HRSICINST M5230.3
17 July 2000

HUMAN RESOURCES SERVICE AND INFORMATION CENTER INSTRUCTION M5230.3

Subj: PERSONNEL MANAGEMENT INFORMATION SYSTEM/JOINT UNIFORM MILITARY PAY SYSTEM (PMIS/JUMPS) ANALYSIS MANUAL

1.   **PURPOSE.** This instruction publishes the Personnel Management Information System/Joint Uniform Military Pay System (PMIS/JUMPS) Analysis Manual. This manual provides guidance for researching personnel and pay transactions in PMIS/JUMPS.

2.   **ACTION.** Personnel Reporting Unit (PERSRU) supervisors and auditors, HRSIC auditors, technicians, programmers, developers, and systems analysts, and others having access to PMIS/JUMPS should refer to this manual for definitions and descriptions of data elements appearing in the database. This guide is a tool for those who are investigating transactions within PMIS/JUMPS. It is not to be used for data input.

3.   **DIRECTIVES AFFECTED.** HRSICINST M5230.2, *Query Manual*, and HRSICINST M5235.1, *PMIS Forms Guide* are hereby cancelled. COMDTINST M1080.8A, *PMIS/JUMPS Manual Volume V -- Headquarters*, the responsibility and maintenance for which was transferred to HRSIC, is superseded and cancelled.

4.   **DISTRIBUTION AND CHANGES.** This manual is a reference tool, not a procedural guide, distribution of the printed version is limited to a single *courtesy* copy for supervisors and auditors at PERSRUs and HRSIC. Coast Guard Standard Workstation III users may obtain an electronic version of this manual by downloading from HRSIC's web site: (http://www.uscg.mil/hq/hrsic). The table of contents in the electronic version contains links that will take the reader to the appropriate page of the manual.

DISTRIBUTION - SDL No. 135

NON-STANDARD DISTRIBUTION: See page 2

Changes to this manual will be posted on HRSIC's web site and announced via ALPERSRU Email message. Changes will not be printed or mailed by HRSIC. Changes will be consecutively numbered and issued on "as needed/necessary" basis.

5.   **Comments and Recommendations:** Comments or recommendations may be submitted by Email to "HRSIC-PRC".

PMIS/JUMPS ANALYSIS MANUAL
Table of Contents

Chapter Overview

Introduction   This chapter provides guidance for accessing the Coast Guard's Joint Uniform Military Pay System (JUMPS) database.

Background   The Joint Uniform Military Pay System (JUMPS) is the automated pay system for Coast Guard regular and reserve members and the National Oceanic and Atmospheric Administration (NOAA). The master database is stored on an IBM Mainframe computer located in Topeka, KS, near the Personnel Service Center. The primary purpose of the system is to provide timely and accurate pay and to produce historical pay and personnel records.

Data Flow   It is essential that JUMPS data be accurate and submitted in a timely manner. Servicing Personnel Offices are primarily responsible for creating and certifying transactions in Direct-Access for input into JUMPS. Approved transactions are electronically transmitted (polled) to PSC on a daily basis. This data passes through a series of edits to ensure accuracy. Once a week the pay files are updated, and twice each month, payroll is computed and paid. Only transactions that successfully pass through front end edits and were transmitted prior to the update and/or compute polling cutoff date, established by PSC, are processed. Transactions that fail to process through personnel or pay edits appear on the exception report for corrective action.

Application   The principal reasons for querying the database include:

- Conducting background research in preparing and auditing transactions
- Providing record information to members and supervisors
- Providing pay information to members
- Researching and correcting pay related exceptions
- Making special off-line payments
- Conducting pay audits and making adjustments if applicable

In this chapter

Topic	Section
JUMPS User Accounts	1-A
Connecting to JUMPS	1-B
Online Menus	1-C
The Main Inquiry Option	1-D
Update and Compute Processes	1-E

Section Overview

Introduction   This section provides the procedures for establishing or terminating JUMPS User accounts.

In this chapter   This chapter covers the following topics:

Topic	See Page
Establishing a JUMPS User Account	1-A-2
Terminating a JUMPS User Account	1-A-4

Establishing a JUMPS User Account

Purpose

This section provides the guidelines and procedures for establishing a JUMPS user access account.

Authorized Users

All personnel, with a need to access payroll data, assigned to PSC Topeka may be granted access to JUMPS.

- Accounts for personnel in key positions at PSC Topeka may include the ability to update tables, execute programs and run non-standard queries. Policies and procedures for granting this type of access are maintained by PSC (ID).
- All other user accounts are "View only".

All active duty, reserve and civilian employees permanently assigned to a position in one of the existing Servicing Personnel Offices (SPOs) may be granted access to JUMPS.

- Yeoman, temporarily assigned to a SPO, may be granted access.

Personnel not assigned to PSC Topeka or a SPO may be granted access to JUMPS if they have a need to routinely view payroll data. This category of users includes, but is not limited to, staff members assigned to:

- Human Resources Directorate (CG-1) at Coast Guard Headquarters
- Coast Guard Personnel Command (CGPC)
- Coast Guard Finance Center
- YNs assigned to cutters or other field units without regular face-to-face access to the SPO supporting their unit.

Establishing a JUMPS User Account, Continued

Requests to gain access

To designate a JUMPS user, utilize CG PSC Form 7421/3 JUMPS User Access Authorization, which is available on PSC's internet site at http://www.uscg.mil/hr/psc/forms/

Follow these steps to request JUMPS access:

Step	Action
1	Complete the first section (Blocks 1 through 7) of the form.
2	The authorizing official's name, rank, title, and phone number must be printed or typed in Block 8 and the block must be signed by the authorizing official.
3	Fax the form to PSC at: (785)-339-2297.

- The JUMPS system administrator (PSC-ID) will setup the account in JUMPS, and notify the user, via e-mail, when completed. Forms are usually processed within 3-working days of receipt. However, delays may be encountered during the transition period (From shared accounts to individual user IDs). Therefore, users of shared accounts should begin submitting requests immediately, to avoid losing access when shared user IDs are disabled on 1 March 2007. Direct-Access user roles and accounts are managed separately from JUMPS accounts, so users requesting access to both systems will receive separate e-mails with account information after their requests have been processed.

- The originating office shall retain the original CG PSC Form 7421/3 until the member/employee departs the unit (transfer, discharge, etc.), or the designation is otherwise terminated or revoked. Follow the procedure on the next page for terminating access.

Terminating a JUMPS User Account

Purpose

This section provides the guidelines and procedure for terminating a user's access to the JUMPS database.

When to terminate access

A user's access to JUMPS must be terminated when the user is:

- Reassigned or transferred (including interoffice transfer to new duties not requiring access to payroll data).
- Separated from the service or employment terminated (including discharge, RELAD, retirement or death).

Information in JUMPS is protected by the Privacy Act (5 USC 552a). A user's access to JUMPS should be reviewed, and possibly revoked, whenever derogatory information, which may raise security concerns about an individual's trustworthiness, willingness, and ability to properly protect information on Coast Guard/NOAA members is discovered. Consult Section 2.V.1.d and Chapter 4 of the Military Personnel Security Program Manual, COMDTINST M5520.12(series) for guidance on determining and reporting derogatory information.

Access termination/ revocation procedure

To terminate or revoke a user's access to JUMPS, have the user sign the acknowledgment in block 15 on page 2 of CG PSC Form 7421/3 (If the user has already departed the unit enter "*Not available for signature*" in block 15). The unit should complete blocks 16 and 17 and fax the form to PSC at (785) 339-2297. The JUMPS system administrator (PSC-ID) will disable the user's account upon receipt of the notification.

Section Overview

Introduction   JUMPS inquiry programs are hosted on an IBM Mainframe computer located in Topeka, Ks near the PSC. This section provides procedures for accessing the host computer via SWIII *BlueZone* terminal emulation software.

Requests to gain access   See Chapter 1-A for procedures for establishing JUMPS user accounts.

Passwords   A password is required to access JUMPS. The following rules apply:

- Initial passwords are provided by PSC (ID)
- The system will prompt the user to change the password near the end of each 90 day period.
- Passwords must be 8 characters in length and must include one of these 3 national characters : @, #, or $, at least one letter, and at least one number
- Passwords are not case sensitive.
- Passwords cannot be the same as the previous 8 passwords.
- The system will automatically lock out users after the third failed attempt to input a correct password. To regain access, contact PSC Customer Care via e-mail or by submitting a request using their web form at http://www.uscg.mil/hr/psc/ccb/. **Be sure to include your JUMPS user ID when requesting a password reset.**

Inactive Accounts   Accounts that are inactive for more than 45 days are locked. Accounts that are inactive for more than 180 days are deleted.

**In this chapter**   The following topics are covered in this chapter.

Conventions Used in this Chapter

Naming Conventions

There are several naming conventions used throughout this chapter. For clarity, several of the more commonly used terms are shown in the following illustration.
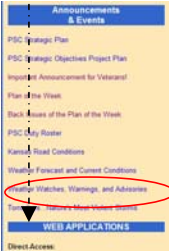

Accessing and Launching BlueZone

Introduction   This section provides the procedure for accessing BlueZone via PSC's web site.

Procedure   Follow these steps to start using BlueZone

Step	Action
1	Open Internet Explorer (Web browser).
2	Go to the PSC intranet home page at: http://cgweb.psc.uscg.mil/default.asp
3	Locate the BlueZone/TOPTS links in the upper, left-hand column, of the page.
4	Click the **TOPTS Launch Pad** link.
5	The BlueZone Launch Pad page will open. A download dialog box will appear if this is the first time you have used the Launch Pad or if the administrator has added new options to the menu. Do not interrupt the download.

PSC Users:
1. Open Internet Explorer
2. If Internet Explorer is already running, click the home button --

🏠 to go to the PSC Staff/Employee Information Page or type "cgweb.psc.uscg.mil/psc.htm" into the address bar and press enter or click the ➡ Go button.
3. Scroll down and locate the Web Applications links in the left-hand column of the page.

4. Find the **BlueZone Emulation** section and select either the PRODUCTION or TEST Launch Pad link.

Continued on next page

Accessing and Launching BlueZone, Continued

Procedure **(continued)**

Step	Action
6	After the download is complete you will have access to the TOPTS Launch Pad links:
7	From the Launch Pad page select one of the screen settings by **double-clicking** on one of the TOPTS links. 1. The options are for the height and width for the program window, e.g 43X80 is 43 lines high by 80 columns (spaces/characters) wide.
8	The program will open in a new window. Note: The first time you launch TOPTS, you may need to acknowledge a security warning which will allow the BlueZone™ program to create a directory on your system and copy some configuration files.

Continued on next page

Accessing and Launching BlueZone, Continued

Procedure (continued)

Step	Action
9	Logon and use the mainframe. You can close or minimize Internet Explorer, you don't need to have the browser running to use BlueZone™.

10	Enter "TOPTS" for the application to connect to

Note: Menus for SPOs and other users will differ from the PSC menu shown here.

Accessing and Launching BlueZone, Continued

Logging off and closing the program	Be sure to log off JUMPS and close the BlueZone emulation program when not in use. Leaving the connection open or BlueZone running when not connected consumes user licenses and network bandwidth.

How to log off correctly	This is the correct procedure for logging off the host computer.

Step	Action
1	When finished using pay inquiry, type "end", and you will return to the Menu Options screen
2	At the Menu Options screen, type "01", to logoff
3	Your screen will display a message stating you have been logged off: "Your tn3270/tn5250 connection has been terminated" (Temporary files have been closed automatically)
4	You now may click on "File" on the Menu Bar and then click "Close Session" or you may click the ☒ on Menu Bar and answer "Yes" when asked if you want to close the session.
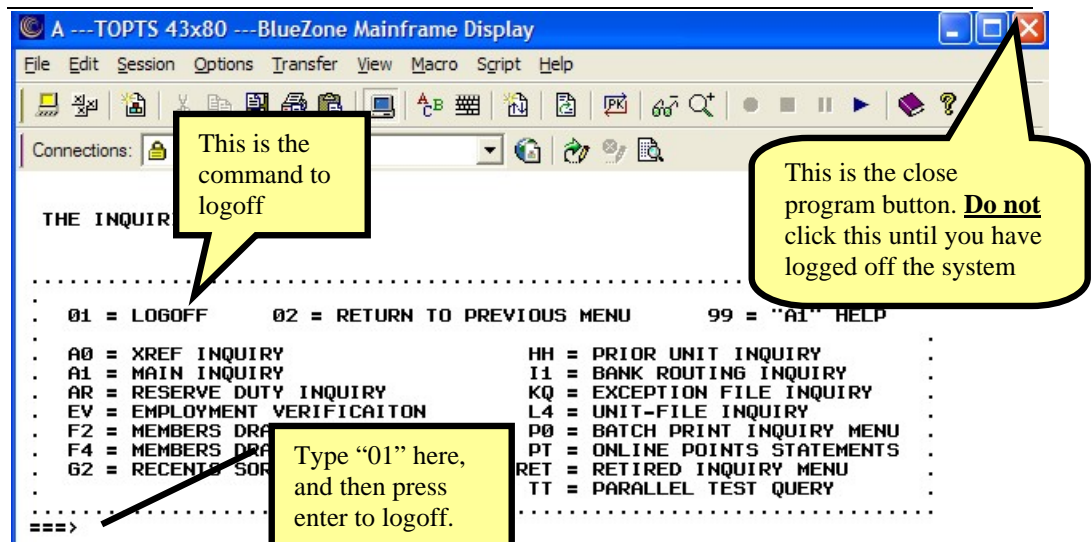

Continued on next page

Accessing and Launching BlueZone, Continued

Subsequent connections (from the same computer)

The program will create a shortcut on you desktop from which to launch future connections.

BlueZone Session Manager.LNK

Double click the BlueZone Session Manager link to open the Session Manager Window.
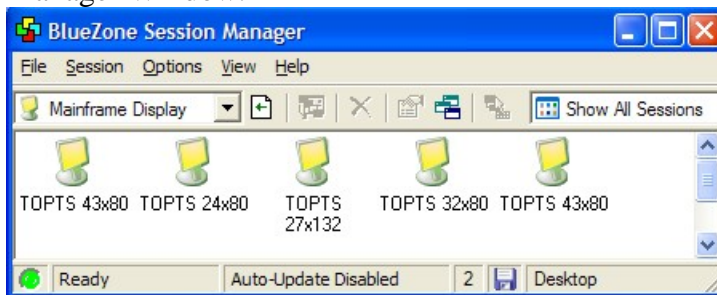

Double click on one of the TOPTS settings icons to launch the program and begin a new session.

The options are for the height and width for the program window, e.g 43X80 is 43 lines high by 80 columns (spaces/characters) wide.
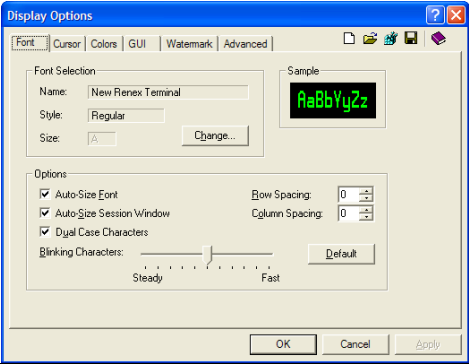

Setting Display Properties (PSC Users Only)

Introduction   This section provides a brief overview for changing the program's display options.

Discussion   The default color scheme is black & white. You can change the colors and fonts. Your personal settings can be saved and reloaded the next time you use the program.

Changing Fonts   The Font Options property page of the Display Options property sheet is used to select a session display font and to configure additional font options.

Step	Action
1	From the BlueZone **MenuBar**, select **Options:Display**, or click the right mouse button while holding the mouse pointer over the session window and choose **Display:Options**. Choose the **Font** tab.
2	The **Font Selection** group is used to select a session display font. Options include: **1. Name:** Displays the currently selected font name. 2. **Style:** Shows the currently selected font style. 3. **Size:** Displays the currently selected font size or 'A' if the font has been auto-sized by BlueZone. See Font Options below for information on auto-sizing the session display font. 4. **Change:** To change any of the features listed above, use the **Change** button to select a different display font name, style, and or size.

Setting Display Properties (PSC Users Only), Continued

Changing Fonts **(continued)**

Step	Action
3	The Options group is used to configure additional display font properties. Configuration options include:
	1. Auto-Size Font: (relative to size of Session Window) When checked, BlueZone will auto-size the font to the largest font possible while still displaying all the session rows and columns within the session window. How well the auto-size font feature works depends largely on the quality of the font selected.
	2. Auto-Size Session Window: (relative to the Font Size) If checked, and the OK or Apply button is pressed, BlueZone will auto-size the session window to the smallest window possible, while still displaying all the session rows and columns.
	3. Dual Case Characters: If enabled then both upper and lower case characters will be displayed in the session window. If disabled then only upper case characters will be displayed in the session window.
	4. Blinking Characters: Used to set the blink speed of blinking characters displayed in the host screen. When the Blinking Characters trackbar control has the keyboard input focus then the Sample group will display a sample of the currently configured blink rate.
	5. Row Spacing: Used to set the distance in pixels between lines of text in the session window. If Auto-Size Font is selected then this setting may effect the Font Size.
	6. Column Spacing: Used to set the distance in pixels between characters in the session window. If Auto-Size Font is selected then this setting may effect the Font Size.
	7. Default: Used to set all of the controls in Options group to their default values.
4	Save your settings by selecting **File:Save As** from the menu bar. Select or enter a file name and press save.
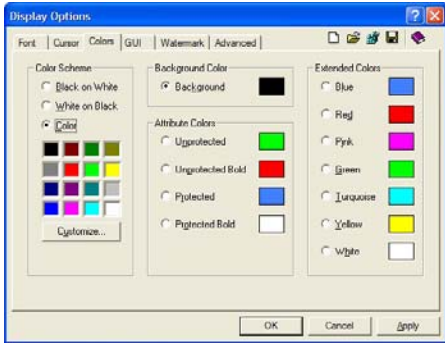

Setting Display Properties (PSC Users Only), Continued

Changing Colors	The Colors property page of the Display Options property sheet is used to configure the Color and Font settings. Follow these steps to access the Display Options dialog.

Step	Action
1	From the BlueZone Mainframe Display MenuBar, select Options, Display, or click the right mouse button while holding the mouse pointer over the session window and choose Display Options. Choose the Colors tab.
2	Select a Color Scheme: The Color Scheme group is used to select a color scheme or make an individual color selection: 1. Black on White: Use this radio button to set the session display background color to white and the foreground color to black, Attribute and Extended Colors will automatically change to black. 2. White on Black: With this radio button enabled, the session displays a background color of black and the foreground color of white, Attribute and Extended Colors will automatically change to white. 3. Color: Sets the background and foreground of the session display to use the colors as defined. To change an individual color select the item to change then select a color square or press the Customize... button. 4. Customize: The Customize button is used to change the color of the currently selected item. The colors available are dependent on the display hardware and operating system configuration of the PC.
3	Save your settings by selecting **File:Save As** from the menu bar. Select or enter a file name and press save.

Setting Display Properties (PSC Users Only), Continued

Retrieving Saved Settings

Access your settings by first launching TOPTS (the default black on white configuration will always open), then selecting **File:Open** from the menu bar. Locate your saved settings file and open it. Your session will restart with your saved settings.
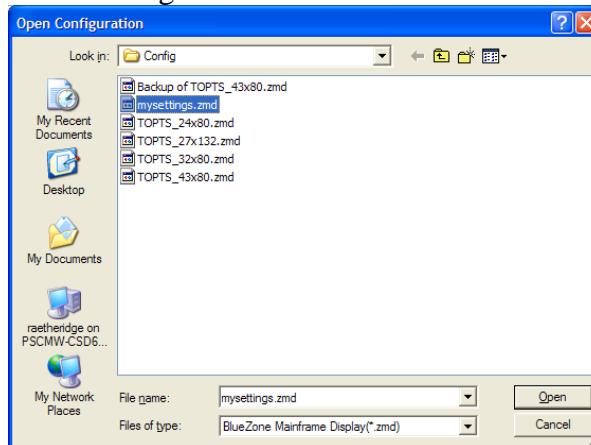

Keyboard Mapping (PSC Users Only)

Introduction   This section provides the procedure for changing the default keyboard mapping.

Procedure   BlueZone keys by default are mapped to a standard BlueZone keyboard map. If you want to change a key mapping, follow this procedure.
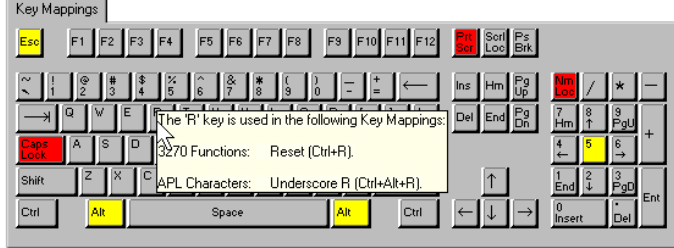

Step	Action
1	From the BlueZone **MenuBar** select **Options: Keyboard** or press the **Keyboard** icon found on the **ToolBar**. The **Key Mappings** property sheet will display a bitmap image of a keyboard.

Continued on next page

Keyboard Mapping (PSC Users Only), Continued

Procedure **(continued)**
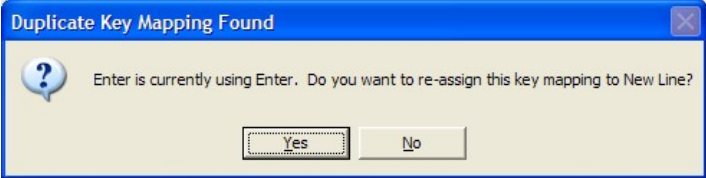

Step	Action
2	Before attempting to map a key, it's a good idea to check and see what that key is currently mapped to. To find out, hold the mouse pointer over a particular key on the keyboard image and left click. For example, if you wanted to know what the R key is mapped to, place the mouse pointer over the R key and left click as shown in the following illustration. BlueZone will create a pop-up window detailing all the key mappings that are associated with the R key.
3	To Map a Function to a New Key: Select a group from the **Functions Group** List Box. Select a function from the **Functions** List Box. Any existing key mappings for that function will appear in the **Key Mappings** List Box. If there are no keys currently mapped to this function, BlueZone will display: <No Keys Mapped to Function>. Click the **New** button. If there are existing key mappings, BlueZone will create a new blank highlight bar in the **Key Mappings** List Box. With your mouse pointer, go to the keyboard bitmap and click the key that you want to associate with the function that you chose in step 2. The name of the key will appear in the **Key Mappings** List Box. Click the **OK** button. The selected function will now be mapped to the new key. Any other keys that are mapped to this function will also be displayed in the **Key Mappings** List Box.

Keyboard Mapping (PSC Users Only), Continued

Procedure (continued)

| Step	Action
4	You will receive a warning message, similar to the one below when re-assigning keys: **Duplicate Key Mapping Found** Enter is currently using Enter. Do you want to re-assign this key mapping to New Line? Yes No
5	Save your settings by selecting **File:Save As** from the menu bar. Select or enter a file name and press save.

Retrieving Saved Settings
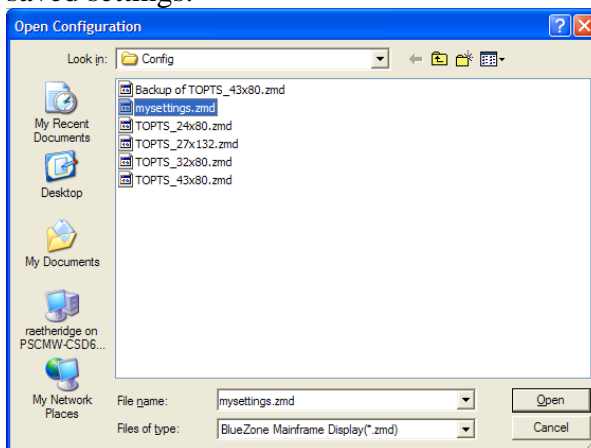

Access your settings by first launching TOPTS (the default black on white configuration will always open), then selecting **File:Open** from the menu bar. Locate your saved settings file and open it. Your session will restart with your saved settings.
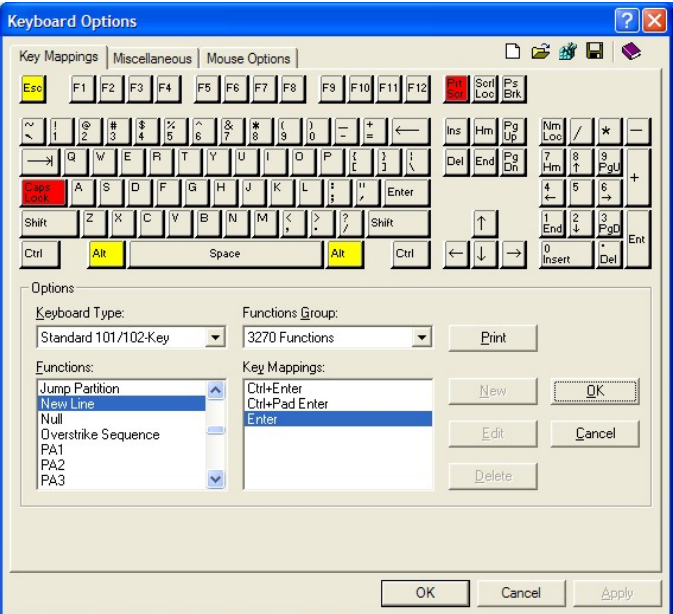

Printing

Introduction   There are several ways to print and save data from the Mainframe:

Printing the Screen to a printer
Copying Text to a printer or a file
Printing multiple screens to a printer or a file

Print Screen   The BlueZone Display emulator has the ability to print the current screen. This is accomplished by choosing **File:Print Screen** from the BlueZone **MenuBar**, or by selecting the Print Screen 🖨icon from the BlueZone **ToolBar**.

Copying Text to the Printer or File   With BlueZone, users have the ability to copy session text from the display session and send it to the printer. To highlight text in the display session for copying to the printer:

Press and hold down the left mouse button while dragging the mouse pointer over the desired text; or, use the keyboard select functions: Left, Up, Right, Down, All.
Once the desired text is selected, release the left mouse button.
From the BlueZone MenuBar, select Edit:Copy to Printer or select Edit:Copy to File.

To de-select the highlighted text without copying it press the left mouse button; or use the keyboard select function Cancel.

Printing, Continued

Print Multiple Screens

The BlueZone Display emulator also has the ability to print multiple screens. This is accomplished by choosing **File:Print Multiple Screens** from the BlueZone **MenuBar**.

The **Print Multiple Screens** dialog will display.
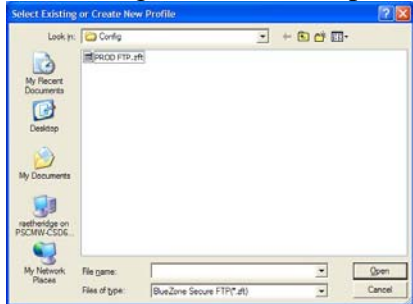

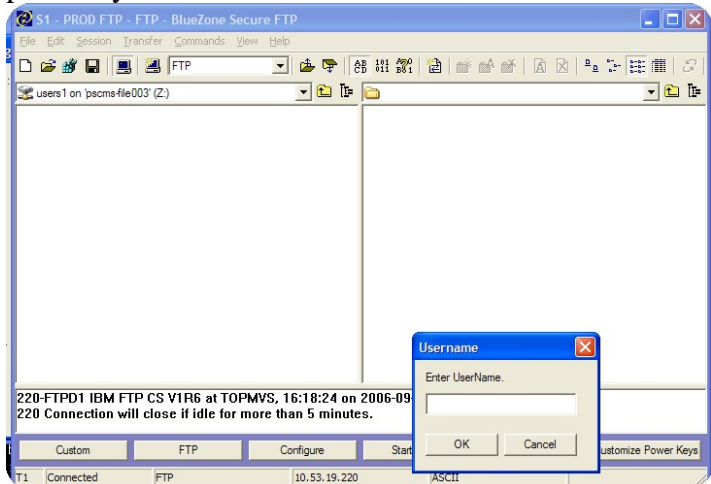

1. Move focus back to the BlueZone Display emulator, and navigate to the first screen that you wish to print.
2. On the **Print Multiple Screens** dialog click the camera ▦icon. The screen capture will be added to the **Capture List**.
3. Go back to the BlueZone Display emulator (the emulator will retain focus), and navigate to the next screen you wish to print.
4. Click the camera ▦icon again. The screen image will be added to the **Capture List**.
5. Choose whether or not you want the **Capture List** to Auto-Clear after printing by checking or un-checking the check box.
6. After you have made all of the desired screen captures, you have several options:
7. Send the screen capture to your printer (click the printer 🖨icon)
8. Send the screen capture to a text file (click the disk 💾icon)
9. Send the screen capture to an email with the captured text as the message (click the email 📧icon)
10. Send the screen capture to an email with the captured text as an attachment (click the email with attachment 📧icon)
11. To delete a screen capture, highlight the desired screen capture from the list and click the delete ✕icon.

Secure FTP (PSC Users Only)

Introduction	**BlueZone Secure FTP** (File Transfer Protocol) was designed specifically for Windows PC's to provide secure file transfers to and from virtually all FTP hosts including IBM Mainframe and iSeries FTP Hosts, as well as UNIX, Windows NT and other FTP hosts. BlueZone Secure FTP has an easy to use Windows GUI interface and comes complete with SSL (Secure Sockets Layer) encryption.
Procedure	PSC users, follow these steps to use Secure FTP.
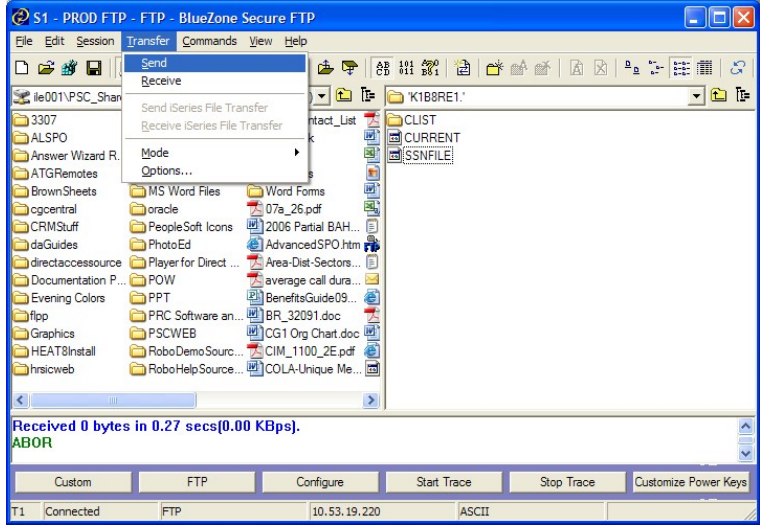

Step	Action
1	From the BlueZone menu bar select **Transfer:FTP.**
2	The FTP Program configuration selection will open. Double-click on a configuration file to open it.
3	The FTP program window will open, and you will be prompted to provide your User Name and Password.

Continued on next page

Secure FTP (PSC Users Only), Continued

Procedure **(continued)**

Step	Action
4	You can transfer files by dragging and dropping or marking files and selecting **Transfer:Send** or **Receive** from the program's menu.

More Information You can learn more about BlueZone Secure FTP by accessing the program's online help.

Select **Help:BlueZone FTP Help** from the menu bar or access the online help at:
http://www.seagullsoftware.com/products/bluezone/help/v35/bzftp/bzftp.htm

Note: Many of the user customization features described in the Online Help, such as keyboard mapping, are only available to users at PSC.

Using Online Help

Introduction   This quick start guide only touches on some of the features of BlueZone Emulation software. The vendor provides extensive program documentation.

Procedure   You can access the online help by clicking **Help:BlueZone Help Topics** from the menu bar or by accessing the online help directly at: http://www.seagullsoftware.com/products/bluezone/help/v35/bz/bluezone.htm

Section Overview

Introduction   This section gives information and procedures for navigating online menus.

In this chapter   This chapter covers the following topics:

Topic	See Page
Procedures for Navigating Online Menus	1-C-2

Procedures for Navigating Online Menus

How to Navigate in PMIS/JUMPS

PMIS/JUMPS provides online menus to access various utilities. At the prompt, type in the desired code from the menu and press enter to execute.

The Pay Query Menu

The first menu to appear for HRSIC users is illustrated below.
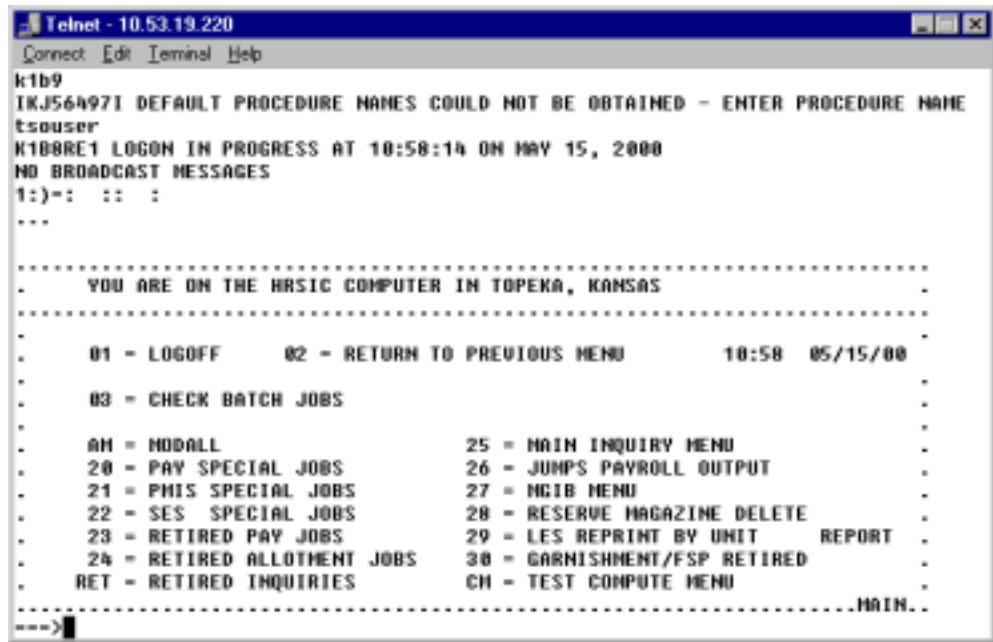

Pay Query Menu Description

The specific function of each option in this menu is described below.

Command	Function	User
01	Logoff Query	All users
02	Used to get to the "Ready" mode for system programming and downloading reports.	Select HRSIC users
03	Provides the status of a print job request	All users
AM	Modify All Pay Segments (MODALL) is the acronym used to describe direct modifications to data in PMIS/JUMPS	HRSIC (MAS)

Procedures for Navigating Online Menus, Continued

Pay Query Menu Description (continued)

Command	Function	User
20	Perform direct deposit inquiries, create DUMLM @ DUDDNPAM messages, edit LES remarks, and edit payroll and garnishments.	HRSIC (MAS)
21	Run out-of-balance reports, batch exception punch, update the unit file.	HRSIC (MAS)
23	Used to submit various retired pay jobs	HRSIC (RAS)
24	Used to submit various retired allotment and EFT jobs.	HRSIC (RAS)
25	See Main Menu below.	All users
26	Perform similar jobs as 20 above .	HRSIC (MAS)
27	Prepare payroll tape to VA from MGIB allotments	HRSIC (MAS)
28	Used to remove members from the magazine mailing list	HRSIC (MAS)
29	Used to reprint non-receipts of Leave and Earning Statements	HRSIC (MAS)

The TOPTS Main Menu   The Main Menu for HRSIC users is illustrated below
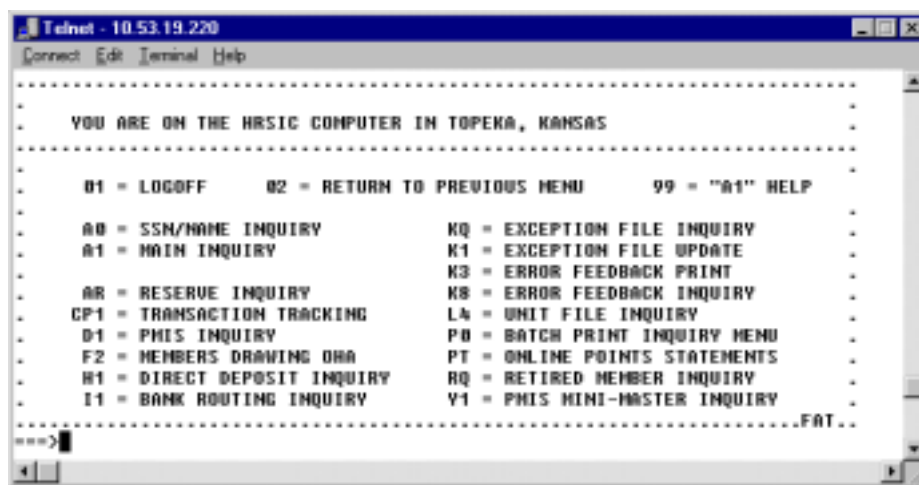

Procedures for Navigating Online Menus, Continued

Main Menu Description   The specific function of each utility in the Main Menu is defined below:

Command	Function
01	Logoff Query.
02	Go back to previous menu.
99	Main inquiry (A1) help.
A0	Query by Name or SSN to display Name, Rank, SSN, Status (Active/Reserve), Permanent Unit/PERSRU.
A1	Query by SSN to display and navigate through various utilities including the PMIS database, recents, pay segments, and Leave and Earnings Statement. See Section D for more information.
AH	Displays historical pay segments.
AR	Displays reserve participation by duty type during the current and prior fiscal, calendar or anniversary years.
CP1	Displays transmittals received and to be processed during the next update run.
D1	Displays 13 pages of personnel information.
F2	Displays members drawing overseas housing allowance by location code, PERSRU, permanent unit, or last name.
H1	Displays members not on direct deposit by permanent or reporting unit.
I1	Displays financial institution information by routing number or organizational name.
KQ	Lists transactions that did not successfully process through PMIS/JUMPS edits.
K1	Used by HRSIC (MAS) to input exception report data, assign errors, and provide comments on the PERSRU Feedback Report.
K3	Prints Error Feedback Reports
K8	Displays the current exception report by district/reporting unit (DD-RU).
L4	Displays the unit mailing address, email center, phone & fax number, address, and the Mean Housing Allowance (MHA) and CONUS COLA zip code. Searches can be performed by unit name or by OPFAC numbers.

Procedures for Navigating Online Menus, Continued

Main Menu Description (continued)

Command	Function
P0	Print member inquiries, feedback reports, and mailing labels and run mini-computes. (HRSIC use only)
PT	Print reserve point statements by SSN (HRSIC use only).
RQ (RET in TOPTS)	Display current year retirees, compute high 36, and retrieve individual allotment information or allotments by blanket, bond, and VA purpose codes (HRSIC (RAS) use only).
Y1	Search the database for members by SSN, OPFAC's, or name and display personal information. Perform personnel counts by unit.

HRSIC Applications Menu

The HRSIC Applications Menu is illustrated below. These applications are only available to the HRSIC staff.

```
    1      Pay Query- Local Pay Query Menu Duplicate TCC
    2      MPD-Tracking   - MPD Tracking
    3      Modall Tracking - Modall Change Tracking
    4      Compt Negotiable - Query Comptroller's Negotiable Inst.
   99      Exit From Menu
```

Applications Menu Description

The specific function of each item is described below.

Command	Function
1	Returns the user back to Pay Query (A1).
2	Primarily used by HRSIC (MAS & SES) to input and track account discrepancies.
3	Primarily used by HRSIC (MAS) to report online direct modifications to PMIS/JUMPS.
4	This option is used by HRSIC (DC). Menu options include: Pay Adjustment Authorizations, Waivers, Bond Returns, Check for Bond Errors, Send Payments to the Treasury, Query Treasury Files, Comptroller Tracking Menu, and Query MPD Tracking.
99	Return to previous menu.

Section Overview

Introduction   This section gives information and procedures for navigating in the Main
Inquiry Option.

In this chapter   This chapter covers the following topics:

Main Inquiry Features

General Features	The main inquiry is the sole menu option for accessing transaction records and member pay files in JUMPS. Once in the main inquiry, users can enter a member's SSN and quickly path from fixed data pages to pay segments, Leave & Earning Statements, recents, exception files, and personnel pages.
Pay Files	Pay files consist of 3 pages of fixed data followed by a series of pay segments.
Fixed Data Pages	A following table gives a description of fixed data pages.

<table>
<tr><th colspan="4" align="center">Fixed Data Pages</th></tr>
<tr><td>Page 1</td><td colspan="3">Contains general information about a member</td></tr>
<tr><td>Page 2</td><td colspan="3">Contains segment flags that indicate the following.</td></tr>
<tr><td></td><td>Flag</td><td colspan="2">Indicates…</td></tr>
<tr><td></td><td>1</td><td colspan="2">Active segments</td></tr>
<tr><td></td><td>0</td><td colspan="2">Inactive segments that are on file or purged</td></tr>
<tr><td></td><td>Blank</td><td colspan="2">No segments of this type ever existed.</td></tr>
<tr><td>Page 3</td><td colspan="3">Contains information about reservists</td></tr>
</table>

Pay Segments	Pay segments are blocks of data used to store information relating to an entitlement, allotment, or deduction.
	There are over 75 different segments outlined in Chapter 5. The types and amount of segments applicable to a member varies by duty station, status, and by member's preferences regarding pay. To get a complete listing of segments applicable to a member, go to page 2 of fixed data or enter "TPSEG" on the command line in the main inquiry option.
	All segments have 7 fields referred to as AUTHORITY. These fields identify whether the segment was initiated by an input transaction, a MODALL, or system generated change.
	The definitions of data elements that are common to all segments are listed in Chapter 5.

Main Inquiry Features, Continued

Leave & Earning Statements

Leave & Earnings Statements from August 1997 to present are available on each member in Main Inquiry. Type "LES" on the command line in the main inquiry option to access LESs.

Recents

Recents is a chronological record of PMIS/JUMPS transactions submitted on each member. The program is capable of showing transactions dating back to January 1990 provided the number of entries does not exceed 999 transactions. PMIS/JUMPS transactions are first listed showing one transaction per line followed by an expanded view of each transaction.

Exception File

Transactions that did not process successfully through PMIS/JUMPS edits are held in the exception file and then posted to recents after they are reviewed by HRSIC (mas).

PMIS Database Pages

The personnel side (PMIS) consists of 13 pages of biographical information. The data chronologically documents each member's career and provides a basis for payment of certain entitlements. It also provides information for personnel management and information to other systems such as DEERS and the Personnel Decision System (PDS).

Beginning a Session in the Main Inquiry

Selecting the Main Inquiry Option   From the Main Menu, type "A1" and press the enter key to access the main inquiry program.

Main Inquiry Commands   Main Inquiry commands are used to navigate and access data. Commands are executed by typing the command at the bottom of the screen and pressing the enter key.

Command	Action
SSN	The SSN command followed by the member's SSN (SSN 123456789) enables the user to access a member's JUMPS file in the main inquiry. Page 1 of fixed data is always displayed when a SSN is entered.
SEG ##	The SEG command enables the user to call up various pay segments on a member. A listing of the pay segments can be found in Chapter 5. **Segment Display Options** Several options to assist in researching pay segments are listed in the following table. The defaults are "ALLSEG" and "DATE 999999". <table><tr><td>ALLSEG</td><td>• To view both swapped and unswapped segments.</td></tr><tr><td>CURSEG</td><td>• To view current (unswapped) segments only.</td></tr><tr><td>DATE YYYYMMDD</td><td>• To view segments with start date YYYYMMDD and older.</td></tr><tr><td>WHICH</td><td>• Displays which of the above are in use.</td></tr></table> Note: A swapped segment is a segment that has an ending date prior to a starting date which renders it invalid
PAGE #	PAGE 1, PAGE 2, or PAGE 3 displays the selected fixed data page. Pressing enter will scroll the user through the remaining 2 pages.
REC	Calls the Recents Inquiry. Same as selecting "GI" from the Main Menu.

Continued on next page

Beginning a Session in the Main Inquiry, Continued

Main Inquiry Commands (continued)

Command	Action
EXC	Shows transactions that did not successfully process into PMIS/JUMPS. Same as selecting "KQ" from the Main Menu.
PER	Calls up Personnel Inquiry. Same as selecting "D1" from the Main Menu
LES	Displays the Leave and Earnings Statements for the selected member.
HIST	Calls the History Inquiry
WHICH	Displays which commands you have used (ALSEG/CURSEG/DATE).
TPSEG	Displays a listing of pay segments for the selected member.
END	Terminates the current utility (PER, REC, etc.). It will also return the user to the Main Menu if entered while in fixed data pages or segments.

SSN & Segment Options There are various methods for calling up member files and displaying segments as described in the table below.

Type	Then Press	Response
SSN 123456789	Enter	Page 1 (fixed data) is displayed
	Enter	Page 2 (fixed data) is displayed
	Enter	Page 3 (fixed data) is displayed
SSN 123456789	Enter	Page 1 (fixed data) is displayed
Seg 57	Enter	Segment 57 is displayed
Seg 01 72	Enter	Segment 01 is displayed
	Enter	Segment 72 is displayed
SSN 123456789 57 62	Enter	Page 1 (fixed data) is displayed
	Enter	Segment 57 is displayed
	Enter	Segment 62 is displayed
	Enter	Page 2 (fixed data) is displayed
	Enter	Page 3 (fixed data) is displayed

Beginning a Session in the Main Inquiry, Continued

Main Inquiry Tips

Here are some command line tips to use in the Main Inquiry option:

- Commands can not be entered when the screen reads "******". Press enter to get to the next screen.

- When the screen reads, "Please enter action required", a command must be entered.

- The following commands can be entered anytime: ALLSEG, CURSEG, DATE YYYYMMDD, WHICH, HIST and END.

- The following commands can only be entered after a SSN has been entered: PAGE #, HIST, REC, EXC, PER, LES, and TPSEG.

- If a SSN is not found it means the member never existed or separated from active duty prior to 1979.

Code F

Code F can be used to quickly toggle between separate files in PMIS/JUMPS in SWIII. For example, the command PER(CODE-F)5 in main inquiry will bring up page 5 of personnel.

Section Overview

Introduction   This section describes PMIS/JUMPS processing cycles.

In this section

Automatic Update

Introduction   This section describes the automatic update process.

Process   The month before a member is due a longevity for Basic Pay, Clothing Allowance or Aviation Career Incentive Pay, the system stops the old segment and starts another at the new rate. This process is defined as "Automatic Update".

Example segment   In the example, notice that Start and Stop Codes have been set to indicate a continuing entitlement. These codes allow a retroactive transaction to trace back to the old segment.

New segment:
```
SEG           HIST          COMPUTE       OBJECT                          AMOUNT
01            9999          3             1105                            $948.90
        EFFDTE    TIME    DTPROC    SLC   PAT   DTPREP   DIST  RU    FORM    ENT   ACTION
START   930101    9999    921222    1     LPC   921222   00    00
STOP    999999    9999    999999    0
DUTY STOP DT      DUTY TYPE     MODE CODE1       MODE CODE2      TCSTORDER      DUTY SITE
                                                                ***********
 <---------DAFIS ACCOUNTING STRING---------->   <-------PURPOSE OF DUTY------>
```

Old segment:
```
 SEG          HIST          COMPUTE       OBJECT                          AMOUNT
01            9301          4             1105                            $915.00
        EFFDTE    TIME    DTPROC    SLC   PAT   DTPREP   DIST  RU    FORM    ENT   ACTION
START   920720    9999    920805    1     273   920803   13    01    67      P555
STOP    921231    9999    921222    1     LPC   921222   00    00
DUTY STOP DT      DUTY TYPE     MODE CODE1       MODE CODE2      TCSTORDER      DUTY SITE
                                                                ***********
 <---------DAFIS ACCOUNTING STRING----------> <-------PURPOSE OF DUTY------>
```

Career Sea Pay   Career Sea Pay longevity is handled differently in that it is not posted until the end of the month it is due.

Compute

Introduction   This section defines the term "Compute". Mid-Month and End of Month compute processes are described in the following sections.

Definition   Compute is the set of programs, which, twice a month, read the data on the file, calculate pay, and update selected fields. Once a month, Compute generates a Leave and Earnings Statement (LES) for the member.

Mid-Month Compute

Introduction   This section describes the mid-month compute process.

Process   Mid-Month COMPUTE calculates pay for the first 15 days of the month, updates segment 72, and posts a mid-month LES to the inquiry file. The actual amount paid is posted to segment 72, and the projected amounts are updated, if necessary.

Segment 72 example   This is an example of segment 72 following mid-month compute:

```
 SSN 123456789  K1B8RE1  05/05/2000  14:04:20.68  ... PAY MASTER FILE ...
SEG        HIST        COMPUTE      OBJECT
 72         999999         3
        EFFDTE   TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION
START 20000501 9999 20000420  0   COM 20000420
STOP  20000531 9999 20000420  0   COM 20000420
SCHED-DT      PROJ-AMT     ACT-AMT   CANC    GROSS-ENT-AMT  NON-TAX-DED
20000515     $1416.64     $1416.64   0        $1952.90        $68.66
SCHED-DT      PROJ-AMT     ACT-AMT   CANC    GROSS-ENT-AMT  NON-TAX-DED
20000530     $1425.17       $0.00    0        $1961.44        $68.66
STATUS        TOT-LIAB     TOT-BAL    PREV-MTH-BAL   PREV-MTH-PAY
  GD           $0.00        $0.00        $0.00         $2832.29
PROJ-FED-TAX-WAGES PROJ-FED-TAX PROJ-NRALN-IN-WAGES  PROJ-EARN-INC-PAY
     $2946.30       $151.32        $0.00               $0.00
PROJ-FICA-WAGES PROJ-FICA-TAX PROJ-NRALN-OUT-WAGES PROJ-COMBAT-WAGES
     $2946.30       $225.39        $0.00               $0.00
PROJ-STATE-WAGES   PROJ-STATE-TAX
      $0.00            $0.00
```

End of Month Compute

Introduction   This section describes the end of month compute process.

Process   End of Month (EOM) COMPUTE calculates pay for the entire month, then deducts the mid-month payment and pays the balance, updates the file as needed, and generates the LES. The actual amount is posted to segment 72, and the segment is closed. A new segment 72 is then opened with the projected amounts for the next month.

Segment 72 example   This is an example of segment 72 following end of month compute:

```
SEG        HIST       COMPUTE      OBJECT
 72        999999
       EFFDTE   TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION
START 20000501 9999 20000420  0   COM 20000420
STOP  20000531 9999 20000420  0   COM 20000420
SCHED-DT      PROJ-AMT     ACT-AMT   CANC   GROSS-ENT-AMT  NON-TAX-DED
20000515     $1416.64      $1416.64 0        $1952.90        $68.66
SCHED-DT      PROJ-AMT     ACT-AMT   CANC   GROSS-ENT-AMT  NON-TAX-DED
20000530     $1425.17      $1425.17 0        $1961.44        $68.66
STATUS       TOT-LIAB     TOT-BAL    PREV-MTH-BAL   PREV-MTH-PAY
  GD           $0.00        $0.00       $0.00         $2832.29
PROJ-FED-TAX-WAGES PROJ-FED-TAX PROJ-NRALN-IN-WAGES  PROJ-EARN-INC-PAY
     $2946.30       $151.32        $0.00                $0.00
PROJ-FICA-WAGES PROJ-FICA-TAX PROJ-NRALN-OUT-WAGES PROJ-COMBAT-WAGES
     $2946.30       $225.39         $0.00               $0.00
PROJ-STATE-WAGES   PROJ-STATE-TAX
       $0.00            $0.00
```

Compute flag in new segments   In new open segments, COMPUTE will set the Compute Flag to a "3", indicating that the entitlement/deduction has been made. (One exception to this rule is that segment 52 will show a blank while open.)

```
SEG        HIST       COMPUTE      OBJECT              AMOUNT
 25        999999        3          11551               $8.54
       EFFDTE   TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION
START 20000101 0001 19991216  1   LPC 19991216  00  00
STOP  99999999 9999 99999999  0
```

Compute flag in closed segments   In newly closed segments, COMPUTE will post the compute date to the History Indicator and a "4" to the Compute Flag, indicating the segment is no longer active.

Continued on next page

End of Month Compute, Continued

Fixed data page 2

On fixed data page 2 the Entitlement/Deduction Flag will be set to "0", for the segments that have been closed, if there is not another active segment. The compute date is posted to the LATEST COMPUTE CYCLE DATE, and the Pay Change Flag (P-CH), on fixed data page 1, is reset to "0".

Collection of Indebtedness Due To Overpayment

Introduction   This section describes overpayment debt collection processing.

Process   When computing the member's pay, the system maintains a separate total for retroactive credits and debits. If this figure accrues an overpayment the system will set up a repayment schedule as described in the following table.

If overpayment of	then system will set up repayment
$150.00 to $750.00	at a rate not to exceed $150.00 starting the next month
greater than $750.00	in five equal monthly installments. The first deduction will not begin until at least 30 days after written notice of the debt is mailed to the member's commanding officer.

Example segment 38   This is an example of segment 38 set up by the system that collected an overpayment.

```
SEG        HIST      COMPUTE    OBJECT     AMOUNT      VDC      TYPE-38
 38       199808        4        D0454     $24.40       03        0

```

Miscellaneous Debit

Introduction This section describes the process used by PMIS/JUMPS for collecting a debt caused by closing a segment during the retro processing period.

Process When an entitlement is stopped in the retro period the system uses segment 04 to show the amount to be collected.

Example segment 04 This is an example of segment 04 built by the system to debit a member's account.

