Appendix 2. Policy on Overlapping Boundaries

The Community Capacity Development Office has revised the policy regarding shared and overlapping boundaries for proposed and previous Weed and Seed sites which states that the site boundaries of the proposed Weed and Seed areas cannot include an existing, former, or portion of an existing/former Weed and Seed site.

Beginning in FY 2009, Weed and Seed Communities competitive applicants may include in proposed Weed and Seed areas portions of prior Weed and Seed sites, provided --

- a. When applying, applicants must include a justification of why they are including the overlapping area and must meet the following criteria:
 - (1) The proposed Weed and Seed overlapping area must be the area of highest crime in the prior site;
 - (2) The prior Weed and Seed site must have concluded its designation period three (3) years before the application due date;
 - (3) Overlapping portions (land area) must:
 - A. be comprised of less than 50% of the prior site area and
 - B. be comprised of less than 50% of the new area;
 - (4) The majority of the population of the proposed Weed and Seed area must reside in the new area;
 - (5) A Geographic Information System (GIS) map evidencing the level of Part I Violent Crimes must be submitted, showing both the proposed and prior Weed and Seed areas and prior Weed and Seed site; and,
 - (6) The application justification for overlapping areas should include documentary evidence of sustained relationships with all levels of government, law enforcement and social services agencies.
 - (7) Additionally, in Tribal settings,
 - A. the grant application must be accompanied by a current authorizing resolution of the governing body of the tribal entity. If the grant will benefit more than one tribal entity, a current authorizing resolution from each tribal entity must be included. If the grant application is being submitted on behalf of a tribal entity, a letter or similar document authorizing the inclusion of the tribal entity named in the application must be included.
 - B. For tribal applicants, if GIS is not available, the justification must include:
 - (i) the current jurisdictional setting (i.e. Public Law 280, law enforcement services),
 - (ii) statistical information on Part I and II Crimes, and
 - (iii) the declination of violent crime cases from prosecution.

- b. Additionally, in tribal settings where the proposed Weed and Seed area is more than 50% of the prior Weed and Seed site, a tribal applicant may apply and compete for resources, if it did not:
 - (1) formerly pass an authorizing resolution to participate,
 - (2) participate on the Steering Committee as a Member, and
 - (3) contract for services through the Weed and Seed site grant.

Appendix 3. Indian Tribe Information

Indian Country and Working with Indian Tribes

Eligibility

In H.R. 3402, “Chapter 2 – Building Community Capacity to Prevent, Reduce, and Control Crime”, it reads:

“Section 105. Inclusion of Indian Tribes.
For purposes of Section 103 and 104, the term “State” includes an Indian tribal government.”

The Congress has directed the Office of Justice Programs that “Indian tribe and tribal” is defined as: “An Indian tribe is any Indian tribe, band, nation or organized group or community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat.688)[43 U.S.C. 1601 et seq.], which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians. 25 U.S.C.S. 450b(e).”

Additionally, in Alaska, applicants are advised that funds awarded through this program to the tribes listed below may not be used for court or law enforcement officers for a tribe or village, pursuant to Public Law 108-199 § 112 (a)(1). The following tribes are subject to the above restriction on use of funds: (1) tribes in which fewer than 25 Native members live in the village year around; and (2) tribes that are located within the boundaries of the Fairbanks North Star Borough, the Mantanuska Susitna Borough, the Municipality of Anchorage, the Kenai Peninsula Borough, the City and Borough of Juneau, the Sitka Borough, or the Ketchikan Borough.

Tribal Resolution

Each Indian tribe who applies must submit a Tribal Resolution. If a tribal consortium is applying for resources, a Tribal Resolution must be provided by each participating Indian tribe. These formal documents will be filed as part of the official grant file.

If a non-Indian applicant partners with an Indian tribe, a Tribal Resolution must be provided with the application. To obtain a Tribal Resolution, please work with your tribal contact (i.e. chief of police). It will require education of the community and a presentation before the Tribal Council or governing body, as appropriate. A Tribal Resolution is a formal document issued by an Indian tribal government.

Coordination between State, Country, Local and Tribal Agencies

The Weed and Seed Community application is focused on a place-based strategy and includes coordination among law enforcement, human services, and community development agencies of the applicable levels of government—federal, state, county, local and tribal—and other organizations. Add the various federal policies of Indian Country such as Public Law 83-280, which confers criminal jurisdiction from federal to state authority, to Weed and Seed strategy planning and implementation and coordination will become either very streamlined or very difficult. Applicants are highly encouraged to work with the U.S. Attorney’s Office to assist in bringing appropriate agencies to the table. If an entity (tribal or non-tribal) does not positively respond to requests for information (i.e., crime data) or meeting invitations (i.e., Weed and Seed Steering Committee), please document and file. On the application, please reference the

number of outreach efforts and response by (tribal or non-tribal) agencies. This information will assist you in application competition. Follow directions and complete all sections in the application.

