Section C — Number of Employees and Employee Compensation — See **Additional Instructions** for Part II, Section C, on page 6 at the back of this form.

NUMBER OF EMPLOYEES — Employees on the payroll at the end of FY 2005 including part-time employees, but excluding temporary and contract employees not included on your payroll records. A count taken at some other date during the reporting period may be given provided it is a reasonable estimate of employees on the payroll at the end of FY 2005. If the number of employees at the end of FY 2005 (or when the count was taken) was unusually high or low due to temporary factors (e.g., a strike), enter the number of employees that reflects normal operations. If the number of employees fluctuates widely during the year due to seasonal business variations, report the average number of employees on the payroll during FY 2005. Base such an average on the number of employees on the payroll at the end of each pay period, month or quarter. If precise figures are not available, give your best estimate.

EMPLOYEE COMPENSATION — Sum of **wages and salaries** and **employee benefit plans**. Expenditures made by an employer in connection with the employment of workers, including cash payments, stock based compensation, payments in-kind, and employer expenditures for employee benefit plans including those required by statute. Base compensation data on payroll records. Report compensation which relates to activities that occurred during the reporting period regardless of whether the activities were charged as an expense on the income statement, charged to inventories, or capitalized. DO NOT include amounts related to activities of a prior period, such as those capitalized or charged to inventories in prior periods.

Part III — U.S. EXPORTS TO AND U.S. IMPORTS FROM MAJORITY-OWNED FOREIGN AFFILIATE

Goods only valued f.a.s. at port of exportation; do not include services — See Instruction Booklet, Part V.

IMPORTANT NOTES

Report U.S. exports of goods to and U.S. imports of goods from the foreign affiliate in FY 2005. Report all goods that physically left or entered the U.S. customs area. Report data on a "shipped" basis, i.e., on the basis of when and to (or by) whom the goods were shipped. This is the same basis as official U.S. trade statistics to which these data will be compared. Do **not** record a U.S. import or export if the goods did not physically enter or leave (i.e., were not physically shipped to or from) the United States, even if they were charged to the foreign affiliate by, or charged by the foreign affiliate to, a U.S. person.

Foreign affiliates normally keep their accounting records on a "charged" basis, i.e., on the basis of when and to (or by) whom the goods were charged. The "charged" basis may be used if there is no material difference between it and the "shipped" basis. If there is a material difference, the "shipped" basis must be used or adjustments made to the data on a "charged" basis to approximate a "shipped" basis. The data should include goods only; they should exclude services.

Capital goods — Include capital goods but exclude the value of ships, planes, railroad rolling stock, and trucks that were temporarily outside the United States transporting people or goods.

Consigned goods — Include consigned goods in the trade figures when shipped or received, even though they are not normally recorded as sales or purchases, or entered into intercompany accounts when initially consigned.

In-transit goods — Exclude from exports and imports the value of goods that are in-transit. In-transit goods are goods that are not processed or consumed by residents in the intermediate country(ies) through which they transit; the in-transit goods enter that country(ies) only because that country(ies) is along the shipping lines between the exporting and importing countries. In-transit goods are goods en route from one foreign country to another via the United States (such as from Canada to Mexico via the United States), and in-transit exports are goods en route from one part of the United States to another part via a foreign country (such as from Alaska to Washington State via Canada).

Packaged general use computer software — Include exports and imports of packaged general use computer software. Value such exports and imports at the full transaction value, i.e., the market value of the media on which the software is recorded and the value of the information contained on the media. Do not include exports and imports of customized software designed to meet the needs of a specific user. This type of software is considered a service and should not be included as trade in goods. Also do not include negotiated leasing fees for software that is to be used on networks.

Natural gas, electricity, and water — Report ONLY the product value of natural gas, electricity, and water that you produce or sell at wholesale as exports and imports of goods. DO NOT report the service value (transmission and distribution).

52. On what basis were the trade data in the section prepared? — Mark (X) one.

- 4172 1 "Shipped" basis
 2 "Charged" basis without adjustments, because there is no material difference between the "charged" and "shipped" bases.
 3 "Charged" basis with adjustments to correct for material differences between the "charged" and "shipped" bases.

ANNUAL SURVEY OF U.S. DIRECT INVESTMENT ABROAD — 2005
FORM BE-11B(SF)
ADDITIONAL INSTRUCTIONS BY ITEM

Part I — IDENTIFICATION OF FOREIGN AFFILIATE

3. Country of location — If the affiliate is engaged in petroleum shipping, other water transportation, or oil and gas drilling, and has operations spanning more than one country, use country of incorporation for country of location. For example, classify in country of incorporation an oil drilling rig that moves from country to country during the year.

6. Ownership by U.S. Reporter named in item 1.

Equity interest is the U.S. Reporter's direct ownership in the total equity (voting and nonvoting) of the affiliate. Examples of nonvoting equity include nonvoting stock and a limited partner's interest in a partnership.

Voting interest is the U.S. Reporter's direct ownership in just the voting equity of the affiliate. Examples of voting equity include voting stock and a general partner's interest in a partnership. Thus, a U.S. Reporter could have a 100 percent direct voting interest in an affiliate but own less than 100 percent of the affiliate's total equity.

24.—32.

Sales or gross operating revenues of foreign affiliate, by industry of sales or gross operating revenues. See **Additional Instructions** for Part II, Section B, item 35 below.

Holding companies (ISI code 5512) must show total income. To be considered a holding company, income from equity investments must be more than 50 percent of total income. In addition, normally at least 50 percent of total assets must consist of investments in affiliates. ISI code 5512, (holding company), is an invalid classification if more than 50 percent of income generated, or expected to be generated, by an affiliate is from non-holding company activities.