- The Start and Stop Date/Time shows the period of overpayment
- The amount is the daily or monthly rate, not the amount of overpayment.
- The Object Code and Source segment fields indicate which entitlement is overpaid.

```
SEG        HIST      COMPUTE       OBJECT      AMOUNT

Non-Compute

Introduction   This section describes the process used when the system cannot compute an account.

Process   Occasionally an account may not meet conditions necessary to compute pay. When this occurs the system will usually pay the member projected pay until the problem is corrected.

Compute will update the actual amount in segment 72 and generate an LES message indicating the member was paid projected pay. Page 1 and other segments will not be updated at this time.

When the account is correct, pay is calculated for each month of non-compute and the resulting overpayment or underpayment is carried forward.

Update

Introduction   This section defines the term "Update".

Definition   Update is a set of programs, which enter data into the automated file from PMIS transactions.

Chapter Overview

Introduction   The objective of this chapter is to give a listing of applicable codes used as they pertain to particular events or transactions.

In this chapter   The following topics will be discussed in this chapter:

Section	Event	See Page
A	Vacant	N/A
B	Mode/Program Codes	2-B-1
C	Retirement Codes	2-C-1
D	Object Codes	2-D-1
E	Pay Status Codes	2-E-1
F	Member Type Codes	2-F-1
G	Vacant	N/A
H	Vacant	N/A

Section Overview

Introduction   This section provides Reserve Inactive Duty Training (IDT) purpose, program and mode codes and Reserve Active Duty duty-type and pay & allowance codes in table format.

In this Section   The following topics are listed in this section:

Topic	See Page
Reserve Inactive Duty Training Purpose Codes (22 July 2002)	2-B-2
Reserve Inactive Duty Training Program Codes (1 October 1985)	2-B-3
Reserve Inactive Duty Training Mode Codes (Prior to October 1985)	2-B-5
Reserve Active Duty – Duty Type and Pay & Allowance Codes	2-B-5

Mode/Program/Duty Codes

Reserve Inactive Duty Training Program Codes (July 2002)

The following codes are used with Reserve Inactive Duty Drill (R985) transactions generated by Direct Access. These codes became effective with Direct Access software release 6 on 24 July 2002 (E-Mail ALPERSRU V/02).

IDT Drill Purpose Codes		
Contingency = Planning/Preparedness		
CODE	LONGNAME	SHORTNAME
BA	Boating Safety Activity	BoatSafety
BC	Boating Safety Contingency	BoatContin
DC	Defense Contingency	Def Contin
DO	Defense Operation	DefenseOps
GL	Great Lakes - Summer Stock	SummerStoc
IO	Ice Operation	Ice Ops
LC	Law Enforcement Contingency	LE Conting
LE	Law Enforcement	LE Ops
MC	Environmental Contingency	MEP Contin
ME	Environmental Protection	MEP Ops
AB	Public & International Affairs	Pub Affair
AC	Contingency Preparedness	ContinPrep
AD	Research & Development	R & D
AE	Engineering & Logistics	Eng & Log
AF	Financial Mgmt Supply & Inv	F&S, Inven
AG	Operational Intelligence	Op Intel
AH	Civil Rights - General	Civ Rights
AI	Security, CMC, Publications	Security
AK	Health Services	Health Svc
AL	Legal - General	Legal Gen
AN	Short Rnge Aids to Navigation	ATON Ops
AP	Personnel Support	Personnel
AQ	Acquisition - General	Acquisitio
AS	Safety & Occupational Health	SafOccHlth
AT	Structured Training - General	Trng Gen
AW	Command, Control & Comms	C3

MC	Environmental Contingency	SP	Space Program Support
NC	Aids to Navigation Contingency	OC	1996 Olympics Support

Reserve Inactive Duty Training Mode Codes

The following Reserve Inactive Duty Training Mode/Program codes were in use until 30 September 1995.

MODE CODES (PRIOR TO 1 OCTOBER 1995)	
Code	Meaning
AA	Aviation
EE	Readiness Exercises
LL	Marine Law Enforcement
MM	Marine Safety
NN	Aids to Navigation (ATON)
PP	Port Security (PS)
RR	Recruiting
SS	Search and Rescue (SAR)
TT	Structured Training
UU	Unit Administration
ZZ	MDZ/Readiness Planning
OO	Other Augmentation

Mode/Program/Duty Codes, Continued

Reserve Duty Type and Meal Codes The following duty and meal type codes were implemented on 1 October 1995 and are used on R985 transactions.

Duty Type & Meal Codes (Effective 1 October 1995) used with R985						
Duty Type Codes				**Meal Codes**		
A	RMP/Appropriate Duty	M	Multiple Drill	A	Breakfast Only	
D	Multiple Drill W/O Pay	N	Appropriate Duty W/O Pay	B	Lunch Only	
E	Single Drill W/O Pay	P	Unexcused Absence for Regular Drills	C	Supper Only	
F	Single Drill with pay and Single Drill W/O Pay	Q	Unexcused Absence for Multiple Drill	D	Breakfast & Lunch	
G	Funeral Duty Only	S	Regular Single Drill	E	Lunch & Supper	
H	Funeral Duty and Regular Drill	T	Excused Absence - Training	F	Breakfast, Lunch & Supper	
J	Funeral Duty and Regular Drill Without Pay	X	Excused Absence - Other	N	Not Entitled to Meals (SEPRATS)	

Reserve Active Duty Type and Pay & Allowance Codes The following codes are used on R990 transactions (short-term reserve active duty) to designate the type of duty and indicate pay and allowance entitlments.

Duty Type/Pay & Allowances Codes used with R990			
Code	**Meaning**	**Code**	**Meaning**
1P	ADT-AT with pay only	4Y	ADSW-AC with pay and allowances
2P	IADT with pay only	6Y	ADT-OTD with pay and allowances
3P	ADSW-RC with pay only	1N	ADT-AT without pay and allowances

Section Overview

Introduction This section provides Retirement Codes Used in PMIS/JUMPS in table format

In this Section The following topics are listed in this section:

Personnel Retired as Commissioned Officers

	PERSONNEL RETIRED AS COMMISSIONED OFFICERS
Item	**Meaning**
A	At own request upon completion of 20 or more years active service, 10 years of which commissioned (14 USC 291)(14 USC 755 (e); 10 USC 6323 for reserve officers).
B	At own request upon completion of 30 or more years active service (14 USC 292) (14 USC 755 (e); 10 USC 6323 for reserve officers).
C	By reason of having reached statutory age (14 USC 293) (10 USC 1331-1337).
D	By reason of Reserve Transition Benefits
E	At own request upon completion of at least 15 years of active service, 10 years of which commissioned (TERA) (10 USC 1293).
G	By reason of temporary physical disability (10 USC 61)
H	By reason of permanent physical disability (10 USC 61).
M	Non-selection for promotion (14 USC 282).
N	Non-selection for promotion (14 USC 283).
O	Non-selection for promotion (14 USC 285).
R	Commandant or Vice Commandant (14 USC 46 or 47).
S	Vice Admiral (14 USC 51).
T	By reason of completion of 36 years active commissioned service in grade of RADM (14 USC 290).
U	By reason of completion of 30 years active commissioned service (14 USC 288) [Regular Captains].
V	Rear Admiral continuation board (14 USC 290 [a]).
W	Captain continuation board.
X	By reason of separation for cause (14 USC 327 [b]).

Personnel Retired as Commissioned Warrant or Warrant Officer

Item	Meaning
PERSONNEL RETIRED AS COMMISSIONED WARRANT OR COMMISSIONED OFFICER	
I	At own request upon completion of at least 15 years of active service (TERA) (10 USC 1239).
J	At own request upon completion of 20 or more years active service (10 USC 1293) (14 USC 355 [e]; 10 USC 6323 for reserve officers).
K	At own request upon completion of 30 or more years active service or upon completion of 30 years' active service (10 USC 1305) (14 USC 755 [e]; 10 USC 6323 for reserve officers).
L	By reason of having reached statutory age (10 USC 1263) (10 USC 1331-1337).
P	By reason of temporary disability (10 USC 61).
Q	By reason of permanent physical disability (10 USC 61).
Y	Non-selection for promotion (10 USC 564).
Z	By reason of Reserve Transition Benefits (10 USC 1331A)

Personnel Retired as Enlisted Personnel

PERSONNEL RETIRED AS ENLISTED PERSONNEL	
Item	**Meaning**
1	At own request upon completion of at least 20 years of active service (14 USC 355).
2	At own request upon completion of at least 30 years of active service (14 USC 354).
3	By reason of having reached statutory age (14 USC 353) (10 USC 1331-1337).
4	Pursuant to recommendation of Coast Guard Personnel Board after having completed 20 years service (14 USC 357).
7	By reason of temporary physical disability (10 USC 61).
8	By reason of permanent physical disability (10 USC 61).
9	By reason of Reserve transition Benefits (10 USC 1331a)
0	At own request upon completion of at least 15 years of active service (TERA) (10 USC 1239).

Section Overview

Introduction   This section provides a listing of Object Codes used in JUMPS.

In this Section   The following items are covered in this section:

Object Codes

Combat SGLI (006)   The following object codes are used to denote the government's share of costs for the Combat SGLI insurance program.

Program	Officer	Enlisted	LES Remark
Combat SGLI	0060	0065	Combat SGLI

Other (010)   The following object codes are used for payments of items not provided for in other categories.

Purpose	Officer	Enlisted	LES Remark
Cash Credit/Debit	0100	0105	ADMIN ADJ
Cancelled Payment	01001	01051	CANC PAYMENT
Cash Deposit	01002	01052	CASH DEPOSIT
Overpayments	01003	01053	OVERPAYMENT
Federal Tax Adjustment - Combat	01004	01054	FED TAX ADJUST
State Tax Adjustment - Combat	01005	01055	ST TAX ADJUST
Federal Tax Adjustment - Routine	01006	01056	FED TAX ADJUST
State Tax Adjustment - Routine	01007	01057	ST TAX ADJUST
Advanced Earned Income Credit	01008	01058	ADVANCE EIC
Savings Deposit Program	01009	01059	SAVINGS DEPOSIT
Savings Deposit - Interest	0100A	0105A	INTEREST - SAV DEP

Basic Pay (110)   The following object codes are used for payment of active duty basic pay and reserve active and inactive duty (drill) pay.

Entitlement	Officer	Enlisted	LES Remark
Base Pay	1100	1105	BASIC PAY
25% Increase		11051	BASIC 25%
ADT Duty Pay	1101	1106	BASIC PAY
ADSW-AC Pay	1102	1107	ADSW-AC Pay
ADSW-RC ADT Duty Pay	1102	1107	ADSW-RC PAY
Invol AD, Title 10 Pay	1102	1107	INVOL AD, TITLE 10 PAY
Invol AD, Title 14 Pay	1102	1107	INVOL AD, TITLE 14 PAY
ADHC Pay	1102	1107	ADHC PAY
Appropriate Duty Pay	1103	1108	BASIC PAY
IDT Drill Pay	1104	1109	DRILL PAY
Funeral Duty Pay	1110	1111	FUNERAL DUTY

Object Codes, Continued

Incentive Pay (112)   The following object codes are used for payment of incentive pays.

Incentive	Officer	Enlisted	LES Remark
ACIP - DIFOPS	11201	-----	ACIP DIFOPS
ACIP – DIFPRO	11202	-----	ACIP DIFPRO
ACIP – DIFDEN	11203	-----	ACIP DIFDEN
Flying Duty - Crew	11204	11254	FLT PAY CREW
Flying Duty - Non Crew	11205	11255	FLT PAY NONCREW
High Pressured Chamber HDIP	1120A	1125A	HI PRES CH HDIP
Flying Duty – Crew Overpayment	1120D	1125D	FLT PAY CREW
Flying Duty – Non Crew Overpayment	1120E	1125E	FLT PAY NONCREW
Aviation Career Continuation Pay	1120F		ACCP BONUS
Aviation Career Continuation Pay (Non-Taxable)	1120G		ACCP BONUS
Flight Deck Hazardous Duty Pay	11209	11259	FLT DCK HAZ PAY
Visit, Board, Search & Seize HDIP	1120H	1125H	VBSS HAZ PAY

Special Pay (113)   The following object codes are used for payment of special pays.

Entitlements	Officer	Enlisted	LES Remark
Physician's Assistant Pay	11301	-----	PYA PAY
Continuation Pay Dental	11302	-----	DENTAL CONT PAY
Medical Duty	11303	-----	MEDICAL DUTY PAY
Dental Duty	11304	-----	DENTAL DUTY PAY
Diving Duty	11305	11355	DIVING PAY
Hostile Fire (Imminent Danger Pay)	11306	11356	IMMINENT DANGER PAY
Hardship Duty Pay Location Phase 2	1130B	1135B	HDP-LOC PHASE 2
Career Sea Pay	11308	11358	CAREER SEA PAY
Responsibility Pay	11309	-----	RESPONSIBILITY PAY
Career Sea Pay Premium	1130P	1135P	CAREER SEA PREMIUM
Family Subsistence Supplemental Allowance		1155C	FSSA
Reserve High Priority Unit Assignment Pay--IDT		1135D	Reserve Special Pay
Reserve High Priority Unit Assignment Pay Special Pay--RMP		1135E	Reserve Special Pay

Editor's Note: Master Diver Pay (Officer)- 1130A?

Object Codes, Continued

BAH/CONUS
COLA (114)

The following object codes are used with Basic Allowance for Housing (BAH) and CONUS Cost of Living Allowance. Codes with "VHA" or "BAQ" in the title are obsolete as of 1 January 1998, when BAH replaced BAQ and VHA.

Allowance	Officer	Enlisted	LES Remark
CONUS COLA WITH (was "*Special BAH grandfather*" prior to 1/1/98)	1140C	1145C	CONUS COLA WITH
CONUS COLA W/O	1140D	1145D	CONUS COLA W/O
BAH without dependents	1140H	1145H	BAH WITHOUT DEP
BAH with dependents	1140G	1145G	BAH WITH DEP
BAH II with dependents	11401*	11451*	BAH II WITH
BAH Child	**1140J**	**1145J**	**BAH CHILD**
BAH II Child*	**1140K**	**1145J**	**BAH II CHILD**
BAH II without dependents **&** BAH II Spouse-in-Service	11402*	11452*	BAQ WITHOUT
BAH Transit Rate with dependents	1140S*	1145S*	BAH TR WITH
BAH Transit Rate Child	1140T*	1145T*	BAH TR CHILD
BAH Transit Rate without dependents	1140U*	1145U*	BAH TR W/O
BAH Transit Rate Spouse-in-Service	1140V*	1145V*	BAH TR SP SRVC
BAH Partial	11403	11453	BAH PARTIAL
BAH PCS	11404	11454	BAH PCS (BAQ PCS in program, needs to be updated)
VHA with dependents	11405	11455	VHA WITH
VHA without dependents	11406	11456	VHA WITHOUT
VHA PCS	11407	11457	VHA PCS
BAH DIFF	11408	11458	BAH-DIFF

*BAH II replaced with BAH Transit Rate effective 30 April 2007.

Selected Reserve Dental	D1604	D1654	SELRES DENTAL

Section Overview

Introduction   This section provides Pay Status Codes in table format.

In this Section   The following topics are listed in this section:

Topic	See Page
Pay Status Codes	2-E-2

Pay Status Codes

Table   This table lists pay status codes and their meaning.

Code	Meaning	Code	Meaning
CC	Civilian confinement	IL	Absence due to illness
CE	Civilian confinement excused	MC	Military confinement for civilian authorities
CM	Military confinement (member entitled to pay and allowances	ME	Military confinement for civilian authorities in a foreign country
CR	Military confinement (reserve member not paid by JUMPS)	MF	Military confinement for civilian authorities in a foreign country
CS	Military confinement (member not entitled to pay and allowances)	MI	Mentally incompetent
DD	Death	MS	Missing (regular and reserve paid by JUMPS)
DS	Deserter	R1	Reserve Select and Reserve Individual Ready on active duty less than 30 days or is drilling reserve – not entitled leave
EC	Enlistment cancelled	RI	Reserve Standby and Reserve Awaiting Age 60 Retirement (not paid by JUMPS)
EX	Excess leave	RL	Reserve Select and reserve individual ready on active duty greater than 30 days but less than 139 days – also entitled leave
G1	Regular or reserve on active duty over 139 days (paid by JUMPS)	RS	Missing (reserve not paid by JUMPS)
GC	Academy Cadets	SP	Discharge/Retired from the regular component or Discharge/Age 60 retirement from the reserve component
GD	Regular or reserve on active duty over 139 days (paid by JUMPS)	UA	Unauthorized absence
HD	Home awaiting disciplinary action. Leave has expired.	UE	Unauthorized absence excused. Civilian confinement.

Section Overview

Introduction   This section provides Member Type 1 and 3 Codes in table format.

In this Section   The following topics are listed in this section:

Member Type 1 Codes

Table   This table lists Member Type 1 Codes and their meaning.

Code	Meaning
A	Regular Commissioned Officer
B	Reserve Commissioned Officer on Extended Active Duty
C	Reserve Commissioned Officer on Special Active Duty for Training (Short Term)
D	Reserve Commissioned Officer on Active Duty for Training
E	Regular CWO
F	Reserve CWO on Extended Active Duty
G	Reserve CWO on Special Active Duty for Training (Short Term)
H	Reserve CWO on Active Duty for Training
J	Regular Enlisted
K	Reserve Enlisted on Extended Active Duty
P	Aviation Cadet Reserve
Q	Officer Candidate Regular
R	Officer Candidate Reserve
S	Coast Guard Academy Cadet
T	USPHS Officer
U	Select (Drilling) Reserve Enlisted
Z	Reserve Enlisted
Blank	Reserve Officer

Member Type 3 Codes

| Table | This table lists Member Type 3 Codes and their meanings. Member's code doesn't change for duty types of Involuntary Active Duty, Title 10, Involuntary Active Duty, Title 14, and Active Duty for Health Care (ADHC). |

Type	Description
AEO	Officer Candidate Regular
AEZ	Regular Active Duty Enlisted
AOZ	Regular Active Duty Commissioned Officer
AWZ	Regular Active Duty Warrant Officer
Blank	Aviation Cadet Reserve
FEB	Reserve Enlisted on Extended Active Duty
FEC	Coast Guard Recruiting Initiative for the Twenty First Century (CGRIT) Candidate
FEC	Coast Guard Recruiting Initiative for the 21st Century (CGRIT) Candidate
FED	Reserve Enlisted on Active Duty for Special Work - Reserve Component (GE140dys)
FEE	Reserve Enlisted on Active Duty for Training - Other Training Duty (GE140dys)
FEG	Reserve Enlisted on Active Duty for Special Work - Active Component (GE140dys)
FEH	Reserve Enlisted on Initial Active Duty for Training
FEO	Officer Candidate Reserve
FOB	Reserve Commissioned Officer on Extended Active Duty
FOD	Reserve Commissioned Officer on Active Duty for Special Work - Reserve Component (GE140dys)
FOE	Reserve Commissioned Officer on Active Duty for Training - Other Training Duty (GE140).
FOG	Reserve Commissioned Officer on Active Duty for Special Work - Active Component (GE140dys)
FWB	Reserve Warrant Officer on Extended Active Duty
FWD	Reserve Warrant Officer on Active Duty for Special Work - Reserve Component (GE140dys)
FWE	Reserve Warrant Officer on Active Duty for Training - Other Training Duty (GE140dys)
FWG	Reserve Warrant Officer on Active Duty for Special Work - Active Component (GE140dys)
HEZ	Select (drilling) Reserve Enlisted
HOZ	Select (drilling) Reserve Commissioned Officer
HWZ	Select (drilling) Reserve Warrant Officer
IEZ	Reserve Enlisted Individual Ready Reserve
IOZ	Reserve Commissioned Officer Individual Ready Reserve

Member Type 3 Codes, Continued

Table (cont'd)

Type	Description
IWZ	Reserve Warrant Officer Individual Ready Reserve
JEL	Reserve Enlisted Standby Active
JEM	Reserve Enlisted Standby Inactive
JOL	Reserve Commissioned Officer Standby Active
JOM	Reserve Commissioned Officer Standby Inactive
JWL	Reserve Warrant Officer Standby Active
JWM	Reserve Warrant Officer Standby Inactive
LEJ	Reserve Enlisted Retired with Pay
LEK	Reserve Enlisted Retired Awaiting Pay at 60
LER	Retired Reserve Enlisted Recalled to Active Duty
LEZ	Reserve Enlisted Retired Without Pay
LOJ	Reserve Commissioned Officer Retired with Pay
LOK	Reserve Commissioned Officer Retired Awaiting Pay at 60
LOR	Retired Reserve Commissioned Officer Recalled to Active Duty

RER	Retired Active Duty Enlisted Recalled to Active Duty
ROJ	Regular Commissioned Officer Retired With Pay
ROR	Retired Active Duty Commissioned Officer Recalled to Active Duty
RWJ	Regular Warrant Officer Retired With Pay
RWR	Retired Active Duty Warrant Officer Recalled to Active Duty
TOJ	NOAA Commissioned Officer Retired With Pay
TOR	NOAA Commissioned Officer Recalled to Active Duty
TOZ	NOAA Commissioned Officer
VOZ	USPHS

Chapter Overview

Introduction   The purpose of this chapter is to provide information to assist in the analysis and evaluation of personnel related information found in the PMIS database.

In this chapter

Topic	Section
PMIS/JUMPS Inquiry Screens	3-A
Glossary	3-B
Sort Tables	3-C
Numeric Grade Codes	3-D

This page left blank intentionally

Section Overview

Introduction   PMIS data is displayed on 12 inquiry screens. Each screen is functionally organized. At the top of each screen appears:

- Social Security number.
- Last name.
- Numeric Grade Code.
- One and Three-character member-type codes.
- Date on which the record was created or last changed, in YYMMDD format.
- Date file updated by statement of creditable service team or updated by a D 104 using element code 30.
- Page number.

Pages 13 and 14 are no longer used. They are described here for historical purposes.

Section Overview

Introduction   The glossary lists data elements alphabetically by COBOL name. The top line of each definition consists of the COBOL name, sequence number and long title assigned to that data element. Immediately below is a complete description of that particular element including any codes used and their meanings.

In this section

Glossary Listing

General   This glossary is listed alphabetically by COBAL name and provides the sequence number, PMIS Database Screen, and a complete description of each data element.

ACCT-CD   **Pending Transfer Detailer Accounting Code**
Sequence #0142   PMIS Database Screen 05

Group identification for accounting code assigned by detailer to a member's pending transfer. Includes sequence numbers 0143 through 0150.

AD-BASE-DT   **Active Duty Base Date**
Sequence #0029   PMIS Database Screen 05

The constructive date of cumulative active service (will be the date of commission/enlistment for members with no prior military service, breaks in service, or deductible time). Used for calculating the number of years and months of service to determine a member's retired pay multiplier. Adjustments must be made in accordance with HRSICINST M1000.2A, Personnel and Pay Procedures Manual (3PM). NOTE: THE ACTIVE DUTY BASE DATE CANNOT BE PRIOR TO THE PAY BASE DATE.

ADC-AREA1   **Next Duty Preference District/Area Choice 1**
Sequence #0205   PMIS Database Screen 13

A two-character alpha/numeric code to indicate the member's preference for next area/unit assignment.

CODE	MEANING
AA	Atlantic Area
EC	East Coast
GC	Gulf Coast
AE	Activities Europe
PA	Pacific Area
WC	West Coast
GI	Governors Island
01 through 17	Specific district desired
20 through 99	Specific Headquarters unit desired
SP	Special duty assignment as listed in Chapter 4, CG Personnel Manual (e.g., recruiting, instructor, intelligence, etc.)
TA	Class A training request

Continued on next page

Glossary Listing, Continued

ADC-AREA2   **NEXT DUTY PREFERENCE DISTRICT/AREA CHOICE 2**
Sequence #0208 PMIS Database Screen 13

A two-character alpha/numeric code to indicate the member's second preference for next area/unit assignment. These codes are the same as those listed under ADC-AREA1.

DC-AREA3   **NEXT DUTY PREFERENCE DISTRICT/AREA CHOICE 3**
Sequence #0211   PMIS Database Screen 13

A two-character alpha/numeric code to indicate the member's third preference for next area/unit assignment. These codes are the same as those listed under ADC-AREA1.

ADC-AREA4   **NEXT DUTY PREFERENCE DISTRICT/AREA CHOICE 4**
Sequence #0214   PMIS Database Screen 13

A two-character alpha/numeric code to indicate the member's fourth preference for next area/unit assignment. These codes are the same as those listed under ADC-AREA1.

ADC-AREA5   **NEXT DUTY PREFERENCE DISTRICT/AREA CHOICE 5**
Sequence #0217   PMIS Database Screen 13

A two-character alpha/numeric code to indicate the member's fifth preference for next area/unit assignment. These codes are the same as those listed under ADC-AREA1.

ADC-AREA6   **NEXT DUTY PREFERENCE DISTRICT/AREA CHOICE 6**
Sequence #0220   PMIS Database Screen 13

A two-character alpha/numeric code to indicate the member's sixth preference for next area/unit assignment. These codes are those listed under ADC-AREA1.

Glossary Listing, Continued

ADC-AREA7   **NEXT DUTY PREFERENCE DISTRICT/AREA CHOICE 7**
Sequence #0223   PMIS Database Screen 13

A two-character alpha/numeric code to indicate the member's seventh preference for next area/unit assignment. These codes are the same as those listed under ADC-AREA1.

ADC-AREA8   **NEXT DUTY PREFERENCE DISTRICT/AREA CHOICE 8**
Sequence #0226   PMIS Database Screen 13

A two-character alpha/numeric code to indicate the member's eighth preference for next area/unit assignment. These codes are the same as those listed under ADC-AREA1.

ADC-ASSIGN-CD-1   **ASSIGNMENT CONSIDERATIONS**
Sequence #2364   PMIS Database Screen 13

A one-character alpha/numeric code to indicate the member's considerations regarding future Coast Guard assignment desires.

CODE MEANING
X   Marked as indicated
Blank Not applicable

ADC-ASSIGN-CD-2   **ASSIGNMENT CONSIDERATIONS**
Sequence #2365   PMIS Database Screen 13

A one-character alpha/numeric code to indicate the member's considerations regarding future Coast Guard assignment desires.

CODE MEANING
X   Marked as indicated
Blank Not applicable

Glossary Listing, Continued

ASSIGN-CD-3

ASSIGNMENT CONSIDERATIONS
Sequence #2366   PMIS Database Screen 13

A one-character alpha/numeric code to indicate the member's considerations regarding future Coast Guard assignment desires.

CODE   MEANING
X   Marked as indicated
Blank   Not applicable

ADC-ASSIGN-CD-4

ASSIGNMENT CONSIDERATIONS
Sequence #2367   PMIS Database Screen 13

A one-character alpha/numeric code to indicate the member's considerations regarding future Coast Guard assignment desires.

CODE   MEANING
X   Marked as indicated
Blank   Not applicable

ADC-CAREER-PLANS-CD

ASSIGNMENT DATA INTENTIONS
Sequence #0470   PMIS Database Screen 13

The member's intentions regarding future Coast Guard career plans and the expected date when such anticipated action is to occur. The codes/meanings for the first digit are shown below. The next 4 digits are the date in YYMM format. The sixth digit is not currently utilized.

CODE   MEANING

I   Integrate
D   Discharge/Resign
R   Retire
U   Undecided
X   Extend/Reenlist

Glossary Listing, Continued

ADC-CO-COMMENTS	**COMMANDING OFFICER'S COMMENTS** *Sequence #2372 PMIS Database Screen 13*

A one-character alpha code to indicate whether the commanding officer has entered any comments about the enlisted member.

CODE   MEANING

Y   Yes
N   No

ADC-CO-END	**ASSIGNMENT DATE CO ENDORSEMENT** *Sequence #0199 PMIS Database Screen 13*

A one-character alpha code to indicate the action taken on an Assignment Data (CG-3698A) by the member's commanding officer.

Code	Meaning
A	Approved
C	Conditionally Approved
D	Disapproved

ADC-CO-SPEC-DTY-END	**SPECIAL OR INDEPENDENT DUTY** *Sequence #2371 PMIS Database Screen 13*

A one-character alpha code to indicate approval or disapproval if member requested special or independent duty.

CODE   MEANING

R   Recommended
N   Not recommended
Blank   Not applicable

ADC-DESIRE-TX-MO	**TRANSFER FROM CURRENT ASSIGNMENT DATE MONTH** *Sequence #2373 PMIS Database Screen 13*

A two-character numeric code to indicate the member's desired transfer date.

Glossary Listing, Continued

ADC-DESIRE-TX-YR	**TRANSFER FROM CURRENT ASSIGNMENT DATE YEAR** *Sequence #2374 PMIS Database Screen 13* A two-character numeric code to indicate the member's desired transfer date.

ADC-EFF-DT	**ADC EFFECTIVE DATE** *Sequence #0198 PMIS Database Screen 13* The date a member last submitted an Assignment Data (CG-3698A).

ADC-HM-PHONE	**TELEPHONE NUMBER HOME** *Sequence #2369 PMIS Database Screen 13* A 15 character numeric code to indicate the member's telephone number. Internal numbers are not included.

ADC-LAST-SWE-MO	**LAST SERVICEWIDE EXAMINATION DATE MONTH** *Sequence #2362 PMIS Database Screen 13* A two-character numeric code to indicate the member's date of completion of last servicewide examination.

ADC-LAST-SWE-YR	**LAST SERVICEWIDE EXAMINATION DATE YEAR** *Sequence #2363 PMIS Database Screen 13* A two-character numeric code to indicate the member's date of completion of last servicewide examination.

Glossary Listing, Continued

ADC-LEAST-
AREA1

NEXT DUTY PREFERENCE LEAST DESIRED AREA NO. 1
Sequence #0203   PMIS Database Screen 13

A two-character alpha/numeric code to indicate the member's least desired area of assignment preference.

CODE   MEANING

AA   Atlantic Area
EC   East Coast
GC   Gulf Coast
AE   Activities Europe
PA   Pacific Area
WC   West Coast
GI   Governors Island
01 through 17 Specific district least desired
20 through 29 Specific Headquarters unit least desired
SP   Special duty assignment such as recruiting, intelligence, instructor, etc. least desired

ADC-LEAST-
AREA2

NEXT DUTY PREFERENCE LEAST DESIRED AREA NO. 2
Sequence #1155   PMIS Database Screen 13

A two-character alpha/numeric code to indicate the member's second least desired area of assignment preference. These codes are the same as those listed in **ADC-LEAST-AREA1**.

ADC-LEAST-
OPFAC2

NEXT DUTY PREFERENCE LEAST DESIRED OPFAC NO. 2
Sequence #2359   PMIS Database Screen 13

A five-character numeric code to indicate the member's least desired OPFAC preference for next assignment. OPFACs may be found in the Enlisted Billet Manual, COMDTINST M5320.6 (series) and the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series). In addition, there are general OPFACs, which identify types of units.

Glossary Listing, Continued

ADC-MBR-COMMENTS	**MEMBER'S COMMENTS** *Sequence #2370 PMIS Database Screen 13*

A one-character alpha code to indicate if member has comments.

CODE MEANING
N   Member does not have comments
Y   Member has comments

ADC-MODOP1   **NEXT DUTY PREFERENCE OFFICE/DIVISION CHOICE 1**
Sequence #2350   PMIS Database Screen 13

A three-character alpha/numeric code to indicate the member's preference for next assignment. MODOPs may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series)

ADC-MODOP2   **NEXT DUTY PREFERENCE OFFICE/DIVISION CHOICE 2**
Sequence #2351   PMIS Database Screen 13

A three-character alpha/numeric code to indicate the member's preference for next assignment. MODOPs may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

ADC-MODOP3   **NEXT DUTY PREFERENCE OFFICE/DIVISION CHOICE 3**
Sequence #2352   PMIS Database Screen 13

A three-character alpha/numeric code to indicate the member's preference for next assignment. MODOPs may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

Glossary Listing, Continued

ADC-MODOP4   **NEXT DUTY PREFERENCE OFFICE/DIVISION CHOICE 4**
Sequence #2353   PMIS Database Screen 13

A three-character alpha/numeric code to indicate the member's preference for next assignment. MODOPs may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

ADC-MODOP5   **NEXT DUTY PREFERENCE OFFICE/DIVISION CHOICE 5**
Sequence #2354   PMIS Database Screen 13

A three-character alpha/numeric code to indicate the member's preference for next assignment. MODOPs may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

ADC-MODOP6   **NEXT DUTY PREFERENCE OFFICE/DIVISION CHOICE 6**
Sequence #2355   PMIS Database Screen 13

A three-character alpha/numeric code to indicate the member's preference for next assignment. MODOPs may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

ADC-MODOP7   **NEXT DUTY PREFERENCE OFFICE/DIVISION CHOICE 7**
Sequence #2356   PMIS Database Screen 13

A three-character alpha/numeric code to indicate the member's preference for next assignment. MODOPs may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

Glossary Listing, Continued

ADC-MODOP8   **NEXT DUTY PREFERENCE OFFICE/DIVISION CHOICE 8**
Sequence #2357   PMIS Database Screen 13

A three-character alpha/numeric code to indicate the member's preference for next assignment. MODOPs may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M4320.7 (series).

ADC-OBC1   **NEXT DUTY PREFERENCE TYPE DUTY CHOICE 1**
Sequence #1663   PMIS Database Screen 13

A six-character alpha/numeric code to indicate the member's choice for type of duty at his/her first preference for next duty station assignment. These codes, also known as Officer Billet Codes (OBC), may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

ADC-OBC2   **NEXT DUTY PREFERENCE TYPE DUTY CHOICE 2**
Sequence #1664   PMIS Database Screen 13

A six-character alpha/numeric code to indicate the member's choice for type of duty at his/her second preference for next duty station . These codes, also known as Officer Billet Codes (OBC), may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

ADC-OBC3   **EXT DUTY PREFERENCE TYPE DUTY CHOICE 3**
Sequence #1659   PMIS Database Screen 13

A six-character alpha/numeric code to indicate the member's choice for type of duty at his/her third preference for next duty station assignment. These codes, also known as Officer Billet Codes (OBC), may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

Continued on next page

Glossary Listing, Continued

ADC-OBC4   **NEXT DUTY PREFERENCE TYPE DUTY CHOICE 4**
Sequence #1660   PMIS Database Screen 13

A six-character alpha/numeric code to indicate the member's choice for type of duty at his/her fourth preference for next duty station. These codes, also known as Officer Billet Codes (OBC), may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

ADC-OBC5   **NEXT DUTY PREFERENCE TYPE DUTY CHOICE 5**
Sequence #1662   PMIS Database Screen 13

A six-character alpha/numeric code to indicate the member's choice for type of duty at his/her fifth preference for next duty station assignment. These codes, also known as Officer Billet Codes (OBC), may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

ADC-OBC6   **NEXT DUTY PREFERENCE TYPE DUTY CHOICE 6**
Sequence #1661   PMIS Database Screen 13

A six-character alpha/numeric code to indicate the member's choice for type of duty at his/her sixth preference for next duty station assignment. These codes, also known as Officer Billet Codes (OBC), may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

ADC-OBC7   **NEXT DUTY PREFERENCE TYPE DUTY CHOICE 7**
Sequence #1653   PMIS Database Screen 13

A six-character alpha/numeric code to indicate the member's choice for type of duty at his/her seventh preference for next duty station. These codes, also known as Officer Billet Codes (OBC), may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

Glossary Listing, Continued

ADC-OBC8	**NEXT DUTY PREFERENCE TYPE DUTY CHOICE 8** *Sequence #1654 PMIS Database Screen 13*

A six-character alpha/numeric code to indicate the member's choice for type of duty at his/her eighth preference for next duty station assignment. These codes, also known as Officer Billet Codes (OBC), may be found in the [Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).](#)

ADC-OPFAC1	**NEXT DUTY PREFERENCE UNIT OPFAC CHOICE 1** *Sequence #0206 PMIS Database Screen 13*

A five-character numeric code to indicate the member's preference for next unit assignment. OPFAC codes may be found in Operating Facilities of the, COMDTINST M5440.2 (series).

ADC-OPFAC2	**NEXT DUTY PREFERENCE UNIT OPFAC CHOICE 2** *Sequence #0209 PMIS Database Screen 13*

A five-character numeric code to indicate the member's second preference for next unit assignment. OPFAC codes may be found in Operating Facilities of the, COMDTINST M5440.2 (series).

ADC-OPFAC3	**NEXT DUTY PREFERENCE UNIT OPFAC CHOICE 3** *Sequence #0212 PMIS Database Screen 13*

A five-character numeric code to indicate the member's third preference for next unit assignment. OPFAC codes may be found in Operating Facilities of the, COMDTINST M5440.2 (series).

Glossary Listing, Continued

ADC-OPFAC4   **NEXT DUTY PREFERENCE UNIT OPFAC CHOICE 4**
Sequence #0215   PMIS Database Screen 13

A five-character numeric code to indicate the member's fourth preference for next unit assignment. OPFAC codes may be found in Operating Facilities of the, COMDTINST M5440.2 (series).

ADC-OPFAC5   **NEXT DUTY PREFERENCE UNIT OPFAC CHOICE 5**
Sequence #0218   PMIS Database Screen 13

A five-character numeric code to indicate the member's fifth preference for next unit assignment. OPFAC codes may be found in Operating Facilities of the, COMDTINST M5440.2 (series).

ADC-OPFAC6   **NEXT DUTY PREFERENCE UNIT OPFAC CHOICE 6**
Sequence #0221   PMIS Database Screen 13

A five-character numeric code to indicate the member's sixth preference for next unit assignment. OPFAC codes may be found in Operating Facilities of the, COMDTINST M5440.2 (series).

ADC-OPFAC7   **NEXT DUTY PREFERENCE UNIT OPFAC CHOICE 7**
Sequence #0224   PMIS Database Screen 13

A five-character numeric code to indicate the member's seventh preference for next unit assignment. OPFAC codes may be found in Operating Facilities of the, COMDTINST M5440.2 (series).

Glossary Listing, Continued

ADC-OPFAC8	**NEXT DUTY PREFERENCE UNIT OPFAC CHOICE 8** *Sequence #0227 PMIS Database Screen 13*

A five-character numeric code to indicate the member's eighth preference for next unit assignment. OPFAC codes may be found in Operating Facilities of the, COMDTINST M5440.2 (series).

ADC-TOUR-COMP-M0	**TOUR COMPLETION DATE MONTH** *Sequence #2360 PMIS Database Screen 13*

A two-character numeric code to indicate the member's month of completion of current assignment.

ADC-TOUR-COMP-YR	**TOUR COMPLETION DATE YEAR** *Sequence #2361 PMIS Database Screen 13*

A two-character numeric code to indicate the member's year of completion of current assignment.

ADC-WK-PHONE	**TELEPHONE NUMBER WORK** *Sequence #2368 PMIS Database Screen 13*

A 15-character numeric code to indicate the member's telephone number. Internal numbers are not included.

AF-QUAL-TEST-NM	**ENLISTED INITIAL QUALIFICATION TEST NAME** *Sequence #0184 PMIS Database Screen 11*

The AFQT test (Armed Forces Qualification Test) given to applicants for enlistment in the Coast Guard. Score on this test may be found in sequence number 0185 -- AF-QUAL-TEST-SCORE.

Glossary Listing, Continued

AF-QUAL-TEST-SCORE

ENLISTED INITIAL QUALIFICATION TEST SCORE
Sequence #0185   PMIS Database Screen 11

Score of test taken at time of enlistment and shown in sequence number 0184 -- AF-QUAL-TEST-NM.

ASG-DATA-ADD-COMMENTS-FLG

ASSIGNMENT DATA ADDITIONAL COMMENTS FLAG
Sequence #1068   PMIS Database Screen 13

A one-character alpha code to indicate whether or not the member has any comments in the Member's Comments block of the CG-3698A.

CODE	MEANING
Y	Yes
N	No

ASG-REASON

ASSIGNMENT REASON
Sequence #1491   PMIS Database Screen 06

A two-character alpha/numeric code to indicate Detailer Remarks from the Rough Order Form (CGHQ-4961) and updated by Reporting Endorsement processing. First digit indicates type of duty transferred from; Second digit indicates type of duty transferred to.

- See "D" Action 100, element code 79

Continued on next page

Glossary Listing, Continued

ASGT-OFF-CD   **ASSIGNMENT OFFICER CODE**
Sequence #0838   PMIS Database Screen 06

A two character alpha/numeric code to identify the member's assignment detailer.

CODE   MEANING
20   Chief, Officer Assignments Branch
21   Afloat Deck Assignments
22   Operations Ashore Assignments
23   Aviation Assignments
24   Engineering and CWO (COMMS) Assignments
25   Marine Safety Assignments
26   CWO (ELC, ENG, MAT, WEPS) Assignments
27   Administrative Assignments
28   CWO (F&S, PERS, AVI, INF) and Medical Assignments
29   Administrative Purposes Only
30   Not Used Presently
31   Retirement Orders

Enlisted assignment detailer codes are the same as the two-character ratings (BM, ET, PA, etc.) or the first two letters of three-character ratings, e.g., MS for MST. Exceptions are:
CODE   MEANING
AV   All Aviation Ratings
NC   All Non-rated Personnel

AVI-INFO   **AVIATOR INFORMATION**
Sequence #0069   PMIS Database Screen 10

Group identification for aviator information. Includes sequence numbers 0073 through 0084, 0329 and 1174. This element occurs once.

Glossary Listing, Continued

AVINF-OCC   **AVIATOR INFORMATION OCCURRENCE**
                       Sequence #2404   PMIS Database Screen 10

A two-character numeric code to indicate the presence or absence of aviation information.

CODE   MEANING

00   Member not in aviation status.
01   Aviator information present SUSP-DT indicates if member is still in aviation status.

BAH-CD   **PAY ENTITLEMENT BASIC ALLOWANCE FOR QUARTERS (BAH) CODE**
                    Sequence #0063   PMIS Database Screen 04

- A one-character alpha/numeric code to indicate the type BAH to which the member is entitled.

Code	Description
A	W/Dpns; Mbr and/or Dpns assign adequate CG-owned qtrs
B	W/Dpns; Mbr and/or Dpns assign adequate CG-leased qtrs
C	W/Dpns; Mbr and/or Dpns assign adequate DOD owned qtrs
D	W/O Dpns; or spouse in service no other Dpns; CG owned single qtrs
E	W/O Dpns; or spouse in service no other Dpns; CG owned family qtrs
F	W/O Dpns; or spouse in service no other Dpns; DOD owned single qtrs
G	W/O Dpns; Mbr not assigned govt qtrs
H	Spouse in service no other dpns; Mbr not assign qtrs
I	W/Dpns; Mbr assign inadequate CG-owned qtrs; check for rent
K	W/Dpns; Mbr assign inadequate DOD-own family qtrs; check rent
L	W/Dpns; Mbr not assigned govt qtrs
M	W/O DPNS; or W/spouse in service no other dpns; inadequate CG-owned qtrs
N	W/O DPNS; or W/spouse in service no other dpns; inadequate DOD-owned qtrs.
O	BAH II adeq qtrs, BAH w/dependents suspended. Member failed to verify CG 4170A.
P	BAH II Differential for support on or aft 12/5/91; CG-own sgl
Q	BAH II Differential for support on or aft 12/5/91; CG-lea sgl
R	BAH II Differential for support on or aft 12/5/91; no govt qtr
S	BAH II Differential Grandfathered
X	Entitlement to BAH terminated (separation)
Y	Entitlement to BAH terminated (departed PCS, no Dependents)
Z	Entitlement to BAH terminated (BAH with dependents stopped via Direct Access reflects no dependents).

Glossary Listing, Continued

BAH-DT

BAH DATE
Sequence #0270   PMIS Database Screen 14

The date on which a member became entitled to BAH as reported in sequence number 0063 -- BAH-CD.

BATT-TEST1-DT

BASIC BATTERY TEST SCORES FIRST DATE
Sequence #1652   PMIS Database Screen 11

The effective date an enlisted member's basic battery test scores were initially taken. See sequence numbers 1699 and 1700 for dates test or test portions retaken.

BATT-TEST1-VER

BASIC BATTERY TEST - FIRST VERSION
Sequence #1674   PMIS Database Screen 11

The test version of the initial basic battery test. See sequence numbers 1675 and 1676 for the version of the test or test portions retaken.

BATT-TEST2-DT

BASIC BATTERY TEST SCORES SECOND DATE
Sequence #1699   PMIS Database Screen 11

The effective date the member took the basic battery test (or portions of) for the second time.

BATT-TEST2-VER

BASIC BATTERY TEST - SECOND VERSION
Sequence #1675   PMIS Database Screen 11

The test version that corresponds with the basic battery test (or portion of) taken the second time. See sequence number 1674 for the original version taken.

Glossary Listing, Continued

BATT-TEST3-DT	**BASIC BATTERY TEST SCORES THIRD DATE** *Sequence #1700 PMIS Database Screen 11* The effective date the member took the basic battery test (or portions of) for the third time. If member has taken the test, or portions of the test more than 3 times, this field will contain the effective date of the last time any portion of the test was taken. See sequence numbers 1652 and 1699 for the dates of the original and second test effective dates.
BATT-TEST3-VER	**BASIC BATTERY TEST - THIRD VERSION** *Sequence #1676 PMIS Database Screen 11* The test version that corresponds with the basic battery test (or portions of) taken the third time. If member has taken the test (or portions of) more than three times, this will be the last version taken. See sequence numbers 1674 and 1675 for the first and second version taken.
BCN	**BILLET CONTROL NUMBER** *Sequence #0862 PMIS Database Screen 06* A seven-character alpha/numeric code to identify, for officers and enlisted, the specific position held at the member's current permanent unit specified in sequence number 0577.
BIRTH-CITY	**MEMBER PLACE OF BIRTH CITY** *Sequence #0189 PMIS Database Screen 01* The city in which the member was born.
BIRTH-DT	**DATE OF BIRTH** *Sequence #0013 PMIS Database Screen 01* Member's date of birth.

Glossary Listing, Continued

BIRTH-ST   **MEMBER PLACE OF BIRTH STATE CODE**
Sequence #0190   PMIS Database Screen 01

A two-character alpha code to indicate the state in which the member was born. State codes may be found in Enclosure (9) of the 3PM.

BUDGET-CD   **BUDGET-GROUP-CLASSIFICATION CODE**
Sequence #0719   PMIS Database Screen 06

A one-character alpha code to indicate the Budget Group Classification of the member's permanent duty station as specified in sequence number 0577.

Code	Budget Group	Code	Budget Group
A	Cutter	H	Repair or Supply Activity
B	Patrol Craft	I	Training or Recruiting Unit
C	Tug	J	General Administrative or Control
D	Buoy Tender	K	Not elsewhere Classified
E	Miscellaneous Floating Unit	M	Not elsewhere Classified
F	Aviation Unit	S	Recruiting Station Enlisted RECAD Only
G	Shore Station or Aid		

C130- QUAL   **AVIATOR INFORMATION DESIGNATION C-130 CODE**
Sequence #0080   PMIS Database Screen 10

A three-character alpha code to identify a pilot's status and qualification for the C-130-type aircraft.

Code	Status	Meaning
AC	Current	Aircraft Commander
FP	Current	First Pilot
CP	Current	Co-pilot
IP	Current	Instructor
ACL	Lapsed	Aircraft Commander
FPL	Lapsed	First Pilot
CPL	Lapsed	Co-pilot
IPL	Lapsed	Instructor
Blank	Not applicable	

Glossary Listing, Continued

CFTRR-CD   **CENTRAL FIRST TERM REENLISTMENT REVIEW (CFTRR) PROGRAM**
Sequence #2425 PMIS Database Screen 05

A one-character alpha code that shows the member's status under the Central First Term Reenlistment Review (CFTRR) Program

- See "D" Action 100, element code 49

CG4170-EFF-DT   **DATE DEPENDENTS ELIGIBLE MOST RECENT BAH FORM DATE**
Sequence #0951   PMIS Database Screen 04

The effective date of the member's most recently submitted BAH/Dependency Information (CG-4170).

- See "D" Action 315, element code 06

Glossary Listing, Continued

CHAR-SVC-CD   **CHARACTER OF SERVICE CODE**
Sequence #2432 PMIS Database Screen 05

A code indicating the character of a member's service at the time of discharge (P203), officer appointment termination (P214), or RELAD/Retirement (L68C VDEs 50, 60 or 70). Codes are in general accordance with DMDC requirements.

Code	Character of Service	Set By
A	Honorable	P203(01), P214(01), L68 VDE 50, 60 or 70
B	Under Honorable Conditions (General)	P203(02), P214(02)
D	Bad Conduct	P203(04)
E	Other than Honorable Conditions	P203(06), P214(06)
F	Dishonorable	P203(05)
Y	Uncharacterized	P203(03)
Z	Unknown	P214(04 or 05)

CIV-OCC-CD   **CIVILIAN OCCUPATION CODE**
Sequence #2330   PMIS Database Screen 12

Found in the Dictionary of Occupational Titles for the appropriate occupation.

COMM-DT   **DATE - OFFICER DATE COMMISSIONED**
Sequence #0136   PMIS Database Screen 01

The date an officer was commissioned.

CONUS-FLTG-SHORE-RES   **CONTIN-FLOAT-SHORE-RES-CODE**
Sequence #0716   PMIS Database Screen 06

A one-character numeric code to indicate whether the member's permanent duty station, as specified in sequence number 0577, is inside or outside the continental United States; restricted or nonrestricted; ashore or afloat.

- See "D" Action 100, element code 10

Continued on next page

Glossary Listing, Continued

COST-CENTER-CD	**G-CAC COST ACCOUNT CODE** *Sequence #0204 PMIS Database Screen 06* A five-character numeric code indicating which cost center the member is assigned. Cost account codes, also known as cost center codes, may be found in Volume I, Section BO4, Comptroller Manual.

COURSES-COMP	**COURSES COMPLETED** *Sequence #2411 PMIS Database Screen 02* "Y" for yes, if member has completed the required rating/MRN courses for the pay grade he/she is competing for. "N" for no, member has not completed the required courses.

CTZN-CD	**ENLISTED CITIZENSHIP CODE** *Sequence #0175 PMIS Database Screen 01* A one-character numeric code to identify a member's citizenship status. • See "D" Action 203, element code 05

CUR-ENL-DT	**ENLISTED CURRENT ENLISTMENT DATE STARTED** *Sequence #0192 PMIS Database Screen 05* The date the member's current enlistment or reenlistment began

CUR-ENL-LEN	**ENLISTED CURRENT ENLISTMENT TERM IN YEARS** *Sequence #0193 PMIS Database Screen 05* The number of years for which the member last enlisted or reenlisted.

Glossary Listing, Continued

CWO-SPEC	**CHIEF WARRANT OFFICER SPECIALTY** *Sequence #2378 PMIS Database Screen 02* The CWO specialty for which the commanding officer is recommending the candidate for the board. This may be a three- or four-character entry.
CWO-CYCLE-DATE	**CHIEF WARRANT OFFICER CYCLE DATE** *Sequence #2414 PMIS Database Screen 02* The year, month, and day will be set by the effective date of the document. This date is intended to reflect the current board that the member's CO has recommended him/her for.
CWO-OAR-SCORE	**CHIEF WARRANT OFFICER APTITUDE RATING TEST SCORE** *Sequence #2401 PMIS Database Screen 02* The score the member last achieved on the Officer Aptitude Rating (OAR) Test for promotion to Chief Warrant Officer.
CWO-OAR-DT	**CHIEF WARRANT OFFICER APTITUDE RATING TEST DATE** *Sequence #2402 PMIS Database Screen 02* The date the member last took the Officer Aptitude Rating (OAR) Test for promotion to Chief Warrant Officer.
DEP-BAH-DT	**DATE DEPENDENTS ELIGIBLE FOR BASIC ALLOWANCE FOR QUARTERS** *Sequence #0950 PMIS Database Screen 04* The date the member begins support of a dependent. This is normally the date of marriage or date of birth. For dependent parents, it is the date the parents are certified as dependents.

Glossary Listing, Continued

DEP-BIRTH-DT   **MEMBER DEPENDENTS BIRTHDATE**
Sequence #0853   PMIS Database Screen 04

Birthdate of the member's child as recorded on the child's birth certificate.

DEP-REL-CD   **MEMBER DEPENDENTS RELATIONSHIP**
Sequence #0855   PMIS Database Screen 04

Either repeats or further defines the relationship of the member's dependents as reported in sequence number 0854.

- See "D" Action 315, element code 09

DEP-SEX   **MEMBER DEPENDENTS SEX**
Sequence #0854   PMIS Database Screen 04

Indicates the sex and relationship of member's dependents.

- See "D" Action 315, element code 10

DEST-DIST   **PENDING TRANSFER DESTINATION DISTRICT CODE**
Sequence #0117   PMIS Database Screen 06

A two-character numeric code to identify the district or Headquarters unit of the new duty station specified in sequence number 0118.

Glossary Listing, Continued

DEST-OPFAC

PENDING TRANSFER DESTINATION OPFAC CODE
Sequence #0118   PMIS Database Screen 06

A five-character numeric code to identify the OPFAC code of the unit to which the member is being transferred. Codes may be found in Operating Facilities of the, COMDTINST M5440.2 (series).

DEST-OPFAC-MOD

PENDING TRANSFER DESTINATION OPFAC MODIFIER
Sequence #0151   PMIS Database Screen 06

A three-character alpha/numeric code to identify the particular division or sub unit of the unit to which the member is being transferred, as specified in sequence number 0118. OPFAC modifiers may be found in Operating Facilities of the, COMDTINST M5440.2 (series).

DEST-RU

PENDING TRANSFER DESTINATION REPORTING UNIT CODE
Sequence #0119   PMIS Database Screen 06

A two-character numeric code to identify the personnel reporting unit for the member's new duty station specified in sequence number 0118.

Glossary Listing, Continued

DETAIL-REM   **PENDING TRANSFER DETAILERS REMARKS**
Sequence #0826   PMIS Database Screen 06

A maximum of four characters used exclusively by assignment detailers to record any additional information deemed necessary in the assignment process. The first two characters are an alpha/numeric code issued by the assignment detailer to indicate the primary and secondary reason the member is being reassigned from his/her current permanent duty station.

CODE   MEANING
A   Return to CONUS due to expiration of enlistment
B   Unexpected administrative moves (early return of dependents, return to CONUS for administrative discharge, "blown" cover of investigator, replacement for UA/desertion/drug and alcohol, etc.)
C   Retirement (including physical disability)
D   Special cases caused by outside sources (ship moves, admiral's stewards, etc.)
E   Removal for cause/replacement (OINC, recruiters, instructors, etc.)
F   Transfer to new billet
G   From abolished billet
H   From "A" school - disenrolled
I   From "A" school - graduation
J   Fill retirement vacancy
K   Fill CWO/OCS caused vacancy
L   To "A" school - 20 weeks or longer
M   From overseas area - tour completion or any mutual
N   To overseas area - restricted duty
3   To overseas area - nonrestricted duty
P   To or from icebreaker
Q   To independent duty
R   To or from OINC duty
S   To or from instructor duty
T   To or from recruiting, investigator or other "PO" duty
U   To or from advanced schools - 20 weeks or longer or any unilateral
V   Prior service enlistee
W   Reenlistment or other special consideration
X   To or from sea duty
Y   To or from shore duty
Z   No cost other than mutuals or unilaterals

Glossary Listing, Continued

DISCH-CD

DISCHARGE CODE
Sequence #2385   PMIS Database Screen 05

A code indicating the type of discharge the member last received. CODES TO BE DEVELOPED.

DIVE-PAY-CD

DIVING PAY CODE
Sequence #0744   PMIS Database Screen 14

A one-character alpha/numeric code to indicate the classification designated in the orders of members entitled to diving pay.

CODE	MEANING
O	Entitlement terminated
A	Ships Salvage Diving Officer
B	Officer with scuba training only
C	Officer performing diving duty at school under instruction in a course above Diver Second Class
D	Diver First Class (DV-1) enlisted
E	Diver Second Class (DV-2) enlisted
F	Scuba Diver (DV) enlisted
G	Medical Deep-sea Diving Technician (DV-M) enlisted
H	Enlisted member performing diving duty at school under instruction in a course above Diver Second Class, unless entitled to a higher rate
Blank	Never received entitlement

DIVE-PAY-DT

DIVING PAY DATE
Sequence #0271   PMIS Database Screen 14

The most recent date on which a member became entitled to diving pay as reported in sequence number 0744. If sequence number 0744 is blank, this field will also be blank.

Glossary Listing, Continued

DIVE-QUAL-LAPSE-DT	**DIVING QUALIFICATION LAPSE DATE** *Sequence #1328 PMIS Database Screen 14* The date on which a member's diving qualification expires. If a member does not requalify, dive pay will automatically terminate this date.
DT-COMP-MIL-OBL	**DATE COMPLETED MILITARY OBLIGATION** *Sequence #2328 PMIS Database Screen 05* From enlistment contract. It is subsequently updated from P123, P411, P612, P616. This date pertains only to enlisted members. Any data shown for officers shall not be used.
DT-ENT-CUR-AD	**DATE ENTERED CURRENT ACTIVE DUTY** *Sequence #0032 PMIS Database Screen 05* The date the member began current period of active duty, if currently on active duty (sequence number 2312 equal 000000). If member is not currently on active duty, sequence number 0032 will show the date the member last entered a period of active duty. If the member has never been on active duty, the field will be set to 000000.
DT-MIL-OBL-INC	**DATE MILITARY OBLIGATION INCURRED** *Sequence #0030 PMIS Database Screen 05* The date of the member's initial entry into the Armed Forces. Includes both active and inactive service, as well as time spent at a military academy, in OCS, or under a delayed enlistment program. Taken from the Enlistment Contract or the Active Duty Initial Information Form. Used in calculating a member's retired pay percentage.

Glossary Listing, Continued

DT-RPTD-PERM-DIST	**PERMANENT DUTY STATION DATE REPORTED DISTRICT** *Sequence #0053 PMIS Database Screen 06* The date the member reported to his/her present district. This will be zero-filled when a member is enroute PCS/TEMDU to a new district.
DT-RPTD-PERM-UNIT	**PERMANENT DUTY STATION DATE REPORTED UNIT** *Sequence #0038 PMIS Database Screen 06* The date the member reported to his/her current permanent duty station. This will be zero-filled when the member is enroute PCS/TEMDU.
DUTY-STAT-CD	**PRESENT DUTY STATUS CODE** *Sequence #0043 PMIS Database Screen 06* A two-character alpha/numeric code to indicate the member's present duty status. Codes are divided into three functional groups. • See "D" Action 101, element code 40
DUTY-STAT-DT	**PRESENT DUTY STATUS** *Sequence #0044 PMIS Database Screen 06* The effective date of the member's duty status code shown in sequence number 0043.

Glossary Listing, Continued

E2C-QUAL	**AVIATOR INFORMATION DESIGNATION E-2 CODE** *Sequence #0079 PMIS Database Screen 10*

A three-character alpha/numeric code to identify a pilot's status and qualification for the E-2-type aircraft.

Code	Status	Meaning
AC	Current	Aircraft Commander
FP	Current	First Pilot
CP	Current	Co-pilot
IP	Current	Instructor
ACL	Lapsed	Aircraft Commander
FPL	Lapsed	First Pilot
CPL	Lapsed	Co-pilot
IPL	Lapsed	Instructor
Blank	Not applicable	

ED-FLD/LVL	**TRAINING PROGRAM MAJOR FIELD AND LEVEL/DEGREE CODE** *Sequence #0939 PMIS Database Screen 09*

A three-character alpha/numeric code to indicate the major field in which the member has been trained and the level of training reached. Major field and education level codes may be found in Chapter 2-A.

ED-HIGH-GRADE	**MEMBER EDUCATION HIGHEST GRADE COMPLETED** *Sequence #0020 PMIS Database Screen 09*

A one-character alpha/numeric code indicating, in a member's education, the highest grade completed and/or degree obtained.

- See Chapter 2-A.

ED-YR	**TRAINING PROGRAM MFC YEAR COMPLETED** *Sequence #0940 PMIS Database Screen 09*

The last two digits of the year in which the training reported in sequence number 0939 -- ED-FLD/LVL was completed.

Glossary Listing, Continued

EFF-AD-TERM-DT

EFFECTIVE ACTIVE DUTY TERMINATION DATE
Sequence #2312   PMIS Database Screen 05

The date the member was last released from active duty when the active duty period was paid by PMIS/JUMPS. Will not be set for members currently on active duty or who have never been on active duty.

EFF-AD-TERM-SPD

EFFECTIVE ACTIVE DUTY TERMINATION DATE SEPARATION PROGRAM DESIGNATOR
Sequence #2383   PMIS Database Screen 05

A three-character alpha code to indicate the Separation Program Designator of most current RELAD when the member is not currently on active duty. Used in conjunction with sequence number 2312 -- EFF-AD-TERM-DT. Codes may be found in COMDTINST M1900.4 (series).

EFF-LOSS-DT

EFFECTIVE LOSS DATE
Sequence #1064   PMIS Database Screen 05

The date on which the member's account is no longer maintained in PMIS/JUMPS. Set by discharge, retirement (regular CG), or age 60 retirement (reserve CG).

EFF-LOSS-SPD

EFFECTIVE LOSS DATE SEPARATION PROGRAM DESIGNATOR
Sequence #2382   PMIS Database Screen 05

A three-character alpha code to indicate the Separation Program Designator of current retirement or discharge when a member has not reentered the Coast Guard. "D26" will be used for death. Used in conjunction with sequence number 1064 -- EFF-LOSS-DT. Codes may be found in COMDTINST M1900.4 (series).

EFF-RETIRE-DT

EFFECTIVE RETIREMENT DATE
Sequence #2386   PMIS Database Screen 05

The date a member transitions from Active or Reserve to Retired Status.

Continued on next page

Glossary Listing, Continued

ENL-ASG-IND   **G-PE ENLISTED PERSONNEL ASSIGNMENT INDICATOR**
Sequence #0937   PMIS Database Screen 06

A one-character alpha/numeric code used by enlisted assignment detailers to indicate assignment-related factors peculiar to each detailer. Letters A through Z and number 1 through 9 may be used excluding the zero and the letter O.

ENL-QUAL-CD-INFO   **ENLISTED QUALIFICATION CODE INFORMATION**
Sequence #0840   PMIS Database Screen 09

Group identification for enlisted qualification code information. Includes sequence number 0176.

ENTRY-CITY   **MEMBER PLACE OF ENTRY CURRENT ENLISTMENT CITY**
Sequence #0317   PMIS Database Screen 01

The city in which the member was sworn in for enlistment.

ENTRY-ST   **MEMBER PLACE OF ENTRY CURRENT ENLISTMENT STATE CODE**
Sequence #0318   PMIS Database Screen 01

A two-character alpha code to indicate the state in which the member was sworn in for enlistment. State codes may be found in Enclosure (9) of HRSICINST M1000.2A, Personnel and Pay Procedures Manual.

EST-ARR-DT   **PENDING TRANSFER ESTIMATED DATE OF ARRIVAL**
Sequence #0114   PMIS Database Screen 06

The estimated date the member will arrive at the unit specified in sequence number 0118, taking into consideration the number of days planned enroute for leave, travel time, proceed time, compensatory absence, etc., and the departing date.

Glossary Listing, Continued

EST-DEPT-DT   **PENDING TRANSFER ESTIMATED DATE OF DEPARTURE**
Sequence #0113   PMIS Database Screen 06

The estimated date a member will depart for transfer to the unit specified in
sequence number 0118, taking into consideration the number of days planned
enroute for leave, travel time, proceed time, compensatory absence, etc., and
the reporting date.

EXAM-BD-OPFAC   **SERVICEWIDE EXAM BOARD OPFAC**
Sequence #2379   PMIS Database Screen 02

This seven digit district/unit OPFAC number identifies where the next
servicewide exam will be administered.

EX-BD-OPFAC-DT   **EXAM BOARD OPFAC DATE**
Sequence #2424 PMIS Database Screen 02

This date is set by the Effective Date of Action Code 325, Element Code 05 to
record the date member's Exam Board OPFAC was established.

EXP-AD-TERM-DT   **EXPECTED ACTIVE DUTY TERMINATION DATE**
Sequence #0168   PMIS Database Screen 05

For regular enlisted personnel, this is the date the member is expected to fulfill
active duty obligation (RELAD) based on latest enlistment/reenlistment
contract including any agreement to extend or reextend and any retention
beyond normal expiration of enlistment. For regular Coast Guard officers and
reserve officers, this is the mandatory retirement date or later, or the date of
completion of contracted or obligated service, depending upon status of officer
and is used in conjunction with sequence number 0133. For NOAA officer O-6
and below, this will be the day before the 60th birthday; and for NOAA officers O-7
and above, this will be the day before the 62nd birthday. For reserve officers not
on extended active duty and all reserve enlisted members, this is the date the
member is expected to be released from active duty when currently on active
duty and paid by JUMPS.

Glossary Listing, Continued

EXP-IND

OFFICER EXPERIENCE INDICATOR INFORMATION
Sequence #0140   PMIS Database Screen 01

Group identification for an officer's experience indicator. Definitions of experience indicators may be found Chapter 2-H. This element occurs 1 time.

EXP-LOSS-DT

EXPECTED LOSS DATE
Sequence #2316   PMIS Database Screen 05

Generally, this is the date a member is expected to be a loss (discharged/retired) from the PMIS/JUMPS data base. For regular enlisted members, this will be the expected discharge/retirement date (usually the date a member will have no further reserve and or active duty obligation). For regular Coast Guard officers, this will be equal to the Expected Active Duty Termination Date. For NOAA officer O-6 and below, this will be the day before the 60th birthday; and for NOAA officers O-7 and above, this will be the day before the 62nd birthday. For reserve enlisted members, this will be the expiration of enlistment including any agreement to extend or reextend and any retention beyond normal expiration of enlistment. For reserve officers, this should be the day before the officer's 60th birthday.

EXT-EFF-DT

EXTENSION INFORMATION EFFECTIVE DATE OF EXTENSION
Sequence #0448   PMIS Database Screen 05

The actual date an original extension of the member's current enlistment goes into effect.

Glossary Listing, Continued

EXT-INFO   **EXTENSION INFORMATION**
Sequence #0467   PMIS Database Screen 05

Group identification for extension information. Includes sequence numbers
0448 through 0454. This element occurs once by program design (data base
allows 2 occurrences).

EXT-INFO-REEXT-DATA   **EXTENSION INFORMATION REEXTENSION DATA**
Sequence #0468   PMIS Database Screen 05

Group identification for reextension information. Includes sequence number
0455 through 0457.

EXT-RCVD-CD   **EXTENSION INFORMATION P 198 RECEIVED FLAG**
Sequence #0451   PMIS Database Screen 05

A five-digit field, which, when filled with five ones (e.g., "11111") indicates
the member has begun service under an extension of enlistment. The effective
date of the P 198 must be the same as the date in sequence number 0448.

EXT-REXT-NBR   **EXTENSION INFORMATION NUMBER OF**
EXTENSION/REEXTENSION
Sequence #0454   PMIS Database Screen 05

A one-character numeric code to indicate the number of extension or
reextension of the member's current enlistment.

Glossary Listing, Continued

EXTS-TOT-LEN   **EXTENSION INFORMATION TOTAL EXTENSION TERM**
Sequence #0449   PMIS Database Screen 05

For reenlistment bonus purposes, the total number of years, months and days the member extends or reextends his/her enlistment, even though no bonus is paid. Format is YMMDD. This is a cumulative number up to a maximum of six years as long as the member is on the same enlistment.

FED-SVC-BASE-DT   **DATE - ACTIVE FEDERAL SERVICE BASE DATE**
Sequence #0299   PMIS Database Screen 05

The date the member commenced Active Federal Service. This date serves as the basis for computing the total number of years, months and days of Active Federal Service served. This date will be established upon enlistment or appointment and will be verified by a Statement of Creditable Service.

FIRST-EXT-LEN   **EXTENSION INFORMATION FIRST EXTENSION TERM**
Sequence #0450   PMIS Database Screen 05

The number of years, months and days an enlistment is extended. The maximum term would be 6 years. Format is YMMDD.

FLT-TM-POST-DT   **AVIATOR INFORMATION DATE COMPILED FLIGHT TIME**
Sequence #0070   PMIS Database Screen 10

The effective date of flight time reported on Action Code 304 on Personnel Action.

Glossary Listing, Continued

FRAME-SZ   **MEMBER FRAME**
Sequence #0055   PMIS Database Screen 02

Member's frame size as determined by <u>Enclosure (1) to COMDTINST 1020.8</u>
<u>(series).</u>

FSA-CD   **FSA CODE**
Sequence #0064   PMIS Database Screen 14

A one-character numeric code to identify the type FSA to which a member is
entitled.

CODE   MEANING
0   Entitlement to FSA terminated
1   Type FSH (old FSA-I)
2   Type II FSA-R (Restricted)
3   Type II FSA-S (Ship)
4   Type II FSA-T (TD/TAD)
5   Type FSH and II FSA-R (Restricted)
6   Type FSH and II FSA-T (TD/TAD)
Blank Has never received entitlement

FSA-DT   **FSA DATE**
Sequence #0272   PMIS Database Screen 14

The most recent date on which a member became entitled to Family Separation
Allowance as reported in sequence number 0064. If sequence number 0065 is
blank, this field will also be blank.

Glossary Listing, Continued

H3-QUAL	**AVIATOR INFORMATION DESIGNATION H-3 CODE** *Sequence #0081 PMIS Database Screen 10*

A three-character alpha code to identify a pilot's status and qualification for the H-3-type aircraft.

Code	Status	Meaning
AC	Current	Aircraft Commander
FP	Current	First Pilot
CP	Current	Co-pilot
IP	Current	Instructor
ACL	Lapsed	Aircraft Commander
FPL	Lapsed	First Pilot
CPL	Lapsed	Co-pilot
IPL	Lapsed	Instructor
Blank	Not applicable	

H52-QUAL	**BLANK** *Sequence #0082 PMIS Database Screen*

Not presently used.

H65-QUAL	**AVIATOR INFORMATION DESIGNATION H-65 CODE** *Sequence #0329 PMIS Database Screen 10*

A three-character alpha code to identify a pilot's status and qualification for the H-65-type aircraft.

Code	Status	Meaning
AC	Current	Aircraft Commander
FP	Current	First Pilot
CP	Current	Co-pilot
IP	Current	Instructor
ACL	Lapsed	Aircraft Commander
FPL	Lapsed	First Pilot
CPL	Lapsed	Co-pilot
IPL	Lapsed	Instructor
Blank	Not applicable	

Glossary Listing, Continued

HAZ-DUTY-CD　　**HAZARDOUS DUTY DATE**
Sequence #0065　PMIS Database Screen 14

A one-character numeric code to identify the type of hazardous duty pay to which a member is entitled.

CODE　MEANING
0　　　Entitlement to hazardous duty pay terminated
1　　　Aviation crew member pay
2　　　Aviation non-crew member pay
3　　　Aviation crew member pay suspended
4　　　Aviation non-crew member pay suspended
Blank　Has never received entitlement

HAZ-DUTY-DT　　**HAZARDOUS DUTY DATE**
Sequence #0273　PMIS Database Screen 14

The most recent date on which a member became entitled to Hazardous Duty Pay as reported in sequence number 0065. If sequence number 0065 is blank, this field will also be blank.

HFPAY-CD　　**HOSTILE FIRE PAY CODE**
Sequence #0066　PMIS Database Screen 14

A one-character numeric code to identify a member's entitlement to Hostile Fire Pay.

CODE　MEANING
0　　　Entitlement to Hostile Fire Pay terminated
1　　　Until further orders
2　　　Until end of the month
Blank　Has never received entitlement

Glossary Listing, Continued

HFPAY-DT

HOSTILE FIRE PAY DATE
Sequence #0274   PMIS Database Screen 14

The most recent date on which a member became entitled to Hostile Fire Pay as reported in sequence number 0066. If sequence number 0066 is blank, this field will also be blank.

HGT

MEMBER HEIGHT IN INCHES
Sequence #0139   PMIS Database Screen 02

The height of the member in inches.

HM-REC-CITY

MEMBER HOME OF RECORD CITY
Sequence #0015   PMIS Database Screen 01

City designated by member at time of enlistment or reenlistment as home of record.

HM-REC-ST

MEMBER HOME OF RECORD STATE CODE
Sequence #0016   PMIS Database Screen 01

A two-character alpha code used to identify the state designated by the member as home of record at time of enlistment or reenlistment. State codes may be found in Enclosure (10) of HRSICINST M1000.2A, Personnel and Pay Procedures Manual.

HM-REC-ZIP

MEMBER HOME OF RECORD ZIP CODE
Sequence #0213   PMIS Database Screen 01

A five-character numeric code to indicate the mailing zip code of the member's home of record. Zip codes may be found in the U. S. Postal Service National Zip Code Directory.

Glossary Listing, Continued

HU16-QUAL **AVIATOR INFORMATION DESIGNATION U-16 CODE**
Sequence #0083   PMIS Database Screen 10

A three-character alpha code to identify a pilot's status and qualification for the
U-16-type aircraft.

Code	Status	Meaning
AC	Current	Aircraft Commander
FP	Current	First Pilot
CP	Current	Co-pilot
IP	Current	Instructor
ACL	Lapsed	Aircraft Commander
FPL	Lapsed	First Pilot
CPL	Lapsed	Co-pilot
IPL	Lapsed	Instructor
Blank	Not applicable	

HU25-QUAL **AVIATOR INFORMATION DESIGNATION U-25 CODE**
Sequence #0084   PMIS Database Screen 10

A three-character alpha code to identify a pilot's status and qualification for the
U-25-type aircraft.

Code	Status	Meaning
AC	Current	Aircraft Commander
FP	Current	First Pilot
CP	Current	Co-pilot
IP	Current	Instructor
ACL	Lapsed	Aircraft Commander
FPL	Lapsed	First Pilot
CPL	Lapsed	Co-pilot
IPL	Lapsed	Instructor
Blank	Not applicable	

Glossary Listing, Continued

INV-RET-EFF-DT   **EXTENSION INFORMATION P 176 EFFECTIVE DATE**
Sequence #0452   PMIS Database Screen 05

The effective date that a member begins an involuntary retention in the service beyond the member's normal expiration of enlistment. This will be the first day after the member's enlistment (including extensions, if applicable) expires. This is subsequently blanked out if an Action Code P 198 or P 199 is received.

LANG-CD   **FOREIGN LANGUAGE INFORMATION LANGUAGE CODE**
Sequence #0095   PMIS Database Screen 01

A one-character alpha code to identify foreign languages that the member speaks/writes.

CODE MEANING

CODE	MEANING
A	African
B	Arabic
C	Asian (other)
D	Chinese (Mandarin)
E	Chinese (other)
F	Danish/Swedish/Norwegian/Icelandic
G	Estonian/Finnish
H	Western European (other)
I	Eastern European (other)
J	French
K	German
L	Greek
N	Hindi
O	Italian
P	Japanese
Q	Korean
R	Middle Eastern (other)
S	Polish/Lithuanian
T	Portuguese
U	Russian
V	Slavic (other)
W	Spanish
X	Vietnamese
Y	Other

Glossary Listing, Continued

LANG-QUAL **FOREIGN LANGUAGE INFORMATION**
Sequence #0094   PMIS Database Screen 01

Group identification for foreign language. Includes sequence numbers 0095 and 0096. This element occurs 4 times.

LANG-SKILL-LVL   **FOREIGN LANGUAGE INFORMATION QUALIFICATION CODE**
Sequence #0096   PMIS Database Screen 01

A one-character numeric code to identify foreign language qualification in the language specified in the matching occurrence of sequence number 0095.

CODE MEANING

1   Ability to speak with elementary proficiency to meet travel needs and courtesy requirements. Familiar topics can be discussed. Errors will be frequent but the speaker will be understood easily.

2   Ability to read and write with elementary proficiency. Can communicate in written form concerning familiar topics. Errors will be frequent but ideas will be generally understood.

3   Ability to satisfy routine social demands and limited military requirements. Must be able to read, write and converse with ease on current events, work, family and general interest topics and also have limited ability to read, write and converse on technical topics.

4   Ability to converse and correspond effectively with few errors on most topics and fairly extensively on technical topics.

LGL-RESID-CITY   **DOMICILE CITY**
Sequence #0018   PMIS Database Screen 01

City claimed by member for income tax purposes. This should be the city shown on member's W-4, but is not necessarily the city where the member resides.

Note: Discontinued collection of this information during a State Tax Data change in CGHRMS Release 1.

Glossary Listing, Continued

LGL-RESID-ST   **DOMICILE STATE CODE**
Sequence #0019   PMIS Database Screen 01

A two-character alpha code used to identify the state claimed by the member for income tax purposes. This is not necessarily the state where the member resides. See member's W-4 form. State codes may be found in Enclosure (9) of HRSICINST M1000.2A, Personnel and Pay Procedures Manual.

MAINT-DT   **DATE ON WHICH RECORD WAS CREATED OR LAST CHANGED**
Sequence #0581   PMIS Database Screen 00

Maintenance Date - the date on which the record was created or last changed, in YYMMDD format.

MARKS-CURRENT   **MARKS CURRENT**
Sequence #2412   PMIS Database Screen 02

Enter "Y" for yes, if member has a current set of marks recorded at headquarters. "N" for no, if member does not have a current set of marks recorded at headquarters.

MAR-STAT   **MEMBER MARITAL STATUS CODE**
Sequence #0033   PMIS Database Screen 04

A one-character alpha code to indicate the member's marital status.

Code	Meaning	Code	Meaning
A	Annulled	M	Married
D	Divorced	S	Single
I	Interlocutory	W	Widowed
L	Legally separated	Blank	No information available

Continued on next page

Glossary Listing, Continued

MBR-DEP-INFO   **MEMBER DEPENDENTS INFORMATION**
Sequence #0852   PMIS Database Screen 04

Group identification for dependent information. Includes sequence numbers 0853 through 0856, 0950 and 0951.

MBR-TYPE-1   **MEMBER TYPE CODE**
Sequence #0001   PMIS Database Screen 00

A one-character alpha code to identify a member by type (such as commissioned officer, warrant officer, enlisted or cadet); by component (Regular or Reserve Coast Guard); and by type of duty (special active duty, extended active duty, or active duty for training).

- See Chapter 2-F.

MBR-TYPE-3   **MEMBER TYPE - 3 CHARACTERS**
Sequence #1701   PMIS Database Screen 00

A three-character alpha code to identify the member by type (such as commissioned officer, warrant officer, enlisted or cadet); by component (regular or reserve Coast Guard); and by type of duty (special active duty, extended active duty, or active duty for training).

- See Chapter 2-F.

Glossary Listing, Continued

MED-REVIEW-DT   **MEDICAL ADMIN REVIEW DATE**
Sequence #2398 PMIS Database Screen 02

The date Medical Admin Reviewer acted upon physical exam.

MEDAL   **MEDALS AWARDED CODE**
Sequence #0946 PMIS Database Screen 03

A two-character alpha code to indicate awards given to individuals and the point values of each award for servicewide examination purposes. (Award Codes may be found in Enclosure (10) of HRSICINST M1000.2A, Personnel and Pay Procedures Manual)

MEDAL-DT   **AWARD APPROVAL DATE**
Sequence #2334 PMIS Database Screen 03

A six-character numeric date (YYMMDD) to identify for servicewide examination purposes when an award was approved by the award approving authority.

MEDAL-INFO   **MEDALS INFORMATION**
Sequence #0953 PMIS Database Screen 03

Group identification for medals and award information. Includes sequence number 0946.

MNRTY-DESIG   **Minority Designation**
Sequence #0014 PMIS Database Screen 01

- A one-character numeric code to identify the racial or ethnic group of which the member is considered to be part.

Code	Designation
1	Black (not of Hispanic origin)
2	Hispanic (includes persons of Mexican, Puerto Rican, Cuban, Central and South American, or other Spainish Origin or culture (regardless of race)
3	American Indian (including Alaskan Natives
4	Asian (including Pacific Islanders)
5	All others (e.g., white/caucasian, etc.)

Glossary Listing, Continued

MTHS-CONUS   **TOUR LENGTH RECAP INCONUS**
Sequence #0059   PMIS Database Screen 07

Cumulative number of months served in CONUS. (Originally, cumulative number of months served INCONUS, restricted floating units).

MTHS-OCONUS   **TOUR LENGTH RECAP OUTCONUS**
Sequence #0060   PMIS Database Screen 07

Cumulative number of months served outside CONUS. (Originally, cumulative number of months served OUTCONUS, non-restricted shore units).

MTHS-RESTRICTED   **TOUR LENGTH RECAP RESTRICTED**
Sequence #0061   PMIS Database Screen 07

Cumulative number of months served on restricted duty. (Originally, accumulative number of months served OUTCONUS, restricted shore units).

NEW-BCN   **PENDING TRANSFER BILLET CONTROL NUMBER**
Sequence #0864   PMIS Database Screen 06

A seven-digit numeric code to identify, for officers and enlisted, the specific position held at the new duty station specified in sequence number 0118.

NEW-EXP-IND   **PENDING TRANSFER EXPERIENCE INDICATOR**
Sequence #0122   PMIS Database Screen 06

An eight-character alpha/numeric code to identify an officer's experience updated to include his/her current assignment. This field will be used to update sequence number 0140 when a transfer is effected. Experience indicator codes may be found in the USCG Register of Officers, COMDTINST M1427.1 (series).

Glossary Listing, Continued

NEW-OBC

PENDING TRANSFER OFFICER BILLET CODE
Sequence #0116   PMIS Database Screen 06

A six-character alpha/numeric code to identify, for officers, the specific position held at the new duty station specified in sequence number 0118. Codes may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

NEXT-DUTY-PREF-INFO

NEXT DUTY PREFERENCE INFORMATION
Sequence #0858   PMIS Database Screen 13

Group identification for next duty preference information. Includes sequence numbers 0198, 0203 through 0227, 1068 and 1155. This element occurs once.

NM-CHG-DT

NAME CHANGE DATE
Sequence #0025   PMIS Database Screen 01

The effective date the member's name is changed. Used in conjunction with sequence number 0202.

NM-CHG-NBR

NAME CHANGE CODE
Sequence #0202   PMIS Database Screen 01

A one-character numeric code to indicate whether the member's name has changed.

CODE   MEANING
0   Original name entry
1   Name change number 1
2   Name change number 2
3   Name change number 3

Continued on next page

Glossary Listing, Continued

NM-FIRST	**FIRST NAME** *Sequence #0004 PMIS Database Screen 01* Member's first name (e.g. Michael).
NM-FIRST-INIT	**FIRST INITIAL** *Sequence #0005 PMIS Database Screen 01* First letter of member's first name (e.g. "M" for Michael).
NM-LAST	**MEMBER NAME LAST** *Sequence #0008 PMIS Database Screen 00* Member's last name (e.g., "HUSKEY" for Michael L. Huskey). Do not include any spaces, numbers or special characters, such as apostrophe or hyphen.
NM-MI	**MEMBER NAME MIDDLE INITIAL** *Sequence #0007 PMIS Database Screen 01* Member's first middle initial, or first letter of first middle name (e.g., "P" for John Paul George Smith).

Glossary Listing, Continued

NM-MI2

SECOND MIDDLE INITIAL
Sequence #0006   PMIS Database Screen 01

Member's second middle initial, or first letter of second middle name (e.g., "G" for John Paul George Smith).

NM-SUFF

MEMBER NAME SUFFIX
Sequence #0010   PMIS Database Screen 01

Suffix to member's name (e.g., JR, SR, III).

OBC

OFFICER BILLET CODE
Sequence #0170   PMIS Database Screen 06

A six-character alpha/numeric code to identify, for officers, the specific position held at the member's current permanent unit specified in sequence number 0577. Officer billet codes may be found in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

OCC-FLD-CURR-ASGD

OCCUPATION FIELD CURRENTLY ASSIGNED
Sequence #0706   PMIS Database Screen 01

This two-digit code will indicate the occupation field in which the officer is currently working (See Chapter 2-H, Officer Experience Indicator for code listing).

Continued on next page

Glossary Listing, Continued

OCC-FLD-PRIOR-ASGT   **OCCUPATION FIELD PRIOR TO CURRENT ASSIGNMENT**
Sequence #0707   PMIS Database Screen 01

This two digit code will indicate the occupation field in which the officer worked immediately prior to his or her current assignment (See Chapter 2-H, Officer Experience Indicator for code listing).

OFF-INFO   **OFFICER INFORMATION**
Sequence #0126   PMIS Database Screen 01

Group identification for officer information. Includes sequence numbers 0127, 0129, 0134 through 0136, 0138, 0170 and 0943. This element occurs once.

OFF-PRI-OCC-FLD   **OFFICER'S PRIMARY OCCUPATION FIELD**
Sequence #0705   PMIS Database Screen 01

This two digit code will indicate the officer's Primary Occupation Field (See Chapter 2-H, Officer Experience Indicator for code listing).

OFF-STA-IND-SOURCE-CD   **OFFICER STATUS INDICATOR SOURCE CODE**
Sequence #0131   PMIS Database Screen 01

A one-character numeric code to identify the source from which each officer enters the Coast Guard. This is the second digit of the Status Indicator. Status Indicators may be found in the USCG Register of Officers, COMDTINST M1427.1 (series). An asterisk (*) indicates that the code does not normally apply to a warrant officer.

CODE	MEANING
1*	Graduate of Academy
2*	Appointed from warrant officer status
3	Appointed from enlisted status
4*	Licensed officer of the Merchant Marine commissioned under PL 80-219
5	Reserve graduate of Officer Candidate School
6	Appointed from other reserve source
7	Appointed from other source
Blank	Not applicable
0	No classification

Glossary Listing, Continued

OFF-STAT-IND-AD-TERM-PEND-CD   **OFFICER STATUS INDICATOR ACTIVE DUTY TERMINATION PENDING CODE**
Sequence #0133 PMIS Database Screen 01

A one-character numeric code to identify the reason why an officer will terminate Coast Guard service on the expected termination date found in sequence number 0168. This is the sixth digit of the Status Indicator. Status Indicators may be found in the USCG Register of Officers, COMDTINST M1427.1 (series). An asterisk (*) indicates that the code does not normally apply to a warrant officer.

CODE	MEANING
1	Mandatory retirement under 14 USC 288 for captains, 10 USC 1305 for temporary officers whose permanent status is warrant officer and 14 USC 190 (Article 12-C-8, CG Personnel Manual) for Permanent Commissioned Teaching Staff
2	Voluntary retirement
3	Retirement for age
4	Resignation
5	Personnel Board action
6	Release from extended active duty (reservist)
7*	Expiration of four year appointment (Commandant)
8*	36 year retirement (Flag officers only)
9*	Continuation Board action under provisions of 14 USC 290 (Flag officers only)
A*	7 years TIG retirement (Flag officers only)
0	No classification

OFF-STAT-IND-CAT-CD   **OFFICER STATUS INDICATOR CATEGORY CODE**
Sequence #0130 PMIS Database Screen 01

A one-character numeric code to identify commissioned officers by category. This is the first digit of the Status Indicator. Status Indicators may be found in the USCG Register of Officers, COMDTINST M1427.1 (series). An asterisk (*) indicates that the code does not normally apply to a warrant officer.

CODE	MEANING
1	Regular, permanent commission
2	Regular, temporary commission
3	Retired officer, recalled to active duty
4*	Regular, Permanent Commissioned Teaching Staff
5*	Probationary, Permanent Commissioned Teaching Staff
6	Reserve, extended active duty
7*	Regular, Reserve Program Administrator
8*	Provisional, Reserve Program Administrator
9*	U.S. Coast Guard Band Staff
0	No classification

Glossary Listing, Continued

OFF-STAT-IND-PERM-GR-CD   **OFFICER STATUS INDICATOR PERMANENT GRADE CODE**
Sequence #1154   PMIS Database Screen 01

A two-character alpha/numeric code to indicate the permanent grade of an officer. These are the third and fourth digits of the Status Indicator. Status Indicators may be found in the USCG Register of Officers, COMDTINST M1427.1 (series).

CODE	MEANING
01	Ensign
02	Lieutenant (junior grade)
03	Lieutenant
04	Lieutenant Commander
05	Commander
06	Captain
07	Rear Admiral (Lower Half)
08	Rear Admiral
09	Vice Admiral
10	Admiral
W1	Warrant W-1
W2	Warrant W-2
W3	Warrant W-3
W4	Warrant W-4