Given the number of potential agencies involved on tribal lands, it is recommended that a tribe and its partners provide an initial training on the tribe and its criminal justice system and community development efforts. Likewise, any partners should also provide the same training to assist in building trusting relationships. This education process should continue every year through the life of a project and include more agencies.

Data Collection

Part I, Violent Crime, and Part II, Other Index Crimes, are required to compete. CCDO and its peer reviewers are aware that crime data and victimization information are problematic for some Indian tribes, especially those located in Public Law 83-280 and similar jurisdictions. If this information is not available, providing a short, concise narrative describing the crime in your designated area is recommended. In lieu of any crime data, CCDO will work with the Office of Justice Services, Bureau of Indian Affairs, U.S. Department of Interior, and other U.S. Department of Justice components on violent crime in the respective jurisdiction, when appropriate.

Additionally, it is recommended that prospective applicants invest in a local victimization survey, which is a local community survey conducted by the community that gauges the crime and victimization in a community. To date, three Indian tribes have developed their survey instrument, educated their own community residents on how to conduct the survey, and analyzed the data. A summary of the information can be found on [American Indians and Crime, A BJS Statistical Profile, 1992-2002](#) (<http://www.ojp.usdoj.gov/bjs/abstract/aic02.htm>). Information on the local victimization surveys, see www.ojp.usdoj.gov/bjs/cvict.htm.

Resources

Many requests are made to CCDO to learn more about Indian tribes—the history of Indian Nations is varied and fascinating. Reference material, reading written history, and listening to oral history are encouraged. The best source is your contact or the cultural office in the tribal government. For immediate questions, please see:

Appendix 4. Information Collection Resources

The Weed and Seed Strategy is a geographically based effort. As a result, applicants and grantees in their annual Government Performance and Results Act (GPRA) reports must provide the boundaries for their designated areas along with crime and other program information specific to the community where their strategy is being implemented. The boundary information is used to create computer-based maps for each local community's designated area, which are displayed on the CCDO Weed and Seed Data Center Web site (www.weedandseed.info). Since many of the local sites do not conform to Census or other administrative boundaries, a software utility has been employed that produces detailed demographic data tables for each designated area using the computer-based maps and U.S. Census data files, along with commercially generated current-year population estimates.

Along with the local sites' designated area maps, the CCDO Weed and Seed Data Center Web site contains the custom demographic data tables and the most recent GPRA reports. The maps can be accessed interactively with user-selectable data layers showing Safe Haven locations, HUD-funded public housing, USGS aerial photos, and other administrative features such as state and local government boundaries, Census tracts, ZIP codes, and congressional districts. In addition to accessing information by local Weed and Seed Communities, users can obtain lists of sites by various characteristics. These capabilities require the use of computer mapping and spatial database software, national street- and base-related map files, and national demographic files.

For application review purposes, Data Profiles have been produced that compare the proposed designated areas for selected crime and demographic characteristics with their surrounding jurisdiction, region, and the entire United States. Applicants must provide their designated area boundaries and 3 years of crime data. Using the computer-based tools mentioned previously and national Census and crime data files, the Data Profiles are generated. This information provides some context for understanding the relative severity of the community conditions in locations being proposed for new Weed and Seed Communities. The distribution of these Data Profiles is limited to the applicants and CCDO staff and consultants.

Selected Resources for Crime Data

The U.S. Department of Justice/Bureau of Justice Statistics (BJS) is an important resource for crime data. Crime reports traditionally consist of monthly counts of offenses and arrests for certain offense categories. State and local agencies report these summary data to the FBI's Uniform Crime Reporting (UCR) Program. The top three crime problems indicated by UCR data are 1) homicide, 2) aggravated assault, and 3) robbery. The BJS Web site is an excellent resource about crime data <http://www.ojp.usdoj.gov/bjs/>. The site also provides information that the FBI has been collecting on homicides through the Supplementary Homicide Reports for many years and has launched the National Incident-Based Reporting System (NIBRS) to provide additional information about crime that was comparable across jurisdictions and included more types of crime. BJS also has online crime-reported summary data as part of its *Law Enforcement Management and Administrative Statistics* and crime data from about 3,900 reporting local law enforcement agencies with population coverage of more than 10,000.

The National Archives of Criminal Justice Data (NACJD) is an important resource for crime data used in research-based projects across the United States. The mission of the NACJD is to facilitate research in criminal justice and criminology, through the preservation, enhancement, and sharing of computerized data resources; through the production of original research based on archived data; and through specialized training workshops in quantitative analysis of crime

and justice data. All of the research projects from the National Institute of Justice (NIJ) and many studies from the Bureau of Justice Statistics are archived here. NACJD has Resource Guides and Data available to cover a wide range of topics. The Web site is <http://www.icpsr.umich.edu/NACJD>.

