--------	----	---------	--	--	---	---	----	--	--------------------------

A few trees were blown down.

Chicot County

10 W Eudora	22	0147CST			0	0			Thunderstorm Wind (EG51)
-------------	----	---------	--	--	---	---	--	--	--------------------------

LOUISIANA, Northeast

Madison Parish

Delta	07	1510CST			0	0	15K		Thunderstorm Wind (EG55)
-------	----	---------	--	--	---	---	-----	--	--------------------------

A portion of a roof was blown off a mobile home along with the porch.

Richland Parish

3 ESE Rayville to 2 E Warden	13	1630CST 1642CST			0	0			Hail(1.00)
---------------------------------	----	--------------------	--	--	---	---	--	--	------------

A swath of quarter sized hail from just east of Rayville to the Warden Community.

West Carroll Parish

1 S Epps	13	1640CST			0	0			Hail(0.88)
----------	----	---------	--	--	---	---	--	--	------------

East Carroll Parish

15 W Sondheimer to 2 E Sondheimer	13	1642CST 1710CST			0	0			Hail(0.88)
--------------------------------------	----	--------------------	--	--	---	---	--	--	------------

A swath of nickel sized hail fell from a supercell thunderstorm that moved across the far southern portion of East Carroll parish late Sunday afternoon.

Madison Parish

6 NW Waverly to 2 ENE Talla Bena	13	1642CST 1714CST			0	0			Hail(0.88)
-------------------------------------	----	--------------------	--	--	---	---	--	--	------------

The first supercell thunderstorm of the day moved across the far northern portion of Madison parish and produced a swath of nickel sized hail as it moved east into Warren county.

Richland Parish

3 E Rayville	13	1700CST			0	0	10K		Thunderstorm Wind (EG55)
--------------	----	---------	--	--	---	---	-----	--	--------------------------

A roof was damaged to a portable building near exit 141 on Interstate 20.

Madison Parish

Waverly to Delta	13	1704CST 1755CST			0	0	700K		Hail(4.25)
---------------------	----	--------------------	--	--	---	---	------	--	------------

An intense supercell thunderstorm developed in eastern Richland parish, intensified, and moved east across the entire span of Madison parish before it exited into Warren county. This storm produced a swath of large destructive hail which ranged from quarter to ping pong ball to golf ball to baseball sized, generally along the Interstate 20 corridor. This large hail was wind blown by 65 to 75 mph winds. The largest hail observed was the size of softballs. This occurred a few miles north of the Tallulah/Vicksburg Airport. The large hail damaged many homes with broken windows and roof damage. Trees were damaged as well with limbs torn off and broken.

Madison Parish

Waverly	13	1706CST 1709CST			0	0	100K		Thunderstorm Wind (EG72)
---------	----	--------------------	--	--	---	---	------	--	--------------------------

The rear flank downdraft of a supercell thunderstorm blew down several trees and power lines in Waverly. A portion of US Highway 80 was blocked by the trees and power lines. Also in Waverly, a few homes sustained damage to roofs and siding.

Richland Parish

1 E Rayville	13	1715CST			0	0			Hail(0.75)

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

MISSISSIPPI, Central

Rankin County

7 SW Pelahatchie to 7 SE Pelahatchie	13	1924CST 1930CST			0	0	200K		Thunderstorm Wind (EG70)
-------------------------------------------------	-----------	----------------------------	--	--	----------	----------	-------------	--	---------------------------------

An intense downburst, from the rear flank downdraft of a supercell thunderstorm, swept across portions of east-central Rankin county Sunday evening. A few hundred trees were uprooted and snapped. Several homes sustained roof damage and had shingles peeled off. A few brans had portions of the roof peeled off.

Scott County

5 SW Morton to 3 E Homewood	13	1930CST 1953CST			0	0	50K		Hail(1.75)
----------------------------------------	-----------	----------------------------	--	--	----------	----------	------------	--	-------------------

Sunday evening, a supercell thunderstorm moved across the southern portion of Scott county and produced a swath of hail from quarter to golf ball sized. Near the Homewood community, golf ball sized hail damaged some homes and punched holes in siding.

Smith County

2 NW Polkville to 4 E Pineville	13	1930CST 2000CST			0	0			Hail(0.88)
--------------------------------------------	-----------	----------------------------	--	--	----------	----------	--	--	-------------------

A swath of penny to nickel sized hail fell across the entire length of northern Smith county from a long lived supercell thunderstorm.

