## Storm Data and Unusual Weather Phenomena - April 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	04/03/08 20:02 CST		5M	Tornado (EF1, L: 8.10 mi , W: 500 yd)
	04/03/08 20:19 CST	1	0	Source: NWS Storm Survey

A tornado began west of Haskell and continued on to just west of Benton. The tornado destroyed nine houses and three mobile homes, caused major damage to approximately 16 houses and one mobile home, and minor damage to approximately 40 houses and one mobile home. One house that was under construction had all its framing completed and was ready for shingles to be put on. The tornado blew all the framing lumber down a hillside, but the concrete safe room that had been constructed remained intact. Many power lines and some power poles were blown down. Thousands of trees were blown down.

**SALINE COUNTY --- 1.7 WNW BAUXITE JCT [34.59, -92.55], 1.1 SE NEW SUMMIT [34.62, -92.52]**

	04/03/08 20:23 CST		5M	Tornado (EF2, L: 2.70 mi , W: 250 yd)
	04/03/08 20:32 CST	1	0	Source: NWS Storm Survey

A tornado began on the northeast side of Benton and ended on the northwest side of Bryant. The tornado caused major damage to four houses and minor damage to 20 houses. It also traveled through the Hurricane Lake Mobile Home Park, destroying 22 mobile homes, and causing major damage to 11 mobile homes, and minor damage to 10 mobile homes. Major damage occurred at a car dealership on Interstate 30, where more than 150 vehicles were damaged, many of which had windshields or rear windows blown out. Diagonally across the interstate from the car dealership, a lumber yard suffered substantial damage.

**SALINE COUNTY --- 0.6 NE NEW SUMMIT [34.64, -92.52], 2.3 NNW COLLEGEVILLE [34.66, -92.49]**

	04/03/08 20:34 CST		10M	Tornado (EF2, L: 2.58 mi , W: 500 yd)
	04/03/08 20:40 CST		0	Source: NWS Storm Survey

A tornado began northwest of Bryant and ended northwest of Alexander. The tornado caused major damage in the Hurricane Meadows subdivision, and then continued on to the northeast. Altogether, six houses were destroyed, and approximately 30 others suffered varying degrees of damage.

**PULASKI COUNTY --- 2.0 NNW DOUGLASVILLE [34.75, -92.38], 1.5 S HAIG [34.80, -92.32]**

	04/03/08 20:47 CST		50M	Tornado (EF1, L: 4.81 mi , W: 300 yd)
	04/03/08 21:01 CST	1	0	Source: NWS Storm Survey

A tornado began in the western part of Little Rock, just west of the intersection of Interstate 630 and John Barrow Rd. It traveled through the Leawood subdivision of Little Rock and the city of Cammack Village, dropped off a bluff into Murray Park, crossed the Arkansas River, and ended in North Little Rock near the soccer fields in Burns Park. The vast majority of damage from this tornado was due to large trees falling on houses and vehicles. The approximate count of houses included six destroyed, 98 with major damage, and 170 with minor damage. In addition, four businesses had major damage and three had minor damage. Eleven apartments also suffered damage.

**PULASKI COUNTY --- 6.0 NW LITTLE ROCK [34.79, -92.35]**

	04/03/08 20:54 CST		0	Hail (1.75 in)
	04/03/08 20:54 CST		0	Source: Amateur Radio

Nickel to golf ball sized hail fell on Reservoir Road.

**PULASKI COUNTY --- 1.0 NNW LEVY [34.81, -92.27], 1.4 NNE GRAVEL RIDGE [34.89, -92.19]**

	04/03/08 21:06 CST		0	Tornado (EF2, L: 7.07 mi , W: 800 yd)
	04/03/08 21:20 CST		0	Source: NWS Storm Survey