The Uniform Crime Reporting (UCR) Program was conceived in 1929 by the International Association of Chiefs of Police to meet a need for reliable, uniform crime statistics for the nation. In 1930, the FBI was tasked with collecting, publishing, and archiving those statistics. Today, several annual statistical publications, such as the comprehensive *Crime in the United States*, are produced from data provided by nearly 17,000 law enforcement agencies across the United States. For more information, see <http://www.fbi.gov/ucr/ucr.htm#cius>.

The Mapping and Analysis for Public Safety Program (MAPS), of the National Institute of Justice has on its Web site a listing of all law enforcement agencies across the United States that have online crime analysis mapping. Many of these sites contain data that is downloadable or can be requested. The URL is: <http://www.ojp.usdoj.gov/nij/maps/links.htm>.

The Justice Research and Statistics Association (JRSA) is a national nonprofit organization of state Statistical Analysis Center (SAC) directors, researchers, and practitioners throughout government, academia, and criminal justice organizations (<http://www.jrsa.org/>). Many of the individual SACs contain data from in state research projects on crime and criminal justice. A listing of Web sites for each SAC is available on the JRSA Web site. JRSA also maintains the online *Weed and Seed Data Center*: <http://www.weedandseeddatacenter.org/>.

Formula Grant State Administering Agencies

Many states have developed information and local data about crime as part of their use of formula funds received from the U.S. Department of Justice (DOJ). To learn more about what local data systems may already be available to help your community plan crime prevention and neighborhood improvement strategies, contact your OJP state administering agency listed at: <http://www.ojp.usdoj.gov/saa/index.htm>.

Demographic/Economic and Social Neighborhood Indicators

HUD USER (HUD's online system for downloading data for analysis about housing and economics) provides interested researchers with access to the original electronic data sets generated by PD&R sponsored data collection efforts, including the American Housing Survey, HUD median family income limits, as well as micro data from research initiatives on topics such as housing discrimination, the HUD-insured multifamily housing stock, and the public housing population. The URL is: <http://www.huduser.org/datasets/pdrdatas.html>.

The U.S. Department of Housing and Urban Development (HUD) also has a program called the Neighborhood Networks. HUD created Neighborhood Networks in 1995 to encourage property owners to establish multi-service community learning centers in HUD insured and assisted properties. Neighborhood Networks was one of the first federal initiatives to promote self-sufficiency and help provide computer access to low-income housing communities. Neighborhood Networks centers help to improve computer access, advance literacy, prepare residents to take advantage of employment opportunities, and provide access to healthcare information and other social services. Information can be found at: <http://www.hud.gov/offices/hsg/mfh/nnw/nnwindex.cfm>.

U.S. Bureau of the Census provides the census data that is the most concise source for demographic data to describe your neighborhood. This Web site gives you many options for looking up local data: <http://www.census.gov/main/www/cen2000.html>.

One relatively easy way to obtain 2000 census data from this homepage is to use the box titled “*Enter a Street Address to Find Census 2000 Data.*” Once the address, city, state and ZIP code have been entered, you will be given the option to view data for the ZIP code, as well as the entire state, county, county subdivision, block/block group, and the census tract or the congressional district. The range of data that can be viewed includes population, housing, and selected economic data. Maps can also be generated. In addition, one can select “*State and Local Quick Facts*” to compare county and state population and housing data in which the Weed and Seed designated area is located.

Unemployment

For updated unemployment statistics, please visit the U.S. Department of Labor Web site at <http://data.bls.gov/cgi-bin/surveymost?la>.

Additional Neighborhood Data Resources

Many local communities have already developed online information systems containing housing or crimes data to facilitate neighborhood analysis and planning. Check with your local police department, county or city community/housing development or planning office, or local United Way to see if this is available in your community.

As a key partner in developing your Weed and Seed Strategy, *the local police department or local prosecutor should be approached to obtain local crime data for the designated area.* Today, police departments frequently use computer-mapped crime locations to delineate hot spots, or areas with high concentrations of crime. Highlighting such areas helps police direct patrols where they are most needed, thereby optimizing the deterrent effect of police presence. To learn more about crime mapping, visit the National Institute of Justice’s Mapping and Analysis for Public Safety program Web site at: <http://www.ojp.usdoj.gov/nij/maps/about.htm>.

Appendix 5. Sample Memorandum of Agreement (MOA)

MEMORANDUM OF AGREEMENT
[Neighborhood's Name] Weed and Seed Community
[Name of USAO District]
[City, State]

I. IN GENERAL

Weed and Seed is a program under the administration of the Community Capacity Development Office (CCDO) in the Office of Justice Programs (OJP), United States Department of Justice. CCDO assists states, units of local governments, neighborhoods, and community-based organizations in developing Weed and Seed Strategies under the authority of the Omnibus Crime and Control Safe Streets Act of 1968 (42 U.S.C. 3712 § 103 to 105).

