New Madrid Floodway, Missouri, Project. The provision reaffirms the recent District Court decision concerning the economic feasibility and non-separability of the project as currently described in the June 2002 Revised Supplemental Environmental Impact Statement and further supplemented by the March 2006 Revised Supplemental Environmental Impact Statement 2.

The amended bill includes a provision allowing funds provided in Public Law 110-28 to be utilized for the purposes for which they were appropriated as proposed by the Senate.

The amended bill includes a provision relating to the Cedar Hammock (Wares Creek), Florida, project.

The amended bill includes a provision relating to the Manatee Harbor, Florida, project.

The amended bill includes a provision relating to continuing contracts. This provision was carried in the fiscal year 2006 Energy and Water appropriations conference report.

The amended bill includes a provision relating to the Terminus Dam, California, project.

The amended bill includes a provision providing an additional disposal option for FUSRAP waste.

The amended bill includes a provision relating to the cost share of the American and Sacramento Rivers, California, project.

The amended bill includes a provision relating to the White River Navigation project.

The amended bill includes a provision modifying Section 103 under title I of Public Law 109-103 regarding certain landfills in the Muskingum River watershed.

The amended bill includes a provision that transfers approximately 197 acres of surplus Corps of Engineers land to Story County, Iowa. The land is a former site for a Corps of Engineers flood control reservoir initiative, the Skunk River Reservoir Project. The project was abandoned and deauthorized by Congress.

The amended bill modifies a provision regarding Apalachiacola, Chattahoochee and Flint Rivers and Alabama, Coosa and Tallapoosa Rivers, Georgia, Alabama, and Florida, as proposed by the Senate. The House bill included no similar provision. The Appropriations Committees are supportive of finding mutually agreeable solutions to water allocation of the Apalachicola-Chattahootchee-Flint and Alabama-Coosa-Tallapoosa river systems between the states of Alabama, Florida and Georgia. The Corps is directed to continue to support the interstate discussions and to take no actions that adversely impact the outcome.

The amended bill includes a provision concerning the Southeast Louisiana project as proposed by the Senate.

The amended bill includes a provision regarding a reporting requirement for Alaska Coastal Erosion.

The amended bill does not include a provision proposed by the Senate repealing Section 108 under title I of Public Law 109-103 concerning continuing contracts.

The amended bill does not include a provision proposed by the House relating to the dredge McFarland.

The amended bill does not include three provisions proposed by the Senate relating to the Federal dredge fleet.

The amended bill does not include a provision proposed by the House relating to the Sacramento District Office of the Corps of Engineers.

The amended bill does not include a provision proposed by the Senate relating to the St. Georges Bridge in Delaware.

The amended bill does not include a provision proposed by the Senate relating to the Lower Mud River, Milton, West Virginia, project.

The amended bill does not include a provision proposed by the Senate concerning cooperative agreements.

The amended bill does not include a provision proposed by the Senate relating to the Rio De Flag, Arizona, project.

The amended bill does not include a provision proposed by the Senate relating to Avian Predation in the Columbia River Fish Mitigation project.

The amended bill does not include a provision proposed by the Senate relating to the Santa Ana, California, project.

The amended bill does not include a provision proposed by the Senate relating to the Upper Guadalupe, California, project.

The amended bill does not include a provision proposed by the Senate relating to the Missouri River mitigation project.

The amended bill does not include a provision limiting Corps of Engineers expenditure on a project as proposed by the Senate.

The amended bill does not include a provision proposed by the Senate relating to the McAlpine Lock and Dam project.

The amended bill does not include a provision regarding crediting of non-Federal expenditures on the San Lorenzo River, California, project as proposed by the Senate.

The amended bill does not include a provision proposed by the Senate relating to the Missouri and Middle Mississippi Rivers Enhancement project.

The amended bill does not include a provision proposed by the Senate relating to the Nogales Wash, Arizona, project.

The amended bill does not include a provision proposed by the Senate relating to the Tucson Drainage Area, Arizona, project.

The amended bill does not include a provision proposed by the Senate relating to the Rural Utah (Environmental Infrastructure) project.

The amended bill does not include a provision proposed by the Senate relating to the Connecticut River Watershed Study, New Hampshire, Connecticut, Massachusetts and Vermont, project.

The amended bill does not include a provision proposed by the Senate relating to the Asian carp barriers on the Chicago Sanitary and Ship Canal, Illinois, project.

The amended bill does not include a provision proposed by the Senate relating to a funding limitation on the Modified Waters Deliveries, Florida, project.

TITLE II

DEPARTMENT OF THE INTERIOR CENTRAL UTAH PROJECT

CENTRAL UTAH PROJECT COMPLETION ACCOUNT

The amended bill includes a total of \$43,000,000 as proposed by both the House and Senate. Within the funds provided, \$40,404,000 is included for Central Utah project construction; \$976,000 for fish, wildlife, and recreation mitigation and conservation; and \$1,620,000 for program oversight and administration.

The amended bill also includes legislative language which allows up to \$1,500,000 to be used for administrative costs, as proposed by the Senate. This one-time increase in administrative expenses provides funding for costs associated with securing new office space and relocating the Commission's office in fiscal year 2008.

BUREAU OF RECLAMATION WATER AND RELATED RESOURCES (INCLUDING TRANSFERS OF FUNDS)

The amended bill includes a total of \$949,882,000 for Water and Related Resources, instead of \$871,197,000 as proposed by the House and \$950,106,000 as proposed by the Senate.

Reclamation is directed to conform to the following reprogramming guidelines:

The Bureau is permitted to transfer, without prior Congressional approval and without regard to percentage limitation, not more than \$5,000,000 per project to provide adequate funds for settled contractor claims, increased contractor earnings due to accelerated rates of operations, and real estate deficiency judgments, provided that such reprogramming is necessary to discharge legal obligations of the Bureau of Reclamation.

For each project within the Resources Management and Development category for which \$2,000,000 or more is available at the beginning of the fiscal year, the Bureau is permitted to transfer to such project in that fiscal year no more than fifteen percent of the amount available at the beginning of the fiscal year for such project, without prior approval from the House and Senate Committees on Appropriations.

For each project within the Resources Management and Development category for which less than \$2,000,000 is available at the beginning of the fiscal year, the Bureau is permitted to transfer to such project no more than \$300,000 in that fiscal year without prior approval from the House and Senate Committees on Appropriations. A transfer is defined as any movement of funds into or out of a program, project or activity.

The Bureau is further permitted to transfer funds within the Facility Operation, Maintenance and Rehabilitation category without prior Congressional approval and without regard to percentage or dollar limitation.

The Bureau may not transfer, without prior Congressional approval, more than \$500,000 from either the Facilities Operation, Maintenance and Rehabilitation category

or the Resources Management and Development category to any project in the other category. The Bureau is prohibited from using an internal reprogramming action to initiate, restart, or resume any program, project, or activity that does not receive a Congressional appropriation in fiscal year 2008.

Reclamation is directed to provide quarterly reports to the House and Senate Committees on Appropriation detailing all reprogrammings between projects, activities, or categories of funding.

Funding under this heading is intended to be used as outlined in the following table:

This ert 23a-d

Central Arizona Project, Colorado River Basin, Arizona. — Within the funds provided, \$590,000 is included for activities related to the Gila River settlement in New Mexico.

San Carlos Irrigation Project, Arizona. — Funds have been provided to initiate advance planning and environmental compliance for the San Carlos Irrigation Project.

Central Valley Project, American River Division, California. — Within funds provided, \$640,000 shall be available for the El Dorado temperature control device.

Central Valley Project, Friant Division, California. — The recommendation includes an additional \$984,000 for the Friant-Kern and Madera canals capacity improvements and an additional \$984,000 for the Semitropic Phase II groundwater banking.

Salton Sea Research Project, California. — The recommendation provides \$1,132,000 for the Salton Sea research project, including \$492,000 to continue environmental restoration efforts for the Alamo and New Rivers, and for other authorized pilot projects.

Southern California investigations program. — The recommendation provides \$1,073,000 for the Southern California investigations program, including \$394,000 for the Water Replenishment District regional groundwater monitoring program and \$492,000 to assist the Lake Arrowhead Community Services District to develop an integrated water resource plan.

Carlsbad Project, New Mexico. — Funding in addition to the budget request is included as follows: \$197,000 to assess the rehabilitation of radial gates at Sumner Dam, New Mexico, and \$738,000 for implementation of water salvage in partnership with the New Mexico Interstate Stream Commission under the Pecos River Settlement.

Middle Rio Grande Project, New Mexico. — Funding under this heading includes \$38,918,000 for the Middle Rio Grande project, \$20,325,000 for Resources Management and \$18,593,000 for Operations, Maintenance and Replacements. Within the \$20,325,000 for Resources Management, \$16,010,000 is included for the Collaborative Program and \$984,000 for the Silvery Minnow Sanctuary operations. Within the \$18,593,000 for Operations, Maintenance and Replacements, \$2,165,000 is included for further

development of the Upper Rio Grande Water Operations Model and ESA Water conservation planning; \$492,000 for initial development of an integrated management plan in partnership with the U.S. Army Corps of Engineers; and \$1,968,000 to be transferred to the U.S. Geological Survey for stream gauge repair and development in New Mexico. The Bureau of Reclamation is encouraged to be transparent in its communication of the cost of administration of the Middle Rio Grande Endangered Species Collaborative Program and to implement project management improvements promptly to address the issues and recommendations of the non-Federal partners to the Collaborative Program. Further, the Bureau of Reclamation is also encouraged to work closely with the Middle Rio Grande Conservancy District and the U.S. Army Corps of Engineers to develop a rehabilitation plan for the levee system in the Middle Rio Grande.

Pick-Sloan Missouri Basin, Garrison Diversion Unit, North Dakota. — An additional \$48,000,000 has been provided for rural water projects. Of this amount, \$24,000,000 shall be expended for the following projects: \$9,840,000 for the Northwest Area Water Supply; \$492,000 for the Lakota Water Supply; \$2,952,000 for the South Central Regional Water District; \$984,000 for the Walsh Rural Water District; \$984,000 for the South Benson County/North Central Rural Water System; \$984,000 for the Traill Rural Water District; \$492,000 for the Upham/All Seasons Rural Water System; \$1,968,000 for the Williston Water Treatment Plant; \$3,936,000 for the Southwest Pipeline; and \$1,368,000 for Garrison Water Treatment.

Northern Utah Investigations Program, Utah. — An additional \$491,000 is included for the Rural Water Technology Alliance.

Southern Utah Investigations Program, Utah. — The recommendation provides \$407,000 for the Southern Utah investigations program, including \$295,000 for the San Juan River water pipeline study.

Brackish groundwater national desalination research facility. —Of the \$5,805,000 provided under this heading, \$2,066,000 is provided to undertake operations and maintenance of the newly constructed Brackish Groundwater National Desalination Research Facility in Alamogordo, New Mexico; \$1,181,000 is provided to New Mexico State University for research activities undertaken at or associated with the Facility; and \$2,558,000 is provided to New Mexico State University to undertake a research program for development and commercialization of water treatment technology in collaboration with Federal agencies, national laboratories, State agencies, local agencies, industry, educational institutions or other water research entities.

Colorado River Basin Salinity Control Project, Title I. — In the fiscal year 2006 conference report (House Report 109-275), the Appropriations Committees expressed their concern that the Bureau of Reclamation was making excess releases of approximately 100,000 acre-feet of water per year from storage in Colorado River reservoirs to help meet the United States' Colorado River water quality obligations to Mexico. The excess releases are being made because Wellton-Mohawk Irrigation and Drainage District's agricultural return flows--that bypass the Colorado River and are discharged to the Cienega de Santa Clara in Mexico (bypass flows)--are not counted as part of the 1.5 million acre-feet of water that the United States is required to deliver annually to Mexico. Because the bypass flows are not counted, system storage from the

Colorado River has been used to make up for the bypass flows. The Yuma Desalting Plant was originally constructed to treat the flows and return a portion of them to the river, thus reducing excess releases from Colorado River reservoirs.

