

# Childsplay's 30th Anniversary

SEPT. 9, 2007 - JAN. 11, 2008

For decades, Childsplay, an award-winning professional theatre company for young people and families, has been entertaining audiences nationwide. This exhibition follows and documents the organization from its beginning in 1977 through today.

Childsplay began producing theatre with a handful of graduate students and any set that would fit into the trunk of a '76 Chevy Impala. Today, Childsplay has earned international praise for creating theatre that tickles the imagination, stretches the mind and expands the human experience of its chosen audience: children and families.

Childsplay has performed for three million Arizona residents and visited virtually every school in the state. It has produced more than 50 world premieres, presented a command performance for the First Lady and shared dressing rooms with an alligator.

Celebrate the 30th Anniversary of one of this state's cultural treasures and greatest sources inherent imagination and wonder.