II. PURPOSE

This initiative aims to prevent, control, and reduce violent crime, drug abuse, and gang activity. Its operative strategy incorporates a community-based, comprehensive multi-agency approach to law enforcement, crime prevention, and neighborhood restoration. It is designed for neighborhoods with persistent high levels of serious violent crime and corresponding social problems. Weed and Seed Communities are developed in partnership with many local organizations including the United States Attorney's Office (USAO) to reduce crime and improve the quality of life in a community. Partnering entities are required to primarily draw on and redeploy existing public and private resources in crafting problem resolution rather than focusing on limited discretionary federal grant funds.

The strategy recognizes the importance of involving community residents who are intimately familiar with local community conditions and community decisionmakers who have the responsibility, authority, and control of existing community public and private resources. These groups must work together in identifying and solving the problems in their neighborhoods. Actions pursuant also help to address related social problems that without proper intervention often lead to violent crime, drug abuse, and gang activity.

Recognizing that only with the redeployment of existing community resources can significant and sustainable change be achieved in consistently high-crime neighborhoods, the undersigned governmental and non-governmental agencies have embraced the common goal of significantly reducing violent crime and narcotics activity in the following community:

- [Name of target area – This section must state the geographical-jurisdictional boundaries of the program]

This initiative will consist of law enforcement operations and strong community engagement to suppress criminal activities, empower residents to build safer neighborhoods, and facilitate in the implementation of highly effective, sustainable restorative strategies.

III. PARTIES

A. A Steering Committee will be established to plan and implement intervention measures in the targeted community. The United States Attorney must serve as a voting

member of the Steering Committee. Members of the committee will include at least one (1) representative from the following agencies, faith-based organizations, community-based organizations, corporations, and residents:

- [USAO District]
Representative's Name
Position at the Weed and Seed Steering Committee or Sub Committee
- [Applicant's agency name]
Representative's Name
Position at the Weed and Seed Steering Committee or Sub Committee
- Chair of the Steering Committee
- All others

IV. GENERAL UNDERSTANDINGS, AGREEMENTS, AND REQUIREMENTS

- A. All members of the Steering Committee will meet at a set date and time to be established at the convenience of its members, at least bi-monthly.
- B. Employees, volunteers and/or agents of non-governmental organizations may be required to submit to a criminal background check in accordance with the policy of the Office of Justice Programs, U.S. Department of Justice.
- C. The parties will be responsible for the creation and execution of their operations in the target areas.
- D. All parties will work to ensure that programs initially developed by the Steering Committee will be operationally transferred and integrated into existing public or private organizations as soon as possible—throughout the life of the project—to achieve sustainability and enable the Steering Committee to maintain its design, planning, and development functions.
- E. Due to investigative sensitivities, specific and detailed information relative to law enforcement operations, including individual suspects and targets, will generally not be shared outside of the law enforcement partnership. However, the Subcommittee will create and execute plans that seek to address problems identified by the inclusive Steering Committee.
- F. Neither Party to this MOA shall release information derived from the other Party to a non-participating third party without prior approval of the contributing MOA Party.
- G. All participating agencies will be required to submit progress reports to the Chairperson of the Steering Committee on a quarterly basis. This information is needed to comply with the initiative's overall reporting requirements as well as to capture information for evaluation purposes.

Appendix 6. Steering Committee and Mini-Grants Procedures

Applicants that are selected for funding are required to submit the following within 90 days of acceptance of the FY 2009 Weed and Seed Communities Competitive award by the grantee:

Steering Committee Policies and Procedures: The Steering Committee is **required** to adopt policies and procedures for its operations. Any changes to these policies and procedures must be submitted throughout the grant term as those changes are adopted and must be approved by the CCDO program manager.

Mini-grants (Sub-grants) Procedures: **Sites intending to award mini-grants (sub-grants) must ensure that those mini-grant awards will be made for criminal justice purposes. Mini-grants made for anything other than criminal justice purposes will be deemed unallowable expenses.** "Criminal justice" is defined as "activities pertaining to crime prevention, control, or reduction, or the enforcement of the criminal law, including, but not limited to, police efforts to prevent, control, or reduce crime or to apprehend criminals, including juveniles, activities of courts having criminal jurisdiction, and related agencies (including but not limited to prosecutorial and defender services, juvenile delinquency agencies and pretrial service or release agencies), activities of corrections, probation, or parole authorities and related agencies assisting in the rehabilitation, supervision, and care of criminal offenders, and programs relating to the prevention, control, or reduction of narcotic addiction and juvenile delinquency."

All sites are required to provide documentation of the procedures for award and management to be used in the mini-grant process. The procedures must include a clear description of the award process, the areas (not necessarily the recipients) included, and the specific activities that the awards will fund. Primary recipients must comply with the requirements of the OJP Financial Guide. Sub-recipients must comply with state laws and procedures (if applicable), OMB Circulars, and Government-wide common rules specific to the organization type.