A tornado began in North Little Rock, south of St. Joseph's Orphanage, near the intersection of Camp Robinson Rd. and Donovan Briley Blvd. It passed through the southeast corner of Camp Joseph T. Robinson, moved across the North Little Rock Airport, continued through parts of Sherwood and Sylvan Hills, and ended on the north side of Gravel Ridge. At the North Little Rock Airport, a number of the hangars suffered substantial damage. Virtually all of the small planes that had been tied down on the parking apron were overturned. A DC3 aircraft rolled about 1/4 mile from the parking apron, across a runway, and into a ditch. A small plane was trapped beneath the DC3 as it rolled along. At the National Weather Service, located at the airport, the staff took shelter for a few minutes in the office's concrete-reinforced safe room. Damage at the weather office was limited to a flagpole, birdhouse, and TV antenna being blown down. At Sylvan Hills High School, a considerable amount of roof damage occurred. The Sherwood Sports Complex, adjacent to the school, suffered substantial damage. Nearby, a tornado siren was blown down. The greatest amount of residential damage occurred in the Hidden Creek subdivision, and on to the northeast on Loop Rd., Kellogg Acres Rd., and Oakdale Rd.

**FAULKNER COUNTY --- CONWAY [35.08, -92.45]**

	04/03/08 21:10 CST		0	Hail (0.75 in)
	04/03/08 21:10 CST		0	Source: Law Enforcement

## Storm Data and Unusual Weather Phenomena - April 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<p>A small tornado occurred off to the east of a larger tornado that tracked from North Little Rock to just north of Gravel Ridge. This smaller tornado blew down a number of trees, with one of the trees falling on a house and another on a mobile home.</p>				
<b>PULASKI COUNTY --- 0.8 WNW TONEYVILLE [34.90, -92.11], 1.7 NE TONEYVILLE [34.92, -92.08]</b>				
	04/03/08 21:23 CST		25K	Tornado (EF1, L: 2.13 mi , W: 100 yd)
	04/03/08 21:26 CST		0	Source: NWS Storm Survey
<p>A tornado formed in a remote area on the east side of Little Rock Air Force Base. It tracked north of the equestrian area on the base, and continued on to U.S. Highway 67/167. Most of the damage was limited to trees being blown down, but a large billboard on the highway was also knocked down.</p>				
<b>HOT SPRING COUNTY --- 2.9 NNE LAMBERT [34.37, -93.20], 4.9 NNE BISMARCK [34.38, -93.13]</b>				
	04/03/08 21:28 CST		15K	Tornado (EF1, L: 4.19 mi , W: 80 yd)
	04/03/08 21:35 CST		0	Source: NWS Storm Survey
<p>A tornado knocked down dozens of trees and damaged the roof of one house. Most of the damage was confined to a valley area.</p>				
<b>LONOKE COUNTY --- 3.2 SW CABOT [34.94, -92.06], 2.2 E WARD [35.03, -91.93]</b>				
	04/03/08 21:28 CST		2M	Tornado (EF2, L: 9.45 mi , W: 300 yd)
	04/03/08 21:40 CST		0	Source: NWS Storm Survey
<p>A tornado began southwest of Cabot and was most intense as it traveled through industrial and business areas on the west side of the railroad tracks in Cabot. Business structures destroyed included a self-storage warehouse and two storage buildings. A truck repair building was badly damaged, and two large warehouses also suffered damage. Several vehicles on a used-car lot were damaged when a large canopy fell. A canopy was damaged at a gas station, and there was roof damage to several businesses. To the east of the railroad tracks, numerous houses sustained roof damage, both in the middle of Cabot and on northeast through the Shiloh subdivision. A few houses and vehicles were damaged by falling trees.</p>				
<b>LONOKE COUNTY --- 3.0 ENE MOUNTAIN SPGS [35.04, -92.02], 2.4 NNW WARD [35.06, -91.99]</b>				
	04/03/08 21:42 CST		10K	Tornado (EF1, L: 2.07 mi , W: 300 yd)
	04/03/08 21:44 CST		0	Source: NWS Storm Survey
<p>Damage was limited to some trees being blown down. The tornado moved out of Lonoke County, north-northwest of Ward, and into White County, west of Beebe.</p>				
<b>WHITE COUNTY --- 2.6 WSW STONY PT [35.06, -91.99], 3.4 NE ESSEX [35.17, -91.84]</b>				
	04/03/08 21:44 CST		25K	Tornado (EF1, L: 11.12 mi , W: 300 yd)
	04/03/08 22:01 CST		0	Source: NWS Storm Survey
<p>This tornado exited Lonoke County, north-northwest of Ward, and moved into White County, west of Beebe. Numerous trees were blown down. Roofs were damaged on several barns and outbuildings.</p>				
<b>CONWAY COUNTY --- MORRILTON [35.15, -92.75]</b>				
	04/03/08 21:45 CST		10K	Thunderstorm Wind (EG 50 kt)
	04/03/08 21:45 CST		0	Source: Newspaper
<p>A large tree fell across Moose and Rock streets.</p>				
<b>GARLAND COUNTY --- 2.0 N HOT SPGS [34.53, -93.05], 0.6 ESE (HOT)HOT SPGS ARPT [34.47, -93.09]</b>				
	04/03/08 21:45 CST		15K	Thunderstorm Wind (EG 50 kt)
	04/03/08 21:45 CST		0	Source: Newspaper
<p>Trees and power lines were reported down on Holly Street and Cortez Street, and a transformer was blown down on Cortez Street as well.</p>				
<b>GARLAND COUNTY --- 1.2 SSW DIAMONDHEAD [34.41, -92.96], 1.0 S DIAMONDHEAD [34.42, -92.95]</b>				
	04/03/08 21:50 CST		0.10M	Tornado (EF1, L: 0.52 mi , W: 250 yd)
	04/03/08 21:53 CST		0	Source: NWS Storm Survey
<p>A tornado blew down hundreds of trees. The tornado moved out of Garland County and into Hot Spring County in the Diamondhead area.</p>				
<b>HOT SPRING COUNTY --- 1.4 SW DIAMONDHEAD [34.42, -92.95], 0.8 SSW DIAMONDHEAD [34.42, -92.94]</b>				
	04/03/08 21:53 CST		0.10M	Tornado (EF1, L: 0.59 mi , W: 250 yd)
	04/03/08 21:57 CST		0	Source: NWS Storm Survey