E1	General Apprenticeship
E2	General Apprenticeship
E3	General Apprenticeship
E4	Petty Officer, third class
E5	Petty Officer, second class
E6	Petty Officer, first class
E7	Chief Petty Officer
E8	Senior Chief Petty Officer
E9	Master Chief Petty Officer

Glossary Listing, Continued

OFF-STAT-IND-PROMO-STAT-CD **OFFICER STATUS INDICATOR PROMOTION**
STATUS CODE
Sequence #0132   PMIS Database Screen 01

A one-character numeric code to identify the promotion status of an officer.
This is the fifth digit of the Status Indicator. Status Indicators may be found
in the USCG Register of Officers, COMDTINST M1427.1 (series).

CODE	MEANING
1	Selected
2	Eligible for consideration
3	Eligible for consideration upon completion of one additional year in current grade
4	Eligible for consideration upon completion of more than one year
5	Eligible for consideration, above the zone
6	Failed of selection two times
7	Failed of selection three times
8	Failed of selection four times
9	Failed of selection five or more times
0	No classification (includes members of Permanent Commissioned Teaching Staff, Reserve Program Administrators and retired officers recalled to active duty whose eligibility cannot be established until their running mates are in a promotion zone).
A	Selected, promotion refused
B	Selected, promotion withheld

OPFAC-MOD **OPFAC MODIFIER**
Sequence #0171   PMIS Database Screen 06

A three-character alpha/numeric code which identifies the particular
division or subunit of the member's permanent unit, specified in sequence
number 0577, and to which the member is assigned. This code is used in the
Personnel Allowance System.

Glossary Listing, Continued

ORD-AMEND-CX-CD   **PENDING TRANSFER PLACEMENT COGNIZANCE CODE-CHANGE CODE (AM/CX)**
Sequence #0827   PMIS Database Screen 06

A two-character alpha code to indicate whether the pending transfer orders are amended or canceled.

CODE   MEANING
AM   Orders amended
CX   Orders canceled

ORIG-CG-ENL-DT   **DATE ORIGINAL ENTRY ON ACDU USCG**
Sequence #1595   PMIS Database Screen 05

The date which the member first enlisted in the Coast Guard or Coast Guard Reserve. This field was not initialized and will not be set for members whose first entry into the Coast Guard was earlier than the Fall of 1989.

ORIG-ENL-EXP-DT   **EXTENSION INFORMATION ORIGINAL EXPIRATION OF ENLISTMENT**
Sequence #0453   PMIS Database Screen 05

The termination date prior to a period of involuntary retention for the member retained in the service beyond normal expiration of enlistment as reported on Action Code P 176. This is subsequently blanked out if an Action Code P 198 or P 199 is received.

P&A-ACCRUE-DT   **RESERVE PAY AND ALLOWANCES ACCRUAL DATE**
Sequence #2323   PMIS Database Screen 12

Date to start pay and allowances for higher rank. Used as start date instead of DOR.

Glossary Listing, Continued

PAY-BASE-DT　　**MEMBER PAY ENTRY BASE DATE**
Sequence #0031　PMIS Database Screen 05

The constructive date of entry for pay purposes (includes active and inactive
duty). For members in a continuous military status, this date will be the
same as the date enlisted or accepted an appointment, unless there is prior
service, break in service, or deductible time. Used for determining longevity
pay increases. Adjustments must be made in accordance with HRSICINST
M1000.2A, Personnel and Pay Procedures Manual (3PM). NOTE: THE
PAY BASE DATE CANNOT BE AFTER THE ACTIVE DUTY BASE
DATE.

PAY-BASE-VER-CD　　**PAY ENTRY BASE DATE VERIFICATION CODE**
Sequence #0089　PMIS Database Screen 05

A one-character alpha/numeric code to indicate whether or not a member's
pay entry base date has been verified.

PAYGH-RANK-RATE-CD　　**PAY GRADE HISTORY RANK RATE CODE**
Sequence #2408　PMIS Database Screen 08

The three digit prefix of member's RANK (0011) which identifies the
member's rate-specialty, for the corresponding occurrence of pay grade
history pay grade (sequence 0041).

PAYG-HIST　　**PAY GRADE HISTORY INFORMATION**
Sequence #0039　PMIS Database Screen 08

Group identification for information about the member's history of pay
grades. Includes sequence numbers 0040 through 0042.

Glossary Listing, Continued

PAYG-IND   **PAY GRADE INDICATOR**
Sequence #0520   PMIS Database Screen 01

A one-character numeric code to indicate certain pay grade information.

Code	Meaning
0	All other Officers
1	Officers with 4 years active enlisted or warrant officer service, or 1460 or more points as an enlisted member or warrant officer".

PAYGH-CD   **PAY GRADE HISTORY PERMANENT/TEMPORARY CODE**
Sequence #0042   PMIS Database Screen 08

A one-character alpha code to indicate whether the pay grade specified in the matching occurrence of sequence number 0041 is permanent or temporary.

Code	Meaning
P	Permanent
T	Temporary

PAYGH-DT   **PAY GRADE HISTORY EFFECTIVE DATE OF PAY GRADE**
Sequence #0040   PMIS Database Screen 08

The effective date of a member's pay grade as specified in the sequence number 0041.

PAYGH-GRADE   **PAY GRADE HISTORY PAY GRADE**
Sequence #0041   PMIS Database Screen 08

The member's pay grade which was effective on the date specified in the matching occurrence of sequence number 0040.

Glossary Listing, Continued

PCS-ARR-DT   **PCS ARRIVAL DATE**
Sequence #1657   PMIS Database Screen 06

The estimated date of arrival of the member at his/her next permanent duty station computed from the departure endorsement and the indicated number of days delay enroute. Will be filled with "999999" if a PCS/TEMDU reporting endorsement is received without a departure.

PEND-PRO   **PENDING PROMOTION INFORMATION**
Sequence #0107   PMIS Database Screen 08

Group identification for pending promotion information. Includes sequence numbers 0108 through 0110. This element occurs once.

PEND-PROMO-DT   **PENDING PROMOTION GRADE RATE DATE**
Sequence #0110   PMIS Database Screen 08

The effective date of the eligibility or promotion list upon which the data in sequence numbers 0108 and 0109 are based. For enlisted personnel, this date will be YRJAN01 for the NOV Servicewide, YRJUL01 for the MAY Servicewide, and is the same as the terminal eligibility date for those exams. For officer personnel, it is the date of final approval of the promotion list. This date would be the earliest the member could be promoted off of the current list, and does not indicate promotion on that date.

PEND-PROMO-NBR   **PENDING PROMOTION RANK ORDER NUMBER**
Sequence #0109   PMIS Database Screen 08

A number assigned to the member indicating his/her relative position on the eligibility/selection list for the grade/rate found in sequence number 0108.

Glossary Listing, Continued

PEND-PROMO-PAYG   **PENDING PROMOTION GRADE RATE CODE**
Sequence #0108   PMIS Database Screen 08

A five-character alpha/numeric code to identify the rate/specialty and pay grade for which the member is eligible/selected for promotion.

PEND-RPT-DEPT-DT   **PENDING TRANSFER REPORTING/DEPARTING DATE**
Sequence #0152   PMIS Database Screen 06

The date the member is ordered to depart from an old duty station or report to a new duty station as determined by the assignment detailer.

PEND-TERM-CD   **PENDING SEPARATION STATUS CODE**
Sequence #0234   PMIS Database Screen 05

For members in a terminal leave status, their pending separation status code will be shown. See sequence number 0043 for codes.

PEND-TERM-DT   **PENDING SEPARATION DATE**
Sequence #0236   PMIS Database Screen 05

For members in a terminal leave status, their upcoming separation date will be shown.

PEND-TRF-DET-ACCT-CD1   **PENDING TRANSFER DETAILER ACCOUNTING CODE 1ST CHARACTER**
Sequence #0143   PMIS Database Screen 06

Digit 1 of a two-character alpha/numeric code which identifies the detailer having cognizance over the assignment of the member. The 2nd digit may be found in sequence number 0144. On PCS transfer, this code is moved into sequence number 838. See sequence number 0838 for codes.

Glossary Listing, Continued

PEND-TRF-DET-ACCT-CD2   **PENDING TRANSFER DETAILER ACCOUNTING CODE 2ND CHARACTER**
Sequence #0144   PMIS Database Screen 06

Digit 2 of a two-character alpha/numeric code which identifies the detailer having cognizance over the assignment of the member. The 1st digit may be found in sequence number 0143. On PCS transfer, this code is moved into sequence number 0838. See sequence number 0838 for codes.

PEND-TRF-DET-ACCT-CD3   **PENDING TRANSFER DETAILER ACCOUNTING CODE 3RD CHARACTER**
Sequence #0145   PMIS Database Screen 06

A one-character alpha code to identify the account chargeable for PCS costs of a move. This information is not stored elsewhere as permanent data.

CODE	MEANING
I	In CONUS
E	Outside CONUS
N	No cost move
R	Retirement/RELAD

PEND-TRF-DET-ACCT-CD4   **PENDING TRANSFER DETAILER ACCOUNTING CODE 4TH CHARACTER**
Sequence #0146   PMIS Database Screen 06

This is used in combination with sequence numbers 0147 through 0150 to record the cost of a PCS transfer. This information is not stored elsewhere as permanent data.

Glossary Listing, Continued

PEND-TRF-DET-ACCT-CD5   **PENDING TRANSFER DETAILER ACCOUNTING
CODE 5TH CHARACTER**
Sequence #0147   PMIS Database Screen 06

This is used in conjunction with sequence numbers 0146 and 0148 through
0150 to record the cost of a PCS transfer. This information is not stored
elsewhere as permanent data.

PEND-TRF-DET-ACCT-CD6   **PENDING TRANSFER DETAILER ACCOUNTING
CODE 6TH CHARACTER**
Sequence #0148   PMIS Database Screen 06

This is used in combination with sequence numbers 0146, 0147, 0149 and
0150 to record the cost of a PCS transfer. This information is not stored
elsewhere as permanent data.

PEND-TRF-DET-ACCT-CD7   **PENDING TRANSFER DETAILER ACCOUNTING
CODE 7TH CHARACTER**
Sequence #0149   PMIS Database Screen 06

This is used in combination with sequence numbers 0146 through 0148 and
0150 to record the cost of a PCS transfer. This information is not stored
elsewhere as permanent data.

PEND-TRF-DET-ACCT-CD8   **PENDING TRANSFER DETAILER ACCOUNTING
CODE 8TH CHARACTER**
Sequence #0150   PMIS Database Screen 06

This is used in combination with sequence numbers 0146 through 0149 to
record the cost of a PCS transfer. This information is not stored elsewhere
as permanent data.

Glossary Listing, Continued

PEND-TX   **PENDING TRANSFER INFORMATION**
Sequence #0111   PMIS Database Screen 06

Group identification for pending transfer information. Includes sequence numbers 0113 through 0119, 0121, 0122, 0151, 0152, 0826 and 0827. This element occurs once.

PERM-PAYG   **OFFICER PERMANENT GRADE RATE CODE**
Sequence #0134   PMIS Database Screen 01

A five-character numeric code to identify each officer by permanent specialty and pay grade. Grade rate codes may be found in Chapter 3-D of this manual.

PERM-PAYG-DT   **OFFICER PERMANENT GRADE RATE DATE**
Sequence #0135   PMIS Database Screen 01

The date an officer is appointed to the permanent grade specified in sequence number 0134.

PERM-UNIT-DIST   **PERMANENT DUTY STATION DISTRICT**
Sequence #0527   PMIS Database Screen 06

A two-character numeric code to indicate the district of the member's current permanent duty station as specified in sequence number 0577.

PERM-UNIT-OPFAC   **PERMANENT DUTY STATION OPFAC**
Sequence #0577   PMIS Database Screen 06

A five-character numeric code to indicate the OPFAC number of the member's current permanent duty station. OPFAC code numbers may be found in Operating Facilities of the , COMDTINST M5440.2 (series).

Glossary Listing, Continued

PHYS-EXAM-DT **DATE OF PHYSICAL EXAM**
Sequence #2396   PMIS Database Screen 02

The date the member was last physically examined.

PHYS-EXAM-STAT-CD **PHYSICAL EXAM STATUS CODE**
Sequence #2397   PMIS Database Screen 02

A one-character alpha code to indicate the result of the member's last
physical condition

PO-ASG-IND **G-PE PETTY OFFICER ASSIGNMENT INDICATOR**
Sequence #0935   PMIS Database Screen 06

A one-character alpha code used by the petty officer detailer to indicate the
type of assignment.

Code	Meaning
A	Alcohol rehabilitation counselor
B	Recruiter (salesman and supervisor)
C	Senior enlisted advisor
D	Drug education specialist
F	Instructor (IT School, Recruiter School, district leadership schools, POCM billet G-PRF)
G	AMVER Center PO billets
H	Human relations counsel or facilitator, Defense Relations Institute counselor
I	Investigator
J	Instructor (CG leadership schools, Yorktown & Petaluma, law enforcement)
K	District commander driver, CCGD8 & CCGD9
L	Career Counselor, Cape May
M	Driver trainer, CCGD12
O	Tactical law Enforcement Team
Q	Barracks MAA, Support Center Seattle
S	Special Services personnel
T	Tower Operator
Z	Humanitarian assignment

Continued on next page

Glossary Listing, Continued

PRI-AD-TERM-DT   **PRIOR EFFECTIVE ACTIVE DUTY TERMINATION DATE**
                      Sequence #1062   PMIS Database Screen 05

The prior Effective Active Duty Termination Date (EXP-AD-TERM-DT)
when the member has had a prior period of active duty paid by
PMIS/JUMPS. Set by accessions transactions and by an Endorsement on
Orders for reserve members called to active duty for a period of over 140
days. This date will correspond to the latest SEP-PROG-DESIG, sequence
number 1239, when the member is currently on active duty.

PRI-AD-TERM-SPD   **PRIOR EFFECTIVE ACTIVE DUTY TERMINATION DATE
                      SEPARATION PROGRAM DESIGNATOR**
                      Sequence #2384   PMIS Database Screen 05

A three-character alpha code to indicate the Separation Program Designator
of the prior RELAD when the member is currently on active duty. Used in
conjunction with sequence number 2312. Codes may be found in
COMDTINST M1900.4 (series).

PRI-EFF-LOSS-DT   **PRIOR EFFECTIVE LOSS DATE**
                      Sequence #1593   PMIS Database Screen 05

Used to record the most recent Loss Date from JUMPS when member's
PMIS/JUMPS account has been reestablished. This is used for linking
records of the ADPM with history files and fiscal year files with each other.

PRI-EFF-LOSS-SPD   **PRIOR EFFECTIVE LOSS DATE SEPARATION PROGRAM
                      DESIGNATOR**
                      Sequence #2381   PMIS Database Screen 05

A three-character alpha code to indicate the Separation Program Designator
of the prior retirement or discharge when a member had since reentered the
Coast Guard. Used in conjunction with sequence number 1593. Codes may
be found in COMDTINST M1900.4 (series).

Continued on next page

Glossary Listing, Continued

PRI-ENL-CD   **PRIOR ENLISTMENTS IN COAST GUARD CODE**
Sequence #0194   PMIS Database Screen 05

A one-character alpha/numeric code to indicate whether the member is on his/her first enlistment or on a subsequent enlistment.

PRI-ENL-MTHS   **OFFICER NUMBER MONTHS ENLISTED SERVICE**
Sequence #0943   PMIS Database Screen 01

The number of months an officer served in an enlisted status.

PRI-ENL-RANK   **OFFICER PRIOR ENLISTED RATE CODE**
Sequence #0138   PMIS Database Screen 01

The last enlisted grade rate code held by an officer with prior enlisted service.

PRI-RES-TRA/PAY-CAT   **RESERVE PREVIOUS TRAINING/PAY CATEGORY**
Sequence #2322   PMIS Database Screen 12

The latest previous code indicating the training and pay category a reserve member had been assigned. Used with Training/Pay Date and Training/Pay Category.

PRI-UNIT   **PRIOR UNIT INFORMATION**
Sequence #0097   PMIS Database Screen 07

Group identification for prior permanent unit information. Includes sequence numbers 0098 through 0103, and 0269. This element occurs 24 times.

Glossary Listing, Continued

PRI-UNIT-DIST **PRIOR UNIT IDENTIFICATION DISTRICT CODE**
Sequence #0100   PMIS Database Screen 07

A two-character alpha/numeric code to identify the district or Headquarters unit to which the member's prior permanent unit (as specified in the matching occurrence of sequence number 0101) was attached. Grade codes may be found in Section E of this Chapter.

PRI-UNIT-DT-DEPT   **PRIOR UNIT INFORMATION DATE DETACHED**
Sequence #0099   PMIS Database Screen 07

Date member detached from prior permanent unit specified in the matching occurrence of sequence number 0101.

PRI-UNIT-DT-RPT   **PRIOR UNIT INFORMATION DATE REPORTED**
Sequence #0098   PMIS Database Screen 07

Date member reported to prior permanent unit specified in the matching occurrence of sequence number 0101.

PRI-UNIT-OBC   **PRIOR UNIT OFFICER BILLET CODE**
Sequence #0102   PMIS Database Screen 07

A six-character alpha/numeric code to identify, for officers, the specific position held at a prior permanent unit specified in the matching occurrence of sequence number 0101. Codes are assigned to represent specific tasks, duties and responsibilities within the group or specialty, requiring the services of one individual. Codes are listed in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series).

PRI-UNIT-OPFAC   **PRIOR UNIT IDENTIFICATION OPFAC CODE**
Sequence #0101   PMIS Database Screen 07

A five-character numeric code to identify the OPFAC of the member's prior unit. Codes are listed in Operating Facilities of the, COMDTINST M5440.2 (series).

Glossary Listing, Continued

PRI-UNIT-RANK   **PRIOR UNIT LAST RATE HELD (GRADE RATE CODE)**
Sequence #0103   PMIS Database Screen 07

The grade rate code assigned to a member at time of detachment from the prior permanent unit specified in the matching occurrence of sequence number 0101. Grade rate codes may be found in Chapter 3-D of this manual.

PRI-UNIT-TYPE   **PRIOR UNIT CONTIN-FLOAT-SHORE-UNIT-RES CODE**
Sequence #0269   PMIS Database Screen 07

A one-character numeric code to indicate whether the member's prior permanent unit specified in the matching occurrence of sequence number 0101 was inside or outside the continental United States, restricted or nonrestricted, ashore or afloat.

Code	Meaning		
1	INCONUS	Afloat	Nonrestricted
2	INCONUS	Afloat	Restricted
3	INCONUS	Ashore	Nonrestricted
4	INCONUS	Ashore	Restricted
5	OUTCONUS	Afloat	Nonrestricted
6	OUTCONUS	Afloat	Restricted
7	OUTCONUS	Ashore	Nonrestricted
8	OUTCONUS	Ashore	Restricted

PROJ-ROT-DT   **PENDING TRANSFER PROJECTED ROTATION DATE**
Sequence #0115   PMIS Database Screen 06

The projected date the member will rotate from the new duty station specified in sequence number 0118.

QUAL-CD   **QUALIFICATION CODE (ENLISTED) AND COLLATERAL DUTIES (OFFICERS)**
Sequence #0176   PMIS Database Screen 09

A two-character alpha/numeric code to identify specific qualifications held by enlisted personnel in accordance with the Enlisted Qualifications Manual, COMDTINST M1414.8 (series). Also contains collateral duties for officers as input on Assignment Data (CG-3698A). See sequence number 2394 for date of qualification codes.

Continued on next page

Glossary Listing, Continued

QUAL-CD-DT **QUALIFICATION CODE (ENLISTED) AND COLLATERAL DUTIES (OFFICERS) DATE**
Sequence #2394   PMIS Database Screen 09

A six-character date (YYMMDD) to identify the date specific qualifications held by enlisted personnel in accordance with the Enlisted Qualifications Manual, COMDTINST M1414.8 (series) were assigned. Also contains collateral duties for officers as input on the Assignment Data (CG-3698A). See sequence number 0176 for qualification codes.

RANK **RANK**
Sequence #0011   PMIS Database Screen 00

A five-character numeric code to identify the member's rate/specialty and pay grade. See Chapter 3-D for table of codes.

RANK-DT **DATE OF RANK**
Sequence #0012   PMIS Database Screen 01

Date member was last promoted, reduced or changed to current rank, grade or rate. A change in rate (no promotion or reduction) will also change the RANK-DT.

RCSBP-ELECTION-CD **RESERVE COMPONENT SURVIVORS BENEFIT PLAN ELECTION CODE**
Sequence #2399   PMIS Database Screen 12

A one-character code indicating annuity option for RCSBP elections.

CODE   MEANING
A   Member defers a survivor annuity election or declines coverage until age 60
B   Member provides deferred survivor annuity that begins on the member's 60th birthday or on the day after the member's death, whichever is latest
C   Member elects to provide an immediate survivor annuity beginning on the day after the member's death

Continued on next page

Glossary Listing, Continued

RCSBP-ELECTION-DATE   **RESERVE COMPONENT SURVIVORS BENEFIT PLAN ELECTION CODE**
Sequence #2400   PMIS Database Screen 12

The date the member signed the RCSBP election.

REC-ASGT-AFLT   **MOST RECENT ASSIGNMENT AFLOAT**
Sequence #0709   PMIS Database Screen 01

This one digit code when used with Table IV of PMIS/JUMPS Manual, Vol. V, Chapter 2, will show what type of operational afloat assignment was most recently held, and also the pay grade at which the experience was obtained.

REC-OP-FLD-ASGT   **MOST RECENT OPERATIONAL FIELD UNIT ASSIGNMENT**
Sequence #0708   PMIS Database Screen 01

This one digit code when used with Officer Experience Indicator Code. Shows type of operational field unit assignment was most recently held, and also the pay grade at which the experience was obtained. See Chapter 2-H.

RECOM-BY-CO   **RECOMMENDED BY CO TO TAKE SWE**
Sequence #2410   PMIS Database Screen 02

Enter "Y" for yes, if CO has recommended this member for advancement. "N" for no, if CO has not recommended member for advancement.

RENL-CD   **REENLISTMENT CODE**
Sequence #0216   PMIS Database Screen 05

A three to five-character alpha numeric code to indicate the member's discharge or reenlistment designator. (e.g. RE1, RE3Y)

Continued on next page

Glossary Listing, Continued

REQ-TERM-CD   **REQUESTED AD TERMINATION TYPE CODE**
Sequence #1061   PMIS Database Screen 05

A one-character code to indicate the type of active duty termination the member has requested.

Code	Meaning
1	Retirement
2	Early Discharge
3	Resignation (not currently used)
4	Release from Active Duty

REQ-TERM-DT   **REQUESTED AD TERMINATION DATE**
Sequence #1060   PMIS Database Screen 05

The date indicating the last day a member will serve on active duty based on date entered on the Rough Order Form. Currently used only for retirements. This date takes precedence over sequence number 0168 when less than the EXP-AD-TERM-DT. The submission of new orders or the cancellation of retirement orders will blank out this field.

RES-AD-LEN   **ENLISTED RESERVIST TERM OF CURRENT ACTIVE DUTY**
Sequence #0191   PMIS Database Screen 05

The number of months (rounded to the nearest whole month) a reserve member or recalled retiree has agreed to serve on active duty.

Glossary Listing, Continued

RES-ANNIV-DT   **RESERVE ANNIVERSARY DATE**
Sequence #2324   PMIS Database Screen 12

For those who entered the Reserve on or before 30 Jun 49, the anniversary year extends from 1 Jul to 30 Jun. For those entering after 30 Jun 49, or whose reserve service was broken, the anniversary year extends from the date of entry or reentry to the day preceding the anniversary of entry or reentry. Recorded in MMDD format.

RES-ASSIGN-DT   **RESERVE (HOME) DUTY STATION DATE ASSIGNED UNIT**
Sequence #2317   PMIS Database Screen 12

The date the member was assigned to their home reserve unit.

RES-CAT   **RESERVE CATEGORY**
Sequence #2318   PMIS Database Screen 12

Denotes the category and classification of the reserve member. See COMDTINST M1011.27 (series), CG Reserve Administration and Training Manual.

Code	Description
C	Retired Reserve. Includes: • RET-1 Retired with pay • RET-2 Retired-eligible for pay upon reaching age 60 • RET-3 Retired-ineligible for retired pay
I	Standby Reserve
R	Ready Reserve
S	Standby Reserve (Active Status)

RES-CLASS   **RESERVE CLASSIFICATION**
Sequence #2319   PMIS Database Screen 12

Denotes the category and classification of the reserve member. See Chapter 1-D, COMDTINST M1001.28 (series), CG Reserve Policy Manual.

Glossary Listing, Continued

RES-DIST   **RESERVE (HOME) DUTY STATION - DISTRICT**
Sequence #2313   PMIS Database Screen 12

Member's home of record district. Updated for (1) recording reserve district when member reports on active duty in excess of 139 days, (2) when member moves from one inactive unit to another, (3) when member RELADs or, (4) a correction is needed to home of record.

RES-DRILL-OBL-DT   **RESERVE DRILL OBLIGATION DATE**
Sequence #2332   PMIS Database Screen 12

The date the member of the Reserve no longer is required to perform inactive duty drills. This information is entered on a Personnel Action. This information is found on the Statement of Understanding (CG-3301A) or Application for a Direct Commission.

RES-INIT-ENTRY-DT   **INITIAL ENTRY RESERVE FORCES**
Sequence #2331   PMIS Database Screen 12

Date of initial entry into any reserve forces.

RES-OPFAC   **RESERVE (HOME) DUTY STATION - OPFAC**
Sequence #2314   PMIS Database Screen 12

Member's home of record OPFAC. Updated for (1) recording reserve OPFAC when member reports on active duty in excess of 139 days, (2) when member moves from one inactive unit to another, (3) when member RELADs or, (4) a correction is needed to home of record.

Glossary Listing, Continued

RES-PHYS-EXAM-CD   **RESERVE PHYSICAL EXAM STATUS CODE**
Sequence #2397   QUERY SCREEN 12

A one-character alpha code to indicate the result of the member's last
physical condition. See PHYS-EXAM-STAT-CD.

RES-PHYS-EXAM-DT   **DATE OF PHYSICAL EXAM**
Sequence #2396   QUERY SCREEN 12

The date the member was last physically examined.

RES-PPO   **RESERVE PROVISIONAL PETTY OFFICER STATUS**
Sequence #2416   PMIS Database Screen 12

Indicates whether member is in a provisional petty officer status. Valid
codes are:
Y = Yes
N = No

RES-RTB-ELIG-DT   **ELIGIBILITY DATE**
Sequence #2422 PMIS Database Screen 12

The date a reserve member became entitled to RTB.

RES-RTB-LTR-DT   **RECEIPT DATE BY MEMBER OF RTB NOTIFICATION LETTER**
Sequence #2418 PMIS Database Screen 12

The date the member signed the Certified - Return Receipt card.

Glossary Listing, Continued

RES-RTB-OPTION   **RTB OPTION**
Sequence #2421 PMIS Database Screen 12

A one-character alpha code to identify the RTB option the member is
eligible for.
Valid codes are:
L = Separation Pay (6-15 years of service)
Q = Early qualification for retirement pay at age 60 (involuntary separation)
X = Other
W = Not applicable (not eligible for any RTB option)

RES-RTB-RESPONSE   **RTB RESPONSE**
Sequence #2420 PMIS Database Screen 12

Member's response to the RTB Notification letter. Valid codes are:
A = Accept
D = Decline

RES-RTB-RESPONSE-DT   **RTB RESPONSE DATE**
Sequence #2419 PMIS Database Screen 12

The date of receipt in Commandant of member's response to the RTB
notification letter.

RES-RTB-TFR-CD   **TRANSFER REASON CODE**
Sequence #2415 PMIS Database Screen 12

A two character alpha code assigned by the ISC to determine RTB
eligibility or ineligibility of reserve member. See Personnel Action Code
R 900 for codes

Continued on next page

Glossary Listing, Continued

RES-2X2X2-2X4 **RESERVE 2X2X2-2X4 PROGRAM**
Sequence #2417 PMIS Database Screen 12

Indicates whether member is in a 2X2X2 or 2X4 program. Valid codes are:
Y = Yes
N = No

RES-SCREEN-CD **CODE TO SHOW DISTRICT ACTION DETERMINED
NECESSARY AS RESULT OF SCREENING QUESTIONNAIRE**
Sequence #2327   PMIS Database Screen 12

Denotes whether response has or has not been received to the screening
questionnaire.
CODE MEANING
1   Retain in Ready Reserve
2   Transfer to Ready Reserve
3   Retain in Standby Reserve
4   Transfer to Standby Reserve

RES-SCREEN-DT **DATE LAST SCREENING QUESTIONNAIRE AS SIGNED BY
MEMBER**
Sequence #2326   PMIS Database Screen 12

Date last screening questionnaire was sent to member.

Glossary Listing, Continued

RES-STANDBY-CD   **RESERVE STANDBY REASON**
Sequence #2329   PMIS Database Screen 12

Used when assigned to the Standby Reserve.

CODE   MEANING
0   Must be used if element code 14 is either "1" or "3"
1   No obligation / Requested transfer
2   No obligation / Surplus
3   No obligation / Training unsatisfactory
4   Elective or appointive position
5   Personal hardship
6   Community hardship
7   Critical civilian occupation
8   Apprentice, critical civilian occupation
9   Student, critical civilian occupation
F   Failure to meet weight or appearance standards
P   Theological student
R   Other
8   Apprentice, critical civilian occupation
9   Student, critical civilian occupation
F   Failure to meet weight or appearance standards
P   Theological student
R   Other

RES-TRA/PAY-CAT   **RESERVE TRAINING/PAY CATEGORY**
Sequence #2320   PMIS Database Screen 12

Indicates the training and pay category to which the reserve member has
been assigned. See Section 1-D-5 of COMDTINST M1001.28 (series), CG
Reserve Policy Manual.

Continued on next page

Glossary Listing, Continued

RES-TRA/PAY-CAT-DT   **RESERVE TRAINING/PAY CATEGORY DATE**
Sequence #2321   PMIS Database Screen 12

Date the member was placed in TRA/PAY Category.

RES-TRNG-RATING   **RESERVE TRAINING RATING**
Sequence #2325   PMIS Database Screen 12

Used for non-rated and authorized laterals.

RES-TRNG-RATING-DT   **RESERVE TRAINING RATING DATE**
Sequence #2431   PMIS Database Screen 12

The date the Reserve Training Rating is effective.

RESP-PAY-CD   **RESPONSIBILITY PAY CODE**
Sequence #1329   PMIS Database Screen 14

A 1-character numeric code to indicate if a member is in receipt of
Responsibility Pay.

CODE	MEANING
0	Entitlement to Responsibility Pay terminated
1	Receiving Responsibility Pay
Blank	Never received entitlement

RESP-PAY-DT   **RESPONSIBILITY PAY DATE**
Sequence #1488   PMIS Database Screen 14

The date a member became entitled to Responsibility Pay as shown in
sequence number 1329.

Glossary Listing, Continued

RETENTION-CD   **ENLISTED MEMBER RETENTION CODE**
Sequence #2343   PMIS Database Screen 05

A one-character alpha code to indicate the reason the enlisted member is
being retained past the expected termination date.

Code	Meaning
J	War or other national emergency (12-B-11 c)
K	Crewman on cutter at sea (12-B-11d)
L	Assigned to station OUTCONUS (12-B-11e)
M	Medical disability (12-B-11f)
N	Trial or punishment by court-martial (12-B-11h)
O	Public Interest (12-B-11i)
P	Awaiting action by reviewing authority (12-B-11j)
Q	High Year Tenure

RETENTION-CD   **Retention Code**
Fixed Data Segment 00, Page 2.
Retention code in fixed data is set in Update by the P176 or the SOI
(L6FA) as a '1' or '0' and is used to compute leave sold, after which
Compute resets it back to zero ('0').

RETIRE-CD   **EFFECTIVE TERMINATION TYPE CODE (ENTERED AFTER
SEPARATION)**
Sequence #1065   PMIS Database Screen 05

A one-character alpha/numeric code assigned to retirees after separation to
indicate the reason and authority for retirement. Codes can be found in
Section 2-C of this manual.

REXT-EFF-DT   **EXTENSION INFORMATION EFFECTIVE DATE OF REEXTENSION**
Sequence #0455   PMIS Database Screen 05

The date a reextension becomes effective - normally the day after the expiration
of a prior extension.

REXT-LEN   **EXTENSION INFORMATION REEXTENSION TERM**
Sequence #0456   PMIS Database Screen 05

The number of years, months and days an enlistment is reextended. Format
is YMMDD.

Glossary Listing, Continued

REXT-RCVD-CD   **EXTENSION INFORMATION P 199 RECEIVED FLAG**
Sequence #0457   PMIS Database Screen 05

When Action Code P 199 is received reporting that the member has begun service under a voluntary reextension of enlistment, this six-digit field will be filled with six ones (e.g., "111111"). If Action Code P 159 is used to terminate an involuntary retention reported by Action Code P 176, this field will contain "176176" until the Action Code P 199 is received.

RMGIB-ELIG-STAT   **RESERVE MGIB ELIGIBILITY STATUS CODE**
Sequence #2387   PMIS Database Screen 12

A one-character alpha code to indicate the MGIB eligibility status of a reserve member under Title 10 U.S.C. Chapter 106 for education benefits. Also applies to and includes personnel that want to pursue a second degree in another subject or nondegree program and have already been awarded a bachelor's degree and have entered into a new six-year contract on or after 1 Oct 90.

Code	Meaning
W	Not Applicable
A	Ineligible - Completed the course of instruction required for the award of a baccalaureate degree or equivalent
B	Ineligible - Receiving a ROTC scholarship
C	Ineligible - Has not executed a six-year contract or service obligation in the Selected Reserve after 30 JUN 85
D	Ineligible - Has not completed IADT
E	Ineligible - Did not complete the requirements for a high school diploma or the equivalent prior to completing IADT, or for officers, prior to executing a six-year Selected Reserve obligation
F	Eligible - Meets all eligibility criteria. Also applies to and includes personnel that want to pursue a second degree in another subject or nondegree program and have already been awarded a Bachelor's Degree and have entered into a new six-year contract on or after 1 October 1990.
G	Eligibility Terminated - Correction of erroneous report of eligibility
H	Eligibility Terminated - Failed to participate satisfactorily prior to completing required service
I	Eligibility Terminated - Expiration of 10 year eligibility period
J	Eligibility Terminated - Completed a course of instruction required for the award of a baccalaureate degree or equivalent
K	Eligibility Terminated - Receiving a ROTC scholarship
L	Eligibility Terminated - Deceased, separated or transferred from the Selected Reserve prior to completing required service
M	Eligibility Suspended - Being processed for unsatisfactory participation
N	Eligibility Suspended - Granted a period of authorized non-availability (missionary) up to three years
P	Eligibility Suspended - Granted a period of authorized non-availability (all others) not to exceed one year
Q	Eligibility Reinstated - Has re-affiliated with the Selected Reserve
R	Eligible - Disability not the result of individual's willful misconduct

Glossary Listing, Continued

RMGIB-OBL-SVC   **RESERVE MGIB OBLIGATED SERVICE**
Sequence #2390   PMIS Database Screen 12

A two-character alphanumeric code indicating the number of months of
Montgomery GI Bill Title 10, U. S. Code Section 106 obligated service
remaining at the termination or suspension of the Reserve Component
MGIB Eligibility.

Code	Meaning
00-72	Valid number of months remaining
WW	Not applicable

RMGIB-PENAL-STAT   **RESERVE MGIB PENALTY STATUS CODE**
Sequence #2391   PMIS Database Screen 12

A one-character numeric code indicating penalty status at the time of
termination or suspension of Reserve Component MGIB Eligibility.

Code	Meaning
1	Penalty not required
2	Penalty required
3	Penalty required, waived
6	Not applicable

RMGIB-START-DT   **RESERVE MGIB START DATE**
Sequence #2388   PMIS Database Screen 12

A six-character numeric code indicating eligibility start date; taken from
block 10 of DD Form 2384, Selected Reserve Educational Assistance
Program (GI Bill) Notice of Basic Eligibility.

RMGIB-STOP-DT   **RESERVE MGIB STOP DATE**
Sequence #2389   PMIS Database Screen 12

A six-character numeric date indicating suspension date, termination date,
or expected termination date of the Reserve Component MGIB Eligibility.

Glossary Listing, Continued

ROT-DT	**ROTATION ELIGIBILITY DATE** *Sequence #0228 PMIS Database Screen 06* The date the member is eligible for transfer from his/her permanent duty station.
RU	**PERMANENT DUTY STATION REPORTING UNIT CODE** *Sequence #0530 PMIS Database Screen 06* A two-character numeric code to indicate the reporting unit that is administratively responsible for the member's cur-rent permanent unit, as specified in sequence number 0577.
RU-DIST	**PERMANENT DUTY STATION REPORTING UNIT DISTRICT** *Sequence #1238 PMIS Database Screen 06* A two-character numeric code to indicate the district of the reporting unit of the member's permanent duty station (as opposed to present duty station).
RU-OPFAC	**PERMANENT DUTY STATION REPORTING UNIT OPFAC CODE** *Sequence #0720 PMIS Database Screen 06* A five-character numeric code to indicate the OPFAC number of the member's permanent reporting unit which is specified in sequence number 0530. OPFAC codes may be found in Operating Facilities of the , COMDTINST M5440.2 (series).

Glossary Listing, Continued

SDAP-CAT | **SDAP CATEGORY**
Sequence #0231   PMIS Database Screen 14

A one-character alpha code to indicate the category of Special Duty
Assignment Pay to which a member is authorized. Used in connection with
SDAP Indicator Number, sequence number 0230.

CODE MEANING
A   Coxswains (Surf Qual)
B   CEA (Gold Badge
C   District 17 ANT
O   Entitlement to SDAP terminated
R   Recruiters
S   Officer in Charge Afloat
T   Officer in Charge Ashore
U   Special Agents
V   Recruit CC of ACC
X   National Strike Force
Y   Helicopter Rescue Swimmer
Blank Never received entitlement

SDAP-DT | **SDAP DATE**
Sequence #1487   PMIS Database Screen 14

The date a member became entitled to Special Duty Assignment Pay as shown in
sequence number 0230.

Glossary Listing, Continued

SDAP-IND-NBR   **SDAP INDICATOR NUMBER**
Sequence #0230   PMIS Database Screen 14

A one-character numeric code indicating the monetary value of Special Duty Assignment Pay authorized an enlisted member. Used in connection with SDAP Category, sequence number 0231.

CODE MEANING
0   Entitlement to Special Duty Assignment Pay terminated
1   Rate $055
2   Rate $110
3   Rate $165
4   Rate $220
5   Rate $275
Blank Never received entitlement

Glossary Listing, Continued

SEC-CLEAR-ELIG   **CLEARANCE/SECURITY DETERMINATION ELIGIBILITY**
Sequence #2403   PMIS Database Screen 02

A one-character alpha/numeric code to indicate the level of security
clearance investigated/adjudicated.

CODE	MEANING
A	No clearance - investigation reopened
B	SCI denied - ineligible for clearance
C	Confidential
D	Clearance denied
E	Interim Confidential
F	SCI revoked - ineligible for clearance
G	Secret - SCI denied
H	Secret - SCI revoked
K	Eligible for SCI w/waiver
L	Restricted to non-sensitive duties - not eligible for sensitive duties
M	Top Secret only - SCI revoked
N	Top Secret only - SCI denied
O	Interim Secret
P	Interim Top Secret
Q	No clearance/access required - favorable investigation
R	Clearance revoked
S	Secret
T	Top Secret
U	Interim SCI
V	DCID 1/14 eligible
W	Top Secret - SCI requires adjudication
X	Action pending
Y	Pending final adjudication/access suspended
Z	Adjudicative action incomplete due to loss of jurisdiction
1	LAA Confidential
2	LAA Secret
3	Pending reply to Letter of Intent (LOI)/Statement of Reasons (SOR)
4	Clearance administratively withdrawn
5	Position of trust (no clearance determination)
6	SCI denied (no clearance determination)
7	SCI revoked (no clearance determination)

Glossary Listing, Continued

SEC-CUR-CLEAR-AUTH   **CURRENT CLEARANCE AUTHORIZED/SECURITY DETERMINATION**
Sequence #2339   PMIS Database Screen 02

A one-character alpha/numeric code to indicate the level of security clearance at the member's current unit.

CODE	MEANING
A	No clearance - investigation reopened
B	SCI denied - ineligible for clearance
C	Confidential
D	Clearance denied
E	Interim Confidential
F	SCI revoked - ineligible for clearance
G	Secret - SCI denied
H	Secret - SCI revoked
I	Clearance pending - investigation reopened
J	No clearance required - file created
K	Eligible for SCI w/waiver
L	Restricted to non-sensitive duties - not eligible for sensitive duties
M	Top Secret only - SCI revoked
N	Top Secret only - SCI denied
O	Interim Secret
P	Interim Top Secret
Q	No clearance/access required - favorable investigation
R	Clearance revoked
S	Secret
T	Top Secret
U	Interim SCI
V	DCID 1/14 eligible
W	Top Secret - SCI requires adjudication
X	Action pending
Y	Pending final adjudication/access suspended
Z	Adjudicative action incomplete due to loss of jurisdiction
1	LAA Confidential
2	LAA Secret
3	Pending reply to Letter of Intent (LOI)/Statement of Reasons (SOR)
4	Clearance administratively withdrawn
5	Position of trust (no clearance required)
6	SCI denied (no clearance determination)
7	SCI revoked (no clearance determination)

Continued on next page

Glossary Listing, Continued

SEC-CUR-CLEAR-AUTH-DT   **DATE CLEARANCE ADJUDICATED/GRANTED**
Sequence #2340   PMIS Database Screen 02

The six-character numeric date (YYMMDD) to indicate the most recent
security clearance shown in sequence number 2339 was granted.

SEC-INVEST-DT   **INVESTIGATION DATE**
Sequence #2338   PMIS Database Screen 02
Six-character numeric date (YYMMDD) to identify when investigation was
completed.

SEC-INVEST-TP   **TYPE OF INVESTIGATION**
Sequence #2337   PMIS Database Screen 02

One character alpha/numeric code to indicate type of security investigation.

CODE	MEANING
1	Entrance National Agency Check (ENTNAC)
2	National Agency Check (NAC)
3	NAC plus written inquiries (NACI)
4	Background Investigation (BI)
5	Special Background Investigation (SBI)
6*	NAC plus 10 years service (obsolete)
7	NAC plus Special Investigative Inquiry (SII)
8	ENTNAC plus SII
9*	Interview oriented BI (IBI)
0	Single Scope Background Investigation (SSBI)
A*	Expanded NAC
B	Local Records Check (LRC) plus NACI requested
C	NACI requested
D	NAC (or NACI) plus BI or IBI requested
E	NAC plus SBI requested
F	BI/IBI (10 year scope)
G	Periodic reinvestigation (PR) or BI/IBI
H*	NAC plus partial SBI
I*	Character investigation (IRS)
J	PR or SBI

Glossary Listing, Continued

SEC-INVEST- TP Continued	K*	Limited BI (LBI) (OPM)
	L*	Minimum BI (MBI)(OPM)
	M	SBI plus current NAC
	N	NACI plus current NAC
	O*	SII
	P	IBI/BI plus current NAC
	Q*	MBI plus current NAC
	R*	LBI plus current NAC
	S	SBI plus current BI/IBI
	T	IBI/BI requested
	U	Other
	V	SBI requested
	W	Local Records Check (LRC)
	X*	MBI - Expanded
	Y*	LBI - Expanded
	Z	NACI plus SII
	#	Secret PR
	*	Periodic reinvestigation - Secret

SEP-PAY-DT **SEPARATION PAY DATE**
Sequence #2426   QUERY SCREEN - 05

Date member received separation pay, readjustment pay, severance pay, or disability severance pay.

SEP-PAY-AMT **SEPARATION PAY AMOUNT**
Sequence #2427   QUERY SCREEN - 05

Amount of separation pay, readjustment pay, severance pay, or disability severance pay, paid to member.

Glossary Listing, Continued

SEP-PAY-CD   **SEPERATION PAY CODE**
Sequence #2428   QUERY SCREEN - 05

A two-Character alphanumeric field. The first alpha character shows the
type of pay and the second numeric character indicates the service that
made the payment.

Code	1st Position (Type of Pay)
A	Separation
B	Readjustment
C	Severance
D	Disability Severance
E	SSB
F	VSI

Code	2nd Position (Service paying)
1	Army
2	Navy
3	Marine Corp
4	Air Force
5	Coast Guard
6	NOAA
7	Public Health
8	National Guard

SEX   **MEMBER SEX CODE**
Sequence #0017   PMIS Database Screen 01

A one-character alpha code to identify the member's gender.

SHIP-HELO-QUAL   **AVIATOR INFORMATION SHIP-HELICOPTER-
OPERATIONS QUALIFICATION**
Sequence #0073   PMIS Database Screen 10

A one-character alpha code to identify aviators with ship-helicopter
operations qualifications.

Code	Meaning
Q	Qualified
L	Lapsed
Blank	Not Qualified

Continued on next page

Glossary Listing, Continued

SIG-NBR	**OFFICER SIGNAL NUMBER** *Sequence #0127 PMIS Database Screen 01*

A six-character numeric code to identify the position of seniority of all officers on active duty. Signal numbers may be found in the USCG Register of Officers, COMDTINST M1427.1 (series). Each year a new Register of Officers is printed and new signal numbers are assigned.

The signal number assigned to an "extra number" officer will be the same as that assigned to the next senior regular commissioned officer except that it will contain an alphabetic suffix. "Extra number" officers are included on the Active Duty Promotion List (ADPL).

An officer not included on the ADPL is assigned the same signal number as his/her running mate except that it will contain an alphabetic suffix. The officer signal number consists of six positions. Positions 1-4 contain the actual signal number. Positions 5 and 6 are used to insert new members (01 would be used to insert the first new member; 02 would be used to insert the second new member, etc.). Position 5 is also used for the alphabetic character that identifies a running mate.

Examples:			
0098	Member on ADPL	2963	Member on ADPL
0542	Member on ADPL	2963A	Running mate of previous member
0542A	Running mate of previous member	500101	1st new member added
178801	1st new member added	500102	2nd new member added
178802	2nd new member added	500103	3rd new member added

NOTE: This number cannot be used in the MARS "SORT" operation. SIG-NBR is duplicated in sequence number 1666 for sorting operations.

Glossary Listing, Continued

SOCS-DT   **LATEST STATEMENT OF CREDITABLE SERVICE REVIEW DATE**
Sequence #2380   PMIS Database Screen 00

The date of the latest statement of creditable service review and update to the PMIS file by HRSIC (SES). In YYMMDD format.

SPEC-TRNG-CD **PENDING TRANSFER SPECIAL TRAINING CODE**
Sequence #0121   PMIS Database Screen 06

A two-character alpha/numeric code to identify special training requirements for an officer in the new billet specified in sequence number 0116. Special training codes may be found in the USCG Register of Officers, COMDTINST M1427.1 (series).

SPOUSE-AD-CD **MEMBER DEPENDENTS SPOUSE ACTIVE DUTY FLAG**
Sequence #0856   PMIS Database Screen 04

A one-character numeric code to indicate whether the spouse of the member is on active duty on military service.

Code	Meaning
1	Spouse not on active duty
2	Spouse on active duty
3	Spouse in reserve component (drilling or IRR)

SPOUSE-IN-SVC-BR   **SPOUSE IN SERVICE BRANCH**
Sequence #2342   PMIS Database Screen 04

A one-character alpha code to identify the branch of service in which spouse is serving.

Code	Branch of Service	Code	Branch of Service
A	US Coast Guard	H	US Air Force Reserve
B	US Coast Guard Reserve	I	US Marine Corps
C	Navy (USN)	J	US Marine Corps Reserve
D	US Navy Reserve	K	US Public Health Service
E	US Army	L	US National Guard
F	US Army Reserve	M	NOAA
G	US Air Force		

Glossary Listing, Continued

SPOUSE-IN-SVC-SSN   **SPOUSE IN SERVICE SSN**
Sequence #2341   PMIS Database Screen 04

A nine-character numeric date indicating the SSN of spouse, who is in service.

SSN   **SOCIAL SECURITY NUMBER**
Sequence #0002   PMIS Database Screen 00

Member's nine-digit Social Security Identification Number.

SSN-CHG-DT   **SSN CHANGE DATE**
Sequence #0024   PMIS Database Screen 01

The effective date the member's SSN is changed. Used in conjunction with sequence number 0201.

SSN-CHG-NBR   **SSN CHANGE CODE**
Sequence #0201   PMIS Database Screen 01

A one-character numeric code to indicate whether the member's social security number has changed.

CODE   MEANING
0   Original SSN entry
1   SSN change number 1
2   SSN change number 2
3   SSN change number 3

Glossary Listing, Continued

STA-ALLOW-CD   **STATION ALLOWANCE CODE**
Sequence #0123   PMIS Database Screen 14

A one-character numeric code to identify the type of station allowance a member is receiving.

CODE MEANING
0   Allowance terminated
1   Receiving housing allowance
2   Receiving cost of living allowance
3   Receiving both above allowances
Blank Never received either allowance

STA-ALLOW-DT   **STATION ALLOWANCE CODE**
Sequence #1486   PMIS Database Screen 14

The date a member became entitled to a station allowance as shown in sequence number 0123.

STAT-IND   **OFFICER STATUS INDICATOR**
Sequence #1153   PMIS Database Screen 01

Group identification for officer status indicator information. Includes sequence numbers 0130, 0131, 0132, 0133 and 1154.

Glossary Listing, Continued

SUBSIST-CD	**SUBSISTENCE CODE** *Sequence #0068 PMIS Database Screen 14* A one-character alpha code to identify a member's entitlement to subsistence.

CODE   MEANING
0   Entitlement Terminated
H   Basic Allowance for Subsistence (enlisted)
I   Commuted Rations (SEPRATS)
J   Stewards - stewards subsisted in cabin and wardroom messes and/or members subsisted in messes of other services
K   Not elsewhere classified
L   Special Allowance for Subsistence
M   Officer Basic Allowance for subsistence
Blank Has never received entitlement

SUBSIST-DT	**SUBSISTENCE DATE** *Sequence #0276 PMIS Database Screen 14* The most recent date on which a member became entitled to subsistence as reported in sequence number 0068.

SUSP-DT	**AVIATOR INFORMATION DATE SUSPENDED** *Sequence #0276 PMIS Database Screen 10* The data an aviator is suspended from flight qualification

SVC-SCH-CD	**SERVICE SCHOOL NAME CODE** *Sequence #0822 PMIS Database Screen 09* A six-character numeric code to indicate the service schools completed by the member. Codes are assigned by Commandant and may be found in Enclosure (8) of the 3PM.

Continued on next page

Glossary Listing, Continued

SVC-SCH-DT (DD)   **SERVICE SCHOOL DAY**
Sequence #0819   PMIS Database Screen 09

The day training at a service school was completed.

SVC-SCH-DT (MM)   **SERVICE SCHOOL MONTH**
Sequence #0820   PMIS Database Screen 09

The month training at a service school was completed.

SVC-SCH-DT (YY)   **SERVICE SCHOOL YEAR**
Sequence #0821   PMIS Database Screen 09

The year training at a service school was completed.

SVC-SCH-INFO   **SERVICE SCHOOL INFORMATION**
Sequence #0818   PMIS Database Screen 09

Group identification for professional training schools completed. Includes sequence numbers 0819 through 0822.

SWE-CYCLE-DATE   **SWE CYCLE DATE**
Sequence #2413   PMIS Database Screen 02

Enter the month and year in which member will be seating for the servicewide exam. Example: MAY94

Glossary Listing, Continued

SWE-QUAL **SWE QUALIFIED**
Sequence #2409   PMIS Database Screen 02

"Y" indicates member is qualified to participate in the servicewide exam. "N" along with a one or two alpha/numeric character reason indicates member is not qualified. Below is the list of disqualifying reasons:

2 =	Courses(s) NOT Completed	RT =	Res No Test
3 =	Insufficient Time in Rating	23 =	Insuf TIR & Crs NOT Comp
4 =	Insufficient Time in Service	24 =	Insuf TIS & Crs NOT Comp
5 =	No recom by CO	26 =	Insuf Sea Time & Crs NOT Comp
6 =	Insufficient Sea Time	26 =	Insuf Sea Time & Crs NOT Comp
7 =	Does not Plan to Participate	28 =	Not OIC Qual & Crs NOT Comp
8 =	Not OIC Qualified	29 =	Low Marks & Crs NOT Comp
9 =	Low Marks/Low ADT	30 =	Conduct Marks & Crs NOT Comp
10 =	Conduct Mark	31 =	No CPO Academy & Crs NOT Comp
11 =	No CPO Academy	32 =	Lacks 4 Yr Cont Acti Duty and Crs
12 =	Lacks 4YR Cont Active Duty	33 =	Lacks Cont Act Duty & Crs Comp
13 =	Lacks Cont Active Duty	34 =	Reserve Lacks 6 Yrs Cont & Crs Comp
14 =	Reserve-Lack 6 Yrs Cont Active Duty	35 =	HS Rate-No EMT Certification &Crs Comp
15 =	HS Rate-No EMT Certification	79 =	Lacks Mult Qual Fact Except Crs
21 =	Not Qual-PMIS & Crs Comp	99 =	Lacks Mult Qual Fact Incl Crs
NT =	No Test	R6 =	Res 6YR

SWE-SPEC **SERVICEWIDE EXAM SPECIALTY**
Sequence #2377   PMIS Database Screen 02

The enlisted rank and rate to which the commanding officer has approved a lateral change in rating for paygrades E4-E6, or for a nonrated member to participate in the exam for advancement to E4.

Glossary Listing, Continued

SWE-SPEC-DATE   **SERVICEWIDE EXAM SPECIALTY DATE**
Sequence #2423 PMIS Database Screen 02

This date is set by the Effective Date of <u>Action Code 325</u>, Element Code 03 to record the date member's Exam Specialty was established.

TEST-AR-ATMPT   **BASIC BATTERY TEST, NUMBER OF ATTEMPTS (AR)**
Sequence #1689   PMIS Database Screen 11

This field indicates the number of times the basic battery test, or portions of it, had been taken when the score for the arithmetic reasoning (AR) test was recorded. The score for this test can be found in sequence number 0178.

TEST-AR-SCORE   **BASIC BATTERY TEST SCORE (AR)**
Sequence #0178   PMIS Database Screen 11

Score of arithmetic reasoning portion of the basic battery test given to enlisted personnel (primarily at Recruit Training Centers) soon after their entrance into the Coast Guard. One of eleven basic test scores. The test scores are recorded in sequence numbers 0177 through 0183 and 1670 through 1673.

TEST-AR-VER   **BASIC BATTERY TEST SCORE, NUMBER TIMES (AR) PORTION TAKEN**
Sequence #1678   PMIS Database Screen 11

This field indicates the number of times the arithmetic reasoning (AR) portion of the basic test has been taken. The test score for the last time this test was taken can be found in sequence number 0178.

Glossary Listing, Continued

TEST-AS-ATMPT   **BASIC BATTERY TEST, NUMBER OF ATTEMPTS (AS)**
Sequence #1694   PMIS Database Screen 11

This field indicates the number of times the basic battery test, or portions of it, had been taken when the score for the auto and shop (AS) test was recorded. The score for this test can be found in sequence number 0183.

TEST-AS-SCORE   **BASIC BATTERY TEST SCORE (AS)**
Sequence #0183   PMIS Database Screen 11

Score of auto and shop portion of the basic battery test given to enlisted personnel (primarily at Recruit Training Centers) soon after their entrance into the Coast Guard. One of eleven basic test scores. The test scores are recorded in sequence numbers 0177 through 0183 and 1670 through 1673.

TEST-AS-VER   **BASIC BATTERY TEST SCORE, NUMBER TIMES (AS) PORTION TAKEN**
Sequence #1683   PMIS Database Screen 11

This field indicates the number of times the auto and shop (AS) portion of the basic battery test has been taken. The test score can be found in sequence number 0183.

TEST-CS-ATMPT   **BASIC BATTERY TEST, NUMBER OF ATTEMPTS (CS)**
Sequence #1693   PMIS Database Screen 11

This field indicates the number of times the basic battery test, or portions of it, had been taken when the score for the coding speed (CS) test was recorded. The score for this test can be found in sequence number 0182.

Glossary Listing, Continued

TEST-CS-SCORE   **BASIC BATTERY TEST SCORE (CS)**
Sequence #0182   PMIS Database Screen 11

Score of coding speed portion of the basic battery given to enlisted personnel (primarily at Recruit Training Centers) soon after their entrance into the Coast Guard. One of eleven basic test scores. The test scores are recorded in sequence numbers 0177 through 0183 and 1670 through 1673.

TEST-CS-VER   **BASIC BATTERY TEST SCORE, NUMBER TIMES (CS) PORTION TAKEN**
Sequence #1682   PMIS Database Screen 11

This field indicates the number of times the coding speed (CS) portion of the basic battery test has been taken. The test score can be found in sequence number 0182.

TEST-EI-ATMPT   **BASIC BATTERY TEST, NUMBER OF ATTEMPTS (EI)**
Sequence #1697   PMIS Database Screen 11

This field indicates the number of times the basic battery test, or portions of it, had been taken when the score for the electronics information (EI) test was recorded. The score for this test can be found in sequence number 1672.

TEST-EI-SCORE   **BATTERY TEST SCORE (EI)**
Sequence #1672   PMIS Database Screen 11

Score of electronics information portion of the basic battery test given to enlisted personnel (primarily at Recruit Training Centers) soon after their entrance into the Coast Guard. One of eleven basic test scores. The test scores are recorded in sequence numbers 0177 through 0183 and 1670 through 1673.

Glossary Listing, Continued

TEST-EI-VER   **BASIC BATTERY TEST SCORE, NUMBER TIMES (EI) PORTION TAKEN**
Sequence #1686   PMIS Database Screen 11

This field indicates the number of times the electronic information (EI) portion of the basic battery test has been taken. The test score can be found in sequence number 1672.

TEST-GS-ATMPT   **BASIC BATTERY TEST, NUMBER OF ATTEMPTS (GS)**
Sequence #1688   PMIS Database Screen 11

This field indicates the number of times the basic battery test, or portions of it, had been taken when the score for the general science (GS) test was recorded. The score for this test can be found in sequence number 0177.

TEST-GS-SCORE   **BASIC BATTERY TEST SCORE (GS)**
Sequence #0177   PMIS Database Screen 11

Score of general science portion of the basic battery test given to enlisted personnel (primarily at Recruit Training Centers) soon after their entrance into the Coast Guard. One of eleven basic test scores. The test scores are recorded in sequence numbers 0177 through 0183, and 1670 through 1673.

TEST-GS-VER   **BASIC BATTERY TEST SCORE, NUMBER TIMES (GS) PORTION TAKEN**
Sequence #1677   PMIS Database Screen 11

This field indicates the number of times the general science (GS) portion of the basic battery test has been taken. The test score for the last time this test was taken can be found in sequence number 0177.

Glossary Listing, Continued

TEST-MC-ATMPT   **BASIC BATTERY TEST, NUMBER OF ATTEMPTS (MC)**
Sequence #1696 PMIS Database Screen 11

This field indicates the number of times the basic battery test, or portions of it, had been taken when the score for the mechanical comprehension (MC) test was recorded. The score for this test can be found in sequence number 1671.

TEST-MC-SCORE   **BASIC BATTERY TEST SCORE (MC)**
Sequence #1671 PMIS Database Screen 11

Score of mechanical comprehension portion of the basic battery test given to enlisted personnel (primarily at Recruit Training Centers) soon after their entrance into the Coast Guard. One of eleven basic test scores. The test scores are recorded in sequence numbers 0177 through 0183 and 1670 through 1673.

TEST-MC-VER   **BASIC BATTERY TEST SCORE, NUMBER TIMES (MC) PORTION TAKEN**
Sequence #1685 PMIS Database Screen 11

This field indicates the number of times the mechanical comprehension (MC) portion of the basic battery test has been taken. The test score can be found in sequence number 1671.

Glossary Listing, Continued

TEST-MK-ATMPT   **BASIC BATTERY TEST, NUMBER OF ATTEMPTS (MK)**
Sequence #1695   PMIS Database Screen 11

This field indicates the number of times the basic battery test, or portions of it, had been taken when the score for the mathematics knowledge (MK) test was recorded. The score for this test can be found in sequence number 1670.

TEST-MK-SCORE   **BASIC BATTERY TEST SCORE (MK)**
Sequence #1670   PMIS Database Screen 11

Score of mathematics knowledge portion of the basic battery test given to enlisted personnel (primarily at Recruit Training Centers) soon after their entrance into the Coast Guard. One of eleven basic test scores. The test scores are recorded in sequence numbers 0177 through 0183 and 1670 through 1673.

TEST-MK-VER   **BASIC BATTERY TEST SCORE, NUMBER TIMES (MK)**
PORTION TAKEN
Sequence #1684   PMIS Database Screen 11

This field indicates the number of times the mathematics knowledge (MK) portion of the basic battery test has been taken. The test score can be found in sequence number 1670.

Glossary Listing, Continued

TEST-NO-ATMPT   **BASIC BATTERY TEST, NUMBER OF ATTEMPTS (NO)**
Sequence #1692   PMIS Database Screen 11

This field indicates the number of times the basic battery test, or portions of it, had been taken when the score for the numerical operations (NO) test was recorded. The score for this test can be found in sequence number 0181.

TEST-NO-SCORE   **BASIC BATTERY TEST SCORE (NO)**
Sequence #0181   PMIS Database Screen 11

Score of numerical operations portion of the basic battery test given to enlisted personnel (primarily at Recruit Training Centers) soon after their entrance into the Coast Guard. One of eleven basic test scores. The test scores are recorded in sequence numbers 0177 through 0183 and 1670 through 1673.

TEST-NO-VER   **BASIC BATTERY TEST SCORE, NUMBER TIMES (NO) PORTION TAKEN**
Sequence #1681   PMIS Database Screen 11

This field indicates the number of times the numerical operations (NO) portion of the basic battery test has been taken. The test score for the last time this test was taken can be found in sequence number 0181.

Glossary Listing, Continued

TEST-PC-ATMPT   **BASIC BATTERY TEST, NUMBER OF ATTEMPTS (PC)**
Sequence #1691   PMIS Database Screen 11

This field indicates the number of times the basic battery test, or portions of it, had been taken when the score for the paragraph comprehension (PC) test was recorded. The score for this test can be found in sequence number 0180.

TEST-PC-SCORE   **BASIC BATTERY TEST SCORE (PC)**
Sequence #0180   PMIS Database Screen 11

Score of paragraph comprehension portion of the basic battery test given to enlisted personnel (primarily at Recruit Training Centers) soon after their entrance into the Coast Guard. One of eleven basic test scores. The test scores are recorded in sequence numbers 0177 through 0183 and 1670 through 1673.

TEST-PC-VER   **BASIC BATTERY TEST SCORE, NUMBER TIMES (PC) PORTION TAKEN**
Sequence #1680   PMIS Database Screen 11

This field indicates the number of times the paragraph comprehension (PC) portion of the basic battery test has been taken. The test score for the last time this test was taken can be found in sequence number 0180.

TEST-VE-ATMPT   **BASIC BATTERY TEST, NUMBER OF ATTEMPTS (VE)**
Sequence #1698   PMIS Database Screen 11

This field indicates the number of times the basic battery test, or portions of it, had been taken when the score for the verbal ability (VE) test was recorded. The score for this test can be found in sequence number 1673.

Glossary Listing, Continued

TEST-VE-SCORE   **BASIC BATTERY TEST SCORE (VE)**
Sequence #1673   PMIS Database Screen 11

Score of verbal ability portion of the basic battery test given to enlisted personnel (primarily at Recruit Training Centers) soon after their entrance into the Coast Guard. One of eleven basic test scores. The test scores are recorded in sequence numbers 0177 through 0183 and 1670 through 1673.

TEST-VE-VER   **BASIC BATTERY TEST SCORE, NUMBER TIMES (VE) PORTION TAKEN**
Sequence #1687   PMIS Database Screen 11

This field indicates the number of times the verbal ability (VE) portion of the basic battery test has been taken. The test score can be found in sequence number 1673.

TEST-WK-ATMPT   **BASIC BATTERY TEST, NUMBER OF ATTEMPTS (WK)**
Sequence #1690   PMIS Database Screen 11

This field indicates the number of times the basic battery test, or portions of it, had been taken when the score for the word knowledge (WK) test was recorded. The score for this test can be found in sequence number 0179.

TEST-WK-SCORE   **BASIC BATTERY TEST SCORE (WK)**
Sequence #0179   PMIS Database Screen 11

Score of word knowledge portion of the basic battery test given to enlisted personnel (primarily at Recruit Training Centers) soon after their entrance into the Coast Guard. One of eleven basic test scores. The test scores are recorded in sequence numbers 0177 through 0183 and 1670 through 1673.

Glossary Listing, Continued

TEST-WK-VER   **BASIC BATTERY TEST SCORE, NUMBER TIMES (WK) PORTION TAKEN**
Sequence #1679   PMIS Database Screen 11

This field indicates the number of times the word knowledge (WK) portion of the basic battery test has been taken. The test score for the last time this test was taken can be found in sequence number 0179.

TOT-COMM-SVC   **TOTAL COMMISSIONED SERVICE**
Sequence #2395   PMIS Database Screen 01

Records the cumulative commissioned service (total years, months, days) of a commissioned officer for all prior military service. The field is six numeric digits (YYMMDD). There is only one occurrence.

TOT-DED-TM   **ENLISTED TERM OF EXTENSION DAYS DEDUCTIBLE TIME**
Sequence #0196   PMIS Database Screen 05

The cumulative number of days the member's enlistment/reenlistment has been extended due to disciplinary action, lost time, etc.

TOT-FLT-TM   **AVIATOR INFORMATION FLIGHT TIME TOTAL PILOT TIME**
Sequence #0074   PMIS Database Screen 10

A member's accumulated flight time, in hours, as pilot of all types of aircraft as reported on Action Code 304 on Personnel Action.

TOT-NBR-DEP   **MEMBER NUMBER OF DEPENDENTS**
Sequence #0034   PMIS Database Screen 04

The number of dependents the member has reported on form L64A - CG-4170A, BAH/Dependency Information

Continued on next page

Glossary Listing, Continued

TOT-ROT-WING-TM   **AVIATOR INFORMATION FLIGHT TIME TOTAL ROTARY WING TIME**
Sequence #0075   PMIS Database Screen 10

A member's accumulated flight time, in hours, as pilot of rotary wing aircraft as reported on Action Code 304 on Personnel Action.

TRF-TYPE-CD   **PENDING TRANSFER REP/DEP TYPE CODE**
Sequence #1669   PMIS Database Screen 06

A six-character alpha code issued by the assignment detailer to indicate specific reporting or departing instructions on the member's travel orders.

TRNG-PROG-INFO   **TRAINING PROGRAM INFORMATION**
Sequence #0938   PMIS Database Screen

Group identification for training program information. Includes sequence numbers 0939 and 0940. This element occurs 12 times.

TYP-PHYS-EXAM   **TYPE PHYSICAL EXAM**
Sequence #2433 PMIS Database Screen 02

This is a 1 character alpha/numeric code to identify the type of physical exam the member just received.

Regular Coast Guard Members		Reserve Coast Guard Members	
Code	**Exam Result**	**Code**	**Exam Result**
A	Qualified by periodic exam	Q	Qualified
D	Qualified for discharge/retirement	P	Permanent Waiver
E	Qualified for reenlistment/extension	W	Temporary Waiver
O	Qualified for overseas/sea duty assignment	T	Temporarily Disqualified
N	Not qualifed	N	Not Qualified

UNIT-TYPE-CD   **PERMANENT DUTY STATION UNIT TYPE CODE**
Sequence #0713   PMIS Database Screen 06

The first three digits of sequence number 0577 indicating the type unit of the member's permanent duty station as specified in sequence number 0577. Codes are listed in Operating Facilities of the, COMDTINST M5440.2 (series).

Glossary Listing, Continued

VC4A-QUAL   **AVIATOR INFORMATION DESIGNATION C-4 CODE**
Sequence #0077   PMIS Database Screen 10

A three-character alpha code to identify a pilot's status and qualification for the VC4A-type aircraft.

Code	Status	Meaning
AC	Current	Aircraft Commander
FP	Current	First Pilot
CP	Current	Co-pilot
IP	Current	Instructor
ACL	Lapsed	Aircraft Commander
FPL	Lapsed	First Pilot
CPL	Lapsed	Co-pilot
IPL	Lapsed	Instructor
Blank	Not applicable	

VS11A-QUAL   **AVIATOR INFORMATION DESIGNATION C-11 CODE**
Sequence #0078   PMIS Database Screen 10

A three-character alpha code to identify a pilot's status and qualification for the VC11-type aircraft.

Code	Status	Meaning
AC	Current	Aircraft Commander
FP	Current	First Pilot
CP	Current	Co-pilot
IP	Current	Instructor
ACL	Lapsed	Aircraft Commander
FPL	Lapsed	First Pilot
CPL	Lapsed	Co-pilot
IPL	Lapsed	Instructor
Blank	Not applicable	

Glossary Listing, Continued

WGT

MEMBER WEIGHT
Sequence #0054   PMIS Database Screen 02

Member's current weight. Recorded in accordance with COMDTINST 1020.8 (series).

WGT-DT

DATE OF WEIGH-IN
Sequence #0056   PMIS Database Screen 02

Date that the weight listed in sequence number 0054 -- WGT was taken.

WGT-OVER

AMOUNT OVERWEIGHT
Sequence #0057   PMIS Database Screen 02

Amount of pounds the member is overweight as determined on the date listed in sequence number 0056 -- WGT-OVER in accordance with COMDTINST 1020.8 (series).

YR-GRP

OFFICER YEAR GROUP
Sequence #0129   PMIS Database Screen 01

The year, in which an officer is originally commissioned, providing the officer has continuous active commissioned service since commissioning and has not lost numbers or precedence. An officer who has lost numbers or precedence will be in the same year group as the next senior officer in order of precedence.

Section Overview

Introduction   Sort tables provide general information about fields in the PMIS database and identifies the associated L67B D Action. There are two tables.

- Sequence Number Sort Table. This first table is sorted numerically by sequence number.

- Field Name Sort Table. This table is sorted alphabetically by Field Name.

In this section

Sort Table Definitions

General	The Sort Tables provide general information about fields in the PMIS database and identifies the associated L67B D Action. There are two tables.

- Sequence Number Sort Table. This first table is sorted numerically by sequence number.

- Field Name Sort Table. This table is sorted alphabetically by Field Name.

Field Definitions	There are nine fields in the Sort Tables which are described in the following blocks.

SEQ#	A number assigned by programmers used to identify specific fields within PMIS/JUMPS. Sequence numbers are also used by HRSIC to change fields within transactions that are on the Exception Report.

Field Name	The PMIS Database or Segment 60 field name is displayed.

Alias	These file names were created by programmers when the PMIS/JUMPS system was developed. Later, the "Field Names" were created to make the system more user friendly. Programmers still use the Aliases to research original program files.

Page	This column is a reference to the applicable PMIS Database Page.

Sort Table Definitions, Continued

PIC

There are four valid picture codes.

PIC Code	Meaning
A	Indicates that an element can only contain alphabetical characters.
9	Indicates that an element can only contain numeric characters.
X	Indicates that an element may contain alphabetic and/or numeric characters.
(Digits)	Indicates the maximum number of the given type character that may be in an element.

D Action

Identifies the L67B transactions used by HRSIC to make changes to the field specified under "Field Name"..

Occurs

Identifies the frequency of the field within PMIS/JUMPS.

Type

This defines the different types of data elements. Data elements are categorized as fixed or repeating. There are 4 valid "Type" codes.

Type Code	Meaning
0	An element of fixed data.
1	A sub-element contained within a data element of "0".
2	A single element consisting of all the information contained in the individual elements of a repeating data set.
3	An individual element within a repeating data set.

Parent

Identifies the originating field where the data was derived.

Section Overview

Introduction   This section lists the numeric-grade codes for commissioned and warrant officers and all enlisted grades by rating. This section also includes reserve, service and emergency ratings. These are the codes posted to the RANK field, sequence number 0011, at the top of each PMIS inquiry screen.

In this section   Numeric Grade Code Listings

Commissioned Officers

Rank	Abbreviation	Grade Code	Indicator	Pay Grade
Admiral	ADM	00010	0	O10
Vice Admiral	VADM	00009	0	O9
Rear Admiral	RADM	00008	0	O8
Rear Admiral (Lower Half)	RALH	00007	0	O7
Captain	CAPT	00006	0	O6
Commander	CDR	00005	0	O5
Lieutenant Commander	LCDR	00004	0	O4
Lieutenant *	LT	00003	1	O3E
Lieutenant	LT	00003	0	O3
Lieutenant Junior Grade *	LTJG	00002	1	O2E
Lieutenant Junior Grade	LTJG	00002	0	O2
Ensign *	ENS	00001	1	O1E
Ensign	ENS	00001	0	O1

* Officer with over 4 years prior active enlisted/warrant service.

Chapter Overview

Introduction   The fixed data area (Segment 00) consists of three pages of data and applies to every automated pay account. It contains biographical information needed for every member, e.g., name, dates, location; information, which must be maintained throughout the member's entire career, e.g., cumulative sea duty, E-allotment balance; entitlement/deduction flags; and last compute date.

In this Chapter

Fixed Data Fields Page 1

Introduction   This section describes data fields appearing in JUMPS Fixed Data page 1.

Fixed Data   This is an example of Fixed Data Page 1.

Page 1 data   The following fields appear in JUMPS Fixed Data page 1.
fields

Field	Description
SSN:	Social Security Number.
FIRST-NAME:	First Name.
MI:	Middle Initial.
LAST-NAME:	Last Name.
RANK:	Rate or Rank. Current rate of enlisted member, or current rank for officer.
P-G:	Paygrade. 3-character alphanumeric field displaying member's current paygrade.
MB-TY:	Member Type. The first character is the one character member type and the last three characters are the three-character member type. Valid codes are contained in Chapter 2, Section F.

Continued on next page

Fixed Data Fields Page 1, Continued

**Page 1 data
fields (cont'd)**

Field	Description
SEX:	M or F.
OFF-SOR:	Officer Source Code. Valid codes are:
	1 Graduate of the United States Coast Guard Academy.
	2 Appointed from Warrant Officer status.
	3 Appointed from Enlisted status.
	4 Licensed Officer of the Merchant Marine (Commissioned under PL 80-219).
	5 Reserve graduate of Officer Candidate School.
	6 Appointed from other reserve source.
	7 Appointed from other source.
	Blank Not applicable.
P-CH:	Pay Change Flag. Set by UPDATE, reset to "0" each month by COMPUTE. Valid codes are:
	0 No pay related changes to record during month.
	1 Current period pay change(s) only during month.
	2 At least one retro pay change during month.
	3 A retro pay status change occurred during month
PERMANENT UNIT:	Permanent Unit's District and OPFAC from latest PCS endorsement. Example: 17-71117 (17 is the district) (71117 is the OPFAC)
REPORTING UNIT:	Reporting Unit's District, OPFAC and reporting unit from latest PCS endorsement. Example: 17-71117-01 17 is the district. 71117 is the OPFAC. 01 is the reporting unit.
COST CENTER	Cost Center, generally the same as reporting unit OPFAC from reporting PCS endorsement. It can be adjusted by a P102 transaction.
DATE REPORTED PERMANENT UNIT:	Date the member reported to permanent unit.
IN/OUT CONUS INDICATOR:	Indicator which tells whether member's permanent unit is in the Continental United States (INCONUS) or out of the Continental United States (OUTCONUS), generated automatically from reporting PCS endorsement. Valid codes are:
	O OUTCONUS
	I INCONUS

Fixed Data Fields Page 1, Continued

Page 1 data fields (cont'd)

Field	Description
PAY ENTRY BASE DATE:	Pay Entry Base Date.
PEBD VERIFIED:	Pay Entry Base Date Verification Code. Verification from first reporting PCS endorsement, P112, H750 transaction, or set by Accessions. Valid codes are: 1 PEBD verified. Blank PEBD not yet verified.
ACTIVE DUTY BASE DATE:	Active Duty Base Date from the accession transaction. Can be adjusted by first reporting PCS endorsement, P 112, P 123, P 411, P 612, P 616, or D 100 transactions.
EFF DATE PAY AND ALLOW-ANCES:	Effective Date of Pay and Allowances.
CMA DATE:	Base date used by JUMPS to determine entitlement to enlisted clothing allowances, i.e., BMA or SMA.
EXTENSION AGREEMENT DATE:	Extension Agreement Date. This is the date the member agreed to enter an extension. It is updated by a Personnel Action using P 154 or P 159. This field is used only for enlisted members.
SEPARATION DATE FOR EXTENSION:	Separation Date for Extension. This is the date field that contains the previous EXP-AD-TERM for members who have reenlisted, entered an agreement to extend or reextend, separated from active duty, discharged, or have been involuntarily retained.
CFTRR CD	A one-character alpha code that shows the member's status under the Central First Term Reenlistment Review (CFTRR) Program. <table><tr><td>CODE</td><td>MEANING</td></tr><tr><td>H</td><td>Allowed to execute current extension, but no future extension/reenlistment.</td></tr><tr><td>N</td><td>Application sent to member, awaiting Board decision.</td></tr><tr><td>R</td><td>Board decision to allow member to reenlist/extend.</td></tr><tr><td>S</td><td>Board decision to terminate member.</td></tr><tr><td>X</td><td>Excluded from the CFTRR process. Not first termer</td></tr></table>

Fixed Data Fields Page 1, Continued

Page 1 data fields (cont'd)

Field	Description
DT INITIAL ENTRY MIL SRVC	The date of the member's initial entry into the Armed Forces. Includes both active and inactive service, as well as time spent at a military academy, in OCS, or under a delayed enlistment program. Taken from the Enlistment Contract or the Active Duty Initial Information Form. Used in calculating a member's retired pay percentage. DMOI is not currently updated for deductible time.
YEAR TO DATE FICA:	Calendar Year-to-Date FICA Withholding from segment 64.
E ALLOTMENT AMOUNT:	Total VEAP Contributions to Date. This field is used in connection with segment 54.
TOTAL CAREER DEF TSP	Member's total career-to-date deferred Thrift Savings Plan contributions
TOTAL CAREER NON-DEF TSP	Member's total career-to-date non-deferred Thrift Savings Plan contributions
MODL ID:	For PSC use only.
LATEST COMPUTE CYCLE DATE:	Last Compute Cycle Date. Set by COMPUTE, indicates the last COMPUTE cycle run on a member's account.
LEAVE STATUS DATE:	Leave Status Date (YYMMDD). This date is set at each end-month COMPUTE to the first day of the next month (June COMPUTE would set LV-STAT to 19950701). It is subsequently set to a prior date when a leave transaction has processed by UPDATE. This field is set to the accession date for new members. Leave balances are correct in the 62 segment for the month prior to the month in the Leave Status Date. Actual leave balance after the latest correct 62 segment can be computed to date by adding accrued leave and subtracting uncomputed leave charges in the 74 segments.
EXPECTED AD TERMINA-TION DATE:	Expected Active Duty Termination Date. This is the date a regular member, reserve member on active duty (paid by JUMPS), or a recalled retiree is expected to be released from active duty. For regular enlisted personnel, this is the date the active duty obligation is expected to be fulfilled based on latest enlistment/reenlistment contract including voluntary and involuntary extensions of enlistment. For regular Coast Guard officers and reserve officers on extended active duty, this is the mandatory retirement date or later, or the date of completion of contracted or obligated service as set by Commandant. For NOAA officer O-6 and below, this will be the day before the 60th birthday; and for NOAA officers O-7 and above, this will be the day before the 62nd birthday. For reserve officers not on extended active duty, all reserve enlisted members, and recalled retirees (regular and reserve), this is the date the member is expected to be released from active duty when currently on active duty and paid by JUMPS. This date will be 00000000 for reserve members who have never been paid by JUMPS.

Fixed Data Fields Page 1, Continued

Page 1 data fields (cont'd)

Field	Description
EFFECTIVE AD TERMINA-TION DATE:	Effective Active Duty Termination Date. This is the date the member ended last active duty period (when currently not on active duty). This will be 99999999 when the member is currently on active duty and paid by JUMPS. It will be set by RELAD transaction and by retirement and discharge transactions when member is concurrently terminating active duty. If the member re-accesses, this date will be set to 99999999.
SEPARATION FLAG:	Separation Flag. Indicates whether or not a separation transaction has processed for a member. Valid codes are:

L	A loss has processed in update (retirement or discharge) awaiting next compute.	
R	RELAD has processed in update, awaiting next compute.	
D	RELAD for SELRES has processed in update, awaiting next compute.	
9	Separation compute processed against unimplemented account.	
0 or Blank	Regular or reserve account with no pending update separation transactions for compute	

Field	Description
EXPECTED LOSS DATE:	Expected Loss Date. This is the date a member is expected to be lost from PMIS/JUMPS. For regular enlisted members, this will be the expected discharge/retirement date. For regular Coast Guard officers and recalled retirees, this will be equal to the Expected Active Duty Termination Date. For NOAA officer O-6 and below, this will be the day before the 60th birthday; and for NOAA officers O-7 and above, this will be the day before the 62nd birthday. For reserve enlisted members, this will be the expiration of enlistment including any agreements to extend or re-extend and any retention beyond expiration of enlistment. For reserve officers, this should be the day before the officer's 60th birthday.
EFFECTIVE LOSS DATE:	Effective Loss Date. This is the date a member's account is no longer maintained on JUMPS. It is set by discharge, retirement (regular), or age 60 retirement (reserve) transactions. If the member re-accesses, this date will be set to 99999999.
BAH CODE:	This is a one-character alpha code to indicate the type of BAH which a member is entitled, passed from PMIS. A list of codes may be obtained from Chapter 3-B, - Glossary.
BAH DEPENDENT DATA	Number of dependents, from BAH/Dependency Information (CG-4170A). This field will contain zeroes if no BAH form has processed.
CUMULATIVE SEA TIME	Cumulative Sea Duty in years, months, and days, calculated by COMPUTE. Can be adjusted by a P 112 or H 750 transaction.
CONSECUTIVE SEA TIME	Consecutive Sea Duty in years, months, and days, calculated by COMPUTE.
SEA PAY RETRO FLAG:	Sea Pay Retro Flag. A "1" indicates that a retro transaction affecting accumulated sea time has processed. Otherwise, this field will contain "0." Transactions affecting accumulated sea time include sea duty, pay status, or TAD.

Fixed Data Fields Page 1, Continued

Page 1 data fields (continued)

Field	Description	
SEA SAVE FLAG:	The flag applies to enlisted members who were assigned to sea duty as of 87DEC31. Valid codes are:	
	Blank	Member never identified as entitled to grandfather rates.
	0	Member once identified as entitled to grandfather rates.
	2	Member was entitled to grandfather rates because he/she was TAD to a sea duty unit as of 87DEC31. When a P 625 transaction processes to stop career sea pay, the flag will be reset to 0.
	3	Member was assigned to a sea duty unit as of 87DEC31, and is entitled to grandfather rates until he/she departs for a non sea duty unit. TEMDU and back-to-back sea duty do not interrupt this status. These members cannot draw premium sea pay after 88MAY01 if they are E-5 through E-9 with over 5 years of sea time. Instead, the member will receive the new higher rate of career sea pay.
	4	Member was drawing premium sea pay as of 88APR30. Member is entitled to grandfather rates (including premium sea pay and the old rate of career sea pay when these rates combined exceed the new career sea pay rate for E-5 through E-9 with over 5 years of sea time) until he/she departs for a non sea duty unit. TEMDU and back-to-back sea duty do not interrupt this status.
PURGE FLAG:	Purge Flag. Valid codes are:	
	P	At least one segment has been purged from member's pay record.
	N	No segment has ever been purged from member's pay record.
IMPLEMEN-TATION DATE:	Implementation Date. Field will contain year and month the member's account became live on PMIS/JUMPS. For reserve members, this is the date account was first made computable by JUMPS.	
PREV LAST NAME ABBREVIA-TION:	Previous Abbreviated Last Name. If a name change has occurred, field will contain first five letters of prior last name.	
CSB ELIGIBILITY	Career Status Bonus Eligibility code: E=Eligible, I=Ineligible, N=Not Applicable (e.g. Member joined service prior to 1 August 1986 or eligibility has not yet been established)	
CSB ELECTION	Career Status Bonus Election: A=Accepted, D=Declined, N=Not Applicable	
MODL DATE:	For PSC use only.

fields

Field	Description
01 to 61	Pay segments and status (see chapter 6 of this manual for segment definitions) Example: 01 BASIC PAY 1 Segment number — Segment Name — Status: 1 = Open 2 = Closed Blank = Not Applicable

Fixed Data Fields Page 2, Continued

**Page 2 data
fields (cont'd)**

Field	Description	
RTB FLAG	Indicates whether a reserve member is eligible for RTB payment for service of 6 to less than 15 years. Valid codes are:	
	Blank	Transaction has been submitted regarding RTB or member not eligible for lump sum RTB payment.
	0	Member has been paid RTB.
	1	Member is eligible for lump sum RTB payment.
	2	Member awaiting payment.
	3	RTB payment has been fully recouped.
POINTS CHANGE	For PSC use only.	
	1	Re-computes "prior year" 81 segment if more than 3 months after segment stop date.
	2	Searches all segment 81s older than "prior year" segment and re-computes totals, updates page 3, totals from totals in Segment 81s.
	3	Both 1 and 2 are done.
REMISSION WAIVER	Indicates whether or not a remission of a Letter of Indebtedness (LOI) is pending. Valid codes are:	
	1	Remission of LOI pending.
	Blank	No remission of LOI pending.
RETENTION CODE	Indicates whether an SOI, real retention or real separation action has been processed. Will be either a "1" or "0" and is used to trigger Leave Compute for computing leave sold.	
SOI FLAG	Statement of Intent. See Glossary in Chapter 3-B for valid codes.