Appendix 7. What is a Weed and Seed Safe Haven?

A Safe Haven is a multi-service center where a variety of youth and adult services are coordinated in a highly visible, accessible facility that is secure against crime and illegal drug activity. It is a place where youth and other residents can access needed services, develop relationships, and find opportunities to be productive and successful, and enhance skills. Through its visibility, proximity, and program diversity for residents of all ages, it fosters resistance to drugs, crime, and other neighborhood problems. A Safe Haven provides an environment for residents and service providers to revitalize their neighborhood. It encourages them to identify existing core problems as well as to develop programs and services to ameliorate these problems through prevention, intervention, and treatment activities.

The Safe Haven should provide a variety of services and supportive programs, e.g., educational, cultural, recreational, health, and justice-related, with emphasis on coordinated delivery of these services. Using the risk and protective factor assessment, local communities decide on the priority risks to be addressed as well as fill existing gaps in the service delivery systems. Case management should be closely coordinated for all family members based on their unique assessment and needs.

A Safe Haven should be a safe and secure facility. A neighborhood school is one example of an ideal place to locate a Safe Haven and maximize the coordination of services. The school is usually a well-known and well-respected facility with ample room for a broad variety of activities. It is usually very defensible against crime and often protected by the drug-free school zone laws.

A Safe Haven should be accessible to a wide range of individuals from the designated neighborhood. The Safe Haven will provide youth, parents, and other residents with a safe place to go, and offer productive activities. For example, parenting classes will teach how to strengthen family bonds; teachers will be able to enhance their skills in proactive classroom management; and neighborhood groups can learn how to advocate for their community.

A Safe Haven should have trained paid and volunteer staff available. Training provided to Safe Haven staff should emphasize principles of collaboration, enhanced adult and youth case management skills, drug and alcohol abuse prevention and education, volunteer training, and planning. A Safe Haven should be open outside of normal school and work hours. It should also be open on weekends and during summer vacations.

Program selection and implementation in a Safe Haven are guided by a "risk and protective factor" approach. Risk factors are identified and prioritized, then addressed with a comprehensive strategy that reduces risks while enhancing protective factors that can lessen the impact of being exposed to these risks.

Communities can utilize a similar comprehensive risk and protective factor-focused prevention approach to solve other health and behavior problems an approach that can maximize a Safe Haven's chances for success. For additional information regarding this approach, see the *Weed and Seed Implementation Manual*.

Appendix 8. Background Screening Requirement for Staff Working with Children (including Site Directors)

A background check is required for all Weed and Seed Site Directors. In addition, the U.S. Attorney must give approval of a candidate for the site director position before he/she may be hired. A list of final candidates for the Director position must be delivered to the U.S. Attorney 15 days before the hiring decision is made.

Screening of people working with children is an important element of managing a Safe Haven and other youth-focused activities and is required by a special condition of the Weed and Seed grant. Weed and Seed Communities must develop written protocols to screen all staff that work with children, including the site coordinator.

Guidelines for the Evaluation of Information Obtained in State and National Criminal Background Checks on Potential Employees and Volunteers Who May Have Access to Children, the Elderly, and Individuals with Disabilities at Weed and Seed Communities

Background: When a person entrusted with the care of particularly vulnerable individuals (i.e., children, the elderly, or the disabled) abuses those individuals and then is found to have previously abused others or have a criminal background—questions and potential liabilities arise. To address this compelling public interest, the federal government and most states have enacted legislation that authorizes criminal record checks, including FBI fingerprint criminal record checks, on various persons who work with these vulnerable individuals (the protocols for these checks were addressed in previous memorandum dated November 5, 2002). The primary purpose of this legislation (including the National Child Protection Act [NCPA], Pub. L. No. 103-209, and the Violent Crime Control and Law Enforcement Act of 1994 [VCCLEA], Pub. L. No. 103-222) is to identify the potentially abusive persons and protect vulnerable individuals.

The Community Capacity Development Office has required background screening for several years. Once that screening is done and criminal records information is received, it is important to have consistent standards for the evaluation of this information. Therefore, uniform guidelines for the evaluation of this information need to be established. Also, to the extent possible, the hiring of the employee or the placement of the volunteer should be delayed until the entire screening process, including the evaluation of any criminal history is completed. At a minimum, the potential employee or volunteer must be restricted to supervised situations or situations in which another worker is present when dealing with vulnerable individuals until the screening process is complete. This is consistent with the suggestions provided by an Office of Juvenile Justice and Delinquency Prevention (OJJDP) publication entitled *Guidelines for the Screening of Persons Working with Children, the Elderly, and Individuals with Disabilities in Need of Support*, NCJ 167248. The publication gives the following factors to consider:

1. The relationship between the incident and the type of employee or service that the applicant will provide.
2. The applicant's employment or volunteer history before and after the incident.
3. The applicant's efforts and success at rehabilitation.
4. The likelihood that the incident would prevent the applicant from his or her responsibilities in a manner consistent with the safety and welfare of the consumers served by the agency.
5. The circumstances and/or factors indicating that the incident is likely to be repeated.
6. The nature, severity, number, and consequences of the incidents disclosed.

