ARKANSAS, Southeast

Ashley County

6 SW Wilmot to 2.5 ENE Parkdale	24	0058CST 0113CST	13	880	3	11	2M	Tornado (F3)
--	-----------	----------------------------	-----------	------------	----------	-----------	-----------	---------------------

A supercell thunderstorm produced a tornado that moved out of Morehouse Parish, Louisiana into Ashley County, Arkansas, 6 miles southwest of Wilmot. The tornado then moved to the south end of Lake Enterprise, just west of Wilmot. The tornado strengthened and widened as it approached the Wilmot area and was rated as an F3 with a maximum width of one half mile. The tornado destroyed 14 mobile homes and houses and caused extensive damage to five other homes in the vicinity of Wilmot. A church on the north side of Wilmot was completely destroyed. Additionally, a tractor shed housing farm equipment was destroyed, and the equipment inside was also destroyed. As the tornado tracked northeast toward Parkdale, it damaged or destroyed several cotton pickers, trailers, and tractors. The tornado lifted 2.5 miles east-northeast of Parkdale. The total estimated damage of the tornado was \$2.0 million. The tornado caused the deaths of three people in the vicinity of Wilmot. Additionally, a total of eleven people sustained injuries. Washington County

2.5 SW Winterville to 2 NE Winterville	24	0155CST 0201CST	4.8	880	0	12	3.5M		Tornado (F4)
---	----	--------------------	-----	-----	---	----	------	--	--------------

Bolivar County

3.5 SW Stringtown to 1 SE Mound Bayou	24	0201CST 0232CST	25.5	880	0	36	6M		Tornado (F4)
--	----	--------------------	------	-----	---	----	----	--	--------------

A supercell thunderstorm moved out of Chicot County Arkansas into northern Washington County, Mississippi. The storm produced a violent tornado that touched down 2.5 miles southwest of Winterville, or along the northern edge of Lake Ferguson. The tornado had a width of up to one half mile and moved through the town of Winterville, causing extensive damage. It then continued northeast into southern Bolivar County about 2 miles northeast of Winterville. The total path length in Washington County was 4.8 miles. The tornado entered southern Bolivar County about 3.5 miles southwest of Stringtown. It travelled northeast 25.5 miles through mostly rural areas of Bolivar County and lifted one mile southeast of Mound Bayou. In Washington County, the tornado caused 12 injuries, mainly in the community of Winterville. In Bolivar County, 36 people were injured, including one 7 year old boy who was critically injured. In Washington County, a total of six houses, five mobile homes, and two businesses were totally destroyed. Additionally, extensive damage was done to 34 houses and six businesses. Minor damage occurred to over 30 houses and several mobile homes. Total damage to the county was estimated to be around \$3.5 million. In Bolivar County, the tornado destroyed ten houses, two mobile homes, and four businesses. Extensive damage occurred to 21 houses, one mobile home, and one business. Minor damage occurred to over 20 houses and around 20 mobile homes. The tornado caused extensive damage to the Bolivar County Detention Center, and hit an electric power substation. The substation was totally destroyed. At the substation, the tornado blew over a transformer that weighed approximately 25 tons, and slid another transformer sideways three feet. Total damage in Bolivar County was estimated at around \$6 million.

Sunflower County

3 NW Lombardy to 6 N Lombardy	24	0242CST 0245CST	6	400	0	0	80K		Tornado (F1)
----------------------------------	----	--------------------	---	-----	---	---	-----	--	--------------

A supercell thunderstorm produced an F1 tornado that touched down in the northern part of the county, about three miles northwest of Lombardy. The storm travelled northeast and moved into Coahoma County, about six miles north of Lombardy. The tornado destroyed one mobile home and caused major damage to two houses, and minor damage to one house. Total damage is estimated to be around \$80 thousand.

------------	----	---------	--	--	---	---	------	--	-------------------

A strong supercell thunderstorm produced hail the size of baseballs. Numerous houses and automobiles in the Pocahontas area sustained damage.

Hinds County

2 N Cynthia	24	0518CST 0519CST	0.3	50	0	0			Tornado (F0)
-------------	----	--------------------	-----	----	---	---	--	--	---------------------

A brief F0 tornado was sighted in an open field about two miles north of Cynthia.

Madison County

8 W Madison	24	0520CST			0	0	175K		Hail(1.75)
-------------	----	---------	--	--	---	---	------	--	-------------------

Hail of up to golfball size fell for several minutes in the vicinity of the Greystone subdivision, about eight miles west of Madison. Numerous houses sustained major roof damage.

Madison County

6 WSW Madison to 3.5 SSW Canton	24	0525CST 0545CST	11.5	880	2	21	12M		Tornado (F4)
------------------------------------	----	--------------------	------	-----	---	----	-----	--	---------------------

A violent tornado touched down about six miles west-southwest of the city of Madison. The touchdown point of the tornado was just south of the Fairfield subdivision, which is a large, well built subdivision of mostly brick homes. Numerous houses were seriously damaged or destroyed as the tornado, as much as one half mile wide, moved across the subdivision. Several houses in the subdivision in the direct path of the tornado were blown off of their foundations. One 25 year old woman was killed, and a pregnant woman was critically injured as the tornado destroyed their houses. The baby of the pregnant woman was delivered at the hospital and died shortly after birth. After the storm moved across the Fairfield subdivision, it continued moving northeast through several other subdivisions and large houses in the Madison and Gluckstadt communities. The tornado travelled 11.5 miles, crossing Interstate 55 before dissipating over central Madison County, about 3.5 miles south-southwest of Canton. In addition to the two deaths, a total of 21 people were injured. Damage in the county included 47 houses and seven mobile homes destroyed, 37 houses and three mobile homes with major damage, and 67 houses and three mobile homes with minor damage. F25PH, M0PH

Leake County

3 NW Thomastown	24	0625CST 0627CST	0.2	50	0	0	1K		Tornado (F1)
-----------------	----	--------------------	-----	----	---	---	----	--	---------------------

A weak tornado briefly touched down around three miles northwest of Thomastown. Several trees were snapped off and blown down in a wooded area.
