

Cooperative State Research, Education, and Extension Service Washington, DC 20250-2200

AUG 15 2007

TO:

**State Extension Directors** 

FROM:

Colien Hefferan Collen Hefferan Administrator

SUBJECT:

FY 2007 Civil Service Retirement System Allocation

Attached is a table reflecting each State's final Civil Service Retirement System (CSRS) allocation for fiscal year (FY) 2007. These funds are for payments to the Office of Personnel Management (OPM) to help defray the employer contributions to the CSRS. The funds are to be paid to the States based on each State's relative share of the total retirement payments to OPM during the last fiscal year.

We take this opportunity to remind you that those specialists having Federal appointments that are split appointments (Research, Extension, or Resident Instruction) the source of funding should be charged at the same rate for fringe benefits (including Federal retirement) as salary costs are charged. This policy only applies when employees are paid from non-Extension sources (i.e., Research, Resident Instruction, or grants).

The amount charged to the Cooperative State Research, Education, and Extension Service each year by the Department of Labor for the Federal Employees' Compensation Act will be identified by State and by individual claim. Each State that is identified and confirmed as having an injury claim will have their retirement allocation reduced by the amount of the claim. In this manner, the States having a claim will not be penalized for the claims of the other States. You will be notified and appropriate adjustments will be made for any claims that are identified and confirmed as a proper claim for your State. Your next funding authorization under the Department of Health and Human Services' Payment Management System will include the CSRS amount.

Section 203 of the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) (P.L. 105-185) amends section 3 of the Smith-Lever Act (7 U.S.C. 3443) by requiring all funds authorized under section 3(b) and (c) to be fully matched with non-Federal funds. This applies to all formula funds authorized under section 3 (b) and (c) of the Smith-Lever Act, including the CSRS program. However, the funds used to match the retirement formula funds may be used for any extension activity approved as part of the Plan of Work.

A Planning and Reporting page has been established on our website to assist you in locating the requirements, due dates, and submission information for CSRS funds and all other Formula

funds. The research and extension formulas are organized in groups for the three land-grant types: 1862 land-grant institutions, 1862 land-grant institutions in the U.S. territories, and 1890 land-grant institutions. Since funding continues to be contingent upon meeting planning and reporting requirements, you may want to have your administrative staff bookmark the following web link for easy access to fillable forms and due dates for all formula funds:

### http://www.csrees.usda.gov/business/reporting/form\_report.html

Additionally, we will continue to email you regarding important information regarding all of the formula funds you receive. This information is released in "Formula Funds Bulletins," which are maintained at our "Formula Funds News Updates" web page:
