Houston, TX 77252-2521

Re: CPF No. 1-2004-5002H

Dear Mr. Pearl:

On January 30, 2004, the Office of Pipeline Safety (OPS) issued to the Texas Eastern Products Pipeline Company (TEPPCo) a Corrective Action Order. The order required certain corrective actions with respect to the operation of your 8-inch propane P-41 pipeline that extends from Watkins Glen, NY to Selkirk, NY. Based on the recommendation of the Director, Eastern Region, OPS, it has been determined that TEPPCo has complied with the order. Accordingly, this case is now closed and no further enforcement action is contemplated with respect to the matters involved in this case.

Sincerely,

James Reynolds
Pipeline Compliance Registry
Office of Pipeline Safety