The current drought and projected long-term water demands have heightened concern about this demand on the river system. Consequently, in fiscal year 2006, the Appropriations Committees indicated their support for Reclamation's ongoing public process to address this complex hydrologic problem, considering various methods of recovering or replacing the flows, including options that address potential impacts to wetlands in the Cienega de Santa Clara. Reclamation is encouraged to continue this stakeholder process. In fiscal year 2006, the Bureau of Reclamation was also directed to dedicate sufficient resources to the Yuma Desalting Plant so that one-third operational capacity may be achieved by the end of calendar year 2006. To date, the plant is not onethird operational, although Reclamation did conduct a demonstration run at one-tenth capacity for 90 days in 2007. The Appropriations Committees, once again, direct the Bureau of Reclamation, within the funds provided for the Colorado River Basin Salinity Control Project, title I, to dedicate sufficient funds to the Yuma Desalting Plant so that one-third operational capacity may be achieved by the end of calendar year 2007. The Bureau of Reclamation is also directed to provide the House and Senate Committees on Appropriations with a status report of the plant's operational status by no later than March 1, 2008. If the plant is not one-third operational by the end of calendar year 2007, the report shall include an explanation as to why the Bureau of Reclamation has failed to comply with the Appropriations Committees' directive.

Drought Emergency Assistance. — The budget request is provided for this program. Within the funds provided, the Bureau of Reclamation is urged to provide full and fair consideration for drought assistance requests for the State of Hawaii.

Native American Affairs Program. — The Appropriations Committees are aware of the successful Sid Yates Scholarship Program, particularly at Arizona State University, which focuses on American Indian law students. Tribes, State and Federal agencies have all benefited from this highly leveraged program. The Bureau is encouraged to continue this program beyond the current student enrollment and look for innovative ways to enhance the program for future years.

Title XVI, Water Reclamation and Reuse. — Funding under this heading includes \$3,444,000 for this program. Within the funds provided, \$2,657,000 is included for the WateReuse Foundation. These are available to support the Foundation's research priorities.

Water Conservation Field Services Program. — Funding under this heading provides \$6,510,000 for the Water Conservation Field Services Program. Within the amounts provided, Reclamation is urged to continue urban water conservation projects identified through the Metropolitan Water District of Southern California Innovative Conservation Program; industrial water efficiency surveys to assess opportunities to conserve water in industrial water use; and weather-based irrigation controller activities to speed distribution and acceptance of these landscape water efficiency devices.

Water 2025. — The dire drought the West is currently experiencing combined with an unprecedented number of water users and endangered species requirements and

related needs, make water use efficiencies more critical than ever. Funding under this heading provides \$5,929,000 for this initiative as proposed by the administration. Funding is included to provide for continued efficiency and water improvements related to the Middle Rio Grande Conservancy District. A critical component of reducing tension among multiple water users is collaborative planning and joint operations. Within the funds provided, funds are provided for the Desert Research Institute to address water quality and environmental issues in ways that will bring industry and regulators to mutually acceptable answers.

CENTRAL VALLEY PROJECT RESTORATION FUND

The amended bill provides \$59,122,000 for the Central Valley Project Restoration Fund as proposed by House instead of \$51,622,000 as proposed by the Senate. Legislation for the San Joaquin River Restoration fund was not enacted by Congress; therefore, the Appropriations Committees direct the \$7,500,000 in assumed transferred receipts to be expended as follows: Sacramento River Fish Screens, \$2,952,000; Trinity River Restoration, \$3,000,000; Anadromous Fish Screen Program, \$1,548,000.

The funds provided are intended to support the following activities, as delineated below:

Anadromous fish restoration program	\$4,500,000
Other Central Valley project impacts	1,500,000
Dedicated project yield	800,000
Flow fluctuation study	50,000
Restoration of riparian habitat and spawning gravel	1,000,000
Central Valley comprehensive assessment/monitoring program	300,000
Anadromous fish screen program	8,932,000
Sacramento fish screens	(2,952,000)
Refuge wheeling conveyance	8,800,000
Refuge water supply, facility construction	5,000,000
Ecosystem/water systems operations model	7,650,000
Water acquisition program	9,990,000
San Joaquin Basin action plan	2,800,000
Land retirement program	1,000,000
Clear Creek restoration	800,000
Trinity River restoration program	4,000,000
San Joaquin River Basin resource management initiative	2,000,000
Total, Central Valley project restoration fund	59,122,000

CALIFORNIA BAY – DELTA RESTORATION (INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$40,098,000 for the California Bay-Delta Restoration program, as proposed by both the House and Senate. The funds provided are intended to support the following activities, as delineated below:

Science	\$3,000,000
Environmental water account	7,000,000
Storage program	11,770,000
Los Vaqueros	(3,270,000)
San Joaquin river basin study	(2,500,000)
Sites Reservoir	(3,000,000)
Shasta enlargement	(3,000,000)
Conveyance	7,000,000
Enlarged DMC Intertie w/Cal Aqueduct Feasibility study	(1,400,000)
Son I wis lowerint feesibility study	
San Luis lowpoint feasibility study	(1,400,000)
Delta studies: through delta evaluation	(1,000,000)
Recirculation feasibility study	(1,000,000)
South Delta temporary barriers	(200,000)
Delta vision	(1,348,000)
Ecosystem restoration	3,000,000
Ecosystem restoration projects to be identified	(1,000,000)
Lower San Joaquin fish screens	(1,500,000)
Refuge water supply diversification	(500,000)
Water Use Efficiency	1,500,000
Water Quality	6,250,000
San Joaquin River salinity management	(4,250,000)
Contra Costa Water District alternative intake	(1,000,000)
Interagency ecological program	(1,000,000)
Planning and management activities	1,230,000
CALFED program management	(230,000)
Performance measures and program tracking	(1,000,000)
refrontance measures and program tracking	(1,000,000)
Total, California Bay-Delta Restoration	40,098,000

POLICY AND ADMINISTRATION (INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$58,811,000 for Policy and Administration as proposed by both the House and Senate.

ADMINISTRATIVE PROVISION

The amended bill includes a provision limiting the purchase of not to exceed 14 passenger vehicles, as proposed by both the House and Senate.

TITLE II—GENERAL PROVISIONS

The amended bill includes a provision regarding the San Luis Unit and Kesterson Reservoir in California, as proposed by both the House and Senate.

The amended bill includes a provision prohibiting the use of funds for any water acquisition or lease in the Middle Rio Grande or Carlsbad Projects in New Mexico unless the acquisition is in compliance with existing state law and administered under state priority allocation as proposed by the Senate.

The amended bill modifies a provision proposed by the Senate regarding Drought Emergency Assistance.

The amended bill includes a provision concerning Water 2025 as proposed by the Senate.

The amended bill includes a provision regarding the Rio Grande Collaborative water operations team as proposed by the Senate.

The amended bill includes a provision concerning the project at Las Vegas Wash and Lake Mead, Nevada, as proposed by the Senate.

The amended bill modifies a provision concerning expended funds from the Desert Terminus Lakes program for the Truckee River Settlement Act as proposed by the Senate.

The amended bill modifies a provision concerning expended funds from the Desert Terminus Lakes program for a number of purposes within Nevada as proposed by the Senate.

The amended bill includes a provision extending the authorization of the Mni Wiconi project from 2008 to 2013 as proposed by the Senate.

The amended bill includes a provision regarding the Inland Empire regional recycling project in California.

The amended bill modifies a provision proposed by the Senate for a reporting requirement to the appropriate House and Senate Appropriations and authorizing Committees concerning changed land use determinations.

The amended bill includes a provision increasing the appropriations ceiling for the Indian Irrigation projects in the Pick-Sloan—Garrison Diversion Unit, North Dakota and South Dakota, as proposed by the Senate.

The amended bill includes a provision extending the authorization for water service contracts in Montana.

The amended bill includes a provision regarding the Southern California Desert Region Integrated Water and Economic Sustainability Plan.

The amended bill does not include a provision proposed by the Senate concerning operations of the Tularosa Basin National Desalination Research Facility.

TITLE III DEPARTMENT OF ENERGY

The summary tables at the end of this title set forth the amended bill with respect to the individual appropriations, programs, and activities of the Department of Energy. Additional items in the amended bill are discussed below.

The allocations for specific projects and earmarks that were proposed in the separate House and Senate reports are superseded by the detailed allocations contained herein. Other programmatic guidance and reporting requirements identified in the separate House and Senate reports remain effective unless modified by this explanatory statement.

The amended bill provides \$24,675,025,000 for the Department of Energy in fiscal year 2008 to fund programs in its five primary mission areas: science, energy, environment, nuclear non-proliferation and national security, instead of \$25,243,119,000 as proposed by the House and \$25,897,985,000 as proposed by the Senate.

PROJECT MANAGEMENT

The Department of Energy is directed to manage all projects in excess of \$100,000,000 total cost in full compliance with DOE Management Order 413.3A.

REPROGRAMMING REQUIREMENTS

The Department of Energy is directed to operate in a manner fully consistent with the following reprogramming guidelines. A reprogramming request must be submitted to the Committees on Appropriations for consideration before any implementation of a reorganization proposal which includes moving previous appropriations between appropriation accounts. The Department is directed to inform the Committees promptly and fully when a change in program execution and funding is required during the fiscal year. To assist the Department in this effort, the following guidance is provided for programs and activities funded in the Energy and Water Development and Related Agencies Appropriations Act. The Department is directed to follow this guidance for all programs and activities unless specific reprogramming guidance is provided for a program or activity.

Definition.—A reprogramming includes the reallocation of funds from one activity to another within an appropriation, or any significant departure from a program, project, activity, or organization described in the agency's budget justification as presented to and approved by Congress. For construction projects, a reprogramming constitutes the reallocation of funds from one construction project identified in the justifications to another project or a significant change in the scope of an approved project.

Any reallocation of new or prior year budget authority or prior year deobligations must be submitted to the Committees in writing and may not be implemented prior to approval by the Committees on Appropriations.

ENERGY EFFICIENCY AND RENEWABLE ENERGY

The amended bill provides \$1,739,541,000 for Energy Efficiency and Renewable Energy (EERE) programs, instead of \$1,873,844,000 as proposed by the House, and \$1,715,551,000 as proposed by the Senate.

Hydrogen Technology.—Funding under this heading in the amended bill includes \$213,000,000 for hydrogen technology, the same as the budget request. Within available funds, the Department is directed to fund research on solid oxide fuel cells for small-to-medium scale applications.

Biomass and Biorefinery Systems R&D.— Funding under this heading in the amended bill includes \$200,000,000 for integrated research and development on biomass and biorefinery systems, an increase of \$20,737,000 over the budget request for additional biomass research solicitations. The Department is directed to include algae as a potential feedstock in its biomass research and development.

Solar Energy.— Funding under this heading in the amended bill provides \$170,000,000 for solar energy systems, an increase of \$21,696,000 over the budget request, to include \$138,000,000 for photovoltaic (PV) energy systems, \$30,000,000 for concentrating solar power, and \$2,000,000 for solar heating and lighting. The agency should, within available funds, accelerate the development and adoption of a solar PV rating system, and the demonstration of thermo-chemical processes in conjunction with high-temperature solar facilities for hydrogen production.

Wind Energy.—Funding under this heading in the amended bill includes \$50,000,000 for wind energy systems, an increase of \$9,931,000 over the budget request. The increase is to support integration of wind power and other renewable sources into the electricity grid.

Geothermal Technology.— Funding under this heading in the amended bill includes \$20,000,000, an increase of \$20,000,000 over the budget request, for deployment of large-scale enhanced geothermal systems, to include accelerating the development of subsurface technologies, including geological and geophysical data collection and synthesis.

Water Power Energy R&D.— Funding under this heading in the amended bill provides \$10,000,000, an increase of \$10,000,000 over the budget request, for research on conventional hydropower technologies and innovative waterpower technologies, such as thermal and wave technologies, for ocean, tidal and instream-based generation.