7. The circumstances surrounding each incident, including contributing societal or environmental conditions.
8. The age of the individual at the time of the incident.
9. The amount of time lapsed since the incident occurred.

Given the gravity of the compelling public interest involved, the factors delineated above should be interpreted in a manner that provides the greatest protection to the vulnerable individuals. Therefore, the following guidelines are to be used when evaluating criminal history information concerning applicants (which term is to be understood to include persons who have already begun work at the site):

- The applicant must not have felony convictions of any type or any misdemeanor convictions involving violence, fraud, or criminal sexual misconduct.
- The applicant must not have any conviction for an offense against a child or dependent adult.
- The applicant must not have any misdemeanor convictions involving a breach of the peace or drug related offenses within the past 5 years proceeding the date of the background check.
- Applicants with previous military employment must not have been convicted of any court martial higher than a summary court martial.

These guidelines will help further the primary purpose—identifying the potentially abusive persons and protecting the vulnerable individuals of the NCPA while, at the same time, staying within the spirit of the recommendations in OJJDP publication, NCJ 167248. For further information or elaboration on these guidelines, contact the Community Capacity Development Office at (202) 616-1152.

Any waiver from this policy must be requested in writing by memorandum from the U.S. Attorney to the Community Capacity Development Office, along with accompanying documentation.

Appendix 10. Law Enforcement Base Pay Justification

CCDO is clarifying its existing policy for non-allowance of funds for base pay for sworn law enforcement patrol officers. CCDO does not allow use of its funding for law enforcement base pay. However; on a case-by-case basis we will consider allowing Weed and Seed funding to be used for sworn law enforcement patrol officer base pay when the following minimum criteria are demonstrated by applicants:

- 1) Use of federal funds does not supplant existing state, local or tribal law enforcement funding; and
- 2) Size of the proposed site jurisdiction's sworn law enforcement force is below nationally established norms; or,
- 3) Number of sworn law enforcement officers per square mile is below national norms for rural communities.

Applicants meeting the above must in addition provide a justification which covers why they are below nationally established norms (see justification guidance below).

Required Justification

The following information must be provided in a justification for use of Weed and Seed funding for servicing sworn law enforcement patrol officer base pay requests:

- Clear evidence that such use of funds is critical to the success of goals,
- Evidence that the request supports a major component of the applicant's Weed and Seed Community Strategy.
- An Authorized vs. Actual Sworn Officer/Deputy Staffing Chart.

In providing the justification, the applicant should consider describing and providing information related to:

Law Enforcement Capacity:

- Law enforcement force staffing configuration
- Full vs. part-time sworn law enforcement officer staffing in the proposed site
- Strength of the servicing sworn law enforcement officer patrol component answering calls for service and/or interacting with the citizenry (Detective force may be included only if they are utilized)
- Servicing sworn law enforcement officer patrol staffing vs. geographic area
- Servicing sworn law enforcement officer patrol staffing vs. site population
- Law enforcement response times
- Current arrest powers or other arrangements in place/available (i.e. security contracts or citizen/cadet units)
- Law enforcement officer safety
- Citizen satisfaction survey information related to response rates and crime resolutions

Current Activities to Fill Gaps in Service:

- What is being done?
- Why this is insufficient?

Sustainability Plan

- What is the proposed sustainability plan after Weed and Seed funding?
(NOTE: Continuing applicants in years 3 through 5 must identify in justifications what their plans are for sustaining and funding requested law enforcement officer base pay after Weed and Seed funding subsidies).

Appendix 11. Budget Detail Worksheet and Budget Narrative Form

Budget detail utilizes OMB Form 1121-0188, which may be found at:
http://www.ojp.usdoj.gov/funding/forms/budget_detail.pdf.

Appendix 12. Sample Budget Detail Worksheet and Budget Narrative

OMB Approval No. 1121-0188
Expires 5-98 (Rev. 12/97)

Please bear in mind that this sample budget is designed under the assumption that all items listed will be paid directly by the grantee organization; i.e., a municipality. Non-profit organizations, etc., that serve as fiscal agents need to ensure that all items that are not direct expenditures of the organization are detailed under the Contractual category (section G). For example, the police overtime costs would not be direct expenditures of a non-profit organization. Applicants should refer to the OJP Financial Guide at <http://www.ojp.usdoj.gov/finguide06/index.htm> for assistance in the financial management of Weed and Seed grant funds.

