

How Can You Save Energy in Your Own Room?

Color the page. Circle examples of wasted energy.

How is Energy Being Wasted in the Room? How Would You Stop it?

In the first column, list all the items that you circled on the other side of this page. In the second column, list all the ways that the item is wasting energy. In the third column, write down how you could save energy.

Item	How energy is being wasted	How energy can be saved
