

The U.S.-Bahrain Free Trade Agreement

Report of the Agricultural Technical Advisory Committee on Trade In Fruits and Vegetables

July 13, 2004

Agricultural Technical Advisory Committee on Trade in Fruits and Vegetables (F&V ATAC)

**Agricultural Technical Advisory Committee on Trade in Fruits and Vegetables
Report to the President, the Congress, and the U.S. Trade Representative on the
U.S.-Bahrain Free Trade Agreement.**

I. Purpose of the Committee Report

Section 2104(e) of the Trade Act of 2002 (Public Law 107-210) requires that advisory committees provide the President, the Congress and the U.S. Trade Representative with reports required under Section 135(e)(1) of the Trade Act of 1974, as amended, not later than 30 days after the President notifies Congress of his intent to enter into a trade agreement.

Under Section 135(e) of the Trade Act of 1974, as amended, the report of the Advisory Committee for Trade Policy and Negotiations (ACTPN) and each appropriate policy advisory committee must include an advisory opinion as to whether and to what extent the agreement promotes the economic interests of the U.S. and achieves the applicable overall and principle negotiating objectives set forth in the Trade Act of 2002.

The report of the appropriate sectoral or functional committee must also include an advisory opinion as to whether the agreement provides for equity and reciprocity within the sectoral or functional area.

Pursuant to these requirements, the ATAC on Trade in Fruits and Vegetables submits the following report.

II. Executive Summary of Committee Report

Please see section V of this report.

III. Brief Description of the Mandate of the ATAC on Trade in Fruits and Vegetables

The ATAC on Trade in Fruits and Vegetables is chartered to advise, consult with, and make recommendations to the Secretary of Agriculture and the United States Trade Representative on matters that are of mutual concern to the United States and to its consumers, producers, processors and traders of specialty crops in connection with the trade policy activities undertaken by the United States. The Committee provides advice and information regarding trade issues that affect both domestic and foreign production and trade of specialty crops. The Committee furnishes advisory opinions and reports and performs the functions that are appropriate or required by the Secretary and the Trade Representative or their designees.

IV. Negotiating Objectives and Priorities of the Committee

The Committee agrees with the principal negotiating objective for agriculture set down by Congress in the Trade Act of 2002. Specifically, “to obtain competitive opportunities for United States exports of agricultural commodities in foreign markets substantially equivalent to the competitive opportunities afforded foreign exports in United States markets and to achieve fairer and more open conditions of trade in bulk, specialty crop, and value-added commodities...”

V. Advisory Committee Opinion on Agreement

General:

It is the opinion of the F&V ATAC that the negotiated agreement provides for equity and reciprocity within the sectoral area. Under this agreement Bahrain will immediately eliminate all tariffs on U.S. products from HTS Chapters 7, 8 & 20 on the date the agreement enters into force. Currently Bahrain’s tariff rates on these products range from zero to five percent.

With a population of approximately 680,000 and a landmass 3.5 times the size of Washington, D.C. Bahrain presents neither a major export opportunity nor an import threat for the U.S. fruit and vegetable sector.

The Committee is sensitive to the Administration’s FTA priorities. It recognizes the role that some FTAs may play in furthering America’s strategic interests, as expressed by Ambassador Zoellick in his June 12, 2004 op-ed in The New York Times entitled “When Trade Leads to Tolerance.” The U.S.-Bahrain FTA is an example of this policy in action. The committee hopes that this agreement will lead to others that, in the aggregate, will expand export opportunities for U.S. fruit and vegetable producers.

The Committee urges the Office of the U.S. Trade Representative to continue to focus its trade liberalization efforts on India, South Korea, Taiwan, Japan and the EU. Removing high tariff barriers and eliminating trade distorting domestic support policies in these countries will provide the specialty crop industry significant trade benefits and remove some of the trade barriers that most affect this sector.

These trade priorities are likely to be addressed only in the World Trade Organization. The Committee therefore wholeheartedly supports the Administration as it seeks to advance the Doha Development Agenda.