Smith County

1 NW Polkville to 3 E Polkville	13	1932CST 1936CST			0	0	80K		Thunderstorm Wind (EG70)
--------------------------------------------	-----------	----------------------------	--	--	----------	----------	------------	--	---------------------------------

Numerous trees and several power lines were blown down. One mobile home was rolled over and destroyed.

Scott County

6 SSW Morton to 3 E Homewood	13	1933CST 2000CST			0	0	300K		Thunderstorm Wind (EG80)
-----------------------------------------	-----------	----------------------------	--	--	----------	----------	-------------	--	---------------------------------

The same supercell thunderstorm that brought the large hail to southern Scott county caused significant wind damage along a path from the Cooperville Community to around Homewood. The rear flank downdraft from the storm brought 90 to 95 mph winds. These intense winds destroyed a mobile home, a barn, and caused damage to several other structures. A trampoline was picked up and blown almost a 1/4 mile over a grove of trees. Additionally, a few hundred trees were uprooted and several power lines were blown down.

Webster County

Walthall to Bellefontaine	13	1935CST 1937CST			0	0			Hail(0.75)
--------------------------------------	-----------	----------------------------	--	--	----------	----------	--	--	-------------------

Penny sized hail covered the ground.

Hinds County

9 NW Utica to 2 E Terry	13	1936CST 2013CST			0	0	20K		Hail(1.75)
------------------------------------	-----------	----------------------------	--	--	----------	----------	------------	--	-------------------

The third supercell thunderstorm of the day moved across central and southern portions of Hinds county. This storm delivered a swath of quarter to golf ball sized hail across the county. The largest hail, ping pong ball to golf ball sized, fell along a swath from just north of Utica to just west of Terry.

Claiborne County

9 W Port Gibson to 15 ESE Port Gibson	13	1939CST 2013CST			0	0	70K		Hail(1.75)
--------------------------------------------------	-----------	----------------------------	--	--	----------	----------	------------	--	-------------------

A swath of quarter to golf ball sized hail fell across all of central Claiborne county Sunday evening. This large hail fell from a long lived supercell thunderstorm that moved into the county from Tensas parish. The largest hail, golf ball sized, fell just south of Port Gibson and caused damage to vehicles.

Lowndes County

Caledonia	13	1940CST			0	0	1K		Thunderstorm Wind (EG53)

-------------------------------------	----	--------------------	--	--	---	---	-----	--	--------------------------

Several large trees were blown down on power lines between Carpenter and Utica in northwest Copiah county.

Hinds County

4 S Utica to 2 NNE Brownsville	26	1653CST 1736CST			0	0			Hail(0.88)
-----------------------------------	----	--------------------	--	--	---	---	--	--	------------

A long lived left moving supercell thunderstorm moved into southwest Hinds county from Copiah county. This storm produced penny to nickel sized hail as it moved northward across the entire western section of Hinds county

Hinds County

Utica to 3 SW Brownsville	26	1655CST 1733CST			0	0	500K		Thunderstorm Wind (EG80)
------------------------------	----	--------------------	--	--	---	---	------	--	--------------------------

The long lived supercell thunderstorm also produced significant wind damage as it moved across western Hinds county. The most significant damage occurred from Utica to just west of Raymond to around Edwards. Several hundred trees were uprooted and snapped along the path as well as numerous power lines blown down. The most significant structural damage occurred from 6 miles southwest of Raymond to 2-8 miles west of Raymond, with 90 to 95 mph winds estimated. To the southwest of Raymond, the Morningstar Baptist Church had windows blown out and most of its roof blown off. Just to the west of Raymond, one mobile home as blown off its foundation and two others were damaged as well as one barn destroyed

Jefferson Davis County

5 SSE Bassfield to 8 NNE Bassfield	26	1658CST 1708CST			0	0			Hail(1.50)
---------------------------------------	----	--------------------	--	--	---	---	--	--	------------

This supercell thunderstorm moved out of northern Marion county, then across southeast Jefferson Davis county before moving into central Covington county. This storm continued to intensify and produced penny to ping pong ball sized hail as it moved north northeast across southeast Jefferson Davis county.

