

*The ARAMARK Tower  
1101 Market Street  
Philadelphia, PA 19107-2994*

**FOR IMMEDIATE RELEASE**

**PWD Begins Construction**

The Philadelphia Water Department began heavy construction in your neighborhood. The sewers listed in the streets below have outlived their useful life span and must be replaced to safeguard your water service and prevent potential leaks or breaks from flooding or damaging city streets and private property.

<u>Street</u>	<u>From</u>	<u>To</u>	<u>Type of Work</u>
Briardale Rd.	Cathedral Ave.	Grakyn Lane	Sewer
Grakyn Lane	Ridge Ave.	Briardale Rd.	Sewer

The Water Department has hired a private contractor to complete the above project. The work began March 2003 and will proceed block by block until final completion around June 2003.

During normal working hours, between 7 a.m. and 3:30 p.m., it may be necessary to close the street to through traffic. The contractor will also post "No Parking" signs as required. Trash should be placed at the curb as regularly scheduled and the contractor will assist the Streets Department with pick up.

The Water Department has assigned an Inspector to the project who will be on-site everyday. Should you experience any problems as a result of the work, please ask to speak with the Inspector on the job site. He or she will discuss the problem with the contractor and do whatever possible to assist you.

For more information about the construction, please call the Philadelphia Water Department at (215) 685-6300.
