INTRODUCTION

1. General

Integrated Support Command Portsmouth (ISC) Instruction 2030.1 (Series) establishes the policies and guidelines for use of the ISC telephone system. ISC Division Officers and Commanding Officers of tenant commands shall ensure that all telephones under their responsibility are used for necessary official calls in accordance with this instruction. All personnel should be made aware that the unauthorized use of the telephone system may result in disciplinary action.

2. Discussion

- a. **Collect calls:** Calls made to ISC where the charges are reversed. The use of FTS and FTS2000 calling cards should eliminate the need for making or accepting official collect calls. Collect calls may be accepted **only** under unusual or emergency circumstances.
- b. **Commercial calls:** Local and long distance calls billed by Verizon. Onboard ISC, 9 is dialed to initiate a commercial call. Personal calls will not be made using commercial means except as defined in 2.e. below.
- c. **Federal Telecommunications System (FTS):** This is a network of GSA leased telephone lines and equipment. FTS charges are based on quantity and length of the call. Onboard ISC, 9 is dialed to initiate an FTS call. Personal calls will not be made using FTS.
- d. **ISC Communications Officer:** The ISC Personnel Services Division Officer serves as the Communications Officer for the ISC. The ISC Personnel Services Division Management Program Analyst serves as the Assistant Communications Officer. Access requests and questions regarding use of the system should be directed to this office at 686-4072.
- e. **Other Long Distance Calls:** All other long distance calls not related to assigned duty that must be made during normal working hours shall be:
 - (1) Made to an 800 number;
 - (2) Charged to a personal credit card; or
 - (3) Placed collect.
- f. **Personal Calls:** Calls which are not of an official nature or necessary to conduct Coast Guard business. **You may not make personal long-distance telephone calls from telephones, including cell phones, controlled by the Coast Guard.** Violations of this General Order may result in prosecution. Coast Guard members and employees may make personal, **local calls** using government telephones if **one** of the following criteria is met:
 - (1) Calls to notify the family doctor when an employee is injured on the job;
 - (2) Calls to arrange transportation or child care when an employee is required to work unscheduled overtime;
 - (3) **Brief** calls to speak to spouse or minor children or those responsible for child care;
 - (4) Calls which can only be placed during working hours such as to a local government agency or physician;
 - (5) Calls to arrange for emergency repair to a home or auto; or,
 - (6) Calls certified in advance by the employee's/member's supervisor as official.

3. Each member at the ISC and its tenant commands should follow these guidelines:

- a. Remember that the telephone is provided only for conducting official government business.
- b. Use FTS when you must make an official long distance call.
- c. Plan what you wish to discuss and have your reference material ready.
- d. Keep your calls short and to the point; on FTS the longer the call, the more it costs.
- e. Long distance directory assistance costs \$1.25 per call and two listings may be asked for without an additional cost. Use of the telephone directory is essential to cut down on these costs. Except in an emergency, use of directory assistance is permitted only with a supervisor's approval.

**INTEGRATED SUPPORT COMMAND
