## stopping the progression of Alzheimer's

I have friends  
and loved ones  
suffering from  
Alzheimer's. But  
I can imagine...  
and hope for... a  
world without this  
terrible disease.

You can help make a difference. A major brain imaging study led by the **National Institutes of Health** may help us learn how to stop the progression of Alzheimer's.

Please consider joining the study if you are between 55 and 90 and:

- are in good general health with no memory problems, **OR**
- are in good general health but have memory problems or concerns, **OR**
- have a diagnosis of early Alzheimer's disease.

For more information, call 1-800-438-4380  
or visit [www.alzheimers.org/imagine](http://www.alzheimers.org/imagine).