Match Requirement (cash or in-kind): A grant made under this program may not cover more than 75% of the total costs of the project being funded. The applicant must identify the source of 25% non-federal portion of the budget and how match funds will be used. Applicants may satisfy this match requirement with either cash or in-kind services. Matching funds are restricted to the same uses of funds as allowed for Federal funds.

Purpose: The Budget Detail Worksheet may be used as a guide to assist you in the preparation of the budget and budget narrative. You may submit the budget and budget narrative using this form or in the format of your choice (plain sheets, your own form, or a variation of this form). However, all required information (including the budget narrative) must be provided. Any category of expense not applicable to your budget may be deleted.

Note: Indirect cost and/or administrative expenses may not account for more than 10% of the Weed and Seed grant. This 10% cap extends to all administrative functions. For example, usually the Site Director's job includes administrative activities (financial management, reporting, etc.) and this portion of their salary would be covered under the 10% cap. Salary that can be attributed to strictly program-related activities (coordinating the Steering Committee, organizing neighborhood activities, cultivating partnerships) would not be included under the cap.

Sample Budget Narrative

The purpose of the Budget Narrative is to present clear justification for all expenses outlined in the Budget Detail Worksheet. Thorough justifications ensure timely processing of grant applications. Narratives should address each of the major cost categories (personnel, fringe benefits, travel, equipment, supplies, and consultants). Applicant should provide brief descriptions of the duties of all positions, justify all equipment purchases, and explain how contracts will help achieve goals and objectives of the Weed and Seed Strategy.

Personnel (\$79,180)

- 1) A request of \$35,000 will cover personnel costs for the full-time Weed and Seed Director.
- 2) A request of \$5,400 will cover the cost of overtime for Officers involved in a Joint Law Enforcement Operation within the designated area.
- 3) A request of \$2,600 will assist in the cost incurred to increase supervision of youth on parole/probation.
- 4) A request of \$12,600 will cover the cost of overtime for 2 Community Police Officers who will be assigned to Safe Havens and once a month make educational presentations at local schools in the designated area.
- 5) A request of \$7,140 will cover the cost of 4 hours per day, five days a week (20 hours) x 52 weeks for a community outreach worker.

- 7) A match amount of \$3,840 will cover the personnel cost for one Financial Analyst who will spend 20 hours a month for 12 months completing financial reports and overseeing accounts payable/receivable for the Weed and Seed grant.

Fringe (\$11,787)

- 1) A request of \$6,493 will cover the fringe benefits for the Weed and Seed Director at a rate of 18.55%. A breakdown of the rate is included in the Budget Detail Worksheet.
- 2) A match amount of \$2,245 will cover the fringe benefits for the law enforcement overtime (Joint Task Force, Gun/Drug Detail, Lt. Supervisor) at a rate of 8.7%. A breakdown of the rate is included in the Budget Detail Worksheet.
- 3) A match amount of \$2,337 will cover the fringe benefits for the Code Enforcement Officer at a rate of 18.55%. A breakdown of the rate is included in the Budget Detail Worksheet.
- 4) A match amount of \$3,840 will cover the fringe benefits for the Financial Analyst at a rate of 18.55%. A breakdown of the rate is included in the Budget Detail Worksheet.

Travel (\$7,500)

A request of \$7,500 will cover the costs to travel to Weed and Seed conferences and meetings. We estimated the cost of CCDO-sponsored conference travel to be approximately \$1,000 per trip, with two people in attendance of a total of three trips (\$1,000 x 2 people x 3 trips). For one regional/statewide meeting, we estimate \$500 per person, with three people traveling (\$500 x 3 people x 1 trip). We realize that prior to any travel, the site needs pre-approval by CCDO. These estimated trips include representation by one law enforcement officer per trip.

Equipment (\$25,939)

- 1) A request of \$2,000 for a computer (\$1,000) and printer (\$300) for the Weed and Seed Director to

conduct Weed and Seed business via e-mail, Internet, etc, to help prepare required reports to the Office of Justice Programs, and to prepare newsletters for residents in the designated area.

3) A request of \$1,400 for a Digital Video Camera for the operation and implementation of the Joint Law Enforcement Task Force.

4) A request of \$10,000 for the purchase of 10 police equipped bicycles for the Community Policing Bicycle patrol unit. The increased visual presence will aid in building relationships with community residents.

5) A request for \$500 for the purchase of 10 digital/cellular telephones to be used by members of the Citizen Police Academy. The Participants will use the telephones to report crimes to Community Policing Officers assigned to the designated area. The telephones will provide the community with a direct link to the Police Department in an effort to dispel the myth that Police Officers are not easily accessible.

6) A request for \$3,140 for implementation and operation of a crime mapping program.

7) A match amount of \$1,600 will cover the cost of 10 workstations for the Safe Haven computer lab.

9) A match amount of \$1,236 will cover the cost for 2 storage units that will be housed at the Safe Haven computer lab.

10) A match amount of \$1,663 will cover the cost for 4 desks that will be used in the Safe Haven offices.

