a. Includes 9,160 persons of unknown race.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

Table 5.A1.4—Number and average monthly benefit for children, by type of benefit, race, and age, December 2001

a. Includes 30,820 persons of unknown race.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those groups is not available.

c. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

Table 5.A1.5—Number and average monthly benefit for widowed mothers and fathers, by race, age, sex, and marital status, December 2001

a. Includes 2,180 persons of unknown race.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

| a Includes 12.460 persons of unknown race |                     |                               |                    |                               |                  |                               |                 |                               |

a. Includes 12,460 persons of unknown race.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

Table 5.A1.7—Number and average monthly benefit for disabled widow(er)s, by race, age, sex, and marital status, December 2001

a. Includes 720 persons of unknown race.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

CONTACT: Rona Blumenthal (410) 965-0163 or Joseph Bondar (410) 965-0162.

a. Includes 50 persons of unknown race.

SOURCE: Social Security Administration, Master Beneficiary Record, 10 percent sample.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

a. Includes 6,370 persons of unknown race.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

a. Includes 163,160 persons of unknown race. In years prior to 1993, persons of unknown race were included with White.

SOURCE: Social Security Administration, Master Beneficiary Record, 10 percent sample.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

d. Fewer than 500 beneficiaries.

Table 5.A7—Number and average monthly benefit for women, by type of benefit and race, December 2001

a. Includes 78 persons of unknown race. In years prior to 1993, persons of unknown race were included with White.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

CONTACT: Rona Blumenthal (410) 965-0163 or Joseph Bondar (410) 965-0162.

a. The diagnosis for disabled children typically was not recorded on the Master Beneficiary Record (MBR) until 1984. Many beneficiaries entitled before that date are still on the rolls today.

b. AIDS/HIV records are counted in the Infectious and parasitic diseases group. Before 1990, those records were included in the Other group.

c. Less than 0.05 percent.

a. Aged 62 or older. Includes wives aged 65 or older with children.

NOTE: ... = not applicable.

b. Under age 65 with entitled children in their care.

c. Prior to August 1981, benefits were payable to mothers and fathers caring for a child under age 18. For mothers and fathers caring for a child who was at least 14 and who were entitled in August 1981, benefits were continued until the child attained age 18 or September 1983, whichever came earlier.

d. Excludes wives with both disabled and nondisabled children in their care.

Table 5.F3.—Number and percentage distribution of wives with entitlement based on age, by monthly benefit and age, December 2001

| Monthly benefit (dollars) | Total,<br>62 or older | 62–64   | 65–69   | 70–74   | 75–79   | 80–84   | 85 or older |

a. Prior to August 1981, benefits were payable to mothers and fathers caring for a child under age 18. For mothers and fathers caring for a child who was at least age 14 and who were entitled in August 1981, benefits were continued until the child attained age 18 or September 1983, whichever came earlier.

NOTE: ... = not applicable.

b. Excludes mothers and fathers who had both disabled and nondisabled entitled children in their care.

c. Less than \$500.

Table 5.F13—Number and average monthly benefit for nondisabled widows aged 65 or older, by reduction status and limitation of benefit, December 2001

a. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

NOTE: The term "full benefit" applies to benefits not subject to actuarial reduction, and the term "reduced benefit" applies to benefits subject to actuarial reduction.

b. Includes 172,900 families with reduced retired-worker benefits.

c. Includes 30,900 families with reduced retired-worker benefits.

d. Where the disabled worker's spouse is dually entitled as a retired worker, the benefit amount shown for the spouse represents the difference between the entitlement amount as a spouse and as a retired worker.

Table 5.H3—Number and percentage distribution of retired-worker and disabled-worker families, by monthly benefit for selected family groups, December 2001

|                                               | Retired wo | orker only | Retired            | Retired wife, | ,                  | Disabled w | orker only | Disabled<br>wife, a | ,                  |
|-----------------------------------------------|------------|------------|--------------------|---------------|--------------------|------------|------------|---------------------|--------------------|

a. Includes persons of unknown race.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Includes beneficiaries with unknown state code.

Table 5.J6—Average and median monthly benefit for retired workers and number and percentage distribution, by monthly benefit and state or other area, December 2001

a. Countries with 500 or more beneficiaries are shown separately. The total and continent subtotals include all foreign residents.

CONTACT: Rona Blumenthal (410) 965-0163 or Cherice Jefferies (410) 965-5520.

b. Includes special age-72 beneficiaries.

c. Includes nondisabled and disabled widow(er)s, widowed mothers and fathers, and parents.

a. Includes 7,700 persons of unknown race.

NOTES: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

Benefits awarded before the December increase are converted to the December rates before computation of the averages.

c. Includes conversions from nondisabled widow(er)'s benefits to higher retired-worker benefits.

d. Average benefits are not shown for fewer than 500 beneficiaries.

<sup>. . . =</sup> not applicable.

Table 6.A4—Number and average monthly benefit for retired and disabled workers, by age and sex, 2001

a. Includes 5,800 awards for which benefits were withheld for reasons other than earnings.

NOTE: Excludes persons whose benefits were coverted from disabled worker to retired worker in 2001. Includes conversions from nondisabled widow(er)'s benefits to higher retired-worker benefits.

b. Months of entitlement begin with the month of award and end either in December 2001 or the month before the retired-worker benefit is terminated.

c. Amount for December 2001 or the amount for the latest month of entitlement multiplied by the December benefit increase.

Table 6.B3—Number and percentage distribution with and without reduction for early retirement, by monthly benefit and sex, 2001

a. Age in year of award for 1957–1984. Age in month of award for 1985–2001.

SOURCE: Social Security Administration, Master Beneficiary Record. Data for 1957–1984 are 100 percent data. Data for 1985–2001 are based on a 1 percent sample.

NOTE: ... = not applicable.

b. Includes awards processed after attainment of age 65.

a. Classification based on impairment codes established by SSA.

NOTE: Effective 2001, SSA initiated a special review of 130,000 Supplemental Security Income (SSI) recipients who are potentially eligible for Social Security disability benefits due to earnings while receiving SSI. Many of these claims awarded in 2001 were for individuals under age 35 who were diagnosed with a mental disorder.

CONTACT: Terry Dodson (410) 965-0143.

b. Effective 1999, the Listing of Impairments (which describes medical conditions and specific findings that SSA considers severe enough to show that an individual is disabled without having to consider the remaining steps of the sequential evaluation process) was changed to eliminate awards based solely on obesity.

Table 6.C7—Number of applications, awards, ratio of awards to applications, and awards per 1,000 insured workers, selected years, 1960–2001

| Year | Number of applications (thousands) | Number of awards (thousands) | Awards as a percentage of applications | Awards per 1,000 insured workers |
|------|------------------------------------|------------------------------|----------------------------------------|----------------------------------|
| 1960 | 418.6                              | 207.8                        | 49.6                                   | 4.5                              |
| 1965 |                                    | 253.5                        | 47.9                                   | 4.7                              |

a. Benefits awarded before the December increase are converted to the December rates before computation of the averages.

NOTE: ... = not applicable.

b. Average benefit not shown for groups with fewer than 500 beneficiaries.

c. Base figure too small to meet statistical standards for reliability of derived figure.

a. Prior to August 1981, benefits were payable to mothers and fathers caring for a child under age 18. For mothers and fathers caring for a child who was at least age 14 and who were entitled in August 1981, benefits were continued until the child attained age 18 or September 1983, whichever came earlier.

NOTE: ... = not applicable.

b. Excludes mothers and fathers who had both disabled and nondisabled entitled children in their care.

c. January-November.

d. Includes December 1958.

Table 6.D7—Number and average monthly benefit for widow(er)s, by age and sex, 2001

a. Includes blind participants. For December 2001, of the 76,455 participants, 1,202 were blind.

NOTES: When the substantial gainful activity (SGA) level is periodically raised, SSI recipients with earnings below the increased SGA level become eligible for regular SSI benefits, rather than the special cash payments under section 1619(a). This is reflected in the decreases in 1619(a) participants shown for 1990, June 1999, June 2001, and December 2001.

b. Data not available.

- a. Other income includes recoveries of amounts reimbursed from the trust fund which are not obligations of the trust fund, receipts from the fraud and abuse control program, and a small amount of miscellaneous income.
- b. Includes costs of Peer Review Organizations (beginning with the implementation of the Prospective Payment System on Oct. 1, 1983).
- c. Includes costs of experiments and demonstration projects. Beginning in 1997, includes fraud and abuse control expenses, as provided for by P.L. 104–91.
- d. No transfer was made in 1976 because of the change in transfer dates from December to March. The 1977 transfer was for benefits and administrative expenses during the 15–month period beginning July 1976 and ending September 1977.
- e. No transfer was made in 1977 because of the change in transfer dates from August to June. The 1978 transfer was for contributions during the 15-month period beginning July 1976 and ending September 1977.
- f. Includes \$2 million in reimbursements from general revenues for costs arising from the granting of deemed wage credits to persons of Japanese ancestry who were interned during World War II.
- g. For 1982, assets exclude \$12,437 million loaned to the OASI trust fund under the interfund borrowing provisions of the law. Repayments of \$1,824 million and \$10,613 million were made in 1985 and 1986, respectively.
- h. The lump-sum general revenue transfer, as provided for by section 151 of P.L. 98-21.
- i. Includes the lump–sum general revenue adjustment of -\$805 million, as provided for by section 151 of P.L. 98–21.
- j. Includes the lump-sum general revenue adjustment of -\$1,100 million, as provided for by section 151 of P.L. 98-21
- k. Includes \$1,805 million transfer from the Supplementary Medical Insurance (SMI) catastrophic coverage reserve fund, as provided for by P.L. 102–394.
- I. Includes the lump-sum general revenue adjustment of -\$2,366 million, as provided for by section 151 of P.L. 98–21. m. Includes monies transferred to the SMI trust fund for home health agency costs, as provided for by P.L. 105–33.
- n. Includes the lump-sum general revenue adjustment of -\$1,177 million, as provided by section 151 of P.L. 98-21

- a. The financial status of the program depends on both the assets and the liabilities of the program.
- b. General fund matching payments, plus certain interest-adjustment items.
- c. Other income includes recoveries of amounts reimbursed from the trust fund that are not obligations of the trust fund and other miscellaneous income.
- d. Section 708 of Title VII of the Social Security Act modified the provisions for the delivery of Social Security benefit checks when the regularly designated delivery day falls on a Saturday, Sunday, or legal public holiday. Delivery of benefit checks normally due January 1982 occurred on Dec. 31, 1981. Consequently, the SMI premiums withheld from the checks (\$264 million) and the associated general revenue contributions (\$883 million) were added to the SMI trust fund on Dec. 31, 1981. These amounts are excluded from the premium income and general revenue income for calendar year 1982.
- e. Delivery of benefit checks normally due January 1988 occurred on Dec. 31, 1987. Consequently, the SMI premiums withheld from the checks (\$692 million) and the associated general revenue contributions (\$2,178 million) were added to the SMI trust fund on Dec. 31, 1987. These amounts are excluded from the premium income and general revenue income for calendar year 1988; see footnote d.
- f. Includes the impact of the Medicare Catastrophic Coverage Act of 1988 (P.L. 100-360).
- g. Catastrophic coverage premiums -\$1.5 billion-not distributed between aged and disabléd enrollees are included in total.
- h. Delivery of benefit checks normally due January 1993 occurred on Dec. 31, 1992. Consequently, the SMI premiums withheld from the checks (\$1,089 million) and the associated general revenue contributions (\$3,175 million) were added to the SMI trust fund on Dec. 31, 1992. These amounts are excluded from the premium income and general revenue income for calendar year 1993; see footnote d.
- i. Includes the impact of the transfer to the HI trust fund of the SMI catastrophic coverage reserve fund on Mar. 31, 1993, as specified in P.L. 102–394. Actual benefit payments for 1993 were \$53,979 million and the amount transferred was \$1,805 million.
- j. Delivery of benefit checks normally due January 1999 occurred on Dec. 31, 1998. Consequently, the SMI premiums withheld from the checks (\$1,512 million) and the associated general revenue contributions (\$4,711 million) were added to the SMI trust fund on December 31, 1998. These amounts are excluded from the premium incomeand general revenue income for calendar year 1999; see footnote d.
- k. Benefit payments less monies transferred from the HI trust fund for home health agency costs, as provided for by P.L. 105–33.

a. The Balanced Budget Act of 1997, enacted on Aug. 5, 1997, specified that effective January 1998, coverage for the majority of home health services not associated with a hospital or skilled nursing facility will be transferred from the Hospital Insurance (HI) program to Supplementary Medical Insurance (SMI) program. The HI program will cover the first 100 home health agency visits following a hospital or skilled nursing facility stay of at least 3 days. From July 1981 to December 1997, home health agency services have been almost exclusively provided by the HI program. For more information, refer to the 1998 HI and SMI trust fund reports.

SOURCE: Centers for Medicare & Medicaid Services.

NOTE: Data for persons enrolled as of July 1 are 100 percent and include Health Maintenance Organization (HMO) beneficiaries. Calendar year utilization for persons served and amounts reimbursed are inflated to represent 100 percent and exclude HMO services.

CONTACT: Maria Diacogiannis (410) 786-0178.

b. Hospice utilization is combined in the Part A home health services.

a. The Balanced Budget Act of 1997, enacted on Aug. 5, 1997, specified that effective January 1998, coverage for the majority of home health services not associated with a hospital or skilled nursing facility will be transferred from the Hospital Insurance (HI) program to Supplementary Medical Insurance (SMI) program. The HI program will cover the first 100 home health agency visits following a hospital or skilled nursing facility stay of at least 3 days. From July 1981 to December 1997, home health agency services have been almost exclusively provided by the HI program. For more information, refer to the 1998 HI and SMI trust fund reports.