This tornado exited Garland County and moved into Hot Spring County in the Diamondhead area. The tornado blew down hundreds of trees.

## Storm Data and Unusual Weather Phenomena - April 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<b>CONWAY COUNTY --- 0.4 SW MORRILTON [35.15, -92.76], 1.1 NNE LEWISBURG [35.15, -92.73], 2.2 ENE MORRILTON [35.17, -92.72], 1.6 NNW MORRILTON [35.17, -92.76]</b>				
	04/03/08 22:00 CST		1M	Flash Flood (due to Heavy Rain)
	04/03/08 22:00 CST		0	Source: Trained Spotter
Flash flooding damaged downtown buildings in Morrilton. Water reached about 5 feet at a furniture store's loading dock and warehouse at the bottom of a hill on Harding Street. Nearly a foot of water entered the rear of the building. Numerous county streets were flooded. A Dumpster was carried more than a block from its original location by moving water.				
<b>GRANT COUNTY --- TULL [34.45, -92.57], LEOLA [34.17, -92.58], GRAPEVINE [34.15, -92.32], 3.0 NE ICO [34.48, -92.31]</b>				
	04/03/08 22:00 CST		25K	Flash Flood (due to Heavy Rain)
	04/03/08 22:00 CST		0	Source: Trained Spotter
Portions of several roads were under water. At least one motorist had to be rescued via boat by the Cane Creek Fire Department near Ico. A family in the Delta Circle area was also evacuated by boat. An area of Hickory Street in Tull was flooded.				
<b>MONTGOMERY COUNTY --- 15.0 W FANCY HILL [34.37, -94.01], 15.0 W WELSH [34.35, -93.73], 15.0 W FANNIE [34.70, -93.69], 4.0 NW SIMS [34.71, -93.73], 6.0 NW HUDDLESTON [34.64, -93.90]</b>				
	04/03/08 22:00 CST		25K	Flash Flood (due to Heavy Rain)
	04/04/08 01:00 CST		0	Source: Newspaper
Numerous roads across the county were flooded.				
<b>PERRY COUNTY --- 0.6 S NEW DIXIE [35.02, -92.62], 1.4 N NEW DIXIE [35.05, -92.62], 1.1 ENE NOGAL [35.08, -92.55], 1.6 ESE NOGAL [35.07, -92.55]</b>				
	04/03/08 22:00 CST		12K	Flash Flood (due to Heavy Rain)
	04/04/08 01:00 CST		0	Source: Newspaper
A local ATV store had two feet of water in it.				
<b>SHARP COUNTY --- AETNA [35.93, -91.43], 5.0 S SIDNEY [35.93, -91.67], BALLARD [36.22, -91.65], HIGHLAND [36.27, -91.52], WIRTH [36.43, -91.40], 2.0 E WIRTH [36.43, -91.36]</b>				
	04/03/08 22:00 CST		0	Flash Flood (due to Heavy Rain)