```

Page 3 data   The following fields appear in JUMPS Fixed Data page 3.
fields

Field	Description
BIRTH-DT	Member's birth date.
RESERVE ANNIVER-SARY DATE	Anniversary Date: • For those who entered a reserve component on or before 30 JUN 49, the anniversary year extends from 1 JUL to 30 JUN. • For those entering or re-entering a reserve component between 1 Jul 49 and 14 Oct 93, the anniversary year extends from the date of entry of re-entry into the reserve component to the date preceding the anniversary of entry or re-entry. • For those entering or re-entering a reserve component after 14 Oct 93, the anniversary year extends from the date of entry or re-entry into either an active or reserve component to the date preceding the anniversary of entry or re-entry. Recorded in MMDD format.
TOTAL QUALIFYING SERVICE	Indicates the total qualifying service earned by a reserve member toward retirement. Current anniversary year qualifying service is not included in this total. This field is updated three months after the member's anniversary year-end.

Fixed Data Fields Page 3, Continued

**Page 3 data
fields (cont'd)**

Field	Description
20 YEAR LETTER ISSUED	A valid date indicates a 20-year letter has been issued to the member and when it was issued.
15-19 YEAR LETTER ISSUED	A valid date indicates a 15-19 year letter has been issued to the member and when it was issued.
LATEST POINTS COMPUTE DATE	Set by compute to indicate the last date the member's points information computed correctly.
CURRENT FYTD PAID DRILLS	Indicates the total number of drill periods paid during the current fiscal year.
CURRENT FYTD NON-PAID DRILLS	Indicates the total number of non-pay drill periods paid during the current fiscal year.
CURRENT FYTD PAID RMP	Indicates the total number of reserve management periods paid during the current fiscal year.
CURRENT FYTD NON-PAID RMP	Indicates the total number of non-paid reserve management periods during the current fiscal year.
CURRENT FYTD TOTAL PAID DUTY	Indicates the total number of paid duty days during the current fiscal year. Paid duty days includes active duty, inactive duty and appropriate duty.
CURRENT FYTD MAX DRILLS	Indicates the total paid IDT drills the member is allowed during the current fiscal year.
CURRENT FYTD UNEXCUSED ABSENCES	Indicates the number of unexcused absences for missed IDT paid drills during the current fiscal year.

Fixed Data Fields Page 3, Continued

Page 3 data fields   The following fields appear in JUMPS Fixed Data page 3.

Field	Description
SELRES DENTAL DATE	Date member enrolled in SELRES dental program.
RES CMA DATE	Base date used by JUMPS to determine entitlement to reserve enlisted clothing allowances, i.e., BMA or SMA.
HIGH 36 AVERAGE	Average monthly base pay over the 36 months preceding retirement. $0.00 until member enters RET-1 status.
TOTAL ACTIVE DUTY POINTS	Indicates the total number of points earned by a reserve member toward retirement. Current anniversary year IDT points are not included in this total. This field is updated three months after the member's anniversary year-end.
TOTAL IDT POINTS	Indicates the total number of non active duty (drills and ADT orders) points earned in current anniversary year.
TOTAL POINTS	Sum of **TOTAL ACTIVE DUTY POINTS** and **TOTAL IDT POINTS**. Indicates the total number of active duty days performed by a reserve member in their career. Dividing this number by 365 tells the number of years the member has earned towards an active duty retirement. Reservists with 18 years or more active duty are entitled to an active duty retirement.
PRIOR YEAR FYTD PAID DRILLS	Indicates the total number of drill periods paid during the previous fiscal.
PRIOR YEAR FYTD NON-PAID DRILLS	Indicates the total number of non-pay drill periods paid during the previous fiscal year.
PRIOR FYTD PAID RMP	Indicates the total number of reserve management periods paid during the previous fiscal year.
PRIOR FYTD NON-PAID RMP	Indicates the total number of reserve management duty periods during the previous fiscal year.
PRIOR YEAR FYTD TOTAL PAID DUTY	Indicates the total number of paid duty days during the previous fiscal year. Paid duty days includes active duty, inactive duty and appropriate duty.
PRIOR YEAR FYTD MAX DRILLS	Indicates the total paid IDT drills the member is allowed during the previous fiscal year.
PRIOR FYTD UNEXCUSED ABSENCES	Indicates the number of unexcused absences for missed IDT paid drills during the previous fiscal year.

Chapter Overview

Introduction   This chapter provides description of fields in JUMPS pay segments. A description of each segment field is provided. For brevity, fields common to all segments are only defined once.

In this chapter

80	Vacant (Not used)	5-150
54	VEAP Education Allotment	5-89
36	VHA Offset (Obsolete effective 01 Jan 98)	5-60

Information Common to All Segments

Introduction   Some fields are common to all segments. These fields are described here. They are not repeated in the individual segment descriptions. Please refer to this page for information on common fields.

Segment example   This is an example of a typical pay segment. It contains the fields common to all segments. Some segments will contain more fields.

```
SEG       HIST     COMPUTE          OBJECT            AMOUNT
18       199305       4             11452            $246.090
         EFFDTE   TIME    DTPROC   SLC   PAT    DTPREP    DIST   RU   FORM    ENT
         Description
START    19930329  9999    19930504   0    046    19930503    14    27    68
STOP     19930331  9999    19930504   1    046    19930503    14    27    68
```

Common Fields   The following fields appear in all segments.

Field	Description
SEG	Segment Number. This field is a two-digit number identifying the Segment Number.
HIST	History Indicator. This field is a six-digit date (YYYYMM), which is set by COMPUTE to the year and month the segment became inactive. If still active, this field will be 999999.
COMPUTE	Compute Flag. This is a one-digit code identifying whether a segment is active or inactive and whether it has been processed by COMPUTE. The Compute flag is set to blank by UPDATE and changed by COMPUTE as applicable. Valid values are:

Code	Description
3	Active segment, previously processed by COMPUTE
4	Inactive segment, set by COMPUTE when the segment is swapped or closed in the year and month shown in the History Indicator
7	This situation occurs when a 57 segment is to be swapped that has a "4" compute flag. Instead of a normal swap, stop date is moved to start date and start date is moved to stop date, and the compute flag is changed to "7". This is done so that compute can recreate the member's retro pay status as it looked before the change
Blank	Active segment, not yet processed by COMPUTE

Continued on next page

Information Common to All Segments, Continued

Common Fields (continued)

Field	Description
OBJECT	Object Code. This field contains the four or five-digit Object Code which identifies the entitlements and deductions for accounting purposes. When not applicable, it will be blank. Normally, the fourth character from the left will be "0" for an officer and "5" for enlisted. However, because logic exists internally to report the object class to accounting, either code may appear and is correct for either pay group
EFFDTE	This field contains the effective start or stop date of the segment (YYYYMMDD).
TIME	The time is normally the effective time from the Transaction Effective Date (TED). If the segment is not time critical the time will be 9999.
DTPROC	Date Start Processed. This field contains the date that the start or stop (EFFDTE) was processed. This field is system generated by UPDATE or COMPUTE.
SLC	Start Link Code. A one-digit code indicating whether this segment is system linked to the segment dated prior to it. Valid codes are: 0 Not linked. 1 Linked.

Information Common to All Segments, Continued

Common fields (continued)

Field	Description
PAT	Personnel Action Transmittal. If the latest Description was initiated by an input transaction, this field will contain the transmittal sequence number (three digits). If the latest Description was a direct result of a system generated change, this will contain one of the following codes. Valid codes are:

ACP	Reconversion (ACIP only).
AOC	ACIP Object Code Change - L68C.
AUP	Automatic UPDATE.
CAU	COLA automatic update.
CMA	CMA rate change.
COM	COMPUTE.
CON	Conversion.
CSC	Code sheet correction.
DCV	Deconversion.
DDZ	Direct Deposit conversion.
DTL	Dental transaction from contractor
DRS	DEERS Dental Input. (Use of this code discontinued 31 Dec 00)
FIC	Tax data from pay record.
LPC	Legislative pay change.
LSL	Lump sum leave.
LTC	Long term care transaction from contractor
MBR	PeopleSoft self service
MDL	PSC special correction.
MOD	Same as MDL.
OHU	OHA Automatic Update
PPS	Pay and Personnel System (Direct-Access)
RES	Reserve reset.
SGI	SGLI rate change.
TAX	Automatic tax update.
VHA	VHA rate change. (VHA was superseded by BAH on 1 Jan 98)
999	Transmittal number of the Modall (PSC use only).

Continued on next page

Information Common to All Segments, Continued

Common Fields (continued)

Field	Description
DTPREP	Date Prepared. The date the transmittal was prepared or the date an automatic Description was posted (YYYYMMDD). If the segment was updated as part of an automated process (Legislative pay change for example) the System Change Proposal (SCP) number will appear in the DTPREP field.
DIST	District. The preparing unit's district number (two digits).
RU	Reporting Unit. The preparing unit's reporting unit number (two digits).
FORM	Form Identification Number (two characters). Indicates the form type.
ENT	Type Entry (one character). Indicates the type of Description that took place when the segment was last modified. Valid codes are: C Corrections. D Deletions. L Promotion/Demotion and longevity increases. T & P Career sea pay longevity increases. X Automatic Description. Blank All others.
Description	Description Code (four characters). Used to identify Description code when Form Type ID is 67 (Personnel Description). In the case of a Modall, the field will show a four-character origination code (PSC use only).

Segment 01 - Basic Pay

Introduction   Segment 01 contains basic pay entitlement information.

Example 1: Active Duty Enlisted Member:

```
SEG         HIST        COMPUTE      OBJECT                AMOUNT
 01        999999          3          1105               $2946.30

>_____70992_____
```

Segment 01 data fields   This table describes fields unique to Segment 01. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
AMOUNT	Monthly rate from pay tables
DUTY STOP DT	This Field contains the STOP EFFDTE/TIME of the 01 segment built for reserve pay. This Field is used for researching swapped 01 segments. 01 segments swapped out for the retro compute-processing period will retain the original STOP EFFDTE/TIME in this field.

Continued on next page

Segment 01 - Basic Pay, Continued

Segment 01 data fields (cont'd)

Field	Description
DUTY TYPE	This field contains the Reserve Duty Type codes. This field represents the duty performed for pay and points calculations. The valid codes are:

Code	Duty Type
A	Appropriate duty
G	Funeral Duty Only
H	Funeral Duty and Regular Drill
J	Funeral Duty and Regular Drill W/Out Pay
N	Appropriate duty without pay
S	Regular drill
E	Regular drill without pay
M	Multiple drill
D	Multiple drill without pay
F	Regular drill with pay and regular drill without pay
P	Unexcused absence for regular drill
Q	Unexcused absence for multiple drill
W	Regular drill with pay and regular drill without pay converted to without pay
X	Regular drill converted to regular drill without pay
Y	Multiple drill converted to multiple drill without pay
Z	Multiple drill converted to regular drill with pay and regular drill without pay

Segment 01 - Basic Pay, Continued

Segment 01 data fields (cont'd)

Field	Description	
Duty Type (cont'd)	Code	Duty Type
	1P	ADT-AT with pay only
	2P	IADT with pay only
	3P	ADSW-RC with pay only
	4P	ADSW-AC with pay only
	6P	ADT-OTD with pay only
	1A	ADT-AT with allowances only
	2A	IADT with allowances only
	3A	ADSW-RC with allowances only
	4A	ADSW-AC with allowances only
	6A	ADT-OTD with allowances only
	1Y	ADT-AT with pay and allowances
	2Y	IADT with pay and allowances
	3Y	ADSW-RC with pay and allowances
	4Y	ADSW-AC with pay and allowances
	6Y	ADT-OTD with pay and allowances
	1N	ADT-AT without pay and allowances
	2N	IADT without pay and allowances
	3N	ADSW-RC without pay and allowances
	4N	ADSW-AC without pay and allowances
	6N	ADT-OTD without pay and allowances
	5Y	CADET with pay and allowances
	7Y	Extended Active Duty
	8Y	Officer Candidate School
	9Y	Recalled from Awaiting Age 60 Retirement
	TY	Invol AD, Title 10 with pay and allowances
	UY	Invol AD, Title 14 with pay and allowances
	VY	ADHC with pay and allowances
PROGRAM DESIGNATION CODE 1	This field contains the Mode Code, which represents the type of training received by the reserve member.	
PROGRAM DESIGNATION CODE 2	This field is used when a reserve member performs a multiple drill and receives two different types of training in one day.	

Continued on next page

Segment 01 - Basic Pay, Continued

Segment 01 data fields (cont'd)

Field	Description
TCSTORDER	This field is used for reserve members when performing duty under a set of reserve orders. The field indicates the total cost of the reserve orders.
DUTY SITE	This field is used for the active duty site for reserve members on ADT orders less than 140 days. This is the active duty district and OPFAC from the reserve orders.
DAFIS ACCOUNTING STRING	This field contains the CG DAFIS accounting data required for reserve training for short-term orders (< 140 days duration). For long-term orders, this field contains the Cost Center of the unit or contingency operation.
PURPOSE OF DUTY	This field is used for reserve members when performing duty under a set of reserve orders. The field indicates the reason for performing the duty.

Segment 02 - 25% Increase In Basic Pay

Introduction   Segment 02 contains information about increased pay when an enlisted member is retained beyond expiration of enlistment.

Example:

```
SEG        HIST     COMPUTE   OBJECT    AMOUNT
02         9999     3                   11051     $108.60
           EFFDTE   TIME     DTPROC    SLC  PAT    DTPREP     DIST  RU  FORM    ENT   ACTION
START      19910102 9999     19910423  0    MDL    19910423   07    01  6E            MMS5
STOP       99999999 9999     99999999  0           19910423                           MMS5
```

Segment 02 data fields   This table describes fields unique to Segment 02. Please see page <u>5-8</u> for descriptions of fields common to all segments.

Field	Description
OBJECT	11051 (enlisted only)
AMOUNT	Monthly basic pay rate from pay tables X 25%

Segment 03 - Miscellaneous Credit For Known Period

Introduction   Segment 03 contains information used to credit a member's pay account.

Example:

```
SEG        HIST      COMPUTE     OBJECT              AMOUNT
 03         199602      4          D0857              $0.00
      EFFDTE  TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION
START 19960101 9999 19960220  0  COM 19960220
STOP  19960131 9999 19960220  0  COM 19960220
TAX          SOURCE      FY-CHG          PROC-FROM
 0            36          6               999999

             DAFIS ACCOUNTING STRING
_____
```

Segment 03 data fields   This table describes fields unique to Segment 03. Please see page for descriptions of fields common to all segments.

Field	Description
OBJECT	Object code from the source segment found in SOURCE
AMOUNT	Amount To Be Credited. The amount may be a daily or monthly rate amount. The proration of the amount is based on the source segment found in SOURCE
TAX	Tax Code. The taxability of this segment is based on the taxability of the entitlement identified by the source segment found in SOURCE, not on the value in the TAX field. Valid codes are: 0 — Non-taxable. 1 — Federal income tax withheld*. 2 — FICA tax. 3 — Federal income tax withheld + FICA tax*. 4 — 28% Lump Sum Federal income tax withheld*. 5 — 28% Lump Sum Federal income tax withheld + FICA tax*. *Includes state income tax withheld where applicable.
SOURCE	Source Segment Number. Indicates the segment, which is the source of this credit.

Segment 03 - Miscellaneous Credit For Known Period,
Continued

Segment 03 data fields (con'td)

Field	Description
FY-CHG	Last digit of the fiscal year to which this Description is charged, e.g., 5 = FY-95, 4 = FY-94.
PROC-FROM	Processing From Date. The date is used to identify the actual date that the segment was evaluated and paid from. It is set by COMPUTE when the SOURCE is 25, 26 or 28 and the START DT/TI, STOP DT/TI or both are no longer within the 3-month retro processing range. Format is: • YYYYMM Segment processed from the first day of month indicated. • 9999 Segment processed and paid in full.
DUTY STOP DT	This field contains the STOP DT/TI date of the 01 segment built for reserve pay. This field is used for researching swapped segments. 01 segments swapped out of the retro compute processing period will retain the original STOP DT/TI date in this field.
DUTY TYPE	This field contains the Reserve Duty Type codes. This field represents the duty performed for pay and points calculations. Valid codes are: A Appropriate duty D Multiple drill without pay E Regular drill without pay F Regular drill with pay and regular drill without pay H Funeral Duty and Regular Drill J Funeral Duty and Regular Drill W/Out Pay M Multiple drill P Unexcused absence for regular drill Q Unexcused absence for multiple drill N Appropriate duty without pay S Regular drill W Regular drill with pay and regular drill without pay converted to without pay X Regular drill converted to regular drill without pay Y Multiple drill converted to multiple drill without pay Z Multiple drill converted to regular drill with pay and regular drill without pay

Segment 03 - Miscellaneous Credit For Known Period,

Continued

Segment 03 data fields (cont'd)

Field	Description
PROGRAM DESIGNATION CODE 1	This field contains the Mode Code, which represents the type of training received by the reserve member.
PROGRAM DESIGNATION CODE 2	This field is used when a reserve member performs a multiple drill and receives two different types of training in one day.
DAFIS ACCOUNTING STRING	This field contains the CG DAFIS accounting data required for reserve training.

Segment 04 - Misc. Debit For Known Period

Introduction   Segment 04 contains information to debit a member's pay account.

Example:

```
SEG         HIST        COMPUTE      OBJECT                  AMOUNT
 04        200004          4          11551                  $8.54
         EFFDTE  TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION
START 20000414 0001 20000420   0  127  20000420  53  02  63
STOP  20000414 2400 20000420   0  127  20000420  53  02  63
TAX            SOURCE       FY-CHG           PROC-FROM
 0               25                           000000
DUTY STOP DT   DUTY TYPE     PROG DES 1     PROG DES 2

            DAFIS ACCOUNTING STRING
_____
```

Segment 04   This table describes fields unique to Segment 04. Please see page for
data fields   descriptions of fields common to all segments.

Field	Description
OBJECT	Object code from the source segment found in SOURCE.
AMOUNT	Amount To Be Debited. The amount may be a daily or monthly rate amount. The proration of the amount is based on the source segment found in SOURCE.
TAX	The reversing effect on member's monthly taxes is based on the taxability of the entitlement identified by the source segment found in SOURCE. For the tax codes see segment 03.
SOURCE	Source Segment Number. Indicates the segment, which is the source of this debit.
FY-CHG	Last digit of the fiscal year to which this Description is charged, e.g., 5 = FY-95, 4 = FY-94.
PROC-FROM	Processing From Date. The date is used to identify the actual date that the segment was evaluated and paid from. It is set by COMPUTE when the SOURCE is 25, 26 or 28 and the START DT/TI, STOP DT/TI or both are no longer within the 3-month retro processing range. Format is: YYYYMM Segment processed from the first day of month indicated. 9999 Segment processed and paid in full.

Segment 04 - Misc. Debit For Known Period, Continued

Segment 04 data fields (cont'd)

Field	Description
DUTY STOP DT	This field contains the STOP EFFDTE/TIME of the 01 segment built for reserve pay. This field is used for researching swapped 01 segments. 01 segments swapped out for the retro compute-processing period will retain the original STOP EFFDTE/TIME in this field.
DUTY TYPE	This field contains the Reserve Duty Type codes. This field represents the duty performed for pay and points calculations. The valid codes are: A Appropriate duty D Multiple drill without pay E Regular drill without pay F Regular drill with pay and regular drill without pay H Funeral Duty and Regular Drill J Funeral Duty and Regular Drill W/Out Pay M Multiple drill P Unexcused absence for regular drill Q Unexcused absence for multiple drill N Appropriate duty without pay S Regular drill W Regular drill with pay and regular drill without pay converted to without pay X Regular drill converted to regular drill without pay Y Multiple drill converted to multiple drill without pay Z Multiple drill converted to regular drill with pay and regular drill without pay
PROGRAM DESIGNATION CODE 1	This field contains the Mode Code, which represents the type of training received by the reserve member.
PROGRAM DESIGNATION Code 2	This field is used when a reserve member performs a multiple drill and receives two different types of training in one day.
DAFIS ACCOUNTING STRING	This field contains the CG DAFIS accounting data required for reserve training

Segment 05 - Hostile Fire (Imminent Danger) Pay

Introduction Segment 05 contains information on a member's entitlement to Hostile Fire (Imminent Danger) Pay.

Example:

```
SEG         HIST    COMPUTE           OBJECT    COUNTRY         AMOUNT
05          9211    4                 11356       SA            $150.00
            FFDTE   TIME    DTPROC    SLC  PAT   DTPREP    DIST  RU   FORM    ENT   ACTION

```

Segment 05 data fields This table describes fields unique to Segment 05 Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	11306 (officer).
	11356 (enlisted).
COUNTRY	Country Code (see PPPM, Enclosure (9) for codes)
AMOUNT	Monthly basic pay rate.

Segment 06 - Special Duty Assignment Pay

Introduction   Segment 06 contains information on a member's entitlement to Special Duty Assignment Pay.

Example:

```
SEG       HIST    COMPUTE        OBJECT           AMOUNT      SDAP-RATE
06        9999    3              11758            $110.00     Y2

```

Segment 06 data fields   This table describes fields unique to Segment 06. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	Object code. Please see Page 2-D-8 for a listing of object codes.
AMOUNT	Monthly rate from pay tables.

Continued on next page

Segment 06 - Special Duty Assignment Pay, Continued

Segment 06 data fields (cont'd)

Field	Description
SDAP-RATE	SDAP Rate Flag Code. Valid Codes are published annually by e-Mail ALSPO Message.

Segment 07 - Career Sea Pay

Introduction   Segment 07 contains information on a member's entitlement to Career Sea Pay (CSP). Effective 01OCT01 CSP reform eliminated grandfathering.

Example:

```
SEG        HIST      COMPUTE      OBJECT              AMOUNT
 07        999999                 11358               190.00

                             07 13419               1
```

Segment 07   This table describes fields unique to Segment 07. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description
OBJECT	11308 (officer)/11358 (enlisted)
AMOUNT	Monthly rate from pay tables.
GRANDFATHER FLAG	The flag applies to enlisted members who were assigned to sea duty as of 01OCT01. Valid codes are list below.

Code	Description
Blank	Member never identified as entitled to grandfather rates
0	Member once identified as entitled to grandfather rates
6	Effective 01OCT01 only valid grandfather code. Personnel receiving a CSP amount on 30SEP01 which is greater than amount on 1OCT01.

DISTRICT/OPFAC	The district and OPFAC of the unit where the member is serving sea duty or did serve sea duty. A DISTRICT/ OPFAC of 15 71239 indicates TAD sea duty at a Navy unit.

Segment 08 - Hardship Duty Pay-Location

Introduction   Segment 08 contains information on a member's entitlement to Hardship Duty Pay-Location (formerly Foreign Duty Pay).

Example:

```
SEG          HIST       COMPUTE       OBJECT                AMOUNT
 08          200001        4           11357                  $22.50

START 19991110 9999 19991119  0  952 19991117   33  12  67       P607
STOP  99999999 9999 99999999  0  952 19991117   33  12  67       P607
DIST-RESP              OPFAC-RESP
   21                    99999
```

Segment 09 data fields   This table describes fields unique to Segment 09. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	11309 (officer only).
AMOUNT	Monthly rate from pay tables.
DIST-RESP	This is normally the member's permanent unit's district ID, unless this entitlement is started at a TAD unit, then it will show member's present unit's district ID.
OPFAC-RESP	This is normally the member's permanent unit's OPFAC, unless this entitlement was started at a TAD unit, then it will be the member's present unit's OPFAC.

Segment 10 - Diving Duty Pay

Introduction Segment 10 contains information on a member's entitlement to Diving Duty Pay.

Example:

```
SEG          HIST        COMPUTE      OBJECT              AMOUNT
 10        199909          4           11355              $300.00

Segment 14 data fields   This table describes fields unique to Segment 14. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	Object Code: The only object codes in use right now are 11900,11950,11901,11951,11902 and 11952. The other object codes may be used at a later date

Officer	Enlisted	Proficiency	Category	Code
11950	11900	Interpreter		1F
11951	11901	Linguist		2F
11952	11902	Interim		3F
11953	11903			4F
11954	11904			5F
11955	11905		1	6F
11956	11906		2	7F
11957	11907		3	8F
11958	11908		4	9F

Field	Description
AMOUNT	Monthly rate from pay tables.
LAPSE DT	Date member's language proficiency exam certification expires. Normally 1-year after the date the exam was administered.
LANGUAGE	Two letter abbreviation describing the foreign language the member is certified in. Examples (not all inclusive): SP – Spanish RU – Russian
FLP RATE	Alpha-numeric code describing the FLP pay proficiency level: Interpreter – 1F, Linguist – 2F and Interim – 3F

Segment 15 - Demolition Pay (Not currently utilized)

Introduction   Segment 15 contains information on a member's entitlement to Demolition
Pay. This segment is not currently utilized.

Example:

```
SEG        HIST       COMPUTE      OBJECT              AMOUNT
 15        999999        3          11207              $110.00

                                        00
```

Segment 20   This table describes fields unique to Segment 20. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description	
OBJECT	Object code	
	Code	**Description**
	12351	Basic Maintenance Allowance (enlisted only)
	12352	Standard Maintenance Allowance (enlisted only)
	12359	Reserve Basic Maintenance Allowance (enlisted only)
	1235A	Reserve Standard Maintenance Allowance (enlisted only)
	12308	Officer Uniform Allowance (officer only)
AMOUNT	Monthly rate from pay tables. For SELRES, this is a per drill rate that is derived from the amounts on the pay tables.	
Claim Code	Uniform allowance claim code	
	Code	**Reason**
	A	Initial uniform allowance for reserves only. Those officers commissioned upon completion of Aviation Officer Candidate School and those Limited Duty Officer Aviator Candidates commissioned upon completion of all flight training.

SEGMENT 20 - CLOTHING MAINTENANCE ALLOWANCE,
Continued

Segment 20 data fields (cont'd)

Field	Description	
Claim Code	Uniform allowance claim code (cont'd)	
	Code	**Reason**
	B	Initial uniform allowance for reserves only. The officer has not already received the initial uniform allowance and meets one of the following: 1. Has reported for AD (other than training) for a period in excess of 90 days including authorized travel time; or 2. has completed 14 periods for a total of 14 days of AD or ADT; or 3. has completed 14 periods of not less than hours duration each, of inactive duty training in Ready Reserve status.
	C	Initial uniform allowance for reserves only. The officer has transferred from another reserve component of the Armed Forces where a different uniform was required.
	D	Initial uniform allowance for all regular officers and for those reserve officers who have recently graduated from OCS and are currently on active duty for a period in excess of 139 days. An officer is entitled to an initial uniform allowance upon first appointment as an office (temporary or regular) or as a permanent warrant officer.
	E	Additional active duty uniform allowance for reserves only. The reserve officer is entering on • AD or ADT for more than 90 days or • has been on continuous AD or ADT for more than 90 days and two years have elapsed since receipt of an initial reimbursement or • allowance in excess of $200 or two years have passed since the last period of AD or ADT for more than 90 days.
	F	Uniform maintenance allowance for reserves only. This allowance was discontinued on 29 Nov 90. Claims for this allowance must have an eligibility date that is prior to the above date. This allowance was payable to a reserve officer each time the officer completed a 4 year period of satisfactory service. See paragraph 3-J-4 of COMDTINST M7220.29, Coast Guard Pay Manual to determine satisfactory service.

SEGMENT 20 - CLOTHING MAINTENANCE ALLOWANCE,
Continued

Segment 20 data fields (cont'd)

Field	Description
ELIGIBILITY DATE	Date officer became eligible for the entitlement. Officers only.
SUP CMA	Records the code for which the member is receiving Supplemental CMA. Refer to Figure 3-21 of the Coast Guard Pay Manual, COMDTINST M7220.29 (series) for codes.

Segment 21 - Family Separation Basic Allowance For Housing (Changed From Family Separation Allowance, Type I 1 Jan 98)

Introduction   Segment 21 is no longer utilized.

Segment 21 data fields   This table describes fields unique to Segment 21. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description	
Object	Object code.	
	Officer	**Enlisted**
	1250I	1255I
Amount	Monthly amount from pay table	
FSH	FSH tour election code	
	Code	**Tour Election**
	1	With Command sponsored dependents
	0	All others

Segment 22 - Family Separation Allowance, Type II

Introduction   Segment 22 contains information on a member's entitlement to FSA-Type II.

Example:

```
SEG        HIST      COMPUTE      OBJECT       AMOUNT      FSA
 22       199807        4         1255S       $100.00
         EFFDTE  TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION

STOP  19980717 9999 19980722  0   710 19980721  33  12  6B
```

Segment 22 data fields   This table describes fields unique to Segment 22. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description		
Object	Object code.		
	FSA	**Officer**	**Enlisted**
	R	1250R	1255R
	S	1250S	1255S
	T	1250T	1255T
Amount	Monthly amount from pay table		
FSA	FSA tour election code for FSA-R only		
	Code	**Tour Election**	
	1	With Command sponsored dependents	
	0	All others	
	Blank	FSA is not for FSA-R	

Segment 23 – Miscellaneous Allowances

Introduction   Segment 23 contains information on entitlement to Personal Money
Allowance and/or Combat SGLI Allowance.

Example:

```
SEG        HIST      COMPUTE      OBJECT              AMOUNT
 23        199805        4          1170              $333.33
        EFFDTE  TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION

STOP  19980531 9999 19980603  0  148 19980601  98  03  68
```

Segment 23   This table describes fields unique to Segment 23. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description
OBJECT	0060 Combat SGLI Allowance (officer)
	0065 Combat SGLI Allowance (enlisted)
	1170 Personal Money Allowance (officer only)
	1175 Personal Money Allowance (Enlisted E-10 only)
AMOUNT	Monthly rate from pay tables.

Segment 24 – BAS (Officer/Enlisted)/BAS II (Enlisted)

Introduction Segment 24 contains information on an entitlement to Basic Allowance for Subsistence (BAS) for both officer and enlisted personnel and BAS II for enlisted personnel.

Example:

```
SEG        HIST       COMPUTE      OBJECT              AMOUNT
 24        99999          3         1155D              $242.81

STOP  99999999 9999 99999999
```

Segment 24 data fields This table describes fields unique to Segment 24. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description	
OBJECT	Object code	
	1150	Officer
	11551	Regular BAS (enlisted) (Obsolete effective 1 Jan 2005 due to BAS reform)
	1155D	BAS (Enlisted)
	1155F	BAS II (Enlisted Only)
AMOUNT	Monthly rate from pay tables.	

Segment 25 - Regular BAS (obsolete after 12/31/2001)

Introduction   Segment 25 contains information on a member's entitlement to Regular Basic
Allowance for Subsistence. Effective 1/1/2002, this segment is no longer
used.

Example:

```
SEG         HIST       COMPUTE     OBJECT              AMOUNT
 25         999999        3          11551              $8.54

STOP  99999999 9999 99999999  0
```

Segment 25   This table describes fields unique to Segment 25. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description
OBJECT	11551 (enlisted only)
AMOUNT	Daily rate from pay tables.

Segment 26 – IDT COMRATS

Introduction Effective 1/1/2002 Segment 26 contains information on IDT COMRATS. Prior to 1/1/2002, Segment 26 contained information on Prorated Separate Rations.

Example:

```
SEG       HIST        COMPUTE      OBJECT              AMOUNT
 26       199907         4          11559               $7.50

STOP  19990702 1859 19990706   0  199 19990702  53  02  68
```

Segment 26 data fields This table describes fields unique to Segment 26. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	Effective 5/1/2002, 1155E (COMRATS)
AMOUNT	Daily rate from pay tables.

Segment 27 – Discount Meal Rate

Introduction   Effective 1/1/2002, Segment 27 is used as a deduction (Discount Meal Rate). Prior to 1/1/2002, Segment 27 contained information on a member's entitlement to Partial/Special BAS Allowance for Subsistence.

Example:

```
SEG         HIST       COMPUTE      OBJECT                 AMOUNT
 27        199811         4          1155B                  $0.31

STOP  19981115 9999 19981118  0  024  19981117  33  12  67      P620
```

Segment 27   This table describes fields unique to Segment 27. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description
OBJECT	Effective 1/1/2002, the Object field for Segment 27 will contain D095 for Discount Meal Rate. 1155B Partial BAS and 11552 Special BAS and SEPRATS were effective thru 12/31/2001.
Amount	Daily rate from pay tables.

Segment 28 – Cadet COMRATS

Introduction   Segment 28 contains information on a member's entitlement to Cadet COMRATS. Prior to 1/1/2002, Segment 28 also contained information on LVRATS.

Example:

```
SEG        HIST       COMPUTE      OBJECT      AMOUNT    LVRATS
 28        200004        4          11558       $7.58      I

	12456	Enlisted with 6 or more dependents
	12407	Officer partial
	12457	Enlisted partial

Continued on next page

Segment 29 - Cost Of Living Allowance, Continued

Field	Description
AMOUNT	The total of the Daily Rate and Unique Daily Rate amounts.
DAILY RATE	Daily rate calculated from the Per Diem, Travel, and Transportation Allowance Committee World Wide Web Site using two decimal places rounded up. Based on pay grade, longevity, number of dependents and locality.
LOC-CODE	Location Code. A five-character alphanumeric locality code from the Per Diem, Travel, and Transportation Allowance Committee World Wide Web Site and input from the transaction.
INDEX	A three-character numeric COLA index. Transaction generated from the locality codes available from the Per Diem, Travel, and Transportation Allowance Committee World Wide Web Site. Used for COLA computations.
OFF-ENL-IND	Officer/Enlisted Indicator. Valid codes are: O Officer. E Enlisted.
DEP	Number of dependents
UNIQUE DAILY RATE	Unique daily rate, calculated the Per Diem, Travel, and Transportation Allowance Committee World Wide Web Site using two decimal places rounded up, based on locality. COLA Unique is an adjustment to COLA for unique items previously paid by adjusting the COLA index. The payment of COLA Unique is part of the total COLA payment received by the member. It is not a separate payment.

Segment 30 – New Enlistment Bonus/Critical Skills Training Bonus

Introduction   Segment 30 contains information on a member's entitlement to an enlistment bonus.

Example:

```
SEG       HIST      COMPUTE     OBJECT     AMOUNT          RATE
 30       999999                12653     $4000.00          ET

Field	Description		
OBJECT	Object code.		
		Code	**Type of Bonus**
		12653	Incentive bonus - Enlisted Rating Incentive Program
		12654	Incentive bonus - Enlisted Rating Incentive Prior Service Program
		1265M	Enlisted Bonus (Non prior service/combat tax exclusion)
		1265N	Enlisted Bonus (Prior Service/combat tax exclusion)
		1265S	Lateral Entry Enlistment Bonus
		1265Z	Enlistment Bonus College Credit
		12659	Non-Rate Enlisted Incentive Program
		2265	Critical Skills Training Bonus
AMOUNT	Derived from input.		
RATE	The rate of the member.		
DT-RECOUP	The effective date of the H 875; otherwise 99999999.		
AMT RECOUP	Total amount recouped by the H 875; otherwise $0.00.		
NXT INST	Date of next installment, otherwise 99999999.		
BALANCE	Principal balance remaining to be paid.		

Continued on next page

Segment 30 – New Enlistment Bonus/Critical Skills Training Bonus, Continued

Segment 30 data fields (cont'd)

Field	Description
INST	Total number of installments over which Enlisted Bonus is paid. As of October 2001, enlistment bonuses should be lump sum. Because of implementation delays, bonuses for the next two years can be lump sum or have two installments.
INSTALLMENT AMOUNTS	Amount of each individual installment. First installment of an enlisted bonus is usually one-half of BALANCE. If an INSTALLMENT AMOUNT is not applicable, a value of $0.00 will be shown.
INSTALLMENT DATES	Date an installment has been or will be paid. If an INSTALLMENT DATE is not applicable, a value of 99999999 will be shown.
INSTALLMENT FLAGS	Status of installments. The following codes are used: <table><tr><td>**Code**</td><td>**Description**</td></tr><tr><td>1-0</td><td>First installment will be due but has not been computed on.</td></tr><tr><td>1-1</td><td>First installment was computed on or no installment is due.</td></tr><tr><td>2-0</td><td>Second installment will be due but has not been computed on.</td></tr><tr><td>2-1</td><td>Second installment was computed on or no installment is due.</td></tr><tr><td>Monthly</td><td>Monthly installments will be made.</td></tr></table>
START DT	Date monthly installment starts.
AMOUNT	The amount of the monthly installment.
RETRO DATE	The effective date of an H 601 reporting action by the Board for Correction of Military Records (BCMR) or reporting an out of range Bonus; otherwise 99999999.
RETRO AMT DUE	The amount payable to the member based on the H 601; otherwise $0.00
RETRO COMPUTE FLAG	Valid codes are: 0 Indicates that an H 601 has processed and has not been seen by COMPUTE yet. 1 Indicates that an H 601 has been seen by COMPUTE or that no H601 has processed.
SUSPENSE FLAG	Valid codes are: 1 A P 602 has processed but has not been seen by COMPUTE yet. 2 A P 602 has processed and has been seen by COMPUTE. 3 A removal of a P 602 has processed and has been seen by COMPUTE. Blank No suspension or removal of P 602 has been processed.

Segment 30 – New Enlistment Bonus/Critical Skills Training Bonus, Continued

Segment 30 data fields (cont'd)

Field	Description
SUSPENSE DATE	The effective date of the P 602; otherwise 99999999.
PRIOR PAYMENT MONTH-0	Prior payment (month of last compute)
PRIOR PAYMENT MONTH-1	Prior payment (month of last compute less one month)
PRIOR PAYMENT MONTH-2	Prior payment (month of last compute less two months)
PRIOR PAYMENT MONTH-3	Prior payment (month of last compute less three months)

Segment 31 - CONUS COLA

Introduction   Segment 31 contains information on a member's entitlement to CONUS COLA.

Example:

```
SEG         HIST       COMPUTE      OBJECT      AMOUNT
 31         999999        3          1145C       $78.00

```

Segment 32   This table describes fields unique to Segment 32. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description		
OBJECT	Object code:		
		Code	**Description**
		D060	Officer
		D065	Enlisted
TOTAL AMOUNT	Monthly rate from pay tables (combined total of member, dependent and traumatic SGLI)		
DEP CODE	SGLI Election Code. Indicates the amount of coverage elected. Valid codes are listed in the MBR CODE section below.		
DEP BIRTH	Date of birth in YYYYMMDD format for member's spouse.		
DEP AMOUNT	Cost for dependent coverage.		

Segment 32 - SGLI, Continued

Segment 32 data fields (cont'd)

MBR CODE	SGLI Election Code. Indicates the amount of coverage elected. Valid codes are:					
	Code	**Election**	**Code**	**Election**	**Code**	**Election**
	0	Decline	**A**	$100K	**K**	$200K
	1*	$10K	**B***	$110K	**L***	$210K
	2*	$20K	**C***	$120K	**M***	$220K
	3*	$30K	**D***	$130K	**N***	$230K
	4*	$40K	**E***	$140K	**O***	$240K
	5	$50K	**F**	$150K	**P**	$250K
	6*	$60K	**G***	$160K	**Q**	$300K
	7*	$70K	**H***	$170K	**R**	$350K
	8*	$80K	**I***	$180K	**S**	$400K
	9*	$90K	**J***	$190K	**Z**	Non-collection
	(*) Not valid after 7/31/05. Only 50K increments, up to 400K, are authorized.				**Y**	An administrative stop to SGLI that can only be used by PSC
COMBAT CODE	"S" (after 31OCT06) or "F"(prior to 01NOV06) indicates the segment was built because of a Combat SGLI Allowance transaction (P607 VDC 80 or 81).					
COMBAT AMOUNT	Dollar amount of the Combat SGLI coverage cost. Currently equal to the cost for $150K SGLI coverage plus the cost of Traumatic SGLI coverage. These charges are offset by a credit in Segment 23- Miscellaneous Allowances.					
T-SGLI AMOUNT	Dollar amount of the Traumatic-SGLI coverage cost. T-SGLI coverage is automatic for all SGLI participants and cannot be declined. Coverage cost is a flat-rate and noted tied to SGLI election amounts.					
DEPOSIT	This Field contains the reserve member's advance payment amount for SGLI coverage.					
BALANCE	This Field contains the reserve member's negative or positive balance amount for SGLI coverage.					
VOUCHER	This Field contains the daily cash log or credit card confirmation number used by PSC(DC).					
AMOUNT	This Field contains the dollar amount of the SGLI payment.					

Segment 33 - Parachute Pay (Not currently utilized)

Introduction   Segment 33 contains information on a member's entitlement to Parachute Pay. This segment is not currently utilized.

Example:

```
SEG        HIST     COMPUTE          OBJECT              AMOUNT
33         9999     3                11208               $110.00
           EFFDTE   TIME    DTPROC   SLC  PAT    DTPREP    DIST   RU   FORM    ENT    ACTION
START      19900501 9999    19910424 1    456    19910424  53     17   67             MMS5
STOP       99999999 9999    99999999 0
```

Segment 33 data fields   This table describes fields unique to Segment 33. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description	
OBJECT	Object code:	
	Code	**Description**
	11208	Officer
	11258	Enlisted
AMOUNT	Monthly rate from pay tables.	

Segment 34 - BAH With Dependents

Introduction   Segment 34 contains information on a member's entitlement to Basic
Allowance for Housing at the With Dependents rate.

Example:

```
SEG          HIST        COMPUTE      OBJECT       AMOUNT
 34         999999           3          1145G      $681.00
        EFFDTE  TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION

  $667.20        66683      105       $681.00        N
```

Segment 34   This table describes fields unique to Segment 34. Please see page 5-8 for
data fields   descriptions of fields common to all segments. This segment's title was
changed from VHA with dependents on 1 January 1998.

Field	Description	
OBJECT	Object code:	
	Code	**Description**
	1140G	Officer
	1145G	Enlisted
AMOUNT	Amount taken from the BAH dollar amount table.	
BAH-AMT	Amount of monthly BAH at the, with dependent rate.	
BAH II-AMT	Amount of monthly BAH Type II at the with dependent rate	
BAH-ZIP	ZIP code of BAH Location.	
MHA	Military Housing Area.	
CURR-TABLE-AMT	Contains the current BAH table rate.	
RATE P	Will contain a "Y" if the member is BAH rate protected or an "N" if the member is not BAH rate protected.	

Segment 35 - BAH Without Dependents

Introduction   Segment 35 contains information on a member's entitlement to Basic
Allowance for Housing at the Without Dependents rate.

Example:

```
SEG        HIST      COMPUTE      OBJECT      AMOUNT
 35        999999       3          1145H      $337.00

SPOUSE-ZIP    SPOUSE-GRADE    SPOUSE-BAQ     SPOUSE-VHA
  00000
```

Segment 36 data fields

This table describes fields unique to Segment 36. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	Object code:

	Code	Description
	D0807	Officer with dependents
	D0857	Enlisted with dependents
	D0808	Officer without dependents
	D0858	Enlisted without dependents

Field	Description
AMOUNT	Amount taken from the VHA dollar amount table.
SOURCE	34 VHA Offset with dependents. 35 VHA Offset without dependents.
BAQ AMT	The BAQ amount as reported in the corresponding VHA segment. There is one exception to the above. If the member receives VHA/W and VHA/WO, then the amount in the field should be $0.00, or the amount the member receives for FSH for members stationed in Alaska.
VHA AMT	The VHA amount as reported in the corresponding VHA segment.
RENT/ MORTGAGE	The rent or mortgage amount from the source transaction.
OTHER EXPENSES	Other allowable expenses amount from the source transaction.

Continued on next page

Segment 36 - VHA Offset (Obsolete effective 01 Jan 98),
Continued

Segment 36 data fields (cont'd)

RENTER/ OWNER	Renter/Owner Code. R Renter. O Owner. Blank Not used.
SHARERS	Number of sharers from the source transaction.
UME-AMT	Amount taken from the VHA utility offset dollar amount table.
AUDIT-DT	The source transaction effective date plus one year.
SPOUSE-ZIP	Military spouse's active duty VHA zip code.
SPOUSE-GRADE	Military spouse's active duty pay grade (e.g. E5,O3).
SPOUSE-BAQ	Military spouse's BAQ status, with or without dependents. WD = with dependents WO = without dependents

Segment 37 - Career Sea Pay Premium

Introduction   Segment 37 contains information on a member's entitlement to Career Sea Pay Premium

Example:

```
SEG        HIST       COMPUTE      OBJECT              AMOUNT
 37       999999        3          1135P               $100.00

Segment 38 - Collection of Indebtedness, Continued

Segment 38 data fields   This table describes fields unique to Segment 38. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	Object code from the input transaction.
AMOUNT	Total amount of indebtedness.
PURPOSE	Purpose code: (EFT type only)

	Code	Purpose
	G	Child/Spousal Support Deduction
	J	IRS Tax Levy Deduction
	K	Involuntary Allotment
	M	Mandatory Support Allotment
	P	Bankruptcy Wage Deduction
	S	Debts to Other Services Deduction
	E	CG Exchange Deduction for Debt

Field	Description
TYPE-38	0 = Old Type Segment 38 1 = New Type Segment 38 (EFT)
VDC	The variable data element code used on the H605, which established or last modified this segment. Set to 00 if built by COMPUTE.
INSTALLMENT	Monthly installment amount.
BALANCE	Principal balance remaining to be collected.
% W/H	For reserve members, the percentage to be withheld.
MONTH MAX	For reserve members, the monthly maximum amount for garnishments/debts.
SUSPEND COLL	Suspend Collection Date. Date collection suspended in PMIS/JUMPS. Set to the first of the next month after suspension transaction processes. Otherwise, set to 99999999.
RESTART COLL	Date collection Description restarted in PMIS/JUMPS. The effective date of a start collection transaction. Otherwise, set to 99999999.
NBR INSTAL	Number of Installments. "LS" in this field indicates that COMPUTE will attempt to collect the indebtedness lump sum; "RS" will indicate that compute will attempt to collect the percentage indicated in "W/H%" field and "UT" indicates that the collection will continue to run until shut down by another transaction.
COLL FLAG	Collection flag code:.

	Code	Purpose
	1	Collection suspended but has not been seen by COMPUTE yet.
	2	Collection Description suspended and has been seen by COMPUTE
	3	Collection restarted but has not been seen by COMPUTE yet
	0	Collection restarted and has been seen by COMPUTE
	BLANK	No suspension has been processed

Segment 38 - Collection of Indebtedness, Continued

Segment 38 data fields (cont'd)

Field	Description
APR %	Annual percentage rate for interest charge on in-service debt.
DAILY INT RATE	Daily interest rate, a six decimal place percentage factor used to compute the monthly interest charge on the unpaid debt balance.
TOT INT ACCRUED	Total of all interest accrued on the debt over the repayment period
TOT INT COL	Total of all interest collected on the debt over the repayment period.
INT COMP DT	Date interest begins to accrue.
ACCT NBR	This is the account number where the garnishment will be deposited (EFT type only)
PAYEE CODE	A three digit payee code of applicable (EFT type only)
ROUTING NUMBER	The first eight digits of the routing number of the bank where the money will be deposited (EFT type only).
CK DGT	This is the ninth digit of the routing number (EFT type only).
SAV CD	Indicated type of account (EFT type only): C = Checking S = Savings
CASE IDENTIFIER	This is the case number assigned by the legal process (EFT only)
PRIOR COLLECTION: MONTH 0	Prior collection (month of last compute)
PRIOR COLLECTION: MONTH -1	Prior collection (month of last compute less one month)
PRIOR COLLECTION: MONTH -2	Prior collection (month of last compute less two months)
PRIOR COLLECTION: MONTH -3	Prior collection (month of last compute less three months)
PRIOR INT ACCRUED: MONTH 0	Prior interest accrual (month of last compute)
PRIOR INT ACCRUED: MONTH -1	Prior interest accrual (month of last compute less one month)
PRIOR INT ACCRUED: MONTH -2	Prior interest accrual (month of last compute less two months)
PRIOR INT ACCRUED: MONTH -3	Prior interest accrual (month of last compute less three months)
PRIOR INT COLLECTED: MONTH 0	Prior interest collected (month of last compute)
PRIOR INT COLLECTED: MONTH -1	Prior interest collected (month of last compute less one month)
PRIOR INT COLLECTED: MONTH -2	Prior interest collected (month of last compute less two months)
PRIOR INT COLLECTED: MONTH -3	Prior interest collected (month of last compute less three months)

Segment 39 - Advance Pay And Allowances

Introduction   Segment 39 contains information on liquidation of a member's Advance Pay and Allowances.

Example:

```
SEG       HIST    COMPUTE          OBJECT             AMOUNT        VDC
39        9206    4                11852              $805.00        01

Segment 42 - Special Enlistment Program/Selective Reenlistment Bonus/Career Status Bonus, Continued

Segment 42 data fields

This table describes fields unique to Segment 42. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	Object Code.

Code	Type of Bonus
1130C	PYA PSU Bonus
1265	Selective Reenlistment Bonus
1265E	Selective Reenlistment Bonus SRB NON-TAX (Combat Tax Exclusion)
12651	Special Enlistment Program
12652	Incentive bonus -"A" School/Striker Incentive Program
12655	SELRES Reenlistment/Extension LVL I/3 yrs
12656	Reenlistment/Ext LVL 1/6 yrs
12657	SELRES Reenlistment/Extension LVL II/3 yrs
12658	SELRES Reenlistment/Extension LVL II/6yrs
1265A	SELRES Prior Service LVL I/3yrs
1265B	SELRES Prior Service LVL I/6yrs
1265C	SELRES Prior Service LVL II/3yrs
1265D	SELRES Prior Service LVL II/6yrs
1265F	SELRES Enlistment LVL I/6yrs
1265G	SELRES Enlistment LVL II/6yrs
1265H	SELRES Affiliation LVL 1
1265I	SELRES Affiliation LVL II
1265J	SELRES Reenlistment/Extension LVL I or LVL II (3 year – Combat Tax Exclusion) USED ONLY BY PSC
1265K	SELRES Reenlistment/Ext LVL I or LVL II (6 year – Combat) USED ONLY BY PSC
1265L	SELRES Affil. .Bonus LVL I (Combat Tax Exclusion) USED ONLY BY PSC
1265P	CSB Enlisted
1260P	CSB Officer
1260Q	CSB Officer (combat tax exclusion)
1265Q	CSB Enlisted (combat tax exclusion)
1260R	CSB Officer (Puerto Rico combat tax exclusion)
1265R	CSB Enlisted (Puerto Rico combat tax exclusion)

Segment 42 - Special Enlistment Program/Selective Reenlistment Bonus/Career Status Bonus, Continued

Segment 42 data fields (cont'd)

Field	Description
DT RECOUP	The effective date of an H875; otherwise 99999999.
AMT RECOUP	Total amount recouped by an H875; otherwise $0.00.
NEXT INSTALL	Date of next installment, otherwise 99999999.
TOTAL AMT	Total amount of Selective Reenlistment Bonus or Special Enlistment Program bonus. For SEP bonus, amount will always be $2,000.
NBR INST	Total number of installments over which SRB is paid. TOTAL AMT can be paid in up to 6 installments. For SEP bonus, this number will always be 1.
INSTALLMENT AMOUNTS	Amount of each individual SRB installment. First installment of an SRB is usually one-half of TOTAL AMT. If an INSTALLMENT AMOUNT is not applicable, a value of $0.00 will be shown. For SEP, $2,000 will appear in Installment 1, and all other Installments will be $0.00.
INSTALLMENT DATES	Date an installment has been or will be paid. If an INSTALLMENT DATE is not applicable, a value of 99999999 will be shown. For CSB, installment dates are to be set on the anniversary date or 15 January of the anniversary year.

Field	Description	
INSTALLMENT COMPUTE FLAGS	Installment compute flags:	
	Code	**Description**
	0	An installment will be due but has not been computed on.
	1	An installment was computed on or no installment is due.

Field	Description
RETRO DATE	The effective date of an H601 reporting action by the Board for Correction of Military Records (BCMR) or reporting an out of range SRB; otherwise 99999999.
RETRO AMT DUE	Total amount payable to the member based on the H601; otherwise $0.00.

Field	Description	
RETRO COMPUTE FLAG	Retroactive compute flag:	
	Code	**Description**
	0	Indicates that an H601 has processed and has not been seen by COMPUTE yet.
	1	Indicates that an H601 has been seen by COMPUTE or that no H601 has been processed
SUSPENSE FLAG	Suspense flag	
	Code	**Description**
	1	A P602 has processed but has not been seen by COMPUTE yet.
	2	A P602 has processed and has been seen by COMPUTE.
	3	A removal of P602 has processed but has not been seen by COMPUTE yet.
	0	A removal of P602 has processed and has been seen by COMPUTE.
	Blank	No P602 has been processed.
DATE	The effective date of the P602; otherwise, 99999999.	

Segment 43 - Miscellaneous Lump Sum Credit

Introduction   Segment 43 contains information on a Lump Sum Credit to a member's pay account.

Example:

```
SEG       HIST     COMPUTE     OBJECT     AMOUNT     TAX       SOURCE     FY-CHG
43        199105   4           11651      $104.58    4         00         1

ADJUSTEMENT START                            ADJUSTMENT STOP
ADJUSTMENT RATE             $0.00
```

Segment 43   This table describes fields unique to Segment 43. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description
OBJECT	Object code from the source transaction.
AMOUNT	Total amount of credit due the member.
TAX	Tax Code. The taxability of the amount in this segment is based on the codes below.

Code	Description
0	Nontaxable.
1	Federal income tax withheld.
2	FICA tax.
3	Federal/State income tax withheld + FICA tax.
4	28% Lump Sum Federal/State income tax withheld.
5	28% Lump Sum Federal/State income tax withheld + FICA tax.
8	Puerto Rico tax withholding only.

Field	Description
SOURCE	Source Segment Number. Indicates the segment, which is the source of this credit, if applicable. Otherwise, set to 00.
FY-CHG	Last character of the fiscal year to which this Description is charged.

Segment 43 - Miscellaneous Lump Sum Credit, Continued

Segment 43 data fields (cont'd)

Field	Description
DAFIS ACCOUNTING STRING	This field contains the CG DAFIS accounting data required for reserve training.
All of the fields below are used for Reserve Transition Benefits (RTB) and are as of the date of involuntary separation/transfer/discharge from the Selected Reserve between 1 October 1991 through 30 September 1999.	
RTB TOTAL POINTS	Contains total points as of the date of involuntary separation from the Selected Reserve. Used to calculate RTB payment.
RTB MO. BASIC PAY	Contains the amount of monthly basic pay the individual would have been entitled if serving on active duty on the date of member's involuntary separation. Used to calculate RTB payment.
RTB TIS	RTB Time in Service - Indicates total time in service as of the date of member's involuntary separation.
RTB P-G	RTB Paygrade - A three character, alphanumeric field as of the date of member's involuntary separation.
RTB YIS	RTB Years in Service - Category from the pay table that reflects the member's basic pay rate the individual would have been entitled if serving on active duty on the date of member's involuntary separation.
ADJUSTMENT START	The start date of the adjusting period.
ADJUSTMENT STOP	The stop date of the adjusting period
ADJUSTMENT RATE	The rate that was in effect during that period.

Segment 44 - Miscellaneous Lump Sum Debit

Introduction   Segment 44 contains information on a Lump Sum Debit from a member's pay account

Example:

```
SEG       HIST     COMPUTE     OBJECT     AMOUNT      TAX        SOURCE     HG
44        199109   4           1295       $38.30      0          44         1

STOP      19910823 9999     19910913  0      406    19910826   53     18   67      H604
                            DAFIS ACCOUNTING STRING
ADJUSTEMENT START                              ADJUSTMENT STOP
ADJUSTMENT RATE                 $0.00
```

Segment 44 data fields   This table describes fields unique to Segment 44. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	Object code from the source transaction.
AMOUNT	The total amount of the debit.
TAX	Tax Code. The taxability of the amount in this segment is based on the codes below.

	Code	Description
	0	Nontaxable.
	1	Federal income tax withheld.
	2	FICA tax.
	3	Federal/State income tax withheld + FICA tax.
	4	28% Lump Sum Federal/State income tax withheld.
	5	28% Lump Sum Federal/State income tax withheld + FICA tax.

Field	Description
SOURCE	Source Segment Number. Indicates the segment, which is the source of this debit, if applicable. Otherwise, set to 00.
FY-CHG	Last character of the fiscal year to which this Description is charged.
DAFIS ACCOUNTING STRING	This field contains the CG DAFIS accounting date required for reserve training.
ADJUSTMENT START	The start date of the adjusting period.
ADJUSTMENT STOP	The stop date of the adjusting period
ADJUSTMENT RATE	The rate that was in effect during that period.

Segment 45 - Special Payment

Introduction   Segment 45 contains information on Special Payments.

Example:

```
SEG     HIST        COMPUTE      OBJECT       AMOUNT
45      199105      4                         $352.54

```

Segment 45   This table describes fields unique to Segment 45. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description
AMOUNT	Amount paid.
VOUCHER	Voucher number from the money list.
CANCEL	Canceled Check Flag. Valid codes are: 1　　　Check was canceled. Blank　　Check issued and negotiated.
TYPE PROC	Type Processing Code. Valid codes are: 3　　　An off-line cash payment of an advance has been made using the Money List and an advance liquidation segment has been established. Blank　　An off-line cash payment, other than an advance, has been made using the Money List.
PAYROLL NBR	Payroll number from the Money List or PSC Cash Control Number.

Segment 46 - Overseas Housing Allowance/Interim Housing Allowance

Introduction   Segment 46 contains information on a member's entitlement to OHA or IHA.

Example

```
SEG         HIST       COMPUTE      OBJECT      AMOUNT       CURRENCY
 46        999999         3         1240R      $2417.40

Segment 46 data fields   This table describes fields unique to Segment 46. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	Object code:

	Code	Description
	1240R	Officer OHA
	1245R	Enlisted OHA
	1240I	Officer Interim Housing Allowance
	1245I	Enlisted Interim Housing Allowance

Field	Description
OHA/INT-HOLA AMT	Monthly amount of Overseas Housing Allowance/Interim Housing Allowance based on most recent P609.
CURRENCY	Currency Code. This field is no longer used and will be blank.
OHA/INT- HOLA- INIT- TERM-OCC- EXP	Monthly Initial/Terminal Occupancy Expense recorded on most recent P609 or H609.
US-CEILING	Rental Ceiling Amount in U.S. dollars recorded on most recent P609.

Continued on next page

Segment 46 - Overseas Housing Allowance/Interim Housing Allowance, Continued

Segment 46 data fields (cont'd)

Field	Description
DEP-STAT	Dependent Status based on most recent P609. Valid codes are:

	Code	Description
	WD	Member with dependents and accompanied.
	W8	Member without dependents or unaccompanied whose lease was negotiated after 1 October 1984.

Field	Description
LOC-CODE	A five-character alphanumeric locality code from the most recent P609.
US-RENT	Monthly Rent in U.S. dollars recorded on the most recent P609.
US-UTILITY	Monthly Utility/Recurring Maintenance Allowance in U.S. dollars recorded on the most recent P609.
NBR SHARERS	Number of Sharers recorded on the most recent P609.
OWNER/RENTER/ CODE	Homeowner or Renter Code recorded on most the recent P609. Valid codes are:

	Code	Description
	R	Renter
	H	Homeowner

Field	Description
UTIL-IND	JFTR Utility Indicator recorded on most recent P609. Valid codes are:

	Code	Description
	A	All utilities included in the rent.
	B	No utilities included in the rent.
	25	Some utilities included in the rent, and member entitled to 25% of utility/recurring maintenance allowance.
	65	Some utilities included in the rent, and member entitled to 65% of utility/recurring maintenance allowance.
	100	Some utilities included in the rent, and member entitled to 100% of utility/recurring maintenance allowance.

Field	Description
MIHA	Total Move-in Housing Allowance Payment.
RENT PAID IN FC	Monthly rent if paid in foreign currency.
BAH-II	The amount of BAH Type II included in OHA amount.

Continued on next page

Segment 46 - Overseas Housing Allowance/Interim Housing Allowance, Continued

Segment 46 data fields (cont'd)

Field	Description
JFTR CEILING AMOUNT	Ceiling amount in local currency.
JFTR CEILING CODE	Currency code pertaining to the ceiling amount.
JFTR CEILING EXCHANGE RATE	Rate used to convert JFTR ceiling amount to U.S. dollars.
JFTR UTILITY AMOUNT	Utility amount in local currency.
JFTR UTILITY CODE	Currency code pertaining to the utility amount
JFTR UTILITY EXCHANGE RATE	Rate used to convert JFTR utility amount to U.S. dollars

Segment 47 - Miscellaneous Credit Indefinite

Introduction   Segment 47 contains information on a Credit to a member's pay account, which will run for an indefinite period.

Example

```
SEG        HIST     COMPUTE      OBJECT      AMOUNT       TAX      SOURCE      FY-CHG
47         999999   3            12903       $93.64       0        34

```

Segment 47 data fields   This table describes fields unique to Segment 47. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	Object code from the transaction.
AMOUNT	Amount to be credited.
TAX	Tax Code. The taxability of this segment is based on the taxability of the entitlement identified by the source segment found in SOURCE, not on the value in the TAX field. Valid codes are: 0 Non-taxable. 1 Federal income tax withheld*. 2 FICA tax. 3 Federal income tax withheld + FICA tax*. 4 Current Lump Sum Federal income tax withheld*. 6 Current Lump Sum Federal income tax withheld + FICA tax*. *Includes state income tax withheld where applicable.
SOURCE	Source Segment Number. Indicates the segment, which is the source of this credit.
FY-CHG	Not used.
DAFIS ACCOUNTING STRING	This field contains the CG DAFIS accounting data required for reserve training.

Segment 48 - Miscellaneous Debit Indefinite

Introduction   Segment 48 contains information on a Debit from a member's pay account, which will run for an indefinite period.

Example

```
SEG     HIST    COMPUTE     OBJECT    AMOUNT     TAX SOURCE      FY-CHG
48      999999  3            12903    $502.20    0               17

STOP    99999999 9999   99999999  0
              DAFIS ACCOUNTING STRING
```

Segment 48 data fields   This table describes fields unique to Segment 48. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	Object code from the transaction.
AMOUNT	Amount to be debited.
TAX	Tax Code. The taxability of the amount in this segment is based on the codes below.

	Code	Description
	0	Nontaxable.
	1	Federal income tax withheld.
	2	FICA tax.
	3	Federal/State income tax withheld + FICA tax.
	4	28% Lump Sum Federal/State income tax withheld.
	5	28% Lump Sum Federal/State income tax withheld + FICA tax.

Field	Description
SOURCE	Source Segment Number. Indicates the segment, which is the source of this credit.
FY-CHG	Not used.
DAFIS ACCOUNTING STRING	This field contains the CG DAFIS accounting data required for reserve training.

Segment 49 - Flight Deck Hazardous Duty Pay/Visit, Board, Search & Seizure (FDHDIP/VBSS)

Introduction   Segment 49 contains information on a member's entitlement to Flight Deck
Hazardous Duty Pay or Visit, Board, Search & Seizure

Example:

```
SEG         HIST       COMPUTE     OBJECT               AMOUNT
 49         199906        4         1125H               $150.00

Segment 50 data fields   This table describes fields unique to Segment 50. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description	
OBJECT	Object code:	
	Code	**Description**
	D1502	Officer
	D1552	Enlisted
COURT TYPE	Code for type of court:	
	Code	**Description**
	A	General courts-martial.
	B	General courts-martial by military judge alone.
	C	Special courts-martial.
	D	Special courts-martial by military judge alone.
COLL	Collection type flag code:	
	Code	**Description**
	1	Member requests monthly installments.
	2	Member requests a one-time checkage.
FORF-SUSP	Not used.	
MO AMT	Monthly amount of fine.	
NBR MOS	Number of months of collection.	
TOT AMT	Total amount of fine.	
AMT PD TO DT	Total amount paid to date.	
REFUND DT	Not used.	

Segment 50 - Fines, Continued

Segment 50 data fields   This table describes fields unique to Segment 50. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
REM/SEP/ SUSPENSE DT	Not used.
PR1 COLL	Prior collection (month of last compute)
PR2 COLL	Prior collection (month of last compute less one month)
PR3 COLL	Prior collection (month of last compute less two months)
PR4 COLL	Prior collection (month of last compute less three months)

Segment 51 - Forfeitures

Introduction   Segment 51 contains information on Forfeitures from a member's pay
account.

Example:

```
SEG      HIST   COMPUTE      OBJECT        COURT-TYPE  COLL      FORF-SUSP
51       199304 4           D1551         F                     0
         EFFDTE    DTPROC   SLC    PAT     DTPREP      DIST   RU   FORM   ENT    ACTION

	B	General courts-martial by military judge alone.
	C	Special courts-martial.
	D	Special courts-martial by military judge alone.
	E	Summary courts-martial.
	F	Non-Judicial Punishment.
COLL	Collection type flag code:	
	Code	**Description**
	1	Member requests monthly installments
	2	Member requests a one-time checkage
FORF-SUSP	Forfeiture suspense flag code:	
	Code	**Description**
	0	Forfeiture not suspended.
	1	Forfeiture suspended by transaction.

Continued on next page

Segment 51 - Forfeitures, Continued

Segment 51 data fields (cont'd)

Field	Description
NBR MOS	Number of months of collection.
TOT AMT	Total amount of the forfeiture.
AMT PD TO DT	Total amount paid to date.
REFUND DT	Not used.
REM/SEP/ SUSPENSE DT	Not used.
PR1 COLL	Prior collection (month of last compute)
PR2 COLL	Prior collection (month of last compute less one month)
PR3 COLL	Prior collection (month of last compute less two months)
PR4 COLL	Prior collection (month of last compute less three months)

Segment 52 - Permanent Unit

Introduction Segment 52 contains information about a member's unit assignment.

Example:

```
SEG        HIST        COMPUTE       OBJECT      UNIT OPFAC  TYPE DUTY
 52       999999                                    53  47400      P
          EFFDTE  TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION
START 19990702 1900 19990706   0  199 19990702   53  02  68
STOP   99999999 9999 99999999   0
```

Segment 52 data fields This table describes fields unique to Segment 52. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
HIST	Set to 999999 by UPDATE when the segment is opened and set to current year and month (YYYYMM) by UPDATE when the segment is closed.
COMPUTE	Set to Blank by UPDATE when the segment is opened and set to 4 by UPDATE when it is closed.
OBJECT	Not used.
UNIT OPFAC	Member's permanent unit OPFAC from the reporting PCS endorsement (L68C). Will be blank if built by Commissioned Officer Initial Information Tape (L19A).
TYPE DUTY	Type of duty code:

Code	Description
P	Member is at unit for permanent duty.
T	Member is at unit for temporary duty (TEMDU).
Blank	If built by Commissioned Officer Initial Information Tape (L19A).

Segment 53 - HADA/HAOS

Introduction   Segment 53 contains information on a member's Home Awaiting Disciplinary Action or Home Awaiting Orders Status

Example:

```
SEG      HIST      COMPUTE      OBJECT      KILL DT      RE DTY TP
53       199106    4                        19900419     D

Segment 54 - VEAP Education Allotment, Continued

Segment 54 data fields (cont'd)

Field	Description
SPLIT IND	VEAP Allotment Segment Split Indicator Flag code:
	Code | **Description**
	1 | Active segment split.
	0 | No active segment split
HIST-IND	History Segment Split Indicator Flag code:
	Code | **Description**
	1 | Active segment split.
	0 | No active segment split
RETRO-IND	Retroactive Segment Split Indicator Flag code:
	Code | **Description**
	1 | Active retro split (lump sum payment on file)
	0 | No active retro split.
CRECTN-CD	Correction code:
	Code | **Description**
	05 | The month a correction processes.
	Blank | All other months.
CHG-IND	Change Indicator code:
	Code | **Description**
	C | A change has processed against this segment.
	Blank | No change has ever occurred to this segment.
ALLOT-NBR	Allotment Number, always 001.
RSN-TERM/ DT/CODE	VEAP Reason/Termination/Date codes:
	Code | **Description**
	RSN-TERM | Not used.
	DTVEAP | Termination Date, (YYYYMM)
	CODEVEAP | Termination Code set to 50 when a termination occurs.
CHANGE-DT	Change Date. Year and month a money change is effective.

Segment 54 - VEAP Education Allotment, Continued

Segment 54 data fields (cont'd)

Field	Description	
RECUR-CD	VEAP Allotment Recurring code:	
	Code	**Description**
	40	When actively reporting to the VA.
	Blank	The month of establishment or when this allotment is not active.
RECUR-BGN	Date the current allotment amount began. Year and month only.	
ALLOT-CURNT DT	Not used.	
ACT/INACT	Active/Inactive Segment Indicator code:	
	Code	**Description**
	A	Active segment.
	I	Inactive segment.
PURPOSE	Purpose Code, always "E".	
LUMP-SUM-AMT	Lump Sum Contribution Amount.	
SPLIT 1ST	First Segment Split. Following is information on the original allotment:	
BGN/END-DT	Original Segment Begin and End Date (YYYYMM). End date is the same as begin date.	
MTH-DED	Original Segment Monthly Deduction Amount.	
SPLIT 2ND	Second Segment Split, not used.	
BGN/END-DT	Second Segment Split Begin and End Date (YYYYMM) not used.	
MTH-DED	Second Segment Split Monthly Deduction Amount, not used.	
HIST 1ST	First History Segment Split, not used.	
BGN/END-DT	First History Segment Split Begin and End Date (YYYYMM) not used.	
AMOUNT	First History Segment Split Monthly Amount, not used.	
HIST 2ND	Second History Segment Split, not used.	
BGN/END-DT	Second History Segment Split Begin and End Date (YYYYMM) not used.	
AMOUNT	Second History Segment Split Monthly Amount, not used.	
RETRO 1ST	First Retroactive Segment Split, used for retroactive lump sum payments.	
BGN/END-DT	First Retroactive Segment Split Begin and End Date (YYYYMM).	
AMOUNT	First Retroactive Segment Split Monthly Amount.	

Segment 54 - VEAP Education Allotment, Continued

Segment 54 data fields (cont'd)

Field	Description
RETRO 2ND	Second Retroactive Segment Split, used for retroactive lump sum payments.
BGN/END-DT	Second Retroactive Segment Split Begin and End Date (YYYYMM).
AMOUNT	Second Retroactive Segment Split Monthly Amount.
PROCEEDS	Proceeds data is no longer required by the VA.
CODE	Not used.
RSN-TRM	Not used.
AMT-VA	Not used.
AMT-CG	Not used.
TYPE	Not used.
DATE	Not used.
MTH-DED	VEAP Current Monthly Deduction Amount. May be different than the original monthly deduction amount shown in Split 1.
CUM-MTH	Not used.
NET-CHG	Net Change Amount. Monetary difference between old and new allotment amounts.
RETRO	Retroactive transaction data.
CODE	VEAP Retro Code. Valid codes are: 35 Retro transaction. 12 Retro establishment transaction.
RSN-TRM	VEAP Retro Reason Term Code. The only valid code is "OT" (money changes only).
AMT-VA	Retroactive Amount due VA.
AMT-CG	Retroactive Amount due USCG.

Segment 55 - Cash Deposit

Introduction   Segment 55 contains information on Cash Deposits to a member's account.

Example:

```
SEG     HIST      COMPUTE    OBJECT         VOUCHER        AMOUNT
55      199102       4       01052          99999999       $413.05
        EFFDTE    TME   DTPROC    SLC   PAT   DTPREP    DIST   RU   FORM   ENT   ACTION

```

**Segment 56
data fields**

Segment 56 does not contain any unique data fields. Please see page 5-8 for descriptions of fields common to all segments.

Segment 57 - Pay Status

Introduction   The contents of segments 57 and 75 control whether a member is paid. Segment 57 will allow computation of a member's account for leave etc., but will not pay if a member is in a bad pay status.

Example:

```
SEG          HIST       COMPUTE      OBJECT
 57          999999        3
        EFFDTE  TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION
START 19791023 0000 19911220  0  SCP
STOP  99999999 9999 99999999  0
STATUS CODE      MEMBER TYPE      SERVICE BR      HIGH GRADE
    GD               AEZ              A
   RCAT             RCLAS          RTRPA/CAT
```

Segment 57   This table describes fields unique to Segment 57. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description		
OBJECT	Blank.		
STATUS CODE	Indicates the member's pay status, set by UPDATE based on type of transaction processed. Valid codes are:		
	Code	**Status**	**Entitled to pay?**
	CE	Civilian confinement excused	Yes
	CM	Military confinement (member entitled to pay and allowances)	Yes
	GC	Academy Cadets	Yes
	GD	Regular or reserve on active duty over 139 days (paid by JUMPS)	Yes
	G1	Regular or reserve on active duty less than 30 days (paid by JUMPS)	Yes
	ME	Military confinement for civilian authorities excused	Yes
	MI	Mentally incompetent	Yes
	RL	Select Reserve and Reserve Individual Ready on active duty greater than 30 days but less than 139 days - also entitled leave	Yes

Continued on next page

Segment 57 - Pay Status, Continued

Segment 57 data fields (cont'd)

Field	Description		
STATUS CODE (continued)	**Code**	**Status**	**Entitled to pay**
	R1	Select Reserve and Reserve Individual Ready on active duty less than 30 days or is a drilling reserve - not entitled leave	Yes
	CC	Civilian Confinement	No
	MS	Missing (regular and reserve paid by JUMPS)	No
	UE	Unauthorized absence excused. Civilian confinement	No
	CS	Military confinement (member not entitled to pay and allowances)	No
	CR	Military Confinement (reserve member not paid by JUMPS)	No
	DD	Death	No
	DS	Deserter	No
	EC	Enlistment canceled	No
	EX	Excess leave	No
	HD	Home awaiting disciplinary Description, leave has expired	No
	IL	Absence due to illness	No
	MC	Military confinement for civilian authorities	No
	MF	Military confinement for civilian authorities in a foreign country	No
	RI	Reserve Standby and Reserve Awaiting Age 60 Retirement (not paid by JUMPS)	No
	RS	Missing (reserve not paid by JUMPS)	No
	SP	Discharged/Retired from the regular component or Discharged/Age 60 Retirement from the reserve component	No
	UA	Unauthorized absence	No
MEMBER TYPE	Displays the three-character member type for the period of service covered by segment 57. Member's code doesn't change for duty types of Involuntary Active Duty, Title 10, Involuntary Active Duty, Title 14, and Active Duty for Health Care (ADHC). Refer to MB-TY of the Fixed Data fields for valid codes.		

Continued on next page

Segment 57 - Pay Status, Continued

Segment 57 data fields (cont'd)

Field	Description
SERVICE BR	Displays the branch of service for the period of service covered by segment 57. Valid codes are:
	<table><tr><td>**Code**</td><td>**Service branch**</td></tr><tr><td>A</td><td>Coast Guard</td></tr><tr><td>B</td><td>Coast Guard Reserve</td></tr><tr><td>C</td><td>Navy</td></tr><tr><td>D</td><td>Navy Reserve</td></tr><tr><td>E</td><td>Army</td></tr><tr><td>F</td><td>Army Reserve</td></tr><tr><td>G</td><td>Air Force</td></tr><tr><td>H</td><td>Air Force Reserve</td></tr><tr><td>I</td><td>Marine Corps</td></tr><tr><td>J</td><td>Marine Corps Reserve</td></tr><tr><td>K</td><td>Public Health Service</td></tr><tr><td>L</td><td>National Guard</td></tr><tr><td>M</td><td>National Oceanographic and Atmospheric Administration</td></tr><tr><td>N</td><td>Coast Guard Cadet</td></tr></table>
HIGH GRADE	Displays the highest grade attained by the member during the period of service covered by segment 57. This field will only be posted when reporting prior periods of service that are not already recorded in segments 57 and 58 of the JUMPS pay file.

Continued on next page

Segment 57 - Pay Status, Continued

Segment 57 data fields (cont'd)

Field	Description
RCAT	Identifies which reserve category a reserve member is assigned. Valid codes:
	<table><tr><td>**Code**</td><td>**Reserve category**</td></tr><tr><td>R</td><td>Ready Reserve</td></tr><tr><td>S</td><td>Standby Reserve (Active Status)</td></tr><tr><td>I</td><td>Standby Reserve (Inactive Status)</td></tr></table>
RCLAS	Denotes the classification of the reserve member. See COMDTINST M1001.28 (series) Reserve Policy Manual, Section 1-D-3.
RTRPA/CAT	Indicates the training ~~and~~ pay category to which the reserve member has been assigned. Member's code doesn't change for duty types of Involuntary Active Duty, Title 10, Involuntary Active Duty, Title 14, and Active Duty for Health Care (ADHC). Training pay category M (mobilized) is no longer. These members can be found using duty codes for Involuntary Active Duty. COMDTINST M1001.28 (series) Reserve Policy Manual, Section 1-D-5.

Segment 58 - Pay Grade

Introduction   Segment 58 contains the member's pay grade and years of service for pay purposes.

Example:

```
SEG          HIST       COMPUTE      OBJECT  GRADE  LONG YRS  ACTUAL YEARS
 58         999999         3                  E8      20        20
         EFFDTE   TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION
START  19991023 9999 19990920   1  AUP 19990920                   L
STOP   99999999 9999 99999999   0
```

Segment 58   This table describes fields unique to Segment 58. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description
OBJECT	Blank.
GRADE	Pay Grade, from an accessions or promotion/demotion transaction. Valid grades are: E1 through E10. W1 through W4. O1 through O10. O1E through O3E.
LONG YRS	Long Years. This is the lowest longevity category on the pay table, which reflects the member's current basic pay rate.
ACTUAL YEARS	Actual Years. This is the longevity category into which the member falls, from the following categories: 00 (i.e., less than 2), (greater than) 02, 03, 04, 06, 08, 10, 12, 14, 16, 18, 20, 22, 24, 26, 30. It is calculated by subtracting the PEBD from the start date and comparing the result against the categories above. This Field may be equal to or greater, but never less than, Years in Service.
ENT	First letter of the member's rate (e.g. Y= Yeoman).

Segment 59 – TAD (Obsolete effective 01 Aug 86)

Introduction   This Segment is not currently used.
Example:

```

Segment 61 – (Post Jan 2001) Reserve Deduction Segment,
Continued

Segment 61 data fields (cont'd)

Field	Description
AMOUNT	Monthly premium -- SELRES Only • Dental premium for SELRES is the same for all enrolled members and it changes yearly • Long Term Care premiums are provided by the contractor for each member and the amount will be different for each member.
PREMIUM CODE	Indicates the premium option for the member. | Code	Coverage
Blank	SELRES member	
PREMIUM START DATE	Not used for SELRES Dental and Long Term Care Insurance.
SERVICE BR	Service branch code: | Code	Branch of service
C	Coast Guard
O	NOAA	
STATUS	Status code: | Code	Status
A	Active duty
B	Active duty (recalled from retirement)
V	Reserve	
PLAN DATE	Not used for SELRES Dental and Long Term Care Insurance.
TERM CODE	Not used for SELRES Dental and Long Term Care Insurance.
LTC PAID CODE	Y = Paid and N = Not Paid
SEG TYPE CODE	1 = long Term Care and 0 = Dental

Segment 61 – (Pre Jan 2001)TRICARE Family Member Dental Insurance Program

Introduction   Segment 61 retained below originally was used for both SELRES and Active Duty TRICARE Dental Insurance program deductions. It was discontinued for Active Duty after end-month compute in December 2000. From that date until October 2002, it was used for SELRES Dental Insurance Program only. An (*) indicates Field(s) originally used for the Active Duty Dental which were not used for SELRES Dental. Segment 61 as shown below is for historical purposes only. Refer to the previous Segment 61 for current use.

