Winter term 2004; Wednesdays 13.35-15.55

3647 Peel Street, room 101

The Rise of Surgery

Contact Information

Office hours: Wednesday 16.00-17.00, in Dept. Social Studies of Medicine, 3647, Peel Street, 2nd floor. Telephone: 398-2059. E-mail: thomas.schlich@mcgill.ca

Course Requirements

All students should have taken History 349A

Students will be required to write a term paper of 20 pages in length on a topic related to the history of surgery broadly conceived. This paper will count for 60 per cent of your final grade. Class participation will count for 40 per cent. Participation includes attendance, performance of assigned tasks and contributions to discussions. The readings for this course are available in the form of a coursepack that can be purchased at the Paragraphe bookstore.

About this Course

This course is about how and why modern surgery became the most important but the least questioned way of body manipulation. For this we will look at the major developments in surgery on the professional, conceptual and technical levels and examine how they relate to each other. The main emphasis will be on the co-evolution of modern surgery and modern society by discussing how surgery became built into the fabric of modern society and culture, changing at the same time our modern understanding of the body.

7 January: Introduction: The History of Surgery

14 January: Old and New Surgery

Ghislaine Lawrence: 'Surgery Traditional'. In: W.F. Bynum and Roy Porter (eds.) *Companion Encyclopedia of the History of Medicine*, London and New York: Routledge, vol. 2, 1993, pp. 961-83. Nancy Siraisi: *Medieval and Early Renaissance Medicine. An Introduction to Knowledge and Practice*, Chicago and London: University of Chicago Press 1990, pp. 153-86, 212-17.
