

Comparison of 1987 SIC-based ISI codes with 1997 NAICS-based ISI codes

The following table shows how the international surveys industry (ISI) codes based on the 1987 Standard Industrial Classification (SIC) (referred to hereafter as the 1987 ISI codes) correspond to the new ISI codes that are based on the 1997 North American Industry Classification System (NAICS) (referred to hereafter as the 1997 ISI codes). The table has four columns:

The first column shows the 1987 ISI code

The second column shows the industry name for the 1987 ISI code, or in cases where the 1987 ISI code does not have a one- to-one correspondence to a single 1997 ISI code, lists the activities covered by the 1987 ISI code. are shown.

The third column shows the 1997 ISI code that corresponds to the 1987 ISI code or component activity

The fourth column gives the industry name for the 1997 ISI code

If all activities covered by a 1987 ISI code are covered by a single 1997 ISI code, the latter code and industry name are **boldfaced**.

Consult BEA's Guide to Industry and Foreign Trade Classifications for International Surveys for a comprehensive list of activities included in each 1997 ISI industry. The Guide is available on the Internet at <http://www.bea.doc.gov/bea/surveys/be799.pdf>
For additional information on the NAICS and its correspondence with the SIC, see <http://www.census.gov/epcd/www/naics.html>