Example:

```
SEG        HIST        COMPUTE       OBJECT       AMOUNT     PREMIUM CODE
 61        999999         3          D1652        $21.33          2

```

Segment 61 data fields   This table describes fields unique to Segment 61. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	Object code:
	<table><tr><td>**Code**</td><td>**Description**</td></tr><tr><td>D1601</td><td>Officer single deduction</td></tr><tr><td>D1651</td><td>Enlisted single deduction</td></tr><tr><td>D1604</td><td>SELRES Officer dental deduction</td></tr><tr><td>D1654</td><td>SELRES Enlisted dental deduction</td></tr><tr><td>D1602</td><td>Officer family deduction</td></tr><tr><td>D1652</td><td>Enlisted family deduction</td></tr><tr><td>D1603</td><td>Officer nonparticipating</td></tr><tr><td>D1653</td><td>Enlisted nonparticipating</td></tr></table>
AMOUNT	Monthly premium. Active Duty: • Single Premium - $7.88 • Family Premium - $19.70 Note: Premium amounts effective 01 July 2000 SELRES: • $4.36

Segment 61 – (Pre Jan 2001)TRICARE Family Member Dental Insurance Program, Continued

Segment 61 data fields (cont'd)

Field	Description
PREMIUM CODE	Indicates the premium option for the member.

Code	Coverage
0	Not enrolled, no DEERS eligible dependents
1	Single coverage, member has only 1 DEERS eligible dependent over 4 years of age. Dependents less than 4 years of age (if any) are not covered
2	Family Coverage, member has 2 or more eligible dependents over 4 years of age. All dependents regardless of age are covered
3	Single coverage, member has only 1 DEERS eligible dependent. Dependent is less than 4 years of age
4	Not used
5	Single coverage for one dependent remotely located from other dependents. (e.g., 1 child at college)
6	Family coverage for 2 or more dependents remotely located from other dependents. (e.g., 2 children at college)
7	Member has eligible dependents but has never enrolled in the plan
8	Ineligible because dependents are located OCONUS
9	Member has disenrolled
R	Single coverage, OUTCONUS returnee, member has one eligible family member (regardless of age)
S	Family coverage, OUTCONUS returnee, member has more than one eligible family member
T	Single coverage, OUTCONUS returnee, member has one family member remotely located from other family members
U	Family coverage, OUTCONUS returnee, member has 2 or more family members remotely located from other family members
Blank	SELRES member

Segment 61 – (Pre Jan 2001)TRICARE Family Member Dental Insurance Program, Continued

Segment 61 data fields (cont'd)

Field	Description
PREMIUM START DATE*	The date that the premium code was initiated. The date will be updated upon each change in premium code election.
SERVICE BR	Service branch code:

	Code	Branch of service
	C	Coast Guard
	O	NOAA

Field	Description
STATUS	Status code:

	Code	Status
	A	Active duty
	B	Active duty (recalled from retirement)
	V	Reserve

Field	Description
PLAN DATE*	Date that deductions are started or stopped. This date will change only when the member elects coverage or disenrolls.
TERM CODE*	Termination reason code:

	Code	Reason
	1	Member Separated/Retired
	A	Dissatisfied with the benefits package
	B	Dissatisfied with claims processing
	C	Dissatisfied with the quality of treatment received
	D	Dissatisfied with the premium amount
	E	Satisfied but disenrolling for personal reasons
	F	Change in Duty Station - OCONUS
	G	Change in Duty Station - CONUS
	I	Member died
	J	No eligible dependent(s)
	N	Member in bad pay status
	X	Other

Segment 62 - Leave Accrual

Introduction   Segment 62 contains information on a member's Leave Accrual.

Example:

```
SEG       HIST        COMPUTE    OBJECT     LV ADJ      BASE DT     SEP DT

  YEAR 1999   1.0
```

Segment 62   This table describes fields unique to Segment 62. Please see page for
data fields   descriptions of fields common to all segments.

Field	Description
HIST	If COMPUTE has processed a retro transaction that caused a recalculation of this month's leave, the history indicator will reflect the processing month of the recalculation.
COMPUTE	Compute flag will be "4" except for accessions not previously computed on, in which case it will be blank.
OBJECT	Blank.
LV ADJ	Leave Adjustment Date, set by UPDATE to the last day of the month if an H 414 Description amending the segment has processed. Otherwise, set to 99999999.
BASE DT	Date the member entered service, from the accessions transaction. This date will be shown as 99999999 for personnel who entered service prior to 800201.
SEP DT	For active duty members, this field represents the date of separation, from the separation transaction. Otherwise, set to 99999999. For reserve members, this field represents the date a break in reserve active duty has occurred. Otherwise, set to 99999999.

Continued on next page

Segment 62 - Leave Accrual, Continued

Segment 62 data fields (cont'd)

Field	Description
Description	This field will contain any unresolved COMPUTE errors (PSC use only).
BF FY	Closing leave balance posted for the member at the end of the prior fiscal year. Carried forward from prior year's September Segment 62.
LOST PRV FY	Number of days leave lost for the previous fiscal year. Calculated by COMPUTE at the end of the leave year (September 30). Not more than 60.0 days of leave may be carried over from one fiscal year to the next. For exceptions to the 60-day leave carryover, refer to Personnel Manual, COMDTINST M1000.6 (series), Article 7.A.15.
SAVED	Current Saved Leave Balance. In Leave COMPUTE, Saved Leave will be compared to Current Leave Balance to determine if Current Leave is less than Saved Leave Balance. If Current Leave is less than Saved Leave Balance, the Saved Leave Balance will be lowered to the same number of days.
SAVED SOLD	Total number of saved leave days sold in the member's career. Adjusted by COMPUTE when saved leave is sold in conjunction with reenlistment, extension or separation transaction.
SOLD CUMM	Cumulative number of Leave Days sold during the member's career. Adjusted by COMPUTE when any type leave is sold in conjunction with reenlistment, extension, separation or reserve LSL entitlement transaction.
NON-ACC CTD	Total leave days non-accrued career to date. Adjusted by COMPUTE when non-accrued leave is processed.
DEDUCT	Total number of days of Bad Time and Excess Leave, career to date. Adjusted by COMPUTE when deductible time is processed.
EARN	Leave days earned in the current period, from COMPUTE.
USED	Number of days leave used during the current period. This is the total of leave as reported in segment 74.
EXCESS	Number of days Excess Leave taken during the month. Adjusted by COMPUTE when excess leave is processed. Pay and allowances will be checked for excess leave. Pay Status segment will be built showing member is in a Bad Pay Status for Excess Leave. Non-accrual will be calculated for Excess Leave and Bad Time.

Continued on next page

Segment 62 - Leave Accrual, Continued

Segment 62 data fields (cont'd)

Field	Description
SOLD CP	Total of leave days sold during current period. Adjusted by COMPUTE when reenlistment/extension transaction is processed.
END-LV	For active duty members, this field represents the computed leave balance at separation, reenlistment, or first extension. It is determined by taking the prior months leave balance and adding any earned leave and subtracting any leave used or sold at the day of separation, reenlistment, or first extension. Otherwise, set to 0.0.
	For reserve members, field represents the leave balance accrued through the SEP DT. If the SEP DT is 99999999, field represents the leave balance accrued through the Segment 62 stop date. Otherwise, set to 0.0.
NON-ACC	Leave days non-accrued for Bad Time during the month. Adjusted by COMPUTE when non-accrued leave is processed. Excess leave will be checked and Pay Status segments will be built showing members in Bad Pay Status for Excess Leave. Non-accrued Leave will be calculated for Excess Leave and Bad Time.
BALANCE	Leave Balance at End-of-Month, calculated by COMPUTE.
EARN-CUM	Total leave days earned in the current leave year. Adjusted by COMPUTE each month for leave accrued.
USED-CUM	Total leave days taken in the current leave year. Adjusted by COMPUTE each month for leave taken and charged to the current leave year.
ADJUSTMENT START	The start period of adjustment from VDE 17 of the H414.
ADJUSTMENT STOP	The stop period of adjustment from VDE 18 of the H414
ACC LV GT 60 BWFD	Accrued leave greater than 60 days brought forward. Recorded from VDE 20 on the H414.
RSRV LV BAL	Leave earned by a Reserve member while serving on Active Duty in support of a contingency operation. This is earned leave not subject to the 60 limit imposed on Active duty. This field will be populated in MAS when the member changes status.
RSRV LV SOLD	This field will store leave sold under these conditions. It will be accumulated without adding to the 60 leave limit. The field will be populated by MAS when they review a reserve member who is selling leave. The clerk must determine if the leave sold is subject to the 60 limit. If not, the amount sold will be added to this field.

Segment 63 - Montgomery GI Bill

Introduction   Segment 63 contains information on a member's participation in the Montgomery GI Bill.

Example:

```
SEG       HIST       COMPUTE     OBJECT   A/I-IND  DEF-PER-IND   PURPOSE

CUM SEA   DUTY-ADJ    PRE-ADJ    POST ADJ    FROM OPFAC    TO OPFAC     FROM DT     TO DT
          000101      020217     020116                                99999999    99999999
```

Segment 69   This table describes fields unique to Segment 69. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description
OBJECT	Blank.
POST-ADJ	Cumulative sea duty after adjustment (YYYYMMDD).
Note:	The following fields record sea duty OPFACS. These fields will be completed to record: • Vessel OPFACS For Sea Duty Performed Prior To October 1989. The Segment 69 In This Case Will Correspond To (And Be An Addendum To) A Sea Duty Period Recorded In Segment 07. Segment 69s Of This Nature Were Built As Part Of The Creditable Service Project. They Provide Historical Sea Duty OPFAC Information, Since Segment 07 Did Not Contain An OPFAC field Prior To October 1989. • Corrections To Vessel OPFACS Recorded In Segment 07. Segment 69s Of This Nature Are For Sea Duty Periods Performed After October 1989 (When The Sea Duty OPFAC field In Segment 07 Was Activated). When The Below Four fields Are Completed, The First Twenty fields ("Seg" Thru "Post-Adj") Will Be Blank. Segment 69 In This Case Does Not Affect Pay.
FROM OPFAC	The district and the OPFAC of the unit from which sea duty is being deducted. When it is completed, TO OPFAC will be blank.
TO OPFAC	The district and the OPFAC of the unit to which sea duty is being credited. When it is completed, FROM OPFAC will be blank.
FROM DT	Start date of the sea duty.
TO DT	Stop date of the sea duty.

Segment 70 - Pay Status Adjustment

Introduction   Segment 70 contains information on adjustments to a member's pay status.

Example:

```

Segment 70   This table describes fields unique to Segment 70. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description
OBJECT	Blank.
FROM PAY STATUS	The pay status code that is being changed. Obtained from element code 01 on H 748. Refer to STATUS CODE field of segment 57 for valid codes.
TO PAY STATUS	The new correct pay status code for the period from the FROM DT to the TO DT inclusive.
FROM DT	First day of the pay status code change.
TO DT	Last day of the pay status code change.
NUMBER DAYS ADJ	The number of days adjusted by the pay status change.

Segment 71 - Payment Option Election

Introduction   Segment 71 contains information on a member's pay delivery method.

Segment 71 data fields   This table describes fields unique to Segment 71. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description
OBJECT	Blank.
OPT	Payment Option Election (POE) code:

Code	Payment option
1	Check to unit (**Removed as an option in PeopleSoft Release 1**)
2	Accrue pay at Pay Center (PSC)
3	Check to address. (**Removed as an option in PeopleSoft Release 1**)
4	Direct Deposit to financial institution
5	Cadet Pay Disbursed to Cadet Fund

Note: The segment will display differently depending on which POE code is in effect. Fields for each POE are described below.

OPTION 1, CHECK TO UNIT:

The segment 71 will display the message "CHECK TO UNIT" if payment option 1 has been selected. The payroll check was forwarded to the OPFAC RU on PMIS Page 1 at the time payroll is computed and processed.

```
SEG     HIST      COMPUTE      OBJECT     OPT
71      999999       3                     1
         EFFDTE    TIME    DTPROC    SLC    PAT    DTPREP     DIST    RU    FORM    ENT
         Description
START   19910501   9999   19910504    1     243   19910503    77    39     68
STOP    99999999   9999   99999999    0
CHECK TO UNIT
```

Segment 71 - Payment Option Election, Continued

OPTION 2, ACCRUE PAY AT THE PAY CENTER:

```
SEG    HIST     COMPUTE      OBJECT    OPT
71     999999      3                    2
         EFFDTE   TIME    DTPROC   SLC   PAT   DTPREP    DIST   RU   FORM    ENT
         Description
START  19910319  9999  19910328    0    199  19910325    77   39    61
STOP   99999999  9999  99999999    0
ACCRUE PAY AT PAY CENTER
```

The segment 71 will display the message "ACCRUE PAY AT PAY CENTER" if payment option 2 has been selected. Payments will continue to accrue and be reflected in the Brought Forward Field of the segment 72. All amounts held at PSC will be dispersed in the next scheduled payday after the payment option is changed.

OPTION 3, CHECK TO DESIGNATED ADDRESS:

```
SEG    HIST     COMPUTE      OBJECT    OPT
71     999999      3                    3

```

Field	Description
ACCOUNT NBR	Member's account number at the financial institution from the Payment Option Election (POE) transaction.
BANK ID	The financial institution's routing number from the POE transaction.
CK DGT	Check digit for routing number from the POE transaction.
SAV CD	Account type code from the POE transaction:

	Code	Type of account
	C	Checking
	S	Savings

Field	Description
PAYEE NAME	Member's name.

```

Segment 72   This table describes fields unique to Segment 72. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description
OBJECT	Blank.
NOTE: The following Fields will be zeroes if segment built by Accessions.	
Field	**Description**
SCHED-DT	Scheduled Pay Date (Mid-Month/End-Month).
PROJ-AMT	Projected Pay Amount (Mid-Month/End-Month). Calculated by end-month COMPUTE in prior month. May be adjusted by mid-month COMPUTE in the current month.
ACT-AMT	Actual Amount Paid (Mid-Month/End-Month).
CANC	Canceled Flag (Mid-Month/End-Month). Valid codes are:
	<table><tr><td>**Code**</td><td>**Flag**</td></tr><tr><td>**0**</td><td>Payment not canceled</td></tr><tr><td>**1**</td><td>Payment has been canceled</td></tr></table>
GROSS-ENT-AMT	Gross Entitlement Amount (Mid-Month/End-Month). Set by prior month COMPUTE when the segment is built, it is based on projections. It is updated by mid & end-month COMPUTE in current month to reflect actual gross entitlements for the month.

Continued on next page

SEGMENT 72 - PAYMENT, Continued

Segment 72 data fields (cont'd)

Field	Description
NON-TAX-DED	Non-tax Deductions (Mid-month/End-month). These are the projected deductions, other than taxes and allotments, to a member's pay.
STATUS	Members pay status at the time COMPUTE runs, taken from STATUS CODE Field of segment 57.
TOT-LIAB	Not used.
TOT-BAL	Undistributed net pay amount to be carried forward to next month, calculated by COMPUTE.
PREV-MTH-BAL	Undistributed net pay carried forward from last month.
PREV-MTH-PAY	End-month net pay actually paid to member in previous month. This is the end-month ACT-AMT Field from the previous month's segment 72. The following Fields are set when the segment is built by prior month COMPUTE, based on projected wages for the current month. They may be adjusted by the mid-month COMPUTE in the current month.
PROJ-FED- TAX-WAGES	Projected federal income tax wages.
PROJ-FED-TAX	Projected federal income tax withholding.
PROJ-NRALN-IN-WAGES	Projected Nonresident Alien stationed INCONUS Wages.
PROJ-EARN-INC-PAY	Projected advance Earned Income Credit Pay.
PROJ-FICA-WAGES	Projected FICA Wages.
PROJ-FICA- TAX	Projected FICA withholdings.
PROJ-NRALN-OUT-WAGES	Projected Nonresident Alien stationed OUTCONUS Wages.
PROJ-COMBAT-WAGES	Projected Combat Wages.
PROJ-STATE-WAGES	Projected state income taxable wages.
PROJ-STATE-TAX	Projected state income tax withheld.
PROJ-TSP-NON-DEF	Projected Thrift Savings Plan Non-Deferred contributions (Tax-exempt)
PROJ-TSP-DEF-AMT	Projected Thrift Savings Plan Deferred contributions (Tax-deferred)

Segment 73 - Vacant

Introduction   This segment is not presently used.

Segment 74 - Leave

Introduction   Segment 74 contains information on a member's leave usage.

Example:
```
SEG        HIST       COMPUTE      OBJECT
 74         200004        4
       EFFDTE  TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION

DAYS USED    TYPE LV   LV STATUS
   1.0         AI         D
```

Segment 74 data fields   This table describes fields unique to Segment 74. Please see page 5-8 for descriptions of fields common to all segments.

Field	Description	
DAYS USED	Number of days leave used.	
TYPE LV	Leave Type code:	
	Code	**Type of leave**
	AI	Regular leave INCONUS
	AO	Regular leave OUTCONUS
	SL	Sick leave
	EX	Excess leave
	BD	Bad time
LV STATUS	Leave Status code:	
	Code	**Leave status**
	D	Leave Balance debited
	Blank	No effect on Leave Balance

Segment 75 - SOI/Separation/Retention/Reserve LSL-Entitlement

Introduction   Segment 75 contains information from a member's Statement of Intent, Reenlistment Contract, extensions, retentions, separations, RELADs, retirements, or reserve lump sum leave entitlement.

Examples:

```

Segment 75 - SOI/Separation/Retention/Reserve LSL-Entitlement, Continued

Segment 75 data fields (cont'd)

Field	Description
TYPE-RET	Type Retention. Used in conjunction with TYPE-75. Valid codes are: A Extension of enlistment. B Reenlistment. C Involuntary retention beyond normal expiration of enlistment. D Extension of active duty period authorized (reserve members and recalled retirees). E Reserve, process Lump Sum Leave Entitlement (R 975). Q High Year Tenure (HYT)
TYPE-75	Segment Type Code. The assigned numeric code indicates segment type. Used in conjunction with Segment Title. Valid codes are: 0 SOI for Retention. 1 SOI for Separation. 2 Retention Transaction. 3 Separation Transaction. 4 Reserve, process Lump Sum Leave Entitlement (R 975). 5 SOI for Deactivation. 6 Deactivation Transaction
RET-DT	Retention Date. Day prior to effective date of retention.
SAVED-LV	Saved Leave. The number of days of saved leave member desires to sell at retention. This is set to 0.0 if member does not intend to sell saved leave.
REG-LV	Regular Leave. If TYPE-75 Field equals 0, 1, 2, or 3, this Field represents the number of days of regular leave member desires to sell at separation, reenlistment, or first extension from an SOI (L6FA), separation transaction (P 203, P 214, L68C), or retention transaction (P 193, P 198, L62C). If TYPE-75 Field equals 4, this Field represents the number of days of regular leave a reserve member desires to sell upon completion of an active duty period. Otherwise, set to 0.0.

Segment 75 - SOI/Separation/Retention/Reserve LSL-Entitlement, Continued

Segment 75 data fields (cont'd)

Field	Description
LV-FORWARD	Leave Forward. If TYPE-75 Field equals 0, 1, 2, or 3, this Field represents the number of days of Leave Carried Forward at extension/reenlistment from an SOI for retention (L6FA) or retention transaction (P 198, P 199, L62C). If TYPE-75 Field equals 4, this Field represents the number of days of Leave Carried Forward as of the SEP-DT.
SRB-DT	Selective Reenlistment Bonus Date. The date the member is entitled to an initial SRB payment.
INIT-INST AUTH	The number of Initial Selective Reenlistment Bonus Installments. The number of SRB installments authorized at extension or reenlistment.
LENGTH-RET	Length of Retention. The number of years and months of the retention.
1ST LEAVE	FROM: Start date of first period of leave projected to be taken. TO: Stop date of first period of leave projected to be taken. TYPE: Type leave of first period of leave projected to be taken.
2ND LEAVE	FROM: Start date of second period of leave projected to be taken. TO: Stop date of second period of leave projected to be taken. TYPE: Type leave of second period of leave projected to be taken.
DAFIS ACCOUNTING STRING	This Field contains the CG DAFIS accounting data required for reserve training. See Chapter 4, Section F, DAFIS Accounting String Layout.
TYPE-SEP	Type Separation. Used in conjunction with TYPE-75. Valid codes are: A Discharge. B Resignation. C Canceled Enlistment. D Release from Active Duty. E Retirement/Resumption of Retired Status. F Death. G Sworn in as a Cadet. H Fraudulent Enlistment. I Deactivation

Segment 81   This table describes fields unique to Segment 81. Please see page 5-8 for
data fields   descriptions of fields common to all segments.

Field	Description
OBJECT	Blank
REASON CODE	The reason the last Retirement Points Statement was issued for the period covered by Reserve Points Segment. Valid codes are: 1 Annual statement. 2 Separation. 3 Entered active duty. 4 Transfer to ISL or retired. 5 Corrected annual statement. 6 Corrected separation. 7 Corrected entered active duty. 8 Corrected transfer to ISL or retired. 9 Segment closed to future retirement points statement issues.

Segment 81 - Reserve Points, Continued

Segment 81 data fields (cont'd)

Field	Description
REASON CODE (cont'd)	For any points eligible reservist, the REASON CODE is normally changed from a "blank" to a "1" three months after the segment's STOP DATE. The compute flag remains a three until 12 months after the STOP DATE when the REASON CODE is changed from a "1" to a "9" which indicates the segment has been computed on for the final time. The exception is when a L67 with Action Code H 970 is submitted. For reservist entering Retired Awaiting Pay at 60 (RET-2) status, indicated by Member Type 3 Codes of LOK, LWK, and LEK, the REASON CODE will be set at "4" three months after the segment's STOP DATE. One year after the STOP DATE, the REASON CODE will be changed from a "4" to a "9" and the Compute Flag will be changed from a "3" to a "4".
STATEMENT ISSUED	The date a Retirement Points Statement was last issued to the member.
POINTS VERIFIED	A valid date indicates the points information within the Reserve Points Segment has been verified and the date of verification.
SERVICE CODE	Displays the branch of service for the period of service covered by the Reserve Points Segment. Valid codes are:

Code	Description
A	Coast Guard.
B	Coast Guard Reserve.
C	Navy.
D	Navy Reserve.
E	Army.
F	Army Reserve.
G	Air Force.
H	Air Force Reserve.
I	Marine Corps.
J	Marine Corps Reserve.
K	Public Health Service.
L	National Guard.
M	National Oceanographic and Atmospheric Administration.
Z	Other Active Component.

Segment 81 - Reserve Points, Continued

Segment 81 data fields (cont'd)

Field	Description
QUALIFYING SVC	Indicates the length of time creditable for retirement purposes.
REG ACTIVE DUTY	The number of regular active duty points earned while in an active duty status. The segment start/stops dates indicate the period when the active duty points were earned.
RES ACTIVE DUTY	The number of reserve active duty points earned for the anniversary year (period) indicated by the segment start/stop dates.
FUNERAL (FHS)	Indicates the total number of point granted for performing Funeral Duty
APP DUTY (RMP)	The number of appropriate duty points earned for the anniversary year (period) indicated by the segment start/stop dates.
IDT	The number of inactive duty points earned for the anniversary year (period) indicated by the segment start/stop dates.
RES (MBR)	The number of reserve participation points earned for the anniversary year (period) indicated by the segment start/stop dates.
CORR COURSE	The number of correspondence course points earned for the anniversary year (period) indicated by the segment start/stop dates.
IDT SUB TOTAL	Indicates the sum of appropriate duty, IDT, reserve participation points and correspondence course points earned for the anniversary year (period) indicated by the segment start/stop dates.
IDT ADJ TOTAL	Indicates the total number of IDT Sub Total points allowable for retirement purposes.
TOTAL POINTS	Indicates the sum of regular active duty, reserve active duty, Funeral Points, and IDT ADJ Total Points allowable for retirement purposes.
CORR COURSE SUMMARY:	
NUM	Indicates the correspondence course number within the summary section.
IDENTIFICATION COM DT POINTS	Identifies the individual correspondence course. The actual date the course was completed. The number of retirement points earned.

Segment 82 Anniversary Date

Introduction

Segment 82 sets the reserve anniversary date.

Example:

```
SEG        HIST        COMPUTE
 82        999999          3
      EFFDTE  TIME  DTPROC  SLC PAT  DTPREP  DIST RU FORM ENT ACTION

Chapter Overview

Introduction   This chapter provides detailed descriptions of the Recent Transaction File (RECENTS) and all PMIS/SOURCE transactions.

In this chapter

Section Overview

Introduction

This section provides descriptions of fields appearing in the Recent Transaction File (RECENTS)

In this section

Topic	See Page
Introduction to RECENTS	6-A-2
RECENTS Field Descriptions	6-A-3
Expanded RECENTS File Field Descriptions	6-A-6
PMIS/JUMPS Transactions and Form Identification	6-A-8

Introduction to RECENTS

Introduction   The purpose of this section is to provide definitions and examples to assist in using the Recent Transaction File (i.e., "RECENTS").

File Description   The Recent Transaction File contains a chronological listing of all transactions that have processed in PMIS/JUMPS since 1990.

RECENTS Definitions and Examples   The remainder of this section contains the definitions of items on the Recent-File, an example of a Recent-File, and an example of an Expanded Recent-File.

RECENTS Field Descriptions

Introduction   This table provides a description of each field appearing in the RECENTS file.

EXAMPLE: **RECENT-FILE**

```
                                RECENT - FILE INQUIRY                    PAGE 1

```

Field	Description
SSN:	Social security number.
DIST/OPFAC/RU:	The district, OPFAC, and reporting unit of the PERSRU submitting the transaction.
PAT:	The Personnel Actions Transmittal (PAT) number that the transaction was transmitted under.
PAT-DATE:	The date of the transmittal that was prepared.
FORM-ID:_	Type of form processed. See page 6-A-8 for a listing of PMIS/JUMPS transactions and form IDs.
EFF-DATE	The effective date of the transaction (date action is effective).
PROCESSING ERROR CODE: (single or dual letter column w/o heading)	Indicates a transaction has been processed to the Exception File (i.e. error within PMIS/JUMPS). This code appears to the left of the Processing Code (column within the Recent-File screen is unlabeled). <u>Release Codes are</u>: **D**: Duplicate transaction "Garbaged" by JUMPS. **R**: Indicates a transaction has been released for the exception file. **S**: Transaction has been released from the suspense file only. **T**: Transaction has been released from the exception and suspense file. **K** or W: Transaction was "killed" by an override code of "1". **H**: Transaction's effective date has been changed. Old effective date overlaid in the PAT-DATE file. (i.e., transaction was brought into range of compute cycle). **J**: Transaction was "Garbaged" at the request of the user or reviewing official. This code is usually used in response to a request to stop a transaction from processing once in has been input through Direct-Access.

Continued on next page

RECENTS Field Descriptions, Continued

Field	Description	
PROCESSING CODE: (single or dual letter column w/o heading)	Indicates how the transaction processed through PMIS/JUMPS. If a transaction processes on pay and personnel, it may have several line entries, each with a processing code. If a transaction is a pay only or personnel only transaction, it is possible that there could be only one line entry. The most common codes are:	
	B	Transaction's personnel split "R" has been by-passed due to a correction or deletion type transaction processing.
	F	Transaction was 8'd. Sent to Recents file without processing through pay and this was pay related transaction only.
	G	Transaction's pay split has been "Garbaged" by a correction or deletion type transaction processing or a transaction has been removed from the exception report. When used with release code "J", indicates transaction was manually stopped from processing at the request of the user or other reviewing official.
	H	Transaction has processed through PMIS edits and update program and failed to process completely through pay update, which resulted in a pay error on the exception report. The pay error has been removed from the exception report, to by-pass the pay side for that pay split, and appears on the Recent-File for history purposes only. May be accompanied by one or more previously processed pay splits. Additional action has been or is being taken to correct member's pay account. The personnel side remains updated by the transaction.
	P	Transaction has performed a pay split and if an "R" split appears for the same transaction, no other pay splits are unprocessed. If an "R" split does not appear, the transaction is on the exception report for a pay error.
	R	Transaction has processed through PMIS and if any pay splits exist, they have also processed and will be listed below the "R" split. Pay splits may not be created in certain circumstances, e.g.: ♦ transaction is a PMIS only transaction; or ♦ when an original transaction fails to process through PMIS update and a correction or deletion type transaction is submitted, "R" transactions may post without associated "P" splits.
	T	Used only with the Institute Tape (L42A).
	V	Separation transaction has processed through PMIS and will be accompanied by a pay split.

RECENTS Field Descriptions, Continued

Field	Description
VARIABLE INFORMATION:	Information to help identify the processed transaction. Examples of constant information listed for the most commonly used transactions include:

L61B	Number of years contracted.
L62B	Number of years contracted.
L65B	Number of years contracted.
L63B	Type of leave taken and number of days charged.
L67B	Effective time of transaction and action code (e.g., P 607, P625, H 604).
L68B	Effective time of transaction and endorsement type (departing or reporting).
L6FB	Type of action (extension, reenlistment, discharge, RELAD, or retirement), length of action (years and months), and effective date of action.

Field	Description
PG:	Page that the transaction split appears on the Expanded Recent-File.

Expanded RECENTS File Field Descriptions

Introduction   This table provides descriptions of fields appearing in the expanded RECENTS file.

Field descriptions   The Expanded Recent-File also includes abbreviated last name and information built by SDAII transactions, e.g., element codes used on a Personnel Action or an Endorsement on Orders. The element code information is found only with the "R", "V" or the first "H" processing code on the Recent-File.

Each form has a different layout on expanded recents. Most forms contain the following information (in various order) along with variable information. The variable information corresponds to the information entered in the SDA fields on the form. Detailed descriptions of each form are provided later in this chapter.

Expanded RECENTS File Field Descriptions, Continued

Field	Description
SSN	Social security number.
"below SSN":	The name of the form.
REC-ID:	HRSIC use only.
FRM-ID:	The type of transaction processed. See exhibit 1 for a listing of PMIS/JUMPS transactions and form IDs.
PAY-CAT:	HRSIC use only.
PROC-COD:	Refer to PROCESSING CODE under Recent-File.
EXC-REL-COD:	If the transaction processed correctly the first time, this column will be blank. If the transaction went to the exception file, this column will have an "R". "K" means the transaction was 'killed' by an override code of "I". Any other letter is for system use only.
PAT:	The Personnel Actions Transmittal (PAT) number that the transaction was processed under.
PAT-DT:	The date of the transmittal that was processed.
T'YP-ENTRY:	Type Entry. Valid codes are: **Blank** Original transaction. **C** Correction transaction. **D** Deletion transaction.
EFF-DT:	Effective date of the transaction.
EFF-TM:	Effective time of the transaction.
PREP-UNIT:	The district, OPFAC, and reporting unit of the PERSRU submitting the transaction.
"VARLABLE INFORMATION":	Corresponds to the information entered in the SDA fields on the form.

PMIS/JUMPS Transactions and Form Identification

Introduction   This table lists PMIS/JUMPS transactions by form ID and shows form numbers (if applicable) and title.

PMIS/JUMPS TRANSACTION AND FORM IDENTIFICATION		
FORM-ID	FORM NUMBER	FORM TITLE
L04		Unit Transfer
L19A		Commissioned Officer Initial Information Tape
L25A	CGHQ-4929	Officer Personnel Change Form
L-30A	CGHQ-4961	Rough Order Form
L42A		Institute Tape (loads pending advancement information)
L45A	CGHQ-4878	Advancement Authorization
L61A	CG-3301	Enlistment Contract
L62C	CG-3301C	Discharge and Reenlistment Contract
L63C	CG-2519	Leave Authorization
L64A	CG-4170	BAH/Dependency Information
L65A	CG-4916	Active Duty Initial Information Form
L66A	CG-5200	Officer Uniform Allowance Claim
L67A*		Personnel Action
L68C		Endorsement on Orders (PCS)
L6AA	CG-3304	Court Memorandum
L6BA	CG-5213	Statement to Substantiate Payment of FSA
L6DA	CG-4222	Allotment Authorization
L6EA	CG-5225	Tax Information Form
L6FA	CG-5229	Statement of Intent
L6GA	CG-5230	Payment Option Election
L6HA	CG-3079	Military Payroll Money List
L6JA	CG-5012	Basic Test Battery and Special Test Scores
L6KA	CG-5475	PMIS/JUMPS Clothing and Small Stores Checkage
L76A	CG-3698	Assignment Data
L77A	CG-3698	Assignment Data (Remarks)
***Note:**	The following action codes post to RECENTS with a different code due to changes in the processing sequence.	

Action Code	Recents
P 203	P 993
P 214	P 995
H 222	H 997

Section Overview

In this chapter   This chapter covers the following transactions:

Recents ID	Form ID	Title	See Page
L19C	L19B	Commissioned Officer Initial Information Data	6-B-2
L25B	L25A	Officer Personnel Change Form	6-B-7
L30B	L30A	Rough Order Form	6-B-12
L42B	L42A	Enlisted Eligibility Form	6-B-13
L45B	L45A	Advancement Authorization	6-B-14
L61B	L61A	Enlistment Contract	6-B-15
L62B	L62C	Discharge and Reenlistment Contract (CG-3301C)	6-B-21
L63B	L63C	Leave Authorization (CG-2519)	6-B-23
L64B	L64A	BAH/Dependency Information	6-B-24
L65B	L65A	Active Duty Initial Information Form	6-B-26
L66B	L66A	Officer Uniform Allowance Claim	6-B-29
L68B	L68C	Endorsement on Orders/PCS Departing/Reporting Transaction	6-B-30
L6AB	L6AA	Court Memorandum	6-B-43
L6BB	L6BA	Statement to Substantiate Payment of FSA	6-B-47
L6DB	L6DA	Allotment Authorization	6-B-48
L6EB	L6EA	Tax Information Form	6-B-61
L6FB	L6FA	Statement of Intent	6-B-67
L6GB	L6GA	Payment Option Election	6-B-71
L6HB	L6HA	Military Payroll Money List	6-B-72
L6JB	L6JA	Basic Test Battery and Special Test Scores	6-B-73
L6KB	L6KA	Clothing and Small Stores Checkage	6-B-74

L19C Commissioned Officer Initial Information Data

Purpose   The information from this transaction serves as supporting background on the officer.

Source   The L19C is input from the CG Academy only. The Academy transmits these transactions in a batch text file to HRSIC appointment to the Academy.

Expanded RECENTS Analysis   The following presents JUMPS information by the COBOL name, PMIS database field names, Query Screen Page Number if applicable, Segment Number if applicable, Long Title and definition.

Field	Description
ABBR-LSTNM	Abbreviation-Last Name. The first 5 digits of the last name is displayed.
ACT-DU-BASE *ACTIVE DUTY BASE DATE (00)* *AD-BASE-DT (05)*	Active Duty Base Date. The ADBD shows longevity for retirement purposes.
BRTH *BIRTH-CITY (01)* *BIRTH ST (01)* *BIRTH-DT (01) - also Page 3 of Fixed Data*	Date of Birth, Birth City, State. State and foreign country codes are listed in Enclosure (9) of the 3PM manual. When the state code = "OO" (letter O), the country will be indicated with the city.
DGR-INFO *ED-FLD-LVL (09)*	Education Information. The major fields for the degree awarded are listed. The major field codes are followed by the 2 digit year (e.g. 14B-98). Field and degree codes are listed in Chapter 2A of this manual.
Year *ED-YR (09)*	Year. The final two digits of DGR-INFO representing the year that the degree was attained.
EFF-DT *ORIG-CG-ENL-DT (05)* *CUR-ENL-DT (05)* *RES-ASSIGN-DT (12)* *RES-TRA/PAY-CAT-DT (12)* *RES-ANNIV-DT (12)*	Date of Enlistment. The date the member begins active or inactive duty as shown in block 5 of DD Form 4/1.
EFF-TM	Effective Time. Automatically set to 0000.

Expanded RECENTS Analysis (cont'd)

EXP-TRM *EXP-AD-TERM-DT (05)* *EXP-LOSS-DT (05)* *EXPECTED AD* *TERMINATION DATE* *(00)* *EXPECTED LOSS* *DATE (00)*	Expected Termination Date. A 7 digit alphanumeric field. See the PMIS Database Glossary, Chapter 3-B of this manual for more information.
FNM *FIRST-NAME (00)* *NM-FIRST (01)*	First Name. The officer's full first name.
FRN-LANG	The applicable language codes and groups. A maximum of two sets of codes may be recorded. Language codes can be found in Chapter 2-G of this manual.
HGT *HGT (02)*	Height. The member's height in full inches.
HI-GRD-COMP *ED-HIGH-GRADE (09)*	Degree. There are fourteen valid codes that depict the highest grade completed. Codes can be found in Chapter 2-A of this manual.
HOR *HM-REC-CITY (01)* *HM-REC-ST (01)* *HM-REC-ZIP (01)*	Home of Record. If a member's home of record is in a foreign country, two letter O's should be shown in the state field and five zeros in the zip code field.
LOR *LGL-RESID-CITY (01)* *LGL-RESID-ST (01)*	Home on W4 City, State. The member's city and state of legal residence.
LSTNM *LAST-NAME (00)*	Last Name. The officer's full last name.
MBR-TYP1 *MBR-TYPE-1 (00)*	Member Type 1. A one digit alpha code showing a officer's current status. There are 18 possible codes. Codes are listed in Chapter 2-F of this manual.
MI *MI (00)* *NM-MI (01)*	Middle Name. The initials of the officer's middle name is shown; however, the middle name should be spelled out in SDAII.
MI-2 *NM-MI2 (01)*	2ND Middle Initial. If no initials are shown, it will be presumed the officer does not have a second middle name.
MIL-OBL-INC *DT-MIL-OBL-INC (05)*	Date Military Obligation Incurred. The date the officer first incurred a military obligation.

L19C Commissioned Officer Initial Information Data, Continued

Expanded RECENTS Analysis (cont'd)

MN-GRP *MNRTY-DESIG (01)*	<u>Minority Designator</u>. The one digit code depicting the officer's ethnicity is listed in the table below. <table><tr><th>Code</th><th>Designation</th></tr><tr><td>1</td><td>African American</td></tr><tr><td>2</td><td>Hispanic Includes persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish origin or culture, regardless of race)</td></tr><tr><td>3</td><td>American Indian (including Alaskin Natives)</td></tr><tr><td>4</td><td>Asian (including Pacific Islanders)</td></tr><tr><td>5</td><td>All others (e.g. Caucasions)</td></tr></table>
NA-SUFF *NM-SUFF (01)*	<u>Suffix</u>. (Jr, III, etc.)
OFF-COMM *COMM-DT (01)*	<u>Officer Commission Date</u>. 7 Digits (i.e., 98SEP24)
OFFICER EXP-IND *EXP-IND (01)*	<u>Officer Experience Indicator.</u> There are 8 digits in the Officer Experience Indicator. Codes are listed in <u>Chapter 2-H</u> of this manual.
OFFICER SIG-NBR *SIG-NBR (01)*	<u>Officer Signal Number.</u> • Up to 4 alpha numeric digits. • The Officer Signal Number is defined in the Register of Officers, COMDTINST M1427.1 (series).
OFFICER STATUS *STAT-IND (01)*	<u>Officer Status Indicator</u>. • Composed of 6 numeric digits. • The Officer Status Indicator is outlined in <u>Chapter 2-H</u> of this manual.
OFFICER YG *YR-GRP (01)*	<u>Officer Year Group</u>. The last 2 digits of the promotion year. The Officer Year Group is defined in the Register of Officers, COMDTINST M1427.1 (series).
PAY BASE *PAY ENTRY BASE DATE (00)* *PAY-BASE-DT (05)*	<u>Pay Base Date</u>. The PBD is a constructed date that is used for pay increases for longevity. See the 3PM appendix (C) for computation of the Pay Base Date.

Expanded RECENTS Analysis (cont'd)

PMS-BR *Segment 57* *(SERVICE BR)*	Prior Military Service Branch.			
	Code	**Branch of Service**	**Code**	**Branch of Service**
	A	US Coast Guard	H	US Air Force Reserve
	B	US Coast Guard Reserve	I	US Marine Corps
	C	Navy (USN)	J	US marine Corps Reserve
	D	US Navy Reserve	K	US Public Health Service
	E	US Army	L	US National Guard
	F	US Army Reserve	M	NOAA
	G	US Air Force		

PMS-HPGH *Segment 57* *(HIGH GRADE)*	Prior Military Service Highest Pay Grade Held. • Up to 3 characters (e.g., E3, E4, E5, etc.)
PMS-MO-SERV	Prior Military Service Months in Service. • 3 Digits (e.g., 015 for 15 months)
PR-ACT-DU	Prior Active Duty Service. • Date in 6 digit format (e.g., 100503 equals 10 years, 5 months, and 3 days)
PRE-LS-LV-SLD *Segment 62* (SOLD CUMM)	Previous Lump Sum Leave Sold. • Up to 2 numerical digits (e.g., 1, 2, 60).
PRE-NET-SVC	Previous Net Service. • Date in 6 digit format (e.g., 100503 equals 10 years, 5 months, and 3 days)
RGR *PERM-PAYG-DT (01)*	Date of Promotion. 7 Digits (YYMMMDD).
RGRC *PAYGH-RANK-RATE* *(08)*	Numeric Grade Code. The 5 digit numeric grade code representing the officer's rank. Only the first 3 digits are displayed on PMIS Database Page 8. For a complete listing of Numeric Grade Codes, see Chapter 3-D of this manual.
RGRC-A *RANK (00)* *P-G (00)* *PAYGH-GRADE (08)*	Rank. The officer's rank.

Expanded RECENTS Analysis (cont'd)

Code	Element	Element Description
13	For Commissioned, e.g. 01, 05	Pending Promotion Grade Rate Code • Element Codes 13 and 14 must be submitted together, when used. • L25s containing element codes 13 and 14 must have an effective date prior to the effective date Prior to the effective date of the promotion L45, And must process in JUMPS at least one update prior to the promotion L45.
14	For Regular Members, e.g. 011, 009a For Reserve Member, e.g. 123R, 051S	Pending Promotion Rank Order Number
15	YYMMDD, e.g. 65FEB10	Date of Birth
17	O (Not Zero), e.g. O1E, O2, O3E	New Grade
18	A Six Digit Alphanumeric Code, e.g. 71284A	Officer Billet Code
19	A One Character Alpha Code	Member Type Code. Codes can be found in Chapter 2-F of this manual.
20	Date (YYMMDD)	Rotation Date
21	A One Digit Code Assigned by the Detatiler, e.g. A	Special Study Flag 1
22	A One Digit Code Assigned by the Detatiler, e.g. A	Special Study Flag 2
23	A One Digit Code Assigned by the Detatiler, e.g. A	Special Study Flag 3
24	A Ten Digit Number, e.g. 7853573689	Member's Work Phone Number Include Area Code

L25B Officer Personnel Change Form, Continued

Expanded RECENTS Analysis (cont'd)

Code	Element	Element Description
25	A Two Digit Code, e.g. 21	Assignment Officer • Item Meaning 20 Officer Assignment Branch 21 Surface Operations 22 Surface and Naval Operations 23 Aviation Assignments 24 Engineering, CWO Comms and R & D Assignments 25 Marine Safety and Environmental Protection 26 CWO (ELC, ENG, WPS, MAT, and ALL (CWO (MMS)) 27 Administrative Assignments 28 CWO (AVI, PERS, F&S, INF) Assignments 29 Medical Assignments
26	A Ten Digit Number, e.g. 7854527536	Member's Home Phone Number With Area Code
27	A Seven Character Alpha Numeric Number, e.g. 7100031	Billet Control Number
28	A Two Digit Alphanumeric, e.g. JP (Element Can be Used Up to Four Times)	Delete Qualification Code
29	A Seven Digit Alphanumeric Code and Date, e.g. HG99JUN	Add Qualification Code and Date

L30B Rough Order Form

Purpose	The Rough Order Form (CGHQ-4961) was used to issue, amend or cancel PCS orders. It was also used by Commandant to record approved retirement dates. Use of the Rough Order Form was discontinued in 1988.
Source	Input via the Personnel Decision System (PDS) from data entered by Assignment Officers.
Expanded RECENTS Analysis	The L30B is not displayed in RECENTS.

L42B Enlisted Eligibility Form

Purpose   The L42B records enlisted advancement eligibility information.

Source   Input by HRSIC (ADV) as part of the Advancement Eligibility List process.

Expanded   Fields and descriptions for the L42B as it appears in RECENTS are listed
RECENTS   below.
Analysis

Field	Description
PEND-PROMO	Member's position on eligibility list
GR-RT-COD	Grade/Rate to be changed, advanced, or promoted to
RGRC-A	Current Grade/Rate
RT-COD	
EX-RT-LAT	
ELIG-LST-DT	Date of advancement eligibility list
RGRC	Current Numeric Grade/Rate Code. Refer to Chapter 3-D of this manual for code listings.
OJB-COD-RNK	Numeric Grade Code to be changed, advanced or promoted to. Refer to Chapter 3-D of this manual for code listings.

L45B Advancement Authorization

Purpose	The L45B is used to effect enlisted advancements from eligibility lists, lateral changes in rate and to effect all promotions of officers.

Source	The L45B is input by Commander, Coast Guard Personnel Command.

Expanded RECENTS Analysis	Fields and descriptions for the L45B as it appears in RECENTS are listed below.

Field	Description
LSTNM	Last name
FNM	Initial of first name
MI	Middle initial
MI-2	Second middle initial
NA-Suff	Last name suffix
RATE DATE	Effective date of rank
PG-NBR	Three-digit number indicating which page of a set this is
TYP-ENTRY	Type Entry. Always blank in this transaction
PEND-PROMO	Three-digit number indicating position on advancement eligibility list.
GR-RT-COD	Grade/Rate to be changed, advanced, or promoted to
1ST-RON LST-RON	The first number to be advanced for the particular grade/rate The last number to be advanced for the particular grade/rate Example: If numbers 1 through 10 an enlisted advancement list were to be advanced the *1ST-RON* field would be *001* and the *LST-RON* field would be *010*.
OJB-COD-RNK	Numeric Grade Code to be changed, advanced or promoted to. Refer to Chapter 3-D of this manual for code listings.

L61B Enlistment Contract

Purpose   The Enlistment Contract contains information about the member needed to open an account in JUMPS. The account is not complete until the following transactions are processed:

- Enlistment Contract
- Active Duty Initial Information
- Endorsement on Orders
- Payment Option Election
- Tax Information Form
- BAH information if applicable

Source   The L61B should be prepared by the PERSRU at Training Center Cape May if the member is assigned temporary duty to Cape May for indoctrination, or by the PERSRU servicing the member's first duty station if the member is not sent to Cape May for indoctrination.

Expanded   The following presents JUMPS information by the COBOL name, PMIS
RECENTS   database field names, Query Screen Page Number if applicable, Segment
Analysis   Number if applicable, Long Title and definition.

Field	Description
LSTNM *LAST-NAME (00)*	<u>Last Name</u>. The member's full last name.
FNM *FIRST-NAME (00)* *NM-FIRST (01)*	<u>First Name.</u> The member's full first name.
MI *MI (00)* *NM-MI (01)*	<u>Middle Name</u>. The initial of the member's middle name is shown; however, the middle name should be spelled out in SDAII.
MI2 *NM-MI2 (01)*	2<u>ND Middle Initial</u>. If no initials are shown, it will be presumed the member does not have a second middle name.
NA-SUFF *NM-SUFF (01)*	<u>Suffix</u>. Jr., II, etc.
ABBR-LSTNM	<u>Abbreviated Last Name.</u> Up to the first five letters of the member's last name.

Expanded RECENTS Analysis (cont'd)

Field	Description
SEX *SEX (00)* *SEX (01)*	<u>Sex.</u> Member's gender (M=Male, F=Female).
CTZ *CTZN-CD (01)*	<u>Citizenship Code.</u> There are 3 citizenship codes.

	Code	Description
	1	A Citizen of the United States by birth. A child born outside of the U. S. , of parents who are U. S. Citizens, is a U. S. citizen and a notation similar to the following should be made on the back of the form: **PARENTS ARE U. S. CITIZENS TEMPORARILY RESIDING IN (country) AT TIME OF APPLICANT'S BIRTH.**
	2	Citizenship was obtained through naturalization. The location of the U. S. court, date citizenship was granted and Naturalization Number should be shown on the reverse of the form.
	3	The applicant is an alien. The member's Alien Registration Number should be shown on the reverse of the form.

Field	Description
HGT *HGT (02)*	<u>Height.</u> The member's height in full inches.
MRTL *MAR-STAT (04)*	<u>Marital Status.</u> The one letter code depicting the member's marital status is shown in the following table.

Code	Marital Status	Code	Marital Status
A	Annulled	M	Married
D	Divorced	S	Single
I	Interlocutory	W	Widowed
L	Legally Separated		

Field	Description
MN-GRP *MNRTY-DESIG (01)*	<u>Minority Designator.</u> The one digit code depicting the member's ethnicity is listed in the table below.

Code	Designation
1	Black
2	Hispanic Includes persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish origin or culture, regardless of race)
3	American Indian (including Alaskan Natives)
4	Asian (including Pacific Islanders)
5	All others (e.g. Caucasians)

Expanded RECENTS Analysis (cont'd)

Field	Description
BIRTH *BIRTH-CITY (01)* *BIRTH ST (01)* *BIRTH-DT (01) - also* *Page 3 of Fixed Data*	Date of Birth, Birth City, State. State and foreign country codes are listed in Enclosure (9) of the 3PM manual. When the state code = "OO" (letter O), the country will be indicated with the city.
HOR *HM-REC-CITY (01)* *HM-REC-ST (01)* *HM-REC-ZIP (01)*	Home of Record. If a member's home of record is in a foreign country, two letter O's should be shown in the state field and five zeros in the zip code field.
LR *LGL-RESID-CITY (01)* *LGL-RESID-ST (01)*	Home on W4 City, State. The member's city and state of legal residence.
ENLSTMNT *ENTRY-CITY (01)* *ENTRY-ST (01)*	Place of Enlistment City, State. The city and state abbreviation where the member accepted the oath of enlistment.
TRM *EXPECTED AD* *TERMINATION DATE* *(00)* *EXPECTED LOSS* *DATE (00)* *CUR-ENL-LEN (05)* *ORIG-ENL-EXP-DT* *(05)* *EXP-AD-TERM-DT* *(05)* *EXP-LOSS-DT (05)*	Termination Date.
TYP *MB-TYPE-01 (00)* *MB-TYPE-03 (00)*	Regular or Reserve? There are two valid codes.

Code	Type
1	Regular
2	Reserve

L61B Enlistment Contract, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
ACT-INACT-COD *MBR-TYPE-1 (00)* **MBR-TYPE-3 (00)**	Active/inactive duty code. There are two codes that indicate whether the member is on active or inactive duty (Reservists only).

Code	Description
1	Ordered to inactive duty immediately upon enlistment including those enlisting under the Delayed Entry Program (DEP). This must be used for members enlisting in the USCGR-OCS program and in the USCGR-RK program.
2	Ordered to initial active duty for training immediately upon enlistment (except RK program personnel).

Field	Description
DGR-INFO *ED-FLD-LVL (09)*	Education Information. The major fields for the degree awarded. Education codes can be found in Chapter 2-A of this manual
FRN-LNG	Foreign language code. A maximum of two sets of codes may be recorded. Language codes can be found in Chapter 2-G of this manual.
HI-GRD-COMP *ED-HIGH-GRADE (09)*	Degree. There are fourteen valid codes that depict the highest grade completed. Code can be found in Chapter 2-A of this manual.
TRA-CAT-PG	Training Category Pay Group. (Reserve only) Indicates the member's reserve training/pay category.

Code	Meaning
A	Includes most SELRES in a Pay Status.
B	IMA with Selective Service System (reimbursable).
C	Previously used for RKs in inter-phase. No longer in use.
D	Reserve Flag Officers.
E	Reservists with drill obligation without access to IDT unit.
F	RPs, RKs, and RLs on IADT.
G	Key Federal employees in the Standby Reserve (Active Status).
H	Members with no requirement to drill.
I	Standby Reserve (Inactive Status)
J	Reservists who have enlisted to attend OCS but have not reported.
M	Reservists currently mobilized, but expected to return to drilling status upon RELAD.
N	All others in the Standby Reserve (Active Status)
P	RPs, RKs, and RYs recruited but not yet reported to IADT.

L61B Enlistment Contract, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
PREP-UNIT	Unit Preparing This Transaction. DD-OPFAC-RU of the unit.
RECRT-INFO	Recruiter Information. Not used.
RGRC-A *RANK (00)* *P-G (00)* *PAYGH-GRADE (08)*	Rate. The member's rank, specialty, or rating is displayed.
RGRC *PAYGH-RANK-RATE (08)*	Numeric Grade Code. The 5-digit numeric grade code representing the member's rank, specialty, or rating is displayed. Only the first 3 digits are displayed on PMIS Database Page 8. For a complete listing of Numeric Grade Codes, see Chapter 3-B.
DT-MIL-OBL-INC *DT-MIL-OBL-INC (05)*	Date Military Obligation Incurred. The date the member first incurred a military obligation. This field must be completed even if the member's military obligation has expired.
RU-OPFAC *RES-OPFAC (12)*	Reserve OPFAC. The five digit OPFAC of the unit assigned at the time of enlistment (Reservists Only).
IQT-NA *AF-QUAL-TEST-NM (11)*	Enlistment Test. There are two valid codes.

Code	Test Type
AFQT	Enlistees qualifying with the ASVAB.
OAR	Members qualifying with the Officer Aptitude Rating test.

Field	Description
IQT-SCR *AF-QUAL-TEST-SCORE (11)*	Test Score.
DT-MIL-OBL-COMP *DT-COMP-MIL-OBL (05)*	Date Military Obligation Completed. The date the member's military obligation will be completed or was completed.
RUITOFF	Unit of Enlistment. Recruiting Office/Detachment Identification. Not used.

L61B Enlistment Contract, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
TRM-ACTV *EXPECTED AD TERMINATION DATE (00)* *RES-AD-LEN (05)*	<u>Reserve Term.</u> The two digit number of months the member will be on active duty. Fractions of a month are rounded up. For example, 30 weeks equals 08 (Reservists only).

ACT-INACT-COD *MBR-TYPE-1 (00)* **MBR-TYPE-3 (00)**	<u>Active/inactive duty code.</u> There are two codes that indicate whether the member is on active or inactive duty (Reservists only).	

	Code	**Description**
	1	Ordered to inactive duty immediately upon enlistment including those enlisting under the Delayed Entry Program (DEP). This must be used for members enlisting in the USCGR-OCS program and in the USCGR-RK program.
	2	Ordered to initial active duty for training immediately upon enlistment (except RK program personnel).

EFF-DT *ORIG-CG-ENL-DT (05) CUR-ENL-DT (05) RES-ASSIGN-DT (12) RES-TRA/PAY-CAT-DT (12) RES-ANNIV-DT (12)*	<u>Date of Enlistment.</u> The date the member begins active or inactive duty as shown in block 5 of DD Form 4/1.
EFF-TM	<u>Effective Time.</u> Automatically set to 0000.

PR-COD *PRI-ENL-CD (05)*	<u>Enlistment in USCG.</u> There are two codes that indicate whether this is the member's first enlistment or a reenlistment.	

	Code	**Type**
	1	First Enlistment
	2	Subsequent Enlistment

L62B Discharge and Reenlistment Contract (CG-3301C)

Purpose   The L62B is used to provide a single record of a member's discharge and reenlistment within 24 hours at the unit.

Source   A L62B is created in RECENTS when the "Discharge to Immediate Reenlistment" transaction process into JUMPS.

Note: JUMPS will not generate SRB payments until this transaction successfully processes.

Expanded RECENTS Analysis   The following presents JUMPS information by the COBOL name, PMIS database field names, Query Screen Page Number if applicable, Segment Number if applicable, Long Title and definition.

Field	Description
RSN-DSCH	Reason for Discharge: A one-digit code indicating the member's type of discharge. 1 (Expiration of enlistment) or 2 (Convenience of the gov't).
RENLST-CTY RENLIST-ST	Accepted for Reenlistment At : (City/State) Place of acceptance from original (consecutive) enlistment. Note: The place of acceptance is not changed by separation from the service unless there is at least a full 24-hour break in service.
RENLST-TRM	Term of Reenlistment: One digit for the number of years that the member reenlists.
RENLIST-TYP	Type of Reenlistment: A one-digit code indicating the member's type of enlistment. 1 (regular) or 2 (reserve).
HOR-CTY HOR-ST HOR-ZIP	Home of Record at Time of Reenlistment: The city, state abbreviation, ZIP code and county of the member's home of record.
TOT-LV	Leave Total: The total unused leave balance as of the date of discharge. 4-digits for whole days and half days, e. g. 0585 = 58.5 days of leave.

Continued on next page

L62B Discharge and Reenlistment Contract (CG-3301C),
Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
LV-CF-SAV	Saved Leave, Carried Forward: Number of days Saved Leave Balance (SLB) being carried forward to the new enlistment. 4-digits.
LV-CF-REG	Regular Leave, Carried Forward: Number of days NON-SLB leave being carried forward to the new enlistment. 4-digits
LV-LS-SAV	Saved Leave, Lump Sum: Number of days Saved Leave Balance (SLB) for which the member elects a lump sum payment. 4-digits.
LV-LS-REG	Regular Leave, Lump Sum: Number of days NON-SLB leave for which the member elects a lump sum payment. 4-digits.
PREP-UNIT	Unit preparing contract: DD/OPFAC/RU of PERSRU
RGRC	Rate Grade Rank Code: Numeric code indicating rate/rank at time of reenlistment. Codes can be found in Chapter 3-D of this manual.
RGRC-A	Rate Grade Rank Code Alpha. Member's Rate at time of reenlistment (e.g. YN1).
EFF-DT	Effective Date: Date of reenlistment.
EFF-TM	Effective Time: 0001
BASE-DT	Pay Base Date: Member's PBD.

L63B Leave Authorization

Purpose   The Leave accounting Transaction (L63C) is the JUMPS source document for charging leave taken by members. The (L63C) provides authorization for pay action by PSC.

Source   A L63B is created in RECENTS when a "Vacation Request" transaction processes into JUMPS from Direct-Access

Expanded RECENTS Analysis   The following presents JUMPS information by the COBOL name, database field names, Query Screen Page Number if applicable, Segment Number if applicable, Long Title and definition.

Field	Description
PREP-UNIT	<u>Unit Preparing This Transaction</u>. DD-OPFAC-RU of unit.
ST-LV *Segment 74* *(START EFFDTE)*	<u>First Day Charged as Absence.</u> The first inclusive date of leave is displayed.
END-LV *Segment 74* *(STOP EFFDTE)*	<u>Last Day Charged as Absence.</u> The last inclusive date of leave is displayed.
TOT-ABS-DYS *Segment 62* *(USED)*	<u>Total Absence.</u> • Up to 3 numeric digits may be displayed. • The total absence or portions thereof is charged as "USED" under Segment 62 if the letter "D" is shown in Segment 74 under LV STATUS. A segment 74 is generated for each "TYPE LV".

LEAVE PERIODS:	The type and number of days leave used.		
ENTRY, CODE, & DAYS *Segment 74* *(TYPE LV)* *(DAYS USED)*	**Code**	**Type**	
	AI	<u>Leave INCONUS</u>	
	AO	<u>Leave OUTCONUS</u>	
	SL	<u>Sick Leave</u>	
	CA	<u>Compensatory Absence</u>	
	NA	<u>Nonchargeable Absence</u>	
	DA	<u>Date-line Adjustment</u> • The number of days entered will always be 01. • One day is added when crossing west to east. • One day is subtracted if crossing east to west.	

L64B BAH/Dependency Transaction

Purpose   The BAH/Dependency transaction is used to record dependents as defined in the Coast Guard Pay Manual, COMDTINST M7220.29 (SERIES)

Source   The L64B is created in RECENTS when a "BAH/Dependency" transaction processes into JUMPS.

Expanded RECENTS Analysis   The following presents JUMPS information by the COBOL name, PMIS database field names, Query Screen Page Number if applicable, Segment Number if applicable, Long Title and definition.

Field	Description
SP-IN-SVC-SSN *SPOUSE-IN-SVC-SSN (04)*	<u>Unique ID</u>. The spouse's 9 digit SSN if in a branch of the service (active or reserves).
SP-IN-SVC-BR *SPOUSE-IN-SVC-BR (04)*	<u>Spouse SVC</u>. There are 13 service branch codes.

Code	Branch	Code	Branch
A	Coast Guard (USCG)	H	Air Force Reserve (USAFR)
B	Coast Guard Reserve (USCGR)	I	Marine Corps (USMC)
C	Navy (USN)	J	Marine Corps Reserves (USMCR)
D	Navy Reserve (USNR)	K	Public Health Service (USPHS)
E	Army (USA)	L	National Guard (NGUS)
F	Army Reserve (USAR)	M	National Oceanographic and Atmospheric Administration (NOAA)
G	Air Force (USAF)	█	█

Field	Description
DEP-LOC-CD *SPOUSE-AD-CD (04)*	<u>Relationship Code</u>. There are 11 relationship codes.

Code	Meaning
1	Married and spouse is not on active duty
2	Married and spouse is on active duty .
3	Marriage is in an interlocutory status. Spouse is not on active duty.
4	Marriage is in an interlocutory status. Spouse is on active duty.
5	Member is legally separated from spouse. Spouse is not on active duty.
6	Member is legally separated from spouse. Spouse is on active duty.
7	Married and spouse in a reserve component (SELRES and IRR)
A	Member's most recent marriage ended in annulment.
D	Member's most recent marriage ended in divorce.
S	Member has never been married.
W	Member's most recent marriage ended due to death of spouse.

L64B BAH/Dependency Transaction, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
NBR-DEP *TOT-NBR-DEP (04)* *BAQ DEPENDENT* *DATA (00)*	<u>BAH Dependents</u>. The total number of dependents for BAH purposes. Zeros (00) will be shown when the transaction is submitted for a divorce or for a spouse on active duty and no other dependents.
BRTH-DT *DEP-BIRTH-DT (04)*	<u>Birth Date</u>. Family member's date of birth.
DT-ELIG-BAQ *DEP-BAQ-DT (04)*	<u>Dependent Date</u>. The date the member began support of each dependent.
EFF-DT **CG4170-EFF-DT (04)**	<u>Effective BAH Date</u>. See the Change in Dependency Table on page 2-A-218 of the SDAII manual for rules concerning the effective date.
RELATIONSHIP	<u>Relation</u>. The relationship code is comprised of 2 letters as shown in the following tables:

FIRST LETTER *DEP-REL-CD (04)*

Code	Relationship	Code	Relationship
A	Adopted	L	Legitimate
D	Incapacitated	M	Mother
F	Father	S	Step
G	Legal Ward	W	Wife
H	Husband	X	In-Law
I	Illegitimate		

SECOND LETTER *DEP-SEX (04)*

Code	Relationship	Code	Relationship
D	Daughter	M	Mother
F	Father	S	Son
H	Husband	W	Wife

L65B Active Duty Initial Information

Purpose

The Active Duty Initial Information Form (CG-4916) is used to open a JUMPS account on :
- Initial entry into the Coast Guard as regular or reserve.
- Subsequent (re)enlistment after a break in service.
- Members who are direct commissioned as regular or reserve officers.
- Enlisted or officer members who are recalled from retirement to active duty after a break in service.

Source

The PERSRU for the member's first permanent duty station (or first temporary duty station if the member remains there more than two days) normally prepares the L65B.

Expanded RECENTS Analysis

The following presents JUMPS information by the COBOL name, PMIS database field names, Query Screen Page Number if applicable, Segment Number if applicable, Long Title and definition.

Field	Description			
Sex	The member's gender, i.e., "F" for Female or "M" for Male.			
Height (Inches).	The height of member in full inches, (e.g., 5 feet, 11 inches is 71).			
Minority Group Designation.	The one-digit code to indicate the member's race.			
	Code	**Designation**		
	1	Blank		
	2	Hispanic (includes persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish origin or culture, regardless of race.)		
	3	American Indian (including Alaskan Natives)		
	4	Asian (including Pacific Islanders)		
	5	All Others (e.g., Caucasian)		
Marital Status	The one-letter code which indicates the member's marital status:			
	Code	**Marital Status**	**Code**	**Marital Status**
	A	Annulled	M	Married
	D	Divorced	S	Single
	I	Interlocutory	W	Widowed
	L	Legally Separated		
Date of Birth	The member's birth date in YYMMMDD format, (e.g., 65N0V13).			

Continued on next page

L65B Active Duty Initial Information, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
Place of Birth	The city and state abbreviation of the member's birth. When using the State Code "00" indicate the country with the city.
Home of Record	The member's permanent home of record (city, state and county) as established by the member at time of entry to active duty.
Home Shown on W-4	The city and state abbreviation shown in the Employee's Withholding Allowance Certificate, Form W-4.
Date Military Obligation Incurred	The year, month and day the member first incurred a military obligation.
Member Type	The one-digit code which indicates the member's type of duty.

Code	Member Type
1	Regular
2	Reserve on extended active duty
6	Selected Reserve not on extended active duty
7	Individual Ready Reserve not on extended active duty
8	Recalled Retiree (Regular)
9	Recalled Retiree (Reserve)

Field	Description
Grade/Rate	The member's grade or rate.
Education Level Code	Highest level of education the member has completed. Codes can be found in Chapter 2-A of the manual.
Degree Information	Information about the member's college degree. Degree field codes can be found in Chapter 2-A of this manual.
Language Skills	The codes for the languages and the skill level the member is able to read or write from Chapter 2-G of this manual.
Date Entered Current ACDU	Date member entered current active duty period.
Expected Termination Date.	Enlisted -- The member's expected release date from active duty Officer -- The 30 year commission service date (including all commissioned time in an uniformed service) Reserve Officer -- The day before the officer's 60th birthday.
Place Entered Current ACDU	City and State where member entered active duty.

Continued on next page

L65B Active Duty Initial Information, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
Term of ACDU Authorized.	Number of months active duty authorized (Reserve only).
Prior Military Service	Yes or no entry. If yes, it is the most recent previous military service and under the "(214)" printed on the form, then the single letter code that corresponds from the table below. If no, dashes.

A	USCG	E	USA	H	USAFR	K	USPHS
B	USCGR	F	USAR	I	USMC	L	NGUS
C	USN	G	USAF	J	USMCR	M	NOAA
D	USNR						

Also the member's pay grade at separation, e.g., ES, W2, 03, 02E, etc.

L66B Officer Uniform Allowance Claim

Purpose   This transaction is used to pay regular or reserve officer's uniform allowance.

Source   The L66B is created in RECENTS when a "Officer Uniform Allowance" transaction processes into JUMPS.

Expanded RECENTS Analysis   The L66B in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this transaction.

Element	Description/SDA Field Name	
1 Alpha Character Code	Claim Code	
	Code	**Purpose**
	A	Initial uniform allowance for reservists only. Those officers commissioned upon completion of Aviation Officer Candidate School and those limited duty officer aviator candidates commissioned upon completion of all flight training.
	B	Initial uniform allowance for reservists only. The officer has not already received the initial uniform allowance and meets one of the following: • Has reported for AD (other than training) for a period in excess of 90 days including authorized travel time; or • Has completed not less than 14 days of AD or ADT; or • Has completed 14 periods, of not less than 2 hours duration each, of inactive duty training in Ready Reserve status.
	C	Initial uniform allowance for reservists only. The officer has transferred from another reserve component of the Armed Forces where a different uniform was required.
	D	Initial uniform allowance for all regular officers and for those reserve officers who have recently graduated from OCS and are currently on active duty for a period in excess of 139 days. An officer is entitled to an initial uniform allowance upon first appointment as an officer (temporary or regular) or as a permanent warrant officer.
	E	Additional active duty uniform allowance for reserves only. The reserve officer is entering on AD or ADT for more than 90 days or has been on continuous AD or ADT for more than 90 days and 2 years have elapsed since receipt of an initial reimbursement or allowance in excess of $200 or 2 years have passed since the last period of AD or ADT for more than 90 days.
	F	Uniform maintenance allowance for reserves only. This allowance was discontinued on 29 November 1990. Claims for this allowance must have an eligibility date that is prior to this date. This allowance was payable to a reserve officer each time the officer completed a 4 year period of satisfactory service. See paragraph 3-J-4 of the USCG Pay Manual to determine what constitutes satisfactory service.
Date (YYMMDD)	Eligibility Date	

L68B PCS Departing/Reporting Transaction

Purpose	The Endorsement on Orders is used during a permanent change station (PCS) to document a transfer from one duty station to the next, whether the new duty is at a permanent station (PERMDU) or at a temporary station (TEMDU). The Endorsement on Orders is also used for inter/intra district transfers of reserve members.
Source	The L68B is created in RECENTS when a member's orders are endorsed in Direct Access and process into JUMPS. Endorsements are completed when the SPO completes the Depart/Report Member tab on PCS orders or the Record Arrive/Depart Info. tab on Reserve Orders. The L68B is also created when an accession or RELAD or Retirement separation is completed Direct-Access.
Expanded RECENTS Analysis	The following presents JUMPS information by the COBOL name, PMIS database field names, Query Screen Page Number if applicable, Segment Number if applicable, Long Title and definition.

Field	Description
TONO	<u>Document ID</u>. The 2 digit program element and 3 digit document sequence number within the document ID is displayed. Information concerning Document IDs is located in the 3PM or FINCEN SOP.
BUD-COD *BUDGET-CD (06)*	There are 12 codes specifying the Budget Group Classification of the member's permanent duty station that are loaded automatically from the unit file to the transaction.

Code	Budget Group	Code	Budget Group
A	Cutter	G	Short Station or Aid
B	Patrol Craft	H	Repair or Supply Activity
C	Tug	I	Training or Recruiting Unit
D	Buoy Tender	J	General Administrative or Control
E	Miscellaneous Floating Unit	M	Not elsewhere Classified
F	Aviation Unit	S	Recruiting Station Enlisted RELAD Only

Field	Description
DEP-REP-COD	There are 2 codes indicating whether the member is departing or reporting.

