I have friends and loved ones suffering from Alzheimer's. But I can imagine... and hope for... a world without this terrible disease.

You can help make a difference. A major brain imaging study led by the National Institutes of Health may help us learn how to stop the progression of Alzheimer's.

Please consider joining the study if you are between 55 and 90 and:

- are in good general health with no memory problems, OR
- are in good general health but have memory problems or concerns, OR
- have a diagnosis of early Alzheimer's disease.

For more information,
call 1-800-438-4380 or visit www.alzheimers.org/imagine.