Damage occurred to roadways due to flash flooding.				
<b>The event began with a warm front moving north from the Gulf Coast region on the 3rd. The front was followed by above normal temperatures and abundant moisture. There was plenty of fuel for developing thunderstorms. A large area of showers and thunderstorms developed near the stalled front in northern and western Arkansas during the evening of the 3rd. During the early morning hours of the 4th, it became a heavy rain event.</b>

<p>Sandbagging was needed at the emergency room at the hospital in Mena. Up to a foot of water was over places on U.S. Highway 71. Arkansas Highway 375 had up to 6 inches of standing water. Standing water was also reported on many streets and roadways across the county.</p> <p>A weather system moved away from the state well to the north and east during the night of the 8th and early on the 9th. A front became parallel to the wind flow aloft, which gave the front little push. The front stalled across southern Arkansas, with showers and thunderstorms continuing. Areas of heavy rain occurred in central and southern sections of the state, with amounts greater than two inches in some areas. A new storm system began intensifying in west Texas on the 9th, with the front beginning to lift to the north. Along and north of the front, a few severe storms popped up in the western counties during the evening.</p>

According to police reports, the driver of a small pick-up truck drove around barricades into a flooded portion of Arkansas Highway 28. The motorist continued through about 1/8 mile of flooded roadway until the water got so deep that the truck floated off the highway. The two occupants drowned. Water was reported to be so deep on the highway that only the tops of the guardrails were visible. The highway had been closed and barricaded for more than 24 hours when the fatalities occurred.				
Direct Fatalities: M59VE, F55VE				
<b>Early on the 10th, there was widespread heavy rain in northern and western Arkansas. A weather system in Texas dragged a cold front toward the region, with a severe weather outbreak across Arkansas.</b>