2) A total of \$50 will be for the Joint Law Enforcement Task Force - Video Surveillance materials.

3) Public Relations Publications in the amount of \$2,000 will be used to inform the community of Safe Haven services, Cease Fire, Exile, and Crime Stoppers.

Contractual (\$50,570)

A request of \$36,000 for Safe Haven activities is requested. The Computer Instructor will conduct computer training in the computer lab. The Community Outreach Trainer will develop a curriculum for Community Outreach and train neighborhood associations on the curriculum. The Tutors (2.5) will tutor children at the Safe Haven after school daily. Internet service will be provided to the 11 computers in the amount of \$1,000. Copying service for Weed and Seed newsletter is budgeted at \$1,000.

Internet service will be provided for the Joint Law Enforcement Task Force to run an individual secure server in the amount of \$170. A contract between the local University for Data Entry of Crime Statistics will be in the amount of \$5,200. The data entry personnel will free officers of daily tasks of data entry. The increase in patrol time will help to create the increased presence of police officers in the designated area.

A request of \$7,200 will be used to cover the lease of an undercover vehicle for use by the Task Force in drug enforcement activities. The lease will enable the Task Force to change the vehicle periodically to ensure the integrity of the undercover operations.

Other (\$54,700)

1) Buy Money will be used by the Joint Law Enforcement Task Force to implement and operate the undercover Drug task force (\$10,000). Buy Money falls under the category of Confidential Funds, Purchase of Evidence. This category is for the purchase of evidence and /or contraband, such as

narcotics and dangerous drugs, firearms, stolen property, counterfeit tax stamps, etc., required to determine the existence of a crime or to establish the identity of a participant in a crime. **The Confidential Funds Certification must be signed and submitted at the time of grant application. For an example of the Confidential Funds Certification please see the “OJP Financial Guide, chapter 8: Confidential Funds” at <http://www.ojp.usdoj.gov/financialguide/part3/part3chap8.htm>.**

2) Office space will be needed for the Joint Law Enforcement Task Force (\$7,200). The nature of an undercover task force causes the need for separate meeting space to ensure the integrity of the operation is not compromised (\$600 per month for 12 months).

5) A match amount of \$12,000 will cover the costs for utilities for the entire Safe Haven facility (\$2,000/month for 12 months).

Appendix 13. Measuring Sustainability

- In order for CCDO to assess Weed and Seed Communities' leveraging and sustainability efforts during their 5-year strategy implementation, Weed and Seed funding applicants are required to identify other funding sources at a level five times the CCDO core funding contribution. "Other funding" is defined as coordinated and leveraged public or private funds coming into the jurisdiction—not limited to the Weed and Seed fiscal agent—that are directed, in whole or in part, towards the Weed and Seed designated area(s). By the end of the 5-year funding eligibility period, leveraged funding should equal or exceed \$875,000 (\$175,000 x 5). The other funding sources and amounts need to be clearly listed and discussed in the Sustainability section of the program narrative. (See *Developing a Sustainability Plan for Weed and Seed Sites* at <http://www.ojp.usdoj.gov/ccdo/pub/welcome.html>).
- U.S. Attorneys are requested to coordinate Project Safe Neighborhoods (PSN) and Weed and Seed initiatives to the fullest extent possible. For example, the crime analysis done for PSN should inform the law enforcement strategy for Weed and Seed Communities; and the coordination and community outreach structures for Weed and Seed should be used as a platform to advance PSN.

CCDO requires that each site have an overall Weed and Seed Site Director and strongly recommends that the Director be a full-time position, to be funded through reallocation of existing site resources and/or CCDO grant funds. For sustainability purposes, it will be necessary that prior to the conclusion of the grant period, this position be supported via resources other than the Weed and Seed grant.

Appendix 14. Local and National Evaluations

Local Evaluation. Sites are expected to perform a local evaluation. All sites are required to develop an arrangement with an academic or analytic partner to analyze their crime problems and evaluate the site's strategy and programs. At a minimum, each site must have in place a plan to measure the success of its strategy and programs. Weed and Seed Communities may call upon their state's Statistical Analysis Center (SAC) for assistance. The Justice Research and Statistics Association (202-842-9330) can help connect sites with their SAC.

Weed and Seed Communities are encouraged to review *Evaluating a Weed and Seed Strategy* (NCJ 191723), a step-by-step approach to a comprehensive local Weed and Seed evaluation. The publication is available in PDF and text formats on the CCDO website at www.ojp.usdoj.gov/ccdo/pub/welcome.html. Guidance on local evaluation also can be obtained from the OJP Bureau of Justice Assistance's Center for Program Evaluation: www.ojp.usdoj.gov/BJA/evaluation/.

National Evaluation. Sites must agree to cooperate with any local or national evaluation under the auspices of the U.S. Department of Justice during the course of the grant period.
