2.04.010 Findings. The council finds that state law requires that the board of county commissioners be the board of health for the county. Under the provisions of the Washington constitution and the King County Charter the powers, authority and duties granted to and imposed on county officers by general law are vested in the legislative authority of the county unless expressly vested in specific officers by the charter. The charter does not vest in other officers the power to serve as the board of commissioners or the board of health, therefore it is appropriate to constitute the legislative authority of the county as the board of health. (R&R 1 amdt. § 1, 12-20-93).

2.04.020 Board of health. Pursuant to RCW Chapter 70.05.030, as amended, the legislative authority of King County shall constitute the King County board of health. The rules and regulations of the board shall be adopted by ordinance. (R&R 1 amdt. §2, 12-20-93).

2.04.030 Administration. In accordance with RCW Chapter 70.05, the director of the department of public health is designated as the administrative officer of the board. If the director of public health does not meet the qualifications of a health officer as provided in RCW Chapter 70.05, the director shall employ a person so qualified to advise the director and the board on medical and public health matters. (R&R 1 amdt. §3, 12-20-93).

2.04.120 Rules and regulations — Codification. Within one (1) year after the effective date of the regulation codified in this chapter, and as often thereafter as the board deems necessary, the board through the administrative officer shall provide for a compilation and codification of all board of health rules and regulations which have the force of law and are permanent and general in nature. Each codification shall be adopted by the board and shall be known as the "Code of the King County Board of Health." It shall be published with a detailed index and appropriate notices, citations and annotations. The administrative officer shall also provide for an annual supplement to the code encompassing all additional rules and regulations and rules and regulations as amended since the codification or previous supplement. (R&R 1 § 10, 6-7-85).

2.04.130 Rules and regulations — Availability. All rules and regulations adopted by the board shall be reproduced and a copy provided to and retained by the clerk of the county council. Additionally, a copy shall be made available to the public at a site to be determined by the administrative officer. Copies of all previously adopted rules and regulations, singularly, or as codified, shall be supplied at cost to any citizen upon request. (R&R 1 § 11, 6-7-85).

2.04.140 Rules and regulations — Notice and hearing on adoption, amendment or repeal. Prior to the adoption, amendment or repeal of any rule or regulation, the King County Board of Health shall conduct a public hearing on the subject of the proposed rules or regulations. The board shall give at least fourteen (14) days' notice of the proposed rules or regulations and hearing by one publication in the official newspaper of King County and by mailing notice to all persons or agencies who have made timely request of the board for advance notice of its rulemaking proceedings. Moreover, if the subject of the proposed rule relates to a specific community or communities within the county, notice shall also be published in the local community newspaper, if any. The notice shall include:

- A. Reference to the authority under which the rule or regulation is proposed;
- B. A description of the terms or substance of the proposed rule or regulation or of the subjects and issues involved; and
- C. A statement of the time and place of the public hearing and the manner in which interested persons may present their views thereon. (R&R No. 2 § 1, 6-21-96).

2.04.150 Rules and regulations — Emergency adoption. If the board finds that immediate adoption, amendment or repeal of a rule or regulation is necessary for the preservation of the public health, safety or general welfare, and that the observance of requirements of notice and hearing would be contrary to the public interest, the board may dispense with such requirements and adopt, amend or repeal the rule or regulation as an emergency rule or regulation. Such action shall become effective immediately upon its adoption by the board. An emergency rule or regulation shall not remain in effect for longer than ninety (90) days. (R&R No. 2 §2, 6-21-96).

(KCBOH 9-2008)

2.04.160 Rules and regulations — Effective date. The effective date of a rule or regulation shall be thirty (30) days from the date of its adoption by the board unless a later date is specified therein. Emergency rules or regulations shall become effective immediately upon their adoption by the board. (R&R No. 2 §3, 6-21-96).

2.04.170 Rules and regulations — Initiation of rulemaking. Recommendations or proposals for establishing, amending or repealing rules or regulations may be initiated by board members, by public health officials or by interested persons. Such proposals shall be submitted to the local public health officer who shall be responsible for preparing them for board consideration. (R&R No. 2 §4, 6-21-96).

2.04.180 Rules and regulations — Form. All rules and regulations adopted by the board shall be drafted in a form following, as far as is practicable, the form of rules codified in the Code of the King County Board of Health. Rules and regulations shall be numbered sequentially in the order adopted. (R&R No. 2 §5, 6-21-96).

2.08.010 Findings and authority. The board of health finds that it is in the interest of the preservation and promotion of public health that moderate risk wastes not be commingled with other solid waste nor placed into sewage disposal systems through which underground and surface waters may be contaminated. The board finds that enhanced public education and enforcement of existing regulations will reduce the quantity of moderate risk wastes entering the regular solid waste stream and sewage disposal systems, and that additional funding is required for these enhancements. The board finds that a regional intergovernmental approach is best suited to these enhancements as described in the Local Hazardous Waste Management Plan for Seattle-King County.