## Storm Data and Unusual Weather Phenomena - April 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	04/01/08 00:00 CST		0.50M	Flood (due to Heavy Rain)
	04/30/08 23:59 CST		0	Source: Official NWS Observations
<p>Prolonged river flooding became worse on the lower White River as heavy rain on the tributaries, along with large releases from flood control reservoirs, caused successive flood waves to progress to the lower portions of the river. This was the highest stage at St. Charles since 1973. Also, high stages on the Mississippi River compounded the problems as backwater flooding developed. A few permanent homes and many recreational cabins and hunting camps were inundated. The flooding continued into May as high stages on the Mississippi River persisted which held back the recession of the White River.</p>				
<b>MONROE COUNTY --- 4.1 NNE CLARENDON MUNI ARPT [34.70, -91.37], 1.4 SW ABERDEEN [34.59, -91.35], 0.5 WSW DUNCAN [34.62, -91.26], 0.8 WN CLARENDON [34.69, -91.31], 1.4 SE NINETY POINT [34.77, -91.28], 1.7 SW NINETY POINT [34.76, -91.32], 4.1 WNW JEFFRIES [34.74, -91.35]</b>				
	04/01/08 00:00 CST		0.25M	Flood (due to Heavy Rain)
	04/30/08 23:59 CST		0	Source: Official NWS Observations
<p>Flooding which began in March became worse in Monroe County as additional heavy rain fell in the White River watershed. The Clarendon gage crested at 33.78 feet, highest since April, 1973. Homes, cabins, and businesses were flooded in Clarendon and in communities along the river, such as Indian Bay, Lawrenceville, and Aberdeen. Arkansas Highway 302 north of Clarendon was closed by high water. Most of the damages were incurred in March, so the damage amounts for April were much less. High stages on the Mississippi River compounded the high water problems on the White River. The Clarendon gage remained above flood stage into May.</p>				
<b>PRAIRIE COUNTY --- 3.9 ENE JASMINE [35.09, -91.52], 1.8 SSE ENARC [35.01, -91.53], 0.5 N DES ARC [34.98, -91.50], 0.3 WSW DE VALLS BLUFF [34.78, -91.45], 4.6 SE DE VALLS BLUFF [34.73, -91.40], 4.4 SSE BRASFIELD [34.79, -91.32], 1.0 WNW SAND HILL [35.00, -91.45], 6.3 N LOST HILL [35.12, -91.41]</b>				
	04/01/08 00:00 CST		0.25M	Flood (due to Heavy Rain)
	04/30/08 23:59 CST		0	Source: Official NWS Observations
<p>Major flooding continued in April from the initial heavy rain event in the middle of March. Additional heavy rainfall in April both prolonged the event and raised crests to just over the levels attained in March. The river fell out about three feet in between crests of 33.74 feet on March 26th and 33.78 feet on April 17th. Both crests were the highest the White River at Des Arc had been since April, 1973. Damages were primarily to whatever recovery efforts had been made since the March flooding. Arkansas Highways 11, 33, and 38 were closed again by high water. The White River at Des Arc remained above flood stage into May.</p>				
<b>WHITE COUNTY --- 2.7 ENE BRADFORD [35.43, -91.42], 2.5 E RUSSELL [35.37, -91.48], 2.7 ENE ANDREWS [35.19, -91.53], 3.8 NE WATKINS [35.18, -91.43], 4.8 E RIO VISTA [35.28, -91.38], 6.9 ENE BRADFORD [35.45, -91.35]</b>				
	04/01/08 00:00 CST		0.15M	Flood (due to Heavy Rain)
	04/30/08 23:59 CST		0	Source: Official NWS Observations
<p>Major flooding levels were repeated in April at the Augusta gage on the White River. Some homes and cabins were again flooded along U.S. Highway 64. The river crested slightly lower at Augusta in April than the crest in March, so damages were limited to whatever repairs were made between crests. This was the third highest crest since the flood control reservoirs were completed in the mid-twentieth century.</p>				
<b>WHITE COUNTY --- 2.8 ENE ANDREWS [35.19, -91.52], 3.9 ENE BELCHER [35.10, -91.56], 4.2 SSW GEORGETOWN [35.06, -91.48], 3.7 S GEORGETOW [35.07, -91.45], 3.9 NE WATKINS [35.19, -91.43]</b>				
	04/01/08 00:00 CST		0.10M	Flood (due to Heavy Rain)
	04/30/08 23:59 CST		0	Source: Official NWS Observations
<p>Major flooding levels were repeated in April at the Georgetown gage on the White River. The community of Georgetown continued to be cut off by high water over Arkansas Highway 36 until about April 24th. This is the only road into town. Some homes and cabins were again flooded along Arkansas Highway 36 and near the Little Red River at Nimmo Landing. The river crested only slightly higher in March, so damages were limited to whatever repairs were made between crests.</p>				
<b>WOODRUFF COUNTY --- 1.4 NE GOODRICH [35.35, -91.22], 1.3 SSW GOODRICH [35.31, -91.24], 1.4 WSW RIVERSIDE [35.27, -91.25], 8.8 SSW MABERRY [34.91, -91.39], 6.6 SSW COTTON PLANT [34.91, -91.29], 1.8 E GOODRICH [35.33, -91.20], 4.1 E OVERCUP [35.37, -91.16], 2.4 E OVERCUP [35.37, -91.19]</b>

## Storm Data and Unusual Weather Phenomena - April 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

Major flooding was repeated along the White River at the Augusta river gage. Homes along Taylor Bay and near the City of Augusta were flooded again by the second major rise in less than a month. After rising in March to the highest level since completion of the flood control reservoirs, the river crested a half foot below that level in April. The April crest was the third highest since the reservoirs were completed in the middle of the twentieth century. Dollar losses were limited to whatever repairs were made to the previous flood damages.