SOURCE: Centers for Medicare & Medicaid Services.

NOTE: Data for persons enrolled as of July 1 are 100 percent and include Health Maintenance Organization (HMO) beneficiaries. Calendar year utilization for persons served and amounts reimbursed are inflated to represent 100 percent and exclude HMO services.

CONTACT: Maria Diacogiannis (410) 786-0178.

b. Hospice utilization is combined in the Part A home health services.

c. Sample population too small to yield valid calculated results.

Table 8.B3—Hospital Insurance and Supplementary Medical Insurance: Number of enrollees, by census division and state or other area, July 1, 1980–2001, selected years (in thousands)

a. Geographic distribution reflects the beneficiaries' area of residence.

NOTE: Data for 1975 and 1980 are based on bills approved in each year and recorded in the Centers for Medicare & Medicaid Services before Dec. 29, 1995. Data from 1990–2001 are based on bills incurred in each year and recorded before Dec. 29, 2001. Includes data for services rendered to both aged and disabled persons. CONTACT: Maria Diacogiannis (410) 786-0178.

b. Preliminary data.

c. Excludes claims for persons residing in foreign countries.

d. Includes claims for persons whose place of residence is unknown.

- a. Period for which the claim incurred.
- Included in total, but not shown separately, are some bills and charges for which type of service is unknown.
- c. Due to Balanced Budget Act provisions, beginning in 1998 Part A now has a 100-visit limit and additional home health services will be billed under Part B.
- d. Where both medical and surgical charges are included on a single bill, the highest–priced service is the determining factor in classifying the bill.

  e. Data not available due to programmatic problems. Total for all services excluded independent laboratory services and all other services.
- f. Data on the number of bills are no longer available.
- g. Includes physican or supplier allowed charges as determined by the carrier and amounts actually billed by providers for outpatient hospital and home health services.
- h. Amount reimbursed to or on behalf of the beneficiary-generally 80 percent of the allowed charges, once the beneficiary has satisfied the deductible in the current year. Some radiology and pathology services are reimbursed at a 100 percent rate, regardless of the beneficiary's deductible status.

SOURCE: Centers for Medicare & Medicaid Services.

NOTES: Includes only bills for which reimbursements were made by carriers or intermediaries and recorded in Centers for Medicare & Medicaid Services records before March 29, 2002.

. . . = less than 1,000.

a. Beginning in fiscal year 1991, "Nursing facility services" category combines "ICF, All other" and "Skilled nursing facility services," which were previously separate. Data under "Nursing facility services" prior to 1991, reflect "Skilled nursing facility services."

SOURCE: 1999 Medicaid Statistical Information System, MSIS; earlier years HCFA-Form 2082, Centers for Medicare & Medicaid Services.

NOTES: Fiscal year 1977 began in October 1976 and was the first year of the new federal cycle. Before 1977, the fiscal year began in July. Beginning in fiscal year 1980, recipients' categories do not add to unduplicated total because of the small number of recipients that are in more than one category during the year. Beginning in 1998 several new medical services were combined with Other Care excludes unknowns.

... = not applicable.

SOURCE: 1999 Medicaid Statistical Information System, MSIS, earlier years HCFA-Form 2082, Centers for Medicare & Medicaid Services.

NOTES: Fiscal year 1977 began in October 1976 and was the first year of the new federal fiscal cycle. Before 1977, the fiscal year began in July. Beginning in fiscal year 1980, recipients' categories do not add to unduplicated total because of the small number of recipients that are in more than one category during the year. Beginning in 1997 Disability data includes Blindness. Children includes Foster Care, and Other are Unknowns.

a. Based on average covered employment in 12-month period.

SOURCES: Department of Labor, Employment and Training Administration and Bureau of Labor Statistics; based on data submitted by state agencies.

NOTE: Except where noted excludes data for federal employees and for ex-servicemembers; includes data for state and local government employees where covered by state law after 1955.

CONTACT: Cindy Ambler (202) 693-3177.

b. Percentages based on first payments for 12-month period.

Contributions, penalties, and interest from employers and contributions from employees in states taxing workers. Adjusted to exclude refunds of contributions and dishonored checks. Excludes state and local government employees covered on reimbursable basis.

d. Adjusted to exclude voided benefit checks and for transfers under interstate combined-wage plan. Excludes Extended Benefits and Emergency Unemployment Compensation.

e. Estimated data. As a percentage of taxable payroll. Standard contribution rate for most states, 2.7 percent. Excludes state and local jurisdictions covering state and local government employees on a reimbursable basis.

f. Total wages earned in covered employment during all pay periods ended within the year.

g. Includes dependents' allowances for states that provide such benefits.

h. Based on average total weekly wage in current year.

a. Costs include: premiums written by private carriers and state funds; benefits paid plus 11 percent administrative costs for self-insured employers; and benefits paid plus administrative expenses for federal system for government employees.

SOURCES: National Academy of Social Insurance estimates based on data received from state agencies, the Department of Labor, A.M. Best Company, and the National Council on Compensation Insurance.

NOTE: Beginning in 1959, includes Alaska and Hawaii.

CONTACT: Virginia Reno (202) 452-8097.

b. Excludes programs financed from general revenue—mostly for federal Black Lung benefits.

c. Net cash and medical benefits paid by private insurance companies under standard workers' compensation policies.

<sup>d. Net cash and medical benefits paid by competitive and exclusive state funds and by federal system for government employees; beginning in 1970, also includes cash benefits paid by federal Black Lung program.
e. Cash and medical benefits paid by self-insurers, plus value of medical benefits paid by employers carrying workers' compensation policies that exclude standard medical</sup> 

e. Cash and medical benefits paid by self-insurers, plus value of medical benefits paid by employers carrying workers' compensation policies that exclude standard medical coverage.

Table 9.B2—Benefits, by state and federal program, 1997–2000 (in thousands of dollars)

a. Calendar year data, except fiscal year data for federal civilian and other programs and for some states with state funds. Payments represent compensation and medical benefits and include insurance losses paid by private insurance carriers (compiled from state workers' compensation agencies and the A.M. Best Company); disbursement of state funds (compiled from the A.M. Best Company, state workers' compensation agencies, and U.S. Census Bureau); and self-insurance payments, estimated from available state data. Includes benefit payments under Longshore and Harbor Workers' Compensation Act for states in which such payments are made. For data for 1990, and 1993–1995, see U.S. Census Bureau, Statistical Abstract of the United States: 1999 (119th ed.) Washington, D.C., 1999, Table 630, p. 397.

SOURCES: National Academy of Social Insurance estimates based on data received from state agencies, the Department of Labor, A.M. Best Company, and the National Council on Compensation Insurance.

CONTACT: Virginia Reno (202) 452-8097.

b. Includes payments by the Social Security Administration and the Department of Labor.

a. States with exclusive funds (Nevada, North Dakota, Ohio, Washington, West Virginia, and Wyoming) also have small amounts of benefits paid by private carriers. This results from two sources: companies with group policies that overlap states and the fact that some companies include excess workers' compensation coverage in their reports of workers' compensation benefits to A.M. Best Company.

SOURCES: National Academy of Social Insurance estimates based on data received from state agencies, the Department of Labor, A.M. Best Company, and the National Council on Compensation Insurance.

NOTE: ... = not applicable.

CONTACT: Virginia Reno (202) 452-8097.

b. Self-insurance includes individual self-insurers and group self-insurance.

c. In 2000, the medical benefits estimation method changed. Medical estimates were based on data provided by the National Council on Compensation Insurance.

d. For these states, the data used for the imputation procedure were unavailable, so the percentage of medical benefits was estimated to be the weighted average of the percentages in the states reporting such a percentage.

- a. Statutory programs providing short-term cash benefits to employees unable to work because of nonoccupational illness or injury.
- b. State cost of administering state program and of supervising private plans.
- c. Benefits and beneficiary data are for periods paid or terminated in 1998.
- d. Data not available.
- e. Includes data not shown separately for special fund for workers whose disability begins during unemployment. In 1999, the fund paid \$51,161 in benefits.
- f. State fiscal year data.
- g. Estimated data.
- h. Costs elevated because of expenditures for 2000.
- i. First \$7,000 of earnings of each employee, which was paid by the employer during the calendar year.
- j. For workers whose disability begins during unemployment.
- k. Includes State Insurance Fund of \$11.9 million.
- I. Includes medical, surgical, and hospital benefits amounting to \$62.7 million paid under approved plans.
- m. For 14-day registration period.
- n. For benefit year 1998–1999 (July 1, 1998–June 30, 1999).
- o. Single system of contributions and administrative operations for railroad unemployment insurance and temporary disability; collections amounted to \$110.1 million and administrative expenses to \$15.1 million for the system in 1999.
- p. Of this amount, \$34.3 million was for regular benefits and \$3.6 million for extended benefits.

a. Includes wives of living miners, divorced wives, children, and dependent brothers and sisters of miners.

SOURCE: Department of Labor, Beneficiary Master Table, 100 percent data.

NOTE: Benefits payable under Part B of the Black Lung program established by the Federal Coal Mine Health and Safety Act of 1969. Beginning October 1, 1997, responsibility for maintenance and payment of Part B benefits was transferred from the Social Security Administration (SSA) to the Department of Labor (DOL); SSA, however, maintains responsibility for conducting formal hearings necessary to resolve contested issues with regard to Part B claims. Benefits under Part C (generally claims arising July 1, 1973 and later) are also administered by the DOL but are not included here.

a. Includes wives of living miners, divorced wives, children, and dependent brothers and sisters of miners.

SOURCE: Department of Labor, Beneficiary Master Table, 100 percent data.

NOTES: December 2001 data not available. Benefits payable under Part B of the Black Lung program established by the Federal Coal Mine Health and Safety Act of 1969. Beginning October 1, 1997, responsibility for maintenance and payment of Part B benefits was transferred from the Social Security Administration (SSA) to the Department of Labor (DOL); SSA, however, maintains responsibility for conducting formal hearings necessary to resolve contested issues with regard to Part B claims. Benefits under Part C (generally claims arising July 1, 1973 and later) are also administered by the DOL but are not included here.

CONTACT: Wayne Tacy (301) 731-5116 or Joseph Bondar (410) 965-0162.

b. Includes benefits for wives and children.

Includes benefits for surviving children, brothers, sisters, and divorced wives. Prior to December 1997, monthly payments for surviving children were included with payments to miners.

d. Not shown to avoid disclosure of information regarding particular individuals.

Table 9.F1—Number of payments, by type of payment and age, selected months and years, 1940–2001 (in thousands)

a. Thirty-four states had converted to TANF as of January 1, 1997; eight phased in over the next 5 months; the remaining 12 waited until July 1, 1997.

SOURCE: Department of Health and Human Services.

NOTES: Includes nonmedical vendor payments. Includes Alaska and Hawaii, beginning in 1943; Puerto Rico and the Virgin Islands, beginning in October 1950; and Guam, beginning in July 1959.

... = not applicable.

CONTACT: Evelyn Mills (202) 401-4055.

b. Reporting initiated July 1969. Number of states with program: 1969–1970, 23; 1971, 24; 1972, 27; 1973–1975, 29; 1976–1978, 26; 1979, 24; 1980–1984, 27; 1985–1986, 28; 1987, 29; 1988, 30; 1989, 31; 1990, 33; 1991, 34; 1992, 34; 1993, 35; 1994, 49; 1995, 50; 1996, 51; and 1997, 34. Program ended June 30, 1997.

c. TANF expenditures include cash payments and services.

d. Excludes family count and expenditures for states providing only partial data.

e. 1998 was the first full year under the TANF data reporting system for all states.

Table 9.G2—Average monthly number of families and recipients of Temporary Assistance for Needy Families and total amount of assistance, by state or other area, 2000

a. That portion of the food stamp allotment, before the elimination of the purchase requirement, represented the government's share of total food stamps received. Since January 1979, only the bonus portion of the total food stamp allotment is received by participants.

SOURCE: Department of Agriculture, Food and Nutrition Service.

NOTE: Between 1974 and 1979, Supplemental Security Income (SSI) recipients were made ineligible for food stamps in California, Massachusetts, Wisconsin and selected counties in New York and Virginia because those areas supplemented SSI payments in amounts that included the value of food stamps. As of 1983 and 1992, SSI recipients were returned to the Food Stamp program in Massachusetts and Wisconsin, respectively, when those states chose to stop including a value for food stamps in the SSI supplement.

a. An unduplicated total of households assisted cannot be derived from these data because the same household may be included under more than one type of assistance.

NOTE: ... = not applicable.

b. Totals include households that received combined heating and cooling assistance in Arizona, and California; households that received energy assistance in Hawaii with no differentiation made between heating and cooling assistance.

c. Excludes households that received combined heating and cooling assistance in Arizona, and California; housholds that received energy assistance in Hawaii with no differentiation made between heating and cooling assistance.

d. Households in winter crisis situation received expedited heating assistance.

Table 9.J1.1—Number of households receiving home energy assistance, by type of assistance, fiscal years 1982–2000

|                      |                                     |                                 | Energy crisis                 | Low-cost residential |                                               |

NOTES: An unduplicated total of households assisted cannot be derived from these data because the same households may be included under more than one type of assistance. Totals include households that received combined heating and cooling assistance in Arizona, and California; households that received energy assistance in Hawaii with no differentiation made between heating and cooling assistance.

... = not applicable.

Table 9.J2—Low-income Home Energy Assistance Program funds: Federal net allocations and amounts carried over, by state, fiscal year 2000 (in dollars)

a. Includes funds for households that received combined heating and cooling assistance in Arizona, and California; households that received energy assistance in Hawaii with no differentiation made between heating and cooling assistance.