Vehicle Technologies.— Funding under this heading in the amended bill provides \$215,000,000 for vehicle technologies, an increase of \$38,862,000 over the budget request, to include \$95,000,000 for hybrid electric systems, an increase of \$14,336,000 over the request for advanced battery storage technology research, development and demonstration for electric, hybrid-electric and plug-in hybrid vehicles. The Department is

directed to fund \$45,000,000 for advanced combustion engine research and development, \$40,000,000 for materials technology, \$18,000,000 for fuels technology, and \$17,000,000 for technology integration. The agency should within available funds competitively bid an award for the Advanced Vehicle Testing Activity within the FreedomCAR and Vehicle Technologies Program to independently test and evaluate all vehicles developed in the upcoming plug-in hybrid electric vehicle demonstration. The Appropriations Committees support the lightweight materials technology research and development on advanced high-strength steels to reduce the weight of commercial and passenger vehicles.

Building Technologies.— Funding under this heading in the amended bill provides \$110,000,000 for building technologies, an increase of \$23,544,000 over the budget request. The Department is directed to fund \$10,000,000 of this increase for the residential and commercial building technologies program, \$5,000,000 for solid state lighting, and \$8,544,000 for equipment standards and analysis.

Industrial Technologies.— Funding under this heading in the amended bill includes \$65,000,000 for industrial technologies, an increase of \$19,002,000 over the budget request. The Office of EERE should reconstitute a distributed energy research and development program, and direct \$10,000,000 of the increase for the advanced reciprocating engines system program and \$5,000,000 for the combined heat and power program. The agency should, within available funds, provide no less than \$3,700,000 for steel in the industries (specific) program, and \$3,000,000 for the information technology industry, from chip scale to data centers.

Federal Energy Management Programs.— Funding under this heading in the amended bill provides \$20,000,000 for the Federal Energy Management Programs, an increase of \$3,209,000 over the budget request.

Facilities and Infrastructure.— Funding under this heading in the amended bill provides \$76,876,000 for the renewable energy Facilities and Infrastructure account, an increase of \$69,144,000 over the budget request. This amount includes \$6,982,000 for operations and maintenance of the National Renewable Energy Laboratory (NREL) in Golden, Colorado, the same as the budget request, an increase of \$6,894,000 for South Table Mountain infrastructure, an increase of \$8,000,000 for NREL solar equipment recapitalization, and an increase of \$55,000,000 to begin the NREL Energy Systems Integration Facility.

Program Support.— Funding under this heading in the amended bill provides \$10,900,000 for Program Support, a decrease of \$2,381,000 below the budget request, but the same as fiscal year 2007 levels. Within available funds, the Office of EERE should establish a FACA-chartered Federal Advisory Council to advise the Office of EERE for Finance, Investment and Technology Deployment.

Program Direction.— Funding under this heading in the amended bill provides \$105,013,000 for Program Direction, the same as the budget request.

Federal Energy Assistance Programs.— Funding under this heading in the amended bill provides a total of \$473,752,000 for federal energy assistance programs,

instead of \$314,947,000 as proposed by the House and \$398,575,000 as proposed by the Senate. The details of these accounts are as follows:

Weatherization Assistance.—Funding under this heading in the amended bill provides \$224,758,000 for weatherization assistance program grants, an increase of \$85,308,000 over the budget request, and \$4,550,000 for training and technical assistance, the same as the budget request. The funds provided for federal technical assistance and training are intended to be used exclusively to support the effective delivery of weatherization services as set forth in statute and applicable regulations. Any change in program implementation should be proposed to Congress in the Department's budget submission and not implemented before congressional approval is obtained.

International Renewable Energy Program.— No funds are provided for the International Renewable Energy Program, the same as the budget request.

Asia Pacific Initiative. —No funds are provided for the Asia Pacific Initiative, a decrease of \$7,500,000 below the budget request.

Tribal Energy Activities.— Funding under this heading in the amended bill provides \$6,000,000 for tribal energy activities, an increase of \$3,043,000 over the budget request for additional tribal energy projects.

Renewable Energy Production Incentive.— Funding under this heading in the amended bill provides \$5,000,000 for the Renewable Energy Production Incentive, an increase of \$54,000 over the budget request.

State Energy Program.— Funding under this heading in the amended bill provides \$44,500,000 for the State Energy Program, a decrease of \$1,001,000 below the budget request, to include \$10,000,000 for competitive energy projects.

Congressionally Directed Projects.— Funding under this heading in the amended bill provides \$188,944,000 for Congressionally directed projects, for the purposes of research, development, and demonstration of energy efficiency or renewable energy technologies or programs. The agency should remind recipients that statutory cost sharing requirements may apply to these projects. The fiscal year 2006 Energy and Water Development Conference Report (P.L. 109-103), included language within the Wind Energy program of Energy Efficiency and Renewable Energy account directing \$750,000 for the Tower Power Project. Because the project did not come to fruition, the agency should redirect the remaining \$742,500 of prior funds from the Tower Power Project to fund the University of Maryland Energy Research Center.

ELECTRICITY DELIVERY AND ENERGY RELIABILITY

The amended bill provides \$140,000,000 for the Office of Electricity Delivery and Energy Reliability, instead of \$134,161,000 as proposed by the House, and \$168,437,000 as proposed by the Senate.

Program Direction.—Funding under this heading in the amended bill provides \$17,765,000 for electricity delivery and energy reliability program direction, an increase of \$378,000 over the budget request.

¹ REDIRECTION OF PREVIOUSLY APPROPRIATED FUNDS

Congressionally Directed Projects.— Funding under this heading in the amended bill provides \$24,685,500 for Congressionally directed projects, for the purposes of research, development, and demonstration of energy technologies or programs. The agency should remind recipients that statutory cost sharing requirements may apply to these projects.

NUCLEAR ENERGY

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$970,525,000 for nuclear energy programs, instead of \$759,227,000 as proposed by the House, and \$720,558,000 as proposed by the Senate. The total amount available for Nuclear Energy programs and facilities is \$1,046,474,000, including \$75,949,000 of costs allocated to the 050 budget function (i.e. defense activities) for Idaho Site-wide and Security activities. The amended bill includes a provision that authorizes and funds the Mixed Oxide Fuel Fabrication facility in the Nuclear Energy appropriation, as proposed by the House. The amended bill includes a provision that codifies the application of DOE Order 413.3A to MOX construction management.

University Reactor Fuel Assistance and Support.—Funding under this heading in the amended bill provides no direct funds for grants and fellowships that support nuclear science and engineering education at the Department of Energy. DOE annually requests no funding for education assistance, and the Congress sees fit every year to restore it. For fiscal year 2008, the funding for the university nuclear education assistance program is provided in the Nuclear Regulatory Commission appropriation account to provide a sustainable education assistance program.

Nuclear Power 2010.— Funding under this heading in the amended bill provides \$135,000,000 for Nuclear Power 2010, an increase of \$21,000,000 over the budget request to accelerate the preparation and approval of combined operating licenses.

Generation IV Nuclear Energy Systems Initiative.— Funding under this heading in the amended bill provides \$116,000,000 for Generation IV nuclear energy systems. The Department is directed to accelerate work on the Next Generation Nuclear Plant (NGNP). Of this amount \$74,000,000 is for the NGNP project, of which no less than \$38,000,000 is for establishing a reference conceptual design and baseline cost. Funding under this heading in the amended bill provides \$36,000,000 for establishing a licensing strategy and an aggressive pre-application program with the Nuclear Regulatory Commission that includes: developing substantial industry involvement; advancing and testing key enabling technologies; developing a cost-and-risk sharing concept for the NGNP; and establishing a project plan, vendor team and international cooperation framework. The Appropriations Committees emphasize the importance of developing a strong private sector-based partner for the NGNP, and provide \$26,000,000 for advancing critical-path enabling gas reactor technology including materials testing and qualification and fuel development, testing and qualification, \$9,000,000 to continue work with Russia on gas reactors, and \$7,000,000 for deep burn (actinide management) characteristics of gas-cooled reactors.

Nuclear Hydrogen Initiative.— Funding under this heading in the amended bill provides \$10,000,000 for the nuclear hydrogen initiative.

Fuel Cycle Research and Facilities.— Funding under this heading in the amended bill provides \$462,349,000 for fuel cycle research and facilities, and is intended to be used as follows: \$233,849,000 for the construction of the Mixed-Oxide Fuel Fabrication (MOX) facility, and \$47,500,000 for MOX facility other project costs, for a total of \$281,349,000 of new budget authority for the MOX project at the Savannah River Site. The Appropriations Committees are concerned about the management of the MOX fuel fabrication facility, and the amended bill includes a provision that codifies the application of DOE Order 413.3A to MOX construction management. The Appropriations Committees direct the Government Accountability Office to monitor the construction and management of the MOX facility, and report to the Committees on a quarterly basis on the progress of the fuel fabrication facility, regarding scope, cost and schedule changes and performance. The Appropriations Committees direct the Department to provide the Committees a revised cost baseline and schedule for the MOX facility based on the level of funding provided by the Committees. The Department is directed to utilize \$115,000,000 of prior-year unobligated balances for MOX in the nuclear energy research and development program, available for transfer from the Defense Nuclear Nonproliferation account.

Funding under this heading in the amended bill provides \$181,000,000 for the Advanced Fuel Cycle Initiative (AFCI). Of this amount, \$151,000,000 is for continued research and development on spent fuel recycling and advanced reactor design, and no funds are provided for facility construction for technology demonstration or commercialization. The Department is directed to make available 50 percent of the AFCI funds for research and development in an agency-wide solicitation for universities, national laboratories, and commercial entities. Funding under this heading in the amended bill provides \$15,000,000 for hot-cell upgrades at Los Alamos National Laboratory, and \$15,000,000 at Oak Ridge National Laboratory.

Space and defense infrastructure.— Funding under this heading in the amended bill provides \$30,650,000 for space and defense infrastructure.

Medical isotopes infrastructure.— Funding under this heading in the amended bill provides \$14,964,000 for medical isotopes infrastructure.

Research reactor infrastructure.— Funding under this heading in the amended bill provides \$2,947,000 for fresh reactor fuel and disposal of spent fuel for university reactors.

Oak Ridge nuclear infrastructure.— No funds are provided in the nuclear infrastructure account for Oak Ridge National Laboratory (ORNL). Instead, funding is provided within the Advanced Fuel Cycle Initiative.

Idaho National Laboratory (INL) operations and infrastructure.— Funding under this heading in the amended bill provides \$117,000,000 for INL operations and infrastructure, an increase of \$9,837,000 over the budget request for the Advanced Test Reactor national scientific user facility infrastructure transition activities and experiments.

Idaho site-wide safeguards and security.— Funding under this heading in the amended bill is provided as a transfer of \$75,949,000 from the Other Defense Activities account to the Nuclear Energy program.

Program Direction.— Funding under this heading in the amended bill provides a total funding level for program direction of \$81,615,000, to accommodate federal personnel associated with the increased activities in the Nuclear Energy program.

Congressionally Directed Projects.— The agency should, within available funds, provide \$4,000,000 for Congressionally directed projects, for the purposes of research, development, and demonstration of nuclear energy technologies or programs: CVD single –crystal diamond optical switch (MD) \$1,000,000 and Technologies Ventures Corporation for technology transfer activities (NM) \$3,000,000. The agency should remind recipients that statutory cost sharing requirements may apply to these projects.

LEGACY MANAGEMENT

The amended bill provides \$34,183,000 for the activities of the Office of Legacy Management. The Appropriations Committees do not support the consolidation of Legacy Management activities within the Non-Defense Environmental Management account, and continue the Office of Legacy Management as a stand-alone appropriation.