---

**JACKSON COUNTY --- 0.9 NW JACKSONPORT [35.64, -91.33], 1.6 NW DIAZ [35.65, -91.29], 0.6 N DIAZ [35.64, -91.27], 1.9 WSW ERWIN [35.56, -91.26], 1.3 ESE SPRIGGS MILL [35.44, -91.30], 2.6 SE GRAND GLAISE [35.44, -91.39], 1.2 NW OLD GRAND GLAISE [35.49, -91.40]**

	04/01/08 15:00 CST		0.15M	Flood (due to Heavy Rain)
	04/22/08 01:00 CST		0	Source: Official NWS Observations

After only a day below flood stage, the White River at the Newport gage rose again to major flood level by the 12th of the month, and remained above the major flood level for more than three days. The river fell below flood stage on the 22nd of the month. The April crest of 33.16 feet was the third highest since the flood control reservoirs were completed in the middle of the twentieth century. Damages were limited to whatever repairs had been made since the March crest.

**River flooding, which began following very heavy rains on March 18th and 19th, continued into April on some of the rivers in Arkansas.**

	04/15/08 08:00 CST		0	

A northerly wind flow aloft brought unseasonably cold air to Arkansas. A surface high pressure settled toward the state on the 13th and 14th, then the high was centered over the state on the morning of the 15th. The morning of the 13th saw some freezing temperatures in the extreme north. Then, on the mornings of the 14th and 15th, freezing temperatures were observed over a larger portion of the state.

	04/10/08 11:00 CST		0.25M	Flood (due to Heavy Rain)
	04/11/08 21:00 CST		0	Source: Official NWS Observations

Heavy rain produced significant rises on the upper White River and tributaries. The combination of high river flows and the excessive upstream reservoir releases caused a second major flood event from the mouth of the Buffalo River to the Calico Rock gage. Homes and businesses were flooded for a second time in less than month in the Norfolk vicinity and upstream. Damages were limited to repairs made since the March flooding.

	04/11/08 15:00 CST		0	Source: Official NWS Observations

Excessive rainfall in Missouri and north Arkansas caused another sharp rise on the Warm Fork of the Spring River and the Spring River, flooding portions of Mammoth Spring and areas downstream. The river rose to 20.8 feet, within two feet of the March crest at the Hardy gage. Over bank flooding begins at 10 feet. The flood wave from the Warm Fork of the Spring River, which comes from West Plains, MO, and into Thayer, MO, was significantly higher than the March flooding. Damage to the Arkansas Game and Fish Commission trout hatchery was severe, with loss of equipment and all trout in the holding tanks.

<b>WHITE COUNTY --- 0.7 SW JUDSONIA [35.27, -91.64], 1.7 SE JUDSONIA [35.26, -91.61], 1.7 SE NORTONS CORNER [35.21, -91.53], 0.3 SE ANDREWS [35.18, -91.57], 0.5 NW WEST PT [35.20, -91.63], 2.0 ENE KENSETT [35.25, -91.64], 0.6 ESE DONIPHAN [35.25, -91.67], 1.4 NNE DONIPHAN [35.27, -91.67]</b>	04/13/08 11:00 CST		0	Flood (due to Heavy Rain)
	04/19/08 18:30 CST		0	Source: Official NWS Observations
<p>Heavy rainfall downstream of Greers Ferry Dam caused a rise on the Little Red River to over minor flood level at the Judsonia stream gage. Downstream, in the community of West Point, the Arkansas Highway 36 bridge was flooded. Levees protecting agricultural ground in the Bald Knob National Wildlife Refuge were overtopped. Damages were primarily agricultural, but at the time of year of this event, the damages were insignificant.</p>				
<p><b>There was widespread heavy rain in northern and western Arkansas between the 9th and the 11th of the month. A weather system in Texas dragged a cold front toward the region which produced 24-hour rainfall amounts of 3 to 6 inches by the morning of the 10th and an additional 1 to 3 inches by the morning of the 11th. Flooding was a problem along the Arkansas and White Rivers and tributaries. Releases from Lake Norfolk in Baxter County in excess of 86,000 cubic feet per second, combined with high flows from the White River tributaries, produced major flooding again on the White River from Calico Rock to all points downstream. Points on the lower Arkansas River crested higher than in March, due in part to the high stages on the Mississippi River.</b></p>