Dealers in financial instruments and finance, insurance, and real estate companies see **Special Instructions** on page 7.

Part II — FINANCIAL AND OPERATING DATA OF FOREIGN AFFILIATE

• **Section A — Income Statement**

34. Net income (loss) — Net income for the year, after provision for foreign income taxes, but before provision for common and preferred dividends. • **Section B — Distribution of Sales or Gross Operating Revenues**

35. Sales or gross operating revenues, excluding sales taxes — Report gross operating revenues or gross sales minus returns, allowances, and discounts. Insurance companies with ISI codes 5243 and 5249 should include gross investment income in this item. Wages and salaries — Report gross earnings of all employees before deduction of employees' payroll withholding taxes, social insurance contributions, group insurance premiums, union dues, etc. Include time and piece rate payments, cost of living adjustments, overtime pay and shift differentials, bonuses, profit sharing amounts, stock based compensation, and commissions. Exclude commissions paid to independent personnel who are not employees.

Include direct payments by employers for vacations, sick leave, severance (redundancy) pay, etc. Exclude payments made by, or on behalf of, benefit funds rather than by the employer. (Include employer contributions to benefit funds in "employee benefit plans.")

Do not include expenditures that benefit employers as well as employees, such as expenditures for plant facilities, employee training programs, and reimbursement of business expenses.

Also include net book value of structures, machinery, equipment, special tools, deposit containers, construction in progress, other depreciable property and capitalized tangible and intangible exploration and development costs of the foreign affiliate. Include items on capital leases from others, per FAS 13. **Exclude** all other types of intangible assets, and land held for resale. (Unincorporated affiliates include items owned by the U.S. Reporter(s) but in the affiliate's possession whether or not carried on the affiliate's books or records. However, insurance companies see **Special Instructions**, B.2., on page 7.)

• **Section E — Property, Plant, and Equipment (PP&E) Expenditures**

48. Expenditures for new and used property, plant, and equipment (PP&E) — Include items leased from others (including land) under capital leases. Also include the capitalized value of timber, mineral and similar rights leased by the affiliate from others. Exclude items the affiliate has sold under a capital lease.

Exclude from expenditures all changes in PP&E, resulting from a change in the entity (e.g., merges, acquisitions, divestitures, etc.) or accounting principles during FY 2005.

For foreign affiliates engaged in exploring for or developing natural resources, include exploration and development expenditures made during FY 2005 whether capitalized, including capitalized expenditures to acquire or lease mineral rights. Do not include adjustments for expenditures charged against income in prior years but subsequently capitalized during the FY 2005.

• **Section F — Technology**

49. Research and development expenditures — R&D includes the following:

1. The planned, systematic pursuit of new knowledge or understanding toward general application (**basic research**);
2. The acquisition of knowledge or understanding to meet a specific, recognized need (**applied research**); and
3. The application of knowledge or understanding toward the production or improvement of a product, service, process, or method (**development**).

Basic research is the pursuit of new scientific knowledge or understanding that does not have specific immediate commercial objectives, although it may be in fields of present or potential commercial interest.

Applied research applies the findings of basic research or other existing knowledge toward discovering new scientific knowledge that has specific commercial objectives with respect to new products, services, processes, or methods.

Development is the systematic use of the knowledge or understanding gained from research or practical experience directed toward the production or significant improvement of useful products, services, processes, or methods, including the design and development of prototypes, materials, devices, and systems.

• Section F — Technology

SPECIAL INSTRUCTIONS FOR DEALERS IN FINANCIAL INSTRUMENTS, FINANCE COMPANIES, INSURANCE COMPANIES AND REAL ESTATE COMPANIES

A. Certain realized and unrealized gains (losses) for (1) dealers in financial instruments and finance and insurance companies, and (2) real estate companies.

1. Dealers in financial instruments (including securities, currencies, derivatives, and other financial instruments) and finance and insurance companies — Include in item 34:

- impairment losses as defined by FAS 115,
- realized gains and losses on trading or dealing,
- unrealized gains or losses, due to changes in the valuation of financial instruments, that flow through the income statement, and
- goodwill impairment as defined by FAS 142.

EXCLUDE from item 34, unrealized gains or losses due to changes in the valuation of financial instruments that are taken to other comprehensive income.

Include income from explicit fees and commissions as operating income in item 32.

2. Real estate companies — Include in item 34:

- impairment losses, as defined by FAS 144 and
- goodwill impairment as defined by FAS 142.

Include revenues earned from the sale of real estate you own as operating income in items 32 and 35. Expenses incurred from the sale of real estate you own, including the net book value of the real estate sold, should be considered as costs of goods sold. Do not net the expenses against the revenues.

B. Special Instructions for insurance companies

1. When there is a difference between the financial and operating data reported to the stockholders and the data reported in the annual statement to an insurance department, prepare the BE-11 on the same basis as the annual report to the stockholders. Valuation should be according to normal commercial accounting procedures, not at rates promulgated by national insurance departments, e.g., include assets not acceptable for inclusion in the annual statement to an insurance department, such as: 1. non-trusted or free account assets and 2. nonadmitted assets, including furniture and equipment, agents' debit balances, and all receivables deemed to be collectible. Include mandatory securities valuation reserves that are appropriations of retained earnings in the owners' equity section of the balance sheet not in the liability section.

2. Do not include assets of the U.S. Reporter held in the country of location of the affiliate that are for the benefit of the U.S. Reporter's policyholders in the data reported for the affiliate.
