Harvest - Removing the grain or ear from the stalk either by hand or by machine.

Price Election

Coverage Levels

You have the choice of 50, 55, 60, 65, 70, and 75 of your average yield.

Insurance Units

Basic Unit: If the processor contract specifies the number of acres to be planted, a basic unit consists of all your insurable popcorn acreage in the county by share arrangement. If the processor contract specifies the amount of production to be delivered, a basic unit consists of all acreage planted to popcorn in the county that will be used to fulfill contracts with each processor. Premiums are reduced by 10 percent for a basic unit.

Optional Unit: Optional units are not available.

Replant Provisions

(not available under catastrophic coverage)

A replanting payment is allowed if your popcorn crop is damaged by a covered cause of loss to the extent that the remaining stand will not produce at least 90 percent of the final stage production guarantee and it is practical to replant. The maximum replanting payment will be the lesser of 20 percent of the production guarantee or 150 pounds, times your price election. No **replanting payment** will be made on acreage initially planted prior to the **earliest planting date**.

Loss

A loss occurs when crop production falls below the guaranteed pound amount as a result of damage from a covered cause of loss.