<b>OUACHITA COUNTY --- 3.1 SW LUNET [33.74, -92.94], 1.7 SW SMEAD [33.76, -92.85], 0.8 SSE EAST CAMDEN [33.59, -92.74], 2.2 WSW LAKESIDE [33.57, -92.77], 1.1 E NEWPORT [33.43, -92.68], 0.8 WNW CROSS RDS [33.42, -92.73]</b>				
	04/03/08 07:00 CST		0.15M	Flood (due to Heavy Rain)
	04/25/08 05:30 CST		0	Source: Official NWS Observations
The upstream flood wave on the Ouachita River progressed downstream to the Camden vicinity by the middle of the month. The stage at the Camden stream gage crested at moderate flood level. Arkansas Highway 7 and numerous county and city roads were flooded.				
<b>HOT SPRING COUNTY --- 0.6 S JONES MILL [34.42, -92.88], 2.7 W ROCKPORT [34.38, -92.87], 0.5 SSW OAK GROVE [34.34, -92.90], 2.7 WSW FRIENDSHIP [34.20, -93.04], 1.7 S FRIENDSHIP [34.20, -93.00], 1.8 N DONALDSON [34.26, -92.92], 1.1 SW ROCKPORT [34.37, -92.83], 1.3 NE JONES MILL [34.44, -92.86]</b>				
	04/04/08 00:30 CST		0.10M	Flood (due to Heavy Rain)
	04/04/08 15:00 CST		25K	Source: Official NWS Observations
Heavy rainfall produced rising lake levels on Lake Catherine, which prompted Entergy Corporation to open gates on the Rempel Dam. The discharge crested at approximately 90,000 cubic feet per second. A flow rate of 30,000 cubic feet per second causes minor flooding along the Ouachita River. Moderate flooding resulted in Hot Spring County with damages to county roads and low lying pastures. Some homes near Friendship were threatened but none were reported to have been flooded. This was the seventh highest release rate from the dam in its history, and the highest since May, 1990.				
<b>CLARK COUNTY --- 2.0 NNW CADD0 VLY [34.21, -93.08], 0.8 W ARKADELPHIA [34.12, -93.08], 2.3 SSE VADEN [33.84, -92.92], 2.7 ESE VADEN [33.85, -92.89], 1.6 SW POSEYVILLE [33.99, -92.95], 0.7 SSE POSEYVILLE [33.99, -92.93], 3.0 ENE ARKADELPHIA [34.14, -93.02], 3.0 E CADD0 VLY [34.18, -93.02]</b>				
	04/04/08 09:00 CST		0.25M	Flood (due to Heavy Rain)
	04/06/08 03:00 CST		0	Source: Official NWS Observations
Heavy rainfall and large releases from Rempel Dam produced moderate flooding at the Arkadelphia stream gage. State highways and county roads were flooded along with a large portion of the airport property. This was the highest crest since May, 1990.				
<b>Heavy rain the first week of April from a slow-moving frontal system produced significant rises on the Ouachita River and tributaries. The combination of high river flows and the excessive reservoir releases from Rempel Dam caused a moderate flood event from just below the dam to the Louisiana state line.</b>				
<b>CALHOUN COUNTY --- 5.0 SSW DELHI [33.43, -92.66], 9.0 SSE ARTESIAN [33.27, -92.43], 9.9 SE ARTESIAN [33.30, -92.34], 2.6 S DELHI [33.46, -92.62]</b>				
	04/01/08 00:00 CST		25K	Flood (due to Heavy Rain)
	04/30/08 23:59 CST		0	Source: Official NWS Observations
Minor to moderate flooding occurred along the lower Ouachita River for most or all of the month of April. Damages were limited to scour on county roads. High water cut off access to timber and oil wells.				
<b>Heavy rain in late March and again in early April from a series of slow- moving frontal systems produced significant rises on the Ouachita River and tributaries. The lower portions of the Ouachita River remained above flood stage at the first of April and continued into May.</b>				
<b>SALINE COUNTY --- 2.8 NE NANCE [34.58, -92.74], 2.0 SW KENTUCKY [34.60, -92.70], 1.8 WSW SHAW [34.49, -92.56], 4.0 E FRANCWAY [34.44, -92.58]</b>				
	04/04/08 07:30 CST		50K	Flood (due to Heavy Rain)
	04/05/08 11:00 CST		0	Source: Official NWS Observations
Heavy rainfall in central Arkansas caused a rise on the Saline River at Benton to moderate flood level. Some roads were flooded along with pastures along the river. Damages were limited to county roads.				
<b>Heavy rainfall during the first week of April caused minor flooding along the Saline River.</b>				
<b>BRADLEY COUNTY --- 5.5 E PARNELL SPGS [33.71, -92.08], 11.2 NNE HARMONY [33.77, -91.93], 4.9 ESE SMEARNY [33.39, -91.94], 0.9 E JOHNSVILL [33.37, -92.00]</b>