CLEAN COAL TECHNOLOGY

(INCLUDING DEFERRAL AND TRANSFER OF FUNDS)

The Revised Continuing Appropriations Resolution for Fiscal Year 2007 (Public Law 110-5) deferred \$257,000,000 in unobligated Clean Coal Technology balances to fiscal year 2008. The amended bill transfers \$166,000,000 to the Fossil Energy Research and Development account in fiscal year 2008, and recommends the deferral of \$149,000,000 in Clean Coal Technology balances until fiscal year 2009, as proposed by the Senate, and not the rescission of the balances in fiscal year 2008 as proposed by the House.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT (INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$750,000,000 for Fossil Energy Research and Development programs, instead of \$708,801,000 proposed by the House and \$808,113,000 as proposed by the Senate. The amended bill includes a provision that permits the hire of passenger vehicles and other items as proposed by the House. The amended bill includes provisions proposed by the Senate that would encourage participation in the Clean Coal Power Initiative Round III, addressing cost increases, cost sharing, and repayment. The amended bill includes a provision that affirms Round III of the Clean Coal Power Initiative must focus on demonstrating advanced coal-based technologies that capture and sequester carbon, or put carbon dioxide emissions to beneficial reuse. The House bill contained no similar provisions. The amended bill

includes provisions as proposed by the Senate that permit up to 4 percent of National Energy Technology Laboratory (NETL) program direction funds to be used for DOE activities not in the Fossil Energy account, and allow Federal employees performing research and development at NETL to be funded from any appropriate program account. The amended bill does not include a provision proposed by the Senate that reduces overall cost-sharing requirements for the Clean Coal Power Initiative as this is redundant with the Energy Policy Act of 2005 (EPAct).

Report requirement.—The Department is directed to submit to the House and Senate Committees on Appropriations a report on liquefied natural gas (LNG), as outlined in the House report, by December 1, 2008, which is to be funded in Advanced Research within Fuels and Power Systems.

Clean Coal Power Initiative.—Funding under this heading in the amended bill includes \$70,000,000 for the Clean Coal Power Initiative (CCPI), a decrease of \$3,000,000 below the budget request.

FutureGen.— Funding under this heading in the amended bill includes \$75,000,000 for FutureGen, \$33,000,000 below the budget request due to unused prior year funds. The Appropriations Committees are concerned about maintaining adequate funding for the core fossil energy research, development, and demonstration programs. Should the FutureGen program continue to maintain significant balances of unused funds or the project not continue, the Department is directed to submit a request to the Appropriations Committees for approval to reprogram the balances for other coal research and development activities.

Fuels and Power Systems.—Funding under this heading in the amended bill includes \$352,912,000 for Fuels and Power Systems, an increase of \$107,310,000 over the budget request. Within the funds provided, \$36,412,000 is for Innovations for Existing Plants, an increase of \$36,412,000 over the budget request to include carbon capture, innovative CO₂ compression, energy/water technologies or beneficial uses of CO₂; \$54,000,000 for Advanced Integrated Gasification Combined Cycle, an increase of \$4,000,000 over the budget request; and \$24,000,000 for Advanced Turbines, an increase of \$2,000,000 over the budget request. Funding under this heading provides \$120,000,000 for Carbon Sequestration, an increase of \$40,923,000 over the budget request. The Department is encouraged to study the CO₂ accelerated growth algae technology to recycle carbon and produce fuels. Funding under this heading includes \$25,000,000 for Fuels, an increase of \$15,000,000 over the budget request for coalbiomass and hydrogen fuels research; \$56,000,000 for Fuel Cells, a decrease of \$6,025,000 below the budget request; and \$37,500,000 for Advanced Research, an increase of \$15,000,000 above the budget request, of which \$8,000,000 is to support the liquefied natural gas report.

Natural gas technologies.— Funding under this heading in the amended bill provides \$20,000,000 for natural gas technologies, an increase of \$20,000,000 over the budget request, to include \$15,000,000 for methane gas hydrates research and development, and \$5,000,000 for effective environmental production programs.

Petroleum-oil technologies.— Funding under this heading in the amended bill provides \$5,000,000 for petroleum-oil technologies, an increase of \$5,000,000 over the

budget request to include \$1,500,000 for the Stripper Well Consortium, \$1,200,000 for the Risk Based Data Management System, and \$2,300,000 for the unconventional and enhanced oil recovery programs.

Program direction.— Funding under this heading in the amended bill provides \$149,962,000 for program direction, an increase of \$19,989,000 over the budget request for shortfalls in the budget request to cover cost escalations and other needs at various NETL sites.

Other.—Funding is provided in the amended bill for the following activities: \$13,000,000 for Plant and Capital Equipment; \$9,570,000 for Fossil Energy Environmental Restoration; \$656,000 for Special Recruitment Programs; and \$5,000,000 for Cooperative Research and Development. No funds have been provided for Section 964 of EPAct as proposed by the Senate.

Congressionally Directed Projects. — Funding under this heading in the amended bill provides \$48,900,000 for Congressionally directed projects, for the purposes of research, development, and demonstration of coal and other fossil energy related technologies or programs. The Department should remind recipients that statutory cost sharing requirements may apply to these projects.

NAVAL PETROLEUM AND OIL SHALE RESERVES

Insert

The amended bill provides \$20,472,000 for the operation of the Naval Petroleum and Oil Shale Reserves, instead of \$17,301,000 as proposed by the House and \$21,301,000 as proposed by the Senate. Within available funds, \$1,441,000 is directed for the Naval Petroleum Reserve #3 and \$2,000,000 for Los Alamos National Laboratory to support in basin scale environmental impacts for oil shale production.

STRATEGIC PETROLEUM RESERVE

The amended bill provides \$188,472,000 for the Strategic Petroleum Reserve, a decrease of \$143,137,000 below the budget request, instead of \$163,472,000 as proposed by the House and the Senate. The Department is directed to use \$25,000,000 to acquire land at a new site consistent with the budget request. The Appropriations Committees provide for the operation of the Strategic Petroleum Reserve, but do not support the expansion of the reserve to 1.5 billion barrels.

NORTHEAST HOME HEATING OIL RESERVE

The amended bill provides \$12,448,000 for the Northeast Home Heating Oil Reserve, instead of \$5,325,000 as proposed by the House and \$12,825,000 as proposed by the Senate. The increase of \$7,123,000 over the budget request is to accommodate increased costs for storage leases.

ENERGY INFORMATION ADMINISTRATION

The amended bill provides \$96,337,000 for the Energy Information Administration instead of \$105,095,000 as proposed by the House and the Senate. Within available funds, \$1,000,000 is provided for the National Academy of Sciences to support the International Institute for Advanced Systems Analysis's Global Energy Assessment.

NON-DEFENSE ENVIRONMENTAL CLEANUP

The amended bill provides \$183,937,000 for Non-Defense Environmental Cleanup instead of \$286,041,000 as proposed by the House or \$195,437,000 as proposed by the Senate. Funding under this heading in the amended bill includes an increase of \$5,000,000 for the acceleration of the decontamination and decommissioning of the graphite reactor at Brookhaven National Laboratory.

The amended bill does not support the consolidation of Legacy Management activities within the Non-Defense Environmental Management account. The amended bill includes a provision regarding the cleanup requirements at the Energy Technology and Engineering Center at the Santa Susana Field Laboratory, as proposed by the Senate.

Energy Technology and Engineering Center.—The Appropriations Committees are aware of the suspension of the Department's deactivation and decommissioning activities at the Energy Technology and Engineering Site, Santa Susanna Field Laboratory, in Simi Valley, California. The Appropriations Committees are very concerned with the need to assure thorough site characterization and cleanup and will be monitoring the Department's actions closely.

Internal reprogramming authority.—The agency should follow the internal reprogramming authority as directed in the House report, omitting Legacy Management as a control point.

Economic development.—None of the Non-Defense Environmental Management funds, including those provided in the Non-Defense Environmental Cleanup and Uranium Enrichment Decontamination and Decommissioning Fund, are available for economic development activities.

Report requirement.—The Appropriations Committees direct the Department to provide a report within 180 days of enactment of this Act on the annual funding requirements needed to complete remediation of the Moab uranium mill tailings site and removal of the tailings to the Crescent Junction site in Utah no later than the year 2019.

URANIUM ENRICHMENT DECONTAMINATION AND DECOMMISSIONING FUND

The amended bill provides \$627,876,000 for activities funded from the Uranium Enrichment Decontamination and Decommissioning Fund, instead of \$618,759,000 proposed by the House and \$573,509,000 proposed by the Senate. Funding under this heading includes an increase of \$54,367,000 over the budget request for decontamination and decommissioning activities at the Oak Ridge East Tennessee Technology Park K-25

process building. Funding under this heading provides the budget request for cleanup at Paducah and Portsmouth facilities. The amended bill also provides \$20,000,000 for the Title X uranium and thorium reimbursements program, the same as the budget request and the House, and instead of no funds as proposed by the Senate.

SCIENCE

The amended bill provides \$4,055,483,000 for Science instead of \$4,514,082,000 as proposed by the House and \$4,496,759,000 as proposed by the Senate. Funds previously provided for the Coralville, Iowa, project in the Consolidated Appropriations Act, 2004, are rescinded.

High Energy Physics.—Funding under this heading in the amended bill includes \$694,638,000 for High Energy Physics. Within funding for Proton Accelerator-Based Physics, no funds are provided for the NOvA activity in Tevatron Complex Improvements. Within Advanced Technology R&D, in the current constrained environment and without a Critical Decision 0 by the Department, only \$15,000,000 is provided for International Linear Collider R&D and \$5,455,000 for Superconducting RF R&D.

The Committees on Appropriations appreciate the Beyond Einstein Program architecture report by the National Research Council and support its recommendations. Accordingly, the Department of Energy is directed to proceed jointly with NASA to conduct and complete an open, competitive selection of the science investigation and payload for the Joint Dark Energy Mission (JDEM) during 2008. This selection should use the NASA Announcement of Opportunity process and have as its primary science selection criterion the achievement of improved understanding of dark energy and include improved understanding in astrophysics generally as a secondary criterion. The selection should be made jointly by one official each from NASA and DOE. If DOE and NASA cannot agree on a joint approach for mission implementation, DOE should provide no future year support for this activity or for other space science satellite missions. The Department is directed to continue support for the Super Nova Acceleration Probe during fiscal year 2008.

The control level is at the High Energy Physics level.

Nuclear Physics.— Funding under this heading in the amended bill includes \$436,700,000 for Nuclear Physics. Within Nuclear Physics, construction is funded at \$17,700,000, the same as the request.

Biological and Environmental Research.—Funding under this heading in the amended bill includes \$549,397,000 for Biological and Environmental Research. This area of the Office of Science encompasses two distinct research efforts: Biological Research, using biology to address energy production and environmental remediation, and Climate Change Research. The Department is directed to request funds for Biological Research and Climate Change Research as separate subaccounts in fiscal year 2009 and future fiscal years.

Biological Research.—Funding under this heading in the amended bill includes \$411,273,000 for Biological Research, including \$31,500,000 for Medical Applications and Measurement Science. The increase of \$17,500,000 is for nuclear medicine research. All of the added funds must be awarded competitively in one or more solicitations that include all sources – universities, the private sector, and government laboratories – on an equal basis. The Committees on Appropriations support the language contained in the Senate report on Advanced Materials Testing and Low Dose Research. The Committees on Appropriations also note that diagnostics are currently in development between the University of New Mexico (UNM) and Los Alamos National Laboratory utilizing the unique capabilities of Los Alamos National Laboratory at the IPF at LANSCE and the radiopharmaceutical expertise of UNM at the Center for Isotopes in Medicine.

Climate Change Research.—Funding under this heading in the amended bill includes \$138,124,000 for Climate Change Research, the same as the request.

Basic Energy Sciences.—Funding under this heading in the amended bill includes \$1,281,564,000 for Basic Energy Sciences. Within Basic Energy Sciences, \$15,000,000 is provided for the Experimental Program to Stimulate Competitive Research (EPSCoR).

Reprogramming.— For purposes of reprogramming during fiscal year 2008, the Department may allocate funding among all operating accounts within Basic Energy Sciences, consistent with the reprogramming guidelines outlined in House Report 110-185.

Nanoscience Research Centers.—The Committees on Appropriations support ongoing research at the Nanoscale Science Research Centers and Manuel Lujan Jr. Neutron Scattering Center.

Construction.—Given current budget constraints, funding under this heading in the amended bill includes less funding than requested for two projects where the start of major construction activity can be delayed.

Advanced Scientific Computing Research.—Funding under this heading in the amended bill includes \$354,398,000 for Advanced Scientific Computing Research. Within Advanced Scientific Computing Research, \$19,500,000 is included for the Office of Science to continue the Department's participation in the Defense Advanced Research Projects Agency High Productivity Computing Systems partnership and an increase of \$7,700,000 is included for the Oak Ridge Leadership Computing Facility to maintain the planned budget and cost schedule.

