A PATENT TECHNOLOGY MONITORING TEAM REPORT

INDEPENDENT INVENTORS BY STATE BY YEAR

ALL PATENTS, ALL TYPES REPORT

1/1977 - 12/2007

An independent inventor, also called an individual inventor, is an inventor whose patent, at the time of grant, is unassigned or assigned to an individual (i.e., ownership of the patent is not assigned to an organization).

The counts in this report represent the number of times inventors residing in particular states are named on unassigned patents or on patents assigned to individuals. If a patent has more than one inventor, each inventor is counted according to his or her state of residence at the time of patent grant. If an inventor has more than one patent, he or she is counted once for each patent.

This report covers all patent documents (i.e., utility, design, plant, and reissue patents, defensive publications, and statutory invention registrations) granted between January 1977 and December 2007.