The Saline River flood wave from the Benton gage progressed downstream to Bradley County by the second week of April. Minor flooding at the Rye gage occurred during this time and caused some county roads to flood. Also, some pastures were flooded and access to timber was cut off.				
<b>CLEVELAND COUNTY --- 1.1 ESE CHOWAN [33.91, -92.20], 5.2 NE ORLANDO [33.77, -92.11], 0.8 S HERBINE [33.81, -92.03], 1.4 ESE RISON [33.94, -92.16]</b>				

## Storm Data and Unusual Weather Phenomena - April 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	04/09/08 20:00 CST		25K	Flood (due to Heavy Rain)
	04/12/08 19:00 CST		0	Source: Official NWS Observations

The Saline River flood wave from the Benton gage progressed downstream to Cleveland County by the second week of April. Minor flooding at the Rye gage occurred during this time and caused some county roads to flood. Also, some pastures were flooded and access to timber was cut off.

**Heavy rainfall during the first week of April caused a flood wave which progressed downstream during the second week of the month. Minor river flooding occurred along the lower Saline River in south central Arkansas during the middle of April and caused some road closures and flooded pastures along the river.**

---

**PERRY COUNTY --- 0.7 ENE FOURCHE [35.00, -92.61], 1.6 S HOUSTON [35.01, -92.70], 1.7 WSW HOUSTON [35.02, -92.73], 0.5 ENE PERRYVILLE [35.0 -92.79], 1.4 SE PERRYVILLE [34.99, -92.78], 2.0 WNW OAK GROVE [34.98, -92.73], 0.5 N PLEASANT VLY [34.98, -92.67], 1.4 SW LEDWIDGE [34.96, -92.60]**

	04/01/08 00:00 CST		50K	Flood (due to Heavy Rain)
	04/19/08 06:30 CST		0	Source: Official NWS Observations

Record levels on Nimrod Lake with resultant excessive spillway releases, when combined with heavy rainfall in the first week of April, produced moderate flooding on the Fourche LaFave River in Perry County. Arkansas Highway 300 and county road flooding were the principal damages during the event.

---

**YELL COUNTY --- 0.8 WSW WAVELAND [35.12, -93.64], 0.6 E LONE PINE [35.10, -93.31], 0.7 WSW NEELY [35.12, -93.09], 4.0 ESE PULLEN POND [35.05, -93.07], 1.6 SW DANVILLE [35.03, -93.40], 2.4 SW WAVELAND [35.09, -93.66]**

	04/01/08 00:00 CST		50K	Flood (due to Heavy Rain)
	04/24/08 03:45 CST		0	Source: Official NWS Observations

Record levels on Blue Mountain Lake with excessive spillway releases, when combined with heavy rainfall in the first week of April, produced moderate flooding on the Petit Jean River at Danville. County road flooding was the principal damage during the event.

**Heavy rainfall in March and April caused flooding along the Fourche LaFave and Petit Jean Rivers. Reservoirs on both rivers set new high lake level elevations and uncontrolled spillway releases prolonged flooding.**