The Office of Science and the National Nuclear Security Administration (NNSA) are directed to establish the Institute for Advanced Architectures and Algorithms with Centers of Excellence at Sandia National Laboratories and Oak Ridge National Laboratory. These Centers will execute a national program involving industry, universities and national laboratories that is focused on technologies to sustain the U.S. leadership in high performance computing. The NNSA ASC and Office of Science ASCR programs will jointly fund the program and provide direction needed to support the goal of developing exascale computing for the Nation.

Fusion Energy Sciences.—Funding under this heading in the amended bill includes \$289,180,000 for Fusion Energy Sciences. Within Fusion Energy Sciences, \$162,910,000

is provided for Science, \$93,504,000 for U.S. Facility Operations, an increase of \$6,000,000 to be used to increase facility operations at the three U.S. user facilities (i.e., the DIII-D, Alcator C-Mod, and National Spherical Torus Experiment) \$22,042,000 for Enabling R&D, an increase of \$1,225,000 for materials research, \$0 for the U.S. contribution to ITER, and \$10,724,000 for Enabling R&D for ITER. Funding under this heading in the amended bill includes \$12,281,000 for High Energy Density Physics. Funding may not be reprogrammed from other activities within Fusion Energy Sciences to restore the U.S. contribution to ITER.

Science Laboratories Infrastructure. — Funding under this heading in the amended bill includes \$65,456,000 for infrastructure activities. Within Science Laboratories Infrastructure, \$1,520,000 is provided to continue payments in lieu of taxes for Argonne and Brookhaven National Laboratories, \$5,079,000 for Oak Ridge Laboratory landlord expenses, and \$8,828,000 for excess facilities disposition, as requested. Also included is \$50,029,000 for MEL-001 Multiprogram energy laboratory infrastructure projects at various locations.

The Committees on Appropriations continue to be supportive of the Physical Sciences Facility at the Pacific Northwest National Laboratory, and \$25,000,000 for this facility is included in funding provided for MEL-001. This amount is \$10,000,000 below the request for this facility in the Office of Science. The Department is directed to increase the future year funding contribution of the Office of Science for this facility by \$10,000,000 to restore the baseline funding contribution from the Office of Science. To keep this project on schedule, \$25,000,000 is included in Defense Nuclear Nonproliferation.

The Committees on Appropriations understand that the modernization of Laboratory 4500 at Oak Ridge National Laboratory can be accomplished more efficiently than originally proposed in the fiscal year 2007 budget request. The Department is directed to use the existing \$2,000,000 of PED funding, plus the requested construction funding under the MEL-001 infrastructure project, for the design and construction of a new multipurpose laboratory to replace 4500N.

Safeguards and Security. — Funding under this heading in the amended bill includes \$76,592,000 for Safeguards and Security, the same as the request.

Science Workforce Development.— Funding under this heading in the amended bill includes \$8,118,000 for Science Workforce Development.

Science Program Direction.— Funding under this heading in the amended bill includes \$179,412,000 for Science Program Direction including \$6,644,000 to support the New Brunswick Laboratory.

Funding Adjustments.— Funding under this heading in the amended bill includes an offset of \$5,605,000 for the safeguards and security charge for reimbursable work.

Congressionally Directed Projects.— Funding under this heading in the amended bill includes \$125,633,000 for Congressionally Directed Projects.

NUCLEAR WASTE DISPOSAL

The amended bill provides \$189,000,000 for Nuclear Waste Disposal instead of \$202,454,000 as proposed by the House and \$204,054,000 as proposed by the Senate. The amended bill also provides \$201,000,000 for Defense Nuclear Waste Disposal, \$91,046,000 less than the request. This provides a total of \$390,000,000 for the repository program in fiscal year 2008.

Funding under this heading in the amended bill provides funds for affected elements of state and local government including \$1,600,000 for the cooperative agreement between the Department of Energy and Inyo County, California.

The Department is directed to develop a plan to take custody of spent fuel currently stored at decommissioned reactor sites to both reduce costs that are ultimately borne by the taxpayer and demonstrate that DOE can move forward in the near-term with at least some element of nuclear waste policy. The Department should consider consolidation of the spent fuel from decommissioned reactors either at an existing federal site, at one or more existing operating reactor sites, or at a competitively-selected interim storage site. The Department should engage the sites that volunteered to host Global Nuclear Energy Partnership facilities as part of this competitive process.

The control level is at the Nuclear Waste Disposal account level, so the Department may move funding between the repository program and program direction subaccounts.

ENVIRONMENT, SAFETY AND HEALTH

Following the specific request from the Department of Energy for congressional approval to transfer appropriations among accounts as part of the implementation of the Department's reorganization associated with the formation of the Office of Health, Safety and Security, the Committees on Appropriations have approved the request and provided funds formerly included in Environment, Safety and Health in the accounts for which they were requested. Consequently, the amended bill provides no funds for Environment, Safety and Health instead of \$31,625,000 as proposed by the House.

INNOVATIVE TECHNOLOGY LOAN GUARANTEE PROGRAM

Insert 42a

The amended bill restates loan guarantee authority as provided in the Energy Policy Act of 2005, and makes this authority available until September 30, 2009. The Department is directed to make no authority available in excess of \$38,500,000,000, to be allocated as follows: \$18,500,000,000 of loan guarantees are for nuclear power facilities; \$6,000,000,000 of loan guarantees are for coal-based power generation and industrial gasification activities at retrofitted and new facilities that incorporate carbon capture and sequestration or other beneficial uses of carbon; \$2,000,000,000 of loan guarantees are for advanced coal gasification; \$10,000,000,000 of loan guarantees are for renewable and/or energy efficient systems and manufacturing, and distributed energy generation, transmission and distribution; and \$2,000,000,000 of loan guarantees are for advanced nuclear facilities for the "front-end" of the nuclear fuel cycle.

Prior to the issuance of a loan guarantee solicitation, the Department of Energy is directed to submit a loan guarantee implementation plan within 45 days of a solicitation, defining the award levels and eligible technologies, to the Committees on Appropriations for approval. No funds can be made available for the execution of a loan guarantee solicitation until a plan is submitted and approved. Should the plan change after approval by the Committees, it must be submitted again for approval by the Committees. Funding under this heading in the amended bill includes \$5,500,000 for administrative expenses for the loan guarantee office, instead of \$2,390,000 as proposed by the House, and \$8,390,000 as proposed by the Senate. The amended bill includes a provision that enables the Department to credit loan guarantee fees as offsetting collections.

DEPARTMENTAL ADMINISTRATION (INCLUDING TRANSFER OF FUNDS)

The amended bill provides a net appropriation of \$149,778,000 for Departmental Administration expenses. This amount includes a transfer of \$99,000,000 from Other Defense Activities for defense-related Departmental Administration activities and the Congressional Budget Office estimate of \$161,818,000 for revenues. Specific funding levels for each organization funded under the Departmental Administration account are detailed in the accompanying table. The amended bill provides representation expenses not to exceed \$30,000 instead of \$5,000 as proposed by the House, and \$35,000 as proposed by the Senate.

DOE pension and medical benefits.—The Appropriations Committees reaffirm the House report language regarding the revised contract reimbursement policy concerning pension and medical benefits. A final report by the Government Accountability Office (GAO) assessing the adequacy of the Department's analysis of pension and medical liabilities is due to the Appropriations Committee by April 1, 2008.

Management.—Funding under this heading in the amended bill provides \$65,439,000 for the Management account, an increase of \$1,500,000 above the budget request for the Office of Management to contract with the National Academy of Public Administration (NAPA), as specified in the House report, for a review of procurement and contracting practices.

Chief Financial Officer.—Funding under this heading in the amended bill provides \$42,260,000 for the Office of the Chief Financial Officer, an increase of \$2,000,000 over the budget request to complete financial systems upgrades and training.

Loan Guarantee Office.—No funds are provided for the loan guarantee office within the Departmental Administration account. Funding in the amount of \$5,500,000 is provided for the loan guarantee office as a separate appropriation.

General Counsel.—Funding under this heading in the amended bill provides \$30,076,000 for the General Counsel, the same as the budget request. The agency should direct \$500,000 within this account for new hires to support additional attorney assistance for energy efficiency-related matters.

No funds are provided for the Competitive Sourcing Initiative (A-76), a reduction of \$1,770,000 below the request. Funding under this heading in the amended bill provides \$3,360,000 for the Public Affairs office, a reduction of \$500,000 below the budget request, as adequate prior year balances are available for this account.

OFFICE OF THE INSPECTOR GENERAL

The amended bill provides \$46,480,000 for the Office of the Inspector General, instead of \$47,732,000 as proposed by the House and the Senate.

ATOMIC ENERGY DEFENSE ACTIVITIES NATIONAL NUCLEAR SECURITY ADMINISTRATION

The National Nuclear Security Administration (NNSA), a semi-autonomous agency within the Department of Energy, manages the Nation's nuclear weapons programs, nuclear nonproliferation programs, and naval reactors activities.

The amended bill provides \$8,892,695,000 for National Nuclear Security

Administration activities instead of \$8,786,881,000 as proposed by the House and \$9,564,545,000 as proposed by the Senate. The amended bill makes funds available until expended.

NUCLEAR WEAPONS ACTIVITIES

U.S. Nuclear Weapons Strategy for the 21st Century.—The Congress agrees to the direction contained in the House and Senate reports requiring the Administration, in consultation with the Secretary of Energy, the Administrator of the NNSA, the Department of Defense, including the Joint Chiefs of Staff and Strategic Command, and the Intelligence Community, and other appropriate independent, non-government science and security advisory organizations, to develop and submit to the Congress a comprehensive nuclear weapons strategy for the 21st century.

Reliable Replacement Warhead.—The amended bill provides no funds for the Reliable Replacement Warhead (RRW), as proposed by the House. As stated in both the House and Senate reports, Congress believes a new strategic nuclear deterrent mission assessment for the 21st century is required to define the associated stockpile requirements and determine the scope of the weapons complex modernization plans. The NNSA is directed to develop a long-term scientific capability roadmap for the national laboratories to be submitted to the Committees on Appropriations.

Advanced Certification.—The Department is directed to implement a new Science Campaign called Advanced Certification. Congress believes the recent findings of the JASON Defense Advisory Group revealed significant systemic gaps in NNSA's stockpile certification process and weapons campaign work products. Therefore, the NNSA is directed to develop a work scope to address: improvement of the weapons certification process through expanded, independent peer review mechanisms and refinement of computational tools and methods; advancement of the physical understanding of surety mechanisms; further exploration of failure modes; manufacturing process assessments; and the study of strategic system-level requirements. Funding under this heading in the amended bill provides \$15,000,000 in fiscal year 2008 for Advanced Certification activities. The Administrator of the NNSA is directed to submit an expenditure plan for these funds no later than 60 days after enactment of this Act and to submit a report to the Committees on Appropriations no later than six months after enactment of this Act on the progress made in implementing the JASON's recommendations and improving the stockpile certification process.

REPROGRAMMING GUIDELINES

Reprogramming authority.—The Department is provided limited reprogramming authority within the Weapons Activities account without submission of a reprogramming to be approved in advance by the House and Senate Committees on Appropriations. The reprogramming control levels are as follows: subprograms within Directed Stockpile Work; Life Extension Programs, Stockpile Systems, Warhead Dismantlement, and Stockpile Services. Additional reprogramming control levels are as follows: Science Campaigns, Engineering Campaigns, Inertial Confinement Fusion Ignition and High Yield, Advanced Simulation and Computing, Pit Manufacturing and Certification, Readiness Campaigns, and Readiness in Technical Base and Facilities (RTBF). The Department is not provided reprogramming authority between site allocations for Readiness in Technical Base and Facilities Operations of Facilities. In addition, funding of not more than \$5,000,000 may be transferred between each of these categories and each construction project, with the exception of the RTBF site allocations, subject to the following limitations: only one transfer may be made to or from any program or project; the transfer must be necessary to address a risk to health, safety or the environment; and funds may not be used for an item for which Congress has specifically denied funds or for a new program or project that has not been authorized by Congress.

