

Seller Environment, Safety and Health Performance (09-03)

Notice to Proposers/Offerors

It is the policy of the Company to award subcontracts only to firms that have demonstrated safety performance equal to or better than the industry average. In order to be considered for award, the proposer/offeror must have performance as follows:

- A three year average interstate Experience Modification Rate (EMR) not to exceed 1. The proposer/offeror must submit this EMR on the letterhead of its Worker's Compensation Insurance carrier. This requirement may be waived upon review and approval of the BWXT Y-12 Industrial Safety Department.
- Proposers/offerors are to submit the form OSHA 300 (OSHA 200 for 2002 and prior years) for the past three calendar years.

The proposer/offeror must submit the enclosed form entitled "*Seller Safety Qualification Questionnaire*" with its proposal/offer.

Proposals/offers received from firms which do not meet these minimum requirements will not be considered.

Note: The threshold statistical data is based on pre-determined industry classification codes which have been assigned to certain Company subcontracted services. The values were derived from the most recent North American Industry Classification System (NAICS).