CODE	MEANING	CODE	MEANING
1	Departing	2	Reporting

Expanded RECENTS Analysis (cont'd)

Field	Description
DU-COD *DUTY-STAT-CD (06)* *Segment 52*	<u>Duty Type Code</u>. There are 2 codes that indicate whether the member is assigned to permanent duty or to a temporary duty station

CODE	MEANING	CODE	MEANING
1	PERMDU	2	TEMDU

Field	Description
UNIT-ID *BUDGET-CD (06)* *PERMANENT UNIT (00)* *PERM-UNIT-DIST (06)* *PERM-UNIT-OPFAC (06)* *UNIT-TYPE-CD (06)* *Segment 52*	<u>Proceed & Report: DIST-OPFAC</u> or <u>Reporting to: DIST-OPFAC</u>. The 2 digit district number and 5 digit OPFAC is displayed. • The unit name can be queried through the Unit File Inquiry (L4) or found in the OPFAC Manual. • The following table lists General Unit IDs. They must not be used for transfers when the Nature of Duty is Duty (1)or Instruction (2). If this situation arises, contact HRSIC (mas) for the detached unit OPFAC.

DIST CODE	UNIT ID	PLACE
(_)	71231	Marine Corps Unit
(_)	71232	Army Unit
(_)	71233	Air Force Unit
(_)	71235	Public Health Service Unit
(_)	71236	Civilian Location
(_)	71237	Home In District (use with retirement or to RELAD a member who was recalled to active duty from retirement)
(_)	71238	Navy Unit
(15)	71239	Navy or other contracted vessel
(_)	87300	RELAD (SELRES after 31 May 1996) No longer used.
(_)	87400	RELAD (IRR Not drilling)
(_)	87600	Retired Reserve -- Awaiting Age 60 For Pay
(_)	87900	Retired Reserve -- Not Entitled to Retired Pay

Field	Description
COST-CTR *Cost-Center-CD (06)*	<u>Cost Center</u>. A five digit code indicating which cost center the member is assigned. It is used only on reporting endorsements, and at large headquarters and district units. Applicable codes can be found in Appendix E of the FINCEN SOP and in authorization messages for involuntarily mobilization.
NATURE-DU *DUTY-STAT-CD (06)*	<u>Nature of Duty</u>. There are 11 nature of duty codes that describe the status of the member at the new assignment. Definitions can be found in Chapter 3 of the SDAII manual.

CODE	MEANING	CODE	MEANING
1	Duty	B	Home Awaiting Orders Status (HAOS)
2	Instruction	C	Unauthorized Absence
3	Inpatient	D	Appellate Leave
4	Discipline/Confinement	I	Inactive/Retired Status
5	Further Assignment	R	Inactive to Active Status
6	Separation

Expanded RECENTS Analysis (cont'd)

Field	Description
DLY-COD	There are 2 codes indicating whether delay was authorized or taken. This will be blank if no delay was taken or if only necessary travel time was taken
	<table><tr><td>**CODE**</td><td>**MEANING**</td><td>**CODE**</td><td>**MEANING**</td></tr><tr><td>1</td><td>Is Authorized (Departing)</td><td>2</td><td>Was Taken (Reporting)</td></tr></table>
TOT-ABS-DYS	<u>Authorized Delay</u>. The total days enroute to the next duty station, as itemized under the **LEAVE CODE/DAYS** field, is displayed.
PERSRU-ID *REPORTING UNIT (00)* *RU-DIST (06)* *RU-OPFAC (06)* *RU (06)*	<u>Dist-OPFAC</u>. The District, OPFAC, and Reporting Unit ID of the PERSRU that input the transaction is displayed. The corresponding name of the unit can be queried through the Unit File Inquiry (L4) or found in the OPFAC Manual.
FROM-STAT	Not used.
CONUS-FLTG *IN/OUT CONUS INDICATOR (00) CONUS-FLTG-SHORE RES (06)*	There are 8 codes based on the Unit ID that indicate whether the member's permanent duty station is inside or outside the continental United States; restricted or non-restricted; ashore or afloat. These codes are loaded automatically from the unit file to the transaction.
-	<table><tr><td>**CODE**</td><td>**MEANING**</td><td>**CODE**</td><td>**MEANING**</td></tr><tr><td>1</td><td>INCONUS Afloat Nonrestricted</td><td>5</td><td>OUTCONUS Afloat Nonrestricted</td></tr><tr><td>2</td><td>INCONUS Afloat Restricted</td><td>6</td><td>OUTCONUS Afloat Restricted</td></tr><tr><td>3</td><td>INCONUS Ashore Nonrestricted</td><td>7</td><td>OUTCONUS Ashore Nonrestricted</td></tr><tr><td>4</td><td>INCONUS Ashore Restricted</td><td>8</td><td>OUTCONUS Ashore Restricted</td></tr></table>
SFDY	Not used.
UNIT-SB-COD *Segment 24 thru 27*	A one-character alpha code that is loaded automatically from the unit file to the transaction and used to identify a member's entitlement to subsistence.

Expanded RECENTS Analysis (cont'd)

Field	Description
EFF-DT *DATE REPORTED PERMANENT UNIT (00)* *DT-RPTD-PERM-UNIT (06)* *DT-RPTD-PERM-DIST (06)* *Segment 52*	Effective Departure Date or Effective Arrival Date. The Date Reported Permanent Unit will contain 000000 once the departing orders process. The date is set when the reporting L68B processes. For RELADS and retirements, the effective departure date will be the date of detachment from the unit. (separation, or terminal leave)
LEAVE CODE/DAYS *Segment 62, 74*	There are 7 possible SDAII fields that describe the member's status while enroute. The two-digit number of days is also shown next to the code if used. Date Line Adjustment (DA): When "DA" is used, one day will be shown if the member crossed the International Date Line. The United States is in the West. If crossing was West to East, the total of all entries should equal the **TOT-ABS-DYS** field. If crossing was East to West , "DA" is subtracted from the sum of the other delay entries.

CODE	STATUS	CODE	STATUS
TT	Travel Time	CA	Compensatory Absence
PT	Proceed Time	NA	Non-chargeable Absence
AI	Leave INCONUS	DA	Dateline Adjustment
AO	Leave OUTCONUS		

Variable Data Elements The following Variable Data Elements (VDE) will be displayed in Expanded RECENTS if used. After the last element, "99" is entered to indicate no more elements follow. The maximum number of VDEs is 10 including Element Code 99.

Code	Element	Description
08	4 Digits showing duration of Active Duty (0606=6 Yrs 6 Months)	Entitled to Full Separation Pay (Non-Disability) • Used in conjunction with Element Code 67, Performance Code 1.
09	4 Digits showing duration of Active Duty (0606=6 Yrs 6 Months)	Entitled to Half Separation Pay (Non-Disability) • Used in conjunction with Element Code 67, Performance Code 0.

L6AB Court Memorandum

Purpose   The Court Memorandum provides input to the service record of officer and enlisted personnel for all courts- martial resulting in a conviction or non-judicial punishment (NJP). A Court Memorandum is not submitted if the charges are dismissed or dismissed with a warning at a captain's mast. The Court Memorandum not only serves as an input to the member's service record, but also as authorization to adjust the member's pay account and/or rate if such punitive action results.

Source   The L6AB is created in RECENTS when an "NJP Results" or "Courts-Martial Results" transaction processes into JUMPS.

Expanded RECENTS Analysis   This table describes L6AB fields as they appear in RECENTS.

Field	Description
MN-GRP	<u>Minority Designator</u>. The one digit code depicting the member's ethnicity is listed in the table below.

	Code	Designation
	1	Black
	2	Hispanic Includes persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish origin or culture, regardless of race)
	3	American Indian (including Alaskan Natives)
	4	Asian (including Pacific Islanders)
	5	All others (e.g. Caucasians)

Field	Description
EFF-DT	<u>Effective Date</u>. The date NJP was held, date of vacation of suspension, date of action by Court's Martial convening authority or approving authority.
EFF-TM	<u>Effective Time</u>.

L6AB Court Memorandum, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
TYP-ENTRY	<u>Type Entry</u>. Field will be blank if this is an initial entry, other codes used are:

Code	Type Entry
M	Modify (includes Remission, Suspension, Mitigation, or Punishment Set Aside in Part).
A	Affirm. Used when the officer exercising general court-martial jurisdiction or an Article 69, UCMJ, examination approves the findings and sentence without modification and the U.S. Coast Guard Court of Military Review; the U.S. Court of Military Appeals; or the U.S. Supreme Court affirms the findings and sentence without modification, and the conviction becomes final and conclusive
C	Correct. Used when the Court Memorandum was submitted with erroneous data, or was incomplete.
D	Delete. Used when the wrong member's pay account was adjusted, when a commanding officer or the next superior authority sets aside the entire mast, or when a higher reviewing authority sets aside the entire conviction

Field	Description
CT-MAST-DT	<u>Date of Court or Mast</u>. Date the NJP was imposed, or date sentence was adjudged by the court-martial.
CODED OFF	<u>Coded Offense(s).</u> A five digit code for each of the three most serious offenses.
PR-EFF-DT	<u>Prior Effective Date</u>. Only used with "Modify" type transactions. Indicates the effective date of the initial type entry.
RT-FRM-TO	<u>Rate: From-To</u>: Indicates numeric grade codes for rate adjustments. Numeric grade codes can be found in <u>Chapter 3D</u> of this manual.
APPR-ORDE-EXC	<u>Approved and Ordered Executed</u>. An "X" in this field indicates an unsuspended punishment is imposed or a punishment was previously suspended, and the suspension is now being vacated.

L6AB Court Memorandum, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
APL-ACT	Apply Action as Indicated Below. Used with "Modify" type transactions only why actions have an impact on member's pay.
FL AMT-MO'S **FORF** **DET** **FINE**	Forfeiture, Detention, or Fine; Amount, Number of Months, and Total. Indicates the monthly amount, number of months, and total of any forfeitures or fines awarded.
CON-CK	Consent to Checkage. A "1" indicates the member elects to pay the fine via monthly installments. A "2" indicates payment via a onetime checkage for the total amount. Should the fine be too large to be deducted from the member's pay in a single pay period, the unpaid portion of the fine will be automatically carried forward to the next pay period.
N-CON-CK	Does Not Consent to Checakge. This field is not used.
RATE ADJUSTMENT	
FL **FRM-TO** **MOD**	Rate Adjustment, From-To. An "X" in the "FL" field is used to report an unsuspended reduction in rate, vacation of a previously suspended reduction in rate, or restoration of a member to his/her previous or lower rate after review by appellate authorities.
NJP ONLY	
PAY-GR-OFF- **CON-MAST**	Pay Grade of Officer Conducting Mast: Pay grade, e. g.06, 05, etc.
MAST-REP- **WVD**	Mast Representative Waived. An "X" indicates member waived the right to a mast representative.
COR-CUS	Correctional Custody. The number of days correctional custody awarded.
ARR-QTRS	Arrest in Quarters. The number of days arrest in quarters awarded.
NJP & COURT MARTIAL	
REST	Restriction. The number of days restriction awarded.
FOREF-AMT- **MO**	Forfeiture Amount and Number of Months. The amount of forfeiture (rounded down to the nearest whole dollar), e. g. $49.50 would be 049. The number of months, in two digits, the forfeiture is scheduled to run.
RED-PAY-GR	Reduction in Rate. The pay grade to which the member is reduced to
X-DU	Extra Duty. The number of days extra duty awarded.
REPRD-ADM	Reprimand/Admonition. An "X" in this field indicates member was awarded a letter of reprimand or admonition.

L6AB Court Memorandum, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
COURT MARTIAL ONLY	
DSCH	<u>Discharge</u>. An "X" in this field indicates member was awarded a punitive discharge.
HARD-LBR-W	<u>Hard Labor With Confinement</u>. Number of days awarded.
HRD-LBR-WO	<u>Hard Labor Without Confinement</u>. Number of days awarded.
FINE	<u>Fine</u>. Total amount in whole dollars of any fine adjudged.
DET-AMT-MO	<u>Detention of Pay</u>. This field is not used.
NO-PUN	<u>No Punishment.</u> An "X" in this field indicates no punishment was awarded.
DET-REF-DT	<u>Detention Refund Date</u>. This field is not used.
FORF-ALL	<u>Forfeit All Pay And Allowances</u>. An "X" in this field indicates a total forfeiture was awarded.
REV-DET	<u>Revoke Detention</u>. This field is not used.
FORM-MOD-DET	<u>Forfeiture Modified to Detention.</u> This field is not used.
RTN-UNEX-PRT	<u>Return Unexecuted Portion</u>. Used with a "Modify" type entry only. An "X" in this field indicates that the unexecuted portion of a fine or forfeiture is to be returned.
RTN-ALL	<u>Return All.</u> Used with a "Modify" type entry only. An "X" in this field indicates that all of a fine or forfeiture is to be returned.

L6BB Statement to Substantiate Payment of FSA (CG-5213)

Purpose The purpose of the Statement to Substantiate Payment of FSA is to provide documentation to start and stop payments of Family Separation Allowance (FSA).

Source The L6BB is created in RECENTS when a "Family Separation Housing/Family Separation Allowance" transaction process into JUMPS.

Expanded RECENTS analysis The following presents JUMPS information by the COBOL name, PMIS database field names, Query Screen Page Number if applicable, Segment Number if applicable, Long Title and definition.

Field	Description
Tour Election	<u>With Command-Sponsored Dependents</u>: Indicates the member's tour election is with command-sponsored dependents, otherwise it should be blank.
FSA TYPE I I	<u>Type I, FSA-I:</u> An "X" in this field is used to start a member's entitlement to FSA-I.
FSA TYPE II R T S	<u>Type II, FSA-R, FSA-T, FSA-S</u>: Used to indicate the type of FSA-II to which the member is entitled. An "X" will appear next to the type of FSA-II to be started.

L6DB Allotment Authorization

Purpose   The Allotment Authorization is used to start, stop, or change allotments..

Source   All PERSRUs can input the L6DB Allotment Authorization Transaction.

Expanded RECENTS Analysis   The following presents JUMPS information by the COBOL name, PMIS database field names, Query Screen Page Number if applicable, Segment Number if applicable, Long Title and definition.

Field	Description
1ST-DEDUCT *Segment 76, 77, or 78) (START EFFDTE)*	First Deduction Date
ACCT-NBR *Segment 76 or 77 (Policy Number)*	Account/Policy Number/Bank Account Number
ACT-CHAR	Action Character. Not Used.
ACT-NBR	Action Number. Not Used.
ADDRESS *Segment 76 (1ST LINE ADDR) (2ND LINE ADDR)*	Allotment Address. • A maximum of 35 alpha/numeric characters are permitted. • Entire street or PO Box is displayed.
ADDRESS1, ADDRESS2 *Segment 78 (1st LINE ADDR) (2nd LINE ADDR)*	Bond Owner's Address. • A maximum of 25 alpha/numeric characters are permitted in each address field. • Entire street or PO Box of owner is displayed.
BLNKT-COD *Segment 77 (PAYEE CODE)*	Blanket Code
CITY *Segment 76 or 78 (CITY)*	City
CO-OWNER *Segment 78 (CO-OWNER NAME)*	Co-Owner/Beneficiary

L6DB Allotment Authorization, Continued

L6EB Tax Information

Purpose   The L6EB establishes a member's federal and state tax status in JUMPS, and indicates a member's state of legal residence. The L6EB is also used to record the member's current mailing address, number of exemptions claimed, and to notify the appropriate state of any change in this information.

Source   The L6EB is created in RECENTS when a "Tax Mailing Information Address", "State Tax Information" or "Federal Tax Information" transaction processes into JUMPS

Expanded RECENTS analysis   The following presents JUMPS information by the COBOL name, PMIS database field names, Query Screen Page Number if applicable, Segment Number if applicable, Long Title and definition.

Field	Description
ACT-MRTL Segment 64 (NR MARTL STAT)	<u>Actual Marital Status</u>. • This field is for Nonresident aliens only. • There are two valid codes. | Code	Marital Status | |---|---| | S | Single | | M | Married |
ADD-WTHHLD (Federal) Segment 64 (ADD FED TAX)	<u>Additional Withholdings</u>. • 3 digits; e.g., 030 for $30. • Blank if not claiming additional federal withholding.
ADD-WTHHLD (State) Segment 66 (ADDL TAX)	<u>Additional Withholdings</u>. • 3 digits; e.g., 030 for $30.
ALLOW Segment 64 (ALLOW)	<u>Number of Allowances Claimed</u>. • Two Digits; e.g. 02 for two allowances.

L6EB Tax Information, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
AMT-EXMPT Segment 66 (AMT EXEM)	State Exemptions Claimed Amount. • Five Digits; e.g., 05000 for $5,000. • Blank if individual exemptions are claimed rather than a dollar amount (see NBR-EXMPT). • This item is not for additional state income tax withholdings and cannot be used for such.
CITY Segment 66 (MAIL CITY)	City. • This field is mandatory and is limited to 24 characters. • The city or town and country are displayed for foreign country addresses. • FPO or APO is displayed if applicable.
CTZ-STAT *(Not Recorded in PMIS)*	Citizenship Code. • This field is mandatory. • There are 3 valid codes that depict a member's citizenship status *Note: A resident alien is defined as a member who has applied for U.S. citizenship. A nonresident alien is a member who has not applied for U.S. citizenship.* <table><tr><th>Code</th><th>Citizenship Status</th></tr><tr><td>C</td><td>U.S. Citizen</td></tr><tr><td>R</td><td>Resident Alien</td></tr><tr><td>N</td><td>Nonresident Alien</td></tr></table>
EARN-INC Segment 64 (FR BEN/EIC/DITY CODE)	Earned Income Credit. • There are two valid codes. <table><tr><th>Code</th><th>Earned Income Eligibility</th></tr><tr><td>MO</td><td>Earned Income Credit Advance Payment - Not Married</td></tr><tr><td>MS</td><td>Earned Income Credit Advance Payment - Married</td></tr></table>
EFF-DT	Effective Date.
EXMPT-STAT (Federal) Segment 64 (YR TAX EXEM STATUS)	Tax Exempt Status. • The last two digits of the calendar year in which the member signed the IRS Form W-4.

L6EB Tax Information, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
EXMPT-STAT (State) *(Not recorded in JUMPS)*	Enter "E" if this is a taxing state that exempts members from paying state taxes when not residing in state. • See 3PM, chapter 8-B for applicable states. • If State Exempt Status is completed, City or Town of Legal Residence (LR-CITY) and State of Legal Residence (LR-STATE) are required. • State Marital Status, State Exemptions Claimed (number) and State Exemptions Claimed (dollar amount) are blank if State Exempt Status is completed. • Used when a members state of legal residence is a taxing state, and has an agreement with the Coast Guard to withhold state income taxes, but exempts the member. Some states exempt a member from paying state taxes for reasons other than combat exclusion e.g. if the member is a legal resident of a state, but does not reside in that state, the member may be exempt from paying taxes
FED-MRTL Segment 64 (TAX PLN)	Marital Status. • There are 3 valid codes depicting a member's marital status. <table><tr><th>Code</th><th>Marital Status</th></tr><tr><td>S</td><td>Single</td></tr><tr><td>M</td><td>Married</td></tr><tr><td>U</td><td>Married but wishes to be withheld at the higher single rate.</td></tr></table>
FRGN-CO Segment 64 (FOR CTY)	Foreign Country of Legal Residence. • This field is for nonresident aliens only. • See the 3PM, Enclosure (9) for valid codes. • If the LR-CITY code is "OO" then the country of legal residence will be displayed.

Continued on next page

L6EB Tax Information, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
LR-CITY Segment 66 (LR CITY)	City or Town of Legal Residence. • Used if the member is a U.S. Citizen or a resident alien, and is either submitting his/her first Tax Information to JUMPS, or changing legal residence or state income tax withholding information. • This should be blank for nonresident aliens, except where the member is terminating nonresident alien status on this form. If the member is a residents of Guam or American Samoa and does not have a city of legal residence, enter "NA" in this item. • This item is limited to 24 characters.
LR-STATE Segment 66 (ST CD, LR STATE)	State of Legal Residence. • See the 3PM, Enclosure (9) for valid codes. • This will be blank for nonresident aliens unless terminating nonresident alien status. • If City or Town of Legal Residence is completed, also complete this item. If Code "00" is used, enter the country of legal residence in City or Town of Legal Residence
NBR-EXMPT Segment 66 (NBR EXM)	No. State Exemptions Claimed. • Two digits for the number of state exemptions claimed. • "00" is entered if the state form does not request the number of exemptions. • Blank if the state form uses a dollar amount rather than number of exemptions (See AMT-EXMPT).
STATE Segment 66 (MAIL STATE)	St. • This field is mandatory and is limited to 2 digits • Letters "OO" are displayed for foreign country addresses. • For FPO and APO addresses, "AE", "AA", or "AP" is displayed. • See 3PM, enclosure (9) for valid state and U.S. possession codes.

L6EB Tax Information, Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
STATE-MRTL Segment 66 (TAX PLN)	Marital Status. • This field will be blank if the member has claimed State Exempt Status. • When State Marital Status is completed, either Exemptions Claimed (number) or Exemptions Claimed (dollar amount), as appropriate, must also me completed. • There are five valid codes. <table><tr><th>Code</th><th>State Marital Status</th></tr><tr><td>1</td><td>Member is single or married and elects to claim the "Single" rate on the state Tax form, or the state form does not request marital status and the member is single.</td></tr><tr><td>2</td><td>Member has indicated "Single, Head of Household" on the state tax form.</td></tr><tr><td>3</td><td>Member has indicated "Married and not claiming exemption for spouse" on the state tax form.</td></tr><tr><td>4</td><td>Member has indicated "Married" or "Married and claiming exemption for spouse and self" on the state tax form, or the state form does not request marital status and the member is married.</td></tr><tr><td>5</td><td>Member has indicated "Married and filing joint return" on the state tax form.</td></tr></table>
STREET ADDRESS Segment 66 (MAIL STREET)	Street.
TERMINATE *(Not Recorded in JUMPS)*	Terminate Status. • A "X" is entered in SDAII if terminating a nonresident alien status.
TX-TYP *(Not Recorded in JUMPS)*	This field is used for edits within JUMPS.
TYP-ENTRY	Type. The letters "EC" will be displayed if the transaction is being submitted along with an accession document.
ZIP Segment 66 (MAIL ZIP CD)	Zip/Postal. • Five or nine digits. • All zeroes will be displayed for foreign country addresses.

L6FB Statement of Intent (CG-5229)

Purpose   The Statement of Intent (SOI) enables a member to declare intentions to RELAD, retire, completely separate from the service, reenlist, extend/reextend enlistment, or extend active duty period authorized (if a reserve member or recalled retiree on active duty). The member is not required to sign the SOI.

Source   The L6FB is created in RECENTS when a "Statement of Intent For Discharge, RELAD, Retirement or Statement of Intent For Extension, Re-extension, Reenlistment, Retention, Recall" transaction processes into JUMPS.

Expanded RECENTS analysis   The following presents JUMPS information by the COBOL name, PMIS database field names, Query Screen Page Number if applicable, Segment Number if applicable, Long Title and definition.

Field	Description
Disposition of Leave.	• The number of days of saved leave that the member wishes to sell in connection with an extension, reenlistment or separation. • The numbers of days of regular (non-saved) leave that the member wishes to sell. • The total number of days of annual leave that the member will be taking prior to the extension, reenlistment or separation date. • The total number of days of leave the member is disposing of by either taking or selling. • The total number of days of saved leave that the member wishes to carry forward upon reenlistment/extension. • The total numbers of days of regular (non-saved) leave that the member wishes to carry forward upon reenlistment/extension. • The total number of days of leave the member is carrying forward upon reenlistment/extension.
Annual Leave	The type and inclusive dates of leave to be taken after the effective date of the transaction.

Continued on next page

L6FB Statement of Intent (CG-5229), Continued

Expanded RECENTS Analysis (cont'd)

Field	Description		
Extension/Reenlistment	The appropriate code as listed below:		
	Code	**Meaning**	
	A	Regular enlisted member intends to extend/reextend enlistment	
	B	Regular enlisted member intends to reenlist	
	C	Regular enlisted member expects to be involuntarily retained beyond normal expiration of enlistment(e.g., HAOS)	
	D	Regular officer or enlisted member expects to be recalled to active duty immediately upon retirement or Reserve officer or enlisted member, or recalled retiree, expects to be retained on active duty (no break).	
First Extension to Current Enlistment	Y/N		
Has Member Enacted Prior Extension Agreement	Y/N		
Expected Termination Date Based on Prior Extension Agreement	The date when the current enlistment as extended will expire.		
Effective Date of Separation	The date of expiration of the member's current active duty period (e.g., day prior to date reenlistment, extension/ re-extension, or retention takes effect).		
Effective Date of Extension/Reenlistment/Retention	The date the member begins the next period of active service under a reenlistment, extension/re-extension, retention, or extension of reserve obligated service.		
Period of Extension/Reenlistment/Retention	Number of years and months the member is being extended, re-extended, re-enlisted or retained. (Example: 06 years, 00 months, etc.)		
Multiple Assigned Military Specialty	Blank.		
Number of Installments Authorized for Initial Payment	If the member is not entitled to a SRB, shows "0". If the member is entitled to a SRB, shows "1".		

Continued on next page

L6FB Statement of Intent (CG-5229), Continued

Termination Type	The appropriate code as listed below:	
	Code	**Meaning**
	A	Officer or enlisted discharge
	B	Officer resignation
	C	Enlisted fraudulent enlistment
	D	Officer or enlisted RELAD
	E	Officer or enlisted retirement, or resumption of retired status after being recalled to active duty
Separation Under Honorable Conditions	"A" if Yes, and "B" if No.	
Disability Severance Pay Grade/Rate Code	Pay Grade (E6, W3, O2E, O5, etc.") for which disability severance pay is to be computed.	
Officer Severance Pay Longevity	Although this item indicates "Officer", it is used for both officer and enlisted members being separated with severance or separation pay. Shows the years and months of applicable service from which severance or separation pay is to be computed.	
Officer Severance Pay Object Code	"6" for officers being separated due to failure of promotion. "7" for officers being separated due to unfitness.	
Effective Date of Separation	The date of the member's last active duty day.	
Lump Sum Readjustment Standard of Performance	"0" if the member's performance of duty has been substandard. "1" if the member's performance of duty has not been substandard.	
Reserve Separation Pay	Shows "0" if the reserve member's performance of duty has been substandard. "1" if the member's performance of duty is above standard.	
Mileage Allowance	An "X" in box describes where the member is electing mileage. Shows locations between which mileage will be computed. If member is being retired, this item should be blank.

L6FB Statement of Intent (CG-5229), Continued

Expanded RECENTS Analysis (cont'd)

Field	Description
Member Elects Payroll Withholding of Premium for Uniformed Services Voluntary Insurance Program.	Uses "B" to select "No". The current health care insurance coverage does not facilitate premium payment via payroll withholding.
Final Mailing Address.	Blank.

L6GB Payment Option Election

Purpose	The Payment Option Election (POE) is used to record in JUMPS the pay delivery method elected by the member.
Source	The L6GB is created in RECENTS when a "Payment Option Election" transaction process into JUMPS.
Expanded RECENTS Analysis	The following identify the different methods of payment delivery.

Field	Description
Option 1	Mail Check to Unit/Delivery Address.
Option 2	Accrue Net Pay at HRSIC
Option 3	Mail Check to Non-Work Address. Mailing Address will be displayed.
Option 4	Direct Deposit. Account and Routing Transit Number will be displayed.

L6HB Military Payroll Money List

Purpose	The Military Payroll Money List (CG-3079) is used to certify off-line payments to active duty members and as a transaction to JUMPS.

Source	This transaction is submitted via PERSRUs to HRSIC.

Expanded RECENTS Analysis	The following identify the basic items of the Military Payroll Money List as they appear on the form.

Field	Description
OPFAC	OPFAC..The seven-digit OPFAC number of the unit at which this form is prepared.
DT-PAID	Date Paid. The date paid is the date of obligation against the Coast Guard.
PAYROLL	Payroll. The offline payment control number assigned by HRSIC.
VOUCHER	Voucher. The voucher number assigned by the PAO. The voucher number is either a seven or eight digit number consisting of three components.
AMT-PAID	Amount-Paid..The dollar amount that was paid in 7 digits.
DT-LIQUID	Date Liquid..The actual date for the liquidation of the payment made.

L6JB Basic Test Battery and Special Test Scores

Purpose   This transaction is responsible for the transmission of test scores related to a member's aptitude and eligibility for Class A schools and advancement.

Source   The L6JB is input by TRACEN Cape May only.

Expanded RECENTS Analysis   The following presents JUMPS information by the COBOL name, PMIS database field names, Query Screen Page Number if applicable, Segment Number if applicable, Long Title and definition.

Field	Description
TEST VERSION *BATT-TEST1-VER (11)* *BATT-TEST2-VER (11)* *BATT-TEST3-VER (11)*	<u>Version.</u> • There are 3 fields to record separate test versions. Subsequent retests will overwrite the "BATT-TEST-VER" field. • The version consists of 3 alpha/numeric characters. The third character must be an alpha character.
TEST-DT *BATT-TEST1-DT (11)* *BATT-TEST2-DT (11)* *BATT-TEST3-DT (11)*	<u>Test Date.</u> • The test date in YYMMDD. Format is displayed.
UNIT-INFO	Unit Information. The member's 7 digit OPFAC and reporting unit is displayed.
SCORES *TEST-XX-SCORE (11)* *Note: Replace XX with test portion names.* *ATMPT (11)*	<u>GS, AR, WK, PC, NO, CS, AS, MK, MC, EI, VE.</u> • Retests will increase the counter under the ATMPT (Page 11) Field for applicable portions of the test battery .

L6KB Clothing and Small Stores Checkage

Purpose	The JUMPS Clothing and Small Stores Checkage is used by TRACEN Cape May to deduct clothing and small stores purchases from a member's pay account. Checkages will be processed as a lump sum pay deduction.

Source	This transaction is submitted via PERSRUs to HRSIC.

Expanded RECENTS Analysis	The following identify the basic items of the L6KB as they appear in RECENTS.

Field	Description
AMT-PUR	<u>Purchase Amount</u>. 6 digits for the amount of the pay package; e.g., $40.00 would be 004000.
GRND-TOT	<u>Grand Total</u>. 8 digits for the sum of all pages; e.g., $300.00 would be 00030000.

Section Overview

Introduction   This section lists the purpose and the variable data elements for numbered transactions as they appear in the Recent Transaction File (RECENTS).

In this section

Action Code	Purpose	See Page
304	Add or Delete Enlisted Qualification Code (Obsolete) See: Direct Access Develop Workforce > Manage Competencies (GBL) > Use > Competencies	6-C-2
305	Add or Delete Award Code (Obsolete) See: Direct Access Develop Workforce > Manage Competencies (GBL) > Use > Honors and Awards	6-C-4
320	Record Retest of ASVAB Scores (Obsolete) See: Direct Access Develop Workforce > Manage Competencies (GBL) > Use > Test Results	6-C-5
324	Record Education Degree/Training Program, Education Level, Or Change Foreign Language Skill (Obsolete) See: Direct Access Develop Workforce > Manage Competencies (GBL) > Use > Education and Develop Workforce > Manage Competencies (GBL) > Use > Foreign Language Test Results	6-C-6
325	Servicewide, CWO Specialty, or OAR Information (Obsolete)	6-C-8
333	Height and Weight Measurement/Bonus Suspension	6-C-10
450	Security Clearance Data (Obsolete) See: Direct Access Administer Workforce, Administer Workforce (GBL), Use and Security Check	6-C-11

304 Add or Delete Enlisted Qualification Code (Obsolete)

Purpose   Action code was 304 is used to:

- Add enlisted qualification codes
- Remove (delete) enlisted qualification codes
- Record aviator aircraft-type qualifications

Diving qualification lapse dates are no longer recorded using action code 304.

Source   Action code 304 is generated by PERSRUs when one of the following events is recorded in SDA II:

- Change Qualification Code for Enlisted Personnel
- Change Aviator Qualification

Expanded RECENTS analysis   This table lists the variable data element codes and the element code descriptions/SDA II fields for action code 304.

Code	Element		Description/SDA II Field
69	VDEs for element codes 69-77 record pilot qualification.		HH65
70	The following pilot qualification codes may appear:		C4
71	AC=Aircraft	ACL=Aircraft Commander	C11
72	Commander	Lapsed	E2
73	FP=First Pilot	FPL=First Pilot - Lapsed	HC130
74	CP=Copilot	CPL=Copilot - Lapsed	HH60 (Formerly HH3)
76	IP=Instructor Pilot	IPL=Instructor Pilot - Lapsed	HU16
77			HU25
78	5 or 6 Characters. A 5 or 6 character code indicating the aircraft type, aircraft designation, and pilot's qualification by combining codes, such as from the following example: AC Type + Aircraft + F = Fixed Wing TH57 Highest Qualification Held Element A = Aircraft Commander FTH57A		OTHER AIRCRAFT

304 Add or Delete Enlisted Qualification Code (Obsolete),
Continued

Expanded RECENTS analysis (continued)

Code	Element	Description/SDA II Field
79	L = Lapsed Q = Qualified	SHIP-HELO QUALIFICATION
80	5 Digits representing number of whole hours	TOTAL ROTARY TIME
81	5 Digits representing number of whole hours	TOTAL FLYING TIME
85	2 Characters representing enlisted qualification code	DELETE QUAL CODE
86	2 Character & Date representing enlisted qualification code and date assigned in YYMMMDD format	ADD QUAL CODE/DATE
88	Date in YYMMMDD format	DIVING QUAL LAPSE DATE (no longer used but may appear in RECENTS)

305 Add or Delete Award Code (Obsolete)

Purpose   Action code 305 is used to add or delete an award code

Source   Action code 305 is generated by PERSRUs when the Record Award Information event is recorded in SDA II.

Expanded RECENTS Analysis   This table lists the variable data elements and descriptions/SDA II fields for action code 305.

Code	Element	Description/SDAII Field
01	9 Character Code (AAYYMMMDD)	Award Name and Date • Codes from 3PM, Encl. 10
02	9 Character Code (AAYYMMMDD)	Deletions, Award Name and Date
97	3 Digit Total	Total of element codes used less than 97. (e. g. Element Codes 01 was used three times [01 X 03 = 03] and Element Code 02 was used twice [02 X 02 = 04] the sum of the elements used equals 007). • Not Displayed in SDA II

320 Record Retest of ASVAB Scores (Obsolete)

Purpose   Action code 320 is used to report scores from enlisted ASVAB retests

Source   Action code 320 is generated by PERSRUs when the Report Scores from ASVAB Retest event is recorded in SDA II.

Expanded
RECENTS
Analysis   This table lists the variable data elements and descriptions/SDA II fields for action code 320.

Code	Element	Description/SDAII Field
01	2 Digit	GS Test Score
02	2 Digit	AR Test Score
03	2 Digit	WK Test Score
04	2 Digit	PC Test Score
05	2 Digit	No Test Score
06	2 Digit	CS Test Score
07	2 Digit	AS Test Score
08	2 Digit	MK Test Score
09	2 Digit	MC Test Score
10	2 Digit	EI Test Score
11	2 Digit	VE Test Score (Composite Score of WK & PC Tests)
13	3 Character	Test Version
14	Date (YYMMMDD)	Batt-Re-Test Date

324 Record Education Degree/Training Program, Education Level, Or Change Foreign Language Skill (Obsolete)

Purpose   Action Code 324 is used to record the completion of an education degree, training program, change education level or change in foreign language skill.

Source   Action code 320 is generated by PERSRUs when one of the following events is recorded in SDA II.

- Change Education Level
- Completion of Degree Training
- Record Foreign Language Skill

Expanded RECENTS Analysis   This table lists the variable data elements and descriptions/SDA II fields for action code 324.

Code	Element	Description/SDAII Field
01	2 Digit	<u>Field of Degree or Training</u> • Available in Help Wheel, SDA System.
02	1 Digit/Character	<u>Degree Awarded or Level of Education/Training Obtained</u>

Valid Code	Description
1	Grammar School – Non-GED – Education Only
2	1 Year High School – Non-GED – Education Only
3	2 Years High School – Non-GED – Education Only
4	3-4 Years High School – Non-GED – Education Only
5	High School Graduate – Education Only
6	1 Year of College – Education Only
7	2 Years of College – Education Only
8	3-4 Years of College, Non-graduate – Education Only
A	Associate Degree – Education and Degree
B	College Graduate (BS or BA) – Education or Degree
C	Professional Certification – Degree Only
D	Doctorate Degree – Education or Degree
G	Grad Work One Year or More, W/O Degree – Degree Only
M	Master Degree or Equivalent - Education or Degree
P	Professional Degree – Degree Only
T	Non Degree Professional Training – Degree Only
X	Certificate of Completion – Education or Degree
Y	Graduate Equivalency Diploma – Education or Degree

Continued on next page

324 Record Education Degree/Training Program, Education Level, Or Change Foreign Language Skill (Obsolete), Continued

Expanded RECENTS Analysis (continued)

Code	Element	Description/SDA II Field
03	2 Digit (98 = 1998 etc.)	Year Degree Obtained
04	1 Digit/Character	Highest Level of Education • See VDE 02 for codes.
08	2 Digit/Character	Language Code to Delete Skill Level to Delete

Language Code	Description	Language Code	Description
A	African	N	Hindi
B	Arabic	O	Italian
C	Asian	P	Japanese
D	Chinese (Mandarin)	Q	Korean
E	Chinese (Other)	R	Middle Eastern (Other)
F	Danish/Swedish/ Norwegian/Icelandic	S	Polish/Lithuanian
G	Estonian/Finnish	T	Portugese
H	Western Europe (Other)	U	Russian
I	Eastern Europe (Other)	V	Slavic (Other)
J	French	W	Spanish
K	German	X	Vietnamese
L	Greek	Y	Other
M	Haitian Creole		

Skill Level Code	Description
1	Ability to speak with elementary proficiency to meet travel needs and courtesy requirements.
2	Ability to read and write with elementary proficiency. Can communicate in written form on familiar topics. Frequent errors, but generally understood.
3	Ability to satisfy routine social demands and limited military requirements. Can read, write and converse on general and technical topics.
4	Ability to converse and correspond effectively with few errors on most topics and fairly extensively on technical topics.

Code	Element	Description/SDA II Field
09	2 Digit/Character	New Language Code New Skill Level • See VDE 08 for codes.

325 Servicewide, CWO Specialty, or OAR Information (Obsolete)

Purpose   Action Code 325 is used for:

(1)   Servicewide exam purposes:

- Report exam rating for E-3 personnel.
- Report exam rating for change in rating personnel.
- Report exam board OPFAC number (only if exam is to be taken at other than the member's permanent unit.)

(2)   Recording CWO Candidate specialty.

Source   • Action code 325 is generated by PERSRUs when a Servicewide, CWO Specialty Information event is recorded in SDA II.

Expanded RECENTS Analysis   This table lists the variable data elements and descriptions/SDA II fields for action code 325.

Code	Element	Description/SDAII Field
03	3 or 4 Characters (YN2, MST2 etc.)	New Rate
04	4 Characters (BOSN, PERS etc.)	CWO Specialty

Code	Specialty
AVI	Aviation Engineering
BNDM	Bandmaster
BOSN	Boatswain
COMM	Communications
ELC	Electronics
F & S	Finance and Supply
MAT	Material Maintenance
MED	Medical Administration
ENG	Naval Engineering
PERS	Personnel Administration
PSS	Port Safety and Security
INF	Public Information
WEPS	Weapons

325 Servicewide, CWO Specialty, or OAR Information (Obsolete), Continued

Expanded RECENTS Analysis (continued)

Code	Element	Description/SDA II Field
05	7 Digit Dist/OPFAC (5347400 etc.)	Exam Board District Exam Board OPFAC
06	7 Digit Score	OAR Score Not Displayed in SDA II
07	Date (YYMMMDD)	OAR Date Not Displayed in SDA II

333 Height and Weight Measurement/Bonus Suspension

Purpose Action code 333 is used to suspend bonus payments when a member exceeds their maximum allowable weight or body fat percentage.

Source The 333 is generated when an entry is made in the member's Direct Access Personal Data page on the "Physical Char" tab.

Bonus Suspension If VDE 03 contains anything other than "0000" this transaction will set the "Suspense Flag" in Segments 30 and 42 when it processes through pay update. This suspends any future bonus installment payments until a P602 is submitted to remove the suspension.

A Direct Access "Remove Suspension to Bonus" transaction, which generates a P602, must be submitted (by the responsible Servicing Personnel Office) to remove the suspense flag from the bonus segment if the Weight Over field was filled in with anything other than "0".

Expanded RECENTS Analysis This table lists the variable data elements and descriptions.

Code	Element	Description
01	4 Digits(150.0 = 150 lbs)	Member Weight
02	1 Character(A, B, etc.)	Frame Size Code
	Male	**Female**
	A - less than 6 ¼	N - less than 5 ¼
	B - 6 ¼ to less than 6 ½	P - 5 ¼ to less than
	C – 6 ½ to less than 6 ¾	Q – 5 ½ to less than 5 ¾
	D – 6 ¾ to 7	R – 5 ¾ to 6
	E – Over 7 to less than 7 ¼	S – Over 6 to less than 6 ¼
	F – 7 ¼ to less than 7 ½	T – 6 ¼ to less than 6 ½
	G – 7 ½ to 7 ¾	U – 6 ½ to 6 ¾
	H – Over 7 ¾ to less than 8	V – Over 6 ¾ to less than 7
	J – 8 to less than 8 ¼	W – 7 to less than 7 ¼
	K – 8 ¼ to less than 8 ½	X – 7 ¼ to less than 7 1/2
	L – 8 ½ to less than 8 ¾	Y – 7 ½ to less than 7 ¾
	M – 8 ¾ and greater	Z – 7 ¾ and greater
03	4 Digits (005.5 = 5.5 lbs)	Amount Overweight
04	3 Digits (60.0 = 60 inches)	Member Height

450 Security Clearance Data (Obsolete)

Purpose   Action code 450 is used to record security clearance data.

Source   Action code 450 is generated by the Department of Transportation Central Adjudication Facility when a Security Clearance Data transaction processes into PMIS/JUMPS

Expanded RECENTS analysis   This table lists the variable data elements and descriptions/SDA II fields for action code 450.

Code	Element		Description/SDAII Field
01	A one-character alpha/numeric code to indicate the type of security investigation		Security Investigation Type
	Code	**Meaning**	
	1	Entrance National Agency Check (ENTNAC)	
	2	National Agency Check	
	3	NAC plus written inquiries (NACI)	
	4	Background Investigation (BI)	
	5	Special background investigation (SBI)	
	6*	NAC plus 10 years service (obsolete)	
	7	NAC plus Special investigative Inquiry (SII)	
	8	ENTNAC plus SII	
	9*	Interview oriented BI (IBI)	
	0	Single Scope Background Investigation (SSBI)	
	A*	Expanded NAC	
	B	Local Records Check (LRC) plus NACI requested	
	C	NACI requested	
	D	NAC (or NACI) plus BI or IBI requested	
	E	NAC plus SBI requested	
	F	BI/IBI (10 year scope)	
	G	Periodic reinvestigation (PR) or BI/IBI	
	H*	NAC plus partial SBI	
	I*	Character Investigation (IRS)	
	J	PR or SBI

D100 General Data

Purpose   The L67B D100 is primarily used by HRSIC. PERSRUs use the D100 for "Admin Change of Servicing PERSRU for a Unit" transactions, only.

Source   A D100 is created in RECENTS when the "Correct ADPM and BAQ Data Transaction" processes into PMIS/JUMPS.

Expanded   The D100 in expanded recents is described below.
RECENTS
Analysis
- Numbers in bold represent the element code.
- Titles in italics represent PMIS Database field names and page numbers.
- Underlined titles represent SDAII field names.

<u>Code</u>	<u>Element</u>	<u>SDAII Field Name</u>			
04 *SPOUSE-IN-SVC-SSN (04)*	9 Digit SSN (111223333)	<u>Spouse Service SSN</u>			
05 *SPOUSE-IN-SVC-BR (04)*	1 Alpha Character (E, F etc.)	<u>Spouse Service Branch Code</u>			
		Code	**Branch of Service**	**Code**	**Branch of Service**
		A	US Coast Guard	H	US Air Force Reserve
		B	US Coast Guard Reserve	I	US Marine Corps
		C	Navy (USN)	J	US Marine Corps Reserve

D101 Unit Related Data

Purpose	Action Code D101 is used to update an individual's Personnel (PMIS) Record.

Source	A D101 is created in RECENTS when the "Correct ADPM Service Data As Indicated" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis	The D101 in expanded recents is described below.

- Numbers in bold represent the element code.
- Titles in italics represent PMIS Database field names and page numbers.
- Underlined titles represent SDAII field names.

<u>Code</u>	<u>Element</u>	<u>SDAII Field Name</u>
04 *MTHS-CONUS (07)*	3 Digits (4 yrs = 048)	<u>Tour Length Recap INCONUS</u>
05 *PERMANENT UNIT (00)* *PERM-UNIT-OPFAC (06)*	5 Digits (12345, etc.)	<u>Permanent Duty Station OPFAC</u> • OPFAC Codes may be found in the OPFAC Manual, COMDTINST M5440.2 (series)
06 *REPORTING UNIT (00)* *RU-OPFAC (06)*	5 Digits (12345, etc.)	<u>Reporting Unit OPFAC</u> • OPFAC Codes may be found in the OPFAC Manual, COMDTINST M5440.2 (series)
07 *MTHS-OCONUS (07)*	3 Digits (3 yrs = 036)	<u>Tour Length Recap OUTCONUS</u>
08 *MTHS-RESTRICTED (07)*	3 Digits (4 yrs = 048)	<u>Tour Length Recap Restricted</u>
22 *ENTRY-CITY (01)*	Max 15 Characters (Topeka, etc.)	<u>Current Enlistment Place of Entry-City</u>

D101 Unit Related Data, Continued

Code/Description	**Element**	**SDAII Field Name**
23 *ENTRY-ST (01)*	2 Alpha Code (AK, KS, etc.)	Current Enlistment Place of Entry-State • See ENCL (9) 3PM for State Codes.
24 *PAYG-IND (01)*	1 Alpha/Numeric Code	Pay Grade Indicator
25 *RANK (00)* *RANK (01)*	3 or 4 Alpha/Numeric (YN2, PERS2, CDR, etc.)	Rank • See Chapter 3-D for complete listing.
26 *ROT-DT (06)*	Date (6 Digits) (YYMMDD)	Rotation Eligibility Date
28 *SEX (00)* *SEX (01)*	1 Character	Member Sex Code

For code 24 (Pay Grade Indicator):

Code	Meaning
0	All other Officers
1	Officers with 4 years active enlisted or warrant service, or more points as an enlisted member or warrant officer.

For code 28 (Member Sex Code):

Code	Gender
M	Male
F	Female

A5	------------	Unauthorized absence
H3	4H	Home awaiting action of physical evaluation board
W5	6W	TAD winter duty (CCGD9 only)

Separation Code	Reason
AA	Separation without reenlistment - recommended for reenlistment - P203 VDE 25 or 29
AB	Resignation - P214 VDE 04
AC	Termination of appointment or dismissal, severance - P214 VDE 01, 02, or 05
AE	Desertion
AF	Separation without reenlistment - not recommended for reenlistment - P203 VDE 26 or P253 Discharged under other than Honorable Conditions P214 VDE 06
AG	Separation without reenlistment - recommended for reenlistment but not eligible due to hardship, obesity, etc. P203 VDE 28
AJ	Missing in action - POW
BA	Gain to retired strength
DC	Appointed Cadet
DD	Death - P266

**Deleted Variable
Data Elements**

The following table is a historical record of VDE's that have been deleted. Most were removed when PMIS Page 14 was deleted in February 1996.

Code/Description	Element	SDAII Field Name	
27 *RESP-PAY-CD (14)*	1 Digit Code	Responsibility Pay Entitlement Code	

Code	Meaning	Code	Meaning
1	Entitlement to Responsibility pay terminated	Blank	Never received entitlement
0	Receiving Responsibility Pay		

Code/Description	Element	SDAII Field Name	
34 *OINC-DESIG*	1 Alpha/Numeric Code	Officer In Charge Qualification Code	

Code	Meaning	Code	Meaning
A	Qualified, Afloat and Ashore	F	Not Qualified
B	Qualified, SAR, Afloat and Ashore	O	Qualification Removed
C	Qualified, ATON, Afloat and Ashore	S	BM School Graduate
D	Qualified, SAR, Ashore only	Z	Not Evaluated
E	Qualified , ATON, Ashore only		

Code/Description	Element	SDAII Field Name	
42 *STA-ALLOW-CD (14)*	1 Alpha, Numeric	Station Allowance Code	

Code	Meaning	Code	Meaning
0	Allowance terminated	3	Receiving both above allowances
1	Receiving housing allowance	Blank	Never received either allowance
2	Receiving cost of living allowance		

D101 Unit Related Data, Continued

Code/Description	Element	SDAII Field Name
43 *SUBSIST-CD (14)*	1 Alpha/Numeric	Subsistence Code

Code	Meaning
0	Entitlement Terminated
H	Basic Allowance for Subsistence (enlisted)
I	Commuted Rations (SEPRATS)
J	Stewards-stewards subsisted in cabin and wardroom messes and/or members subsisted in messes of other services
K	Not elsewhere classified
L	Special Allowance for Subsistence
M	Officer Basic Allowance for Subsistence
Blank	Has never received entitlement

Subsistence entitlements are no longer valid as of 2002. Undefined per SCP Number 27226

D104 Separation Related Data

Purpose	Action Code D104 is used to update an individual's Personnel (PMIS) Record.

Source	A D104 is created in RECENTS when the "Maintain Separation Status and Dates" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis	The D104 in expanded RECENTS is described below. • Numbers in bold represent the element code. • Titles in italics represent PMIS Database field names and page numbers. • Underlined titles represent SDAII field names.

Code	**Element**	**SDAII Field Name**
01 PEND-TERM-DT (05)	Date (6 Digits) (YYMMDD)	Pending Separation Date • Entering "000000" in this Element clears date.
02 *PEND-TERM-CD (05)*	2 Alpha/Numeric Code	Pending Separation Code

Separation Code	Description
AA	Separation W/O reenlistment-recommend for reenlistment - P203 VDE 25 or 29
AB	Resignation - P214 VDE 04
AC	Termination of appointment or dismissal, severance - P214 VDE 01, 02 or 05
AE	Desertion
AF	• Separation w/o Reenlistment - Not Recommended for Reenlistment - P203 VDE 26 or P253 • Discharged under other than Honorable Conditions - P214 VDE 06
AG	Sep. w/o reenlistment - recommended for reenlistment but not eligible due to hardship, obesity, etc. P203 VDE 28
AJ	Missing in action - POW
BA	Gain to retired strength
DC	Appointed Cadet
EA	Record erroneously on file - removed administratively

Code	**Element**	**SDAII Field Name**
03 *REQ-TERM-DT (05)*	Date (6 Digits) (YYMMDD)	Requested Active Duty Termination Date • Entering "000000" in this Element clears date.

D104 Separation Related Data, Continued

Code	Element	SDAII Field Name
04 *REQ-TERM-CD (05)*	1 Alpha/Numeric (YYMMDD)	Requested Active Duty Termination Code • Entering "000000" in this Element clears date.

Code	Meaning
1	Retirement
2	Early Discharge
3	Resignation (not currently used)
4	Release from Active Duty

Code	Element	SDAII Field Name
05 *DT-ENT-CUR-AD (05)*	Date (6 Digits) (YYMMDD)	Date Entered Current Active Duty • Entering "000000" in this Element clears date.
06 *EXPECTED AD TERMINATION DATE (00)* *EXP-AD-TERM-DT (05)*	Date (6 Digits) (YYMMDD)	Expected Active Duty Termination Date • Entering "000000" in this Element clears date.
07 *EFFECTIVE ACTIVE DUTY* *EFF-AD-TERM-DT (05)*	Date (6 Digits) (YYMMDD)	Effective Active Duty Termination Date • Entering "000000" in this Element clears date.
08 *EFF-AD-TERM-SPD (05)*	3 Alpha Numeric (KBK, etc.)	AD Term. Separation Program Designator • Leave element blank to clear. • See the Separation Program Designator Handbook, for codes.
09 *EXPECTED LOSS DATE(00)* *EXP-LOSS-DT (05)*	Date (6 Digits) (YYMMDD)	Expected Loss Date • This element cannot be cleared.
10 *EFF-LOSS-DT (05)*	Date (6 Digits) (YYMMDD)	Effective Loss Date • Entering "000000" in this "Element" clears the date.
11 *EFF- LOSS-SPD (05)*	3 Alpha Numeric (KBK, etc.)	Effective Loss Separation Program Designator • Leave Element blank to clear. • See Separation Code Designator Handbook for codes.
12 *EFF-RET-DT (05)*	Date (6 Digits) (YYMMDD)	Retirement Date • Entering a new date will replace the current date.
13 *RETIRE-CD (05)*	1 Character Code	Retirement Code • Leave element blank to clear.

Personnel Retired as Commissioned Officers

Code	Reason	Authority
A	At own request upon completion of 20 or more years active service 10 years of which commissioned	(14 USC 291)1(14 USC *755(e):* 10 USC 6323 for reserve officers)[2].
B	At own request upon completion of 30 or more years active service	(14 USC 292)1(14 USC 755(e): 10 USC 6323 for reserve officers)[2].
C	By reason of having reached statutory age	(14 USC 293) (10 USC I33l-l337)[1]
D	By reason of Reserve Transition Benefits	(10 USC 133 1a).
E	At own request upon completion of at least 15 years of active service 10 years of which commissioned	(TERA) (10 USC 1293).
G	By reason of temporary physical disability	(10 USC 61)3.
H	By reason of permanent physical disability	(10 USC 61)3.
M	Non-selection for promotion	(14 USC 282).
N	Non-selection for promotion	(14 USC 283).
0	Non-selection for promotion	(14 USC 285).
R	Commandant or Vice Commandant	(14 USC 46 or 47).
S	Area Commander	(14 USC 51).
T	By reason of completion of 36 years active commissioned service in grade of RADM	(14 (JSC 290)1.
U	By reason of completion of 30 years active commissioned service	(14 USC 288) [Regular Captains].
V	Rear Admiral continuation board	(14 USC 290[a]).
W	Captain continuation board	(14 USC 289).
X	By reason of separation for cause	(14 USC 327[b]).

Personnel Retired as Commissioned Warrant or Warrant Officers

I	At own request upon completion of at least 15 years of active service	(TERA) (10 USC 1239).
J	At own request upon completion of 20 or more years active service	(10 USC 1293)1(14 USC 755[e]: 10 USC 6323 for reserve officers)[2].
K	At own request upon completion of 30 or more years active service or upon completion of 30 years' active service	(10 USC 1305)1(14 USC 755[e]: 10 USC 6323 for reserve officers)[2].
L	By reason of having reached statutory age	(10 USC 1263) (10 USC l331-l337)[1].
P	By reason of temporary physical disability	(10 USC 61)[3].
Q	By reason of permanent physical disability	(10 USC 61)[3].
Y	Non-selection for promotion	(10 USC 564).
Z	By reason of Reserve Transition Benefits	(10 USC 133 1a).

D111 MGIB/RMGIB Status and Benefits

Purpose   Action code D111 is used to record Montgomery GI Bill and Reserve Montgomery GI Bill edibility.

Source   A D111 is created in RECENTS when the "Correct Reserve MGIB Eligibility Status" transaction processes into PMIS/JUMPS.

Expanded   The D111 in expanded RECENTS is described below.
RECENTS
Analysis
* Numbers in bold represent the element code.
* Titles in italics represent PMIS Database field names and page numbers.
* Underlined titles represent SDAII field names.

Code	Element	SDAII Field Name
01 *RMGIB-ELIG-STAT (12)*	1 Character Code	Reserve MGIB Eligibility Status Code

Code	Meaning
W	Not Applicable
A	Ineligible - Completed the course of instruction required for the award of a baccalaureate degree or equivalent
B	Ineligible - Receiving a ROTC scholarship
C	Ineligible - Has not executed a six-year contract or service obligation in the Selected Reserve after 30 JUN 85
D	Ineligible - Has not completed IADT
E	Ineligible - Did not complete the requirements for a high school diploma or the equivalent prior to completing IADT, or for officers, prior to executing a six-year Selected Reserve obligation
F	Eligible - Meets all eligibility criteria. Also applies to and includes personnel that want to pursue a second degree in another subject or nondegree program and have already been awarded a Bachelor's Degree and have entered into a new six-year contract on or after 1 October 1990.
G	Eligibility Terminated - Correction of erroneous report of eligibility
H	Eligibility Terminated - Failed to participate satisfactorily prior to completing required service
I	Eligibility Terminated - Expiration of 10 year eligibility period
J	Eligibility Terminated - Completed a course of instruction required for the award of a baccalaureate degree or equivalent
K	Eligibility Terminated - Receiving a ROTC scholarship
L	Eligibility Terminated - Deceased, separated or transferred from the Selected Reserve prior to completing required service
M	Eligibility Suspended - Being processed for unsatisfactory participation
N	Eligibility Suspended - Granted a period of authorized non-availability (missionary) up to three years
P	Eligibility Suspended - Granted a period of authorized non-availability (all others) not to exceed one year
Q	Eligibility Reinstated - Has re-affiliated with the Selected Reserve
R	Eligible - Disability not the result of individual's willful misconduct

Code	Meaning
1	Penalty not required
2	Penalty required
3	Penalty required, waived
6	Not applicable

D200 Aviator Information

Purpose   Action code D200 is used to record aviator information.

Source   A D200 is created in RECENTS when the "Correct Aviator Information on ADPM" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis

The D200 in expanded RECENTS is described below.

- Numbers in bold represent the element code.
- Titles in italics represent PMIS Database field names and page numbers. The main segments affected are also displayed in the same manner.
- Underlined titles represent SDAII field names.

Code	Element	SDAII Field Name
04 *SHIP-HELO-QUAL (10)*	1 Character	Ship-Helo Qualification Code

Code	Meaning
Q	Qualified
L	Lapsed
Blank	Not Qualified

Code	Element	SDAII Field Name
15 *SUSP-DT (10)*	Date(6 Digits) (YYMMDD)	Date of Suspension
22 *AVINF-OCC (10)*	2 Digits	Aviation Information Occurrence

Code	Meaning
00	Member not in aviation status
01	Aviator information present. A date will be shown in the SUSP-DT field if currently not in an aviation status.

D202 Officer Data and Prior Enlisted Information

Purpose	Action code D202 is used to prior enlisted service and other data for officers.

Source	A D202 is created in RECENTS when the "Correct ADPM Pay and Commission Data as Indicated" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis	The D202 in expanded RECENTS is described below.
	• Numbers in bold represent the element code.
	• Titles in italics represent PMIS Database field names and page numbers.
	• Underlined titles represent SDAII field names.

<u>Code</u>	<u>Element</u>	<u>SDAII Field Name</u>
01 *COMM-DT (01)*	Date (6 Digits) (YYMMDD)	<u>Officer Commission Date</u>
02 *PRI-ENL-MTHS (01)*	Digit(s) (4 yrs = 48 Months)	<u>Number of Months Enlisted</u>
03 *OBC (06)*	6 Alpha/Numeric (033423, etc.)	<u>Officer Billet Code</u> • See Commissioned and Warrant Officer Billet Manual, COMDINST M5320.7 (series) for codes.
04 *PERM-PAYG (01)*	5 Digits (01234, etc.)	<u>Officer Permanent Grade Rate Code</u> • See Numeric Grade Codes in Chapter 3, Section D of this Manual for codes.
05 *PERM-PAYG-DT (01)*	Date(6 Digits) (YYMMDD)	<u>Officer Permanent Grade Rate Date</u> • The date of the permanent grade in VDE 04.
06 *PRI-ENL-RANK (01)*	5 Digits (01234 etc.)	<u>Officer Prior Enlisted Rate Code</u> • See Numeric Grade Codes Chapter 3, Section D of this Manual for codes.
17	**Inactive Variable Data Element**	Element Code 17, Total Commissioned Service, is no longer valid. A MODALL is required to change this field on Page 1 of the PMIS Database.

D203 Enlisted Information in the ADPM

Purpose   Action code D203 is used to record enlisted information in the ADPM.

Source   A D203 is created in RECENTS when the "Correct Enlisted Information on ADPM" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis   The D203 in expanded RECENTS is described below.

- Numbers in bold represent the element code.
- Titles in italics represent PMIS Database field names and page numbers.
- Underlined titles represent SDAII field names.

Code	Element	SDAII Field Name
01 *TEST-AR-SCORE (11)*	2 Digits (35 etc.)	AR Test Score
03 *CUR-ENL-DT (05)*	Date (6 Digits) (YYMMDD)	Current Enlistment Date
04 *CUR-ENL-LEN (05)*	1 Digit (4 = 4 Years)	Current Enlistment Length
05 *CTZN-CD (01)*	1 Digit	Citizen Code

Code	Meaning
1	United States Citizen
2	Naturalized United States Citizen
3	Other

Code	Element	SDAII Field Name
06 *TEST-PC-SCORE (11)*	2 Digits (40, 50 etc.)	PC Test Score
10 *TEST-NO-SCORE (11)*	2 Digits (40, 50 etc.)	NO Test Score
12 *TOT-DED-TM (05)*	4 Digits (0010 = 10 Days)	Total Days Deductible Time

D203 Enlisted Information in the ADPM, Continued

Code	Element	SDAII Field Name
14 *TEST-GS-SCORE (11)*	2 Digits (40, 50 etc.)	GS Test Score
15 *AF-QUAL-TEST-NM (11)*	Max 5 Alpha Characters (AFQT, etc.)	Initial Qualification Test Name • The Armed Forces Qualification Test is the only one presently used.
16 *AF-QUAL-TEST-SCORE (11)*	Max 3 Characters (110 etc.)	Initial Qualification Test Score
17 *TEST-WK-SCORE (11)*	2 Digits (40, 50, etc.)	WK Test Score
18 *PRI-ENL-CD (05)*	1 Digit	Prior Coast Guard Enlistments Code Code / Meaning: 1 — 1st Enlistment 2 — Subsequent Enlistment
20 *TEST-CS-SCORE (11)*	2 Digits (40, 50, etc.)	Test CS Score
21 *ADC-CO-END (13)*	1 Character Code	Assignment Date CO Endorsement Code / Meaning: A — Approved C — Conditionally Approved D — Disapproved
24 *TEST-AS-SCORE (11)*	2 Character (40, 50 etc.)	AS Test Score
25 *EXPECTED AD TERMINATION DATE (00) RES-AD-LEN (05)*	2 Digits (06 = 6 Months)	Reservist Term of Current Active Duty • Fractions of a month are rounded up.

Deleted Variable Data Elements

The following VDEs have been deleted. They are presented for historical purposes.

Code/Description	Element	Description	
02 *SDAP-CAT (14)*	1 Alpha Character	SDAP Code	
		Code	**Meaning**
		A	Coxswains (Surf Qual)
		B	CEA (Gold Badge)
		C	District 17 ANT
		O	Entitlement terminated
		R	SDAP for Recruiters
		S	SDAP for Officer In Charge Afloat
		T	SDAP for Officer In Charge Ashore
		U	SDAP for Special Agents
		V	Recruit CC or ACC
		Blank	Never received entitlement
19 *SDAP-IND-NBR (14)*	1 Digit	SDAP Rate Code	
		Code	**Meaning**
		0	Entitlement terminated
		1	Rate = $055.00
		2	Rate = $110.00
		3	Rate = $165.00
		4	Rate = $220.0
		5	Rate = $275.00
		Blank	Never received entitlement

D300 Pay Grade History

Purpose	Action code D300 is used to record pay grade history.

Source	A D300 is created in RECENTS when the "Pay Grade History Correction" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis

The D300 in expanded RECENTS is described below.

- Numbers in bold represent the element code.
- Titles in italics represent PMIS Database field names and page numbers.
- Underlined titles represent SDAII field names.

<u>Code</u>	<u>Element</u>	<u>SDAII Field Name</u>
01	2 Digits (01 etc.)	<u>Occurrence Number</u> • Used to select the item number being deleted, added, or changed on PMIS Page 08.
02	Blank	<u>Action</u> (Delete Occurrence) • If Element Code 02 is used, Element Codes 05 through 08 should not be used.
03	"ADD" or "INSERT"	<u>Action</u> (Add or Insert Occurrence) • If Element Code 03 is used, Element Codes 05 through 08 must be used.
04	Blank	<u>Action</u> (Change Occurrence) • If Element Code 04 is used, at least one of Element Codes 05 through 08 must be used.
05 *PAYGH-CD (08)*	P = Permanent T = Temporary Blank = N/A	<u>Permanent/Temporary Indicator</u>
06 *PAYGH-DT (08)*	Date (6 Digits) (YYMMDD)	<u>Pay Grade History Date</u> (Effective Date of Pay Grade)
07 *PAYGH-GRADE (08)*	Max 3 Characters (O2E, O3 etc.)	<u>Pay Grade History Pay Grade</u> • See Numeric Grade Codes in Chapter 3, Section D of this manual for codes.
08 *PAYCG-RANK-RATE-CD (08)*	3 Digits (210, 010 etc.)	<u>Pay Grade History Rank/Rate Code</u> • This number is the prefix (1st three digits) of the member's rate specialty for the date reported in Element Code 07. • See Numeric Grade Codes in Chapter 3, Section D of this manual for codes.

D303 Prior Unit History in the ADPM

Purpose	Action code D303 is used to record prior unit history.

Source	A D303 is created in RECENTS when the "Correct Prior Unit Information on ADPM" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis	The D303 in expanded RECENTS is described below. • Numbers in bold represent the element code. • Titles in italics represent PMIS Database field names and page numbers. • Underlined titles represent SDAII field names.

Code	Element	SDAII Field Name
01	2 Digits (01 etc.)	Occurrence Number • Used to select the item number being deleted, added, or changed on PMIS Page 07. • Element code 01 must be used.
02	Blank	Action (Delete Occurrence) • If Element Code 02 is used, Element Codes 05 through 11 should not be used.
03	"ADD" or "INSERT"	Action (Add or Insert Occurrence) • If Element Code 03 is used, all Element Codes 05 through 11 must be used, except Element Code 05 if member is enlisted.
04	Blank	Action (Change Occurrence) • If Element Code 04 is used, at least one of Element Codes 05 through 11 must be used.
05 *PRI-UNIT-OBC (07)*	6 Digit Alpha/Numeric Code	Prior Unit Officer Billet Code • See the 6 Digit code in the Commissioned and Warrant Officer Billet Manual, COMDTINST M5320.7 (series) for codes.
06 *PRI-UNIT-RANK (07)*	5 Digit Numeric Code	Prior Unit Last Rate Held • See Numeric Grade Codes in Chapter 3, Section D of this manual for codes.

D303 Prior Unit History in the ADPM, Continued

Code/Description	Element	SDAII Field Name
07 *PRI-UNIT-TYPE (07)*	1 Digit Numeric Code	Prior CONTIN-FLOAT-SHORE-UNIT-RES Code

Code	Meaning		
1	INCONUS	Afloat	Nonrestricted
2	INCONUS	Afloat	Restricted
3	INCONUS	Ashore	Nonrestricted
4	INCONUS	Ashore	Restricted
5	OUTCONUS	Afloat	Nonrestricted
6	OUTCONUS	Afloat	Restricted
7	OUTCONUS	Ashore	Nonrestricted
8	OUTCONUS	Ashore	Restricted

Code/Description	Element	SDAII Field Name
08 *PRI-UNIT-DT-DEPT (07)*	6 Digits (YYMMDD)	Prior Unit Detachment Date
09 *PRI-UNIT-DT-RPT (07)*	6 Digits (YYMMDD)	Prior Unit Report Date
10 *PRI-UNIT-DIST (07)*	2 Digit Numeric Code	Prior Unit District
11 *PRI-UNIT-OPFAC (07)*	5 Digit Numeric Code	Prior Unit OPFAC.

D306 Extension Information in the ADPM

Purpose	Action code D306 is used to record extension information.

Source	A D306 is created in RECENTS when the "Correct ADPM Extension/Reextension" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis	The D306 in expanded RECENTS is described below.
	• Numbers in bold represent the element code.
	• Titles in italics represent PMIS Database field names and page numbers.
	• Underlined titles represent SDAII field names.

<u>Code</u>	<u>Element</u>	<u>SDAII Field Name</u>
01	01	Only "01" is entered for this field on a D306.
02	Blank	<u>Action</u> (Delete Occurrence)
03	"ADD" or "INSERT"	<u>Action</u> (Add or Insert Occurrence)
04	Blank	<u>Action</u> (Change Occurrence)
05 *INV-RET-EFF-DT (05)*	Date (6 Digits) (YYMMDD)	<u>Involuntary Retention Date</u>
06 *ORIG-ENL-EXP-DT (05)*	Date (6 Digits) (YYMMDD)	<u>Original Expiration of Enlistment Date</u>
07 *EXT-EFF-DT (05)*	Date (6 Digits) (YYMMDD)	<u>Effective Date of Extension</u>

Continued on next page

D306 Extension Information in the ADPM, Continued

Code/Description	Element	SDAII Field Name
08 *EXT-REXT-NBR (05)*	1 Digit Code	Extension Number

Code	Meaning	Code	Meaning
0	First Extension (P154)	4	Fourth Reextension (P159)
1	First Reextension (P159)	5	Fifth Reextension (P159)
2	Second Reextension (P159)	6	Sixth Reextension (P159)
3	Third Reextension (P159)		

Code/Description	Element	SDAII Field Name
09 *EXT-RCVD-CD (05)*	"11111"	P 198 Received Flag • Entering "11111" indicates member has begun service under an extension of enlistment. • This Element Code is required for regular members when the new expected active duty term date is greater than current expected loss date.
10 *FIRST-EXT-LEN (05)*	5 Digits (21000 = 2 Yrs 10 Months & 00 Days)	First Extension Length
11 *EXTS-TOT-LEN (05)*	5 Digits (40100 = 4 Yrs, 01 Month & 00 Days)	Total Extension Length

D307 Reextension Information

Purpose   Action code D307 is used to record reextension information.

Source   A D307 is created in RECENTS when the "Correct ADPM Extension/Reextension" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis

The D307 in expanded RECENTS is described below.

- Numbers in bold represent the element code.
- Titles in italics represent PMIS Database field names and page numbers.
- Underlined titles represent SDAII field names.

Code	Element	SDAII Field Name
01	2 Digits	Occurrence Number • Used to select the item number being deleted, added, or changed on PMIS Page 05. • This Element Code must be used.
02	Blank	Action (Delete Occurrence) • If Element Code 02 is used, Element Codes 05 through 07 should not be used.
03	"ADD" or "INSERT"	Action (Add or Insert Occurrence) • If Element Code 03 is used, all Element Codes 05 through 07 must be used.
04	Blank	Action (Change Occurrence) • If Element Code 04 is used, at least one of Element Codes 05 through 07 must be used.
05 *REXT-RCVD-CD (05)*	"111111"	P 199 Received Flag • Entering "111111" in this Element Code indicates a member has begun service under a voluntary reextension of enlistment.
06 *REXT-EFF-DT (05)*	Date (6 Digits) (YYMMDD)	Effective Date of Reextension
07 *REXT-LEN (05)*	Date (5 Digits) (YMMDD)	Reextension Length

---

D312 Service School Information

Purpose	Action code D312 is used to record service school information.

Source	A D312 is created in RECENTS when the "Service School Information Correction" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis	The D312 in expanded RECENTS is described below. - Numbers in bold represent the element code. - Titles in italics represent PMIS Database field names and page numbers. - Underlined titles represent SDAII field names.

Code	Element	SDAII Field Name
01	2 Digits	<u>Occurrence Number</u> • Used to select the item number being deleted, added, or changed on PMIS Page 09. • This Element Code must be used.
02	Blank	<u>Action</u> (Delete Occurrence) • If Element Code 02 is used, Element Codes 06 through 09 should not be used.
03	"ADD or "INSERT"	<u>Action</u> (Add or Insert Occurrence) • If Element Code 03 is used, all Element Codes 05 through 09 must be used.
04	Blank	<u>Action</u> (Change Occurrence) • If Element Code 04 is used, at least one of Element Codes 05 through 09 must be used.
06 *SVC-SCH-CD (09)*	6 Digits	<u>Service School Code</u> • See the 3PM Manual, M1000.2, Enclosure 9 for school codes.
07 *SVC-SCH-DT (09)*	2 Digit Month (06 etc.)	<u>Date Service School Completed</u>
08 *SVC-SCH-DT (09)*	2 Digit Year (98 etc.)	<u>Date Service School Completed</u>
09 *SVC-SCH-DT (09)*	2 Digit Day (03 etc.)	<u>Date Service School Completed</u>

D314 Medical Status Information

Purpose   Action code D314 is used to record medical status.

Source   A D314 is created in RECENTS when the "Medical Status Correction" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis

The D314 in expanded RECENTS is described below.

- Numbers in bold represent the element code.
- Titles in italics represent PMIS Database field names and page numbers.
- Underlined titles represent SDAII field names.

Code	Element	SDAII Field Name
01	2 Digits	Occurrence Number • Used to select the item number being deleted, added, or changed on PMIS Page 02. • This Element Code must be used.
02	Blank	Action (Delete Occurrence) • If Element Code 02 is used, Element Codes 05 and 06 should not be used.
03	"ADD or "INSERT"	Action (Add or Insert Occurrence) • If Element Code 03 is used, Element Codes 05 and 06 must be used.
04	Blank	Action (Change Occurrence) • If Element Code 04 is used, at least one of Element Codes 05 or 06 must be used.
05 *MED-REVIEW-DT (02)*	Date (6 Digits) (YYMMDD)	Medical Status Date

D314 Medical Status Information, Continued

Code/Description	Element	SDAII Field Name		
06 *PHYS-EXAM-STA-CD (02)*	1 Alpha/Numeric (2, E etc.)	Medical Status Code		
Code	**Status**	**Code**	**Status**	
1	Not Fit For Duty	K	Findings Accepted	
2	Fit For Limited Duty	L	Findings Rejected	
3	Fit For Full Duty	M	Completed On	
A	Ordered	N	Convened	
B	Convened	P	Findings Accepted	
C	Findings Accepted	Q	Findings Rebutted	
D	Findings Rebutted	R	Referred To Disposition Medical Board	
E	Ordered	S	Concurs	
F	Convened	T	Does Not Concur	
G	Findings Re-Referred To Central PEB	V	Ordered	
H	Ordered	W	Convened	
J	Convened	X	Completed	

D315 Member's Dependent Information

Purpose	Action code D315 is used to record family member data.	

Source	A D315 is created in RECENTS when the "Correct Member Dependent Information" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis

The D315 in expanded RECENTS is described below.

- Numbers in bold represent the element code.
- Titles in italics represent PMIS Database field names and page numbers.
- Underlined titles represent SDAII field names.