Thunderstorm Wind (EG80)

The same left moving supercell thunderstorm that brought the large hail, also brought devastating straight line winds to a good portion of central Yazoo county from Bentonia to north of Benton. Several hundred trees and dozens of power lines were blown down or snapped. One tree and power line landed on a car and caused an injury. The most significant wind damage occurred from Bentonia to around Little Yazoo. Here the winds were estimated around 90 mph. Many structures sustained major to minor damage with all or a portion of the roof blown off, siding peeled off and windows broken. The Bentonia-Gibbs School had a good portion of its roof blown off and sustained water damage. Additionally, three businesses had major damage, three with minor, six mobile homes were destroyed and nine sustained major damage, twenty-seven homes sustained minor damage and seven sheds were destroyed. An area just north of Benton and west of Midway was a focus for additional trees and power line damage

MISSISSIPPI, Central

Jasper County

Louin	31	0415CST			0	0			Hail(0.75)
--------------	-----------	----------------	--	--	----------	----------	--	--	-------------------

Pea to penny sized hail covered the ground.

Covington County

South Portion	31	0540CST 0900CST			0	0	250K		Flash Flood
----------------------	-----------	----------------------------	--	--	----------	----------	-------------	--	--------------------

Heavy rains, 5 to 6.5 inches, fell across the southern half of Covington county during the early morning hours of March 31st. This rain flooded a couple of homes and nearly a dozen county roads. Many of the roads were closed for several hours before being opened late in the afternoon.

Jefferson Davis County

South Portion	31	0540CST 0900CST			0	0	200K		Flash Flood
----------------------	-----------	----------------------------	--	--	----------	----------	-------------	--	--------------------

Heavy rains, 4 to 6 inches, fell across the southern portion of Jefferson Davis county during the early morning hours of March 31st. Several roads in the southern portion of the county were underwater along with a portion of highway 13 just south of Prentis.

Jones County

Countywide	31	0600CST 0900CST			0	0	400K		Flash Flood
-------------------	-----------	----------------------------	--	--	----------	----------	-------------	--	--------------------

Four to six inches of rain fell across almost all of Jones county early on the morning of March 31st. Most of the heavy rain was focused from the central portions of the county south-westward toward southern Covington county. This heavy rain caused 10 roads to be damaged along with dozens more covered with water. Additionally, nearly 20 homes were flooded from rising water caused by the heavy rains.

Clarke County

Countywide	31	0615CST 0730CST			0	0	170K		Flash Flood
-------------------	-----------	----------------------------	--	--	----------	----------	-------------	--	--------------------

Heavy rains, between 4 and 6 inches, fell across portions of Clarke county during the early morning hours of March 31st. Nearly a dozen county roads were flooded with several being washed out

Forrest County

Countywide	31	0640CST 0930CST			0	0	40K		Flash Flood
-------------------	-----------	----------------------------	--	--	----------	----------	------------	--	--------------------

Heavy rains caused several streets in Hattiesburg to flood as well as numerous roads in the county which were underwater. One home in Hattiesburg was flooded as water entered the home.

Lamar County

Sumrall	31	0640CST 0900CST			0	0	500K		Flash Flood
----------------	-----------	----------------------------	--	--	----------	----------	-------------	--	--------------------

Four to six inches of rain fell across norther portions of Lamar county early in the morning of March 31st. The hardest hit area was in and around Sumrall. Here, 3 homes and 5 businesses were flooded. This heavy rain also flooded numerous streets and roads. A total of 19 roads had a portion underwater with a few roads washed out in sections.

Marion County

North Portion	31	0700CST 0845CST			0	0	150K		Flash Flood
----------------------	-----------	----------------------------	--	--	----------	----------	-------------	--	--------------------

Heavy rains, 4 to 5 inches, fell across the northern portion of Marion county during the early morning hours of March 31st. Several roads in that part of the county were underwater and had to be closed. A portion of highway 13, near the Marion/Jefferson Davis county line, had 6 to 8 inches of water covering the highway.

Forrest County

Rock Hill to Mc Callum	31	1852CST 1912CST			0	0	15K		Hail(1.75)
-----------------------------------	-----------	----------------------------	--	--	----------	----------	------------	--	-------------------

A swath of golf ball sized hail fell from around Rock Hill to Camp Shelby.