NOTES: Includes federal LIHEAP appropriated funds and non-federal funds operated through the LIHEAP program.

... = not applicable.

Excludes funds for households that received combined heating and cooling assistance in Arizona, and California; households that received energy assistance in Hawaii with no differentiation made between heating and cooling assistance.

c. Includes \$1.9 million in state funds.

d. Excludes funds for households that received expedited heating assistance for winter crisis situations.

Table 9.J3.1—Estimated home energy assistance obligations, by type of assistance, fiscal years 1982–2000 (in dollars)

| Fiscal year | Heating                                                                                | Cooling                                                                          | Crisis                                                                                 | Weatherization             |

## **Appendix A: Sampling Variability**

A substantial number of tables in sections 5 and 6 present OASDI award and current-pay benefit data based on 1 percent and 10 percent sample files drawn from the Social Security Administration's administrative records. In addition, Tables 4.B1–4.B12 on the taxable earnings of OASDI workers are based on 1 percent administrative record samples, and Tables 7.A8, 7.B9, and 7.E2 on SSI awards are based on 10 percent administrative record samples.

Because of sampling variability, estimates based on sample data may differ from the figures that would have been obtained had all, rather than specified samples, of the records been used. The standard error is a measure of the sampling variability. About 68 percent of all possible probability samples selected with the same specifications will give estimates within one standard error of the figure obtained from a compilation of all records. Similarly, approximately 90 percent will give estimates within 1.645 standard errors, about 95 percent will give estimates within two standard errors, and about 99 percent will give estimates within two and one-half standard errors. The standard error of an estimate depends on the design elements such as the method of sampling, sample size, and the estimation process.

Because of the large number of data cells tabulated from the sample files, it is not practical to calculate the standard error for every possible cell. However, standard errors for a large number of cells were estimated. These estimates were used to fit regression curves to provide estimates of approximate standard errors associated with tabulated counts and proportions.

The tables showing the sampling variability provide a general order of magnitude for similar estimates from the various sample files. Table A.1 presents approximate standard errors for the estimated number of persons from the 1 percent and the 10 percent files. The reliability of an estimated percentage depends on both the size of the percentage and on the size of the total on which the percentage is based. Data in Tables A.2 and A.3 provide approximations of the standard errors of the estimated percentage of persons in the 1 percent and 10 percent files. The standard errors are expressed in percentage points and the bases shown are in terms of inflated data.

Table A.1— Approximations of standard errors of estimated number of persons

| Size of estimate (inflated) | Standard error |
|-----------------------------|----------------|
| 1 perce                     | ent file       |

## **Appendix B: OASDI Benefit Award Data**

OASDI benefit award data in the *Annual Statistical* Supplement are derived mainly from two sources:

- 100 percent award data: The Master Beneficiary Record (MBR) is the major administrative data base for the Social Security program. It is used for the calculation of benefits and the maintenance of information about beneficiaries. Each month, when the MBR is updated, a record of award actions is created. This record is used to prepare award data on a 100 percent basis. Data available each month include types of benefits awarded, sex of beneficiary, and the monthly benefit amounts payable. These data are used to update the time-series tables.
- Award data from the OASDI 1 percent sample: This source provides monthly award data based on a 1 percent sample derived from the MBR. The 12 monthly files are combined to produce an annual file. The 1 percent sample is used to prepare award tables, which show detailed data by age, sex, and type of benefit, and distributions by benefit amount. Award data from the 1 percent sample are similar to the data described above. An important difference, however, is the treatment of dual entitlement.

When a retired-worker beneficiary subsequently becomes dually entitled to a secondary benefit as a wife, husband, or widow or widower, the secondary benefit is counted as an award in the 100 percent data. In contrast, award data based on the OASDI 1 percent sample do not count the secondary benefit as an award when both benefits are paid from the same trust fund.

When dual entitlements are counted as awards, the number of awardees is increased and the monthly amount awarded is lowered. The person has already been counted as having received an award when he or she became entitled to the retired-worker benefit, and is counted again upon entitlement to the secondary benefit. The average benefit amount is lowered because the amount recorded for the award for the dually entitled person is only the difference between the amount of the retired-worker benefit and the amount of the secondary benefit.

## **Appendix C: Poverty Data**

Table 3.E1 presents weighted average poverty thresholds for families in the United States for 1959–2001. Table 3.E2 presents data on the number and percent of people in poverty in the United States for 1959–2000. Tables 3.E3, 3.E4, and 3.E6 present more detailed data on people and families in poverty in the United States during 2000. (Both poverty thresholds and poverty population data are issued by the U.S. Census Bureau.) Table 3.E8 presents poverty guidelines by family size for the contiguous United States, Alaska, and Hawaii for 1965–2002. (Poverty guidelines are issued by the U.S. Department of Health and Human Services.)

Poverty thresholds are used primarily for statistical purposes—producing statistics on the number of Americans in poverty. Poverty guidelines are used for administrative purposes—for example, to determine whether a person or family is financially eligible for assistance or services under certain federal government programs (not including cash public assistance). Both thresholds and guidelines are sets of dollar figures which vary by family size and (in the case of the thresholds) family composition.

The poverty thresholds were developed in 1963–1964 by Mollie Orshansky of the Social Security Administration as a measure of income inadequacy. The poverty definition was modified in 1969 and 1981 by federal interagency committees. The thresholds were based on food expenditure/income patterns (from the Department of Agriculture's 1955 Household Food Consumption Survey) and the costs of the Department of Agriculture's economy food plan for families of different sizes and compositions. (See Joseph Dalaker, U.S. Census Bureau, "Poverty in the United States: 1998," Current Population Reports: Consumer Income, Series P60-207, September 1999, Appendix A, for an explanation of the poverty definition.) While the poverty thresholds in some sense represent families' needs, the official poverty measure should be interpreted as a statistical yardstick rather than as a complete description of what people and families need to live.

The poverty thresholds have become the basis for the official statistics on the extent of poverty in the United States which are issued annually by the Census Bureau in the Current Population Reports series. The thresholds are adjusted annually for price changes using the annual average consumer price index (CPI-U). (See U.S. Bureau of the Census, "Revision in Poverty Statistics, 1959 to 1968," *Current Population Reports: Special Studies*, Series P-23, No. 28, August 1969; and Directive No. 14, "Definition of Poverty for Statistical Purposes," *Statistical Policy Handbook*, U.S. Department of Commerce, Office of Federal Statistical Policy and Standards, 1978.)

The poverty guidelines are a simplified version of the poverty thresholds; there are separate sets of guidelines for the two noncontiguous states (Hawaii and Alaska). The guidelines are used for determining whether a person or family is financially eligible for assistance or services under certain federal programs. Authorizing legislation or regulations for specific programs indicate whether a program uses the poverty guidelines as one of several eligibility criteria, uses a modification of the guidelines (for example, 125 percent or 185 percent of the guidelines), or uses them for the purpose of setting priorities in providing assistance or services.

Since 1973, the guidelines have been computed from the poverty thresholds by increasing the most recently published weighted average poverty thresholds by the percentage change in the CPI-U over the past year (more precisely, from the next most recent calendar year to the most recent calendar year) and rounding the figure for a family of four up to the next highest multiple of \$50. Figures for all family sizes over and under four persons are computed by adding or subtracting equal dollar amounts derived from the average difference between poverty lines (rounded to the nearest multiple of \$20).

The poverty thresholds were calculated using data (the 1955 Household Food Consumption Survey) that defined income as after-tax money income; accordingly, the thresholds were intended to be applied to data on money income. The National Research Council's Panel on Poverty and Family Assistance put great emphasis on the principle of consistency in poverty measurement—that the definition of family resources (income) used should be consistent with the concept underlying the poverty thresholds. (For a discussion of this principle, see Measuring Poverty: A New Approach, Constance F. Citro and Robert T. Michael (eds.), Washington, D.C., National Academy Press, 1995, pp. 4, 9-10, 37-40, 65-66, 98, 203-206, and 227-231. This important report proposed a new approach for developing an official poverty measure for the United States.) According to the Panel's principle of consistency, it would be inappropriate to apply the current poverty thresholds (calculated using an income definition of after-tax money income) to an income distribution that used an income definition of money income plus selected noncash benefits.

As noted above, the poverty thresholds were developed in 1963–1964 by Mollie Orshansky of the Social Security Administration. In May 1965—just over a year after the Johnson Administration had initiated the War on Poverty—the Office of Economic Opportunity adopted Orshansky's thresholds as a working or quasi-official definition of poverty. At that time, the thresholds comprised a matrix of 124 detailed poverty thresholds based on the total number of family members, the number of family members who were related children under age 18, the sex

of the family householder, the age of the individual or family householder (for one- and two-person units only), and whether the family lived on a farm.

In 1969, a federal interagency committee made two changes in the poverty definition: the thresholds would be annually updated by the consumer price index instead of by the per capita cost of the economy food plan, and farm poverty thresholds would be set at 85 percent rather than 70 percent of corresponding nonfarm thresholds. (Poverty threshold and poverty population figures for prior years were retabulated retrospectively on this basis.) In August 1969, the Bureau of the Budget designated the poverty thresholds with these revisions as the federal government's official statistical definition of poverty.

In 1981, several other changes recommended by another interagency committee were made in the poverty definition: (1) elimination of separate thresholds for farm families, (2) elimination (through appropriate averaging) of separate thresholds for female-householder and "all other" families, and (3) extension of the poverty matrix to make the largest family size category "nine persons or more" rather than "seven or more persons." (See U.S. Bureau of the Census, "Characteristics of the Population Below the Poverty Level: 1980," Current Population Reports: Consumer Income, Series P-60, No. 133, July 1982, pp. 2-5, 9, and 186.) As a result of these changes, the current matrix of poverty thresholds used by the Census Bureau to determine the poverty status of families and unrelated individuals consists of a set of 48 detailed thresholds arranged in a two-dimensional matrix by family size (number of family members, ranging from one person, that is, an unrelated individual, to nine or more persons) crossclassified by the presence and number of family members who are related children under age 18 (from no children to eight or more children present). Unrelated individuals and two-person families are further differentiated by the age of the individual or family householder (under age 65 and aged 65 or older).

The current official definition of poverty is over 30 years old. In 1990, Congress requested a study of the official U.S. poverty measure by the National Research Council (NRC) to provide a basis for a possible revision of the poverty measure. In 1992, the NRC's Committee on National Statistics appointed a Panel on Poverty and Family Assistance to conduct this study. In 1995, the Panel published its report of the study, Measuring Poverty: A New Approach, Constance F. Citro and Robert T. Michael (eds.), Washington, D.C., National Academy Press, 1995. In the report, the Panel proposed a new approach for developing an official poverty measure for the United States—although it did not propose a specific set of dollar figures. The Panel's proposed approach focused on three major areas: new poverty thresholds, a new and consistent definition of family resources (income), and data sources.

In July 1999, the Census Bureau, in collaboration with the Bureau of Labor Statistics, released a report, Experimental Poverty Measures: 1990 to 1997 (P60-205) that examined the effects of different resource definitions and thresholds on poverty and which estimated several experimental poverty rates based on the NRC panel's recommendations. That report and subsequent updates are available on the Census Bureau poverty measurement Web page at: www.census.gov/hhes/www/povmeas.html.

Data on the poverty population and on family and personal income are collected in the March Current Population Survey (CPS). Data from the March survey are also known as the Annual Demographic File. Following the standard Census Bureau definition, the family is defined as two or more persons related by birth, marriage, or adoption and residing together. "Income" refers to money income from all sources, including public income transfers, but before federal, state, or local personal income taxes. Money income does not reflect that many families receive noncash benefits such as employee use of business transportation and facilities, employer-paid insurance and other employer-supported fringe benefits, Medicare, Medicaid, food stamps, and housing assistance. Many farm families receive benefits in the form of rent-free housing or goods produced and consumed by the family.

Every year between February and April, the sample of U.S. households interviewed in the monthly CPS is asked to provide information on household members' incomes during the preceding calendar year. Survey experience indicates that respondents tend to underreport their income in household surveys. Underreporting is most pronounced for dividends, interest and workers' compensation; less pronounced for veterans' payments, public assistance, and private pensions; and modest for Social Security and other programs. federal retirement The proportion nonresponses to CPS income questions is greater among middle income and higher income families than among lower income families.

Because the CPS sample size, content, and procedures changed several times, some differences in the data over time may in part reflect these methodological changes, not just changes in the population. Important changes to the CPS methodology took place for data years 1976, 1979, 1980, 1987, 1988, 1992, 1994, 1995, and 2000. A summary of these changes and references for more information about them appear below. The report numbers, "P60-##" refer to the Current Population Reports, Consumer Income series.

For details about how questionnaire changes and file processing changes affected the data, see Welniak, Edward, "Effects of the March Current Population Survey's New Processing System on Estimates of Income and Poverty," Proceedings of the American Statistical Association, 1990.

Further details about CPS methodology may be found in Technical Paper 63RV, available at www.bls.census.gov/cps/tp/tp63.htm.

If you need to find additional poverty data, you may browse the U.S. Census Bureau poverty Web site at www.census.gov/hhes/www/poverty.html, or contact the U.S. Census Bureau's Housing and Household Economic Statistics Division Information Staff at (301) 763-3242, or

email hhes-info@census.gov.

