Definitions

Amount of Insurance—The dollar amount determined by multiplying the reference maximum dollar amount shown on the actuarial documents for the citrus fruit times the coverage level you select, times your share.

Box—A standard field box as prescribed in the State of Florida Citrus Fruit Laws.

Cancellation Date—The calendar date specified in the crop provisions on which coverage for the crop will automatically renew unless cancelled in writing by either you or us or terminated in accordance with the policy terms.

Coverage Levels and Premium Subsidies

Coverage level options range from 50 to 85-percent of the reference maximum dollar amount per acre shown on the FCI-35 and are subsidized as shown in the table below. As an example, if the reference maximum dollar amount is \$1,575 the 75-percent coverage level results in a \$1,181 guarantee per acre.

Item	Percent							
Coverage Level	50	55	60	65	70	75	80	85
Premium Subsidy	67	64	64	59	59	55	48	38
Your Premium Share	33	36	36	41	41	45	52	62

Catastrophic (CAT) coverage is fixed at 50 percent of average yield and 55 percent of the price election. CAT is 100 percent subsidized with no premium cost to you. There is, however, an administrative fee of \$100 per county, regardless of the acreage.

Loss Example

This example is based on a one acre unit of late oranges for the juice market with a \$1575 reference maximum dollar amount and a 75-percent coverage level.

70-percent damage
 less 25-percent deductible (1.00 -.75)
 equals 45-percent
 Divided by 75-percent coverage level
 equals 60-percent adjusted damage

\$1,181 Insurance coverage (\$1,575
 x 75-percent coverage level)
x .60 Adjusted damage percentage
\$709 Indemnity per acre