<u>Code</u>	<u>Element</u>	<u>SDAII Field Name</u>
01	2 Digits	<u>Occurrence Number</u> • Used to select the item number being deleted, added, or changed on PMIS Page 04. • This Element Code must be used. • Input Occurrence 01 when using Element Code 06.
02	Blank	<u>Action</u> (Delete Occurrence) • If Element Code 02 is used, Element Codes 05 through 10 should not be used.
03	"ADD" or "INSERT"	<u>Action</u> (Add or Insert Occurrence) • If Element Code 03 is used, and the total number of dependents is 00, use only Element Code 06. • If the total number of dependents is greater than 00, all of Element Codes 05 through 10 must be used. • If divorced and no other dependents, use add not change.
04	Blank	<u>Action</u> (Change Occurrence) • If Element Code 04 is used, at least one of Element Codes 05 through 10 must be used. • If spouse in service, use change.
05 *DEP-BAQ/BAH-DT (04)*	Date (6 Digits) (YYMMDD)	<u>Date Dependent Eligible for BAH</u>
06 *CG4170-EFF-DT (04)*	Date (6 Digits) (YYMMDD)	<u>CG-4170A Effective Date</u>
07 *DEP-BIRTH-DT (04)*	Date (6 Digits) (YYMMDD)	<u>Birth Date of Dependent</u>

D315 Member's Dependent Information, Continued

Code	Element	SDAII Field Name
08 *SPOUSE-AD-CD (04)*	1 Digit Numeric Code	Spouse Active Duty Code

Code	Meaning
1	Spouse not on active duty
2	Spouse on active duty
3	Spouse in reserve component (drilling or IRR)

Code	Element	SDAII Field Name
09 *DEP-REL-CD (04)*	1 Character Code	Dependent's Legal Relationship to Member

Code	Meaning
A	Adopted
D	Incapacitated
F	Father
G	Legal Ward
H	Husband
I	Illegitimate
L	Legitimate
M	Mother
S	Step
W	Wife
X	In-Law

Code	Element	SDAII Field Name
10 *DEP-SEX (04)*	1 Character Code	Dependent's Family Relationship

Code	Meaning
D	Daughter
F	Father
H	Husband
M	Mother
S	Son
W	Wife

D316 Training Program Information

Purpose	Action code D316 is used to record training program information.

Source	A D316 is created in RECENTS when the "Correct Training Program Information" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis	The D316 in expanded RECENTS is described below.

- Numbers in bold represent the element code.
- Titles in italics represent PMIS Database field names and page numbers.
- Underlined titles represent SDAII field names.

Code	**Element**	**SDAII Field Name**
01	2 Digits	Occurrence Number • Used to select the item number being deleted, added, or changed on PMIS Page 09. • This Element Code must be used.
02	Blank	Action (Delete Occurrence) Element Code 02 is used, Element Codes 05 or 06 should not be used.
03	"ADD" or "INSERT"	Action (Add or Insert Occurrence) If Element Code 03 is used, all of Element Codes 05 and 06 must be used.
04	Blank	Action (Change Occurrence) If Element Code 04 is used, at least one of Element Codes 05 or 06 must be used.
05 *ED-FLD -LVL (09)*	3 Alpha/Numeric	Major Field/Education Level/Degree Code • Of the three digit code, the first two digits are the major field code. • Depicts the degree attained.

D316 Training Program Information, Continued

Field (First 2 digits)

D	Doctorate Degree				

06 *ED –YR (09)*	2 Digits	Year Training was Completed

D318 Medal & Award Information

Purpose   Action code D318 is used to record medal and award information.

Source   A D318 is created in RECENTS when the "Correct Medal Information" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis   The D318 in expanded RECENTS is described below.

- Numbers in bold represent the element code.
- Titles in italics represent PMIS Database field names and page numbers.
- Underlined titles represent SDAII field names.

<u>Code</u>	<u>Element</u>	<u>SDAII Field Name</u>
01	2 Digits	<u>Occurrence Number</u> • Used to select the item number being deleted, added, or changed on PMIS Page 03. • This Element Code must be used.
02	Blank	<u>Action</u> (Delete Occurrence)
03	"ADD" or "INSERT"	<u>Action</u> (Add or Insert Occurrence) • If Element Code 03 is used, Element Code 05 must be used.
04	Blank	<u>Action</u> (Change Occurrence)
05 *MEDAL (03)* *MEDAL-DT (03)*	2 Alpha/Numeric Date in YYMM Format (e.g. AA9810)	<u>Medal</u>, <u>Year/Month Medal Awarded</u> See the 3 PM Manual, HRSICINST M1000.2, Enclosure (10) for award codes.

D320 Add/Correct Separation/Severance Pay Information

Purpose   Action code D320 is used to record separation and severance pay information.

Source   A D320 is created in RECENTS when the "" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis

The D320 in expanded RECENTS is described below.

- Numbers in bold represent the element code.
- Titles in italics represent PMIS Database field names and page numbers.
- Underlined titles represent SDAII field names.

Code	Element	SDAII Field Name
01	2 Digits	Occurrence Number • Used to select the item number being deleted, added, or changed on PMIS Page 05. This VDE must be used.
02	Blank	Action (Delete Occurrence) • If Element Code 02 is used, Element Codes 05 through 07 should not be used.
03	"ADD" or "INSERT"	Action (Add or Insert Occurrence) • If Element Code 03 is used, all of Element Codes 05 through 07 must be used.
04	Blank	Action (Change Occurrence) • If Element Code 04 is used, at least one of Element Codes 05 through 07 must be used.
05 *SEP-PAY-DT (5)*	Date 6 Characters (YYMMDD)	Separation Pay Date • Date member received separation pay, readjustment pay, severance pay, or disability severance pay.
06 *SEP-PAY-AMT (5)*	7 Digits (0500000=$5,000)	Separation Pay Amount • Amount of separation pay, readjustment pay, severance pay, or disability severance pay paid to member.

D320 Add/Correct Separation/Severance Pay Information,
Continued

Code/Description	**Element**	**SDAII Field Name**
07 *SEP-PAY-CD (5)*	2 Alpha/Numeric Code (A1,A2 etc.)	Separation Pay Code • The first alpha character shows the type of pay and the second numeric character indicates the service that made the payment.

Code	1st Position (Type of Pay)		Code	2nd Position (Service paying)
A	Separation		1	Army
B	Readjustment		2	Navy
C	Severance		3	Marine Corp
D	Disability Severance		4	Air Force
E	SSB		5	Coast Guard
F	VSI		6	NOAA
			7	Public Health
			8	National Guard

Overview

Introduction   This section lists purpose, variable data elements and element code descriptions for "H" (ACO) transactions as they appear in the Recent Transaction File (RECENTS).

In this section

Action Code	Purpose	See Page
H110	Change of Rating from (__) to (__)	6-E-4
H150	Change of Member's SSN	6-E-5
H170	Change Member's Last Name	6-E-6
H171	Change Member's Name	6-E-7
H200	Insert Member's Name on Rating Promotion Eligibility List	6-E-8
H222	Officer Integration or Promotion	6-E-9
H230	Record Reserve MGIB Eligibility Status	6-E-10
H250	Delete/Change Member from/on Promotion/Eligibility List	6-E-12
H275	Withhold/Cancel Promotion/Advancement	6-E-13
H276	Cancel Promotion/Advancement Date	6-E-14
H300	Appointed Commissioned Officer from Enlisted/Warrant Officer Status	6-E-15
H301	Appointed Warrant Officer from Enlisted Status	6-E-16
H350	Resumption of Permanent Warrant Officer Status Upon Termination of Appointment as a Temporary Commissioned Officer	6-E-17
H414	Adjust Leave Balances as Indicated	6-E-18
H448	Start/Stop Mental Incompetence Status	6-E-20
H450	Security Investigation/Clearance Data	6-E-21
H540	Adjust a Federal Tax Information Segment	6-E-22
H545	Adjust a State Tax Information Segment	6-E-23
H600	Pay Special Program (SEP) Bonus, Incentive Bonus, or New Selective Reenlistment Bonus (SRB), or Authorize Either Accelerated Payment of Next Unpaid SRB Installment or Authorize Lump Sum Payment of All Remaining Unpaid SRB Installments	6-E-24

Continued on next page

Overview, Continued

In this section (continued)

Action Code	Purpose	See Page
H601	Pay New or Additional Selective Reenlistment Bonus (SRB)	6-E-26
H604	Miscellaneous Credit/Debit to Member's Pay Account	6-E-27
H605	Establish/Change Repayment Schedule for Liquidation or Advance Payment or Collection of Indebtedness; or Credit Canceled Check	6-E-29
H606	Establishes Court Order Actions for Collection of Child Support, Creditors Bankruptcy and Tax Levies to be Paid by EFT	6-E-33
H608	Start/Stop Submarine Pay, Personal Money Allowance, Demolition Pay or Parachute Pay	6-E-36
H609	Change Overseas Housing Allowance	6-E-37
H669	Check Pay and Allowances for an Amount as Indicated	6-E-38
H670	Start Open Miscellaneous Credit Segment from New Pay Entitlement	6-E-39
H671	Stop Open Miscellaneous Credit Segment for New Pay Entitlement	6-E-40
H672	Start or Stop Open Miscellaneous Debt Segment for New Entitlement	6-E-41
H748	Record Pay Status Adjustments that Fall Outside the RetroPeriod	6-E-42
H749	Adjust Sea Duty History	6-E-43
H750	Verify/Change PBD. Start/Stop/Adjust Change CMA, Adjust Cumulative Sea Time or Adjust Aviation Date	6-E-44
H751	To Correct Erroneous Information and/or Make Special Adjustments to Member's Segment 75	6-E-52
H752	To Build SOI Segment for Separation to Suspend Further Allotment and Net Pay Disbursements (Segment 75)	6-E-56
H753	Adjust Information on Member's Payment Option Election (Segment 71)	6-E-57

Continued on next page

Overview, Continued

In this section (continued)

Action Code	Purpose	See Page
H800	Correct Erroneous Information and/or Make Special Adjustment in an Allotment Segment 54, 76, 77, 78 or 79	6-E-58
H801	Lump Sum VEAP Payment	6-E-73
H810	Build a Dependent Dental Insurance Segment/Correct Selected Fields of an Existing Dental Insurance Segment	6-E-74
H851	To Convert an Individual Allotment to a Blanket Allotment	6-E-77
H875	Correct Erroneous Information in and/or Make Deletions to the Special Enlistment Program/Selective Reenlistment Bonus (SEP/SRB) Segment 42	6-E-78
H876	Delete Erroneous Statement of Intent (SOI)	6-E-80
H960	Reserve Transition Benefits	6-E-81
H970	Retirement Points Update/Correction	6-E-82
H987	Retirement Points Corrections	6-E-83
H988	Reserve Duty Correction	6-E-85
H997	Processed H222 (Officer Integration or Promotion)	6-E-86
H998	Suspend P+A & Leave Accrual for Member in HADA Status. Suspend Leave Accrual for Member in HAOS Status	6-E-87

H110 Change of Rating From (Old Rating) to (New Rating)

Purpose   Action code H110 is used to record a change of rating.

Expanded   Action code H110 in expanded RECENTS is described below.
RECENTS
Analysis

Code	Element	Description/SDAII Field Name
01	Rating (BM, QM, etc.)	New Rating
02	3 Digits (100, 230, etc.)	Old Rating This number is the prefix (first three digits) of the rate specialty from the Numeric Grade Code table (see chapter 3-D of this manual).

H150 Change of Member's Social Security Number

Purpose   Action code H150 is used to change a social security number.

Expanded   Action code H150 in expanded RECENTS is described below.
RECENTS
Analysis

Code	Element	Description/SDAII Field Name
01	9 Digits (111223333)	New SSN from SSA • Element Code 01 is used only if member was issued a new SSN by the Social Security Administration.
02	9 Digits (111223333)	Changed SSN • Element Code 02 is used only if the member's record was started with the wrong SSN due to an administrative or keypunch error..

H170 Change Member's Last Name

Purpose   Action Code H170 is used to change a member's last name.

Expanded   The H170 in expanded RECENTS is described below.
RECENTS
Analysis

Code	Element	Description/SDAII Field Name
01	Max. 15 Characters	Last Name
03	Max. 15 Characters	First Name
04	Max. 15 Characters	Not Displayed in SDA II (Last Part of First Name)
05	1 Character	First Middle Initial
06	1 Character	Second Middle Initial
07	Max. 4 Characters	Suffix

H171 Change Member's Name

Purpose   Action code H171 is used to change a member's first or middle name.

Expanded RECENTS Analysis   The H171 in expanded RECENTS is described below.

Code	Element	Description/SDAII Field Name
03	Max. 15 Characters	First Name
04	Max. 10 Characters	Not Displayed in SDA II (First Name)
05	1 Character	First Middle Initial
06	1 Character	Second Middle Initial
07	Max. 4 Characters	Suffix

H200 Insert Member On Rating Promotion/Eligibility List

Purpose   Action code H200 is used to add a member to an advancement list.

Expanded   The H200 in expanded RECENTS is described below.
RECENTS
Analysis

Code	Element	Description/SDAII Field Name
01	Max. 5 Alpha/ Numeric (02, BM1 etc.)	<u>Rate Code on Eligibility List</u> • See Chapter 3, Section D of this manual for code listings.
02	Max. 4 Alpha/ Numeric (001S, 004T etc.)	<u>Rank Order Number</u> .
04	Date (YYMMMDD)	<u>Effective Date of List</u>

H222 Officer Integration/Warrant Officer Promotion

Purpose   Action Code H222 is used for:

- Integration of Reserve Commissioned Officer or Warrant Officer to become Regular Commissioned or Warrant Officer (Elements 06 & 07)
- Integration of Temporary Commissioned (ADPL only) Officer to become Regular Commissioned (ADPL only) Officer (Element 08).
- Promotion of Warrant Officer to a new permanent Warrant Rank (not integration) (Element 08).
- Promotion /Advancement of a Temporary Officer's permanent Enlisted or Warrant rank (not integration) (Element 09).

Expanded   The H222 in expanded RECENTS is described below.
RECENTS
Analysis

Code	Element	Description/SDAII Field Name
06	Blank	Integration Of Reserve Commissioned Officer Into Regular Commissioned Officer Status
07	Blank	Integration Of Reserve Warrant Officer Into Regular Warrant Officer Status
08	Blank	Integration Of Temporary Commissioned Officer Into Regular Commissioned Officer Status
09	Blank	Promotion/Advancement Of Temporary (ADPL) Officer To New Permanent Enlisted Or Warrant Rank
20	5 Alpha/ Numeric	New Permanent Rank
21	Date (YYMMMDD)	Date Of Integration/Promotion

H230 Record Reserve MGIB Eligibility Status (MGIB Benefits, Title 10, USC, CH 106)

Purpose	Action code H230 is used to record eligibility for the Reserve MGIB.

Expanded RECENTS Analysis	The H230 in expanded RECENTS is described below.

Code	Element	Description/SDAII Field Name	
01	1 Character	Eligibility Status Code	
	Code	**Meaning**	
	A	Ineligible – Member has completed the course of instruction required for a baccalaureate degree or the equivalent.	
	B	Ineligible – Receiving a ROTC scholarship.	
	C	Ineligible – Has not executed a 6 year obligation after 30 June 1985.	
	D	Ineligible – Has not completed IADT.	
	E	Ineligible – Did not complete the requirements for a high school diploma or the equivalent prior to completing IADT, or for officers, prior to executing a six year Selected Reserve obligation.	
	F	Eligible – Meets all eligibility criteria.	
	G	Eligibility Terminated – Correction of erroneous report of eligibility.	
	H	Eligibility Terminated – Failed to participate satisfactorily prior to completing required service.	
	I	Eligibility Terminated – Expiration of 10 year eligibility period.	
	J	Eligibility Terminated – Has completed a course of instruction required for award of baccalaureate degree or equivalent.	
	K	Eligibility Terminated – In receipt of an ROTC scholarship.	
	L	Eligibility Terminated – has died; or has separated or transferred for the selected reserve prior to completing required service.	
	M	Eligibility Suspended – Being processed for unsatisfactory participation.	
	N	Eligibility Suspended – Has been granted a period of authorized non-availability (missionary) up to three years.	
	P	Eligibility Suspended – Has been granted a period of authorized non-availability (missionary) not to exceed one year.	
	Q	Eligibility Reinstated – Has reaffiliated with selected reserve.	
	R	Eligible – Disability not the result of individual's conduct.	
	W	Not applicable.	
02	Date (YYMMMDD)	RMGIB Start Date • This is the eligibility start date for MGIB Title 10, USC, CH 106 benefits.	
03	Date (YYMMMDD)	RMGIB Stop Date • This date indicates the: suspension date, termination date, or expected termination date of Title 10, USC, CH 106 Reserve MGIB eligibility.

H600 Pay Special Program (SEP) Bonus, Incentive Bonus, Critical Skills Training Bounus or New Selective Reenlistment Bonus (SRB), or Authorize Either Accelerated Payment of Next Unpaid SRB Installment or Authorize Lump Sum Payment of All Remaining Unpaid SRB Installments

Purpose   Action code H600 is used to record enlistment bonus information.

Expanded RECENTS Analysis   The H600 in expanded RECENTS is described below.

<u>Code</u>	<u>Element</u>	<u>Description/SDAII Field Name</u>
01	Date (YYMMMDD)	<u>Stop Date of Bonus</u> • This date is the expiration date of the reenlistment/extension or enlistment period for which the bonus is payable.
02	Date (YYMMMDD)	<u>Active Duty Base Date</u>
03	4 or 5 Digits (1234 or 12345 etc.)	Object Code <u>(See Chpater 2-D for Object Code Listing)</u>

04	Date (YYMMDD) (6 numeric date)	<u>Date of Reenlistment/Extension or Original Enlistment Date Into SELRES</u>
		• This date will represent one of three dates and must be used when VDE 03 contains 12655, 12656, 12657, 12658, 1265A, 1256B, 1265C, 1265D, 1265F, or 1265G.
		  1. Date of Reenlistment or Extension contract for a member who is currently in the SELRES.
		  2. For members who have prior service in any branch of the armed forces and are enlisting in the Coast Guard SELRES for the first time; this date will be the effective date of their enlistment contract.
		  3. For members who have no prior service and are enlisting in the Coast Guard SELRES for the first time; this date will be the effective date of their enlistment contract.

05	Date (YYMMDD) (6 numeric date)	<u>Expected Loss Date Prior to Reenlistment/Extension or Prior Loss Date of Prior Service Members</u>
		• This date will represent one of two dates and must be used when VDE 03 contains 12655, 12656, 12657, 12658, 1265A, 1256B, 1265C, or 1265D.
		  1. For members who are currently in the SELRES and are reenlisting or extending, this date will reflect the member's original loss date prior to this reenlistment or extension.
		  2. For members who have prior service in any branch of the armed forces and are enlisting in the CG SELRES for the first time; this date will reflect the loss date prior to his/her enlistment into the CG SELRES.

H600 Pay Special Program (SEP) Bonus, Incentive Bonus, Critical Skills Training Bounus or New Selective Reenlistment Bonus (SRB), or Authorize Either Accelerated Payment of Next Unpaid SRB Installment or Authorize Lump Sum Payment of All Remaining Unpaid, Continued

Code	Element	Description/SDAII Field Name
06	Bonus Rate (FS, RD, etc.)	Rate For Which This Bonus is Being Given
07	Monthly Installment Amount (00147.06 = $147.06)	Monthly Installment Amount Calculated by Update When Bonus is Over $7000.00
15	E = Eligible I = Ineligible	Career Status Bonus Eligibility Code
16	A = Accepted D = Declined	Career Status Bonus Election Code
20	7 Digits (02500.00=$2500.00)	Dollar Amount of 1st Installment. • This figure is normally 50% of the total of a new SRB or SELRES payment, or 100% of A SEP, Incentive Bonus, or SELRES Bonus.
21	7 Digits (02500.00=$2500.00)	Total Amount of New Bonus
22	1 or 2 Digits (1 or 01, 12 etc.)	Total Number of Installments of New Bonus • Enlistment bonuses are normally one installment/lump sum (01). SRB and SELRES bonuses are usually multiple installments (02, 03, 04, etc.). • This element is the 1st installment in element code 20, if not lump sum, then number of installment equals the number of years member obligated service for or "2" I the case of a SELRES bonus.
23	"1"	Number of Installments Authorized Now
31	7 Digits (00225.00=$225.00)	Accelerated Payment of Next Unpaid SRB Installment or Lump Sum Payment of All Remaining SRB Installments.
32	Digits (2,34,234, etc.)	SRB Installment Number(s) Authorized at This Time
33	Date (YYMMMDD)	Start Date of SRB Segment Being Affected By Accelerated or Lump Sum Payment.
98	8 Digits (049, 030 etc.)	Total of Elements in Element Codes 07, 20, 21 & 31

H601 Pay New or Additional Selective Reenlistment Bonus (SRB)

Purpose	Action code H601 is used to pay new or additional SRBs.

Expanded RECENTS Analysis	The H601 in expanded RECENTS is described below.

Code	Element	Description/SDAII Field Name
01	Date (YYMMMDD)	<u>Stop Date of SRB</u> • This date is the expiration date of the reenlistment or extension period for which the SRB bonus is payable.
02	Date (YYMMMDD)	<u>Expected Loss Date Prior To Reenlistment/Extension</u>
03	Date (YYMMDD)	<u>Start Date of SRB</u> • This date is the first date of the reenlistment or extension for which the SRB bonus is payable.
05	14 characters maximum	<u>Bonus Code/Rate/Monthly Installment Amount</u> • **Positions 1-5** contain the object code for the bonus. If the object code is only 4 characters then the fifth position is a blank. • **Positions 6-7** contain the Rate for which the bonus is being paid (only used with object codes 12653 and 12654). • **Positions 8-14** contain 7 digits reflecting the monthly installment amount (only used with object codes 12653 and 12654).
20	7 Digits (02500.00=$2500.00)	<u>Amount of First Installment</u> • This figure is normally 50% of the total of a new or additional SRB.
21	7 Digits (02500.00=$2500.00)	<u>Total Amount of New or Additional SRB Bonus</u>
22	1 Digit (1, 3 etc.)	<u>Total No. of Installments</u> • This is the number of installments payable for this SRB including the first installment. The number of installments usually equals the number of years member reenlisted/extended. An installment of "1" indicates lump sum payment.
23	1 Digit (1, 2 etc.)	Number of Installments Authorized Now <u>Not Displayed in SDA II</u>
98	8 Digit (02500.00=$2500.00)	Total of Elements in Element Codes 20 and 21 <u>Not Displayed in SDA II</u>

H604 Miscellaneous Credit/Debit To Member's Pay Account

Purpose   Action code H604 is used to credit or debit a member's pay account.

Expanded   The H604 in expanded RECENTS is described below.
RECENTS
Analysis

Code	Element	Description/SDAII Field Name
01	7 Characters (129511M, 1140A20 etc.)	Miscellaneous **Credit**/Object Codes/Tax Deduction/Fiscal Year Object Codes (Position 1-5) may be found in Chapter 2-D Tax Deduction (Position 6)

		Code	Meaning
		0 (Zero)	Nontaxable (used with object codes 1290, 1295, 01001, and 01051)
		1	FITW & SITW (used with object code 11305)
		2	FICA
		3	FITW, SITW, and FICA
		4	27.5% on time deduction for FITW and when applicable SITW (used with object codes 11651, 12901, and 12951)
		5	27.5% One time deduction for FITW and SITW applies to adjustments in basic pay only.

Code	Element	Description/SDAII Field Name
		Fiscal Year (Position 7) Use the last digit of the fiscal year for the current and for the two prior fiscal years. For example, if the H604 is prepared in FY-00 use "0" for 2000 and "M" for 1997.
02	7 Characters (129511M, 1140A20 etc.)	Miscellaneous **Debit**/Object Codes/Tax Deduction/Fiscal Year See VDE 01 for descriptions.
11	7 Digit Amount (01200.00 = $1200.00)	Transaction Amount Element Codes 11, 98 and 99 must be used.
14	Date/Date (YYMMMDDYYMMDD)	Start Period of Adjustment/ Stop Period of Adjustment
16	6 Digits (0002.50=$2.50)	Period Of Adjustment Rate

Code	Element	Description/SDA II Field Name
45	Date (YYMMM)	<u>Rotation Date</u> • The date from the Tour Completion Field on the Personnel Data File
50	15 Position/13 Digits	<u>Overpayment Option Code, Overpayment Amount, and Fiscal Year</u> • Element value; Digit position: 1-5 are the 4 or 5 digit object code (left justified) 6 will be blank 7-13 contain 7 digit dollar amount (e.g., $1000.00=01000.00) (Must equal value in EC-20) 14 will be blank 15 is 1 digit Example: 1150 01000.00 Must be used with Element Code 15. May be used more than once on a single H605.
51	(Blank)	<u>Suspend Advance Pay and Allowances</u> Used with Element Codes 20, 23, 24, and 98.
52	(Blank)	<u>Restart of Advance Pay and Allowances</u> Used with Element Codes 20, 23, 24, and 98.
53	(Blank)	<u>Suspend Advance Pay</u> Used with Element Codes 20, 23, 24, and 98.
54	(Blank)	<u>Restart Advance Pay</u> Used with Element Codes 20, 23, 24, and 98.
55	(Blank)	<u>Suspend Advance BAH/OHA (previously BAQ/VHA OHA)</u> Used with Element Codes 20, 23, 24, and 98.
56	(Blank)	<u>Restart Advance BAH/OHA (previously BAQ/VHA OHA)</u> Used with Element Codes 20, 23, 24, and 98.
57	(15 alpha/numeric characters)	<u>ACCOUNT NUMBER</u>
60	9 digits (2/7) 2 digits for the percent and 7 digits for the amount (660050000)	<u>Reserve Debts & Garnishments</u> Percent to be Withheld (2 digits) /Monthly Maximum to be withheld (7 digits).
61	7 Digit	No longer used
98	8 Digit (002500.00=$2500.00)	<u>Total of Elements in Element Codes 19, 20, 21, 24, 26, 34, 35, 40 and 41</u>

H606 Establishes Court Order Actions for Collection of Child Support, Creditors, Bankruptcy and Tax Levies to be Paid by EFT

Purpose   Action code H606 collects debts per a court order.

Expanded RECENTS Analysis   The H606 in expanded RECENTS is described below.

Code	Element	Description/SDAII Field Name
01	One alpha character = "G"	<u>Open Ended Deduction for Child Support</u> Child/spousal support deduction • Element codes 08, 09, 10, 11, 12, 14, 15 and 99 must be used
02	One alpha character = "J"	<u>Tax Levy</u> IRS tax levy deduction • Element codes 08, 09, 10, 11, 12, 14, 15 and 99 must be used
03	One alpha character = "K"	<u>Involuntary Allotment</u> • Element codes 08, 09, 10, 11, 12, 14, 15 and 99 must be used
04	One alpha character = "M"	<u>Mandatory Support Allotment</u>
05	One alpha character = "P"	<u>Bankruptcy</u> Bankruptcy wage deduction • Element codes 08, 09, 10, 11, 12, 14, 15 and 99 must be used
06	One alpha character = "S" or "T"	<u>Debts to Other Services</u> Debts to other services deduction <u>"T" = Government Credit Card Debt</u> <u>Delinquent Credit Card Payments</u> • Element codes 08, 09, 10, 11, 12, 14, 15 and 99 must be used

Expanded RECENTS Analysis (continued)

Code	Element	Description/SDA II Field
14	Up to 6 alpha/numeric characters. First character is for account type "C" or "S". Next three characters are for payee codes equal to "CK_", "DDP", "777", "999" or "CDPP". Last two characters are abbreviated state codes.	<u>Account Type/Payee Code</u> Account type/payee code/state code
15	15 Digit (Maximum)	<u>Case Identifier. First Fifteen Digits</u>
16	15 Digit (Maximum)	<u>Case Identifier. Second Fifteen Digits</u> • This Element Code may be used as additional space as needed for the case Identifier Number started in Element Code 15.
17	Date (YYMMMDD)	<u>Stop Effective Date</u> • Must be accompanied by one VDE between 01 and 07(whichever is applicable), and • VDE 08, with the first 7 digits being the amount of the garnishment and the last 7 being '0s', and • VDE 10 with the effective start date of the segment
60	9 digits (2/7) 2 digits for the percent and 7 digits for the amount (660050000)	<u>Reserve Debts & Garnishments</u> Percent to be Withheld (2 digits) /Monthly Maximum to be withheld (7 digits).
61	7 Digit	No longer used

H608 Start/Stop Submarine Pay, Personal Money Allowance, Demolition Pay or Parachute Pay

Purpose	Action code H608 is used to start or stop personal Money Allowance (Codes 21 & 22). Functionality exists in this transaction to pay the following, if any Coast Guard/NOAA personnel become entitled:

- Submarine Pay
- Demolition Pay
- Parachute Pay

Expanded RECENTS Analysis	Action code H608 in expanded RECENTS is described below.

Code	Element	Description/SDAII Field Name
01*	(Blank)	Start Submarine Pay
02*	(Blank)	Start Demolition Pay
11*	(Blank)	Stop Submarine Pay/Not Displayed in SDA II
12*	(Blank)	Stop Demolition Pay/Not Displayed in SDA II
21	(Blank)	Start Personal Money Allowance
22	(Blank)	Stop Personal Money Allowance
23*	(Blank)	Start Parachute Pay
24*	(Blank)	Stop Parachute Pay/Not Displayed in SDA II

(*) Not utilized. Codes 21 and 22 are the only valid codes at this time.

H609 Change Overseas Housing Allowance

Purpose   Action code H609 is used to change a member's OHA.

Expanded   Action code H609 in expanded RECENTS is described below.
RECENTS
Analysis

Code	Element	Description/SDAII Field Name
01	(Blank)	Change Overseas Housing Allowance/Not Displayed in SDA II
02	6 Digits (0550.00=$550.00)	JTR Rental Ceiling (Before Reduction of Proration) • Amount converted to U.S. Dollars
03	5 Digits (050.00=$50.00)	JTR Monthly Utility Cost (Before Reduction or Proration) • Amount converted to U.S. Dollars
04	5 Digits (025.00=$25.00)	JTR Monthly Initial/Terminal Occupancy Allowance (ITOA) • If member's OHA/INT-HOLA-INIT-TERM-OCC-EXP field in Segment 46 contains 999.99 or asterisks (*), this element code is not used..
05	6 Digits (0550.00=$550.00)	Rent Paid In Foreign Currency

H669 Check Pay and Allowances for an Amount as Indicated Below

Purpose	Action code H669 is used to check a member's pay and allowances.

Expanded RECENTS Analysis	Action code H669 in expanded RECENTS is described below.

Code	Element	Description/SDAII Field Name
55	6 Digits (0500.00=$500.00)	Recoup Regular Bonus
56	7 Digits (05000.00=$5000.00)	Recoup VRB/SEP/SRB
57	Date (YYMMMDD)	Start Date of SEP/SRB Segment • This Element Code appears only when Element Code 56 is used.
98	8 Digits (001250.00)= $1250.00)	Total of Elements in Element codes 55 and 56/Not Displayed in SDA II

H670 Start Open Miscellaneous Credit Segment for New Pay Entitlement

Purpose   Action code H670 is used to start an open miscellaneous credit segment for new pay entitlement.

Expanded   Action code H670 in expanded RECENTS is described below.
RECENTS
Analysis

Code	Element	Description/SDAII Field Name
01	5 Alpha/Numeric (12345 etc.)	Object Code
02	2 Digits (02 12 etc.)	<u>Segment Type</u>
03	1 Digit	<u>Tax Code</u> • <u>Miscellaneous Credit and Tax Deduction Codes:</u> <u>Code</u> <u>Meaning</u> 0 Nontaxable (Use with Object Codes 1290, 1295, 01001, and 01051) 1 FITW & SITW (Use with Object Code 11305) 2 FICA 3 FITW, SITW, FICA 4 Current Lump Sum one time deduction in FITW, when applicable, SITW (Use with object codes 11651, 12901, 12951) 5 Current Lump Sum one time deduction for SITW, FITW, and FICA (Applies to Adjustments in Basic Pay only.
04	6 Digits (0025.00=$25.00)	<u>Amount</u>
98	8 Digits (000550.00=$550.00)	Total of Elements in Element Code 04

H671 Start or Stop Open Miscellaneous Debt Segment for New Pay Entitlement

Purpose   Action code H671 is used to stop a pay entitlement started with action code H670.

Expanded   Action code H671 in expanded RECENTS is described below.
RECENTS
Analysis

Code	Element	Description/SDAII Field Name
01	5 Alpha/Numeric (12345 etc.)	Object Code
02	2 Digits (02 12 etc.)	Segment Type

H672 Start or Stop Open Miscellaneous Debt Segment for New Entitlement

---

Purpose   Action code H672 is used to start or stop a miscellaneous debt for a segment opened with action code H670.

Expanded   Action code H672 in expanded RECENTS is described below.
RECENTS
Analysis

Code	Element	Description/SDAII Field Name
01	Blank	Start Miscellaneous Debt • Element Codes 04, 05, 06, and 98 must be used.
02	Blank	Stop Miscellaneous Debt • Element Codes 04 and 05 must be used.
04	5 Alpha/Numeric (12345 etc.)	Object Code
05	2 Digits (01, 22 etc.)	Segment Type
06	6 Digits (0080.00=$80.00)	Amount
98	8 Digits (000550.00 = $550.00)	Total Of Elements In Element Code 06

H748   Record Pay Status Adjustments That Fall Outside The Retro Period

---

Purpose   Action code H748 records pay status adjustments falling outside the 90 day retroactive processing period.

Expanded RECENTS Analysis   Action code H748 in expanded RECENTS is described below.

Code	Element	Description/SDAII Field Name
01	2 Characters	<u>Present Pay Status</u> • This is the pay status code on the system that needs to be replaced. • Pay status codes are listed in <u>Chapter 2-E</u> of this manual.
02	2 Characters	<u>New Pay Status</u> • This is the pay status code that should replace the code in Element Code 01. • Pay status codes are listed in <u>Chapter 2-E</u> of this manual.
11	Date (YYMMMDD)	From Date/<u>Date of First Day</u> • This is the first day of the pay status code change.
12	Date (YYMMMDD)	To Date/<u>Date of Last Day</u> • This is the last day of the pay status code change.
13	4 Digits (0023 etc.)	Number of Days Adjusted/<u>Not Displayed in SDA II</u> • This is the number of days, calculated on a day-from-day basis inclusive of the dates on Element Code 11 and 12.

H749 Adjust Sea Duty History

Purpose   Action code H749 adjusts a member's sea duty history.

Expanded   Action code H749 in expanded RECENTS is described below.
RECENTS
Analysis

Code	Element	Description/SDAII Field Name
01	(Blank)	Subtract Sea Time From Sea Duty History/<u>Not Displayed in SDA II</u>
02	7 Digits (0712345)	<u>District of Sea Unit</u>
03	Date (YYMMMDD)	<u>Start Date of Period</u>
04	Date (YYMMMDD)	<u>End Date of Period</u>
Element codes 01 through 04 combined subtract sea time from any period in which sea time was credited in a <u>segment 07</u> *or* <u>segment 69</u> *containing that District/OPFAC.*		
11	(Blank) (0023 etc.)	Add Sea Time To Sea Duty History/<u>Not Displayed in SDA II</u>
12	7 Digits (0712345 etc.)	DISTRICT/OPFAC/<u>Not Displayed in SDA II</u>

H987 Reserve Duty Correction Document

Purpose   Action code H987 is used to correct reserve duty.

Discussion   An H987 can be submitted to correct segment 01s and reserve points information for periods of duty after 31 December 1991. Edits for VDC 02 allow the VDE start date to be prior to 92JAN01 for Reserve Active Duty periods, but the stop date must be 92JAN01 or later.

Note: When VDC 02 is being used to correct Inactive Duty For Training or Appropriate Duty, the VDE start/stop dates must be the same.

Depending upon VDCs used, the H987 will build or swap a segment 01 in the member's account. The member's Retirement Points Information in segment 00, page 3 and segment 81s will not be fully updated until an end -of-month compute cycle has run.

The member must have segment 81(s) in his/her account, which corresponds to the duty period input on the H987. Also, the corresponding segment 81(s) must contain a Reserve Service Code.

Separate H987s are needed for each day of Inactive Duty for Training or Appropriate Duty to be corrected. Separate H987s are also needed for each continuous period of Reserve Active Duty to be corrected.

**Expanded
RECENTS
Analysis**   Action code H987 in expanded RECENTS is described below.

P102 Change Cost Center Code/Billet Control Number

Purpose   Action code P102 is used to change a member's cost center code and or billet control number.

Source   A P102 is created in RECENTS when the "Change Cost Center" transaction processes into PMIS/JUMPS.

Expanded   The P102 in expanded RECENTS is described below.
RECENTS
analysis
                 • This table lists the variable data elements and descriptions/SDA II fields for action code P102.

Code	Element	Description/SDAII Field Name
01	5 digit cost center code	Cost Center Code
02	7 character alpha billet control number	Not Displayed in SDA II

P105 Establish Aviation Service Information and Start ACIP

Purpose   Action code P105 establishes aviation service information and starts ACIP.

Source   Action code P105 is created in RECENTS when the "Establish Officer as Aviator" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis

The P105 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDA II Field Name
01	Flight Status (DIFOPS, DIFPRO DIFDEN)	Current Flight Status/Start Aviation Career Incentive Pay
02	Date (YYMMMDD)	Aviation Service Entry Date
03	Date (YYMMMDD)	Aviation Service Date
04	Date (YYMMMDD)	Officer Service Date
05	Years & Months (YYMM)	Total OPFLY Time
06	Years & Months (YYMM)	Gate I OPFLY Time
07	Years & Months (YYMM)	Gate II OPFLY Time

P112 Adjust or Verify Pay Base Date, Adjust Active Duty Base Date, Adjust Reserve Anniversary Date, Adjust Cumulative Sea Time, Record Prior Military Service History, Record Prior Sea Duty History

Purpose Action code P112 is used to adjust or verify pay and active duty base dates, adjust reserve anniversary date, adjust sea time and record prior service and prior sea duty.

Source Action code P112 is created in RECENTS when the "Adjust or Verify Pay Base Date/Active Duty Base Date, Adjust Cumulative Sea Time, Adjust Record of Prior Military Service, Record History of Prior Sea Duty" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis The P112 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name
01	Date (YYMMMDD)	Verified Pay Base Date/Not Displayed in SDA II.
02	Beginning & Ending Date (YYMMMDD YYMMMDD or YY MMMDD9999999)	Reserve Anniversary Date/Not Displayed in SDA II.
04	Date (YYMMMDD)	Verified Active Duty Base Date/Not Displayed.
44	Years, Months and Days (YYMMDD)	Years, Months, and Days Subtracted From Cumulative Sea Duty
45	Years, Months and Days (YYMMDD)	Years, Months, and Days Added to Cumulative Sea Duty
46	Years, Months and Days (YYMMDD)	Years, Months, and Days Cumulative Sea Duty as of the Last EOM Compute Cycle
51	Date (YYMMMDD)	Prior Service Start Date
52	Date (YYMMMDD)	Prior Service Ending Date

P112 Adjust or Verify Pay Base Date, Adjust Active Duty Base Date, Adjust Reserve Anniversary Date, Adjust Cumulative Sea Time, Record Prior Military Service History, Record Prior Sea Duty History, Continued

Expanded RECENTS Analysis (cont'd)

P123 Deductible Time (No longer used)

Purpose   Action code P123 was used to record deductible time.

Source   A P123 was created in RECENTS when the "Record Deductible Time"
transaction processes into PMIS/JUMPS.

Expanded   The P123 in expanded RECENTS is described below.
RECENTS
Analysis   This table lists the variable data elements and descriptions/SDA II fields used
with this action code.

Code	Element	Description/SDAII Field Name
07	Date (YYMMMDD)	Date Deductible Time Began
08	Date (YYMMMDD)	Date Reported For Duty
09	YYMMDD	Yrs, Mos, Days or Deductible Time

P154 Acceptance of Agreement To Voluntarily Extend Enlistment

Purpose   Action code P154 is used to record a member's acceptance of an agreement to voluntarily extend his or her enlistment.

Source   A P154 is created in RECENTS when the "Acceptance of Agreement to Extend/Reextend Enlistment" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis   The P154 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name
11	4 digits for Months/Days (e.g. 0900 = 9 months, 0 days	Months and or days extended/<u>Months Extended</u>
12	Date (YYMMMDD)	<u>New Expiration of Enlistment Date</u>.
14	1 Character Code	<u>Extension Reason Code</u> Applicable Codes are:

Code	Reason
A	Request of Individual
B	School/Training requirements
C	Participation in tuition assistance program
D	Duty in/out CONUS
E	Obligated service for advancement
F	Obligated service for retirement
G	Completion of cruise aboard vessel
H	Authorized by CGPC (epm)
Q	Obligated service for SEP bonus*

P159 Acceptance of Agreement To Voluntarily Re-Extend Enlistment

Purpose   Action code P159 is used to record a member's acceptance of an agreement to voluntarily re-extend his or her enlistment.

Source   A P159 is created in RECENTS when the "Acceptance of Agreement to Extend/Re-extend Enlistment" transaction processes into PMIS/JUMPS.

Expanded   The P159 in expanded RECENTS is described below.
RECENTS
Analysis   • This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name
14	1 Character Code	Re-Extension Reason Code Applicable Codes are: | Code	Reason | |---|---| | A | Request of Individual | | B | School/Training requirements | | C | Participation in tuition assistance program | | D | Duty in/out CONUS | | E | Obligated service for advancement | | F | Obligated service for retirement | | G | Completion of cruise aboard vessel | | H | Authorized by CGPC (epm) | | Q | Obligated service for SEP bonus* |
24	4 digits for Months/Days (e.g. 0900 = 9 months, 0 days	Months and or days re-extended/<u>Months Re-Extended</u>
25	Date (YYMMMDD)	<u>New Expiration of Enlistment Date</u>
26	4 digits for Months/Days (e.g. 1210 = 12 months, 10 days	This Enlistment Extended Total of (__) Months and or (__) Days/<u>This Enlistment Extended Total of Months</u>

P176 Retained Beyond Normal Expiration of Enlistment (State Reason)

Purpose Action code P176 is used to record the retention of an enlisted member beyond the expiration of his or her enlistment as authorized by Article 12-B-11, Coast Guard Personnel Manual, COMDTINST M1000.6 (series).

SDAII Source A P176 is created in RECENTS when the "Retained Beyond Normal Expiration of Enlistment" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis The P176 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name	
12	Date (YYMMMDD)	Estimated Expiration of Retention	
14	1 Character Code	Retention Reason Code	
		Code	**Description**
		J	War or other national emergency (12-B-11c)
		K	Crewmember on cutter at sea (12-B-11d)
		L	Assigned to station OUTCONUS (12-B-11e)
		M	Medical disability (12-B-11f)
		N	Trial or punishment by court martial (12-B-11h) (keeps Pay running or restarts Pay)
		O	Public interest (12-B-11I)
		P	Awaiting action by reviewing authority (12-B-11j) (Stops Pay and Allowances)
		Q	High Year Tenure (Not currently utilized)
23		Increase Pay by 25%/Not Displayed in SDA II	

P187 Cancellation of Voluntary Extension/Re-Extension of Enlistment Previously Reported on Personnel Action P154/P159

Purpose Action code P187 is used to cancel a voluntary extension/re-extension of enlistment previously reported by action code P154 or P159.

SDAII Source A P187 is created in RECENTS when the "Cancellation of Voluntary Extension/Reextension" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis The P187 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name
12	Old expiration date prior to extension/ reextension (YYMMMDD)	Return Expiration of Enlistment to

P191 Amend Expected Active Duty Termination Date

Purpose Action code P191 is used to record the extension of a reservist's active duty period.

- Action code P191 is used when the initial active duty period was 140 days or greater, and there is no break in service.
- Action code P191 does not extend an enlisted member's expiration of enlistment or change an officer's expected loss date.
- Normally a Statement of Intent transaction will precede the submission of action code P191.

Source A P191 is created in RECENTS when the "Amend Expected Active Duty Termination Date" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis The P191 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name
01	Date (YYMMMDD)	Current Expected Active Duty Termination Date
02	Date (YYMMMDD)	New Expected Active Duty Termination Date
77	4 Digits, total number of days (0210=210 days)	Amended Term of ACDU Authorized

P192 Report Additional Active Duty Authorized (No Break)

Purpose   Action code P192 is used to record authorization for additional active duty, with no break in service, for a reserve member or recalled retiree.

- Action code P192 is used when the initial active duty period was 140 days or greater, and there is no break in service.
- Action code P192 does not extend an enlisted member's expiration of enlistment or change an officer's expected loss date.
- Normally a Statement of Intent transaction will precede the submission of action code P192.

Submission   Corrections and deletions may be made to this transaction.

Source   A P192 is created in RECENTS when the "Report Additional Active Duty" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis   The P192 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name	
75	Date (YYMMMDD)	New Expected Active Duty Termination Date	
76	1 Character CODE	Reserve Duty Type	
		Code	**Reserve Duty Type**
		B	Extended active duty (EAD)
		D	Active Duty Special Work in support of the Reserve Component (ADSW-RC) for 140 days or more
		G	Active Duty Special Work in support of the Active Component (ADSW-AC) for 140 days or more
		H	Initial active duty for training (IADT)
		N	Involuntary Active Duty, Title 10
		Q	Active Duty Health Care (ADHC) for 140 days or more
		O	Officer candidate school (OCS)
77	4 digits for the total number of days active duty member ordered to (e. g. 0210 = 210 days)	Term of ACDU Authorized

P192 Report Additional Active Duty Authorized (No Break),
Continued

Expanded RECENTS Analysis (continued)

Code	Element	Description/SDA II Field
80	3 letter separation program designator (from COMDTINST M1900.4)	Separation Program Designator
90		Carry All Unused Leave Forward
91	3 Digits (12.5 = twelve & ½ days)	Total Number of Days Leave Member is Selling/Not Displayed in SDA II.

P193 Retirement With Immediate Recall to Active Duty

Purpose   Action code P193 records the immediate recall to active duty, with no break
in service, of a retired member.

Source   A P193 is created in RECENTS when the "Retiree Recalled to Active Duty"
transaction processes into PMIS/JUMPS.

Expanded   The P193 in expanded RECENTS is described below.
RECENTS
Analysis
- This table lists the variable data elements and descriptions/SDA II fields
used with this action code.

Code	Element	Description/SDAII Field Name
01	Date (YYMMMDD)	New Expected Active Duty Termination Date
50	Retired Code	Retired Under • See Chapter 2-C for applicable Retirement Codes
51	Date (YYMMMDD)	Effective Date of Retirement
52	3 letter separation program designator (from COMDTINST M1900.4)	Separation Program Designator
77	4 digit, total number or days active duty member ordered to (e.g. 0210 = 210 days)	Term of Active Duty Authorized

P198 Begin Service Under Voluntary Extension of Enlistment

Purpose   Action code P198 begins a member's service under a voluntary extension of enlistment.

SDAII Source   A P198 is created in RECENTS when the "Begin Service Under Voluntary Extension of Enlistment" transaction processes into JUMPS.

Expanded   The P198 in expanded RECENTS is described below.
RECENTS
Analysis
· This table lists the variable data elements and descriptions used with this action code.

Code	Element	Description/SDAII Field Name
01	Date (YYMMMDD)	<u>New Expiration of Enlistment Date</u> · If additional re-extensions have been accepted the new expiration of enlistment date will be the date all re-extensions expire. Also, deducible time is added to expiration of enlistment date in determining the new expiration of enlistment date.
05	3 Digits (01.0 = 1 day)	Number of Days Excess Leave (Check Pay and Allowances)
07	3 Digits (01.0 = 1 day)	Days of Lump Sum SLB Leave Elected to Sell
08	4 Digits (001.0 = 1 day)	Days of Lump Sum Non-SLB Leave Elected to Sell

P199 Begin Service Under Voluntary Re-Extension of Enlistment

Purpose   Action code P199 begins a member's service under a voluntary re-extension of enlistment.

Source   A P199 is created in RECENTS when the "Begin Service Under Voluntary Re-extension of Enlistment" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis   The P199 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name
01	Date (YYMMMDD)	<u>New Expiration of Enlistment Date</u> • If additional re-extensions have been accepted the new expiration of enlistment date will be the date all re-extension expire. Also, deducible time is added to expiration of enlistment date in determining the new expiration of enlistment date.

P203 Discharged

Purpose   Action code P203 is used to record the discharge of enlisted personnel in the following cases:

- Discharge from the USCG for immediate reenlistment in the USCGR.
- Discharge for the USCGR for immediate enlistment in the USCG.
- Discharge form enlisted status for immediate appointment as an officer/warrant officer in the same component.
- Final discharge from the USCG or USCGR with no military obligation remaining.

Source   Action code P203 converts to P993 in RECENTS when the "Discharge Enlisted Personnel" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis   The P993 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name
01		Honorable Discharge.
02		General Discharge.
03		Uncharacterized Discharge
04		Bad Conduct Discharge.
05		Dishonorable Discharge.
06		Discharge Under Other Than Honorable Conditions.
07	4 Digits for Years, Months active service (0400 = 4 years)	Total Active Service for Disability discharges/Not Displayed in SDA II
08	4 Digits for Years, Months active service (0400 = 4 years)	Entitled to Full Separation Pay (Non-Disability)/Not Displayed in SDA II

17	ACDUD (YYMMMDD)	Not Displayed

P214 Appointment Terminated

Purpose   Action code P214 is used to record the termination of an officer's appointment.

Direct Access Source   A P214 is created when a Separation, Type "A" (Discharge) transaction processes into JUMPS for an officer and the reason for separation is Cause, Disability or Non-Selection.

Expanded RECENTS Analysis   Action code P214 converts to P995 in RECENTS. The P995 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions.

Code	Element	Description
01	3 letter separation code (from COMDINST M1900.4)	Honorable Discharge
02		General Discharge
04		Acceptance of Resignation
05	Code from CGPC (opm)	Dismissed
06	3 letter separation program designator (from COMDINST M1900.4)	Discharge Under Other Than Honorable Conditions
07	4 Digits for years and months active	Due to Disability
08	service	Due to Non-Selection
09	(0500 = 5 years)	Due to Cause
10	3 Digits	Total Days LSL Entitled
11	(25.0 = 25 days Lv)	Days Lump Sum SLB Leave Entitled
12		Days Lump Sum Non-SLB Leave Entitled
13		Days Excess Leave Check Pay
14		Not Entitled to Lump Sum Leave
*51		Severance Pay
52	Highest Grade Satisfactorily Held (as indicated on orders	Disability Severance Pay
53		Not Entitled to Severance or Separation Pay
67	1 Digit Performance Indicator	Separation Pay
68	(0 = Substandard/1 = Above Standard)	Reserve Lump Sum Readjustment Pay

* P.L. 107-295 puts Coast Guard in line with DOD component when terminating an Officer commission. Effective 25 Nov 2006, the entitlement to Severance Pay for Regular component Officers was replaced with the Separation Pay entitlement.

P216 Resumption of Enlisted Status Upon Termination of Appointment as a Temporary Officer

Purpose   Action code P216 is used for the resumption of enlisted status upon termination of appointment as a temporary officer.

Source   A P216 is no longer created in RECENTS

Expanded RECENTS Analysis

The P216 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name
10	Date (YYMMMDD)	Expiration of Enlistment/Not Displayed in SDA II
12	Grade/Rate (YN1, BMC etc.)	Reverted to (Spell Out)/Not Displayed

P230 Record Reserve MGIB Eligibility Status

Purpose   Action code P230 is used to record vital Reserve Montgomery GI Bill
                   (RMGIB) eligibility data in the PMIS file.

Source   A P230 is created in RECENTS when the "RMGIB Eligibility Data"
                   transaction processes into PMIS/JUMPS.

**Expanded   The P230 in expanded RECENTS is described below.
RECENTS
Analysis**   • This table lists the variable data elements and descriptions/SDA II fields
                     used with this action code.

Code	Element	Description/SDAII Field Name
01	1 Character Alpha Code	RMGIB Eligibility Status Code

RMGIB Eligibility Status Codes	
A	Ineligible: Member has completed the course of instruction required for the award of a BA or equivalent.
B	Ineligible: Receiving an ROTC scholarship.
C	Ineligible: Has not executed a 6-year obligation after 30 June 1985.
D	Ineligible: Has not completed IADT.
E	Ineligible: Did not complete requirements for a high school diploma or the equivalent prior to completing IADT; or for officers prior to executing a 6 year selected reserve obligation.
F	Eligible: Meets all eligibility criteria. Also applies to and includes personnel that want to pursue a second degree in another subject or non-degree program and have already been awarded a BA and have entered into a new six year contract on or after 1 October 1990.
G	Eligibility Terminated: Correction of erroneous report of eligibility.
H	Eligibility Terminated: Has failed to participate satisfactory prior to completing required service.
I	Eligibility Terminated: Expiration of 10 years eligibility period.
J	Eligibility Terminated: Has completed a course of instruction required for the award of a BA degree or the equivalent.
K	Eligibility Terminated: In receipt of an ROCT scholarship.
L	Eligibility Terminated: Has died, or has separated or transferred for the selected reserve prior to completing required service.
M	Eligibility Suspended: Being processed for unsatisfactory participation.
N	Eligibility Suspended: Has been granted a period of authorized non-availability (missionary) up to 3 years.
P	Eligibility Suspended: Has been granted a period of authorized non-availability (all other) not to exceed 3 years.
Q	Eligibility Reinstated: Has reaffiliated with the Selected Reserve.
R	Eligible: Disability not the result of individual's willful misconduct.
W	Not Applicable

36	Pay Grade (E2, O4, etc.)	Spouse's Zip Code/
37	Dependent Status (WO = W/O Dependents WD = Dependents)	Spouse's BAQ Status; With dependents or Without Dependents
38	Dependent Status (WO = W/O Dependents WD = Dependents)	Spouse's VHA Status; With dependents or Without Dependents

(*) No longer used.

P607 Start Pay and Allowances as Indicated Below

Purpose Action code P607 is used to start/resume:

- Aviation Pay
- Diving Duty Pay
- Foreign Language Proficiency Pay
- Combat SGLI Allowance (One month only or until further orders)
- Hardship Duty Pay Location
- Hostile Fire Pay (One month only or until further orders)
- Tax Exclusion (One month only or until further orders)
- Subsistence Pay
- Cost of Living Allowance
- Career Sea Pay
- Career Sea Pay Premium
- Special Duty Assignment Pay
- Responsibility Pay
- Rental Charge for Inadequate Government Quarters
- Flight Deck Hazardous Duty Pay
- High Pressure Chamber Pay

Action code P607 was used to start VHA until 1 January 1998 when BAH was enacted.

Source A P607 is created in RECENTS when the "Start/Resume Pay and Allowances" transaction processes into JUMPS.

Expanded RECENTS Analysis The P607 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description
11	Flight Status (DIFPRO etc.)	Aviation Career Incentive Pay
12	Flight Status (DIFPRO etc.)	Noncrew Member Hazardous Duty Incentive Pay
13	Flight Status (DIFPRO etc.)	Aviation Crew Member Hazardous Duty Incentive Pay
14	Date (YYMMMDD)	Flight Deck Hazard Pay Start

P607 Start Pay and Allowances as Indicated Below, Continued

Expanded RECENTS Analysis (cont'd)

Code	Element	Description/SDAII Field Name
15	Date (YYMMMDD)	Flight Deck Hazard Pay Stop • To pay Flight deck Hazardous Duty Incentive Pay (FDHDIP), Element Codes 14 & 15 are used together. Element Codes 14 & 15 will be submitted for each month a member is entitled to FDHDIP. The P607 must have an effective date during the month the member earns the FDHDIP entitlement. Element Codes 14 & 15 are not used with Element Codes 11, 12, 13, 17, 18 or 19.
17	Flight Status (DIFPRO etc.)	Restart ACIP - Administrative Suspension removed
18	Flight Status (DIFPRO etc.)	Medically Qualified for Aviation. Remove Suspension
19	Date (YYMMMDD)	Continue ACIP past 25 Years of Aviation Service • PMIS/JUMPS will automatically terminate ACIP once a member has 25 years service. To restart ACIP on a member in a DIFOPS status use this element code.
20	1 Character Code	Diving Duty Pay • Element Codes 20 & 21 are used together starting diving pay and/or extending the diving qualification lapse date after re-qualification. For the re-qualification transaction, the effective date will be the date will be the date the transaction is prepared. Code Duty Type A Ship Salvage Diving Officer (SSDO)/Basic Diving Officer (BDO) B Officer with Scuba training only C Officer performing diving duty at school under instruction in a course above "Diver Second Class" (DUI) D Diver First Class (DV-1) Enlisted E Scuba Diver (DV-2) Enlisted F Scuba Diver (DV) Enlisted G Medical deep-sea diving technician (DV-M) Enlisted H Enlisted member performing diving duty at school under instruction (DUI) is a course above "Diver Second Class", unless entitled to a higher rate. I Master Diver (MDV)
21	Date (YYMMMDD)	Diving Qualification Lapse Date • See note for above for VDE 20.
23		Hardship Duty Pay - Location
24	2 Character Country Code (XX)	Hostile Fire Pay This Month Only
25	2 Character Country Code (XX)	Hostile Fire Pay Until Further Orders
26	3 Character Code (TAX)	Tax Exclusion This Month Only
27	3 Character Code (TAX)	Tax Exclusion Until Further Orders

P607 Start Pay and Allowances as Indicated Below, Continued

Expanded RECENTS Analysis (cont'd)_

Code	Element	Description
28	Date (YYMMMDD)	<u>HPCHDIP Start Date</u> Element Codes 28 & 29 are used together.
29	Date (YYMMMDD)	<u>HPCHDIP Stop Date</u> • See notes for VDE 28.

P607 Start Pay and Allowances as Indicated Below, Continued

Expanded RECENTS Analysis (cont'd)_

Code	Element	Description
70	2 Character Alpha-Numeric Code (R3, T5 etc.)	Special Duty Assignment Pay Code • SDAP Pay Codes and rates are published annually via ALSPO message. http://www.uscg.mil/hq/psc/alspo.asp
71	2 Character Alpha-Numeric Code	FLP JUMPS Code (the code used to look up the amount in the pay table)
72	8 Alpha Characters	FLP Language Indicator
73	YYYYMMDD	FLP Lapse Date (the expiration of the member's certification)
75		Responsibility Pay
80		Combat SGLI Allowance (One month only)
81		Combat SGLI Allowance (Until further orders)
87	6 Digit Amount (032500 = $325.00)	Inadequate Quarters - New Rental Charge
88	5 Digit Zip Code (22334 etc.)	VHA With Dependents Zip Code Note: Element Codes 88 and 89 are no longer used.
89	5 Digit Zip Code (22334 etc.)	Zip Code Note: Element Codes 88 and 89 are no longer used.
90	5 Digit Zip Code (22334 etc.)	INCONUS COLA Zip Code W/dependents
91	5 Digit Zip Code (22334 etc.)	INCONUS COLA Zip Code W/O dependents

P608 Start/Change/Verify VHA Offset as Indicated Below

Purpose   Action code P608 was used to start, change, or verify VHA offset

Source   Use of this action code was discontinued on 1 January 1998 when BAQ/VHA
                     was replaced with BAH.

**Expanded   The following variable data elements were used with action code P608.
RECENTS
Analysis**   • This table lists the variable data elements and descriptions/SDA II fields
                       used with this action code.

Code	Element	Description
01	5 Digit Zip Code	Start VHA Offset for VHA With Dependents
02	5 Digit Zip Code	Start VHA Offset for VHA Without Dependents
03	Two Character Code (WD = With Dependent) (WO = W/O Dependent)	Change VHA Offset
04		Member Stationed in Alaska or Hawaii Receiving Two VHA Entitlements
10	7 Digit Amount (0600.00 = $650.00)	Total Rent Amount or Mortgage
12	7 Digit Amount (0600.00 = $650.00)	Total Other Allowable Expenses
13	2 Digit # of Members Receiving VHA (02, 03 etc.)	Number of Sharers
14	5 Digit Zip Code	Spouse's Zip Code
15	Paygrade	Spouse's Pay Grade
16	Dependent Status (WD = With Dependents W/O = W/O Dependents)	Spouse's BAQ Status
17	Dependent Status (WD = With Dependents W/O = W/O Dependents)	Spouse's VHA Status

P609 Start/Stop, Change Overseas Housing Allowance or Interim Housing Allowance

Purpose	Action code P609 is used to start, stop, change overseas housing allowance or interim housing allowance.

Source	A P609 is created in RECENTS when the "Overseas Housing Allowance Information" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis	The P609 in expanded RECENTS is described below.
	• This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name
01		Start OHA
02		Stop OHA
03		Change OHA
04	5 Character Alpha Numeric Locality Code	Location Code • Location codes can be found in Appendix K of the JFTR.
05	6 Digit Amount (0600.00 = $600.00)	JFTR Rental Ceiling (U.S. Dollars)
06	6 Digit Amount (00650.00 = $650.00)	JFTR Monthly Utility/Recurring Maintenance Allowance (U.S. Dollars)
07	1 Alpha Character or 3 Digit Numeric Code (e. g. A or 025)	JFTR Utility Indicator • JFTR Utility Indicator Codes: Code Description A All Utilities included in rent (member not entitled to utility/recurring maintenance allowance) B No utilities included in rent (member entitled to 100% of utility/recurring maintenance allowance) 025 Some utilities included in rent. Member entitled to 25% of utility/recurring maintenance all allowance) 065 Some utilities included in rent. Member entitled to 65% of utility/recurring maintenance allowance) 100 Some utilities included in rent. Member entitled to 100% of utility/recurring maintenance allowance)

P609 Start/Stop, Change Overseas Housing Allowance or Interim Housing Allowance, Continued

Expanded RECENTS Analysis (cont'd)

Code	Element	Description/SDAII Field Name
08	Always 999.99	JFTR Monthly Initial/Terminal Occupancy Expense/Not Displayed in SDA II
09	1 Character Code (H = Homeowner R = Renter)	Homeowner/Renter Code
10	2 Digits	Number of Sharers With Dependents/Does Member Have Dependents
12	2 Digit # of Sharers (02, 04 etc.)	Number of Shares Without Dependents/Does Member Have Dependents
13	6 Digit Actual Rent (Foreign currency converted to US $) (0650.00 = $650.00)	Rent in Foreign/US Currency
14	6 Digit Actual Rent Paid in US $ (0650.00 = $650.00)	Rent in Foreign/US Currency
15		Start Interim Housing Allowance/Not Displayed in SDA II
16		Stop Interim Housing Allowance/Not Displayed
17	6 Digit MIHA Amount Prescribed in Appendix k of the JFTR (0600.00 = $600,00)	MIHA/Miscellaneous/US (U.S. Dollars)
18	6 Digit MIHA Amount for MIHA Rent (0600.00 = $600,00)	MIHA/Rent/US
19	6 Digit MIHA Amount for MIHA Security (0600.00 = $600,00)	MIHA/Security/US

P612 Member Returned From Confinement. Adjust Base Dates. Resume Pay and Allowances Previously Suspended by P640 Element Code 02/03/04.

Purpose   Action code P612 is used to report when a member returns from confinement, adjust base dates, and resume pay and allowances previously suspended by Action Code P640.

Source   A P612 is created in RECENTS when the "Member Returned from Confinement" transaction processes into PMIS/JUMPS.

Expanded   The P612 in expanded RECENTS is described below.
RECENTS
Analysis
• This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name
07	Date (YYMMMDD)	Date Departed for Confinement
08	Date (YYMMMDD)	Date Returned from Confinement
09		Deductible Time - YYMMDD

P616 Terminate Absence Due to Illness Caused by and Immediately Following Misconduct or Intemperate use of Alcoholic Liquors/Habit Forming Drugs. Fit for Full Duty, Resume Pay and Allowances Previously Stopped by a P644 Dated (Time and Date)

Purpose Action code P616 is used to terminate an absence due to an illness caused by and immediately following misconduct or the intemperate use of alcoholic liquors or habit-forming drugs.

Source A P616 is created in RECENTS when the "End Absence Due to Alcohol/Drugs" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis The P616 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	SDAII Field Name
07	Date (YYMMMDD)	Date Deductible Time Began
08	Date (YYMMMDD)	Date Member Reported Back for Duty
09		Deductible Time-YMMDD

P620 Change Subsistence and/or Career Sea Duty Entitlements Due to TDY/Permissive Orders (Obsolete 1/25/08)

Purpose

Action code P620 was used to report temporary duty (TDY) or permissive travel resulting in changes to a member's messing and/or sea pay/time entitlements.

Source

A P620 is created in RECENTS when a Direct Access Compensate Employees > Maintain Entitlements > Use > **TDY Entitlements** transaction is created. Use of the TDY Entitlements/P620 transaction was discontinued on 25 January 2008. P607/P625 transactions will used to start/stop messing/sea pay entitlements due to TDY orders. See E-Mail ALSPO A/08 for more information.

Expanded RECENTS Analysis

The P620 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions used with this action code.

Code	Element	Description
01	1 Alpha Character	Messing Status of TDY Unit • Applicable codes for Messing Status are: Code Meaning A Essential Messing Unit (enlisted only) not valid after 12/31/2001 B Non-Essential Messing Unit (enlisted only) not valid after 12/31/2001 C Officer, messing status of TDY unit not applicable D Enlisted member who is required to eat meals at the TDY dining facility (EUM/ESM/Sea Duty) E Enlisted member who is not required to eat meals at the TDY dining facility (EUM/ESM/Sea Duty)
02	7 Character date & 4 Digit Time (YYMMMDD0900)	PERMDU Depart Date Date member departed for TDY from the permanent unit. Used in all case as directed by ALPERSRU/02. PERMDU Depart Time
03	7 Character date & 4 Digit Time (YYMMMDD0900)	TDY Report Date Date member reported to the TDY unit. Used when TDY is to a unit where an enlisted member must eat in the galley. TDY Report Time

Continued on next page

P620 Change Subsistence and/or Career Sea Duty Entitlements Due to TDY/Permissive Orders (Obsolete 1/25/08), Continued

Expanded RECENTS Analysis (continued)

Code	Element	Description
04	7 Character date & 4 Digit Time (YYMMMDD0900)	<u>TDY Depart Date </u>Date member departed the TDY unit. Used when TDY is to a unit where an enlisted member must eat in the galley. <u>TDY Depart Time</u>.
05	7 Character date & 4 Digit Time (YYMMMDD0900)	<u>PERMDU Report Date </u> Date member reports back to the permanent unit from TDY. Used in all cases as directed by ALPERSRU/02 <u>PERMDU Report Time</u>
06	1 Character Code A BAS Not valid after 12/31/2001 B Rations in Kind Not valid after 12/31/2001 C SEPRATS Not valid after 12/31/2001 D Enlisted member who is going PCS or TDY immediately on the next day. E Enlisted member who is required to eat meals at the PERMDU dining facility (EUM/ESM/Sea Duty) F Enlisted member who is not required to eat meals at the PERMDU dining facility (Non EUM/ESM/Sea Duty)	<u>Messing Status of PERMDU Unit</u> • When code "D" is used, no subsistence entitlement will be paid the next. Another document (8C or P620) must be submitted to start subsistence the next day. • When the member goes TDY, the Discount Meal Rate will stop/start; the BAS entitlement at the permanent duty unit will continue through the TDY period. • When Mobile Unit personnel are deployed to a vessel with a messing facility, a Change BAS (P620) transaction shall be prepared. The P620 transaction shall be prepared as prescribed above, with the following exceptions: 1. If TDY is to a Coast Guard vessel, use Code D for VDE 01 (Messing Status of TDY Unit). 2. If TDY is to a Navy or foreign vessel, use Code E for VDE 01 (Messing Status of TDY Unit).
07	7 Digits	TDY Claim Number
11	Date (YYMMMDD)	<u>Vessel Report Date</u>
12	Date (YYMMMDD)	<u>Vessel Depart Date</u>.
13	7 Digits District/OPFAC of Sea Duty Unit (0716306)	<u>Sea Duty District/OPFAC</u>

P625 Stop Pay and Allowances as Indicated Below

Purpose   Action code P625 is used to stop pay and allowances in case where the pay stop is not made in conjunction with another Personnel Action or in conjunction with an Endorsement on Orders.

Source   A P625 is created in RECENTS when the "Stop Pay and Allowances" transaction processes into JUMPS.

**Expanded   The P625 in expanded RECENTS is described below.
RECENTS
Analysis**

Code	Element	Description/
01		25% Basic pay Increase
11	Flight Status	Aviation Career Incentive Pay
12		Aviation Noncrew Member Hazardous Duty Pay
13		Aviation Crew Member

75		Responsibility Pay
81		Combat SGLI Allowance
87*		Stop BAH (Reserve short-term (R990) orders only)
88		CONUS COLA

(*) Previously stop VHA.

P633 Stop All Pay and Allowances From This Date Due to Fraudulent Enlistment

Purpose	Action code P633 is used to stop all pay and allowances due to a fraudulent enlistment.
Source	A P633 is created in RECENTS when the "Stop Pay and Allowances Due to Fraudulent Enlistment" transaction processes into PMIS/JUMPS.
Expanded RECENTS Analysis	Action code P633 does not have any variable data elements.

P640 Member Placed in Confinement by Military/Civil Authorities

Purpose   Action code P640 is use to report that a member has been placed in confinement by military or civil authorities.

Source   A P640 is created in RECENTS when the "Member Placed in Confinement" transaction processes into PMIS/JUMPS.

Expanded   The P640 in expanded RECENTS is described below.
RECENTS
Analysis
• This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name
01		Military Facility Under Military Control • This code will continue payment of all pay and allowances.
02		Military Facility Under Control of Foreign Civilian Authority • This code will suspend all pay and allowances.
03		Civilian Facility Under Control of Civil Authority • This code will suspend all pay and allowances.
04		Military Facility Under Control of Civil Authority • This code will suspend all pay and allowances.

P644 Member Begins Absence Due to Illness Caused by and Immediately Following Misconduct or Intemperate Use of Alcoholic Liquors/Habit Forming Drugs. Stop Basic Pay, Any Special or Incentive Pay, and Credit of BMA or SMA. Continue Payment of Any Allowances Currently Authorized

Purpose   Acton code P644 is used to stop basic pay, any special or incentive pay, credit CMA and continue payment of any allowances currently authorized when a member begins absence due to illness caused by and immediately following misconduct or intemperate use of alcoholic liquors or habit forming drugs.

Source   A P644 is created in RECENTS when the "Member Begins Absence Due to Illness Caused By" transaction processes into PMIS/JUMPS.

**Expanded   No variable data elements are used with this action code.
RECENTS
Analysis**

P671 Suspend Flight Pay/Terminate Aviation Status as Listed Below From This Date

Purpose   Action code P671 is used to suspend flight pay and/or terminate aviation status.

Source   A P671 is created in RECENTS when the "Suspend Flight Pay/Terminate Aviator Status" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis   The P671 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	SDAII Field Name
01	Flight Status	Suspend ACIP/Flight Status • The following are flight status abbreviations: Code Meaning 1 DIFOPS 2 DIFDEN 3 DIFPRO
03		Terminate Aviator Status

P800 Correct Information in Segment 76 (Individual Allotment) or Segment 78 (Bond Allotment)

Purpose   Action code P800 is used to correct or change an address to an existing individual (not blanket or EFT) allotment or savings bond allotment.

Source   A P800 is created in RECENTS when the "Correct Address Info for Individual or Bond Allotments" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis   The P800 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Descripiton/SDAII Field Name
01	3 Digits (001 etc.)	Allotment Number

60	8 Alpha/ Numeric	DATE					

P810 Family Member Dental Plan (Obsolete Nov 2000)

Purpose   Action code P810 is used to report Family Member Dental Plan election. Action code P810 will not be used after end-month compute in December 2000. The contractor instead of the PERSRU will do TFMDP enrollments, changes, and terminations.

Source   Action code P810 is created in RECENTS when the "Dependent Dental Insurance" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis   The P810 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name
01	2 Digits	Number (of dependents) 4 Years of Age and Over
02	2 Digits	Number (of dependents) Under 4 Years of Age
03		Single Dependent Living in Separate Location • Used only if member has family members residing in two separate locations. If member has only one eligible family member residing in a different location from the member, VDE 01 is used.
05		Multiple Dependents Living in Separate Location
06		Single Premium For OUTCONUS Returnee (Any Age)
07		Family Premium For OUTCONUS Returnee
08		Single Premium For OCONUS Returnee (Remotely Located)
09		Family Premium For OCONUS Returnee (Remotely Located)
20	1 Character Code	Stop Coverage Code

Code	Reason
A	Blank code, coverage not being stopped
B	Dissatisfied with the benefits package
C	Dissatisfied with the quality of treatment received.
D	Dissatisfied with the premium amount.
E	Satisfied, but disenrolling for personal reasons.
F	Change in duty station – OUTCONUS.
G	Change in duty station – CONUS.
J	No Eligible Dependents (Used for H810).

P820   Thrift Savings Plan

Purpose   **Action code P820 is used to start, change or stop TSP elections.**

Source   P820 is input through Peoplesoft at the Personnel Service Center.

Expanded RECENTS Analysis   The P820 in expanded RECENTS is described below. This table lists the variable data elements and descriptions used with this action code.

Code	Element	Descriptions
01	Base pay (%)	3 character field, no decimal—example: 007
02	Special pay (%)	3 character field, no decimal—example: 100
03	Incentive Pay (%)	3 character field, no decimal—example: 100
04	Bonus (%)	3 character Field, no decimal—example: 100
05	TSP Date	YYMMMDD format—example: 02 JAN 01 – (VDE 05 will always be the first of the month and no other day of the month) Will always be present with one of the other VDEs.
06	Catch-up ($ amount)	8 digit amount field (signed). Example 0004000082=$1400.00 Two decimal – example 999999.99.

VDEs 01, 02, 03, and 04 could contain zeros in the event of stopping TSP.

P950 Physical Examination Information

Purpose	Action code P950 is use to record physical examination status/results.

Source	A P950 is created in RECENTS when the "Physical Examination Information" transaction processes into PMIS/JUMPS.

Expanded RECENTS Analysis	The P950 in expanded RECENTS is described below.

- This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDAII Field Name	
01	Date (YYMMMDD)	Date of Physical Exam	
02	1 Character	Physical Exam Status Code	
		Code	Status
		A	Qualified on periodic exam
		D	Qualified for discharge/retirement/RELAD
		N	Not Qualified
		O	Qualified for overseas/sea duty assignment
		P	Permanent Waiver (Reserve Members Only)
		Q	Qualified (Reserve Members Only)
		T	Temporarily Disqualified
		W	Temporary Waiver (Reserve Members Only)
03	Date (YYMMMDD)	Physical Exam Review Date	
04	1 Alpha/Numeric	Type of Physical Exam	
		Code	Type
		0	Misc
		1	Reenl/Extension
		2	Relad/Discharge/Separation
		3	Quadrennial
		4	Annual
		5	Overseas/Sea Duty
		6	Retirement
		7	Original Enlistment
		8	CO/OINC Afloat
		9	OCS/Direct Comm/Pre-Comm

Section Overview

Introduction   This section lists the purpose variable data elements and element code descriptions for "R" transactions as they appear in the Recent Transaction File (RECENTS).

In this section

Action Code	Purpose	See Page
R900	Miscellaneous	6-G-2
R910	Change Category, Class, Pay Status	6-G-6
R920	Assignment/Removal of Training Rating Codes	6-G-8
R960	Officer Experience Indicator	6-G-9
R970	Correspondence Course Completions	6-G-10
R975	Process Lump Sum Leave Entitlement	6-G-11
R985	IDT Drill Pay and Points	6-G-13
R990	Pay and Points for Reserve Short-Term Active Duty Periods	6-G-14
R991	Stop Entitlements for Reserve Short-Term Active Duty	6-G-16

R900 Miscellaneous

Purpose   Action code R900 is used to report miscellaneous events.

Source   A R900 is created in RECENTS when the "Report Miscellaneous Events" transaction processes into PMIS/JUMPS.

