Room 7128  
400 Seventh Street, SW  
Washington DC, 20590

Dear Sir:

In compliance with the requirements of 49 CFR Part 192.727 (g) (1), the following is a report of the abandonment of an onshore pipeline under a navigable waterway.

This abandoned transmission pipeline labeled as "AM04" owned by KO Transmission Company (Operator ID 30910) is located under the Ohio River, east of Cincinnati, Ohio and Covington, Kentucky, west of Silver Grove, Kentucky, between Campbell County, Kentucky and Hamilton County, Ohio. The crossing is approximately 69' east of Blangey Rd. in Campbell County, Kentucky. The pipeline was abandoned on August 31, 2006 and was cut, purged, and capped in accordance with all applicable code requirements.

The transmission pipeline labeled "AM04" was originally installed in 1948 as (4) 12" steel welded protective coated pipelines running parallel from a header pipe located in Kentucky on the south shore of the Ohio River to a header pipe located in Ohio on the north shore of the Ohio River. The length of pipeline abandoned for each of the four pipelines was approximately 1,850', for a total of 7,400'.

The four parallel pipelines were replaced with one 20" steel welded protective coated pipeline, approximately 2,312' in length and labeled as "AM04".

If you require additional information on this facility, please contact me at the address noted above, or by calling me at (513) 287-2824. I can also be reached by e-mail at [jim.callahan@duke-energy.com](mailto:jim.callahan@duke-energy.com).

Sincerely,

James T Callahan  
Supervisor, Gas Engineering  
Gas Operations
