

SECURITY AND PATENT AGREEMENT

Each employee of the Seller performing work under this subcontract in the Company-operated plants will be required to execute, prior to the start of such work, the Company's Form UCN-124, "Agreement for Entrance, Work or Study in Facilities of the United States Department of Energy." By execution of this form, the employee acknowledges receipt of notice of, and agrees to comply with, the Security and Patent provisions of the Company's prime contract with DOE. If the employee has entered into an agreement with the Seller conflicting with the agreements contained on the Company's form, a duly authorized representative of the Seller must execute the Consent and Waiver clause contained on the Company's form.
