1 W Raymond

23 2340CST
24 0007CST 0 0 5K Thunderstorm Wind (EG57)

Sporadic trees and large limbs were blown down from 6 miles northwest of Utica to 1 mile west of Raymond. This swath of sporadic tree damage was associated with the rear flank downdraft of a super cell thunderstorm that tracked east northeast across Central Hinds county.

Jefferson County

8 W Fayette to
7 ENE Lorman

23 2340CST
24 0004CST 18 600 0 0 300K Tornado (F3)

This tornado touched down just west of the Natchez Trace, 8 miles west of Fayette and tracked northeast for 18 miles across Jefferson county. Between the Natchez Trace and highway 553 the tornado was in its early stages and produced F0 damage by downing several trees. Between highway 553 and US Highway 61 this tornado began to intensify and downed or snapped hundreds of trees. One mobile home and two sheds sustained minor damage as they were located on the northern edge of the circulation. As it approached US Highway 61, it moved through an open field and was at its widest point, 600 yards. Here a string of seven power poles were snapped and a large tractor shed was destroyed. The frame of the shed was made of large I-beams. These beams were