For further information about the statistical reliability of the CPS estimates, contact dsmd\_s&a@census.gov.

| Year      | Methodological Change                                                                                                                                                                                                                                           | Reference                                                   |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|
| 1959      | First year for which poverty data are available. The poverty measure was developed in 1963–1964.                                                                                                                                                                | P60-210<br>Appendixes                                       |
| 1969      | Modification of poverty measure. Bureau of the Budget prescribed the new measure as the official poverty measure for statistical use in federal agencies.                                                                                                       | P60-68<br>pp. 11-12                                         |
| 1976–1987 | For wide income intervals, Pareto interpolation was used to compute median income. Before 1976 and after 1987, linear interpolation was used.                                                                                                                   | P60-166<br>p. 93                                            |
| 1979      | "Householder" concept first implemented, replacing "head" concept—the husband is no longer automatically the family reference person. Secondary families (people who are related to each other but not the householder) are tallied separately from "families." | P60-130<br>pp. 6-10                                         |
|           | Change in universe—income questions no longer asked of 14-year-olds. Poverty universe changed—people under age 15 not living with any family members are excluded. (Previously, unrelated individuals under age 14 were excluded.)                              |                                                             |
| 1980      | Modification of poverty measure (final approval in 1981).<br>Estimates weighted using 1980 Census results.                                                                                                                                                      | P60-133<br>pp. 2–7                                          |
| 1987      | New CPS processing system.                                                                                                                                                                                                                                      | P60-166<br>pp. 1, 14-17<br>Welniak,<br>1990 ASA proceedings |
| 1988      | Linear interpolation used to compute median incomes.                                                                                                                                                                                                            | P60-166<br>p.93                                             |
| 1992      | Estimates first weighted using 1990 Census results.                                                                                                                                                                                                             | P60-188<br>p. vii                                           |
| 1994      | Computer-assisted interviewing replaced pencil-and-paper interviewing.                                                                                                                                                                                          | P60-189<br>p. vii                                           |
| 1994–1995 | New CPS sample design.                                                                                                                                                                                                                                          | P60-189<br>p. vii, D-3                                      |
|           |                                                                                                                                                                                                                                                                 | P60-194<br>p. v, xiii, D-3                                  |
| 1995      | Revised edit and allocation procedures for race groups.                                                                                                                                                                                                         | P60-194<br>pp. v, xiii                                      |
| 2000      | Expansion of CPS sample interviewed from about 50,000 households to about 78,000 households nationwide. Poverty data for 2000 and 2001 from sample expansion first published in P60-219, Poverty in the United States: 2001.                                    | P60-219<br>Appendix B                                       |
|           | In the same report, data were weighted using Census 2000 results.                                                                                                                                                                                               |                                                             |

#### Appendix D: Computing a Retired-Worker Benefit

This section provides instructions and a worksheet for computing a retired-worker benefit. The worksheet can be used for persons born in 1927 through 1940—that is, those who attained age 62 in 2002 or earlier and were under age 75 at the end of 2002. The worksheet assumes that the worker had no prior period of entitlement to disability benefits and also did not work after becoming entitled to retired-worker benefits.

The worksheet describes the various steps used in computing a benefit. The steps are based on the following Social Security program goals.

- To provide a benefit based on lifetime earnings. Benefits are related to earnings over a period of time that the worker could be expected to have worked in covered employment—from age 22 through age 61. The years of earnings considered are termed computation years. The worker's five lowest earnings years, including years of no earnings at all) are not considered in the computation. They are termed the drop out years.
- To index lifetime earnings. Earnings used in the computation are not the actual covered earnings, but an amount for each year which reflects earnings increases in average wage levels after the year the earnings were paid. This procedure is termed wage indexing. Currently, earnings are generally indexed to wage levels in the year the worker turns age 60. For example, for a person attaining age 62 in 2002, actual earnings in 1984 of \$20,000 are indexed to \$39,857.06, based on 2000 wage levels. Earnings after age 60 are included at their actual (nominal) value.
- To replace a portion of the indexed earnings. Indexed earnings are averaged over the number of computation years to calculate the average indexed monthly earnings (AIME). A benefit formula is applied to the AIME to produce the primary insurance amount (PIA), the amount payable to a worker who retires at age 65. The benefit formula is weighted to provide a higher replacement of earnings for lower wage workers. The formula for persons age 62 in 2002 is 90 percent of the first \$592 of AIME; plus 32 percent of the next \$2,975; plus 15 percent of the AIME over \$3,567.
- as age 62, but the monthly benefit is reduced. The reduction is 5/9 of 1 percent for each of the first 36 months of entitlement immediately preceding the age at which 100 percent of PIA is payable (65 and 6 months in the year 2002 but scheduled to increase to age 67 by the year 2022), plus 5/12 of 1 percent for each of up to 24 earlier months. For a person aged 62 in 2002, the maximum reduction is 22.5 percent if the individual is entitled to benefits for all 42 months between 62 and 65 and 6 months.

- To provide for price indexing after age 62. Benefits are adjusted annually in December to reflect increases in the consumer price index (CPI-W). The 2001 benefit increase was 2.6 percent. These cost-of-living adjustments are applied to the benefit for each year after the person attained age 62—even if the person was not actually receiving benefits.
- To give credit for earnings after age 61. Earnings after age 61 (which are not indexed) can be substituted for earnings in earlier years if they result in a higher benefit. In addition, persons who do not receive benefits between ages 65 and 69 may receive increased benefits as a result of the delayed retirement credit (DRC) provision. The benefit is increased by a specified percentage for each month a benefit was not received (See Table 2.A20 for percentage increases).

#### **Clarifying the Worksheet Procedure**

#### Step 1 - Determining the Number of Computation Years

For persons who attain age 62 prior to 1991, the number of years used in the benefit computation equals the number of years after 1950 up to the year of attainment of age 62, minus 5 years. For workers who attain age 62 in 1991 or later, the number of computation years is 35.

#### Step 2 - Wage Indexing of Earnings

The following description and examples are provided for persons who wish to compute the index factors and indexed earnings. The indexing year is the second year prior to attainment of age 62. However, beneficiaries born on January 1 are deemed to have attained age 62 in the prior year, and consequently, the applicable indexing year, factors, and bend points are those for that year.

The average wage for the indexing year is divided by the average wage in each prior year to obtain the factor for each prior year. For example, a person attains age 62 in 2002. The indexing year is 2000. The average annual wage for 2000 was \$32,154.82. The average annual wage for 1990 was \$21,027.98. The amount, \$32,154.82 divided by \$21,027.98, yields a factor of 1.5291445.

The worker's actual earnings covered under Social Security in that year, up to the maximum earnings creditable, are multiplied by the indexing factor to obtain the indexed earnings. For example, actual covered earnings of \$10,000 in 1990, multiplied by 1.5291445, result in indexed earnings of \$15,291.45; actual earnings of \$51,300 (the maximum creditable) result in indexed earnings of \$78,445.11.

### Step 3 - Computing the Average Indexed Monthly Earnings (AIME)

After the earnings in each year have been indexed, they are used in computing average indexed monthly earnings. The years of highest indexed earnings corresponding to the number of computation years are selected and totaled. This total is then divided by the number of months in the computation years. The result, rounded to the nearest lower dollar, is the average indexed monthly earnings.

For example, for a person attaining age 62 in 2002, the highest 35 years of indexed earnings are used. If the sum of these earnings equals \$400,000, the AIME is \$952 (\$400,000 divided by 420 = \$952.38, rounded to \$952).

#### **Step 4 - Computing the Primary Insurance Amount** (PIA)

The PIA, the amount from which all Social Security benefits payable on a worker's earnings record are based, is computed by applying a formula to the AIME. The formula consists of brackets in which 3 percentages are applied to amounts of AIME. The dollar amounts defining the brackets are called bend points, and the bend points are different for each calendar year of attainment of age 62. The PIA is rounded to the nearest lower ten cents.

For retired workers who attained age 62 in 2002, the bend points are \$592 and \$3,567. Thus the formula is 90 percent of the first \$592 of AIME; plus 32 percent of next \$2,975 of AIME; plus 15 percent of AIME above \$3,567. The following are examples of PIA computations for such workers with different AIME amounts.

Example 1 - AIME of \$300

PIA is \$270

Based on: 90 percent of \$300

Example 2 - AIME of \$952

PIA is \$648

Based on: 90 percent of \$592 (\$532.80); plus

32 percent of \$360 (\$115.20)

Example 3 - AIME of \$3,700

PIA is \$1,504.75 rounded to \$1,504.70

Based on: 90 percent of \$592 (\$532.80); plus

32 percent of \$2,975 (\$952.00); plus

15 percent of \$133 (\$19.95)

The above calculations are applicable to workers who attain age 62 in 2002. For workers who attained age 62 in prior years, the bend points will be different and the PIA must be increased to reflect cost-of-living adjustments between the year of attainment of age 62 and the year 2002. Worksheet 2 shows cost-of-living increase factors for 1979 through 2002. After the PIA is calculated for the year of attainment of age 62, cost-of-living increases are applied for each year through 2001. The result is the current 2002 PIA.

For example, a worker who attained age 62 in 1999 would receive cost-of-living adjustments for the years 1999–2001. The adjustments are cumulative, with each step rounded to the next lower dime. If the age 62 PIA was \$500, the cost-of-living adjustments would be:

1999: \$500 multiplied by 1.025 = \$512.50

2000: \$512.50 multiplied by 1.035 = \$530.40

2001: \$530.40 multiplied by 1.026 = \$544.10

\$544.10 would be the PIA effective December 2001.

#### Step 5 - Computation of the Monthly Benefit

The full PIA is payable to a worker who retires at age 65. However, beginning in the year 2000, the full retirement age, scheduled to be gradually raised to age 67 for workers attaining age 62 in 2022, began to be phased in. Workers can still retire as early as age 62, but the monthly benefit is reduced by 5/9 of 1 percent for each of the first 36 months of entitlement immediately preceding the full retirement age plus 5/12 of 1 percent for each of up to 24 earlier months. Workers attaining age 62 in 2002 have their benefits computed based on the full retirement age of 65 and 6 months. Worksheet 3 may be used to determine the full retirement age based on the year of birth as well as the reduction factors. For individuals electing benefits at exactly age 62 in the year 2002, the maximum reduction is 22.5 percent.

For example, in 2002 a worker with a PIA of \$500 would receive \$387.50 at age 62. The PIA is reduced by \$112.50, reflecting a reduction rate of 5/9 of 1 percent for each of 36 months and a rate of 5/12 of 1 percent for each of 6 months for a total reduction of 22.5 percent. After reduction of the PIA by \$112.50, the benefit amount is rounded down to the nearest lower dollar.

# Instructions for computing a retired-worker benefit (only for workers attaining age 62 in years 1989–2002)

| STEP 1 | .—Determining the Number of Computation Years                                                                          |      |
|--------|------------------------------------------------------------------------------------------------------------------------|------|
| 1      | Year of birth. (If your birthday is January 1, enter prior year.)                                                      |      |
| 2      | Age "62" has been entered.                                                                                             | 62   |
| 3      | Add lines 1 and 2 to obtain year of attainment of age 62 (year of eligibility).                                        |      |
| 4      | Year of attainment of age 22. If 1951 or earlier, enter 1951 (If your birthday is January 1, enter prior year.)        |      |
| 5      | Subtract line 4 from line 3 (elapsed years).                                                                           |      |
| 6      | "5" (drop-out years) has been entered.                                                                                 | 5    |
| 7      | Subtract line 6 from line 5 (computation years-maximum 35).                                                            |      |
| STEP 2 | —Indexing of Earnings (Use Worksheet 1 for Steps 2 and 3.)                                                             |      |
| 8      | Enter in column 2 your earnings in each year 1951 through 2001. If none, enter "0."                                    |      |
| 9      | Column 3 contains the maximum earnings creditable under Social Security for each year.                                 |      |
| 10     | Enter in column 4 the lower amount from columns 2 or 3 for each year.                                                  |      |
| 11     | Enter in column 5 the indexing factors applicable to the year you attained age 62 (line 3) from table 2.A8.            |      |
|        | (This table contains the indexing factors for persons attaining age 62 during the period 1989-2002.)                   |      |
| 12     | Multiply column 4 by column 5 and enter results in column 6 in dollars and cents. These are your indexed               |      |
| 12     | earnings.                                                                                                              |      |
| STEP 3 | —Computing the Average Indexed Monthly Earnings (AIME)                                                                 |      |
| 13     | Enter the number of computation years from line 7.                                                                     |      |
| 14     | Place an "X" in column 7 next to the highest indexed earnings corresponding with the number of computation             |      |
|        | years from line 13.                                                                                                    |      |
| 15     | Add all individual indexed earnings marked with an "X."                                                                |      |
| 16     | Multiply line 13 (computation years) by 12 to obtain the number of months in the computation period.                   |      |
| 17     | Divide line 15 by line 16.                                                                                             |      |
| 18     | Round the result in line 17 to next lower dollar. This is your average indexed monthly earnings (AIME).                |      |
| STEP 4 | —Computing the Primary Insurance Amount (PIA) (Use Worksheet 2 for Step 4.)                                            |      |
| 19     | Enter first bend point from Worksheet 2 based on year of attainment of age 62, or prior year if birthday is January 1. |      |
| 20     | Enter second bend point from Worksheet 2.                                                                              | _    |
| 21     | If your AIME (obtained in line 18) is equal to or less than line 19, complete lines 22–24; If greater than line 19     | _    |
|        | but less than or equal to line 20, complete lines 25–30; If greater than line 20, complete lines 31–37.                |      |
| 22     | Enter your AIME from line 18.                                                                                          |      |
| 23     | "0.9" has been entered. If you receive a pension based on noncovered employment see table 2.A11.1.                     | 0.9  |
| 24     | Multiply line 22 by line 23 and round to next lower dime to obtain your PIA at age 62. Continue with line 38.          | _    |
| 25     | Enter your AIME from line 18.                                                                                          |      |
| 26     | Multiply line 19 by 0.9. If you receive a pension based on noncovered employment see table 2.A11.1.                    |      |
| 27     | Subtract line 19 from line 25.                                                                                         |      |
| 28     | "0.32" has been entered.                                                                                               | 0.32 |
| 29     | Multiply line 27 by line 28.                                                                                           |      |
| 30     | Add lines 26 and 29 and round to next lower dime to obtain your PIA at age 62. Continue with line 38.                  |      |
| 31     | Enter your AIME from line 18.                                                                                          | _    |
| 32     | Multiply line 19 by 0.9. If you receive a pension based on noncovered employment see table 2.A11.1.                    |      |
| 33     | Subtract line 19 from line 20 and multiply by 0.32.                                                                    |      |
| 34     | Subtract line 20 from line 31.                                                                                         |      |
| 35     | "0.15" has been entered.                                                                                               | 0.15 |
| 36     | Multiply line 34 by line 35.                                                                                           | 0.10 |
| 37     | Add lines 32, 33, and 36 and round to next lower dime to obtain your PIA at age 62. Continue with line 38.             |      |
| 38     | If you attained age 62 in 2002, skip to line 44. Otherwise you will need to adjust your PIA to reflect cost-of-        |      |
|        | living adjustments (COLAs) from the year you attained age 62 through 2001 by using lines 39–43 and Worksheet 2.        |      |
| 39     | Enter year of attainment of age 62 from line 3.                                                                        |      |
| 40     | Place an "X" corresponding to the year you attained age 62 in column 5, Worksheet 2.                                   |      |

