CITATION

**SAFETY AWARD FOR EXCELLENCE
CAMARILLO DISTRICT
PACIFIC OCS REGION**

**UNOCAL
PLATFORM HENRY
OCS-P-0240
SANTA BARBARA CHANNEL**

The Camarillo District Safety Award for Excellence (SAFE) is presented to Unocal for the period July 1 through December 31, 1992, for safe operating practices and professional adherence to the operating regulations while conducting operations on Platform Henry in the Santa Barbara Channel, California.

During the period of evaluation, Platform Henry was inspected by the Minerals Management Service 33 times. The results of each inspection indicated that personnel on Platform Henry were very safety conscious and aware of the operating regulations. In addition, general housekeeping was outstanding and cooperation with the Minerals Management Service inspectors was excellent. Personnel training in operation of safety and pollution prevention equipment and devices, environmental awareness, first aid, water survival, and fire fighting consistently demonstrated Unocal's commitment to the maintenance of an extremely qualified work force.

The purpose of the SAFE program is to recognize and encourage operational safety, environmental protection and adherence to the operating regulations. The Secretary of the Interior and the Director of the Minerals Management Service join me in congratulating Unocal and their employees at Platform Henry for achieving the goals of the SAFE program.

J. LISLE REED
REGIONAL DIRECTOR
PACIFIC OCS REGION