Expanded RECENTS analysis   This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Codes 01, 03, 09 and 10 are no longer used.

Code	Element	Description/SDAII Field Name
~~01~~	~~District/OPFAC (0182006 etc.)~~	~~District/OFPAC Number~~ (Done by L68C PCS)
02	Beginning and Ending Date (YYMMDDYY-MMMDD or YYMMMDD9999-9999)	Anniversary Date
~~03~~	~~6 Digit Code (160168 etc.)~~	~~Civilian Occupation Code~~ (Done in Direct Access)
06	(Blank)	Dropped From Rolls
07	Date (YYMMDD)	Date Pay and Allowances Accrue From
08	Date (YYMMDD)	Date of Initial Entry Into Reserve Forces
~~09~~	~~10 Digit phone number~~	~~Work Phone~~ (Done in Direct Access)
~~10~~	~~10 Digit phone number~~	~~Home Phone~~ (Done in Direct Access)
11	Date (YYMMDD)	Drill Obligation Date
12	Date (YYMMDD)	Date Military Obligation Complete

R900 Miscellaneous, Continued

Expanded RECENTS analysis (continued)

Codes 13, 14 and 15 are no longer used. Reserve Annual Screening Questionnaires are in via the Direct-Access system.

Code	Element	Description/SDA II Field
13	Date (YYMMM)	Date last annual screening questionnaire signed. Not Displayed in SDA II
14	1 Digit Code (1, 2, etc.)	Reserve Screening Questionnaire Codes: 　1　Retain in Ready Reserve 　2　Transfer to Ready Reserve 　3　Retain in Standby Reserve 　4　Transfer to Standby Reserve Not Displayed in SDA II (Done in Direct Access)
15	1 Character Alpha/ Numeric Code	Reserve Screening Questionnaire Codes: Not displayed in SDA II (Done in Direct Access)

Code	Description
0	No obligation Requested Transfer
1	No Obligation Surplus
2	No Obligation Training Unsatisfactory
3	Elective or Appointive Position
4	Personal Hardship
5	Community Hardship
6	Critical Civilian Occupation
7	Apprentice, Critical Civilian Occupation
8	Student, Critical Civilian Occupation
F	Failure to Meet Weight or Appearance Standards
P	Theological Student
R	Other

R900 Miscellaneous, Continued

Expanded RECENTS analysis (continued) (continued)

Code	Element	Description/SDA II Field	
20	2 character Code	Transfer reason code:	
		EF	Member was fully qualified for reenlistment but was not authorized to reenlist.
		EG	Member was on ADSW-AC/ADSW-RC/EAD and was eligible to return to SELRES but a billet was not available.
		EH	Officer was passed over twice and removed from the SELRES and transferred to IRR before 30 June of the same promotion year (mandatory date for discharge).
		IL	Officer passed over twice and removed from the SELRES on the mandatory date for discharge.
		IM	Separated at member's request
		IN	Failed to meet training or performance required.
		IO	Did not meet all the requirements for membership, including medical fitness standards that were in effect 91Oct01.
		IP	Immediately eligible for military retired, retainer pay or separation pay under Section 1174 of Title 10, U. S. C.
		IQ	Refused to accept another position within reasonable commuting distance.
		IR	Entered extended active duty for an immediate appointment or enlistment in another reserve component for continued service in Selected Reserve.
		IS	Serve in non-pay billets such as the Individual Ready Reserve or voluntary training units.
		IT	Transferred from other than SELRES to ADSW-AC, ADSW-RC, EAD.
		IU	Discharged on expiration of member's term of enlistment, unless member was fully qualified for reenlistment, requested reenlistment, but was not authorized to reenlist.

22	1 Character Code	2 X 2 X 4 or 2 X 4 Y=Yes N=No		

R910 Change Category, Class, Pay Status

Purpose	Action code R910 is used to change a reserve member's category, class, or pay status.

Source	Acton code R910 is generated by PERSRUs when a "Change Category, Class, Pay Status" event is recorded in SDA II.

Expanded RECENTS analysis	This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDA II Field	
01	1 Alpha character code	Reserve Category	
		Code	**Description**
		I	Standby Reserve (Inactive Status)
		R	Ready Reserve
		S	Standby Reserve (Active Status)
02	1 Alpha character code	Reserve Classification	
		Code	**Description**
		I	Inactive duty officer, within their 8 year obligation
		J	Prior service CG enlisted, within their 8 year obligation
		K	Enlisted member who is a student and performs a split phase IADT
		L	Enlisted member recruited as a P or K but failed to complete IADT. Not used after 1996.
		M	Student participating in the MARTP program
		N	Member with service obligation, not in another class
		P	Enlisted member, required to attend recruit training and class "A" school during one IADT phase
		Q	Member without a statutory obligation
		S	Enlisted member, completes 4 months IADT. Not used.
		X	Enlisted member, non-prior service direct petty officer
		Y	Enlisted member, attends recruit training and 30 days OJT while on IADT

R910 Change Category, Class, Pay Status, Continued

**Expanded
RECENTS
analysis
(continued)**

Note: Element "M"-Mobilized is no longer used it has been removed from the listing below.

Code	Element	Description/SDA II field
03	1 Character Alpha Code	Reserve Training/Pay Status
	Code	**Meaning**
	A	Includes most SELRES in a Pay Status.
	B	IMA with Selective Service System (reimbursable).
	C	Previously used for RKs in interphase. No longer in use.
	D	Reserve Flag Officers.
	E	Reservists with drill obligation without access to IDT unit.
	F	RPs, RKs, and RLs on IADT.
	G	Key Federal employees in the Standby Reserve (Active Status).
	H	Members with no requirement to drill.
	I	Standby Reserve (Inactive Status)
	J	Reservists who have enlisted to attend OCS but have not reported.
	~~M~~	~~Reservists currently mobilized, but expected to return to drilling status upon RELAD~~. No longer used. These members can be found using duty codes for Involuntary Active Duty.
	N	All others in the Standby Reserve (Active Status)
	P	RPs, RKs, and RYs recruited but not yet reported to IADT.

R920 Assignment/Removal of Training Rating Codes

Purpose Action code R920 is used to record the assignment or removal of training rating codes.

Source Action code R920 is generated by PERSRUs when an "Assign/Remove Training Rating" event is recorded in SDA II.

Expanded RECENTS analysis This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDA II Field
01	2 character code representing enlisted rating	Current training rating
02		Remove training rating
03	Date (YYMMMDD)	Reserve Training Rate Date (Effective date of Element Code 01)

R960 Officer Experience Indicator

Purpose   Action code R960 is used to record a reserve officer experience indicator code.

Source   Action code R960 is generated by PERSRUs when a "Reserve Officer Experience Indicator" event is recorded in SDA II.

Expanded RECENTS analysis   This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Note: Refer to Reserve Policy Manual (COMDTINST M1001.28), Chap 6-A, for Officer Experience Indicator code descriptions

Code	Element	Description/SDA II Field
01	2 digits	Primary Officer Experience Indicator
02	1 digit	Level of Primary Officer Experience Indicator
03	2 digits	Secondary Officer Experience Indicator
04	1 digit	Level of Secondary Officer Experience Indicator
05	1 digit	First Digit of Civilian Occupation Code
06	1 digit	Second Digit of Civilian Occupation Code

R970 Correspondence Course Completions

Purpose
Action code R970 is used to record the completion of non-Coast Guard correspondence courses for a reserve member.

Source
Acton code R970 is generated by PERSRUS when a "Report Course Completion " event is recorded in SDA II.

Expanded RECENTS analysis
This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDA II Field
06	Date (YYMMMDD)	Date Correspondence Course Completed
07	2 digits	Number of points earned
08	15 alpha/numeric characters	Course number and title

R975 Process Lump Sum Leave Entitlement

Purpose   Action code R975 is used to process lump sum leave payment for reserve members.

Source   Actin code R975 is generated by PERSRUs when a "Process Lump Sum Leave Payments" event is recorded in SDA II.

Expanded RECENTS analysis   This table lists the variable data elements and descriptions/SDA II fields used with this action code.

Code	Element	Description/SDA II Field
01	15 Alpha/ Numeric Characters	First 15 characters of accounting data: Dist Code Appr Code Lim Code Alt Fnd Alt Lvl Prog Elem
02	13 Alpha/ Numeric Characters	Characters 16-28 of accounting data: Cost Cntr Obj Class Doc ID Type Doc ID FY
03	12 Alpha/Numeric Characters	Characters 29-40 of accounting data: Doc ID TONO Doc Suf
04	10 Alpha/ Numeric Characters	Duty type/P&A code/Mode or Program Code Not displayed in SDA II
05	Date/Time	Date/Time Arrived Duty Station Not displayed in SDA II

Code	Element	Description/SDA II Field
06	3 digits	Total Days Unused Leave
07	3 digits	Days LS Non-SLB Leave to Sell
08	3 digits	Days Unused LS Non-SLB Leave to Carry Forward
21	9 Characters	SYS DATA
22	6 Characters	Program Element

R985 IDT Drill Pay and Points

Purpose   Action code R985 is used to report Inactive Duty Training (IDT) pay and points for a reserve member.

Source   Action code R985 is generated by Commands and SPOs when a "Schedule Drills" event is recorded as "Complete" in DA.

Expanded RECENTS analysis   This table lists the variable data elements and descriptions used with this action code.

Code	Element	Description
01	7 Digits	District OPFAC
02	1 Character	Duty type code (Refer to page 2-B-3 of this manual for code listing)
04	2 Characters	Program Designator 1 (Refer to page 2-B-3 of this manual for code listing)
05	2 Characters	Program Designator 2 (Refer to page 2-B-3 of this manual for code listing)
06	1 Character	IDT COMRATS Code (Meal code) (Refer to page 2-B-3 of this manual for code listing)
07	2 Character Alpha- Numeric Code (R3, T5 etc.) or INELIGIBLE	SDAP Code • SDAP Codes are published annually via E-Mail ALSPO message. http://www.uscg.mil/hq/psc/alspo.asp (e. g. K/07 for FY 08, H/06 for FY 07, K/05 for FY 06, etc.)
08	RSP or INELIGIBLE	Reserve Special Pay
09	2 Character Alpha-Numeric Code	FLP JUMPS Code. <table><tr><td>Proficiency</td><td>Code</td></tr><tr><td>Interpreter</td><td>1F</td></tr><tr><td>Linguist</td><td>2F</td></tr><tr><td>Interim</td><td>3F</td></tr></table>
10	8 Alpha Characters	FLP Language Indicator
11	YYYYMMDD	FLP Lapse Date (the expiration of the member's certification)

R990 Pay and Points for Reserve Short-Term Active Duty

Purpose

Action code R990 is used to report reserve active duty of less than 140 days ADT or less than 181 days ADOT.

Source

Action code R990 is generated by the SPO when the Record Arrive/Depart Info tab on a Reserve Order is completed in DA.

Expanded RECENTS analysis

This table lists the variable data elements and descriptions used with this action code.

Code	Element	Description/SDA II Field
01	15 Alpha/Numeric	Dist Code Appr Code Lim Code Alt Fnd Alt Lvl Prog Elem
02	13 Alpha/Numeric	Cost Cntr Obj Class DocID Type DocID FY
03	12 Alpha/Numeric	DocID TONO Doc Suf

#2	BAS Entitlement (Travel Period)	See R990 VDE 08 list
#3	BAS Entitlement (Duty Period)	See R990 VDE 08 list

Table of Contents

Introduction

Purpose   The purpose of this enclosure is to provide background information to assist in researching pay segments in the JUMPS database.

Background   Over the course of years, entitlements/deductions change in the way they are calculated, reported, and/or stored in PMIS/JUMPS. When researching segments in the JUMPS data base, it is useful to have a reference guide explaining historical developments of the segment. For example, if one were researching interim housing allowance in segment 46, one may need to be aware that until April 1990, interim housing allowance was stored in JUMPS segment 31 in lieu of segment 46. Also, if one were researching a historical indebtedness segment 38, one should be aware that thresholds for liquidations of indebtedness underwent changes in November 1987 and February 1990. This chapter is designed to provide such historical information.

Historical Summaries   The following pages provide brief historical summaries of each JUMPS segment. Where two or more segments work in consonance with each other (e.g., segments 07, 37 and 69 work together to store career sea pay), they have been combined in the historical summaries.

Segment 01 (Entitlement) Basic Pay

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
1949	37 USC 203	Career Compensation Act established present basic pay, allowance, and longevity system for pay grades O-1 thru O-8, W-1 thru WÇ4, and E-1 thru E-7.
1958	37 USC 203	Pay grades O-10, O-9, E-9, and E-8 added. Special rates added for O-1s, O-2s, and O-3s with over 4 years prior enlisted service.
10/1/63 thru 1/1/70	37 USC 203	Basic pay increased annually at different times during year.
1970 14	37 USC 907 USC 214(d)	"Saved pay" provisions enacted to ensure enlisted members appointed as officers would not suffer reduction in pay.
1/1/71	37 USC 203	Basic pay increased.
10/1/71	37 USC 203	Basic pay increased.
1/1/72	37 USC 203	Basic pay increased.
10/1/72	37 USC 203	Higher basic pay specified for E-9 designated as Master Chief Petty Officer of the Coast Guard.
10/1/72 thru 10/1/82	37 USC 203 37 USC 1009	Basic pay increased annually on 1 October.
1/1/84	37 USC 1009	Basic pay increased 4%.
1/1/85	37 USC 1009	Basic pay increased 4%.
10/1/85	37 USC 1009	Basic pay increased 3%.
1/1/87	37 USC 1009	Basic pay increased 3%.
3/1/87	37 USC 1009	Basic pay rates for O-8 thru O-10 increased.
1/1/88	37 USC 1009	Basic pay increased 2%.
1/1/89	37 USC 1009	Basic pay increased 4.1%.
1/1/90	37 USC 1009	Basic pay increased 3.6%.
1/1/91	37 USC 1009	Basic pay increased 4.1%.
1/1/92	37 USC 1009	Basic pay increased 4.2%.
1/1/93	37 USC 1009	Basic pay increased 3.7%.
1/1/94	P.L. 103-160	Basic pay increased 2.2%
1/1/95	P.L. 103-337	Basic pay increased 2.6%
1/1/96	P.L. 104-106	Basic pay increased 2.4%
1/1/97	P.L. 104-201	Basic pay increased 4.6%
1/1/98	P.L. 105-85	Basic pay increased 2.8%
1/1/99	P.L. 105-261	Basic pay increased 3.6%
1/1/00	P.L. 106-65	Basic pay increased 4.8%
7/1/00	P.L. 106-65	Variable rate increase depending on pay grade and years of service.

Segment 02 (Entitlement) 25% Increase In Basic Pay

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
1956	14 USC 367 10 USC 5540 Pay Man., Section 2-G-3.b. PERSMAN Chap 12	A 25% increase in basic pay authorized for enlisted members retained beyond the expiration of their enlistment while stationed on a vessel in foreign waters when retention essential to public interests.
1/17/80	PMIS Man.	Action code P 176 prescribed as input transaction.
9/7/89	CH-5, PMIS/JUMPS Man., Vol II	New VDE added to P 176 for recording the reason for retention.

Segments 03/04/43/44/47/48 Miscellaneous Debits/Credits

Segment	Transaction(s) Effecting	Summary of Usage
03 (Misc. Credit for Known Period)	Various	Records miscellaneous retroactive credits for known periods (e.g., SEPRATS/BAS and BAQ).
04 (Misc. Debit for Known Period)	Various	Records miscellaneous retroactive debits for known period. Most common usage is to record debits resulting from entitlement stops/changes.
43 (Misc. Lump Sum Credit)	L67/H 604	(1) Incentive cash awards (2) Out of range entitlements (3) Retroactive entitlements PMIS/JUMPS cannot process (e.g., retroactive entitlement of enlisted member who has since been promoted to officer, entitlements preceding a legislative pay raise, etc.) (4) Miscellaneous claims (e.g., of separated members or survivors) (5) Credit cancelled check (when L67/H 605 transaction unable to effect such action) (6) Recruit lump sum leave (7) NOAA diving pay (8) Clothing locker returns
	L66A	Officer uniform allowances
	L67/P 603	Civilian clothing allowances
	L62 & L67/P198/ P 203/P 214	Lump sum leave and severance pay
	None (Compute)	Credits for overpayments of $500 and over (see enclosure (13) of this Man..)
44 (Misc. Lump Sum Debit)	L67/H 604	(1) Separation-related deductions (U.S. VIP, excess leave, uncollected forfeitures, etc.) (2) Out of range deductions (3) Retroactive deductions PMIS/JUMPS cannot process (e.g., retroactive entitlement stop for enlisted member who is now an officer, retroactive entitlement stop which precedes a legislative pay raise, etc.) (4) Overpayments less than $100 (5) Allotment deductions of recalled retirees
47 (Misc. Credit Indefinite)	L67/H 670 & H 671	Saved pay entitlements of enlisted members appointed to officer status.
48 (Misc. Debit Indefinite)	L67/H 672	Saved pay deductions of enlisted members appointed to officer status.

Segment 05 (Entitlement) Hostile Fire (Imminent Danger) Pay

Date	Reference	Summary of Change in Entitlement/Calculation/Reporting
1963	37 USC 310 COMPTMAN Vol II	Hostile fire pay implemented in the amount of $55 per month for members assigned to an area designated by DOD as a "combat area".
9/1/65	P.L. 89-132	Hostile fire pay increased to $65 per month.
1/17/70	PMIS Man.	Action code P 607 designated for starts of hostile fire pay, and action code P 625 for stops.
1/1/71	COMPTMAN Vol II	Cambodia designated as an eligible area for hostile fire pay.
10/1/73	COMPTMAN Vol II	Vietnam designated as an eligible area for hostile fire pay.
12/8/78 thru 2/23/79	COMPTMAN Vol II	Iran designated as an eligible area for hostile fire pay.
11/4/79	COMPTMAN Vol II	Iran redesignated as an eligible area for hostile fire pay.
10/1/83	P.L. 98-94	Hostile Fire Pay changed to "Hostile Fire or Imminent Danger Pay", and was payable while in a foreign area where "threat of physical harm or imminent danger" existed.
10/1/83	COMPTMAN Vol II	Lebanon and El Salvador designated as eligible areas for hostile fire pay.
6/1/85	COMPTMAN Vol II	Columbia designated as an eligible area for hostile fire pay.
10/1/85	P.L. 99-145	Hostile Fire (Imminent Danger) Pay increased to $110 per month.
4/1/87	CH-1, CG Pay Man.	Peru designated as an eligible area for hostile fire pay.
8/25/87 thru 3/31/89	CH-2, CG Pay Man. CH-6, CG Pay Man.	Arabian Gulf Area designated as an eligible area for hostile fire pay.
5/11/88	CH-2, PMIS/JUMPS Man. Vol I	Added unit procedures for reporting starts and stops of hostile fire (imminent danger) pay.
11/1/88	CH-4, CG Pay Man.	Afghanistan designated as an eligible area for hostile fire pay.

Segment 06 (Entitlement) Special Duty Assignment Pay

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
6/1/85	37 USC 307 COMDTINST 1430.1J CH-13 to PMIS	Current Special Duty Assignment Pay (SDAP) program enacted. Replaced Proficiency Pay program. Maximum set by law at $275 per month. Coast Guard adopted only for OICs afloat @ $100 per month. P 607 and L68 utilized to start entitlement, and P 625 to stop it.
9/1/86	ALDIST 181/86 CH-13 to PMIS	SDAP eligibility extended to recruiters @ $100 per month. New codes added to P 607 to accommodate.
12/16/86	COMDTINST 1430.lK CH-13 to PMIS	SDAP eligibility extended to special agents and designated OICs ashore in the amount of $100. New codes added to the P 607 and L68 to accommodate.

Segments 07/37/69 (Entitlement) Career Sea Pay And Premium

Date	Reference	Summary of Change in Entitlement/Calculation/Reporting
10/1/78	37 USC 305a Executive Order 11157 5-B, COMPTMAN Vol II ALDIST 268/78	Career Sea Pay (CSEAPAY) adopted. Replaced old sea pay. Enlisted members E-4 or above with over 3 years sea time eligible. Grandfather clause provided for continued payment of old sea pay to enlisted members on sea duty as of 9/30/78 even if less than 3 years creditable sea time. Personnel Action with P 625, L68 and L69 designated as transactions for starting and stopping entitlement in PMIS/JUMPS. Sea time amount required to be shown on start/stop transactions.
9/1/80	ALDIST 265/80	CSEAPAY rates changed.
11/17/80	PMIS Man. PPC Operations Man.	PMIS Man. first published. Established P 112 for adjusting sea time. Required P 112 to be substantiated by statement of creditable service. PPC H 750 transaction revised to allow for sea time adjustments.
1/1/81	P.L. 96-579 ALDIST 023/81 CH-2 to COMPTMAN Vol II CH-2 to PMIS Man.	Officers (except O-1s and O-2s under 4 yrs. service) with over 3 years sea duty became entitled to CSEAPAY. 3 year sea duty requirement for enlisted members eliminated -- E-4s and above and warrant officers now eligible for CSEAPAY irregardless of amount of sea time. Career sea pay premium enacted @ $100 per month for members E-4 and above serving 36 months consecutive sea duty. Rules changed allowing enlisted members to concurrently receive CSEAPAY and LVRATS. P 607/P 625/L68 converted for use on both officers and enlisted members. New VDE established for career sea pay premium.
10/1/84	CH-7 to COMPTMAN Vol II P.O. 98-525	CSEAPAY rates changed. Additional longevity steps added for members with over 13, 14, 16, and 18 years sea time.
10/1/85	P.L. 99-145	Officers O-1 and O-2 under 4 years service became eligible for CSEAPAY if over 3 years sea duty. Warrant officer CSEAPAY rates increased, and longevity steps added for warrants over 14, 16, 18 and 20 years sea duty.
3/13/86	CH-12, PMIS Man. PPC Operations Man. Orig PMIS/JUMPS Man., Vol IV	VDEs 46, 47 and 48 added to P 112 and H 750 transactions for adjusting and verifying sea time. Segment 69 implemented.

10/1/86	P.L. 99-145 ALDIST 260/85 ALDIST 283/86 CH-13, PMIS Man. Art. 4-A-17, PERSMAN Orig CG Pay Man.	Crew flight pay rates increased. Years in service longevity steps eliminated. Eligibility extended to warrant officers in the AVI and ELC specialties.
11/4/88	CH-3, PMIS/JUMPS Man., Vol I	Aviation procedures for field units developed and published.

Segment 13 (Entitlement) Noncrew Flight Pay

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
1949	P.L. 81-351	Career Compensation Act established noncrew flight pay as a type of hazardous duty incentive pay. Rates set at $100 per month for officers and $50 per month for enlisted members.
1955	P.L. 84-20	Career Incentive Act increased rates to $110 and $55 per month respectively.
1/17/80	PMIS Man.	P 607 and L68 designated as start transactions, and P 625 and L68 as stop transactions.
10/1/81	P.L. 97-60	Enlisted rates increased to $83 per month.
10/1/86	P.L. 99-145	Enlisted rates increased to $110 per month.
11/4/88	CH-3, PMIS/JUMPS Man., Vol I	Aviation procedures for field units developed and published.

Segments 14/15/33 (Entitlement) Foreign Language Proficiency Pay/Demolition/Parachute Pay

Date	Reference	Summary of Change in Entitlement/Calculation/Reporting
1980	PPC Operations Man.	PMIS/JUMPS programmed to handle submarine duty, demolition duty, and parachute duty pay. H 608 designated as start/stop transaction, only to be input by HRSIC in future event pays activated.
1/1/2006	ALCOAST 585/05	Segment 14 converted for Foreign Language Proficiency Pay (FLP). SPOs can start FLP on Active Duty members using Direct Access to generate a P607 or R985 for Reserve members. P625 is used to stop FLP.

Segments 16/17/18/19 (Entitlement) Basic Allowance For Quarters

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
1949	37 USC 403	Career Compensation Act established BAQ with dependents and BAQ without dependents to members not assigned adequate quarters. Separate BAQ rates were established for each officer pay grade (O-1 thru O-8 and W-1 thru W-4). A set amount was established for enlisted personnel in pay grades E-5 thru E-7, and a second set rate for pay grades E-4 and below.
1950	P.L. 81-771	BAQ with dependent rates for E-1 thru E-3 set at graduated rate based on the number of dependents the member had.
6/1/58	P.L. 85-422	Pay grades O-9, O-10, E-8 and E-9 added, and BAQ rates for these pay grades incorporated.
10/1/63	P.L. 87-531	Individual BAQ rates based on member's pay grade were established.
10/1/67	P.L. 90-207	BAQ rates increased approximately 9%.
10/1/71	P.L. 92-129	BAQ rates increased. Graduated rates for E-1 thru E-3 based on number of dependents eliminated.
10/1/74 thru 10/1/82	37 USC 403 37 USC 1009(c) Orig PMIS Man.	BAQ rates increased annually on 1 October. On 10/1/76, partial BAQ adopted for members without dependents. On 1/17/80: L64 designated as start transaction for BAQ with dependents. P 607 and L68 designated as start transactions for BAQ without, partial BAQ, and inadequate quarters; P 625 and L68 designated as stop transactions for BAQ without, partial BAQ, and inadequate quarters. L68 designated as transaction for recording BAQ-PCS entitlements.
	CH-2, PMIS Man.	On 9/21/81, BAQ Quarters Codes revised. Code added for leased quarters.
	CH-4, PMIS Man.	On 11/4/81, the method for reporting BAQ/PCS on the L68 transaction revised.
1/1/84	37 USC 1009	BAQ rates increased 4%.
1/1/85	37 USC 1009 CH-7 to COMPTMAN	BAQ rates totally restructured.

Segments 16/17/18/19 (Entitlement) Basic Allowance For Quarters, Continued

Date	Reference	Summary of Change in Entitlement/Calculation/Reporting
10/1/85	37 USC 1009 ALDIST 021/86 Orig CG Pay Man.	BAQ rates increased 3%. Members E-7 and above without dependents on CSEAPAY eligible vessels entitled to continue receiving BAQ without dependents.
12/12/85	P.L. 99-275 ALDIST 021/86 CH-1, CG Pay Man.	Allowed BAQ with dependents to be paid to survivors for up to 90 days after member's death.
3/7/86	ALPERSRU 013/86 Orig PMIS/JUMPS Man., Vol II Orig CG Pay Man.	L64 designated as transaction for annual validation of BAQ. CG-4170A form discontinued.
3/13/86	CH-12, PMIS Man.	BAQ Quarters Codes for P 607 and L68 transactions revised.
1/1/87	37 USC 1009	BAQ rates increased 3%.
2/17/87	Orig PMIS/JUMPS Man., Vol II CH-1, CG Pay Man.	P 606 transaction implemented for BAQ starts/stops. BAQ Quarters Codes totally overhauled. PERSRUs delegated authority to approve non-questionable BAQ claims. (In past, unit CO had to approve enlisted non-questionable BAQ claims, and the servicing ACO had to approve officer claims.)
1/1/88	37 USC 1009	BAQ rates increased 2%.
2/12/88	CH-2, PMIS/JUMPS Man., Vol III CH-2, CG Pay Man.	Coast Guard authorized advance BAQ/VHA payments.
1/1/89	37 USC 1009	Basic pay increased 4.1%.
2/10/89	CH-4, PMIS/JUMPS Man., Vol II CH-4, CG Pay Man.	Eliminated requirement, in spouse-in-service cases, for one spouse to claim all BAQ-eligible dependents on the L64 transaction.

Segments 16/17/18/19 (Entitlement) Basic Allowance For Quarters, Continued

Date	Reference	Summary of Change in Entitlement/Calculation/Reporting
4/1/89	ALPERSRU 007/89 CH-5, PMIS/JUMPS Man., Vol II ALDIST 057/89 CH-4, PMIS/JUMPS Man., Vol I	New PMIS/JUMPS Entitlement Validation (CG-5507) form implemented for annual validation of BAQ/VHA entitlements.
9/7/89	CH-5, PMIS/JUMPS Man., Vol II	New L64 form implemented.
1/1/90	37 USC 1009	BAQ rates increased 3.6%.
2/5/90	CH-7, CG Pay Man.	BAQ dependency rules for member-mothers with illegitimate children changed.
1/1/98	P.L. 105-85	BAQ and VHA combined into new entitlement, BAH. Name changes include

Old	New	Segment
BAQ	BAH II	17/18
BAH/VHA	BAH I	34/35
BAQ Child	BAH DIF	19
BAQ Partial	BAH Partial	19

Members receiving Grandfathered BAQ will lose this entitlement upon PCS transfer.

Segment 20 (Entitlement) Clothing Maintenance Allowance

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
7/1/76	37 USC 418 CH-177, COMPTMAN Vol II	Current enlisted clothing allowance program implemented. Two types of clothing allowances authorized for enlisted members: (1) Basic Maintenance Allowance (BMA) effective from the 6th month of active duty thru the 36th month of active duty; (2) Standard Maintenance Allowance (SMA) effective upon the day after completion of the 36th month of active duty. PMIS/JUMPS programmed to automatically start segment 20 based on CMA date on page 1 of the JUMPS file (the CMA date being established from the L61 accession transaction). PMIS/JUMPS programmed to stop/restart CMA deductions automatically off deductible time transactions (e.g., action codes P 400, P 411, P 640, P 612, P 644, and P 616).
10/1/77 thru 10/1/89	37 USC 418	BMA and CMA rates increased annually on 1 October.
10/1/97	ALDIST 160/97	Reserve CMA (RCMA) superseded the replacement in kind program. Enlisted selective reserve members will receive RCMA on a per drill basis.

Segment 21/22 (Entitlement) Family Separation Allowance

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
1963	37 USC 427(b)	FSA-Type I established for members with dependents at rate equal to BAQ without dependents. FSA-Type II of $30 a month enacted for members with dependents who were in pay grade E-4 over 4 years service and above.
1/17/80	PMIS Man.	CG-5213 (L6BA) designated as input transaction for starts/stops of FSA in PMIS/JUMPS.
10/1/80	P.L. 96-342 ALDIST 276/80 COMPTMAN Vol II	FSA-II eligibility extended to members with dependents in pay grade E-1 thru E-4 with less than 4 years service.
10/1/86	P.L. 99-145 ALDIST 260/85 Orig CG Pay Man.	FSA-II increased to $60 per month.
11/13/86	CH-1, CG Pay Man.	Members electing "all others" tour of duty no longer entitled to FSA-Type II-Category R. (Members receiving FSA-R prior to 10/1/86 grandfathered under transferred PCS.) Members in temporary duty (either TEMDU or TAD) became entitled to FSA-Type II.
11/19/86	ALPERSRU 053/86 Orig PMIS/JUMPS Man., Vol I Orig PMIS/JUMPS Man., Vol II	New procedures promulgated for starting/stopping FSA-Type II-Category S to members on ship deployments over 45 days.
1/1/98	Query Manual	FSA-I renamed to FSH (Family Separation Basic Allowances for Housing)
11/1/99	ALPERSRU Z/99	FSH amounts incorporated into the OHA entitlement FSH terminated as an entitlement.

Segment 23 (Entitlement) Miscellaneous Allowances

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/ Calculation/Reporting</u>
6/1/58	37 USC 414(a) COMPTMAN Vol II	Personal money allowance became payable to O-9s and above. Rates set at $333.33 for COMDT, $183.33 for O-10s not serving as COMDT, and $41.67 for O-9s.
10/22/85	Orig PMIS/JUMPS, Vol III Orig PPC Ops Man.	H 608 designated as start transaction, and could only be input by ACOs and PPC.
2/13/90	CH-8, PPC Ops Man. CH-6, PMIS/JUMPS, Vol II	PPC assumed responsibility for inputting all H 608 transactions for personal money allowance.
4/17/06	2006 NDAA, P.L. 109-163	This segment renamed from **Personal Money Allowance** to accommodate payment of Combat SGLI Allowance and other allowances which may be authorized in the future.

Segments 24/25/26/27/28 (Entitlement) Basic Allowance For Subsistence

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
1949	37 USC 402	Career Compensation Act established present allowance for subsistence (BAS) for officers at a set rate.
1951 thru 1974	37 USC 402	Enlisted members not furnished subsistence in kind entitled to commuted rations (COMRATS) or leave rations (LVRATS).
10/1/74	P.L. 93-419	Law required BAS to be increased together with basic pay and BAQ whenever a pay raise was received.
10/1/75 thru 10/1/82	37 USC 1009	BAS rates increased annually on 1 October.
1/17/80	PMIS Man.	P 607 and L68 designated as start and stop transactions for regular BAS and special BAS. P 603 designated as start/stop transaction for partial BAS and supplemental BAS.
9/15/81	P.L. 96-513 ALDIST 311/81 ALDIST 321/81 ALDIST 330/81 CH-5, COMPTMAN Vol II CH-4, PMIS Man.	Separate rations (SEPRATS) entitlement adopted for enlisted members on leave, PCS, TAD, or hospitalization at other than an essential messing unit. P 607, L68, L69, and L63 designated for starts/stops of SEPRATS.
1/1/84	37 USC 1009	BAS/SEPRATS rates increased 4%.
1/1/85	37 USC 1009	BAS/SEPRATS rates increased 4%.
10/1/85	37 USC 1009	BAS/SEPRATS rates increased 3%.
8/15/86	ALDIST 210/86 ALPERSRU 045/86 CH-13, PMIS/JUMPS Man., Vol II	TAD endorsements (L69 transactions) deleted. Enlisted BAS/SEPRATS debits/credits resulting from TAD now made by travel ACO off travel claim. Only time PERSRU required to stop/restart BAS/SEPRATS due to TAD was when member TAD to essential messing unit for over 30 days.

Segments 24/25/26/27/28 (Entitlement) Basic Allowance For Subsistence, Continued

Date	Reference	Summary of Change in Entitlement/Calculation/Reporting
Date	Reference	Summary of Change in Entitlement/Calculation/Reporting
1/1/87	37 USC 1009	BAS/SEPRATS rates increased 3%.
1/1/88	37 USC 1009	BAS/SEPRATS rates increased 2%.
1/29/88	CH-2, CG Pay Man. CH-2, PMIS/JUMPS Man., Vol III	Authority for advance payment of enlisted BAS and SEPRATS deleted.
1/1/89	37 USC 1009	BAS/SEPRATS rates increased 4.1%.
10/1/89	ALPERSRU 034/89	Enlisted members became entitled to draw both SEPRATS and per diem while in a travel status at a non-essential messing unit. H 604 designated as input transaction to credit/debit SEPRATS/BAS.
1/1/90	37 USC 1009	BAS/SEPRATS rates increased 3.6%.
1/1/98	Defense Authorization Act of 1998	Created a new partial-subsistence allowance for enlisted personnel who eat in a military dining facility. Caps BAS increases for both Enlisted and Officer to 1%.
1/1/02	ALCOAST 596/01	BAS Reform was effective 1/1/02. All enlisted members now receive continuous BAS (REG BAS or ENL BAS). Members in an Essential Messing Status or TDY to a ship will have the Discount Meal Rate deducted. Partial BAS, SEPRATS, LVRATS and Special BAS were no longer valid after 12/31/01.
1/1/02	ALPERSRU D/02	Officer BAS-1150 REG BAS-11551 ENL BAS-1155D Segment 25 is no longer used. IDT COMRATS is recorded in Segment 26. Discount Meal Rate is recorded in Segment 27. Cadet COMRATS is recorded in Segment 28.

Segment 29 (Entitlement) Cost Of Living Allowance

Date	**Reference**	**Summary of Change in Entitlement/Calculation/Reporting**
7/2/42	37 USC 405	COLA implemented for members on duty OUTCONUS.
3/6/85	CH-10 to PMIS	Method for starting COLA in PMIS/JUMPS completely modified. P 607 and L68 designated as start transactions; P 411, P 612, P 616, P 625 and L68 designated as stop transactions; segment 29 utilized as storage segment. In past, COLA had been started by an H 670, stopped by an H 671, and stored in segment 47. Current COLA segment 47s converted by PPC to segment 29s. P 603 and segment 43 continued to be used for fractional (partial day) COLA.
7/12/85	CH-11 to PMIS	COLA locality code (entered on P 603, P 607, and L68 transactions) changed from 10 digits to 9 digits.
9/26/86	CH-3, JFTR COMGEN B-220227	Authorized COLA/OHA payment based on the date of arrival of a member's dependents at a vessel's new homeport even if member had not yet relocated.
11/1/86	CH-405 to JTR	Rescinded requirement to terminate COLA of members without dependents after 90 days deployment at sea.
1/1/87	JFTR	JTR replaced by JFTR. COLA regulations moved from Chap 4 of JTR to Chap 9 of JFTR.
3/1/87	CH-3, JFTR	Provided that COLA of members TEMDU between two COLA-eligible stations continued while on TEMDU even if government quarters occupied.
2/11/88	CH-2, PMIS/JUMPS Man., Vol II	P607 logic modified to automatically stop existing COLA entitlement on day prior to submission of a P 607. P 625 no longer required to also be submitted.
2/10/89	CH-4, PMIS/JUMPS Man., Vol II	COLA locality code (entered on P 603, P 607, and L68 transactions) changed from 9 digits to 5 digits.
10/1/92	JFTR	Authorized COLA unique amounts for England, Alaska, and Japan.

Segment 30 (Entitlement) New Enlistment Bonus

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
1/13/98	COMDTINST 7220.40	Enlistment Bonus Program became payable.

Segment 31 (Entitlement) CONUS COLA

Date	**Reference**	**Summary of Change in Deduction/Calculation/Reporting**
7/1/95	P.L. 103-337	CONUS COLA Allowances became payable.

Segment 32 (Deduction) Servicemen's Group Life Insurance

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Deduction/Calculation/Reporting</u>
9/29/65	P.L. 89-214 VA Handbook 29-75-1 COMPTMAN Vol II	SGLI program implemented. Required automatic coverage at maximum rate ($10,000) for all active duty members unless the member opted out via VA Form 29-8286.
6/25/70	P.L. 91-291	SGLI coverage increased to $15,000. Premiums increased.
5/24/74	P.L. 93-289	SGLI coverage increased to $20,000. Premiums increased.
11/17/80	PMIS Man.	PMIS/JUMPS programmed to automatically start SGLI coverage at maximum coverage upon processing of accession transactions (and to stop coverage upon a member being in a bad pay status for 31 days or more). Action code P 809 implemented for reporting members who decline or elect reduced coverage.
11/17/81	P.L. 97-66	SGLI coverage increased to $35,000. Premiums increased.
12/20/82	CH-8, PMIS Man.	Element codes on P 809 transaction renumbered.
1/1/86	P.L. 99-166 Orig CG Pay Man.	SGLI coverage increased to $50,000. Premiums increased.
1/7/86	ALPERSRU 002/86 CH-12, PMIS Man.	P 809 transaction totally overhauled.
11/4/88	CH-3, PMIS/JUMPS Man., Vol I	Field procedures for VA Form SGLV-8286 (for declining or electing reduced SGLI coverage) published.
4/6/91	P.L. 102-25	SGLI coverage increased to $100,000. Premiums increased.
10/29/92	P.L. 102-568	SGLI coverage increased to $200,000. Premiums increased.
7/1/94	VA Memo	SGLI premium increase from 8 cents to 9 cents per $1,000 coverage.
4/1/96	P.L. 104-106	SGLI automatic level of coverage increased from $100,000 to $200,000. No premium rate change.
7/1/97	VA Memo	SGLI premium reduction from 9 cents to 8.5 cents per $1,000 coverage.

4/1/01	PL 107-14	Effective 4/1/2001, SGLI automatic coverage increased from $200,000 to $250,000. No premium rate change, but five coverage options were added. They are as follows:

		Code	Coverage	Premium
		L	$210,000	$16.80
		M	220,000	17.60
		N	230,000	18.40
		O	240,000	19,20
		P	250,000	20.00

9/1/2005	PL 109-13	SGLI automatic coverage increased from $250,000 to $400,000. No premium rate change, but three coverage options were added. They are as follows:

Code	Coverage	Premium
Q	$300,000	19.50
R	350,000	22.75
S	400,000	26.00

For elections on or after September 1, 2005, codes of "1", "2", "3", "4", "B", "C", "D", "E", "G", "H", "I", "J", "L", "M", "N", or "O" are no longer valid.

Segment 34/35/36 (Entitlement) Variable Housing Allowance

Date	Reference	Summary of Change in Deduction/Calculation/Reporting
10/1/80	ALDIST 309/80 ALDIST 333/80 37 USC 403 CH-335, JTR	VHA implemented for members stationed in U.S. (other than Alaska and Hawaii) and for members stationed OUTCONUS whose dependents resided INCONUS. All reservists ordered to active duty eligible. VHA paid based on pay grade groups. Action codes P 411, P 607, P 612, P 616, P 625, and the L68 with VDEs 88 and 89 used to record VHA.
10/1/81	ALDIST 352/81	VHA rates changed. Tables based on individual pay grades vice groups.
10/1/82	37 USC 1009	VHA/BAQ rates changed.
1/1/84	P.L. 98-525	VHA/BAQ rates changed.
5/24/84	CH-9 to PMIS	Added VDE 83 to L68 transaction for recording entitlement to PCS-VHA.
9/4/84	COMPGEN B-214731	Ruled that members in court-martial confinement ineligible for VHA unless acquitted.
1/1/85	CH-7 to COMPTMAN	VHA/BAQ rates changed.
1/1/85	ALDIST 022/85	Members drawing BAQ with dependents solely because of court-ordered child support no longer entitled to VHA when assigned to single government quarters.
6/1/85	CH-388 to JTR	Provided that members occupying inadequate quarters were not eligible for VHA.
9/30/85	U8011, JFTR	Members drawing BAQ with dependents solely due to the member paying child support became only entitled to VHA without dependents and only when not in government quarters. Members presently drawing VHA at the with dependents rate grandfathered until their next PCS transfer.
10/1/85	P.L. 99-145	VHA/BAQ rates changed.
11/8/85	CH-396 to JTR	VHA implemented in Alaska and Hawaii. Newly reported members only entitled to VHA and not to OHA. Current members drawing OHA grandfathered for 4 years or until transferred.

Segment 34/35/36 (Entitlement) Variable Housing Allowance,
Continued

Date	Reference	Summary of Change in Deduction/Calculation/Reporting
12/12/85	CH-403 to JTR CH-5, PPC Operations Man.	Authorized VHA to continue for up to 90 days when member dies in line of duty.
3/1/86	COMDTNOTE 7220 of 5 Mar 86 JTR, Chap 4 ALCOAST 005/86 ALPERSRUs 005/007/ 010/021/022/028/037/86 CH-12 to PMIS	VHA offset created. Segment 36 created. P 608 prescribed as input transaction. VHA Offset Worksheet (CG-5425) prescribed. All members drawing VHA required to submit CG-5425 by 5/1/86 or would lose VHA effective 2/28/86.
4/25/86	CH-401 to JTR	Authorized members to receive VHA based on location of dependents vice duty station in special circumstances with Secretary approval.
11/3/86	COMPGEN B-223425 CH-17, JFTR	Ruled that members going on terminal leave are entitled to the same VHA they would have drawn had they gone on regular leave from the permanent duty station.
1/1/87	JFTR	JTR replaced by JFTR. VHA regulations moved from Chap 4 of JTR to Chap 8 of JFTR.
5/14/87	COMPGEN B-219192 U8008, JFTR	Ruled that reserve members are only entitled to VHA if ordered to active duty at one location for 20 weeks or more.
6/4/87	CH-9, JFTR	Members on TEMDU commuting from a new permanent residence (that will be occupied at new duty station) became entitled to VHA at new duty station rate.
2/11/88	CH-2, PMIS/JUMPS Man., Vol II	VDE 87 added to L68 transaction for stopping VHA with dependents of members on TEMDU commuting to new permanent residence.
2/12/88	CH-2, PMIS/JUMPS Man., Vol III CH-2, CG Pay Man.	Coast Guard authorized advance BAQ/VHA payments. H 605 and Money List used as input transaction. Payments could only be made off-line and not through system.

1/1/98	Query Manual	BAQ and VHA combined into one allowance, BAH (Basic Housing Allowance)

Old Term	New Term
BAQ/VHA	BAH
BAQ	BAH Type II
BAQ Partial	BAH Partial
BAQ Child	BAH Diff

Segment 38 (Deduction) Indebtedness

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Deduction/Calculation/Reporting</u>
10/22/85	Orig PMIS/JUMPS Man., Vol III (old) PPC Operations Man.	Programming completed to record indebtedness in segment 38. Indebtedness of $100 or more collected in 5 monthly installments. Indebtedness less than $100 collected lump sum. Segment 38s could be built by Compute processing of retroactive transactions or via input of H 605 document. Servicing ACOs authorized to input H 605s to record indebtedness due to: excess household goods shipments; clothing locker sales; unliquidated or overpaid travel advances; emergency government TRs; and GAO Notices of Exception. Only PPC could input H 605s to record indebtedness for: IRS tax levies; court-ordered garnishments; and private property damages. Only PPC could close segment 38s to reflect remission and waiver approvals.
8/1/87	ALPERSRU 021/87 ALPERSRU 024/87 CH-1, PMIS/JUMPS Man., Vol III CH-1, PMIS/JUMPS Man., Vol I CH-2, PPC Operations Man.	PPC assumed responsibility for inputting H 605 transactions for indebtedness due to: excess household goods shipments; emergency government TRs; and other miscellaneous indebtedness (hospital charges, bad checks to NAFA, etc.). Servicing ACOs now only authorized to input H 605 for transactions unliquidated/overpaid travel advances and clothing locker sales.
11/6/87	CH-1, PMIS/JUMPS Man., Vol I CH-5, PPC Operations Man.	Redefined "routine adjustments". Provided for collection of overpayments less than $100 lump sum in the month discovered; collection of overpayments from $100-$300 at a rate of $100 per month beginning the month after discovered; and collection of overpayments over $300 in 5 equal monthly installments beginning the month after discovered.
2/12/88	ALPERSRU 013/88 ALPERSRU 015/88 CH-2&3, PMIS/JUMPS Man., Vol I CH-3, PMIS/JUMPS Man., Vol III CH-3, PMIS/JUMPS Man., Vol II CH-5&6, PPC Operations Man. CH-2&3, CG Pay Man.	Prescribed new CG-5475 (L6KA) transaction for effecting deductions for clothing locker sales--H 605 transaction no longer used for this type of indebtedness. Authorized collection of indebtedness to CG Mutual Assistance from members' final pay. New waiver/remission procedures developed and published. Prescribed that indebtedness due to member receiving duplicate payment after claiming non-receipt would be collected lump sum from available pay.

Segment 38 (Deduction) Indebtedness, Continued

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Deduction/Calculation/Reporting</u>
5/12/88	CH-4, PPC Operations Man.	New element code added to PPC H 605 transaction for recording collection of indebtedness due to overpayment. Prescribed that H 605 (and segment 38) shall no longer be used for overpayments less than $100. (H 604 transaction and segment 44 used instead.)
2/9/89	CH-4, CG Pay Man.	Authorized collection of indebtedness for failure to clean government quarters.
1/16/90	CH-5, PMIS/JUMPS Man., Vol I CH-8, PPC Operations Man. CH-7, CG Pay Man.	Provided for collection of overpayments less than $100 lump sum in the month discovered; collection of overpayments from $100-$500 at a rate of $100 per month beginning the month after discovered; collection of overpayments over $500 and less than $2,000 in 5 equal monthly installments beginning the 3rd month after discovered; and set special collection rules for overpayments of $2,000 or greater.

Segments 39/40/41 (Entitlement) Advance Pay And Allowances, Advance Pay, Advance BAH/OHA (Old Advance BAQ/VHA/OHA)

Date	Reference	Summary of Change in Entitlement/Calculation/Reporting
10/22/85	Orig PMIS/JUMPS Man., Vol III (old)	PMIS/JUMPS procedures for payment of advance pay & allowances, advance pay, and advance BAS/SEPRATS/ LVRATS/OHA developed and published. Advances could only be paid off-line. H 605 and Money List designated as input transactions. Segments 39 and 45 utilized to record advance pay & allowances; segments 40 and 45 used to record advance pay; and segments 41 and 45 used to record advance BAS/ SEPRATS/LVRATS/OHA.
4/4/86	ALPERSRU 019/86 CH-1, PMIS/JUMPS Man., Vol III (old)	Required use of VDE 29 together with VDE 07 when changing advance payliquidation schedules on action code H 605.
8/27/86	CH-2, PMIS/JUMPS Man., Vol III (old)	Required advance pay payments to be made through PMIS/JUMPS -- H 605 designated as sole input transaction. Money List designated sole input transaction for advance pay & allowances (which were still paid off-line).
10/28/86	ALPERSRU 052/86 Orig PMIS/JUMPS Man., Vol III (new)	Authority for servicing ACOs to make advance pay payments off-line reinstated. H 605 and Money List redesignated as input transactions.
2/4/87	Orig PMIS/JUMPS Man., Vol III	Allowed payment of advance pay and advance pay & allowances through the system--either could now be paid off-line or through system. Prescribed use of H 605 transction (only) for advance pay and for advance pay & allowance payments made through the system, and Money List (only) for advance pay and advance pay & allowance payments made off-line.
1/29/88	CH-2, CG Pay Man. CH-2, PMIS/JUMPS Man., Vol III CH-3, PPC Operations Man.	Chapter 9 published. Authorized advance BAQ/VHA to be paid to CG members. Deleted authority for payment of advance BAS/SEPRATS/LVRATS.
2/12/88	CH-2, PMIS/JUMPS Man., Vol III CH-3, PPC Operations Man.	Procedures for advance BAQ/VHA published. H 605 and Money List used as input transactions. Payments could only be made off-line and not through system. Segments 41 and 45 used to record advance BAQ/VHA payments.

Continued on next page

Segments 39/40/41 (Entitlement) Advance Pay And Allowances, Advance Pay, Advance BAH/OHA (Old Advance BAQ/VHA/OHA), Continued

Date	Reference	Summary of Change in Entitlement/Calculation/Reporting
2/9/89	CH-4, CG Pay Man.	Added requirement for CO approval prior to all advance pay & allowance payments, and prior to advance pay payments to E-4s and below. Added requirement that PCS moves be over 25 miles before entitlement to advance pay existed.
2/22/89	CH-4, PMIS/JUMPS Man., Vol III	Required that advance pay and advance pay & allowances be paid through the system (and not off-line) except in bona fide emergencies.
9/7/89	CH-5, PMIS/JUMPS Man., Vol III	Required PPC authorization prior to making any off-line advance payments.
2/13/90	CH-6, PMIS/JUMPS Man., Vol II CH-6, PMIS/JUMPS Man. , Vol IV CH-8, PPC Operations Man.	Added capability to pay advance BAQ/VHA/OHA through system in addition to off-line. Required only H 605 to be input if paid through system, and only Money List if paid off-line. Moved procedures for H 605 and Money List from Chap 5 of Vol III to Chaps 2 and 3 of Vol II.
1/1/98	Query Manual	Renamed to BAH/OHA due to the new BAH allowance and the elimination of VHA.

Segment 42 (Entitlement) Special Enlistment Program/Selective Reenlistment Bonus

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
10/1/74	37 USC 308 COMPTMAN Vol II	Present selective reenlistment bonus (SRB) authority enacted. Replaced Regular Reenlistment Bonus (RRB) program. (Grandfathered members on active duty on 6/1/74 who had received less than $2,000 RRB/VRB to potentially receive additional RRB payment.)
5/4/79	COMDTINST 7220.13E	CG policy on SRBs published. Only allowed Zone A payments. Maximum set at $12,000.
7/24/79	COMDTNOTE 7220	SRB multiples changed.
1/17/80	PMIS Man.	Action code P 600 designated as input transaction for recording SRB payments made by servicing ACOs. Action code P 669 designated for recouping SRB/VRB/RRB payments.
10/1/80	ALCOAST 011/80 ALCOAST 009/80	Maximum SRB amount increased to $16,000. Zone B payments authorized to members with 6-10 years service.
6/4/81	ALCOAST 013/81	Authority for COs to authorize lump sum SRB payments cancelled.
9/15/81	ALDIST 315/81	Authority for COs to authorize lump sum SRBs reinstated.
2/15/82	ALDIST 004/82	SRB multiples changed.
4/15/82	ALDIST 068/82	SRB multiples changed. Authority for COs to authorize lump sum SRBs cancelled. COs authorized to approve up to 50% initial installment.
5/18/82	COMDTINST 7220.13F	New CG policy on SRBs published.
7/8/82	COMDTNOTE 7220	SRB multiples changed.
7/26/82	CH-7 to PMIS Man.	New element code added to P 600 transaction for recording initial SRB entitlements.

8/24/89	CH-7, PPC Operations Man.	Procedures for action codes H 600, H 601, and H 875 rewritten in their entirety.
9/7/89	CH-5, PMIS/JUMPS Man., Vol II	New exhibit added to Vol II to define P 602 submissions per COMDTINST 7220.33.
3/1/90	ALDIST 022/90	SRB multiples changed.
10/1/90	ALDIST	Special Enlistment Program initiated.

Segment 45 (Deduction) Special Payments

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Deduction/Calculation/Reporting</u>
10/22/85	Orig PMIS/JUMPS, Man. Vol III (old) PMIS/JUMPS Man., Vol IV	Money List (CG-3079) (L6HA) designated as input transaction for recording off-line payments in segment 45. H 605/VDE 14 designated for use in recording that an off-line check payment was being cancelled--H 605/VDE 14 could only be input by PPC. Servicing ACOs authorized to input L6HA transactions, but required to obtain PPC authorization prior to making off-line payments other than advances.
6/5/86	ALPERSRU 034/86 CH-2, Orig PMIS/ JUMPS Man., Vol III	Servicing ACOs authorized to input H 605/VDE 14 transactions to record cancellation of special payments for advance pay, advance pay & allowances, or advance OHA.
9/7/89	CH-5, PMIS/JUMPS Man., Vol III	Required servicing ACOs to receive PPC authorization prior to making off-line payments of advance pay, advance pay & allowances, and advance BAQ/VHA/OHA.

Segment 46 (Entitlement) Overseas Housing Allowance

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
7/1/81 to 6/30/82	ALDIST 297/81 CH-2, PMIS	Rent Plus Housing Allowance (RPHA) began. Phased in over twelve month period. Replaced Housing Allowance (HOLA). Members drawing HOLA grandfathered for 4 years or until PCS -- these members had option to draw HOLA or RPHA. Action codes P 609, H 670, and H 671 used for starts/stops of RPHA. Segment 46 used to store RPHA data, and segment 47 used to store RPHA amounts.
10/1/82	37 USC 1009	BAQ rates increased, resulting in changes to RPHA amounts.
12/30/82	CH-8, PMIS	Action code P 609 completely revised.
1/1/84	P.L. 98-525	BAQ rates increased, resulting in changes to RPHA amounts.
10/1/84	M4301d, JTR	Maximum rental ceiling for members without dependents set at 80% of ceiling for members with dependents (unless specified otherwise in Appendix of JTR). Grandfather clause allowed members already drawing RPHA to not have to comply until 1 October 1988.
1/1/85	CH-7 to COMPT Vol II	BAQ rates increased, resulting in changes to RPHA amounts.
4/30/85	CH-10 to PMIS Orig PMIS/JUMPS Man. Vol III	Method for reporting, changing, and storing OHA in PMIS/JUMPS completely modified. New H 609 transaction introduced. P 609 and segment 46 revised to show RPHA amounts. PERSRUs required to forward P 609s to ACOs for input of actual dollar amount in element column of VDE01. Use of H 670 and H 671 transactions and segment 47 for RPHA discontinued. Current OHA segment 47s converted by PPC to segment 46s.
7/12/85	CH-11 to PMIS	Deleted requirement to record RPHA amount on P 609. PMIS/JUMPS programmed to calculate RPHA amount based on other variables provided on P 609.
10/1/85	CH-392, JTR	Term "Rent Plus Housing Allowance" changed to "Overseas Housing Allowance".
10/1/85	P.L. 99-145	BAQ rates increased resulting in changes to OHA amounts.

Segment 46 (Entitlement) Overseas Housing Allowance,

Continued

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
11/8/85	CH-396, JTR	Members newly assigned to Alaska or Hawaii after this date not entitled to OHA-- entitled to VHA instead. Members already drawing OHA grandfathered for four years.
12/12/85	CH-403, JTR CH-5, PPC OPS Man.	Authorized OHA to continue for up to 90 days when member Dies in line of duty.
3/13/86	CH-12, PMIS CH-399, JTR	Implemented scoring and climate system for calculating utility/recurring maintenance allowance amounts. OHA worksheet published as an aid.
5/14/86	CH-402, JTR	Provided that OHA of members departing Alaska or Hawaii on PCS could no longer continue beyond date of member's PCS departure.
8/21/86	CH-13, PMIS CH-1, Orig PMIS/ JUMPS Vol III	New codes established for VDEs 07 and 09 on the P 609. OHA computation worksheet developed for use with H 609.
9/26/86	CH-3, JFTR COMPGEN B-220227	Authorized OHA/COLA payment based on the date of arrival of a member's dependents at a vessel's new homeport even if member had not yet relocated.
11/1/86	CH-405, JTR	Requirement to terminate OHA/HOLA/COLA for members without dependents after 90 days deployment at sea rescinded.
1/1/87	JFTR	JTR replaced by JFTR. OHA regulations moved from Chap 4 of JTR to Chap 9 of JFTR.
1/1/87	P.L. 99-661	BAQ rates increased, resulting in changes to OHA amounts.
2/1/87	CH-2, JFTR PMIS/JUMPS Man. Vol III PMIS/JUMPS Man. Vol IV	Authorized advance payment of OHA/VHA to pay advance rent, security deposits, or initial occupancy expenses. H 605 and money list designated as input transactions, and segment 41 as storage media.
3/1/87	CH-3, JFTR	Provided that OHA of members TEMDU between two OHA-eligible stations continued while on TEMDU even if government quarters occupied.

5/24/88	CH-2, PMIS/JUMPS Man., Vol II	Segment 30 entitled "Housing Allowance" discontinued, as entitlement to grandfathered HOLA had expired 6/30/86.
1/1/89	CH-4, CG Pay Man.	BAQ rates increased, resulting in changes to OHA amounts.
11/8/89	U8012, JFTR	Grandfathered members in Alaska or Hawaii drawing OHA converted to VHA.
1/1/90	CH-7, CG Pay Man.	BAQ rates increased, resulting in changes to OHA amounts.
2/13/90	CH-6, PMIS/JUMPS Man., Vol II CH-6, PMIS/JUMPS Man., Vol IV	Interim Housing Allowance merged into OHA. VDEs added to P 609 to start and stop interim housing allowance. VDEs deleted from P 607, P 625, and L68 for stopping/starting Interim HOLA. Segment 31 entitled "Interim Housing Allowance" discontinued.
5/1/99	ALPERSRU J/99	Fields to identify foreign currency amounts, codes, and exchange rates added.
11/1/99	ALPERSRU Z/99	Inclusion of BAH II and FSH amounts within OHA.

Segment 49 (Entitlement) Flight Deck Hazardous Duty Incentive Pay

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
1/1/84	ALDIST 284/83 CH-5, COMPTMAN Vol II CH-9, PMIS Man.	Coast Guard implemented FDHDIP at rate of $110 per month for officers and $83 per month for enlisted members assigned to 378 ft, 270 ft, 210 ft, and icebreaker vessels. Action code P 607 designated for use in paying entitlement on monthly basis.
10/1/85	P.L. 99-145	Enlisted rates increased to $110 per month.
11/4/88	CH-3, PMIS/JUMPS Man., Vol I	Aviation procedures for field units developed and published.

Segments 50/51 (Deduction) Fines/Forfeitures

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Deduction/Calculation/Reporting</u>
8/10/80	Orig PMIS Man. COMPTMAN Vol II Man. for Courts-Martial CG Military Justice Man.	Court Memorandum (CG-3304) (L6AA) implemented as transaction for recording fines and forfeitures in PMIS/JUMPS. Segment 50 used to record fines imposed by court-martial. Segment 51 used to record forfeitures of pay imposed by court-martial or nonjudicial punishment.
3/13/86	CH-12, PMIS Man.	Instructions for preparation of L6AA transaction totally rewritten.
2/13/90	CH-6, PMIS/JUMPS Man., Vol II CG Pay Man. CH-6, PMIS/JUMPS Man.,Vol IV CH-5, PMIS/JUMPS Man.,Vol I	Method for recording fines on the L6AA transaction revised -- eliminated requirement for member to sign consent to fine checkage prior to effecting the checkage.

Segment 52 Permanent Unit

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Segment/Calculation/Reporting</u>
6/16/86	PMIS/JUMPS Man., Vol IV	Segment 52 implemented for recording a history of permanent duty and temporary duty stations. Segment 52 updated by: (1) Departing and reporting Endorsements on Orders (L68s) (2) Accession transactions (i.e., L19s) (3) RELAD transactions (L68s)

Segment 53 Home Awaiting Disciplinary Action (HADA)/Home Awaiting Orders Status (HAOS)

Date	Reference	Summary of Change in Segment/Calculation/Reporting
8/10/80	Orig PMIS/JUMPS Man., Vol II PMIS/JUMPS Man., Vol IV PPC Operations Man. PERSMAN Art. 12-B-44 & 7-A-5 COMPTMAN Vol II Military Justice Man.	Segment 52 implemented for recording members at home awaiting separation for physical disability (HAOS) or on appellate leave awaiting punitive separation adjudged by a court-martial (HADA). Programming instituted to build a segment 53 off of a reporting L68 transaction (with nature of duty code B or D). H 998 transaction established for use by PPC in establishing a "KILL DT" in segment 53 to terminate leave accrual in PMIS/JUMPS.
6/30/89	CH-6, CG Pay Man. CH-5, PMIS/JUMPS Man., Vol II	Authorized members going on appellate leave (HADA) to receive lump sum leave.

Segment 54 (Deduction) VEAP Education

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Deduction/Calculation/Reporting</u>
1/1/77	P.L. 94-502 CG Training & Education Man. COMPTMAN Vol II	Post-Vietnam Era Veterans' Educational Assistance Program (VEAP) established for members first entering military service on or after 1/1/77. Contributory program with government matching contributions at $2 to $1. Maximum contribution by member set at $2,700 (with government putting in up to $5,400). CG-4222 (allotment code E) designated as transaction for effecting payroll deductions under Man. allotment system.
6/21/84	ALPERSRU 012/84 CH-10, PMIS Man. PPC Operations Man.	Allotment payments through PMIS/JUMPS implemented. CGÇ4222 designated as start/stop/change transaction for VEAP allotments. CG-4222 could only be input by servicing ACOs. Action code H 800 designated for use by PPC in correcting VEAP segment 54s. Action code H 801 developed for PPC use in recording lump sum payments of VEAP.
6/30/85	P.L. 94-502 ALCOAST 005/85 ALDIST 129/85	VEAP program officially expired.
10/28/86	P.L. 99-576 ALCOAST 056/86	New legislation passed to allow enrollment in VEAP past original 6/30/85 deadline. Deadline for enrollment extended to 3/31/87.
4/16/87	ALPERSRU 009/87 ALPERSRU 011/87 Orig PMIS/JUMPS Man., Vol II	PERSRUs assumed responsibility for inputting CG-4222s to stop/change VEAP allotments.

Segment 55 Credit Cash Deposit

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Segment/Calculation/Reporting</u>
10/22/85	Orig PMIS/JUMPS Man. Vol III (old) PPC Operations Man.	H 605/VDE 09 designated as input transaction for recording that a member had made a cash or check deposit to offset indebtedness, to offset an advance, or to liquidate a court-martial fine. H 605/VDE 09 could be input by servicing ACOs and PPC.
2/12/88	CH-2, PMIS/JUMPS Man., Vol III CH-2, PMIS/JUMPS Man., Vol I CH-3, PPC Operations Man.	Required all cash/check deposits be submitted to PPC for processing and input of H 605/VDE 09 transaction. Servicing ACOs no longer authorized to prepare H 605/VDE 09.

Segment 57/70 Pay Status

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Segment/Calculation/Reporting</u>
8/10/80	PMIS Man. PPC Operations Man.	Following transactions prescribed for updating pay status in segment 57: L61/L65 (Accessions) P 203/P 214/P 253/P 266/P 633/L68 (Separations) P 240/P 400/P 411/P 612/P 616/P 640/P 642/P 644 (Deductible time) L63/L68 (Excess leave) P 231/P 232/H 448 (Missing status)
11/8/88	CH-3, PMIS/JUMPS Man., Vol IV	New pay status code RI added to segment 57 to designate reserve members not paid by PMIS/JUMPS.
2/10/89	CH-4, PMIS/JUMPS Man., Vol II	Action code P 642 deleted.
5/11/89	CH-4, PMIS/JUMPS Man., Vol IV	New pay status code CS added to segment 57 for military confinement. Pay Status code WR (work release) deleted.
11/6/89	CH-5, PMIS/JUMPS Man., Vol IV CH-7, PPC Operations Man.	Segment 70 created for recording out of retro pay status adjustments. PPC-only H 748 transaction prescribed for updating segment 70. Three fields added to Segment 57.

Segment 58 Pay Grade

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Segment/Calculation/Reporting</u>
8/10/80	PMIS Man. Headquarters Man.	Following transactions prescribed for updating pay grade in segment 58: L61/L65 (Accessions) P 555/P 341/L6AA/L68 (Field enlisted advancements & reductions) P 205/P 222 (Officer integration's and reversions) L45/H 275/H 300/H 301/H 350 (Officer promotions and enlisted servicewide advancements)
9/17/89	CH-5, PMIS/JUMPS Man., Vol II CH-4, PMIS/JUMPS Man., Vol V	Action code P 222, for officer integration, replaced by action code H 222, and could only be input by Headquarters.

Segment 61 (Deduction) TRICARE Family Member Dental Insurance Program

Date	Reference	Summary of Change in Deduction/Calculation/Reporting
8/1/87	10 USC 1076(a) ALCOAST 015/87 ALPERSRUs 010/015/017/ 026/027/87 CH-3, CG Pay Man. CH-1, PMIS/JUMPS Man., Vols I, II, & IV	Dependent dental insurance program implemented. Members on active duty as of 6/30/87 who had CHAMPUS-eligible dependents and were stationed INCONUS were automatically enrolled, unless the member opted out via submission of a DD Form 2494 (and PERSRU input of a P 810 transaction). Payroll deductions began 7/1/87. Action code P 810 implemented as start/stop transaction, and segment 61 implemented as storage media. (Members entering the Coast Guard after 6/30/87 not automatically covered--action code P 810 required to be submitted.)
11/16/87	CH-2, PPC Operations Man.	Action code H 810 developed for use by PPC in correcting segment 61.
8/9/88	CH-3, PMIS/JUMPS Man., Vol II	Added new element code to P 810 transaction for stopping dental insurance coverage due to member obtaining other dental coverage. Required PERSRUs to research DEERS data base prior to inputting P 810 transactions. Prohibited "C" and "D" type entries on P 810 transactions.
1/16/90	CH-5, PMIS/JUMPS Man., Vol I	DD Form 2494 replaced by DD Forms 2494R and 2494R-1.
3/1/93	10 USC 1076(a) ALCOAST 023/93 E-mail ALPERSRU I/93, and R/93 CH-12, PMIS/JUMPS Man., Vol II CH-5, PMIS/JUMPS Man., Vol IV	Expanded Dependent dental insurance program implemented. Members on active duty as of 2/01/93 who had CHAMPUS-eligible dependents and were stationed INCONUS and had 24 months remaining were automatically enrolled, unless the member opted out via submission of a DD Form 2494 (and PERSRU input of a P 810 transaction with the new disenrollment code of "D" on VDE 20). All current enrollees were rolled over regardless of time remaining. Payroll deductions began 3/93.
10/1/97	Section 702 of the 1997 Nat. Defense Authorization Act, ALDIST 185	Selected Reserve Dental Program implemented for eligible reserve members only. Enrollment/disenrollment are between the reserve member and the contractor. Payroll deduction are withheld for premiums when there is sufficient pay.
1/1/01	PL 106-65	Completely revised 10 USC 1076a (Active Duty dental) and struck 10 USC 1076b (SELRES dental). Active duty dental will now be handled by allotment (SEG 77). SELRES dental will still be deducted using Segment 61.
10/1/01	PL 106-265	Congress amended title 5, USC to establish a program under which long term care insurance is made available to Federal employees, members of the Uniformed services and civilian and military retirees. Segment 61 is revised to allow its use for both Reserve Dental and Reserve Long Term Care.

Segments 62/74 (Entitlement) Leave

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
1946	P.L. 79-704	Armed Forces Leave Act established current military leave system. Members earned 2 days leave per month and could accrue up to 120 days.
1950	P.L. 81-818	Limited leave balances at end of fiscal year to 60 days.
8/28/65	COMPTMAN Vol II	Authorized lump sum leave to be paid to survivors upon a member's death.
7/14/76	37 USC 501 CG Personnel Man.	Authorized members to receive payment for portion of accrued leave and carry rest of accrued leave forward. Prohibited payment of lump sum leave to members discharged to accept appointment as officer.
9/1/76	37 USC 501	Changed lump sum leave payment rules. LSL paid only based on basic pay. (In past, paid based on basic pay, BAQ, BAS, and PMA.) Grandfathered accrued leave as "saved leave (SLB)". Lump sum leave payments limited to 60 days total during a member's military career.
10/1/78	JUMPS Leave Verification Coding Sheet Instructions	Automated leave accounting system began on test basis in parallel with Man. leave records.
10/1/79	P.L. 96-579 COMDTINST M1080.5	Allowed deployed members to have leave balances of up to 90 days at end of fiscal year.
2/1/80	COMDTINST 1050.10	Coast Guard implemented totally automated leave system. Man. leave records (CG-3305 and CG-9537A) closed out and forwarded to PPC. L63, L68 and L69 designated as input transactions for charging leave; L6FA, L62, L68, and L67/P 198/P 203/P 214 designated as input transactions for selling leave; L67/H 414 designated as PPC leave adjustment transaction. LES adopted as formal leave feedback report.
4/11/85	ALPERSRU 018/85 ALPERSRU 045/85 CH-12, PMIS Man.	PPC leave audit rules/policies rewritten to be more restrictive.

Segments 62/74 (Entitlement) Leave, Continued

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Entitlement/Calculation/Reporting</u>
11/8/85	P.L. 99-145 CH-2, CG Pay Man. CH-1, CG Personnel Man.	Effective date of 60-day lump sum leave limitation changed from 9/1/76 to 2/9/76.
8/15/86	ALDIST 210/86 ALPERSRU 045/86 CH-13, PMIS Man.	L69 transaction for recording TAD eliminated. Leave in conjunction with TAD now required to be reported via L63 transaction.
11/14/86	CH-1, CG Pay Man. CH-1, CG Personnel Man.	Excess/advance leave policies changed.
6/30/89	CH-6, CG Pay Man.	Authorized members going on appellate leave to elect LSL. Prohibited LSL payments to officers who resign prior to their impending discharge, and who continue in the service.

Segment 63 (Deduction) Montgomery GI Bill

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Deduction/Calculation/Reporting</u>
7/1/85	P.L. 98-525 CG Training & Education Man. Orig CG Pay Man.	Established new educational program for regular and reserve members first entering service between 7/1/85 and 6/30/88. Program called for enrollment during first two weeks of active duty unless member opted out. Pay reduction was $100 per month for 12 months, with coverage irrevocable. CG-4222 (allotment code F) designated as PMIS/JUMPS input transaction.
6/30/88	P.L. 98-525	MGIB program officially expired.
12/1/88 to 6/30/89	ALCOAST 056/88 ALPERSRU 029/88	Open period established to allow members entering active duty between 7/1/85 and 6/30/88 who had previously declined MGIB coverage to opt into the program or re-decline.
1/1/98	COMDTINST 1760.10	Established active duty kicker program. Members in critical ratings are eligible to receive up to $30,000 for college.
5/1/98	SCP 98012	Lump sum payment amount, entry date, and deposit number fields added.

Segments 64/65/66/67/68 (Deduction) Taxes

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Deduction/Calculation/Reporting</u>
8/10/80	PMIS Man. PPC Operations Man.	Following transactions prescribed for updating taxes in segments 64 thru 68: L6EA (Tax Information Form) L67/P 357 (Naturalization) L67/P 607/P 625 (Combat Tax Exclusion) L67/H 540/H 545 (PPC Adjustments)

Segments 76/77/78/79 (Deduction) Allotments

<u>Date</u>	<u>Reference</u>	<u>Summary of Change in Deduction/Calculation/Reporting</u>
6/21/84	ALPERSRU 012/84 CH-10, PMIS Man. Orig PMIS/JUMPS Man., Vol III Orig PMIS/JUMPS Man., Vol I Orig PPC Operations Man.	Allotment payments through PMIS/JUMPS system implemented. CG-4222 designated as start/stop/change transaction, and segments 76 thru 79 designated for storing allotment data. CG-4222s could only be input by servicing ACOs. Action codes H 800 and H 851 developed for use by PPC in changing allotment addresses, correcting allotment segments, and converting individual/blanket allotments to blanket/individual allotments.
8/21/86	CH-13, PMIS Man. CH-2, Orig PMIS/JUMPS Man., Vol III	ACOs assumed responsibility for inputting allotment address changes via H 800 transaction.
4/16/87	ALPERSRU 009/87	PERSRUs assumed responsibilty for inputting CG-4222s into PMIS/JUMPS.
	ALPERSRU 011/87 Orig PMIS/JUMPS Man., Vol II Orig PMIS/JUMPS Man., Vol III Orig PMIS/JUMPS Man., Vol I CH-1, CG Pay Man.	Savings allotments converted from segment 76 to 77 -- direct deposit procedures implemented for all savings allotments. Action code H 800 became action code P 800, and PERSRUs assumed responsibiity for inputting this transaction.
8/5/87	CH-1, PMIS/JUMPS Man., Vol II	3-digit allotment number required to be shown on CG-4222s submitted to stop an allotment.
2/1/88	CH-2, CG Pay Man.	New savings bond denominations adopted.
2/13/90	CH-6, PMIS/JUMPS Man., Vol II CH-5, PMIS/JUMPS Man., Vol I	New CG-4222 form implemented. Allotment procedures totally rewritten.
1/1/00	P.L. 106-65	TRICARE Dental Program (Active Duty) is now handled as an allotment (Purpose Code "J"). Members will enroll, disenroll, or change program options directly with the civilian contractor. No PERSRU input is required.
10/1/02	P.L. 106-265	Congress amended title 5, USC to establish a program under which long term care insurance is made available to Federal employees, members of the Uniformed services and civilian and military retirees. Active duty members who elect Long Term Care will have a Blanket allotment in Segment 77.

Segment 85 Thrift Savings Plan

<u>Date</u>   <u>Reference</u>   <u>Summary of Change in Segment/Calculation/Reporting</u>

01/02 ALCOAST 462/01   Created to facilitate participation in the Thrift Savings Plan (TSP). The CY02 Legislative Pay change included a provision by congress that would allows the Uniformed Services to participate in the Thrift Savings Plan. Service members are eligible to deposit up to seven percent of their basic pay, before tax each month beginning in January 2002. If they participate in a deduction of base pay for TSP, members would, in addition, be able to contribute between 1 and 100% of their special pay, between 1 and 100% of their incentive pays, and between 1 and 100% of their bonuses, up to the IRS deferral limitation ($10,500 in 2001). All of these contributions are voluntary. The legislative limits for Base Pay contributions will increase each year beginning in 2003, until the year 2006, when the percentage limitation will disappear.