The Department must notify Congress within 15 days of the use of this reprogramming authority. Transfers during the fiscal year which would result in increases or decreases in excess of \$5,000,000 or which would exceed the limitations outlined in the previous paragraph require prior notification of and approval by the House and Senate Committees on Appropriations.

WEAPONS ACTIVITIES (INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$6,355,633,000 for Weapons Activities instead of \$5,879,137,000 as proposed by the House and \$6,489,024,000 as proposed by the Senate.

DIRECTED STOCKPILE WORK

Funding under this heading in the amended bill includes \$1,413,879,000 for Directed Stockpile Work instead of \$1,336,594,000 as proposed by the House and \$1,409,521,000 as proposed by the Senate.

Life Extension Program.— Funding under this heading in the amended bill includes \$236,231,000 for Life Extension Program activities.

Stockpile Systems.— Funding under this heading in the amended bill includes \$343,152,000 for Stockpile Systems activities.

Reliable Replacement Warhead (RRW).—No funding is provided for the Reliable Replacement Warhead as proposed by the House.

Warhead Dismantlement.— Funding under this heading in the amended bill includes \$135,888,000 for Warhead Dismantlement. Within the funding provided, \$14,846,000 is included for upgrading the Device Assembly Facility (DAF) at the Nevada Test Site for

additional missions. The amended bill transfers the Pit Disassembly and Conversion Facility (PDCF) construction project from the Office of Defense Nuclear Nonproliferation to the NNSA Office of Defense Programs. Funding under this heading in the amended bill includes \$69,330,000 for the PDCF project.

Stockpile Services.— Funding under this heading in the amended bill includes \$698,608,000 for Stockpile Services.

CAMPAIGNS

Funding under this heading in the amended bill includes \$1,890,717,000 for Campaigns. Within the funds provided, the budget request level of funding is available for the university research program in robotics (URPR).

Science Campaigns.— Funding under this heading in the amended bill includes \$290,216,000 for Science Campaigns. The Committees on Appropriations include an additional \$4,949,000 for Test Readiness activities at the Nevada Test Site to maintain the capabilities restored under the enhanced test readiness program.

Advanced Certification.— Funding under this heading in the amended bill includes \$15,000,000 for a new campaign focused very narrowly on addressing the long-term scientific issues related to continued certification of the nuclear stockpile without underground nuclear testing and the scientific uncertainties identified by the JASON review of the RRW feasibility study activities. Within the funding provided for Advanced Certification, \$5,000,000 is derived from the remaining uncosted balances from the Microsystems and Engineering Science Applications project and the Exterior Communication Infrastructure Modernization contingency funds. The NNSA Administrator must submit a written report to the defense committees by May 1, 2008, outlining a program plan that addresses the specific certification issues, including the issues identified in the JASON RRW review, which will be addressed in the Advanced Certification campaign.

Engineering Campaigns.— Funding under this heading in the amended bill includes \$171,075,000 for Engineering Campaigns. Within the funds provided, \$10,000,000 is available for enhanced surety work to increase the safety and security of nuclear weapons in the existing stockpile and develop new technologies for incorporation into potential future systems. The amended bill authorizes the use of \$10,000,000 in remaining uncosted balances from the Microsystems and Engineering Science Applications project and the Exterior Communication Infrastructure Modernization contingency funds to initiate a construction start for the Ion Beam Laboratory Project.

Inertial Confinement Fusion Ignition and High Yield.—Funding under this heading in the amended bill includes \$474,442,000 for Inertial Confinement Fusion Ignition and High Yield. This funding includes an additional \$15,113,000 to accelerate target development and fabrication, and restores \$29,691,000 of funding for the Inertial Fusion Technology program. Within the funds provided for Inertial Fusion Technology, \$14,691,000 is for continuing development of high average power lasers and \$15,000,000 is for the Naval Research Laboratory. A total of \$62,044,000 is provided for the Laboratory for Laser Energetics (LLE) operations, an increase of \$9,000,000 over the budget request, to provide additional shots to support the goal of an ignition

demonstration at the National Ignition Facility (NIF) in 2010. An additional \$13,000,000 is provided to fully fund single shift operations of the Z machine at Sandia National Laboratory. Z machine operations funding includes \$28,887,000 provided within the Readiness and Technical Base and Facilities (RTBF) subheading account in Weapons Activities.

Advanced Simulation and Computing.—Funding under this heading in the amended bill includes \$579,714,000 for Advanced Simulation and Computing. The Department of Energy is directed to establish the Institute for Advanced Architectures and Algorithms between the NNSA and the Department of Energy Office of Science with Centers of Excellence at Sandia National Laboratories and Oak Ridge National Laboratory. These Centers will execute a national program involving industry, universities and national laboratories that is focused on technologies to sustain the U.S. leadership in high performance computing. The NNSA ASC and Office of Science ASCR programs will jointly fund the program and provide direction needed to support the goal of developing exascale computing for the Nation.

Pit Manufacturing and Certification.—Funding under this heading in the amended bill includes \$215,758,000 for Pit Manufacturing and Certification. The Administrator is directed to manage the pit activities as a single, coherent project and adopt strict adherence to DOE Order 413.3A. No funds are provided for the consolidated plutonium center.

Until a modern nuclear weapons strategy, including required pit production capacity defined by nuclear stockpile requirements, is developed, the NNSA is directed to constrain the out-year planning for plutonium operations to a pit production capacity no greater than 80 pits per year. The NNSA Administrator is directed to provide quarterly reports to the Committees on Appropriations on pit production, with the first report due on April 1, 2008.

Readiness Campaigns.— Funding under this heading in the amended bill includes \$159,512,000 for Readiness Campaigns.

READINESS IN TECHNICAL BASE AND FACILITIES

Funding under this heading in the amended bill provides \$1,652,132,000 for Readiness in Technical Base and Facilities instead of \$1,479,632,000 as proposed by the House and \$1,659,248,000 as proposed by the Senate.

Operations of Facilities. — Funding under this heading in the amended bill includes \$1,164,856,000 for RTBF Operations of Facilities. Within the funds provided, an additional \$37,649,000 is for the Y-12 Plant in Tennessee and \$18,817,000 for the Pantex Plant in Texas and \$9,064,000 for the Lawrence Livermore National Laboratory in California and \$17,011,000 for implementation of a Classified Vaults project at Los Alamos National Laboratory in New Mexico. The House direction is adopted providing the RTBF Operations and Facilities site funding in site-specific allocations in the detail table at the end of title III. All proposed shifts in funding between site-specific allocations require the submittal of a reprogramming request to the House and Senate Committees on Appropriations.

Program Readiness.— Funding under this heading in the amended bill includes \$70,731,000 for Program Readiness.

Material Recycling and Recovery.— Funding under this heading in the amended bill includes \$72,212,000 for Material Recycling and Recovery, an increase of \$2,250,000 over the budget request.

Containers.—Funding under this heading in the amended bill includes \$21,956,000 for Containers, an increase of \$2,772,000 over the budget request.

Storage.—Funding under this heading in the amended bill includes \$34,772,000 for Storage.

Construction.— Funding under this heading in the amended bill includes \$287,605,000 for RTBF Construction. This funding includes \$15,143,000 for Project 08-D-802, High Explosive Pressing Facility, Pantex, Texas; \$41,926,000 for Project 06-D-140, Project Engineering and Design (PED), various locations, including \$38,957,000 for Project 06-D-140-05 Uranium Processing Facility (UPF), Y-12 Plant, Oak Ridge, Tennessee. Within the funds provided for Project 06-D-140, \$990,000 is provided for Project 06-D-140-01, TA-55 Radiography Facility, Los Alamos National Laboratory, New Mexico. Funding under this heading also includes \$1,979,000 for Project 05-D-140, Project Engineering and Design, various locations; \$74,809,000 for Project 04-D-125, Chemistry and Metallurgy Facility Replacement Project, Los Alamos National Laboratory, New Mexico; \$29,152,000 for Project 04-D-128, TA-18 Mission Relocation Project, Los Alamos National Laboratory, New Mexico; and \$76,208,000 for Project 01-D-124, HEU Materials Facility, Y-12 Plant, Oak Ridge, Tennessee.

FACILITIES AND INFRASTRUCTURE RECAPITALIZATION

Funding under this heading in the amended bill includes \$181,613,000 for Facilities and Infrastructure Recapitalization.

SECURE TRANSPORTATION ASSET

Funding under this heading in the amended bill includes \$213,428,000 for Secure Transportation Asset.

NUCLEAR WEAPONS INCIDENT RESPONSE

Funding under this heading in the amended bill includes \$160,084,000 for Nuclear Weapons Incident Response.

ENVIRONMENTAL PROJECTS AND OPERATIONS

Funding under this heading in the amended bill includes \$8,669,000 for Environmental Projects and Operations.

SAFEGUARDS AND SECURITY

Safeguards and Security. — Funding under this heading in the amended bill includes \$907,625,000 for Safeguards and Security. Within these funds are provided \$7,000,000 to each of the following facilities: the Los Alamos National Laboratory in New Mexico, the Y-12 Plant in Tennessee, and the Lawrence Livermore National Laboratory in

California, for additional physical and cyber security upgrades to meet Design Basis Threat requirements and address cyber security vulnerabilities.

Construction. — Funding for safeguards and Security includes \$71,751,000 for construction activities. An additional \$14,846,000 is provided for the refurbishment of Building 651 and completion of Building 691 at the Idaho National Laboratory to handle special nuclear material consolidation, storage and other missions. The amended bill transfers \$4,900,000 provided in fiscal year 2006 in the Other Defense Activities account to begin planning activities for the Idaho project.

FUNDING ADJUSTMENTS

Funding Adjustments.— Funding under this heading in the amended bill includes the use of \$86,514,000 of prior year balances made available from completed or cancelled construction projects. The recommendation includes an adjustment of \$34,000,000 for the safeguards and security charge for reimbursable work.

Congressionally Directed Projects.— Funding under this heading in the amended bill includes \$48,000,000 in congressionally directed projects.

DEFENSE NUCLEAR NONPROLIFERATION (INCLUDING RESCISSIONS OF FUNDS)

insert 49a

The amended bill provides a total program level of \$1,673,275,000 for Defense Nuclear Nonproliferation instead of \$2,070,646,000 as proposed by the House and \$1,929,646,000 as proposed by the Senate. The amended bill includes \$1,351,275,000 of new budget authority and the use of \$322,000,000 of prior year balances in fiscal year 2008.

NONPROLIFERATION AND VERIFICATION RESEARCH AND DEVELOPMENT

Funding under this heading in the amended bill includes \$390,752,000 for Nonproliferation and Verification Research and Development, an increase of \$125,500,000 over the budget request. The amended bill provides an additional \$60,000,000 in proliferation detection to expand research in critical research and development for high-risk, high return nuclear detection capabilities and an additional \$20,000,000 for the implementation of a sustained research and development capacity in nuclear detection and nuclear materials security. The NNSA has the lead responsibility for the federal government in nuclear detection, counter-proliferation and counter-terrorism, and this capability must be sustained to meet the evolving threats. An additional \$20,500,000 is provided for nuclear explosion monitoring.

This account includes \$25,000,000 for Project 06-D-180, National Security Laboratory at the Pacific Northwest National Laboratory, an increase of \$25,000,000 over the request. Funds not needed for project engineering and design (PED) on Project

06-D-180 may be used without prior committee approval for Project 06-D-180 construction activities.

The Department is directed to conduct a competitive solicitation open to all federal and non-federal entities toward an integrated suite of research, technology development and demonstration areas including infrasound, hydroacoustic for ground-based systems treaty monitoring activities. The competitive process should award not less than \$5,000,000 of the additional funding for nuclear explosion monitoring for research and development activities for ground-based treaty monitoring.

NONPROLIFERATION AND INTERNATIONAL SECURITY

Funding under this heading in the amended bill includes \$151,370,000 for Nonproliferation and International Security, an increase of \$26,500,000 over the budget request. An additional \$8,000,000 is provided for Dismantlement and Transparency; an additional \$10,000,000 for Global Security Engagement and Cooperation for Global Initiatives for Proliferation and Prevention; and an additional \$8,500,000 for International Regimes and Agreements to expand international cooperation on multilateral nuclear nonproliferation goals and objectives.