#### Appendix D: Computing a Retired-Worker Benefit

# Instructions for computing a retired-worker benefit (only for workers attaining age 62 in years 1989–2002)—*Continued*

| 41     | Place an "X" in column 5 (Worksheet 2) next to each subsequent year through 2001.                                                                                                                                                                                                                                                 |           |
|--------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| 42     | Enter your age 62 PIA from either line 24, 30, or 37—here and in shaded box in column 6, Worksheet 2.                                                                                                                                                                                                                             |           |
| 43     | Beginning with first year marked, multiply your age 62 PIA by the corresponding factor (column 4), round to lower dime, and enter in column 6. The resulting PIA is then multiplied by the next factor and is again rounded to lower dime. Continue this process through 2001. Enter this last figure, which is your current PIA. |           |
| STEP 5 | .—Computing the Monthly Benefit                                                                                                                                                                                                                                                                                                   |           |
| 44     | Enter your current PIA from either line 24, 30, 37, or 43.                                                                                                                                                                                                                                                                        |           |
| 45     | Using Worksheet 3, determine your full retirement age and enter here.                                                                                                                                                                                                                                                             |           |
| 46     | If you retired at your full retirement age round PIA from line 44 to next lower dollar to obtain your monthly benefit.                                                                                                                                                                                                            |           |
| 47     | If you retired before the full retirement age enter your age at retirement including year and months.                                                                                                                                                                                                                             |           |
| 48     | Subtract line 47 from line 45 and convert the result to months to determine the total number of reduction months.                                                                                                                                                                                                                 |           |
| 49     | If line 48 is greater than 36 subtract 36 and enter the number here.                                                                                                                                                                                                                                                              |           |
| 50     | "0.0055556" (the decimal equivalent of 5/9 of 1 percent—the monthly reduction factor for the first 36 months) has been entered.                                                                                                                                                                                                   | 0.0055556 |
| 51     | "0.0041667" (the decimal equivalent of 5/12 of 1 percent—the monthly reduction factor for months above 36) has been entered.                                                                                                                                                                                                      | 0.0041667 |
| 52     | Multiply line 48 (but not more than 36) by line 50 to obtain the percentage reduction for the first 36 months.                                                                                                                                                                                                                    |           |
| 53     | Multiply line 49 by line 51 to obtain the percentage reduction for months in excess of 36.                                                                                                                                                                                                                                        |           |
| 54     | Add lines 52 and 53 to obtain the total percentage reduction.                                                                                                                                                                                                                                                                     |           |
| 55     | Multiply line 44 by line 54 to obtain the amount of benefit reduction.                                                                                                                                                                                                                                                            |           |
| 56     | Subtract line 55 from line 44 and round to next lower dollar to obtain your monthly benefit.                                                                                                                                                                                                                                      |           |

#### Worksheet 1: Indexing of earnings

| 1            | 2             | 3                | 4                 | 5               | 6                 | 7               |
|--------------|---------------|------------------|-------------------|-----------------|-------------------|-----------------|
|              | Vaur          | Maximum taxable  | Lower of          | Indovina        | Column<br>4 times | Highest indexed |
| Year         | Your earnings | earnings         | columns<br>2 or 3 | Indexing factor | column 5          | earnings        |

a. The December 1999 cost-of-living adjustment (COLA) was originally determined to be 2.4 percent, based on the consumer price index (CPI). The underlying CPI was later recomputed by the Bureau of Labor Statistics; a 2.5 percent COLA would have been consistent with the recomputed CPI. Pursuant to P.L. 106–554, benefits were calculated and paid in August 2001 and later as if the December 1999 COLA had been 2.5 percent. Affected beneficiaries received a one-time payment to cover the shortfall that occurred before August 2001.

| 1943–1954                  | 2005-2016                    | 2008-2019                    | 66 years               | 48                       | 0.2500000                     |
| 1955                       | 2017                         | 2020                         | 66 years and 2 months  | 50                       | 0.2583333                     |
| 1956                       | 2018                         | 2021                         | 66 years and 4 months  | 52                       | 0.2666667                     |
| 1957                       | 2019                         | 2022                         | 66 years and 6 months  | 54                       | 0.2750000                     |
| 1958                       | 2020                         | 2023                         | 66 years and 8 months  | 56                       | 0.2833333                     |
| 1959                       | 2021                         | 2024                         | 66 years and 10 months | 58                       | 0.2916667                     |
| 1960 or later              | 2022 and later               | 2025 and later               | 67 years               | 60                       | 0.3000000                     |

a. If your birthday is January 1, refer to previous year.

CONTACT: Joseph Bondar (410) 965-0162 or Curt Pauzenga (410) 965-7210.

b. The monthly reduction factor for the first 36 months is 0.0055556 and 0.0041667 for additional months.

#### **Glossary**

### actuarial reduction (OASDI)

Reduction in monthly benefit amount payable on—

- 1. Entitlement prior to full retirement age if the beneficiary is a retired worker, a wife or husband of a retired or disabled worker (with entitlement not based on caring for a child beneficiary), divorced spouse, a widow(er), or a surviving divorced spouse; or
- 2. Entitlement, in case of disability, at ages 50–59 if the beneficiary is a widow(er), or surviving divorced spouse. (For formulas used to compute the reduction, see "Benefit Types and Levels" in the section Social Security (Old-Age, Survivors, and Disability Insurance.))

### administrative law judge (ALJ)

An official of the Social Security Administration's (SSA's) Office of Hearings and Appeals who is specially qualified by education and experience to hold hearings and make independent decisions regarding eligibility for SSA programs based on all the evidence and testimony. ALJs conduct impartial hearings and issue decisions to individuals who have appealed previous determinations by SSA. Also **see administrative review process**.

# administrative review process (OASDI and SSI)

The procedures followed by the Social Security Administration (SSA) in determining one's right under Title II and Title XVI of the Social Security Act. The administrative review process consists of several steps, which must usually be requested within certain time periods, in the following order: initial determination, reconsideration, decision of the administrative law judge, and a review by SSA's Appeals Council.

- 1. *Initial determination*. A determination SSA makes about an individual's entitlement to benefits or about any other matter that gives that person a right to further administrative and/or judicial review.
- Reconsideration. The first step in the administrative review process.
   When an individual disagrees with the initial determination, the individual may, within 60 days of receiving notice of the initial determination, ask SSA to reconsider the decision.
- 3. Hearing before an administrative law judge (ALJ). When an individual disagrees with the reconsidered determination, he or she may, within 60 days of receiving notice of the determination, request a hearing before an ALJ.
- 4. Appeals Council review. When an individual disagrees with the decision or dismissal of the ALJ, he or she may, within 60 days of receiving the hearing decision, request that the Appeals Council review that decision. The Appeals Council, within the Office of Hearings and Appeals, may deny or dismiss the request for review, or it may grant the request and either issue a decision or remand (return) the case to an ALJ. The Appeals Council may also review any ALJ action on its own motion within 60 days after the ALJ's action. The Appeals Council's decision or the hearing decision if the Council denies the request for review, represents SSA's final decision in the administrative review process. See expedited appeals process and federal court review.

adult (SSI)

A person older than age 21, aged 18–21 who is not regularly attending school, or a person under 21 who is married or the head of a household.

age (OASDI)

In tables showing beneficiaries in current-payment status, the age classification is based on the age of the person at his or her last birthday.

In tables showing awards data, age is the beneficiary's age in the month of award or age in year of the award, as specified.

aged beneficiary (OASDI)

A person who qualifies for benefits on the basis of age rather than on the basis of caring for a child or disability.

aged enrollee (Medicare)

An individual, aged 65 or older, who is enrolled in the Medicare program.

aged person (SSI)

A person aged 65 or older.

allowance (DI)

A determination that a worker is entitled to a cash disability benefit award or to the establishment of a period of disability because of an inability to work by reason of any physical or mental impairment.

allowed charge (Medicare)

An individual charge determined (approved amount) by a carrier for a covered medical service or supply.

annual maximum taxable limit (OASDI and HI)

The dollar amount above which earnings in Social Security covered employment is neither taxable nor creditable for benefit computation purposes. (Also referred to as "contribution and benefit base," "annual creditable maximum," "maximum contribution and benefit base," "taxable maximum," and "maximum taxable.") Under the Hospital Insurance program, there is no upper limit on earnings subject to taxes. See Table 2.A3.

assigned claim (Medicare)

A claim for which the physician or supplier agrees to accept the amount approved by Medicare as the total payment. The physician or supplier is paid 80 percent of the approved fee schedule (less any unmet deductible). The beneficiary can be charged only for the coinsurance, the remaining 20 percent of the approved amount. A participating physician or supplier agrees to accept assignment on all claims.

auxiliary benefit (OASDI)

Monthly benefit payable to a spouse or child of a retired or disabled worker, or to a survivor of a deceased worker.

average

See mean.

average indexed monthly earnings—
AIME (OASDI)

The resulting average monthly earnings of a worker after indexing of actual earnings to reflect the value of the individual's previous earnings relative to national average earnings in the indexing year. A formula is then applied to this figure to compute the primary insurance amount (PIA) for most workers who attain age 62, become disabled, or die after 1978. The indexing year is the second year before the year in which the worker attains age 62, becomes disabled, or dies. Taxable earnings after the indexing year are included at their actual value. For widow(er)'s first eligible after December 1984, the indexing year applicable to the deceased worker's earnings may alternatively be the second year before the widow(er)'s date of eligibility for survivors benefits if it results in a higher benefit.

Earnings are indexed by multiplying the worker's taxable earnings for each year after 1950 through the indexing year by the average wages of all workers for the indexing year, and dividing by the average wages of all workers for the year being indexed. Once the earnings have been indexed, the AIME is computed by—

 Determining the number of computation years—the number of years after 1950 (or the year of attainment of age 21, if later) and up to the year in which the worker attains age 62, becomes disabled, or dies, minus dropout years, generally 5 (minimum number of computation years is 2);

- 2. Selecting the actual computation years, based on highest indexed earnings from any years after 1950; and
- 3. Dividing the sum of indexed earnings in the computation years by the total number of months in the computation years.

For workers entitled to disability benefits after June 1980, the number of dropout years varies by the age attained in year of disability onset. The number is 0, 1, 2, 3, 4, and 5 for workers aged 26 or younger, 27–31, 32–36, 37–41, 42–46, and 47 or older, respectively. Effective for months after June 1981, however, disabled workers under age 37 may obtain up to 3 additional dropout years (3, 2, and 1, respectively, for those aged 26 or younger, 27–31, and 32–36) for which the worker had no earnings and was living with a child (of the worker or his or her spouse) under age 3.

average monthly wage—AMW (OASDI)

The amount of earnings used as the basis for determining the primary insurance amount (PIA) for workers who attained age 62, became disabled, or died before 1979, and also under a transitional guarantee computation for workers who attained age 62 in 1979–83 or survivors of such workers, if the resulting PIA is higher than under the AIME method. The AMW is computed by—

- 1. Determining the number of computation years-the number of years after 1950 (or the year of attainment of age 21, if later) and up to the year in which the worker attains age 62 (age 65 for men born before January 2, 1911, and the later of age 62 or the year 1975 for men born after January 1, 1911), becomes disabled, or dies, minus dropout years, generally 5 (minimum number of computation years is 2);
- Selecting the actual computation years, based on highest earnings (up to the amount of the annual maximum taxable earnings in each year), from any years after 1950; and
- 3. Dividing the sum of earnings in the computation years by the total number of months in the computation years.

See the last paragraph under AIME for special dropout rules for disabled workers.