Nuclear Disablement Activities in North Korea. – The Committees on Appropriations are concerned about the NNSA resources required to support disablement of North Korea's nuclear weapons arsenal and production capability. The Committees on Appropriations strongly support NNSA's contributions to this diplomatic mission, but remain concerned about relying upon a mid-year reprogramming of resources from other critical nonproliferation programs to support what is currently a fluid and uncertain effort. From within the funds provided for Nonproliferation and International Security, the NNSA has funding discretion to provide up to \$10,000,000 toward NNSA activities to continue disablement activities to shut down nuclear weapons activities in North Korea. The Department is directed to submit a supplemental budget request if additional resources are required to continue activities during fiscal year 2008.

INTERNATIONAL NUCLEAR MATERIALS PROTECTION AND COOPERATION

Funding under this heading in the amended bill includes \$630,217,000 for International Nuclear Materials Protection and Cooperation. Within the funds provided, \$269,331,000 is available for Second Line of Defense activities, including an additional \$50,000,000 for the Megaports initiative to accelerate deployment of radiation detection equipment at international seaports.

ELIMINATION OF WEAPONS-GRADE PLUTONIUM PRODUCTION

Funding under this heading in the amended bill includes \$181,593,000 for the Elimination of Weapons-Grade Plutonium Production program, the same as the budget request.

FISSILE MATERIALS DISPOSITION

Funding under this heading in the amended bill includes \$66,843,000 for Fissile Materials Disposition, as proposed by the House. Program activities and functions for the Mixed Oxide (MOX) Fuel Fabrication Facility construction project are transferred to

the Office of Nuclear Energy and the program activities and functions for the Pit Disassembly and Conversion Facility (PDCF) activity are transferred to the NNSA Office of Defense Programs. The use of \$322,000,000 in prior year balances is specified under Funding Transfers from the Russian Plutonium Disposition activities and the Mixed Oxide Fuel Fabrication project for other purposes within Defense Nuclear Nonproliferation. A total of \$115,000,000 of unobligated, uncosted prior year balances are transferred to the Nuclear Energy account.

GLOBAL THREAT REDUCTION INITIATIVE

Funding under this heading in the amended bill includes \$195,000,000 for Global Threat Reduction Initiative, an increase of \$75,374,000 over the budget request.

INTERNATIONAL NUCLEAR FUEL BANK

The amended bill provides \$50,000,000 for an International Nuclear Fuel Bank initiative. The \$50,000,000 for the International Nuclear Fuel Bank is the United States Government's contribution to an international effort to establish a nuclear fuel supply for peaceful means under the auspices of the International Atomic Energy Agency (IAEA). The International Nuclear Fuel Bank will provide a nuclear fuel stockpile to be available as a fuel supply reserve for nations that have made the sovereign choice to develop their civilian nuclear energy industry based on foreign sources of nuclear fuel and therefore have no requirement to develop an indigenous nuclear fuel enrichment capability. Not later than 120 days after the date of enactment of this Act, the Secretary of Energy shall transmit to the House and Senate Committees on Appropriations and the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate a report on the progress of the United States to support the establishment of a nuclear fuel supply for peaceful means under the auspices of the IAEA.

RELIABLE FUEL SUPPLY

The Secretary of Energy established a stockpile of low enriched nuclear fuel from the down blend of 17.4 metric tons of Highly Enriched Uranium, excess to U.S. needs. This stockpile was to be designated for the sale to foreign countries that support U.S. nonproliferation goals in the event of an unforeseen supply disruption in the global nuclear fuel market. In light of the establishment of the International Nuclear Fuel Bank, the Secretary is directed to allow U.S. interests to purchase uranium fuel from the Reliable Fuel Supply in the event of a supply disruption.

FUNDING ADJUSTMENTS

The funding adjustments in Defense Nuclear Nonproliferation include the use of \$322,000,000 of prior year balances. The sources of the prior year balances are \$57,000,000 from the Russian Surplus Materials Disposition program, \$115,000,000 from unobligated, uncosted balances within the Mixed Oxide fuel fabrication facility construction activities, and the remaining \$151,000,000 of unexpended balances from the Russian material disposition funding provided in the fiscal year 1999 emergency supplemental (P.L. 105-277).

51

Congressionally Directed Projects.—Funding provided in the amended bill under this heading includes \$7,500,000 in congressionally directed projects within the Defense Nuclear Nonproliferation account.

NAVAL REACTORS

Insert 5 La

The amended bill provides \$781,800,000 for Naval Reactors, the same funding level as fiscal year 2007. (405,987,000

OFFICE OF THE ADMINISTRATOR

The amended bill provides \$403,987,000 for the Office of the Administrator. The Administrator is directed to support the increase in Defense Nuclear Nonproliferation activities with sufficient resources to support federal travel requirements to support the expanded nuclear nonproliferation activities.

Congressionally Directed Projects.—Funding under this heading in the amended bill includes \$22,500,000 in congressionally directed projects in support of the Historically Black Colleges and Universities (HBCU) programs within the Office of the Administrator account. Insert 5 db

ENVIRONMENTAL AND OTHER DEFENSE ACTIVITIES

DEFENSE ENVIRONMENTAL CLEANUP

(INCLUDING TRANFER OF FUNDS)

The amended bill provides \$5,398,573,000 for the Defense Environmental Cleanup program, instead of \$5,766,561,000 as proposed by the House, and \$5,690,380,000 as proposed by the Senate. The agency should direct the Department to fund hazardous waste worker training at \$10,000,000 within available funds.

Economic development.—The Appropriations Committees direct that none of the Defense Environmental Cleanup funds are available for economic development activities unless specifically authorized by law.

Internal Reprogramming authority.—In fiscal year 2008, the Department may transfer up to \$5,000,000 within accounts and between accounts, as noted in the table below, to reduce health or safety risks or to gain cost savings as long as no program or project is increased or decreased by more than \$5,000,000 in total during the fiscal year. This reprogramming authority may not be used to initiate new programs or to change funding for programs specifically denied, limited, or increased by Congress in the Act or explanatory statement. The Committees on Appropriations in the House and Senate must be notified within thirty days of the use of this reprogramming authority.

Closure Sites.—Funding under this heading in the amended bill includes \$42,437,000, the same as the budget request.

Savannah River Site.— Funding under this heading provides \$1,141,590,000 for cleanup at the Savannah River Site, a decrease of \$64,500,000 below the budget request. The Department accommodated funding shortfalls at the Savannah River Site during fiscal year 2007, therefore the Appropriations Committees adjust the fiscal year 2008 funding to reflect the additional funds provided in fiscal year 2007. Funding under this heading provides \$1,000,000 for the plutonium vitrification facility, a reduction of \$14,000,000 below the budget request. The Appropriations Committees will reconsider funding this project again when plutonium vitrification has been confirmed by the Department as a plausible disposition pathway for the small amount of plutonium not appropriate for MOX fuel.

Waste Isolation Pilot Plant (WIPP).— Funding under this heading in the amended bill provides \$236,739,000 for the WIPP, an increase of \$17,000,000 over the budget request for the activities listed in the Senate report, including the Center of Excellence for Hazardous Materials.

Idaho National Laboratory.— Funding under this heading in the amended bill provides \$513,026,000 for the Idaho National Laboratory (INL), an increase of \$9,000,000 for cleanup activities. The funding levels provided under this heading for INL reflect a redistribution of the budget request to better reflect the current needs at the INL.

Oak Ridge Reservation.—Funding under this heading in the amended bill provides \$192,284,000, for the Oak Ridge Reservation, an increase of \$13,000,000 over the budget request, to include \$30,000,000 for the disposition of material in building 3019, an increase of \$10,000,000 over the budget request. Funding under this heading

provides \$9,379,000 for soil and water remediation at offsite locations, an increase of \$3,000,000 to accelerate the completion of the David Witherspoon sites.

Hanford Site.— Funding under this heading in the amended bill provides \$894,640,000 for the Hanford Site, an increase of \$17,560,000 over the budget request. Of this increase, the \$10,000,000 is for increased groundwater remediation, and \$7,560,000 is for additional transuranic waste retrieval and characterization, and mixed low-level and low-level waste disposal to meet Tri-Party Agreement milestones. Within available funds, the agency is directed to fund the Volpentest Hazardous Materials Management and Emergency Response (HAMMER) training and education center, and B-Plant preservation at no less than fiscal year 2006 levels.

Office of River Protection.— Funding under this heading in the amended bill provides \$978,443,000 for the Office of River Protection, an increase of \$15,000,000 over the budget request. The increase is to support the demonstration of the bulk vitrification system, and to support tank farm retrievals. Funding under this heading provides \$690,000,000 for the Waste Treatment Plant.

Program direction.—Funding under this heading in the amended bill provides \$309,760,000 for program direction.

Program support.— Funding under this heading in the amended bill provides \$33,146,000 for program support.

Federal Contribution to Uranium Enrichment Decontamination and Decommissioning Fund.— Funding under this heading in the amended bill includes the budget request of \$463,000,000 for the Federal contribution to the Uranium Enrichment Decontamination and Decommissioning Fund as authorized in Public Law 102-486.

Technology development and deployment.— Funding under this heading in the amended bill provides \$21,389,000 for the technology development and deployment program.

NNSA Sites.—Funding under this heading in the amended bill provides \$292,930,000 for NNSA sites, an increase of \$21,800,000 over the budget request. Of the increase, \$7,800,000 is provided for Pantex for required groundwater remediation and monitoring wells, and \$14,000,000 supports additional cleanup at Los Alamos National Laboratory.

Safeguards and security.— Funding under this heading in the amended bill provides \$261,714,000 for safeguards and security, a reduction of \$11,667,000 due to sufficient uncosted carryover balances in fiscal year 2007.

Legacy Management.—The Appropriations Committees do not support the consolidation of Legacy Management activities within the Defense Environmental Management account as proposed by the House.

Material Consolidation Office.—The Appropriations Committees remain skeptical regarding the quality of the analytical underpinnings of the Department's decision to utilize H-canyon as the primary disposition pathway for material consolidation efforts. The Appropriations Committees await the findings of the GAO review in early 2008, and will make future recommendations accordingly. The

Appropriations Committees provide funding for H-canyon operations and plutonium vitrification at the Savannah River Site, and do not support the House proposal to restrict the funds to the Headquarters office at this time.

Congressional Directed Projects.—Funding under this heading in the amended Insert 55a

bill provides \$17,475,000 for congressionally directed projects.

OTHER DEFENSE ACTIVITIES

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides \$761,290,000 for Other Defense Activities instead of \$604,313,000 as proposed by the House and \$765,464,000 as proposed by the Senate.

OFFICE OF HEALTH, SAFETY, AND SECURITY

Funding under this heading in the amended bill includes \$429,348,000 for the Office of Health, Safety, and Security as proposed by the Senate. The reorganization requested by the Department - combining the Office of Environment, Safety, and Health and the Office of Security and Performance Assurance – is adopted. Within the funds provided, \$16,500,000 is available for the Worker Health Screening program, an increase of \$4,000,000 over the budget request. The Office of Health, Safety, and Security is directed to initiate an early lung cancer screening program as proposed by the Senate.

LEGACY MANAGEMENT

Funding under this heading in the amended bill includes \$156,379,000 for the Office of Legacy Management, a reduction of \$2,684,000 from the budget request. From within available funds, \$500,000 is provided for the Rocky Flats Cold War Museum in Colorado.

FUNDING FOR DEFENSE ACTIVITIES IN IDAHO

Funding under this heading in the amended bill includes \$75,949,000 to fund defense-related activities at the Idaho National Laboratory.

DEFENSE-RELATED ADMINISTRATIVE SUPPORT

Funding under this heading in the amended bill includes \$99,000,000 to provide administrative support for programs funded in the atomic energy defense activities account.

OFFICE OF HEARINGS AND APPEALS

Funding under this heading in the amended bill includes \$4,607,000 for the Office of Hearings and Appeals.