An alternative computation method takes into account the worker's earnings after 1936, if it yields a higher PIA.

award (OASDI)

A determination that an individual is entitled to a specified type of benefit. An award action is processed adding the individual to the Social Security benefit rolls maintained for that type of benefit and is counted as an award in a particular month. Award actions are processed not only for new beneficiaries but also for persons already on the rolls whose benefits in one category are terminated but who become entitled to another type of benefit. These actions are called conversions. When a disabled worker attains the full retirement age, the worker benefit and the benefits of spouses and children are converted to the retirement category. Upon the death of a disabled worker, benefits for children are converted to the survivor child category and benefits for spouses caring for these children are converted to widowed mothers and fathers benefits. Benefits for spouses of retired and disabled workers entitled because of age are converted to nondisabled widows and widowers benefits upon the death of the worker. The above conversions are counted in the award data. The benefits for children of retired workers that are converted to benefits for children of deceased workers upon the death of the worker are not counted in the award data.

base years (OASDI)

For computing Social Security benefits, the years after 1950 up to the year a person is entitled to retirement or disability benefits. For a survivor's claim, the base years include the year of the worker's death.

bend points (OASDI)

The dollar amounts defining the AIME (Average Indexed Monthly Earnings) or PIA (Primary Insurance Amount) brackets in the benefit formulas. See Tables 2.A11 and 2.A13.

beneficiary (OASDI)

A person who has been awarded benefits on the basis of his or her own or another's earnings record. The benefits may be either in current-payment status or withheld.

benefit period (Medicare)

An alternate name for "spell of illness."

benefit reduction (OASDI)

See actuarial reduction.

benefit termination (OASDI)

See termination.

benefits in force (OASDI)

The sum of the number of persons with benefits in current-payment status and persons with benefits withheld.

benefits withheld (OASDI)

See withholding.

blind (OASDI and SSI)

"Blindness" for Social Security purposes means either central visual acuity of 20/200 or less in the better eye with the use of a correcting lens, or a limitation in the fields of vision so that the widest diameter of the visual field subtends an angle of 20 degrees or less (tunnel vision).

Black Lung Benefits Program Provides for monthly payments and medical treatment to coal miners totally disabled from pneumoconiosis (black lung disease) arising from employment in or around the nation's coal mines, augmented payments based on the number of miner's dependents, and payments to certain survivors of miners who died due to or while totally disabled from pneumoconiosis.

buy-in (Medicare)

A Medicare beneficiary who is also eligible for Medicaid and for whom Part B (Supplementary Medical Insurance) premiums are paid by a state Medicaid program.

capitation (Medicare)

A prospective payment method that pays the provider of service a uniform amount for each person served usually on a monthly basis. Capitation is used in managed care alternatives such as Health Maintenance Organizations.

carrier (Medicare)

An entity that the Centers for Medicare & Medicaid Services contracts to process physician/other supplier claims and make payments for Part B (Supplementary Medical Insurance) services.

child (SSI)

An unmarried blind or disabled person who is not the head of a household and who is either under age 18 or aged 18–21 and regularly attending school.

childhood disability benefit (OASDI)

See disabled child's benefit.

child's benefit (OASDI)

Monthly benefits payable to children of a retired or disabled worker or of a deceased worker who died either fully or currently insured. Benefits are payable to unmarried children under age 18 (up to age 19 if a full-time student attending elementary or secondary school) and to disabled children aged 18 or older who became disabled before age 22. Under

certain circumstances, benefits can be paid to stepchildren, grandchildren, or adopted children. Benefits for disabled children may continue if they marry certain other Social Security beneficiaries.

### claimant (OASDI and SSI)

The person on whose behalf an application for benefits is filed.

#### coinsurance (Medicare)

See cost-sharing.

# computation starting date (OASDI)

December 31 of either 1936 or 1950. Taxable earnings after the applicable starting date are counted in computing average monthly earnings (only starting date of Dec. 31, 1950 is applicable in computing average indexed monthly earnings).

#### consumer price index (CPI)

A relative measure of inflation computed by the U. S. Department of Labor. The CPI charts the rise in costs for selected goods and services and is used to compute cost-of-living increases. In this report, all references to the CPI relate to the CPI for Urban Wage Earners and Clerical Workers (CPI-W).

### continuing disability review (DI and SSI)

A periodic review to determine if a disabled individual is still medically eligible to receive benefits.

### contributions (OASDI and Medicare)

The amount based on a percentage of earnings, up to an annual maximum, that must be paid by—

- 1. Employers and employees on wages from employment under FICA (Federal Insurance Contributions Act),
- 2. The self-employed on net earnings from self-employment under SECA (Self-Employment Contributions Act), and
- 3. States on the wages of state and local government employees covered under the Social Security Act through voluntary agreements under section 218 of the Act.

Generally, employers withhold contributions from wages, add an equal amount of contributions, and pay both on a current basis. Also referred to as "taxes." See Table 2.A3.

### conversion of benefits (OASDI)

See awards (OASDI).

# cost-of-living adjustment (COLA)

Social Security benefits and Supplemental Security Income payments are increased each year to keep pace with increases in the cost of living (inflation). The consumer price index is used to compute COLA increases.

### cost sharing (Medicare)

The generic term that includes copayments, coinsurance, and deductibles. See also, **out-of-pocket expenses**.

Copayments—Flat fees, typically modest, that insured persons must pay for a particular unit of services, such as an office visit, emergency room visit, or the filing of a prescription.

Coinsurance—Portion of the costs paid by the beneficiary after meeting the annual deductible.

Deductibles—The annual amount payable by the beneficiary for covered services before Medicare makes reimbursement.

#### couple (SSI)

See eligible couple.

# covered earnings (OASDI)

Earnings in employment covered by the OASDI programs.

### covered employment (OASDI)

All employment and self-employment creditable for Social Security purposes.

### covered worker (OASDI)

A person who has earnings creditable for Social Security purposes on the basis of services for wages in covered employment or on the basis of income from self-employment.

### current-payment status (OASDI)

Status of a beneficiary who is paid a benefit for a given month, with or without deductions, provided the deductions add to less than a full month's benefit. The amount shown is prior to deduction for the Medicare Part B (Supplementary Medical Insurance) premium. A benefit in current-payment status at the end of a month is usually payable in the following month.

#### deductible (Medicare)

The amount paid by enrollees for covered services before Medicare makes reimbursements.

Hospital Insurance—Deductible applies to each new benefit period. It is determined each year by a formula specified by law, and approximates the current cost of a 1-day inpatient hospital stay.

Supplementary Medical Insurance—Deductible is the first \$100 of covered charges per calendar year.

#### deeming (SSI)

Takes into account the income and resources of certain persons who live with an SSI recipient when determining the amount of the payment. These persons include the ineligible spouses of adult recipients, the ineligible parents of child recipients under age 18, and the immigration sponsor for certain noncitizens.

### delayed retirement credit (OASDI)

A credit that increases the benefit amount for certain individuals who did not receive benefits for months after attainment of the full retirement age but before age 70. Delayed retirement credit increases apply for benefits beginning January of the year following the year the individual attains full retirement age.

Each monthly credit serves as a basis for increasing the monthly benefit (unless the benefit is based on a special minimum primary insurance amount) by specified percentages that depend on the year the worker attains age 62. The monthly credit was 1/12 of 1 percent for workers who attained age 62 before 1979 and 1/4 of 1 percent for workers who attained age 62 from 1979 through 1986. The corresponding monthly credits for workers who attain age 62 after 1986 are shown in table 2.A20. The increase is applicable to the worker's monthly benefit amount but not to his or her PIA, therefore, auxiliary benefits are generally not affected. However, a widow(er)'s benefit may be increased based on the credit that had been applied to the benefit of the deceased worker or for which the worker was eligible at the time of death.

# dependents benefit (OASDI)

Monthly benefit payable to a spouse or child of a retired or disabled worker.

### diagnosis-related groups (Medicare)

A classification system that groups patients according to diagnosis, type of treatment, age, and other relevant criteria. Under the prospective payment system, hospitals are paid a set fee for treatment of patients in a single diagnosis-related groups (DRG) category, regardless of the actual cost of care for the individual.

### diagnostic group (OASDI and SSI)

Classification of medical conditions, by body system, and identifies the medical condition(s) on which disability-related benefits are based. Prior to 1985, the coding of the primary and secondary diagnoses for OASDI and SSI claimants was in accordance with the *International Classification of Diseases*, 9th Revision, Clinical Modification (ICD-9-CM), using 4-digit ICD-9 codes. In 1985, the Social Security Administration implemented a

revised method to determine and enter impairment codes on administrative records. This revised approach provides for a modified impairment coding system, using three digits (followed by zero), loosely based on ICD-9. For research purposes, ICD-9 codes and SSA impairment codes are, typically, not identical. However, the diagnostic groupings shown in the statistical tables closely parallel the major ICD-9 disease classifications.

direct deposit (OASDI and SSI)

A method of payment whereby beneficiaries have their monthly benefits sent electronically to financial institutions they designate.

disability (DI)

The inability to engage in substantial gainful activity (SGA) by reason of any medically determinable physical or mental impairment that can be expected to result in death or can be expected to last for a continuous period of not less than 12 months. Special rules apply for workers aged 55 or older whose disability is based on blindness.

The law generally requires that a person be disabled continuously for 5 months before he or she can qualify for a disabled-worker benefit.

disability (SSI)

The inability to engage in substantial gainful activity (SGA) by reason of any medically determinable physical or mental impairment that can be expected to result in death or can be expected to last for a continuous period of not less than 12 months. This 12-month requirement does not apply to the blind.

The SGA criterion does not apply to children under age 18. The standard for them is a medically determinable physical or mental impairment which results in marked and severe functional limitations.

disabled child's benefit (OASDI)

A monthly benefit payable to a disabled person aged 18 or older—a son, daughter, or eligible grandchild of retired, deceased, or disabled worker—whose disability began before age 22. (Also referred to as "disabled adult child.")

disabled enrollee (Medicare)

A person under age 65 who has been entitled to disability benefits under Title II of the Social Security Act or Railroad Retirement system for at least 2 years.

disabled surviving divorced husband's benefit (OASDI)

See widow(er)'s benefit.

disabled surviving divorced wife's benefit (OASDI)

See widow(er)'s benefit.

disabled widow(er)'s benefit (OASDI)

See widow(er)'s benefit.

disabled-worker benefit (DI)

A monthly benefit payable to a disabled worker under full retirement age insured for disability. Before November 1960, disability benefits were limited to disabled workers aged 50–64.

divorced husband's benefit (OASDI)

See husband's benefit.

divorced wife's benefit (OASDI)

See wife's benefit.

drug addiction and alcoholism (OASDI and SSI)

Legislation enacted in 1996 eliminated drug addiction and alcoholism (DA&A) as a basis for entitlement to Social Security and SSI disability benefits, effective Jan. 1, 1997. Individuals for whom drugs and/or alcohol

is deemed a contributing factor material to the determination of disability cannot be entitled to disability benefits.

dual entitlement (OASDI)

Entitlement to a worker (primary) benefit and a higher secondary, usually a spouses or widow(er)'s benefit. The primary benefit is paid in full but the secondary benefit is paid only in the amount by which it exceeds the primary benefit. If the two benefits are financed from the same trust fund, the beneficiary is usually represented only once in the statistics, as a retired-worker or a disabled-worker beneficiary, and the benefit amount recorded is the larger amount associated with the auxiliary benefit. If the benefits are paid from different trust funds the beneficiary is represented twice, and the respective benefit amounts are recorded for each type of benefit.

durable medical equipment (Medicare)

Includes certain medical supplies and such items as hospital beds and wheel chairs used in a patient's home.

early retirement (OASDI)

Retirement prior to the full retirement age.

earnings (OASDI and Medicare)

All wages from employment and net earnings from self-employment, whether or not taxable or covered.

earnings test (OASDI)

The provision requiring the withholding of benefits if nondisabled beneficiaries under full retirement age have earnings in excess of certain exempt amounts. See Table 2.A29.

eligible couple (SSI)

Two persons living together as married, both of whom are eligible for SSI.

eligible individual (SSI)

An aged, blind, or disabled person eligible for SSI.

eligible worker (OASDI)

For retirement benefits, an individual who meets the insured status and age requirements for benefits whether or not he or she has filed an application; for Disability Insurance benefits, an individual who meets the insured status requirements and has established a period of disability.

emergency advance payments (SSI)

Payments available at initial application for individuals who need cash assistance before their first Supplemental Security Income payment arrives. This advance is withheld from the first check.

end stage renal disease (Medicare)

Permanent kidney failure.

entitlement (OASDI)

The state of meeting the applicable requirements for receipt of benefits, including the filing of an application. Entitlement can be retroactive and thus precede the date of award. The retroactive period can be 12 months for disabled workers, their spouses and children, and disabled widow(er)s. The maximum retroactive period for other types of benefits is 6 months. Retroactive benefits for months before full retirement age are not payable to a retired worker, a spouse or a widow(er) if a permanent reduction of the monthly benefit amount would result. However, persons filing for a widow(er)'s benefit in the month immediately following the month of the worker's death may elect a 1-month retroactivity, even if reduced benefits would result. A person can be entitled to more than one benefit simultaneously. See **dual entitlement**.

expedited appeals process (OASDI and SSI)

This permits an individual to go directly to a federal district court after review of the initial determination without first completing the administrative review process, if the only dispute is whether an applicable provision of the Social Security Act is constitutional. See **administrative review process**.

family benefit (OASDI)

The sum of the individual monthly benefits payable to all the beneficiaries entitled on the basis of a single earnings record. See **maximum family benefit**.

family classification (OASDI)

As used in statistical tables, the number and types of beneficiaries entitled to benefits on a single earnings record. Since the family classification is determined by the types of beneficiaries entitled, it can differ from actual family status. For example, a married couple is classified as a worker-and-spouse family if both persons are entitled on the earnings record of one of them. If both persons were entitled on their own earnings record they would be designated as two worker-only families.

father's benefit (OASDI)

A monthly benefit payable to a widower or surviving divorced father if (1) the deceased worker on whose account the benefit is paid was either fully or currently insured at the time of death and (2) an entitled child of the worker in his care is under age 16 or is disabled.

federal benefit rates (SSI)

The basic benefit standards used in computing the amount of federal SSI payments. Benefit levels differ for individuals and couples living in households and for persons in Medicaid institutions. Individuals or couples living in their own households receive the full federal benefit. The federal benefit is reduced by one-third, if an individual or couple is living in another person's household and receiving support and maintenance there. The federal benefit rates are increased annually to reflect increases in the cost of living.

federal court review (OASDI and SSI)

When an individual disagrees with SSA's final decision he or she may request judicial review by filing a civil action in a federal district court. See administrative review process.

federally administered payments (SSI)

Federal SSI payments and state supplementation payments issued by the Social Security Administration on behalf of the states.

federally administered state supplementation (SSI)

Cash payments provided by a state and issued by the Social Security Administration, which is also responsible for the maintenance of payment records. See **state supplementation**.