FUNDING ADJUSTMENTS

Funding adjustments include an offset of \$3,003,000 for the safeguards and security charge for reimbursable work and the use of \$990,000 of prior year balances.

DEFENSE NUCLEAR WASTE DISPOSAL

CONGRESSIONALLY DIRECTED DEFENSE ENVIRONMENTAL CLEANUP PROJECTS

PROJECT	
CELLULAR BIOENGINEERING, INC., HONOLULU, HAWAII, TO CONTINUE DEVELOPMENT OF POLYMERIC HYDROGELS FOR RADIATION DECONTAMINATION (HI)	\$1,500,000

SAVANNAH RIVER NATIONAL LAB IN SOUTH CAROLINA FOR INTEGRATED COLLABORATIVE	
PROTOTYPING ENVIRONMENT (SC)	1,000,000
UNIVERSITY OF NEVADA, RENO, CENTER FOR MATERIALS RELIABILITY (NV)	2,725,000
UNIVERSITY OF NEVADA, RENO, DEPARTMENT OF CIVIL AND ENVIRONMENTAL	,
ENGINEERING, FOR CONTINUED EXPANSION OF THE JAMES E. ROGERS AND LOUIS WEINER	
JR. LARGE-SCALE STRUCTURES LABORATORY (NV)	2,000,000
UNIVERSITY OF NEVADA, RENO, FIRE SCIENCE ACADEMY AT ELKO (NV)	1,000,000
UNIVERSITY OF NEVADA, RENO, TECHNOLOGY TRANSFER INITIATIVE (NV)	750,000
WESTERN ENVIRONMENTAL TECHNOLOGY OFFICE (MT)	2,000,000

The amended bill provides \$201,000,000 for Defense Nuclear Waste Disposal instead of \$292,046,000 as proposed by the House and \$242,046,000 as proposed by the Senate.

POWER MARKETING ADMINISTRATIONS

BONNEVILLE POWER ADMINISTRATION FUND

The amended bill provides no new borrowing authority for the Bonneville Power Administration (BPA) during fiscal year 2008.

The Appropriations Committees have opposed the Administration's past proposal regarding BPA net secondary revenues and hope the Administration will not pursue the proposal in fiscal year 2008 or 2009.

OPERATION AND MAINTENANCE, SOUTHEASTERN POWER ADMINISTRATION

The amended bill provides \$6,463,000 for the Southeastern Power Administration as proposed by both the House and Senate, including \$62,215,000 for purchase power and wheeling and includes \$48,413,000 of offsetting collections.

OPERATION AND MAINTENANCE, SOUTHWESTERN POWER ADMINISTRATION

The amended bill provides \$30,442,000 for the Southwestern Power Administration as proposed by both the House and Senate, including \$45,000,000 for purchase power and wheeling and includes \$35,000,000 of offsetting collections.

CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE, WESTERN AREA POWER ADMINISTRATION

The amended bill includes \$231,030,000 as proposed by the Senate instead of \$201,030,000 as proposed by the House. The amended bill provides for a total program level of \$755,911,000 for Western, which includes \$62,915,000 for construction and rehabilitation, \$53,271,000 for system power operation and maintenance, \$475,254,000 for purchase power and wheeling, \$157,304,000 for program direction and \$7,167,000 for the Utah Mitigation and Conservation Fund.

Offsetting collections total \$312,639,000, including the of \$3,937,000 of offsetting collections from the Colorado River Dam Fund (as authorized in Public Law 98-381).

The Appropriations Committees reject the budget's proposed funding reduction for Construction, Rehabilitation, Operations, and Maintenance. The budget's proposal to rely more heavily on alternative financing for these activities is unrealistic.

Congressional Directed Projects.—The agency should, within available funds, provide \$3,000,000 for the Colorado River Transmission Line.

FALCON AND AMISTAD OPERATING AND MAINTENANCE FUND

The amended bill includes \$2,500,000 for the Falcon and Amistad Operating and Maintenance Fund as proposed by both the House and Senate.

FEDERAL ENERGY REGULATORY COMMISSION

Salaries and Expenses

The amended bill includes \$260,425,000 for the Federal Energy Regulatory Commission (FERC) instead of \$255,425,000 as proposed by both the House and Senate. Revenues for FERC are set at an amount equal to the budget authority, resulting in a net appropriation of \$0.

TITLE III—GENERAL PROVISIONS

Language is included under section 301 regarding competition of major Department of Energy contracts.

Language is included under section 302 which prohibits the use of funds in this Act to initiate a request for proposal of expression of interest for new programs which have not yet been presented to Congress in the annual budget submission and which have not yet been approved and funded by Congress.

Language is included under section 303 which prohibits the use of funds for workforce restructuring or enhanced severance payments under the worker and community transition program under section 3161 of Public Law 102-484.

Language is included under section 304 to prohibit the augmentation of severance payments under section 3161 of Public Law 102-484 unless a reprogramming request is submitted to Congress.

Language is included in section 305 which permits the transfer and merger of unexpended balances of prior appropriations with appropriation accounts established in this bill.

Language is included in Section 306 that prohibits the use of funds by the Bonneville Power Administration to enter into energy efficiency contracts outside its service area.

Language is included in Section 307 that establishes certain notice and competition requirements for Department of Energy user facilities.

Language is included in Section 308 specifically authorizing intelligence activities pending enactment of the fiscal year 2008 Intelligence Authorization Act.

Language is included in section 309 regarding laboratory directed research and development activities.

Language is included in section 310 prohibiting the Department of Energy from modifying a ratemaking policy by changing the interest rate on future obligations for the Southeastern, Southwestern, and Western Area Power Administrations.

Language is included in section 311 relating to the Use Permit at Pacific Northwest National Laboratory (PNNL). The Government Accountability Office is directed to conduct an evaluation of the effectiveness of technology transfer across all DOE laboratories and to report to the Committees on Appropriations on the effectiveness of technology transfer and the role the Use Permit at PNNL plays in this issue.

Language is included in section 312 reducing the congressionally directed projects in title III by 1.6 percent and all other discretionary accounts in this title by 0.91 percent.

TITLE IV INDEPENDENT AGENCIES

APPALACHIAN REGIONAL COMMISSION

The amended bill provides \$73,032,000 for the Appalachian Regional Commission, instead of \$35,000,000 as proposed by the House and \$75,000,000 as proposed by the Senate. Within the funds provided, \$984,000 is for Bluegrass Pride WATER Projects, Kentucky.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD

SALARIES AND EXPENSES

The amended bill provides \$21,909,000 instead of \$22,499,000 as proposed by the House and the Senate.

DELTA REGIONAL AUTHORITY

SALARIES AND EXPENSES

The amended bill provides \$11,685,000 for the Delta Regional Authority (DRA), instead of \$6,000,000 as proposed by the House and \$12,000,000 as proposed by the Senate. The Appropriations Committees are aware that DRA is unable to comply with section 382M(b) at the current time, but direct DRA to submit a report to the House and Senate Committees on Appropriations and the appropriate authorizing committees outlining how DRA could be in compliance in the future and the impacts compliance would have on managing the program. The amended bill includes legislative language extending the authorization of the Delta Regional Authority.

DENALI COMMISSION

The amended bill provides \$21,800,000, instead of \$0 as proposed by the House and \$31,800,000 as proposed by the Senate.

NUCLEAR REGULATORY COMMISSION

SALARIES AND EXPENSES

The amended bill provides \$917,334,000 for the Nuclear Regulatory Commission (NRC) instead of \$925,559,000 as proposed by the House and \$910,559,000 as proposed by the Senate. The total amount of budget authority is offset by estimated revenues of \$771,220,000, resulting in a net appropriation of \$146,114,000. Given the almost certain delay in the Department of Energy filing a license application for the Yucca Mountain Repository, the amended bill includes \$29,025,000 to be derived from the Nuclear Waste Fund instead of \$37,250,000 as requested.

Of the \$917,334,000 gross appropriation for fiscal year 2008, \$29,025,000 is drawn from the Nuclear Waste Fund, \$2,000,000 is drawn from the General Fund of the Treasury to execute NRC's responsibilities to provide oversight of certain Department of Energy activities under Section 3116 of Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (P.L. 108-375), and/\$29,398,000 is drawn from the General Fund of the Treasury to execute NRC's homeland security responsibilities. Ninety percent of the balance of \$856,911,000 (i.e., \$771,220,000) is funded by fees collected from NRC licensees, and the remaining 10 percent (i.e., \$85,691,000) is funded from the General Fund of the Treasury.

Nuclear Education.—Funding under this heading in the amended bill includes an additional \$15,000,000 to support education in nuclear science, engineering, and related trades to develop a workforce capable of the design, construction, operation, and regulation of nuclear facilities and the safe handling of nuclear materials. These funds are to be used for college scholarships and graduate fellowships in nuclear science, engineering, and health physics, and for faculty development grants supporting faculty in these academic areas for the first six years of their careers. Some of these funds are also to be used for scholarships for trade schools in the nuclear-related trades.

Notwithstanding the requirements of Section 243 of the Energy Policy Act of 2005, which makes employment at the Commission a condition of receiving educational assistance, the Commission is directed to make generous use of the waiver or suspension provisions available in Section 243(c)(2). The nuclear education supported by this funding is intended to benefit the nuclear sector broadly (i.e., federal agencies, industry, and academia) rather than solely to benefit the Nuclear Regulatory Commission.

Review of the Hanford Waste Treatment Plant.—In cooperation with the Department of Energy, the Nuclear Regulatory Commission is directed to review the regulatory processes of the Department for the Hanford Waste Treatment Plant and report its assessment and recommendations to the Secretary of Energy and the House and Senate Committees on Appropriations within 180 days of enactment.

International Program Activities.—Funding under this heading in the amended bill includes an additional \$2,150,000 to support enhancing foreign regulators' programs to increase security over radioactive sources.

Reports.—The Commission is directed to provide biannual reports on the status of its licensing and other regulatory activities electronically.

Office Space.—The amended bill includes provisions to assure the efficient and effective operation of the expanded staff of the Nuclear Regulatory Commission by allowing additional office space to be provided by the General Services Administration as close as reasonably possible to the Commission's headquarters location in Rockville, Maryland.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$8,744,000 for the NRC Office of Inspector General instead of \$8,144,000 as proposed by the House, an increase of \$600,000 over the budget request. The additional funds will provide the Office of Inspector General with the

necessary resources to provide effective oversight of the agency's new licensing activities while fulfilling its statutory responsibilities under the Chief Financial Officers Act of 1990 and the Federal Information Security Management Act of 1992. Revenues received in fiscal year 2008 will offset ninety percent of the sum appropriated resulting in net appropriations for the fiscal year of \$874,000.

NUCLEAR WASTE TECHNICAL REVIEW BOARD SALARIES AND EXPENSES

The amended bill provides \$3,621,000 for Nuclear Waste Technical Review Board the same as requested and as proposed by the House and the Senate.

TENNESSEE VALLEY AUTHORITY OFFICE OF INSPECTOR GENERAL

The amended bill does not include the requested \$15,000,000 to establish a congressionally-funded Office of the Inspector General for the Tennessee Valley Authority. The Appropriations Committees support the continuation of the existing arrangement for funding this office.

OFFICE OF THE FEDERAL COORDINATOR FOR ALASKA NATURAL GAS TRANSPORTATION PROJECTS

The amended bill provides \$2,261,000 for the Office of the Federal Coordinator for Alaska Natural Gas Transportation Projects instead of \$2,322,000 as proposed by both the House and the Senate.

TITLE IV—GENERAL PROVISIONS

The amended bill includes a provision related to the Tennessee Valley Authority.

TITLE V

GENERAL PROVISIONS

Section 501. The amended bill includes a provision that prohibits the use of any funds provided in this bill from being used to influence congressional action.

Section 502. The amended bill includes a provision that addresses transfer authority under this Act.

Disclosure of Earmarks and Congressionally Directed Spending Items

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of Jurisdiction for each item so identified. Items that did not appear in the House or Senate versions of H.R. 2641 and S. 1751 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules. The amounts in this table do not include the 1.6 percent reduction applied to earmarks and congressionally directed spending.