Food Stamp Program

The program issues monthly allotments of coupons that are redeemable at retail food stores, or provides benefits through electronic benefit transfer to help individuals and families with little or no income to buy food.

full retirement age (OASI)

The age at which a person may first become entitled to unreduced retirement benefits. For persons reaching age 62 before 2000, the full retirement age is 65. It will increase gradually to 67 for persons reaching that age in 2027 or later, beginning with an increase to 65 years and 2 months for persons reaching age 65 in 2003. The higher full retirement age affects the benefit amount if a person chooses to receive reduced benefits.

government pension offset (OASDI)

A law that affects spouse's or widow(er)'s benefits. Benefits are subject to reduction by any government pensions payable to the spouse on the basis of his or her own earnings in noncovered employment. The offset reduces the Social Security benefit amount by two-thirds of the amount of the government pension.

gross domestic product (GDP)

The total dollar value of all goods and services produced by labor and property located in the United States, regardless who supplies the labor or property.

health maintenance organization (Medicare) Competitive medical plans, including Medicare+Choice, that have contracts with the Centers for Medicare & Medicaid Services on a prospective capitation basis for providing health care to Medicare beneficiaries.

home health agency (Medicare and Medicaid) A public or private organization that provides skilled nursing services and other therapeutic services in the patient's home and that meets certain conditions to ensure the health and safety of the individual.

home health services (Medicare and Medicaid)

Items furnished in a patient's home under the care of physicians. These services are furnished under a plan established and periodically reviewed by a physician. They include part-time or intermittent skilled nursing care; physical, occupational, or speech therapy; medical social services; medical supplies and appliances (other than drugs and biologicals); home health aid services; and services of interns and residents.

hospice (Medicare and Medicaid)

A public agency or private organization that is primarily engaged in providing pain relief, symptom management, and supportive services to patients that are certified to be terminally ill. Medicare beneficiaries may elect to receive hospice care instead of standard Medicare benefits for terminal illnesses.

household (LIHEAP)

Any individual or group of individuals who are living together as one economic unit and for whom residential energy is customarily purchased in common, or who make designated payments for energy in the form of rent.

husband's benefit (OASDI)

Monthly benefit payable to a husband or a divorced husband (aged 62 or older) of a retired or disabled worker. See **spouse's benefit**.

independent laboratory services (Medicare) Diagnostic laboratory tests ordered by a physician and performed in a laboratory independent of a physician's office or a hospital.

inpatient hospital services (Medicare) Items and services furnished to an inpatient of a hospital by the hospital, including room and board, nursing and related services, diagnostic and therapeutic services, and medical or surgical services.

institutionalization (Medicaid and SSI)

Living arrangements for persons in public or private institutions when more than 50 percent of the cost of their care is met by the Medicaid program.

insured status (OASDI)

The state of having sufficient quarters of coverage to meet the eligibility requirements for retired-worker or disabled-worker benefits or to permit the worker's spouse and children or survivors to establish eligibility for benefits in the event of his or her disability, retirement, or death.

interim assistance (SSI)

Payments made by a state or local government to Supplemental Security Income applicants while their claims are being adjudicated. Repayment is made from the first SSI payment.

intermediary (Medicare)

An organization, selected by providers of health care, that has an agreement with the Centers for Medicare & Medicaid Services to process and pay institutional claims and perform other functions under the program.

life expectancy

The average number of years of life remaining at each tabulated birthday. See **life table (period)**.

life table (period)

A period life table represents the mortality experience of an entire population during a relatively short period of time, usually 1–3 years. Such tables are useful for analyzing changes in the mortality experienced by a population through time. The table refers to a cohort of 100,000

people with the same birthday who experience the rate of mortality, or probability of death within 1 year, shown in the table, throughout their lives.

lifetime reserve (Medicare)

Nonrenewable 60 days of inpatient hospital care to draw on if the 90 covered days per benefit period are exhausted. Patients are required to pay a daily coinsurance amount equal to one-half of the inpatient hospital deductible for each lifetime reserve day.

limitation of widow(er)'s benefit (OASDI)

The reduction of the widow(er)'s benefit due to the early retirement of the deceased spouse. The benefit for a nondisabled widow(er) is limited to the larger of 82-1/2 percent of the deceased spouse's primary insurance amount, or the amount to which the deceased spouse would have been entitled if he or she were still alive. Thus, receipt of benefits by a worker before the full retirement age will result in a reduction of benefits for a widow(er), even if the widow(er) became entitled after his or her own full retirement age. Tables showing data on reduction for early retirement for nondisabled widow(er)s do not include those with limited benefits unless they became entitled before their own full retirement age. See widow(er)'s benefit.

Low-Income Home Energy Assistance Program (LIHEAP) Federal program to assist low-income households with heating and cooling costs.

low-income households (LIHEAP)

Households with income under the greater of 150 percent of the poverty guideline for their state or 60 percent of the state median income, or households with members receiving Temporary Assistance for Needy Families, Supplemental Security Income, Food Stamps, or certain needstested veterans' benefits.

lump-sum death benefit (OASDI)

A one-time payment, generally \$255, payable on the death of a fully or currently insured worker. The lump sum is payable to the surviving spouse of the worker, under most circumstances, or if there is no spouse, to the worker's entitled children.

managed care (Medicare)

Includes health maintenance organizations (HMOs), competitive medical plans (CMPs), and other plans that provide health services on a prepayment basis which is either based on cost or risk depending on the type of contract they have with Medicare. See also **Medicare+Choice**.

mandatory minimum state supplementation (SSI)

Required by federal law for individuals converted to the Supplemental Security Income program from state assistance programs for the aged, blind, or disabled. This provision insures that monthly income will not be less than the amount received under the former state programs.

maximum family benefit (OASDI)

The maximum monthly amount that can be paid on a worker's earnings record. Whenever the total of the individual monthly benefits payable to all the beneficiaries entitled on one earnings record exceeds the maximum, each dependents or survivors benefit is proportionately reduced to bring the total within the maximum. Benefits payable to divorced spouses or surviving divorced spouses are not reduced under the family maximum provision. Tables 2.A13, 2.A14, and 2.A17 give the formulas for computing the maximum family benefit.

maximum taxable (OASDI and Medicare)

See annual maximum taxable limit.

mean

The arithmetic mean is calculated by dividing the sum of all of the values of a variable by the number of cases. The term "average" used in this publication refers to the arithmetic mean. See also **median**.

median

The median is a measure of central value which identifies that value that divides a distribution in half such that an equal number of cases fall below it as there are above it. See also **mean**.

medicaid

A federal-state program that provides medical assistance for certain individuals and families with low incomes and limited resources.

medical savings account (Medicare)

A plan that provides benefits after a single high deductible is met. Medicare makes an annual deposit to the medical savings account (MSA) and the beneficiary is expected to use that money to pay for medical expenses below the annual deductible. MSAs are currently a test program.

medically needy (Medicaid)

Persons who would be eligible for Medicaid under one of the program's mandatory or optional groups, except that their income or resources are above the eligibility level set by their state. The states may extend eligibility to these otherwise qualified persons by allowing them to "spend down" to Medicaid eligibility by incurring medical or remedial care expenses to offset their excess income, thereby reducing it to a level below the maximum allowed by that state's Medicaid plan.

Medicare

A federally administered health insurance program that covers the cost of hospitalization, medical care, and some related services for most persons aged 65 or older. Also covers persons receiving Social Security Disability Insurance payments for 2 years, and persons with end stage renal disease. Medicare consists of two separate but coordinated programs—Part A (Hospital Insurance) and Part B (Supplementary Medical Insurance).

Medicare+Choice

An expanded set of options for the delivery of health care under Medicare established by the Balanced Budget Act of 1997. Most Medicare beneficiaries can choose to receive benefits through the original fee-for-service program or through one of the following Medicare+Choice plans: (1) coordinated care plans (such as health maintenance organizations, provider sponsored organizations, and preferred provider organizations); (2) medical savings account/deductible plans (through a demonstration available to up to 390,000 beneficiaries); or (3) private fee-for-service plans.

Medicare economic index

An index that is often used in the calculation of the increases in the prevailing charge levels that help to determine allowed charges for physician services. In 1991 and later, this index is considered in connection with the update factor for the physician fee schedule.

Medigap (Medicare)

A term used for private health insurance that pays, within limits, most of the health care service charges not covered by Part A (Hospital Insurance) or Part B (Supplementary Medical Insurance).

military wage credits (OASDI and Medicare)

Credits recognizing that military personnel receive wages in kind (such as food and shelter) in addition to their basic pay and other cash payments. Noncontributory wage credits of \$160 are provided for each month of active military service from Sept. 16, 1940, through Dec. 31, 1956. For years after 1956, the basic pay of military personnel is covered under the Social Security program on a contributory basis. In addition to the contributory credits for basic pay, noncontributory wage credits of \$300 were granted for each calendar quarter from January 1957 through December 1977, in which a person received pay for military service. For the period, January 1978 through December 2001, noncontributory wage credits of \$100 were granted for each \$300 of military wages, up to a maximum annual credit of \$1,200.

### minimum benefit (OASDI)

The lowest benefit (before actuarial reduction) payable to a retired worker, a disabled worker, or a sole survivor of a deceased worker. The minimum benefit was eliminated for most workers who attain age 62, become disabled, or die after 1981.

# monthly benefit (OASDI)

The amount payable after reduction, if necessary, for age, family maximum, and other reasons but before any deduction for supplementary medical insurance (SMI) premiums. Effective June 1982, the final benefit payment is rounded to the next lowest \$1 (if not already a multiple of \$1) after reduction for age, family maximum, and other reasons and after any deduction for SMI premiums. The tables in this publication reflect the monthly benefit credited (MBC) which is calculated as follows:

- 1. Subtract the SMI premium from the monthly benefit amount;
- 2. Round the above result down to the nearest whole dollar; and
- 3. Add back the SMI premium to the rounded result from 2 above.

For example, if a monthly benefit amount is \$678.90, and an SMI premium of \$50.00 is deducted, the MBC is 678.90 (calculated as follows: 678.90 - 50.00 = 628.90 rounded down to 628.00 + 50.00 = 678.00).

### mother's benefit (OASDI)

A monthly benefit payable to a widow or surviving divorced mother if (1) the deceased worker on whose account the benefit is paid was either fully or currently insured at the time of his death and (2) the entitled child of the worker is in her care and is under age 16 or disabled.

nondisabled widow(er)'s benefit OASDI) See widow(er)'s benefit.

nonpayment status (OASDI)

See withholding.

normal retirement age (OASI)

See full retirement age.

old-age benefit (OASI)

See retired-worker benefit.

Old-Age, Survivors, and Disability Insurance (OASDI) The Social Security programs that pay monthly cash benefits to:

- 1. Retired worker (old-age) beneficiaries and their spouses and children and to survivors of deceased insured workers (OASI), and
- 2. Disabled-worker beneficiaries and their spouses and children and for providing rehabilitation services to the disabled (DI).

optional state supplementation (SSI)

May be provided by states to bring the combined Supplemental Security Income and state payment to an amount more nearly commensurate with their costs of living than is the SSI payment alone.

outpatient services (Medicare)

Services furnished to outpatients by a participating hospital for diagnosis or treatment of an illness or injury.

own household (SSI)

A definition used to determine the federal benefit rates. Applies to adults who own their living quarters, are liable for the rent, pay their pro rata shares of household expenses, are living in households composed only of recipients of public income-maintenance payments, are placed by agencies in private households, and children living in their parent's household. See **federal benefit rates**.

parent's benefit (OASDI)

Monthly benefit payable to a dependent parent aged 62 or older of a deceased fully insured worker.

payment status (OASDI)

The state or condition of a benefit with respect to actual receipt by the beneficiary—that is, whether the benefit is in current-payment status or withheld.

peer review organization (Medicare) A group of practicing physicians and other health care professionals, paid by the federal government, to review the care given to Medicare patients.

physician services (Medicare)

Services provided by an individual licensed under state law to practice medicine or osteopathy. Services provided by hospitals are not covered by this provision.

preferred provider organization (Medicare)

An arrangement between a provider network and a health insurance or a self-insured employer. Providers generally accept payments less than traditional fee for service payments in return for a potentially greater share of the patient market. Preferred provider organization enrollees are not required to use the preferred providers, but are given financial incentives to do so, such as reduced coinsurance and deductibles. Providers do not accept financial risk for the management of care.

presumptive disability or blindness (SSI)

For certain diagnoses, where there is high probability of a favorable medical determination of disability or blindness, payments may be made for up to 6 months before the formal determination if the applicant meets the other eligibility qualifications.

primary insurance amount (OASDI)

The primary insurance amount (PIA), is related to a worker's average monthly wage or average indexed monthly earnings. The PIA is used to compute all types of benefits payable on the basis of an individual's earnings record. Retired workers electing benefits at the full retirement age and disabled workers who did not receive a retirement benefit reduced for age receive a benefit equal to the PIA. Dependents and survivors of workers receive specified percentages of the PIA subject to the family maximum and entitlement before the full retirement age.

primary insurance amount formula (OASDI) The mathematical formula relating the primary insurance amount (PIA) to the AIME (average indexed monthly earnings) for workers who attain age 62, become disabled, or die after 1978. The PIA is equal to the sum of 90 percent of AIME up to the first bend point, plus 32 percent of AIME above the first bend point up to the second bend point, plus 15 percent of AIME in excess of the second bend point. Automatic benefit increases are applied beginning with the year of eligibility.

prospective paymentsystem (Medicare)

A method of reimbursement for hospitals that was implemented effective with hospital cost reporting periods beginning on or after Oct. 1, 1983. Under this system, Medicare payment is made at a predetermined, specific rate for each discharge. All discharges are classified according to a list of diagnosis-related groups.

Prouty benefit (OASI)

See special age-72 benefit.

Provider (Medicare and Medicaid)

*Medicare*—A provider is a facility, supplier, or physician who furnishes medical services.

Medicaid—A provider is a person, group, or agency who provides covered services to enrollees.

Qualified Medicare Beneficiaries (Medicare and Medicaid) Qualified Medicare Beneficiaries are persons with incomes at or below 100 percent of the federal poverty level and resources at or below 200 percent of the Supplemental Security Income limit. Medicaid pays the Medicare (Parts A and B) premiums and the coinsurance and deductibles, subject to limits that states may impose on payment rates.

quarters of coverage (OASDI and Medicare)

The crediting of coverage needed for insured status. A worker receives 1 quarter of coverage (up to a total of 4) for a designated amount of annual earnings reported from employment or self-employment. This dollar amount is subject to annual automatic increases in proportion to increases in average earnings. For amounts in years 1939 to present, see Table 2.A7. No more than 4 quarters of coverage may be credited for any calendar year, and no quarter of coverage is credited after the quarter in which death occurred or for a quarter entirely included in a period of disability.

Railroad Retirement

A federal insurance program designed for workers in the railroad industry. The provisions of the Railroad Retirement Act provide for a system of coordination and financial interchange between the Railroad Retirement program and the Social Security program.

reasonable cost (Medicare)

Intermediaries and carriers use the Centers for Medicare & Medicaid Services guidelines to determine reasonable costs incurred by providers in furnishing covered services to enrollees. Reasonable cost is based on the actual cost of providing such services, including direct and indirect costs of providers and excluding any costs that are unnecessary in the efficient delivery of services covered by the Hospital Insurance program.

redetermination (SSI)

The periodic review of eligibility for each Supplemental Security Income recipient to ensure that eligibility continues and that payments are in the proper amount.

reduction for early retirement (OASDI)

See actuarial reduction.

representative payee (OASDI and SSI)

A person designated by the Social Security Administration to receive monthly benefits on behalf of a beneficiary when such action appears to be in the beneficiary's best interest. A representative payee is appointed for an adult beneficiary when the beneficiary is physically or mentally incapable of managing his or her own funds. In addition, a payee is usually appointed to receive benefits on behalf of a child under age 18.

retired-worker (oldage) benefit (OASI)

Monthly benefit payable to a fully insured retired worker aged 62 or older, or to a person entitled under the transitionally insured status provision in the law. Retired-worker benefit data do not include special age-72 benefits, unless indicated.

retirement age (OASI)

The age at which an individual establishes entitlement to retirement benefits. See **full retirement age**.

retirement earnings test (OASDI)

See earnings test.

Secondary benefit (OASDI)

Monthly benefit payable to a spouse or child of a retired or disabled worker, or to a survivor of a deceased worker.

Section 1619(a) (SSI)

See special cash payments.

Section 1619(b) (SSI)

See special recipient status.

self-employed (OASDI and HI)

One who derives income from the operation of a partnership or

skilled nursing facility (Medicare)

nonincorporated trade or business.

An institution that has a transfer agreement with one or more participating

hospitals, is primarily engaged in providing skilled nursing care and rehabilitative services to inpatients, and meets specific regulatory certification requirements.

Social Security number (OASDI and HI)

A nine-digit number used to identify the record of earnings an individual has in employment or self-employment covered by Social Security.

**Social Security Act** 

Public Law 74-271, enacted August 14, 1935, with subsequent amendments. The Social Security Act consists of 20 titles, of which four have been repealed.

special age-72 benefit (OASI)

Monthly benefit payable to men who attained age 72 before 1972 and to women who attained age 72 before 1970 and who do not have sufficient quarters of coverage to qualify for a retired-worker benefit under either the fully or the transitionally insured status provisions. (Also known as Prouty benefits.)

special cash payments (SSI)

Continuing cash benefits for disabled individuals whose gross earned income is at the amount designated as the substantial gainful activity level. The person must continue to be disabled and meet all other eligibility rules.

special minimum PIA (OASDI)

An alternative primary insurance amount (PIA) based on the worker's length (years) of covered employment. It is designed to help those who worked in covered employment for many years but had low earnings. See Table 2.A12 for computation of the special minimum PIA.

special recipient status (SSI)

For Medicaid purposes, provides special status to working disabled or blind individuals when their earnings make them ineligible for cash payments.

Specified Low-Income Medicare Beneficiaries (Medicare and Medicaid) Persons who meet all Qualified Medicare Beneficiary requirements except that their incomes are slightly higher, though less than 120 percent of the federal poverty level. Medicaid pays their Part B (Supplementary Medical Insurance) premium.

spell of illness (Medicare)

ending with the close of the first period of 60 consecutive days thereafter in which the beneficiary is in neither a hospital or skilled nursing facility. Monthly benefit payable to a spouse or a divorced spouse of a retired or

A period of consecutive days beginning with the first day on which a beneficiary is furnished inpatient hospital or extended care services and

spouse's benefit (OASDI)

Monthly benefit payable to a spouse or a divorced spouse of a retired or disabled worker under one of the following conditions:

- 1. The spouse is aged 62 or older or has an entitled child of the worker in his or her care who is under age 16 or is disabled; or
- 2. The divorced spouse is aged 62 or older and was married to the worker for 10 years before the divorce became final. Effective with benefits payable after December 1984, a divorced spouse of an eligible worker can be entitled to benefits if he or she meets the requirements for entitlement and has been divorced for at least 2 years, regardless of whether the worker has filed for benefits or has benefits withheld due to the earnings test. Effective with benefits payable beginning January 1991, the 2-year period is waived if the worker was entitled to benefits before the divorce. The earnings test will continue to apply to the divorced spouse's own earnings; or
- 3. Effective with benefits payable beginning January 1991, a deemed spouse (including a divorced deemed) spouse), regardless of whether the legal spouse is entitled to benefits on the same earnings record. A deemed spouse is a person who entered into an invalid ceremonial marriage in good faith.

state-administered supplementation (SSI)

See state supplementation.

state supplementation (SSI)

Payments to eligible persons made under state provisions. These payments may vary by the recipient's living situation and by geographic area within the state. The payments are federally and state administered.

student benefit (OASDI)

Child's benefit payable to a full-time unmarried elementary or secondary school student aged 18–19. Student benefits end at age 19 or at the end of the current semester or quarter, whichever is later.

substantial gainful activity (DI and SSI)

Remunerative work that is substantial, as determined from considering the amount of money earned, and or the number of hours worked, and the nature of the work. See Table 2.A30 for money amounts.

Supplemental Security Income (SSI)

Program for the needy aged, blind, and disabled. Replaced the former federal-state programs of Old-Age Assistance, Aid to the Blind, and Aid to the Permanently and Totally Disabled.

surviving divorced father's benefit (OASI)

See father's benefit.

surviving divorced mother's benefit (OASI) See mother's benefit.

surviving divorced spouse's benefit

See widow(er)'s benefit.

spouse's benefit (OASI)

Benefit payable to a survivor of a deceased insured worker.

survivors benefit (OASI)

suspended benefit (OASDI)

A benefit not in current-payment status.

taxable earnings (OASDI and HI)

Wages and/or self-employment income that is under the applicable annual maximum taxable limit.

taxable maximum (OASDI and HI)

See annual maximum taxable limit.

taxable selfemployment income (OASDI and HI) The maximum amount of net earnings from self-employment by an earner which, when added to any taxable wages, does not exceed the contribution and benefit base. For Hospital Insurance beginning in 1994, all net earnings from self-employment.

taxable wages (OASDI and HI)

See taxable earnings.

taxes (OASDI and HI)

See contributions.

technical entitlement

A technical entitlement occurs when a beneficiary is entitled to benefits on more than one earnings record but is eligible to receive benefits on only one earnings record. There are two types of technical entitlement: (1) Simultaneous technical entitlement: beneficiary is entitled to the same type of benefit on more than one earnings record; (2) Potential dual entitlement: the secondary benefit amount potentially exceeds the primary benefit, but reduction for age or family maximum causes the primary benefit to exceed the secondary benefit amount.

Temporary Assistance for Needy Families (TANF)

Created by the Personal Responsibility and Work Opportunities Reconciliation Act of 1996, TANF provides assistance and work opportunities to needy families. Replaced Aid to Families with Dependent

Children (AFDC), Emergency Assistance, and Job Opportunities and Basic Skills Training (JOBS) programs.

#### Temporary Disability Insurance (TDI)

Sometimes called cash sickness benefits, TDI provides workers with partial compensation for loss of wages caused by temporary nonoccupational disability. Only five states, Puerto Rico, and the railroad industry have TDI laws.

termination (OASDI)

Cessation of payment of a specific type of benefit because the beneficiary is no longer entitled to receive it. For example, benefits might terminate as a result of the death of the beneficiary, the recovery of a disabled beneficiary, or the attainment of age 18 by a child beneficiary. In some cases, the individual may become immediately entitled to another type of benefit (such as the conversion of a disabled-worker beneficiary at full retirement age to a retired-worker beneficiary).

totalization (OASDI)

International agreements that coordinate the U.S. Social Security programs with the Social Security programs of other countries are called "totalization agreements."

Thrifty Food Plan (Food Stamp Program)

A low-cost model diet plan based on the National Academy of Sciences' Recommended Dietary Allowances. Households are issued a monthly allotment of food stamps based on the Thrifty Food Plan.

Trust fund (OASDI and Medicare)

Four separate accounts in the U.S. Treasury in which are deposited the equivalent of taxes received under the Federal Insurance Contributions Act, the Self-Employment Contributions Act, contributions dealing with coverage of state and local government employees, any sums received under the financial interchange with the railroad retirement account, voluntary hospital and medical insurance premiums, and transfers of federal general revenues. Funds not withdrawn for current monthly or service benefits, the financial interchange, and administrative expenses are invested in interest-bearing federal securities, as required by law. The interest earned is also deposited in the trust funds.

- 1. Old-Age and Survivors Insurance (OASI). The trust fund used for paying monthly benefits to retired-worker (old-age) beneficiaries and their spouses and children and to survivors of insured workers.
- 2. Disability Insurance (DI). The trust fund used for paying monthly benefits to disabled-worker beneficiaries and their spouses and children and for providing rehabilitation services to the disabled.
- 3. Hospital Insurance (HI). The trust fund used for paying part of the costs of inpatient hospital services and related post-hospital care for aged and disabled individuals who meet the eligibility requirements.
- 4. Supplementary Medical Insurance (SMI). The trust fund used for paying part of the costs of physicians' services, outpatient hospital services, and other related medical and health services for voluntarily insured aged and disabled individuals.

#### Unemployment Insurance

A federal-state coordinated program that provides partial income replacement to regularly employed members of the labor force who become involuntarily unemployed. All 50 states, the District of Columbia, Puerto Rico, and the Virgin Islands have unemployment insurance programs.

Veterans' benefits

A variety of benefits and services to veterans and their dependents and survivors that include, but are not limited to disability compensation, benefits for survivors, health care benefits, and educational assistance and training.

widowed father's benefit (OASI)

See father's benefit.

widowed mother's benefit (OASI)

See mother's benefit.

widow(er)'s benefit (OASDI) Monthly benefit payable to a widow(er) or surviving divorced widow(er) of a worker fully insured at the time of death, if he or she is (1) aged 60 or older or (2) aged 50–59 and has been disabled throughout a waiting period of 5 consecutive calendar months that began no later than 7 years after the month in which the worker died or after the end of his or her entitlement to benefits as a widowed mother or father.

A surviving divorced widow(er)'s marriage to a worker must have lasted 10 years before the divorce became final. Effective for benefits payable after December 1983, benefits are continued for disabled widow(er)s and surviving divorced widow(er)'s who remarry after the age of first eligibility for benefits.

Effective January 1991, benefits may be payable to a deemed widow(er), including a divorced deemed widow(er). A deemed widow(er) is a person who entered into an invalid ceremonial marriage in good faith.

wife's benefit (OASDI)

A monthly benefit payable to a wife or divorced wife of a retired or disabled worker. See **spouse's benefit**.

Windfall Elimination Provision-WEP (OASI and DI) A modified benefit formula for determining the primary insurance amount, which eliminates the windfall in benefits for individuals who have only minimal Social Security coverage and will receive a pension based on years of work in noncovered employment. This formula prevents a windfall to persons who unfairly benefit from provisions aimed at low-income workers. The change was phased in for workers eligible for retirement or Disability Insurance benefits and for a pension from noncovered employment beginning in 1986; became fully effective in 1990. See Table 2.A11.1

withholding (OASDI)

Suspension of benefit payments until the condition(s) causing deductions are known to have ended. The suspension does not affect eligibility for Hospital Insurance benefits.

worker (OASDI)

A person who has earnings creditable for Social Security purposes on the basis of services for wages in covered employment or on the basis of income from covered self-employment. Data on covered self-employment exclude self-employed persons who had no self-employment income taxable or creditable under Social Security because they had wages or salaries reaching the annual taxable maximum reported for the same year.

workers' compensation and public disability benefit offset (DI) A requirement that reduces the benefits to a disabled worker and dependents if the worker also receives workers' compensation (WC) or other public disability benefits (PDB). The reduction continues until the month the worker reaches age 65 or the month the WC/PDB payments stop, whichever comes first.
